

B52s Clobber Reds Massing for Strike

SAIGON, South Vietnam (AP) — Striking at Communist forces believed readying another drive south, U.S. B-52s first of the year bombed the Mu Gia Pass in North Vietnam today and the demilitarized zone between North and South Vietnam Sunday.

The giant eight-engine bombers, each carrying up to 27 tons of bombs, struck at a mile-long stretch of the mountains pass through which the North Vietnamese filter into Laos and down to South Vietnam.

The B52s attacked Communist concentrations Sunday in the demilitarized zone seven miles north of the U.S. Marine stronghold known as the Rockpile. The attack on the Mu Gia Pass was the eighth B52 raid on North Vietnam and the first since Oct. 10. The B52s had not hit the demilitarized zone in almost two months, although other U.S. planes have pounded it repeatedly.

In other developments:

—Some 2,000 more American combat infantrymen arrived in Vietnam to bolster U.S. strength here to 365,700 men.

—Two warships of the Thai navy arrived in Saigon to add to Thailand's contribution to the allied side. Thailand previously sent two C123 transport planes.

—U.S. Ambassador Henry Cabot Lodge left by plane for the United States to spend the Christmas holidays with his

Iraqi Oil Firm Cuts Off Flow

DAMASCUS, Syria (AP) — Damascus radio announced today the Iraq Petroleum Co. has cut off the flow of Iraqi oil across Syria to the Mediterranean.

The radio broke into a newscast to announce the cut at 2:30 p.m.

The broadcast said the company representative in Syria, John Page, had ordered the valves at the port of Banias closed because storage tanks there had been filled to capacity.

Last Thursday, the Syrian government impounded assets of the company until the firm paid \$11 million in disputed back royalties. It also ordered the company to stop loading oil into tankers from Banias.

The IPC 4th grad TAO7

The IPC produces its oil in Iraq and pipes most of it across Syria to ports on the Mediterranean. Syria demanded an increase in royalties for the passage, but the IPC refused to pay more.

Over the weekend, Syrian Minister Ibrahim Makhouf said his government would be willing to refer its demand to international arbitration.

'War's a Long Way Away' Viet Veterans Relax At Luxurious Hotel

PHOENIX, Ariz. (AP) — The "Christmas Company" — 54 Vietnam veterans straight from the battlefields — have dug in at a plush hotel in Phoenix for a week of relaxation and forgetting.

The relaxing came easy. The forgetting was difficult.

"When a good buddy gets hit, you want to cry. But you can't, you've got work to do," said Army Spec. 5 Ives Mosley, 21, of Reidsville, Ga.

He looked up at the 10-foot Christmas tree he and some of the other men were decorating

Sailor Saved

PORT JEFFERSON, N.Y. (AP) — A West Haven, Conn., man who spent the night adrift on Long Island Sound in sub-freezing temperatures was picked up today off Long Island's north shore by a Suffolk County police boat.

The man, Theodore Neal, 30, was taken to St. Charles Hospital here for treatment of exposure.

Police said he had set out from West Haven yesterday in a 16-foot outboard motor boat. The motor failed and he drifted across the Sound in temperatures that dropped into the upper 20s.

High Court Backs Hoffa Conviction

WASHINGTON (AP) — The Supreme Court upheld today the 1964 conviction of James R. Hoffa, Teamsters Union president, on jury tampering charges.

"The use of secret informers is not per se unconstitutional," Justice Potter Stewart said in delivering the court's divided decision.

In his appeal, Hoffa claimed his rights were violated by use of a paid government informer to gather information against him.

Stewart swept aside this and other of the union leader's constitutional claims in affirming his conviction.

Chief Justice Earl Warren dissented. Justices Tom C. Clark and William O. Douglas filed a brief opinion saying they would have dismissed the appeal. Justices Byron R. White and Abe Fortas took no part in the case or in the decision.

With two justices sitting out and two saying they would not have heard the case at all, the effective division of the court was 6 to 4 against Hoffa.

There was no immediate comment from Hoffa.

Hoffa was tried in federal court in Chattanooga, Tenn., and was sentenced to eight years in prison and fined \$10,000.

Apart from Hoffa's prominence, the case was significant because of the use of Edward George Parin, a Baton Rouge Teamsters local official, as what Hoffa called a government informer.

Court Rules Georgia Can Select Governor

Legislature Can Choose, Black Says

WASHINGTON (AP) — The Supreme Court ruled today that the Georgia Legislature has the right to pick the state's next governor by choosing between Republican Howard H. Callaway and Democrat Lester G. Maddox.

"There is no provision of the United States Constitution or any of its amendments which either expressly or impliedly dictates the method a state may use to select its governor," Justice Hugo L. Black said in delivering the high court's 5-4 decision.

Dennis Wilbert, right, and John Shequin are brought to Circuit Court 12 session in Manchester this morning for arraignment in connection with the slaying of William M. Bishop in Vermont. With them is State Police Det. Joseph Koss. (Herald photo by Colby)

With the ruling, the Supreme Court upheld the validity of a 142-year-old section of the Georgia Constitution which provides that when no candidate for governor gets a majority of the popular vote in an election, the State Legislature is to choose between the two top vote get-ers.

That section had been held unconstitutional Nov. 17 by a three-judge federal court in Atlanta.

Today's decision reverses the lower court.

Black said the Georgia House can now go ahead and pick between Callaway and Maddox.

When Georgians voted for governor Nov. 8, they gave Callaway a plurality but not a majority. The final unofficial count gave Callaway 451,032 votes, Maddox 448,598 and former Gov. Ellis Arnall 57,852. Arnall was a write-in candidate.

The vote for Arnall, about 6 per cent of the number cast, prevented an election by majority.

Black said it is Georgia's duty under its constitution "to proceed to have the General Assembly elect its governor from among its members."

Million Dollar Fire Levels Putnam Block

PUTNAM (AP) — "If that wind had been coming the other way," said Fireman Ray La Parle, "the whole town would have disappeared."

But the wind was coming from the northwest, and the general alarm fire was brought under control by an army of firemen Sunday night.

The fire raged through five buildings on Union Square, gutting three and damaging two others.

Putnam Fire Chief George Harper, who directed about 200 firemen from Putnam and surrounding towns in quelling the downtown blaze, estimated the damage at about \$1 million.

Four firemen and a policeman were injured, none seriously.

The fire started, Harper said,

Firemen poured thousands of gallons of water on flames raging through the center of Putnam last night but were powerless to stop the holocaust until it caused an estimated \$1 million in damage. At one time the community's entire downtown area was threatened. Five persons were injured battling the flames. (AP Photofax)

3 Convicted

LONDON (AP) — Harry Roberts, 30, an ex-convict who was Britain's most-wanted man, was convicted today along with two associates of the murder of three London policemen last Aug. 12. They were sentenced to life imprisonment.

Judge Alan Glyn Jones recommended they should be held at least 30 years. Britain has abolished the death sentence for murder and a life sentence depends on the government's discretion.

