HARTFORD (AP)—The Bank and Trust Co. for safekeeping. All but one of the 10 individuals or companies subpoenaed were present in person or represented by attorneys.

The dramatic surrendering of the records was the latest chapter in the Republican-inspired probe of how the Kelly Co. has acted as a major source of Democratic patronage by handing out to sub-agents a large part of the commissions the company receives for state insurance policies.

Among the major stockholders of the company are the son and daughter of State and National Democratic Chairman John M. Bailey.

The investigation was originally launched by the House insurance committee, but Bradley, who is a former Republican state chairman and former national GOP committee man, successfully argued for a temporary restraining order in superior court.

Instead of giving up the legislative records, the Republican majority in the House to turn that whole chamber into an investigatory body and authorized the House speaker to issue subpoenas.

GOP leaders said that the probe had become in part a test of

## Nile Tragedy Dims Nasser's Algerian Visit

ALGERIA (AP)—The death of Algeria's foreign minister and the worst Nile River tragedy in modern history cast gloom today over the triumphal visit to Algeria of President Gamal Abdel Nasser of the United Arab Republic.

Festivities in Nasser's honor were called off as the Algerian government proclaimed a day of national mourning for Mohamed Khemisti, the foreign minister, Khemisti, 33, died Sunday, 24 days after a fanatic assassin fired a bullet into his head.

Egyptian villagers mourned 218 people who drowned Saturday when an overloaded ferry capsized near Maghagha, on the Upper Nile.

Authorities said 80 bodies were recovered and another 126 people, mostly women and children, were missing. The tragedy was the worst on the Nile since steamers sank near Cairo in 1912, killing 200.

A political split in Syria also clouded Nasser's mission to drum up Algerian support for Arab unity.

Nasser would like to include Algeria in the new United Arab Republic which Egypt, Syria and Iraq have agreed to form next September. But the Baath socialist group in Syria, which is dominated by the Baathists.

## Viet Nam War Claims 73rd American Life

SAIGON, South Viet Nam (AP)—An American Army helicopter was shot down today, a military spokesman said.

He added that two Vietnamese military men traveling in a jeep with the American were also executed by the guerrillas.

The three bodies were found later by a military patrol.

The identity of the American was withheld.

Military authorities were speculated that all three persons on the jeep may have been involved in an explosion that knocked the jeep off the road. Communist guerrillas have a record of killing all wounded they find, but take unaccounted prisoners.

Route 15, where the incident took place, has been the scene of bloody ambushes in the past year. At least three other American advisers in Viet Nam have been killed on this highway.

The lieutenant was the 73rd American killed in the Vietnamese war since 1961.

An American helicopter pilot was wounded Sunday by Communist gunfire. He was treated for wounds in the left hand.

Three other American advisers were wounded by a Communist grenade Saturday night as they drove through the Mekong River.

## Nixon, Rockefeller To Share Address, NYC Paper Says

NEW YORK (AP)—Former Vice President Richard M. Nixon is reported purchasing an apartment in a fashionable Fifth Avenue cooperative building in which Gov. Nelson A. Rockefeller and his former wife have apartments.

Employees of the building told newsmen Sunday night that Nixon was shown a vacant fifth-floor apartment Saturday afternoon shortly before he and his family left for Los Angeles.

Nixon and his family reportedly plan to move into the apartment before June 1, when he is scheduled to join the New York law firm of Mudge, Stern, Baldwin & Todd.

Under terms of the divorce settlement between Rockefeller and the former Mrs. Todhunter Clark, Rockefeller kept the lower floor of the three-story penthouse of the building and she kept the two upper floors.

First word of Nixon's plan to buy an apartment in the building

## Bandit Gets \$2,465 at Bank, Flees

NORWALK (AP)—A gunman wearing sports clothes and sunglasses held up a branch bank today and fled with \$2,465.

The figure was supplied by the branch manager.

The bandit walked into the New Canaan Ave. Branch of the South Norwalk Savings Bank on Rt. 123 at about 10:30 a.m.

He flashed a gun at a teller, Mrs. Dolores Dreher of Devon and the branch manager, Chester Boerum of South Norwalk, threw a brown paper bag on the counter and said:

"Fill it up or you'll get a bullet in the head."

