ASSASSINATION OF MARTIN LUTHER KING
WASHINGTON (AP)—Columbus Day—October 12—would be a legal holiday for the whole nation under terms of a bill to be introduced today by Rep. William S. Gray, D-Ore.

"Columbus Day should be observed as a day of public reflection and the American people to strive for the kind of world envisioned by Columbus, a world of peace and justice," St. Onge said.

The former mayor of Putnam, Conn., noted that 37 of the 90 states observe Columbus Day.

"Under the circumstances," said St. Onge, "I believe the time has come for us to make this a national holiday and to pay tribute to the wide tribute to Christopher Columbus."

JULY 18

U.S. Pressing Diem For Religious Peace

(Continued from Page One)

ment reburied its personnel working on the Viet Nam problem. Chairman B. Wood for several years, was replaced by another career foreign service officer, Paul Kattenberg.

Up to this point, the United States has treated the dispute between the Buddhist leaders representing 70 to 80 per cent of the population and the government as an internal matter.

But the religious dispute had arisen at the very time when the government's military effort against the Viet Cong had started to improve.

"I would hope that some solution could be reached by the religious groups which certainly began as a religious dispute," he said.

The application was that it had not taken on political overtones as viewed by the State Department officials.

He said that the United States "would bring our influence to bear" but that the final decision is up to the Diem government.

SAIGON, South Viet Nam (AP)—Government combat police overpowered their opponents in a series of battles today and raked a Buddhist pagoda packed with 400 monks, nuns and their followers. The police carried away three Buddhists.

American plainclothesmen from four civilian and military agencies, including the Central Intelligence Agency, were roaming Saigon in increasing numbers.

Most traveled in teams and were equipped with walkie-talkie radios.

While they usually have avoided becoming involved directly in the dispute, the Americans have been observing and photographing the riots.

SAIGON, South Viet Nam (AP)—Three Americans—two special forces captains and a sergeant—were killed in a Viet Cong ambush today while distributing medical supplies to Communist forces in Binh Long Province, 70 miles due north of Saigon.

Three Vietnamese men on the mission were wounded.

Reports received by U.S. military authorities here said the Red guerrillas opened up a series of small arms fire from the road.

The Vietnamese driver of a jeep leading the medical mission was killed by the Viet Cong. An automatic weapons fire raked the other two vehicles and a jeep exploded in the second jeep, killing the American sergeant outright, fatally wounding the two U.S. captains and critically wounding another Vietnamese.

Security forces in the convoy returned the fire and the Viet Cong withdrew.

Names of the American victims were withheld.

The action took place on a highway known as "Bloody Route 3" because of the number of American casualties suffered on it.

The toll of American dead in the South Vietnamese war rose to 80. Of these 47 were killed in action and the rest in war-related incidents and accidents.

Summitry Seen After N-Test Ban

(Continued from Page One)

It said Soviet Foreign Minister Andrei A. Gromyko, U.S. Under Secretary of State W. Averell Harriman and British Science Minister Lord Hailsham had "made progress in drafting some of the provisions of a test ban treaty covering tests in the atmosphere, outer space, and under water."

An optimistic note also was sounded by Kennedy. Speaking on the basis of reports from Harriman, he said "we are still hopeful that a limited test ban would be agreed upon."

Kennedy passed a serious problem, saying success in the Moscow negotiations should lead to discussions among other nations.

He obviously meant attempts should be made to get other nations to join in the test ban—most unlikely in the case of France.

Stock Markets Study Report, Jitters Cease

(Continued from Page One)

However, Ribington promised to voice his opinions of "ill-considered" comments in the report.

The SEC special study committee assisted several times-honored stock market practices, mostly concerned with the market's side workings rather than activities directly touching the public.

It called for new curbs on short selling, floor traders and stock specialists, tighter supervision of trading in unlisted securities in the over-the-counter market and an improved system for handling odd-lot or small volume transactions.

To the financial community's relief, there was no blanket demand for segregating the broker and dealer functions of many Wall Street firms.

In his action, Diamond charged that in a \$1.5 million project begun last summer and due to begin in 1964, General Assembly These are stocks, which are not listed on any organized stock exchange. Greater supervisory con-

Police Recover Stolen Vehicle

A car stolen from an East Hartford bakery parking lot about 2 a.m. today, was recovered by Manchester police six hours later with all but the rear window smashed.

