# This, I Believe

IN THE PAST FEW MONTHS WE HAVE RELEASED MANY PREPARED STATE-MENTS, HAVE MADE MANY SPEECHES, AND HAVE PARTICIPATED IN MANY DEBATES. ALL THE STATEMENTS HAVE BEEN BUILT AROUND MY BASIC BELIEFS THAT THE TIME HAS COME TO DO SOMETHING CONSTRUCTIVE TO HELP THE SMALL AND MEDIUM SIZE TOWNS TO SOLVE PROBLEMS WHICH THEY CANNOT SOLVE BY THEMSELVES. HERE ARE A FEW RECOM-MENDATIONS I WOULD SUPPORT AS YOUR SENATOR:

## State Technical Aid as well as State Funds ...

A GREAT DEAL OF TIME, AND MONEY COULD BE SAVED THROUGH STATE SPONSORED CONSULTANT HELP AND SERVICES FOR MAJOR, COMMON TOWN PROBLEMS, SUCH AS BUILDING SCHOOLS, CONSTRUCTING AND FINANCING SEWER SYSTEMS.

Preservation of Connecticut's Natural Assets ...

THE FIGHT AGAINST POLLUTION OF OUR RIVERS, STREAMS AND LAKES IS OF PRIME IMPORTANCE, I WOULD SUPPORT ANY LEGISLATION WHICH WOULD HASTEN THE PURIFICATION OF OUR WATER AREAS, LEGISLATION CREATING LARGER GRANTS FOR OPEN SPACE AREAS IS A MUST IF WE ARE TO PROVIDE RECREATIONAL AREAS FOR OUR RESIDENTS, IF WE ARE TO ATTRACT INDUSTRY, AND IF WE ARE TO ATTRACT TOURISTS TO IN-CREASE OUR GENERAL INCOME.

## Improvement of State Facilities . . .

OUR HIGHWAY SYSTEM AT THE PRESENT TIME SEEMS TO BE FULL OF TRAPS AND PROBLEMS. THE SIMPLE TASK OF DRIVING FROM MANCHESTER TO HARTFORD AND RETURN HAS BECOME AN ADVENTURE OF DANGEROUS PROPORTIONS. SECONDARY ROADS THROUGHOUT THE STATE HAVE BEEN ALLOWED TO DETERIORATE ALARM-INGLY IN SPITE OF THE \$500,000,000 PROGRAM WHICH WAS APPROVED BY THE REPUBLICAN HOUSE DURING THE 1965 SESSION, THERE ARE ONLY 6 OR 7 MILES OF CONNECTICUT SHORELINE OPEN TO THE PUBLIC. THE RECENT PURCHASE OF APPROXIMATELY 200 ACRES IN GROTON SHOULD BE DEVELOPED FOR USE BY STATE RESIDENTS AS SOON AS POSSIBLE, BECAUSE REPUBLICANS INSISTED, THIS LAND WILL BE DEVELOPED IN THE NEXT COUPLE OF YEARS. IT IS MY INTENT TO SEE THAT CAMPSITES BE INCLUDED IN THIS IDEAL LOCATION.

## Increased Educational Facilities ...

THE TIME IS RAPIDLY APPROACHING WHEN BOYS AND GIRLS WHO WISH A COLLEGE EDUCATION WILL NOT BE ABLE TO FIND AVAILABLE COLLEGE FACILITIES, REGARDLESS OF THEIR ABILITY TO PAY FOR THEIR EDUCA-TION, WE MUST START NOW TO PROVIDE THOSE FACILITIES THROUGH EXPANDED COMMUNITY COLLEGES AND SUPPORT FOR OUR STATE COLLEGES, TO GUARANTEE HIGHER EDUCATION FOR EVERY CONNECTICUT STUDENT CAPABLE OF AND DESIROUS OF THIS EDUCATION.

## Efficiency in Government ...

THE STATE GOVERNMENT IS A MASS OF OVERLAPPING BOARDS AND COMMISSIONS. WE NEED A COMPLETE RE-VAMP OF OUR PRESENT SETUP TO PROVIDE BETTER GOVERNMENT FOR LESS MONEY, IF OUR PRESENT REVENUES ARE USED EFFICIENTLY, WE SHOULD BE ABLE TO ENJOY MANY STATE AND LOCAL IMPROVEMENT PROGRAMS WITHOUT ADDITIONAL TAXES.