After Miss Dreher scooped up some cash and handed the bag back to the gunman, he said: "Lay down on the floor for three minutes or you'll be shot."

He fled from the bank and apparently drove off in a car.

Located in a shopping center in the Broad River section of Norwalk, the branch bank is near the Merritt Parkway.

Police were told by persons in the area that a late model Ford sedan was parked near the bank with motor running.

An alarm was broadcast for the vehicle.

Greeted by a crowd as they arrive from New York, Gov. and Mrs. Nelson A. Rockefeller are shown at the airport in Caracas, Venezuela, on their way to their honeymoon ranch about 100 miles southwest of Caracas. (AP Photofax).

## Marriage Stirs Doubts About Rocky's Future

By RICHARD G. MASSOCK  
CARACAS, Venezuela (AP)—Gov. Nelson A. Rockefeller and his bride honeymooned today amid the idyllic beauty of his Venezuelan mountaintop ranch while debating when to return home on the effect of the marriage on his political future.

Rockefeller and his bride, the former Margaretta Fidler Murphy, arrived Sunday at his 1,200-acre Monte Sacro ranch about 110 miles southwest of Caracas.

The smiling couple flew to the honeymoon retreat by private plane after arriving in Caracas from New York on a commercial airliner. The New York governor said they expect to remain in Venezuela about two weeks.

Mrs. Rockefeller landed and a shower of rice greeted the newlyweds as they stepped out of the plane.

Chatting in Spanish with newsmen, Rockefeller predicted his second marriage will be blissful. He said they decided to spend their honeymoon here "because we love Venezuela."

The governor, 54, and his bride, an attractive woman of 38, stood atop a wing of their private plane for the brief news conference.

Mrs. Rockefeller, who has the nickname "Happy" because of her band, a sleeveless blue blouse, brown skirt and brown shoes. She carried a brown purse.

Mrs. Rockefeller said she was thrilled over her first visit to Venezuela and hopes to learn some Spanish.

She said she looks forward to horseback riding at the Rockefeller ranch which has a big stable and swimming pool. The governor translated her remarks into Spanish.

Rockefeller considered a leading candidate for the 1964 Republican presidential nomination, brushed aside questions about his political future.

He showed the same reticence as he left New York's Lido Airport telling newsmen there:

"I know you would like to discuss politics with me, but I don't think this is the time or the place. There will be plenty of chances for the subject and decisions at another time."

Political circles in the United States were divided over the effect the marriage will have on Rockefeller's career.

Some felt the romance was an

## Kennedy Held Unbeatable if Running Now

By JAMES MARLOW

WASHINGTON (AP)—From now on Gov. Nelson A. Rockefeller, because of his divorce and remarriage, will be a controversial figure in American politics at a time when voters seem to prefer placidity to controversy.

Some people, for various reasons of their own, will now turn away from the New York governor, even though they liked him before and thought he would make a good president.

This reaction may or may not be strong enough, by the time the Republicans pick their presidential candidate in 1964, to prejudice Rockefeller's chances for the nomination.

But by then the Republican leaders will face some other consideration, too:

1. Whether Rockefeller, despite the divorce and remarriage, looks like some adverse reaction, looks like the only Republican able to beat President Kennedy who seems certain to seek re-election.

2. The public attitude toward Kennedy in 1964, the state of the world, the national condition, and the mood of the people.

Kennedy, a middle-of-the-roader like President Eisenhower, would probably be unbeatable if he were

## Huge Negro Protest Held Minus Arrests

BIRMINGHAM, Ala. (AP)—Negro integration leaders say there will be no letup in massive racial demonstrations in the wake of a Sunday march by more than 1,000 Negroes who sang and prayed in a park as policemen stood by with fire hoses and dogs.

Police Commissioner Eugene Connor evaded his tactics and permitted the peaceful march from a church to a nearby park and back to the church. It was one of the largest planned demonstrations of the Southern desegregation movement.

More than 1,400 arrests have been made in the past four days of stepped-up racial activity.

Still in jails or detention quarters are about 1,000 Negroes, including more than 800 school children under 16.