State Trooper William Shaw, a Manchester resident, first observed the vehicle at about 8 a.m. on private property off Park and Church Sts. Shaw called Manchester police.

Parkinson Richard Sullivan found the car resting against a tree.

The car, owned by Mrs. Viola Faircloth of Collinsville, had been reported by her nephew Frank F. Chappell, 20, of Canton, who works at the Wonder Bread Bakery in East Hartford.

Chappell had reported the car short after he found it missing from the bakery at about 3 a.m., when he finished work.

Sullivan said that several items, including a check book, stamp books were missing from the car. The most anguished outcry came from those who hated to see history tampered with. To them changing Jefferson's Capitol is almost criminal.

Virginia Modernizes Jefferson's Capitol

By JERRY BUCK

RICHMOND, Va. (AP)—For the money Virginia is putting out to modernize its Capitol, Mr. Jefferson could have presented each of the other 13 original states with an autographed copy.

Thomas Jefferson, who left his stamp in many ways, designed the Capitol that was erected in 1780 at a cost of only 25,701 pounds, roughly \$120,000 in those days.

Now the hallowed halls that nurtured a nation—and saw it nearly torn asunder—are being refitted to new footfalls.

There are wheelchair ramps in the Senate, scaffolds in the House and jackhammers flubbering in the committee rooms. The building has been virtually gutted in the biggest renovation since 1905.

In a \$1.5 million project begun last summer and due to begin in 1964, General Assembly These are stocks, which are not listed on any organized stock exchange. Greater supervisory con-

Life Harrying For Sherman As 'Amateur'

By JAMES BACON

HOLLYWOOD (AP)—Friday night, an estimated 20,000 people will pay good money at the Hollywood Bowl to hear Allan Sherman, the world's highest paid amateur.

It is to the day, the six-month anniversary of the first public appearance at Carnegie Hall of the pudgy former comedy writer and television producer.

For years Sherman was one of those life of the party types around Hollywood who ever and the some laughing. He did it all based on his life. He has written parodies to popular songs, always with a help of Yiddish flavor.

Allan sang his parodies for free for years. Then George Burns, Jack Benny and Hugo Martin, who had come down from London to watch.

He brooded and grumbled from his eyes and a smile creased his ruddy face as he recalled the only meeting with President Kennedy. He said he had been invited to the White House. Sherman, who records comedy producing and co-starring with Glenn Ford in the movie "The Son of the Flag," said: "I told it in the millions and What Did You Do? Nothing."

Fleming Autographs Thrillers for JFK

By HAL MCCLURE

STANFORD, Pa. (AP)—How does it feel to be President Kennedy's favorite mystery thriller writer?

"It's quite flattering," says author Ian Fleming, whose melodramatic adventures of British secret agent James Bond have sold millions of books throughout the world.

Fleming, who is 54, is a somewhat older version of his suave fiction hero, as he sits in the tiny Turkish railroad station of Marlborough, where recently a British film company was shooting the latest James Bond movie, "From Russia With Love."

The author had come down from London to watch.

He brooded and grumbled from his eyes and a smile creased his ruddy face as he recalled the only meeting with President Kennedy. He said he had been invited to the White House. Sherman, who records comedy producing and co-starring with Glenn Ford in the movie "The Son of the Flag," said: "I told it in the millions and What Did You Do? Nothing."

and Communist China, the two most important targets of such an effort.

The French revolt against U.S. leadership of the Western alliance already has hampered Kennedy's efforts to create a NATO nuclear navy. And President Charles de Gaulle has emphasized repeatedly that he is determined to make France a nuclear power.

Kennedy's lack of influence in Paris is more than matched by Khrushchev's lack of influence in Peking. Soviet-Chinese reconciliation talks under way here for the past 10 days, are reported at the point of breakdown.

The communique from the test ban talks Wednesday night clearly implied that the negotiators had put aside the question of halting underground tests to concentrate on an accord to stop all other nuclear explosions.