Sentenced with Roberts were John Edward Witney, 36, and John Duddy, 37.

'Flying Santa' Off on Annual Lighthouse Run

NORWOOD, Mass. (AP) — New England's "Flying Santa" Edward Rowe Snow took off today on his 30th annual flight to drop Christmas packages at isolated lighthouses along the northeast coast.

Weather permitting, Snow hopes to make 85 drops from Machias, Maine, to Montauk Point, Long Island, N.Y.

An additional 75 packages will be distributed during brief landings at Rockland and Portland, Maine and Nantucket and Martha's Vineyard Islands during the 1,600-mile flight.

A historian of the New England seacoast, Snow is including a copy of his 50th and latest book, "Tales of the Sea and Shore," in the newspaper-padded bundles.

"Flying Santa" hears from lighthouse friends weeks afterwards on the accuracy of his "bombing."

He always carries a few extra bundles for a second attempt when he sees he has missed and the package has been lost in the ocean.

"Sometimes it doesn't pay to be too accurate though," Snow says. "One year the keeper of the Ipswich light shouted up to his wife in the tower asking if Santa had dropped his Christmas mass present. His wife shouted

2 Waive Extradition In Vermont Slaying

Two 16-year-old Vermont youths who are wanted for questioning in Vermont in connection with the slaying of a 60-year-old man in Vermont Sunday, waived extradition to Vermont this morning in Circuit Court 12, Manchester, and were released in the custody of three Vermont State Policemen to be returned to the state.

The youths, Dennis Wilbert of Burlington, and John Shequin of Colchester, Vt., were stopped in Tolland yesterday by State Police and charged with a stolen car violation.

Lt. Norman Tasker, commander of the Stafford Barracks, said the youths when questioned at the barracks said they had killed a man who had given them a ride as they were hitchhiking.

The owner of the car the youths had been driving, William Maxwell Bishop of Charlotte, Vt., was found dead in a field in Brandon, Vt.

The youths were originally charged with theft of the motor vehicle. Arresting Trooper Walter Schultz said he pulled off the road on Old Stafford Rd. after he saw the vehicle parked there. He said he stopped to give possible aid.

Charges in Connecticut against the two teenagers were nolle after they signed the extradition papers.

Shequin was charged with vagrancy, possession of a stolen vehicle, carrying a weapon in a motor vehicle, operating a

Ike Is 'Good' After Surgery

WASHINGTON (AP) — Former President Dwight D. Eisenhower's condition was reported "good" and his recovery prospects "excellent" after surgeons removed his gall bladder today, Walter Reed Army Hospital said.

Surgeons who operated on the 76-year-old five-star general said his heart action was "normal" during the operation that lasted an hour and 45 minutes.

Eisenhower in the past 10 years had suffered two major heart attacks and the decision to remove his gall bladder with its "multiple" gall stones was in part aimed at avoiding any further strain on his heart.

The report on Eisenhower's condition came from the operating team in answer to written questions submitted by newsmen.

The surgical team, headed by Lt. Gen. Leonard D. Heaton, said there were gall stones in the gall bladder but "no stones" were found in the common bile duct, the major channel of bile from the liver and gall bladder to the intestines.

The presence of stones in the common bile duct would have been potentially a more serious situation than evidently was found in Eisenhower's case.

The surgeons said that the operation disclosed that Eisenhower had "previous trouble" with the gall bladder — apparently before the recent diagnosis that led to the surgery.

Mamie Eisenhower, son John, and Dr. Milton Eisenhower — were in the hospital ward and "they

were kept informed periodically as to the progress of surgery," the surgeons reported.

"Gen. Heaton informed them of the general's condition when the surgery was over," they said.

The doctors said that for the present, no visitors except immediate members of the family would be permitted.

"President Johnson has been very solicitous and as soon as the surgery was completed, Adm. Burkle, physician to the President, was informed of the details," the surgeons said.

They reported that no blood transfusions were given during the operation.

On a question as to whether the gall bladder was considerably inflamed and swollen, "the gall bladder showed signs of recurrent inflammation."

The surgical team, consisting of six men including the doctor who administered the anesthesia, reported that the type of anesthesia given to Eisenhower included "pentothal, cyclopropane, oxygen, and other."

In answer to a submitted question by The Associated Press as to whether it was found during the operation that the stones were confined just to the gall bladder, or whether any of them had gotten into the cystic duct, the outlet tube from the gall bladder, or into the common bile duct — the main channel for bile headed for the intestines — the surgeons answered:

"Stones were in the gall bladder. The cystic duct was small and there were no stones in the common bile duct."

Some of you are undoubtedly planning the purchase of a piano for Christmas. It's a big investment, but the instrument will outlast you if it is a good one. The rate of depreciation is small, and in fact Mrs. Steuway would bring more today than it cost me in the Depression. This is not necessarily true of cheaper pianos, however. Under the circumstances, the purchase of a piano is something to be given more thought than is usually the case. Primarily, it is a musical instrument, but it is also a piece of furniture, and if you happen to choose a grand piano it may very likely be the largest piece of furniture you'll ever own.

In general, a grand piano is the best as a musical instrument, and if you have a youngster whom you find it talented beyond the ordinary, it is the instrument to purchase. It is, of course, very expensive, if purchased new. However, a grand piano lasts so long that you may do very well by buying one that is twenty or thirty years old and that has been carefully maintained. Unfortunately, the "reconditioning" may be limited to the case alone. If you contemplate the purchase of a used piano, look around until you find one you think is good, and then hire a piano tuner to go look at these instruments for you. The seller won't be going to you for this arrangement, but this is definitely a case of "caveat emptor," as the Romans phrased it, meaning, "Let the buyer beware."

The tuner should remove the action and check for wear and moth. Moths can do a tremendous amount of damage to a piano. The hammer fluff, the bushings are felt lined, and there are felt washers between the keys and beyond. If all this has to be replaced, you'll get a bill for close to a thousand dollars.

The tuner will learn his job, whatever it may be. He can also give you a good idea of the price for the instrument. He will also examine the condition of the strings, the action, and the hammer fluff. A cracked soundboard can only be repaired by a professional.

Drama of Pharmacy
 by Michael Dworkin
 Reg. Ph., D.S.

The de-luxer medicine has reached into many fields, sometimes with surprising results. Take electrolyzing, for example. The AMA stated in part: "Dieters who believe they can cut down their blood cholesterol without medical supervision are in for a rude awakening. It can't be done. It could even be dangerous to try." Your doctor can prescribe just the right drugs to help you psychologically and physiologically.

There is absolutely no danger, however, that you won't be delighted with our prescription service. Personal attention and friendly service are our main stock in trade. A THOUGHT FOR THE WEEK
 by BILL LENNON

Pre-Christmas thoughts... Christmas will soon be here. A season of giving. A season of gladness for most of us. A season of grieving and sadness for some of us. A season of religious dedication for too few of us. A season of memories for all of us.