"Our plans for continued demonstrations have not been changed and we will move right on Monday," said the Rev. Wyatt Tee Walker, top strategist in the movement.

Plans would be changed if bi-racial talks start, he said.

Efforts to ease the growing threat of major trouble continued as Burke Marshall, head of the U. S. Justice Department's civil rights division, worked in secret to settle the issues. He conferred with white and Negro leaders.

Scheduled to join the desegregation forces today was Negro comedian Dick Gregory who participated in voter registration efforts at Greenwood, Miss.

In the demonstration Sunday, the huge throng of Negroes walked from the New Pilgrim Baptist church, about one mile south of the spot where marches were broken up by fire hoses and police dogs Friday and Saturday.

Policemen blocked off the street Birmingham's major east-west artery. Fire trucks pulled up and hoses were laid out. Police dogs were brought in but were kept in the cars.

Their leaders had announced the march was to city

## Woolley Dies, Veteran Actor

ALBANY, N.Y. (AP)—Veteran stage and screen actor Monty Woolley died early today at Albany Medical Center Hospital. He had been in declining health in recent months.

Woolley, 74, whose trademark was a neatly trimmed white beard and mustache, had lived for many years in nearby Saratoga Springs. He had spent much of his boyhood in the resort city and considered it his home town.

He was admitted to Saratoga Hospital April 6, reportedly suffering from a heart ailment, and was transferred to the Albany hospital April 8.

The actor, often called "The Beard," probably was best known for his portrayal of Sheridan Whiteside, the lead role in "The Man Who Came to Dinner." Woolley originated the role on Broadway, where the comedy ran for two years, and later starred in the film version of the play.

He also recreated Sheridan Whiteside in a 1954 network television production of "The Man Who Came to Dinner."

During his checkered career, Woolley was a drama coach at Yale University, a successful off-Broadway plays, an actor in movies in Hollywood and finally a film star.

He received two Academy Award nominations for his roles

## Trades Strike Idles 1,000 on Hartford Jobs

HARTFORD (AP)—Approximately 1,000 construction workers were idled today as some 600 of 1,300 members of Local 43, United Brotherhood of Carpenters and Joiners of America, AFL-CIO, began picketing major building jobs in greater Hartford.

The walkout has completely shut down activity in major areas including Phoenix Mutual Life Insurance Co., adjacent to, but not part of, Constitution Plaza; Aetna Life Affiliated companies, and the Travelers Insurance companies.

Union members working on the Constitution Plaza project for the F. H. McGraw company are not affected, as well as those members on bridge construction and road building coming under a federal grant-in-aid financing.

None of the other building trades were crossing the picket lines.

The strike vote was called last Thursday. It turned down a three-year contract proposing a 10-cent an hour raise each year, offered by the Hartford Contractors Association.

Picket lines were withheld until today. Sources outside of management and labor report that some picket lines were either absolved or cut back by mid-morning.

## Born in Controversy, TVA Marks 30th Year

By ESCAR THOMPSON  
KNOXVILLE, Tenn. (AP)—The Tennessee Valley Authority was born 30 years ago as a child of controversy.

It is still controversial today, and it probably always will be so long as the private versus public power debate goes unresolved.

But TVA, spawned in the first 100 days of the Roosevelt New Deal, has a lot more than a mere power complex.

To help TVA observe its 30th birthday, President Kennedy plans to fly to Muscle Shoals, Ala., May 18 to speak at ceremonies commemorating the anniversary.

Congress in passing the TVA Act set forth several goals for the agency.

It was to harness the Tennessee River to provide flood control, navigation and power. Also it was to promote the "wellbeing of the people" living in the valley.

Chairman Aubrey J. Wagner, looking back on 29 years with TVA, says he feels the authority is successfully carrying out the role Congress laid out for it.

For example, top flood control. Torrential March rains caused an estimated \$80 million of damage in Kentucky, Virginia, West Virginia and other areas adjacent to the Tennessee Valley.

Some tributaries of the Tennessee flooded too. But TVA hydraulic engineers say the damage was only a fraction of what it would have been in the valley if dams had not been holding back the water.

Chattanooga alone would have suffered an estimated \$100 million loss if the Tennessee River had been unchecked, the engineers say.