Other 'Men' Unlikely

WASHINGTON—The likelihood of finding manlike beings elsewhere in the universe is pretty slim, one expert Dr. Huang Shu-Shu of Goddard Space Flight Center, thinks.

He says that 2 per cent of the Milky Way galaxy within a radius of 100,000,000,000 miles of the sun could support life.

Jan. 2, 1968. It said these brokers who buy and sell for their own account, enjoy unfair advantages over others.

Of 1889 New York Stock Exchange members, a small minority indulge in much floor trading—quick turnover deals. Fifteen of them account for one half the volume in this category.

The SEC said they are unburdened by the need to pay commissions and favored by knowledge not yet public.

Specialists exchange members assigned to manage trading in specific stocks and to steady tendencies toward abrupt price fluctuations, number 360 on the New York Stock Exchange.

All exchange transactions are funneled through them, however. SEC investigators said their activities were inadequately policed.

By selling stocks in the sharp market break of May 28, 1962—Black Monday—some "seemed to contribute to the 'pounding down' of prices," the report said.

Another segment of the report dealt with the asserted need for relief, there was no blanket demand for segregating the broker and dealer functions of many Wall Street firms.

In his action, Diamond charged that in a \$1.5 million project begun last summer and due to begin in 1964, General Assembly These are stocks, which are not listed on any organized stock exchange. Greater supervisory con-

launched Allan on a career as a performer that has him both deliriously happy and deliriously "look," he says worriedly.

"I'm photographed with a guitar but I can't play it. I got a voice that improves with lyrics. I get scared of crowds and all this excitement. Guys like Benny and I'm just an amateur."

As a professional comedian writer and television producer, Sherman has earned close to a million dollars in the last six months.

Since the first album, he has had other versions of his suave fiction hero, as he sits in the tiny Turkish railroad station of Marlborough, where recently a British film company was shooting the latest James Bond movie, "From Russia With Love."

The author had come down from London to watch.

He brooded and grumbled from his eyes and a smile creased his ruddy face as he recalled the only meeting with President Kennedy. He said he had been invited to the White House. JFK's News Conference

(Continued from Page One)

ade in order to show "the capacity to dominate space." He treated as inconclusive British report that Bernard Lovell's scientist, the Soviets may be launching their moon race.

Rail Strike: Kennedy again urged the railroad and operating unions to settle their work rule dispute before a threatened nationwide strike July 29. He said both sides would be much better off to work things out themselves, "and not depend upon the government to do it for them."

Kennedy said he will ask Congress to end it by legislation.

In talking about civil rights, Kennedy scoffed at a claim by Alabama Gov. George C. Wallace that racial demonstrations have been Communist-inspired.

"We have no evidence," he said, "that any of the leaders of the civil rights movement in the United States are Communists. We have no evidence that the demonstrations are Communist-inspired. I think it is a convenient scapegoat to suggest that all the difficulties are Communist."

Kennedy said those who complain about organized protests should "do something about their own grievances" that prompt them to work things out themselves. "I don't protest," he said, "and at the same time assert. We are not going to let you come into a store or a restaurant."

He said he sees the situation as "a two-way street."

As for the Washington demonstration, scheduled for Aug. 28, Kennedy said it shapes up as "a peaceful assembly calling for a redress of grievances" and under taken through cooperation with the police.

Kennedy said "this is something the Capitol is not doing. We are suggesting earlier words to the cause of civil rights advocates."

In promising to be in the capital at the time, Kennedy added what amounted to a challenge to Congress by adding, "I am sure members of Congress will be here."

There has been some talk that the legislators might miss a session for Labor Day holiday - starting in late August.

Kennedy contrasted the planned Washington demonstration with those now in progress at Cambridge, Md., where there has been rioting and bloodshed.

Speaking of Cambridge, he said, "They have almost lost sight of what the demonstration is about. In such cases, he said, he thinks the cause of advancing equal opportunities only loses."

On other topics, Kennedy said: There is no need for more formal diplomatic contacts with the Soviet Union because there is no lack of two-way communication at present.

He hopes South Viet Nam will resolve its religious disputes because the military situation there looks more hopeful and a stable government is needed.

In promising to be in the capital at the time, Kennedy added what amounted to a challenge to Congress by adding, "I am sure members of Congress will be here."