Christmas always has been, is, and always will be a season for gladness and sadness. It has been that way since the beginning. Just as His birth brought gladness to the world, His birth also brought sadness. His birth triggered the slaughter of many babies in the futile attempt to rid the world of the heralded King of Kings. These murdered babies were loved by sad, grieving parents just as He was loved.

In our own Christmas gladness or sadness, let us pause and ponder the only reason for His birth. We celebrate the birth of the Babe of Bethlehem. While those of us with faith know it is ever with us, let us pause and ponder what He would say if He put in a personal appearance as He sees us celebrate His birth in our varied manner. Do we give Him reason for sadness—or sadness? The answer we come up with can easily bring our own immediate gladness—or eventual sadness.

Steinbeck in Saigon To 'Listen' to War

SAIGON, South Vietnam (AP) — Author John Steinbeck has come to war-torn Vietnam to "go to the rivers, into the mountains, to listen to it, to see it for myself."

The bearded 64-year-old Nobel Prize-winner said in an interview today he will learn to fire the M16 automatic rifle and the M79 grenade launcher.

"How can I write about these things if I don't know them?" he asked.

Steinbeck and his wife arrived Saturday for an "indefinite stay."

"I'll poke around and write what I see and feel. No deadlines," he said with a grin.

His reports will appear as a series of letters, he said, in *Nesbrey*, the "Long Island, N.Y., newspaper."

Steinbeck's guide part of the time will be his son John (Chagrin). China would love to have him in Vietnam since June.

He is an Army Specialist Fourth Class assigned to the armed forces radio and television network.

But I don't think this war between black coffee on the garden terrace of an old hotel and discussing the war and the writer's plans. He has another son in the Army basic training at Ft. Ord, Calif.

"That's been the whole history of things, in Russia, and now in Red China — both as what I see some changes on the other side of the world."

"But I'm not here to write about politics and such things. What I'm interested in is what people are thinking and feeling. They are thinking and feeling."

He visited troops at an artillery battery Sunday and fired one of the big guns. He plans to ride upriver on one of the U.S. Navy's new hovercraft, a patrol boat that speeds over the water on a self-made cushion of air.

"And John, here," Steinbeck said, nodding at his son, "is going to show me around Saigon and wherever else he can. He knows his way around. The interesting people, the places. This is a fascinating place, stories everywhere. The problem is to find the time to write them."

Steinbeck knows Europe well but this is his first trip to Asia.

"Somewhere with all my wandering, I missed it," he said.

He plans to make up for that. After Vietnam he will visit other Southeast Asian countries and then go to India.

Curt Flood, St. Louis Cardinal outfielder, handled 396 chances in 150 games last season without an error.

Weapon Bought Hour Before 2 Gunned in Park

NEW YORK (AP) — Police say Gustavo Williams, the 29-year-old former mental patient, acquired a killing two-stroke rifle in a city park near Times Square, purchased his bolt-action rifle only an hour before the shooting Saturday night.

They also disclosed Sunday that Williams was released last month from a Queens state hospital which he had voluntarily entered in September. He had been referred to an after-care clinic for follow-up treatment.

Williams was shot down in a barrage of 16 shots fired by five city policemen and an upstate Troy officer who was having Christmas shopping. He was hit four times and remained in critical condition today.

Detectives said this 30-caliber rifle and 10 rounds of ammunition were purchased at a surplus arms store about 8 p.m. For the next half hour, Williams wandered through busy Times Square.

About 5:30 p.m., Williams was in Bryant Park, a block to the east, where he sat on a bench for another half hour. Then he suddenly stood up and began shooting, police said.

His first shot struck Dorjan J. Norton, 84, of Manhattan and the second hit Charles Linden

Mid-Air Crash Takes Two Lives In North Canaan

NORTH CANAAN (AP) — Aeronautics officials continued their investigation today of a mid-air collision that caused a plane crash in which 4 Massachusetts couple was killed.

The victims, 28-year-old A. Brooks Conklin of Ashley Falls, Mass., and his wife Dorothy, were the parents of six children.

Police said their initial investigation indicated that the Conklins were taking photographs of a plane piloted by Conklin's business partner, Stanley Segalla, 42, of North Canaan just before the collision Sunday afternoon.

Segalla was able to land his plane safely at Chatham Airport.

David Rosser of the State Aeronautics Board said Conklin had a student pilot's license. Also on hand for the investigation was J. R. Graham of the Federal Aviation Agency.

'Bone in Throat of Congress' Celler Backs Powell Probe, Believes Ouster Too Drastic

NEW YORK (AP) — Rep. Emanuel Celler, calling fellow Rep. Adam Clayton Powell "a bone in the throat of Congress," has proposed an investigation of what he says are the Harlem Democrat's "wrong and excessive" actions.

Rep. Lionel Van Deerlin, D-Calif., said earlier this month that he would attempt to block Powell's returning to Congress when it reconvenes in January.

"Our patience is exhausted," Celler said. He had praise for Powell as a "skilled" legislator, however.

Celler's comments came on the WNBC-TV program "Man in Office" and in an interview.

JEWISH APPEAL GOAL

NEW YORK (AP) — The United Jewish Appeal, concluding its 20th annual national conference, has adopted a \$75 million campaign goal for 1967.

The goal was set Sunday night as the organization elected new officers. They are: Max M. Fishel of Detroit, general chairman; Edward Ginsberg of Cleveland, associate general chairman; and Mrs. Harry L. Jones of Detroit, chairman of the national women's division.

Soviet Plans Differ By Space, Earth

By William L. Ryan

What the Soviet Union says it is willing to do about outer space somehow fails to square with what Moscow repeatedly says it intends to do on earth.

Moscow has agreed on terms of a treaty barring mass destruction weapons from outer space, but Soviet propaganda pursues the theme of "liberation struggles," aimed at "world international atmosphere."

Even as the space agreement was being hammered out, Pravda, the Communist party paper, was carrying instructive articles for Communists, harking back to the "historic significance" of the 1947 and 1950 Moscow declarations.

Those two world Communist conferences laid down a blue-print for Communist expansion by the use of the "liberation struggle" device.

As Pravda itself said, the Red world: The expressed determination to "pursue 'liberation struggles' by all means, including wars, can be defensive, in the light of Red Chinese hostility to the Kremlin and the contest for influence within the Communist world itself.

In this context, the fact that Moscow reached agreement on space treaty terms may be as important as the agreement itself. Peking and its allies will cite new evidence that Moscow and Washington are plotting to dominate the world and prevent others from a free hand with space or nuclear weapons.

The defensive note shone through the Pravda editorial: "The Soviet Union is not a party to the agreement on space or nuclear weapons. It is trying to build a domestic economy which some day might rival those in the West. It is reluctant now to gamble with violence and instability. Yet it tries to convince Communists that it remains the fountainhead of revolution through liberation wars."

