Performers Still at Work. **Await Talks**

NEW YORK (AP)-Officials of the radio and television performers' union said today they are ready to resume contract talks whenever the networks issue the invitation. Officials of the AFL-CIO American Federation of Television and Radio Artists ended their last bargaining session with ABC, CBS, NBC and the Mutual radio network early Wednesday — four hours after

their contract expired. No strike was called and sportscasters, newscasters and unnouncers continued working on a minute-to-minute basis. "I was the one who walked out of the meeting," said Donald F. Conaway, national executive secretary for the 17,500member AFTRA, "but we are ready, willing and able to meet with the networks when they send out an invitation." The networks, AFTRA and

the AFL-CIO Screen Actors Guild were reticent about what was happening behind the scenes Wednesday, but Conaway warned, "a strike is inevitable unless there is a change in the management point of view." A guild spokesman said "great progress" was being made in the guild's part of the dispute but said AFTRA is contract, and at this time we do

DIABETES CAN BE CONTROLLED Diabetes is a chronic condition. The sooner it is dis Diabetes is a chronic condition. The sooner it is discovered the better are a person's chances of living a full, productive, satisfying life. The three principal means of control are: (1) carefully planned diet, (2) regulated exercise, and (3) injection of insulin which the body lacks. There are also medicines taken by mouth which are sufficient in some cases. Diet and exercise are the first essentials of treatment. Often they are all that are required.

MANY PEOPLE HAVE DIABETES Today 4,000,000 Americans have diabetes. Of these, 1,600,000 do not yet know they have it. About 5,600,000 more Americans now living will develop diabetes dur-ing their lives. No operation is minor to the doctor certifying its necessity, or administering the anesthesia, to the surgeon performing it, to the individual undergoing it, or to his family. And when the family happens to include nearly 200,-000,000 people, not all of them exactly kissing cousins, but all of them nevertheless concerned, there is quite a chorus of pleasure and relief when, a little after the event, it does seem that all has gone very well. The nantment apparently has roots One of the roots, we think, is the feel-

Mrs. Eldna Johnston of Tunnel Rd., Vernon, says she became interested in cooking after marrying her late husband, George Johnston of Manchester.
"His family," she said, "were very good cooks. His father was born at the Waldorf Astoria Hotel, New York City, while my husband's grandfather was chef there. His aunt, Miss Kate Johnston, was famous for her cream puffs and wedding cakes, and one of his sisters now has a collection of first edition

cook books.
"My husband and I," Mrs. Johnston said, "had a tea room on the Crystal Lake Rd., Vernon, the old road to Boston. Some of our guests included Mrs. Eleanor Roosevelt during her stay in the White House also her son John, who stopped each weekend while going to and from college. Babe Ruth, his wife and daughters, stopped by the day he left his team in Boston and he autographed a baseball glove for my son after consuming two large straw-

berry sundaes." "Kay Kayser and his band, and other big name bands," Mrs. Johnston said, "would stop in on their way from night club engagements in Boston, and Rudy Vallee visited us on his way home to Maine." Mrs. Johnston often makes Pumpkin Bread during the noliday season, and has also included a recipe for King Gustaf's Ginger Cookies which, she said, "was given to me by a ady who cooked in the Swedish king's palace and told me the
