### Dimness Didn't Help

WASHINGTON (AP) -A National Park Service official discounts as negligible the savings resulting from President Johnson's campaign to turn the lights at the White House.

T. Sutton Jett, National Capital Park director, testified March 17 before the House Appropriations Committee in support of a request for \$692,000 in operating funds for the White House for fiscal 1967.

At one point in the transcript released Sunday night, Rep. Joseph P. Addabbo, D-N.Y., noted a saving in the budget and asked: "Is this partly due to the turning off of the lights?"

"This was due, I think, more to the donations of the White House Historical Society," Jett replied. He added any savings later from turning off the lights is being offset by new electrical heaters installed in guard booths.

If your hair color is blond, for example, and the new growth dark, you will find it necessary to blend the roots every two or three weeks. Hair that is sharply lighter than natural, or has been colored by the two-process method seldom reacts kindly to do-it-yourself retouching.