Soviet statements, however, must also be examined against Moscow's current problems in the West. It is trying to build a domestic economy which some day might rival those in the West. It is reluctant now to gamble with violence and instability. Yet it tries to convince Communists that it remains the fountainhead of revolution through liberation wars.

Auto Industry Proclaims '67 May Be Vintage Year

DETROIT (AP) — The nation's auto industry may be heading for one of its best years in history in 1967, Frasier G. Donner, chairman of General Motors Corp., said today.

In a year-end statement on the U.S. economic outlook, Donner predicted that total retail sales of motor vehicles "could well exceed our long-term" estimate of 10,200,000 cars and trucks in 1967.

But the chairman of the nation's biggest auto firm added: "Economic developments in 1967 will be importantly influenced by the magnitude of the resources required for Vietnam and the nature and extent of government actions in the areas of monetary and fiscal policy."

Donner expressed optimism that national defense expenditures could be held within recently announced levels and high-volume model years when "there is no doubt that the customer will continue to benefit from intense competition" in both vehicle safety features and prices, he said.

Auto Industry Proclaims '67 May Be Vintage Year

DETROIT (AP) — The nation's auto industry may be heading for one of its best years in history in 1967, Frasier G. Donner, chairman of General Motors Corp., said today.

In a year-end statement on the U.S. economic outlook, Donner predicted that total retail sales of motor vehicles "could well exceed our long-term" estimate of 10,200,000 cars and trucks in 1967.

But the chairman of the nation's biggest auto firm added: "Economic developments in 1967 will be importantly influenced by the magnitude of the resources required for Vietnam and the nature and extent of government actions in the areas of monetary and fiscal policy."

Donner expressed optimism that national defense expenditures could be held within recently announced levels and high-volume model years when "there is no doubt that the customer will continue to benefit from intense competition" in both vehicle safety features and prices, he said.

Bolton Referendum Sought On School Project

The question of whether or not to appropriate money for a cafeteria-auditorium addition to the high school will not be decided at the town meeting to be held at 8 a. m. on Dec. 18. All items relating to the addition will be placed on a voting machine.

A petition for a referendum has been filed with the town clerk requesting that items through 10 on the town meeting card be placed on a voting machine.

This leaves four items to be placed on, and one item to be placed at the meeting to be decided, which will begin at 8 a. m. on Dec. 18.

Discussion is also allowed on the items pertaining to the high school addition, but no vote can be taken.

According to state statutes, the questions must be placed on the machine for a yes or no vote not less than seven days before the meeting.

This would mean that the earliest day the vote could be taken would be Dec. 11. The polls would be open from 8 a. m. to 6 p. m., or some variation of these hours.

The referendum petition was drawn up and circulated this weekend. According to town clerk Mrs. Orla Toomey it has over 207 signatures. A total of 300 are necessary.

Mrs. Toomey said that she would like to see a town ordinance making it mandatory that appropriations above a certain amount be voted on by referendum.

So often, she said, only one member of a family can attend the town meeting, or the hour interferes with working hours for some persons, or the weather is inclement.

Questions listed on the machine are:

"To approve the preliminary plans and specifications of the Public Building Commission for the construction of a Cafeteria for the Junior-Senior High School."

"To appropriate an amount not to exceed the sum of \$350,000 for preliminary plans, final plans and specifications, construction and equipment of a Cafeteria to be built as an addition to the Junior-Senior High School and to authorize the issue of bonds to defray such appropriation."

"To authorize the Selection Committee to determine the details of an issue of bonds in an amount sufficient to defray such appropriation."

"To appropriate, if the \$350,000 is not appropriated, a sum not to exceed \$25,000 for final plans and specifications for construction of a Cafeteria . . . to authorize the issue of notes in the town to defray the above said appropriation . . ."

"To consider and act on a decision of the Board of Selection to apply to the State Board of Education for state aid."

These are the last five items on the agenda.

The first four items, which can be voted on tonight, are:

"To authorize the expenditure of an amount equal to one-half mill of the 1967 annual appropriation for the Reserve Fund for Capital and Non-Reserving Expenditures to be used for the development of town parks."

"To appropriate an additional appropriation of \$6,500 for payment to the Town of Andover for use of the disposal area from October 1, 1966 to October 1, 1967."

"To empower the Board of Finance and Board of Selection to determine the length of time to contract with the Town of Andover for use of its disposal area."

To pass an ordinance authorizing the Board of Finance and Board of Selection to determine the length of time to contract with the Town of Andover for use of its disposal area."

To pass an ordinance authorizing the Board of Finance and Board of Selection to determine the length of time to contract with the Town of Andover for use of its disposal area."

To pass an ordinance authorizing the Board of Finance and Board of Selection to determine the length of time to contract with the Town of Andover for use of its disposal area."

Winter Loses Edge; Floods Hit Midwest

Fair weather took the edge off winter in large sections of the nation today, but days of rain brought minor flooding to areas of the Midwest.

Several highways in Ohio were closed when rivers spilled over their banks. Flooding in Illinois caused crop damage.

The Maumee River in north-west Ohio forced the closing of several roads including part of U.S. 24 near Defiance. The Solo to River is approaching flood stage from Leves in central Ohio to Pikeston in the southern part of the state.

The flooding of the Kaskaskia River near Vandalia in southern Illinois has caused more than \$100,000 damage to crops. The river broke through a levee Saturday and inundated 4,000 acres of farmland.

Cooler skies prevail across most of the nation today, especially in the East, the central states and the Southwest.

Rain damped parts of the Delta. "The Death of a President" written by William Manchester, according to Peter Lasgor, Daily News Washington bureau chief.

Lasgor quoted one person who had read the manuscript as saying, "Jackie now regrets having poured out her soul to Manchester as if he were a psychiatrist." Manchester was selected by the Kennedys to write the book.

The Daily News story said: "The manuscript is understood to contain hitherto unpublished material involving President Johnson and the Kennedys. These details are likely to increase existing tensions between Mr. Johnson and the Kennedys."

The book is to be published by Harper & Row and serialized in four installments in Look magazine starting Jan. 10.

Mrs. Robert Little, Mrs. Henry Fuller and Mrs. George Rissell will comprise a trio. Jennifer and Jeffrey Maxwell will present a duet.

Following the concert there will be a silver tea. Hostesses will be Miss Betty Chase and Mrs. Rigby Graham.

The public is invited. Homemakers Plan Party. Women Homemakers will hold their annual Christmas party Wednesday from 10 a. m. to 2 p. m. at the Community Hall.

The dividend represents a five-cent per share increase over the dividends paid in the first three quarters of the year. Dividends in 1966 totaled \$1.08 per share, an increase of 40 cents over dividends in 1965.

Train Kills Scout, Leader; Engineer's Pleas Unheeded

BRIGHTON, Mich. (AP) — "Grab the boy and jump! Grab the boy and jump!"

Engineer Lawrence Green shouted to the fleeing figures as his train bore down on them on a snowy trestle.

Despite braking power fully applied, the Chesapeake & Ohio freight ground on down the tracks and brought tragedy to a Boy Scout hike Saturday.