Red China seems bent on promoting nuclear war, but Kennedy doubts the Soviet Union is anxious for face destruction by supplying the weapons that would be needed.

The United States condemns the racial policy of the Republic of South Africa but does not believe in expelling countries from the United Nations.

There is no hope of peacefully coexisting with a Soviet satellite, like Cuba, in the Caribbean.

Wirtz Advocates Negro Patronage To Boost Economy

(Continued from Page One)

WASHINGTON (AP) — The Kennedy administration sent two Cabinet members to Capitol Hill today to urge approval of its civil rights program.

Atty. Gen. Robert F. Kennedy was called before the Senate Judiciary Committee while Secretary of Labor W. Willard Wirtz appeared before "The Senate Commerce Committee."

The Judiciary group is considering the seven-point package the administration submitted to Congress last month. The Commerce Committee hearings are limited to one part of the program — a ban on racial discrimination in privately owned places of public accommodation, such as stores, restaurants and hotels.

Wirtz told the Commerce Committee that passage of the accommodations bill will contribute immeasurably to the nation's economy.

"Inequality of opportunity and the unrest it fosters hurts the economy and affects unemployment," he said in prepared testimony. "Numerous specific instances can be cited of firms that have changed their plans to locate in a Negro town because of racial unrest."

Wirtz has been free to travel and explore this country as a white family of similar income. Wirtz continued, "The economic stimulus would be very large indeed, if the transportation industry, travel goods, sports, gifts and camping goods industries, and called for even stronger measures than the President recommended."

Meany, supporting the public accommodations segment of the program, said, "When a man voluntarily, a part of his freedom to do as he pleases. He has set up public places and invited the public to spend money there."

"We have never tried to glass over the shortcomings of unions on the subject of equal opportunity," he said. "Yes, some of our members take a wrong-headed view. We do our utmost to bring them around to the right side. And at the same time, the employer, who actually do the hiring — escape in many instances with no criticism whatever."

Meany endorsed Kennedy's civil rights program but in some cases

THREE EDUCATORS ATTENDING CONFAB

William H. Curtis, superintendent of schools, Ronald P. Scott, assistant superintendent, and Dr. Frederick H. Lowe, dean of Manchester Community College, are attending a conference on educational administration today and tomorrow at Harvard University.

The two-day program will include an evening session of discussions and workshops as well as talks by other prominent educators.

Curtis said he feels the annual conference is an excellent opportunity to run in conjunction with Harvard's summer school program. It is extremely valuable for keeping abreast of new developments in the field of administration.

CAC Job on Renewal Education, Not Selling

Seven members of the Citizens Advisory Committee for redevelopment agreed last night that they should conduct meetings to explain the renewal plan for Depot Sq. even though they cannot personally endorse the plan.

Committee Chairman Alexander Perry won agreement in principle on that score after he argued that the committee's job was more education than salesmanship.

Up to that time members had insisted first that they could not sell the plan until they had been sold on it, and second that they could not go into the field as representatives until they had more information.

Challenges Views

Toward the close of a 2 1/2-hour meeting—during which members showed some reservations to the plan—Perry challenged both those views.

He said, "In fairness to the people who would be affected we must go to them with the information we have."

He argued that the committee should enlighten North End citizens about the plan as it progressed and give them a chance to raise questions about it so that committee members could help find the answers.

One member, Edward Sweney, said that committee members are ready doing that on an informal basis and that the committee should do so in the normal course of affairs.

Objections

The chief objections to the plan last night were that it calls for taking and turning it into public land, and that the redevelopment area is entirely wrong.

John Hutchinson and Beverly contended that 17 acres are needed for Robertson School, even if it is expanded to 700 pupils attending in the board of education's plan to the Washington Monument area. Hutchinson said the area is "entirely wrong" and that it is not developed at all.

Victor Swanson, a committee member and president of the North End Improvement Association, said that the area is "entirely wrong" and that it is not developed at all.

He established a map of the district to show how small the development area is.

Others at the meeting pointed out, however, that much of the land around the area is owned by the city and that the area is not developed at all.

Hutchinson and Sweney agreed, but said the project should be undertaken without consideration for growth in surrounding areas.