Moreover, when the Ohio River went at its peak, TVA halted the flow of the Tennessee at Kentucky Lake for a time to help reduce flooding on the lower Ohio.

As for navigation, locks at the main river dams provide an 11-foot channel from Paducah, Ky., to Knoxville over which 13.1 million tons of freight moved last year.

Lured in part by cheap river transportation, private industry has invested \$875 million in 170 waterfront plants and terminals along Tennessee reservoirs.

TVA's best known function is power production, by far the most controversial of its activities.

The agency's power plant has a generating capacity of 12 million kilowatts. Hydro generators at 31 dams on the Tennessee and its tributaries produce 4 million kilowatts and huge steam plants 8.1 million.

Through 153 municipal and cooperative distributors, TVA electricity serves more than 1.5 million homes and business firms.

This power costs the average valley resident slightly less than 1 cent a kilowatt-hour as compared with the national average of 2.3 cents.

Private utilities and other critics of TVA call this aspect of its operations pure socialism.

They say taxpayers in all 50 states are subsidizing cheap power for residents of seven Southern states using TVA electricity.

This includes all of Tennessee and parts of Kentucky, Virginia, North Carolina, Georgia, Alabama and Mississippi.

Congress has appropriated \$1.8 billion to TVA.

TVA has paid the Treasury no interest on this money; nor has it paid any taxes directly. But the agency and its contract distributors have repaid \$190.5 million to state and local governments in lieu of taxes.

TVA is required by law to repay to the Treasury in the next 50 years all of the funds appropriated (\$1.4 billion) for power purposes.

Over the years, TVA says it has earned \$2.7 billion in gross power revenues and repaid to the

## Bosch Set To Fight at Any Excuse

SANTO DOMINGO, Dominican Republic (AP)—The Dominican government sent thousands more troops to the Haitian border today for a possible invasion of the neighboring Negro republic, government sources reported.

They said Dominican Air Force planes were flying patrols along the border and that navy vessels had linked up with U.S. warships patrolling the Caribbean off Haiti.

Tanks and assault vehicles were reported moving into position.

The sources said they could not give the exact number of troops sent to the border in the latest movements but estimated them to be "in the thousands." They added that the troops moved into positions overnight in the central border area.

Earlier, the government reported it had about 1,000 troops posed at one border point.

The government sources said light and medium tanks and other assault vehicles were deploying a large border area. They did not pinpoint the locations.

The Dominican forces apparently needed only the word from President Juan Bosch to push across the border.

Bosch is reported ready to send his forces into Haiti at the slightest provocation.

Except for an occasional truckload of troops passing through the streets, Santo Domingo was calm. There was no sign that the Dominican people had shifted to a war-footing.

Bosch, meanwhile, met with Alberto Zuleta Angel, chairman of an Organization of American States peace mission. Details of the conference were not disclosed.

In Washington, the OAS Council had an executive session on tap to study the mission's report on the Haitian crisis.

Zuleta declined to comment on reports that the four other members of his mission were seeking in Washington wider powers to deal with the threat of a clash between Haiti and the Dominican Republic. The two countries share

### BOY SCOUT Notes and News

Troop 47 Senior Scouts of 5012 Methodist Church completed a 212-mile bicycle trip from Manchester to Provincetown on Cape Cod Friday April 26.

Scoutmaster Robert VonDek and adult leader Edward Hadjan pedaled with Scouts Lawrence Adams, Robert Smith, Kenneth Richards, David Johnson, Donald Kelley, Ted Trufford, Terrence Towle, Arthur Ventura, Robert Young, Richard Brander, James Burke, John Adkinson, Robert Fenwick, Richard Larson, and Robert Carmache.

The first stop was at Greenville, R.I., 55 miles from Manchester, where Frank Peterson and Explorer Post No. 2 were host. The second day's ride was to Taunton, Mass., where they stayed at the farm of Dick Eldridge of Taunton. Tents were set up, but many of the scouts slept in the recreation room. The evening meal was a New England boiled dinner.

The third day the bicycle caravan departed for Falmouth, 49 miles from Taunton. The caravan of 40 met the scouts on bicycles built for two and escorted them to Falmouth. Lawrence Palmer and the Post leader met with the 20th Commissioner Tony Silva well.