Howard T. Lovell, 59, leader of Detroit Troop 586, and John Greenham, 11, a member of the troop, were killed. Both were on the train.

Lovell died apparently trying to shove young Greenham to safety when the train, going 55 miles an hour, caught the Scouts by surprise in the Huron River trestle in Island Lake State Park.

Another scout, 14-year-old Kevin Cooney, 14, of Detroit broke a leg when he jumped 30 feet to the ground.

State police said Cooney's death did not hear the train's whistle. He jumped because he saw the others scrambling for safety, officers said.

Thirty-four Scouts escaped harm, some of them by leaping from the trestle as Cooney did. Engineer Green, 63, of Inkerst said the train had rounded a curve about 200 yards from the trestle when he saw the boys.

"They were running down the trestle when I saw them."

A gradual warmup was forecast as southerly breezes moved into the central and northern Plains.

The weather continued mild along the Pacific Coast and through most of Florida.

Early morning temperatures ranged from -1 at Hibbing, Minn., to 70 at Key West, Fla.

BEAUTY PLAQUE STOLEN. MONTEREY, Calif. (AP) — A bronze plaque Mrs. Lyndon B. Johnson dedicated to scenic highway beauty last September is missing from its chiseled pedestal at the edge of state Highway 1 about 18 miles south of Monterey, near Big Sur.

Monterey County sheriff's deputies noticed the disappearance Sunday on a routine patrol.

The plaque, 18 by 24 inches, designates Highway 1 as a national scenic highway. It had been bolted to the rock along the highway.

South Windsor School Board to View Film And Discuss Library Needs

The board of education will meet tomorrow night at 7:30 at the high school.

A brief discussion of library materials will be held following a showing of the film, "And For the Love of the Book."

The board will continue a review of formulas under the report of the superintendent of schools.

Items of unfinished and new business include: Discussion of the formation of a committee to study the possibility of a memorial for the late Mrs. Paul Hull and the establishment of an advisory committee to set up guide requirements for a course in sex education.

Reports of the ad hoc committee of the board will also be given.

An executive session will be included in the agenda.

Books donated by Mrs. Nancy Brill, Lisa Cassagne, Cheryl Charvat, Lynn Culver, Diane Dunroth, Kathleen Farrell, Jeanne Gouss, Elizabeth Morison, Joan Richardson and Alexia Titor.

Twenty membership stars were received by the following girls:

Kathy Courcy, Mary Ellen DeBarr, Louise Durand, Kathy Franco, Robin Gilbert, Sharon Hagston, Trudy Schwars and Laurel Travers.

Mrs. Ann Brill and Mrs. Anita Travers troop leaders. Mrs. Carol Hancock is assistant leader.

The town sewer connection will hold open meeting tomorrow night at 7:30 in the high school cafeteria.

The meeting will be held to review specifications for the new treatment plant, associated buildings and sewer lines. The public is invited and urged to attend.

The Father Roseberry Council, Knights of Columbus, will hold an anniversary meeting and dinner Wednesday at St. Margaret Mary's church hall.

A Christmas party for the children of members will be held Sunday from 1 to 6 p. m. at the Bullfinch Avenue Shopping Center.

The party will be held in a vacant store. Free gifts will be provided for children between the ages of 1 to 10. Cartoons will be shown and refreshments will be served.

The organization is planning a New Year's Eve party with dancing from 9 p. m. to 3 a. m. at the Shopping Center. A buffet will be served and set-ups provided.

Christmas Play Set. The Dramatic Club of the Ellsworth Middle School will present a play, "The Christmas Umbrella," Friday at 7:30 p. m. in the school gymnasium.

All parents and students of the Ellsworth and Union schools as well as the general public are invited.

The play centers around a large family which does not receive the usual Christmas gifts but instead receives something that makes Christmas very meaningful for them.

Miss Evelyn Luippold is drama club advisor. Members of the cast include Timothy McLaughlin as Santa Claus; Barbara Fioridan, Mrs. Claus; Robert Woodard, Timmy; and some of the cast's elves; James Brown, Ling, another elf; Linda Borstson, Grandmother; Patricia Raymond, Mamma Umberto; Walter Booth, Papa Umberto, and Janice Mason, Theresa Umberto.

Also, Steven Burgess, Carlos Umberto, Joyce Gay, Bettina Umberto, Kim Buffino, Ross Umberto, Lynn Durrant, Maria Umberto, James Van Sicklein, first neighbor; Janet Reichle.

How To Survive Sale 12.95 We read reports from several states on safety inspection programs, and in some areas more than half the cars were rejected for one or more unsafe conditions. On a national average about 60% of the cars on the road are five years old or older, so considering wear and tear it is not surprising that such a high percentage of cars show up some defects. It should remind all of us to have inspections and corrections made without delay. Have these items inspected: Brakes; turn signals and lights; steering link & tie rods; wheel alignment; tires; wheel and rim; shock absorbers, suspension, exhaust system; fuel lines and windshield wipers. Our column is here to serve you, as we hope to do in business as well. Dillon Sales and Service, Inc. Your Ford Dealer 319 Main St., Manchester 643-2145

Private School Offers Grants

Scholarships to Wilbraham Academy, Wilbraham, Mass., up to full tuition, are currently available, the school administration announces. The academy is a private secondary school for boys.

The closing date for 1967-68 Louis C. Flocken Memorial Scholarship applications is Jan. 14, according to W. Gray Matern, headmaster.

Flocken Scholarships are awarded outstanding boys in Grades 9 through 12 on the basis of academic aptitude and outstanding achievement, ability to contribute to the school community in other than academic areas, and financial need. Interested applicants should contact Frederick W. Prater, Jr., director of admissions, for further details.

The academy offers a complete college preparatory curriculum, including advanced placement courses in eight subjects and full-year major courses in music and philosophy.

Again, The "Unarmed" Helicopter... Those who, like Senator Fulbright, have a faint feeling that the story of Vietnam is now beginning to repeat itself in Thailand have just had their faint feelings reinforced by the details of our State Department's final admission that the American military personnel in Thailand are now piloting American helicopters which are ferrying Thai police and troops into various areas of the country.

Statistically, we now have 35,000 American troops in Thailand, not to mention the 1,000 guerrillas which have been plaguing the Thai government, but for support and operation of the bombing mission we regularly launch from Thailand on North Vietnam.

If the Vietnam story is to repeat itself, these statistics, too, will change, our commitment into the hundreds of thousands, the strength of the guerrillas upward into the tens of thousands.

And, if the full Vietnam story comes full circle in Thailand, eventually the helicopters will not be ferrying Thai troops into battle, but American troops, because the Americans fight more efficiently.

The Governors, Romney, and 1968... It seems almost yesterday that Lyndon Johnson smothered Barry Goldwater, and yet it is almost tomorrow when another Presidential race will have to run.

And how it will be run is being shaped, even now, every day, in many different ways.