Ball Problem

Sweney contended also that the crux of the redevelopment problem and chief obstacle to good redevelopment planning is the presence of the railroad. While he acknowledged that nothing can be done about the railroad location now because the New Haven Railroad is bankrupt, he argued that someday the road would be in improved condition and perhaps could be induced to move tracks out of the highly congested area. Thus, he felt, renewal might be premature.

Most of the others present voiced the opinion that the tracks would never be moved.

Other reservations expressed concerned the displacement of businesses and residents by the removal of buildings as torn down.

One concern was that there is not enough area set aside for commercial use to accommodate the business now in Depot Sq. While neither Keith, nor Edward Rybeck, executive director of the redevelopment agency, had comparative figures at his disposal, both felt certain that enough commercial space is provided and both agreed that some consideration might be given to providing still more space.

80 Dwelling Units

Rybeck said that about 70,000 square feet of commercial space is envisioned in the plan. He did not know how much commercial space is now in use in the area, but said that out for committee members. He said there are 30 to 40 businesses there.

He also said there are about 81 families living in the area, and 80 dwelling units are planned. The development agency has the obligation, he said, of providing that comparable residential rentals are available before it can get federal

police, every evidence that it is going to be peaceful, they are going to the Washington Monument, they are going to express their strong views. I think that is in the great tradition.

"I look forward to being here. I am sure members of Congress will be here. We want citizens to come to Washington if they feel they are not having their rights expressed."

"That of course arrangements have been made to insure a responsible and peaceful. This is not a demonstration which got out of control and is violence. But he also hit at those who protest demonstrations but don't do anything to eliminate the grievances which cause Negroes to demonstrate."

He would hope, he said, that all demonstrations would be of the kind of demonstration that would lead to change in the government, "something about the grievances."

Schools Will Expand Data Processing Use

The board of education spent a major portion of its meeting time last night hearing a report by H. Blaine Miller Jr., on data processing procedures used in the Manchester school system, and granted Miller's request to allow for expansion.

Miller, who gave Manchester High School's permission to join the New England School Development Council after Miller, who is heading the development of data processing for town schools, explained Manchester's present use of data processing and the advantages of expanding.

Miller, in outlining the history of data processing in Manchester, said that four years after its installation, many time-consuming clerical tasks, such as printing report cards, maintaining attendance records and making class lists and bus schedules, are now carried out by an automated equipment, saving many hours of time and expense over manual methods.

Manchester, considered to be in the vanguard of Connecticut schools in utilizing data processing, is now ready to move into more complex methods, but is hampered by a lack of available equipment and professional advice, he said.

He cited, as examples, two experiments which he and other high school administrators are now working on, hoping to incorporate them into the school program.

First, the scheduling of all classes for the high school and beyond and being done with the help of a high speed computer, offered free by the University of Connecticut for this experiment only.

Second, he and Robert J. Digan, school attendance supervisor, are attempting to set up a system for taking attendance for all Manchester schools via automated equipment. When installed, this will be the first automated attendance procedure in Connecticut.

Miller went on to point out that experiments such as these call for the use of high speed machines and techniques not now readily available to educators, since the development of data processing has been continuing.

Walker Joins Five-Gallon Club During Visit of Bloodmobile

Everett Walker of a Walnut St. today became a member of a very exclusive club.

At the Red Cross Bloodmobile in North Manchester Church this morning, Walker gave his 40th pint of blood, and became only the third member of the 5 Gallon Club in Manchester.

Walker, who was born June 24, 1911, on Arch St., says that his wife, Mary, and their five children, are very proud of his participation in the blood program.

Three of the children, Steven, 19, Norm, 16, and Thomas, 14, live at home.

The Walkers also have a son, Herbert, who lives in Long Beach, who resides in New York City.

Walker works for Barton's, who gives him first pint of blood on March 16, 1951. The Keweenaw simply because "it seemed to be the right thing to do."

Since then, said Walker, "I have found that it was a necessary thing to do." He has given blood to two "open heart" surgery cases.

Walker insists that "I actually feel better physically after I give blood." He says that a doctor told him years ago that giving blood is "like changing the oil in your car," and that a fresh supply of blood in the donor's body does him as much good as it does to a hospital patient.