Consequences Begin To Arrive It is no accident that, in the election in the generally progressive and enlightened West German State of Besse the other day, a party of the exreme right, which is considered a spir-Itual revival for the Nazi movement. succeeded, for the first time, in winting some seats in the Hesse State Par-

This is not an accident, but a consequence. Or that, at least, is what a lew we-told-you-so analysts of the postwar European scene will now consider themselves privileged to proclaim. Among those who have fair title to call this sort of thing a consequence are

such characters as Walter Lippmann who, when he was producing regular comment, had some talent for looking at the whole pageant of history, or President de Gaulle, who has had sense enough to know that Europe is sick so long as Germany is divided. The actual policies which concern Eu-

rope have, of course, been manipulated and shaped by lesser men, who have ignored the one true choice open to them. They have formulated policies as if somebody, had a choice about whether or not Germany is to be reunified. But there has never been any choice

mified, but how and by whom—that has been the real choice. This is the only thing anybody has been really deciding, ever since 1945 when the German armies surrendered.

There has been one constant certainty In the picture. This certainty has been that if nobody else accomplishes the reunification of Germany, the Germans will do It themselves.

There has been a sub-certainty going along with this. This second certainty is that the longer the Germans have to wait to do it themselves, the more violent and reckless the leadership and the techniques by which it will be accom-

What the election in Hesse said the other day was more a reading of the time table than anything else. It said that everybody had now delayed the reunification of Germany so long that the Nazis have begun to rise again to offer the bold and ruthless kind of nationalistic leadership which will cure Germany of its division.

A few sages may realize that to have

Germany healed of its division this way will raise a new mortal danger to the peace of the world. But a State Department in Washington and a Foreign Office in Moscow need not be expected, in the normal course of their respective wisdoms, to realize that if they don't want something Nazi-like to climb in Germany, they themselves have to figure out some way of letting go of Germany.

Logically, Thailand Is Next

Those Americans who may have been tempted to hope that Senator William Fulbright was being a little unduly alarmist when, several weeks ago, he began warning against the possible expansion of our military involvement in the nation of Thailand now have the evidence which suggests that he was in contact with realities after all. The news from Washington is that

Secretary McNamara has succeeded vetoing this now, with the argument the guerrilla activity involved that important yet, and the fur-

But it does not take much imagination to see the future course of the pressure for more direct American military fighting in Thailand, If the guerrillas succeed in staying alive, the pressure on Washington from its own representatives in Thailand will mount. And, indeed, there is absolutely no reason why the same process of Washington executive decision which took us into Vietnam to the extent that it has now become predominantly an American war should refuse, if it is going to be consistent, to follow precisely the same course of action in Thailand. If, as in Vietnam, Washington begins the gradual escalation process in Thailand, it can also be expected that the response will be similar, and that the activities of the guerrillas will mount

calators never will admit is this: that war breeds war and commitment breeds commitment. The United Nations was designed to sanitize civilization against this contagion. But President Johnson, on his return from Asia, seems to stand committed to the keeping of the peace in Asia, by the methods now being employed in Vietnam, just about everywhere in Asia. If this is our policy, how can we fail to make Thailand next?

We were driving in the country the

rustling through the leaves on the ground and those that held on cheerlessly to exposed branches, when we spotted, on the left side of the road ahead, a bird drop from a tree. It dropped as clean and free as an apple; not a flicker of a wing disturbed the fall. In an instant of wild hope, we thought the bird might, at the last possible moment, suddenly but gracefully swerve away from the ground, perhaps skimming the fallen leaves with its underside in a daredevil maneuver. But instead the bird, dark and unidentifiable in the graying afternoon, fell on its. backside into the leaves. Now, when we did not expect it to move, it did. Its wings, or maybe one wing, suddenly came to life and began to flutter rapidly, like a helicopter preparing to ascend. But the bird remained earthbound, scattering leaves within the range of its pennate whirlwind. Then we were past it, our errand and the cars behind pre-Now young birds in the springtime

And birds in summer playfully swoop down into grasses, or plummet towards earth for the benefit of spectators only to veer away as if by afterthought, or carry on noisy midair dialectics until an argument crumbles, and its proponent descends in defeat for a moment of imposed exile. Yet such exercises are unmistakable reflections of nature's spirited life, celestial pramalls that invite a smile. But the delicate mood of autumn is easily tampered: A bird falling from a tree becomes a sinister sight, and in that simple and brief fall is plaintively traced summer's passion and more. Our ready symbols for life may serve equally well for its opposite.

We found ourselves recalling, though, as we drove on, not the bird's fall but its little thrusts toward the sky. On such a bleak afternoon, with autumn's downhill course clear, that seemed a gesture worth recalling.-A. C.