First, the nation's 25 Republican governors have moved very directly into a strategic position of considerable operating unity among themselves.

John Barlow Martin has just published a book on the Dominican Republic (Overtaken by Events, Doubleday, \$7.95), in which he raises again the controversial question of whether American involvement in the Revolution of April 1965, was justified because the Communists were largely unprepared to take a role in the revolution.

The book, then, halled by Adolph Berle in the New York Times Book Review as "the first authentic document of the case" contains no first-hand information of the critical events of April 24-25, Mr. Martin was not then on the scene.

And they can remember that the story of the 1964 election, on the other hand, was more progressive and more capable of leading the party toward a national victory than are the usual leaders of Republican policy in Congress.

The second thing that has also happened rarely swift in the aftermath of the Nov. 8 vote count is that one particular governor, George Romney of Michigan, has moved into a commanding position for the 1968 presidential nomination.

These two developments leave two questions. The first concerns the extent of opposition the Republican establishment in Congress can muster to the power of the governors in general and the candidacy of Romney in particular.

One would venture the guess that the Republican governors can maintain their lead in the situation and that the damage the Republican leadership in Congress can do can be limited to the personal damage of giving the party a record for negativism which will have a tendency to sabotage any positive program favored by the party convention and its nominee.

This can be so, at least, if Romney continues to grow into his role, and does not, through awkwardness, become, in poor judgment, or weakness of his own, undermine the position of the governors behind him.

So the second, crucial question is that of how Governor Romney himself will manage to do, from now on, with his wide open opportunity. It seems no secret that, at this precise moment, he is getting widely contrasting advice and advice. The advice concerns just how fast he should try to reach for the prize; the criticism suggests that some of his first post-election workouts have been something less than smooth, and that some work has to be done on or with him before he presents the truly acceptable image of a candidate.

The guess here would be that the best thing Romney to do would be to relax into being himself, and not press too far forward too fast.

It can be said in behalf of Mr. Berle that he has no doubt where he stands. "History alone can reveal longer results," he writes, "but for the time being the President's swift use of power in the Dominican Republic seems vindicated." We think not. And we think that the only way Mr. Berle can manage to come to this conclusion is to ignore the first 36 hours of the revolution when according to virtually every account (even the State Department) non-Communists were firmly in control.

The removal of other subsidies closer to the consumer will have devastating impact. One Djakarta resident now pays the equivalent of about 21 cents a month to cover electricity for his cottage in the mountains. Without the subsidy, his bill will be 1,000 per cent higher.

The old price of gasoline was one-sixth of a U.S. cent per gallon. A year ago, it went to two cents. After January it will be 15 cents a gallon when the fat subsidy cushion is removed.

The government will try to compel state-owned enterprises to pay their own way, which means a ruthless pruning of padded payrolls. One reason for the subsidy debacle in the first place was Sukarno's inability to find efficient managers for the economic machine left behind when the Dutch were expelled.

The removal of subsidies is only one part of Suharto's indispensable stabilization program.

It is said that in this "age of anxiety" everybody is afraid of something. Science has classified at least 217 different kinds of phobias.

Sets Rules for Troop Movements

AMMAN, Jordan (AP)—Jordan has agreed to let in Iraqi and Saudi Arabian troops within two months but only if U.N. peacekeeping forces are withdrawn from the frontier between Israel and the United Arab Republic.

The Jordanian stipulation appeared to check the plans of other Arab leaders to extend their troops further along the Israeli frontier since it was unlikely that the United Nations would remove its forces and risk a further increase in Middle East tensions.

Jordan Says UN Units Must Go

AMMAN, Jordan (AP)—Jordan has agreed to let in Iraqi and Saudi Arabian troops within two months but only if U.N. peacekeeping forces are withdrawn from the frontier between Israel and the United Arab Republic.

Jordan has expressed fear that foreign troops admitted to its territory would be used to overthrow King Hussein.

Churns Fall Behind

OTTAWA—Canadian aid to 356 million pounds of butter in 1965. Their farmers produced only 237 million pounds.

Jordan also refused demands by the Palestine Liberation Organization to let its troops enter Jordan "to take up positions on the front line against Israel."

Viet Massacre Survivor Recalls He Wasn't Scared

EDITOR'S NOTE - For the second time in two weeks, a U.S. infantry platoon has taken heavy casualties in Vietnam. Associated Press correspondent Peter Arnett interviewed a survivor of a 1st Division platoon decimated Sunday.

SUOI DA, South Vietnam (AP) - Pfc. Eugene Hicks, 20, clung to the wreckage of his machine gun that had jammed for the sixth time in as many minutes and wondered why, in the midst of the noises of the bloody battlefield, he wasn't scared.

Hicks, from Chicago, Ill., didn't realize until he crawled across the battlefield afterward how bad it had been.

"I was sort of elated I was shaping up so well, that my reaction to fire was so good," Hicks recalled, remembering back to Sunday morning when his 30-man platoon stumbled on a large Viet Cong force, engaged them, and took heavy casualties.

Richard Himber, Top Swing Era Bandsman, Dies

NEW YORK (AP) - Band-leader Richard Himber, whose slight-of-hand magic tricks brought him as much popularity as his music, died Sunday at his home. He was 59.

Buckley Drama Based on Safety

A court judge, accused of causing all the accidents in a mythical kingdom, must find a way of saying his head.

Himber's hands gained popularity during the swing era and he maintained them through the years with greater emphasis on his talents as a magician.

Vernon Dump Pact Expansion Explored

The five members of the new North Central Refuse District, three from Vernon and two from South Windsor, have met with John Daly, East Windsor's first selectman, to discuss expansion of the membership.

Robert Deming of Vernon, chairman, said Daly seemed interested and took copies of the charter and other pertinent information concerning the district.

Vernon just signed the charter two weeks ago and South Windsor signed it almost a year ago. Vernon does not have any refuse area and has to pay a private landowner in Ashford to take its rubbish.

South Windsor has a landfill area which Mayor James Tharow indicated would only be good for about another five years.

Although the only method of disposal so far discussed has been that of incineration, the district is not opposed to other ideas.

The Town of Bolton, which was involved with Vernon and Manchester in the original Northeast Refuse District, and East Windsor will be invited to attend meetings of the new group, although they will not have a vote until such time as they actually raise the charter.

Deming also said the district will investigate the possibility of getting federal aid funds for further study of the newest methods of disposal and also for aid in building a future facility.

The members feel one of the group's major problems will be finding a site for a facility which they decide to construct, it even though the district has the power of condemnation.

Representatives from Vernon are Deming, A. Richard Lombardi and William Balkan. South Windsor representatives are Howard Fitts and Joseph Grizer. Representation is according to population.

Raytheon Strike In Fifth Week

BOSTON (AP)—A strike by 10,000 electrical workers against Raytheon Co. entered its fifth week today after union members voted 2-1 Sunday to turn down management's latest contract offer.