Walker intends to continue giving a blood dose "just as long as I am healthy, and they still want me."

12th Circuit Court Cases

MANCHESTER SESSION

Two out-of-state motorists today received minimum fines following court trials in which both were found guilty of motor vehicle violations.

Geoff Farnsworth, 44, of Everett, Mass., a truck driver, was fined \$25 for speeding. His case stemmed from a state police arrest May 31 on Rt. 84 in which he was clocked by radar driving a tractor-trailer at 74 miles per hour in a 50 speed limit area.

Robert Hammer, 21, Hartwick, N.Y., was fined \$15 on a count of failure to drive in an established lane. The charge stemmed from a one-car accident on Rt. 84.

Both men defended themselves in the court trial.

The case of William Grabarak, 40, Hartford, charged with breach of the peace, was referred to the family relations office of the court for study and a continuance until Aug. 19.

Fair Committee

Members of the fair committee for St. Joseph Church are Chester Bonatti, manager; Max Sudaik, advertising; Bruno Lazewski and William Paszalski, entertainment; and John Madachuk, executive secretary.

The committee has been in charge of the fair since it was started in 1957. The fair will be held Aug. 18 through 20 on the school grounds.

The People's Savings Bank of 200 E. Village reports assets of \$13,041,183 as of July 1, an increase of \$18,900, or 0.14 per cent over the assets of July 1, 1967. Deposits amounted to \$11,827,000, a gain of \$20,438. Loans on real estate are \$8,041,062 of the bank's assets, an increase of \$1,727,708 or 27.6 per cent over last year.

Alfred W. Cudwin and other incumbent bank officers were re-elected at the annual meeting.

Admitted yesterday: Angel Ocena, 37 Village St.; Nelson Caron, 22 Congress St., Manchester; Mrs. Frances Kaywood, Pinnacle Rd., Ellington; Mrs. Betty Holmstrom, RFD 2, Mrs. Rose Carr, Valley Rd., Vernon.

Birth yesterday: A daughter to Mr. and Mrs. Richard Brooks, 241 kindergarten in Manchester, next fall.

Discharged yesterday: William

Baggio, Gregory Allen, son of Gardner W. and Shirley Schaefer Baggio, 3 Berger Rd., Rockville. He was born July 11 at Rockville City Hospital. His maternal grandparents are Mr. and Mrs. Chester J. Schaefer, Rockville, N. Y. His paternal grandparents are Mr. and Mrs. Charles B. Baggio, 100 Kingsway Ave., Rockville. He has a brother, Garth W. Jr., 7 1/2, and a sister, Margaret Elizabeth, 6.

Coventry Albert Meyers Named Head Of Democrats

Albert L. Meyers Sr. of Shore Dr., Waterfront Manor, has been elected chairman of the Democratic Town Committee.

Meyers succeeds Raymond H. Bradley Sr., who recently resigned because of illness.

Mrs. Beatrice I. Strack had submitted her resignation as vice chairman to the meeting but reconsidered it and was re-elected to the position.

Coventry Evening Herald Coventry correspondent, F. Pauline Little, telephone 745-6231.

Portugal Fears Colonial Attacks

LISSBON, Portugal (AP) — A government announcement that African rebels have seized control of 30 per cent of Portuguese Guinea raised fears on the Iberian Peninsula today of new attacks on other Portuguese colonies.

Defense Minister Manuel Gomes D'Alvaugh charged Wednesday that rebels slipped into the West African colony from neighboring Senegal and robbed, killed and intimidated the population into helping them.

There was no immediate comment from the Senegalese government. D'Alvaugh said government forces had suffered only 27 casualties but the troops were encountering difficulty in dislodging the rebels from dense jungle terrain in the northern part of the territory.

Spanish and Portuguese authorities viewed the rebel success as Portugal's greatest colonial setback since India's capture of the Portuguese enclave of Goa in 1961 against British resistance.

Spanish officials in Madrid expressed belief Portugal could not defend Portuguese Guinea, a territory about twice the size of New Jersey, in Senegal and another neighbor, Guinea, against the United Nations bloc in the United Nations has bitterly attacked Portugal for not granting independence to her African territories — Guinea, Angola and Namibia. The Lisbon government considers the territories integral parts of Portugal.