**Mourns \$70,000**

To the Editor:

With the exception of Atty. John Rotter, I charge the six members of the Board of Education, with conduct unbecoming to the state and to the community. I would like to spend one half of a supposed \$70,000 in this year's budget.

No doubt the six members met in secret session or sessions, where the citizens were lowered to keep the information of what had transpired from leaking out.

It certainly would have made a difference in the first place if they had planned on spending the entire amount or even part of it. I would like to see the remaining \$70,000. I like to remind the voters as well as all taxpayers the information on the surplus plus came from the Board of Education.

I deplore wholeheartedly the action of the Board of Education. I define it to conduct everyone in the budget making set-up, especially the town taxpayers who are making mockery without question.

Some members of the Explorer Post group along the lines of a Boyer Bloc is urgently needed more so now than ever.

Yours truly,  
 Francis J. Happey

### A Thought for Today

Sponsored by the Manchester Council of Churches

At the close of the First Chapter of Genesis we read: "And God saw everything that He had made, and behold, it was very good."

In every direction the eyes of God perceive the beautiful, the true and the good, for the whole earth is full of His glory. He gazes in rapture at the starry firmament, with its myriads of twinkling lights, vast space, inconceivable speed, and amazing precision. He turns the book of seasons and scrolls in the sequence of unique beauty of spring and summer, fall and winter. He surveys the scene from Himalaya to Alps to Andes and traces the course of Nile and Mississippi and Amazon. Everywhere He views the sun and stars and flowers, and hears music of whispering treetops and sweet song of birds on awaking boughs. God rejoices in the pure love of a man for a maid, and in the

### Moderation On The Spot

In every crisis of human relations, there develops a whole range of solutions. At one extreme, there are those who try to ignore everything, on the theory that if you ignore a problem long enough it may disappear. At the other extreme, there are those who are so concerned that they try to solve a solution only in the most violent kind of action, and who prepare for that as if nothing else were possible, as if nothing else mattered. In between, always, the moderates, who want to keep the edges of the conflict soft, who want a solution without destroying human values on the road to the solution.

The greatest, most fundamental, most inescapable and most fearful crisis in human relations the world has ever known is that between races, specifically that between races in this United States, presumably most civilized of countries.

So far, this country has been blessed with a great degree of moderation in its efforts to deal with this problem. Moderation, in fact, has dominated. Especially has it dominated from that side of the race relationship which must come and which must be brought along, into equal American citizenship.

For this the other side of the race relationship ought to be vastly grateful. And, ideally speaking, it should respond to this not by relaxing its own efforts, because other people do have qualities of patience, but by stepping up its own efforts toward progress and solution, to prove, by meeting it in the field of accomplishment, that moderation does pay.

For some years past, however, this fortunate dominance of relative moderation in the center of the issue has been accompanied by a time clock warning from the sidelines. This warning has come from the Black Muslim movement, which has all kinds of rituals, all kinds of words, but which always winds up close to one terrible meaning—that the only way to solve the race problem is by force.

Out in that wing, the extremists have been organizing and defining themselves for their own ultimate take-over, in the day when moderation may have failed, or the day when their more violent approach takes control of the minds of people who have hitherto been patient.

This presence of the fanatic in the wing has now begun to have its first inevitable effect.

Because it represents an essential challenge to moderate leadership, the extremist organization out in the wings puts pressure on that moderate leadership to step up its own pace toward some accomplishment. The moderates are tempted and pushed into more dramatic behavior to prove that they are fit and effective champions.

So, in the end, even the non-violent approach finds there are gradations in non-violence, some more provocative and challenging than others, and more likely to evoke violent response.

That is how it comes about, down in Birmingham, that the tactics of those who like to consider themselves disciples of Gandhi are nevertheless being pushed and rubbed and stimulated by the threat, out in the wings of those who pretend to have another prophet, serving some ersatz Allah.

The moderates have to show progress and accomplishment if they are to hold the field.

That is what worries and threatens to change them. That is what ought to worry the other side of the relationship in a crisis in which the continuance of this nation is at stake.

By Whatever Logic