The vote was taken by secret ballot at a mass meeting of local 1505 members of the Brotherhood of Electrical Workers, AFL-CIO, at Suffolk Downs Race Track in East Boston.

The walkout affects 28 Raytheon facilities in 12 Massachusetts counties.

The company's latest proposal, made last Thursday, called for a three-year contract with hourly pay boosts of 42, 36 and 32 cents in three pay groupings over the terms of the pact. Current wage rates were not available.

Sick and pension benefits also were included.

The union had demanded a two-year contract with a 10 percent raise and a provision to arbitrate a proposal rejected by management, which said it was not a "serious" gesture toward ending the strike.

The company is a major manufacturer of electronic equipment, much of it used by the military in Vietnam.

SHARP EYE REWARDED — PT. BRAGO, N.C. (AP)—Sgt. Ronald K. Bowman's sharp eye has won him the Army Commendation Medal.

Bowman was jumpmaster for the 82nd Airborne Division when he noticed white spots on some of the parachutes to be used in a jump by 300 men.

The jump was called off, and investigation showed the spots were caused by a battery acid spill on the floor of a truck carrying the parachutes. Authorities said many of the damaged chutes probably would have ripped.

Parishioners Howard Horsman, left, and John Elliott laying tile for walk.

Tolland Church Building Nearly Ready

Construction of the religious education building of the United Congregational Church in Tolland is rapidly nearing completion, according to John Chesnut of Grant Hill Rd. building contractor for the project.

Jan. 15th has been set as the tentative date for the dedication ceremonies by the Rev. Donald G. Miller, pastor of the church.

All that remains to be completed is the final interior painting and the installation of the flooring and the doors, Chesnut explains.

Members of the church have been working on Saturdays, started laying tile for a sidewalk. They will also build the parking lot themselves.

The building will house eight classrooms, the church office and the library, on two levels. The various rooms will be painted in "Williamstown" pattern colors, including greens and mustards as well as blue.

The company's latest proposal, made last Thursday, called for a three-year contract with hourly pay boosts of 42, 36 and 32 cents in three pay groupings over the terms of the pact. Current wage rates were not available.

U.S. to Send Ailing Hanoi POWs Home

MADRID (AP)—U.S. presidential envoy W. Averell Harriman said Sunday night that the United States plans to send some sick or wounded North Vietnamese prisoners of war home.

Harriman indicated that the United States would like to have a prisoner exchange, but that the U.S. plan was not conditional on any reciprocal action from Hanoi.

He did not say when the repatriation would be done nor the number involved. The release, he said, would be undertaken through the International Red Cross and not by direct agreement with North Vietnam.

Harriman, who arrived Sunday from Algeria, told newsmen of the plan in conversation during a reception at the U.S. Embassy. He is on a tour of various nations to explain the U.S. position on Vietnam and the decisions of the recent Manila conference.

The only North Vietnamese known to be held by the United States are 19 seamen pulled from the Gulf of Tonkin when their torpedo boats were sunk. The Saigon government has custody of most North Vietnamese captured in fighting, including nearly 600 seized by U.S. units. Premier Nguyen Cao Ky said he was willing to "offer an uneven exchange" for U.S. airmen held in the north.

At mid-October, official U.S. figures listed 234 Americans as missing in action, with 78 of those confirmed captured in the north and south.

Two Youths Arrested 7 Waterbury Policemen Injured During Fracas

WATERBURY (AP)—A peace, assault with a dangerous charge of inciting a riot has been lodged against a youth involved in an hour-long outbreak Saturday night that left seven Negro neighborhood under police control.

Police Sgt. Joseph Gullotti said Sunday he would not characterize the incident as a riot when police tried to disperse a youth brandishing a straight razor — as a riot.

Two youths were arrested as the rioting started, and a result of the poolroom fracas that eventually involved an unruly crowd of about 300 persons in North Square.

They were Ronald Barnes, 18, and Franklin A. Jones, both 18. Barnes also was hurt.

The "inciting a riot" charge was added to that of breach of the peace against Jones. Barnes was admitted to the hospital and charged with breach of the peace.

A second, bigger explosion soon followed the first. "The building turned into a ball of flame," said La Paro. Heat from the flames cracked a plate glass window in a gas station about 100 yards away, fire-ravaged Putnam this afternoon across the tracks from the burn.

The governor said he would send a commission to investigate the cause of the explosion. He said the state Capitol at noon today to attend an emergency meeting of the city council in state about 100 yards away, fire-ravaged Putnam this afternoon across the tracks from the burn.

WOMAN JOURNALIST DIES

TALBOTTON, Ga. (AP)—Mrs. John A. Bryan, honored in 1960 as the nation's oldest active woman journalist, died in Atlanta Sunday at the age of 94.

Known to her readers in the Talbotton New Era as "Miss Lynda," Mrs. Bryan had contributed to Georgia newspapers for 81 years. She stopped writing only eight weeks ago after suffering a heart attack.

She wrote her first story when she was 14 and contributed to several newspapers during her career.

Funeral services will be held here Tuesday.

The Bulletin Board of the United Congregational Church will meet tonight at 7:30 in the Church House.

Parents of children in the second Cooperative Kindergarten of Tolland will meet tonight at 8 at St. John's Episcopal Church in Vernon.

St. Matthew's Men's Choir will rehearse tomorrow night at 6:30 at the home of Mrs. Harold Garity on the Green.

The board of selection will meet tomorrow night at 7:30 in the town hall.

The Tolland Junior Women's Christmas Cards can still be imprinted with your name 1-DAY SERVICE!

FLIGHT SPEED UP EDWARDS AIR FORCE BASE, Calif. (AP)—The latest test jet, the X-15 rocket plane, was seen faster than the Air Force neapig River about a quarter mile west of the square to feed water to other trucks which then sprayed it onto the fire.

Firemen set up a water screen of about a dozen lines and blocked the fire from jumping to a large lumberyard just below the fire house building.

"It's a good thing they responded from all over," said a Putnam fireman, "because that

CONCENTRATION CAMP BOOM Bared by Cuban Refugees

MIAMI, Fla. (AP)—Refugees arriving daily from Cuba report that forced-labor concentration camps are springing up in their homeland.

They say that more than 30 have been established and more are being built.

A consensus of accounts by the exiles, who fly here at the rate of 200 a day five days a week, place the number in each camp at 500 to 1,000. That would indicate between 15,000 and 45,000 Cubans are behind barred wire.

The camps, officially called Military Units to Aid Production (UMAP), are the No. 1 topic of conversation with every new group of refugees.

The emigrants report that among those used UMAP are unemployed persons, including those dismissed from jobs because they applied for U.S. citizenship in the United States.

In addition, said Francisco Ortega Valdez, a recent arrival, "anyone suspected of harboring the slightest anti-Castro feeling is subject to shipment to the camps without the semblance of a trial."

Ortega said jobsless Cubans "who don't volunteer to work on government farms at 50 cents a day are rounded up and taken to the camps."