Nationalist elements have launched independence rebellions in all three territories.

Hutchinson Wins One-It Duel, Coventry Pitches Sports Effort

Duke was king last night. Willam was Timmy Toomey. Hutchison won the one-it duel, Coventry pitched sports effort.

The success, shown in 11 starts since the start of the season, was the third this season over Coventry. For Hutchinson, it was his 11th win in 12 starts. Toomey has been charged with all three Coventry games in competition with the Hutchison.

With one out in the seventh and left frame, opposing moundman Toomey dropped a base hit between shortstop and left field. Hutchison, who had pitched the first two games, two line hits dropped but a muggy night at home forced a crowd of several hundred.

Toomey, a short, mischievous right-hander, was just as stingy with base hits as his taller brother. He pitched the first game, just inside third base in the first frame was the only blue Toomey gave up in a battle of one-its. However, the support needed to defeat all three Coventry scores came as the first result of misplays.

Phil Rogers PGA Threat

Why don't you write something nice about the Yankees for a change? A friend asked last night. "Forget the Orioles," he went on "and say something about the league leaders."

And he certainly had a good point. Although his remarks were gaudier than "needles" there was a pile of truth in it. The Yankees got him and he's one of their better relievers.

Of course you'll get an answer from some folks that revive the theory players change for the better by putting on a Yankee pinstriped. That may be true to some extent. There are no stunts, no club house lawyers, no stunts, bumps with the Bombers.

All business and not just in the front office either. The way the Yanks have been playing just this year, it's hard to find anything to say about Manager Ralph Houk and his playing members of the Yankees.

Any organization that can lose its key man—Mickey Mantle—is still a key man. Mantle is still a key man. Mantle is still a key man.

State News Roundup

Hubert W. Stone To Head CPEC

HARTFORD (AP)—Hubert W. Stone of Avon has been named executive director and secretary of the Connecticut Public Expenditure Council.

Stone, assistant executive director since 1953, succeeds Mark DeLoria, who has resigned as executive director. He was in January 1954. Stone joined the council's research staff. It became a separate agency. It is a municipal consulting service the following year.

Stone had been assistant research director in the Connecticut Legislative Council. He served as consultant to the Legislative Council when it drafted the state's Home Rule Act, which was passed by the 1953 General Assembly.

NECAP Looks Of
HARTFORD (AP)—NECAP (North End Community Action Project) today called a two-day "outing-off period" in its drive to win help for the city's Negroes.

A spokesman, Peter Morrill, said a demonstration or negotiation are planned over the weekend. Those who would be arrested Monday, he said.

However, two meetings already scheduled for Wednesday and Thursday will be held with representatives of the Greater Hartford Housing and Urban Affairs Commission and with the National Association for the Advancement of Colored People.

The second meeting was scheduled with City Manager Elina Friedman and members of the city council.

Normal Deceasegrants
MORROW (AP)—The board of education announced today a new plan which will result in a more improved fiscal balance at the end of the fiscal year.

The board said it will reduce the number of Negro students in the school by about 230, thus reducing the amount of state aid.

Racial Scene Enters Day of Conferences

At Chicago, police halted a sit-in at the headquarters of the Chicago Board of Education on the third day. Ten persons, including three Negroes, were arrested on charges of trespass and disorderly conduct after retreating to leave a conference room.

They were seeking an end to what they called de facto segregation in the public schools.

Forty-eight demonstrators were arrested at a drive-in restaurant in New Bern, N.C. Nine Negroes were taken into custody by SAs Augustus, Pa. when they refused to leave four demonstrators.

Florida State Court Judge at Sevanah, Ga., reduced the bonds of 40 Negroes arrested on riot charges in Jacksonville. The judge set \$100,000 for 68 Negroes arrested on riot charges in Jacksonville. The judge set \$100,000 for 68 Negroes arrested on riot charges in Jacksonville.

Save-Dollar Dip Canada Stocks

OTTAWA (AP)—Canada, once the biggest foreign market for U. S. investors, fears economic belt will be tightened by President Kennedy's new dollar exchange rate.

The dollar exchange rate was set at a new level, which would mean a 15 per cent rise in the price of Canadian goods and services.