Angel Felpeo Hernandez, a University of Havana student who fled here by boat, said: "Communist agents recently went to the university and selected many students accused of

new crime: revolutionary spathy."

Cesar Zequeiro, 19, who said he escaped from an UMAP installation, described life there. "The two months I spent there were the worst of my life. We were awakened at 4:30 in the morning, and at 5 we were on our way, heavily guarded, by truck to work in the fields. At 11, they gave us lunch of vegetable soup and boiled peas. After working until 6, we got more soup. Then, after receiving Communist indoctrination, we went to our bunk."

The exile news service AFP reported the UMAP plan originated a year ago when Fidel Castro and Cuban Communist leaders met in Camaguey Province. Most of the camps are reported to be in that eastern Cuban agriculture area.

"Castro wanted to strengthen the farm work force and at the same time pay off those who were supporting his regime," AFP said.

The news service said Maj. Ernesto Casillas Palenuela, Communist Central Committee member, was named commander of UMAP.

Octavio Vargas Garcia, who worked as a plumber in some of the camps before coming into exile, said some inmates were paid seven pesos monthly. Others got nothing.

Catalano, Audley Lanson, son of L.L. Alvin N. and Marion McGuire Catalano, Falls Church, Va. He was born Dec. 2 at DeWitt Army Hospital, Ft. Belvoir, Va. His maternal grandparents are Mrs. William Ward, 38 Nye St., and Carroll McGuire, 384 Summit St. His paternal grandparents are Mr. and Mrs. Audley Lanson, New Orleans, La.

Lockey, James Walter Jr., son of James Walter Sr. and Marcelle Coulombe Lockey, 33 Brooklyn Ct., Rockville. He was born Dec. 5 at Rockville General Hospital. His maternal grandparents are Mr. and Mrs. Fernando X. Coulombe, Rumford, Maine. His paternal grandparents are Mr. and Mrs. Walter M. Lockey, Rumford, Maine. He has a sister, Cheryl Lynne, 16 months.

Hennequin, Jeffrey Arthur, son of Robert Louis Sr. and Beverly Reagan Hennequin, 60 Deerfield Dr. He was born Dec. 8 at Manchester Memorial Hospital. His maternal grandparents are Mr. and Mrs. James Reagan, 25 Buckingham St. His paternal grandparents are Mr. and Mrs. Walter Hennequin, 167 Green Rd. He has a brother, Robert Louis Jr., 2 1/2.

Freckleton, Gordon Scott, son of H. R. and Lynne Appleby Freckleton, 784 Popponessy, S. Glastonbury. He was born Dec. 3 at Hartford Hospital. His maternal grandparents are Mr. and Mrs. M. I. Appleby, 28 Gerard St. His paternal grandparents are Mr. and Mrs. Clifford Callahan, 31 Harton Rd.

Woods, Sandra Lee, daughter of Robert G. and Barbara Galbraith Woods, Swampy Rd., Coventry. She was born Dec. 8 at Rockville General Hospital. Her maternal grandmother is Mrs. Ernest G. Jones, Warner, N. H. Her paternal grandparents are Mr. and Mrs. Kenneth S. Woods, Concord, N. H. She has a brother, Gregory E., 4.

Events In Capital

Weigh Postal Hike
WASHINGTON (AP) — The Post Office Department is considering seriously whether to ask Congress to increase postal rates.

A Post Office spokesman said over the weekend the increase is needed because of a "very, very tight" fiscal situation. He explained the department now has about \$1.2 billion in deficits. "One way or another, the users of the mail are going to have to pay for the service they get," he said, "whether it is from the general treasury (taxes) or in postage."
The spokesman said a decision is expected soon. If the increase is sought, he added, it probably would affect all classes of mail except parcel post, whose rates were increased earlier this year.

Income Seen Up
WASHINGTON (AP) — The Commerce Department has reported a small but healthy increase in personal income last month that government economists believe should lessen inflationary pressures bearing on President Johnson's decision whether to increase taxes.

But Johnson, who has indicated he will wait until January to decide, also must weigh other factors in the economy. Nevertheless, the personal income hike was the third major economic indicator to slacken during November. The government reported last week that retail sales dropped 1 per cent during the month while wholesale prices fell for the second straight month.

In its report Sunday night, the Commerce Department said personal income rose by \$2.2 billion at an annual rate during November to a seasonally adjusted annual rate of \$207.6 billion. The increase was the lowest since July and well below the average \$4.8 billion monthly advance of August, September and October. It was led by rising wage and salary payments. The department said all types of income advanced except farm income, which declined for the eighth straight month, and dividend income, which was unchanged.

Wheat Sale Meeting
WASHINGTON (AP) — Rep. Paul Findley meets today with Undersecretary of State Nicholas Katzenbach to discuss what the Illinois Republican said is a State Department attempt to arrange a \$20-million wheat sale to Yugoslavia.
Findley said Sunday the sale would violate a prohibition on special-interest foreign sales to countries trading with North Vietnam — a prohibition he says now is in effect.
Findley said the prohibition is contained in an amendment he sponsored to the Agriculture Department appropriation bill. Another bill, to extend the Food for Peace program through June 1968, contains language barring participation after Jan. 1 by countries trading with North Vietnam.
The State Department is "quibbling over language," Findley said, in an effort to arrange for sale, on favorable credit terms, of 200,000 tons of wheat to Yugoslavia.

CAPITAL FOOTNOTES
The U.S. Chamber of Commerce is sponsoring a two-day public affairs conference Feb. 3-4 in Washington to size up the 90th Congress and the 1967 legislative outlook.
The U.S. Office of Education says colleges tripled their education expenditures from \$5 billion to \$15.2 billion during the last decade while elementary and high schools doubled their spending from \$15.5 billion to \$29.8 billion.

NFL Eastern Conference Title Still Up for Grabs

NEW YORK (AP)—Doesn't anybody want to start the new year with the Green Bay Packers for company?

The Dallas Cowboys, given a clear shot at naming a Jan. 1 date with the Packers in the National Football League championship game, inadvertently backed off Sunday, bowing to Washington 34-31 on a Charley Gogolak field goal with eight seconds to play.

Neither St. Louis nor Cleveland, however, profited from the date with the Packers in the National Football League championship game, inadvertently backed off Sunday, bowing to Washington 34-31 on a Charley Gogolak field goal with eight seconds to play.

Neither St. Louis nor Cleveland, however, profited from the date with the Packers in the National Football League championship game, inadvertently backed off Sunday, bowing to Washington 34-31 on a Charley Gogolak field goal with eight seconds to play.

Neither St. Louis nor Cleveland, however, profited from the date with the Packers in the National Football League championship game, inadvertently backed off Sunday, bowing to Washington 34-31 on a Charley Gogolak field goal with eight seconds to play.

Bridgeport Only Unbeaten State College Hoop Squad

BRIDGEPORT (AP)—The University of Bridgeport's basketball team, which has won 18 straight games, is the only unbeaten team in the state college basketball conference today.

The team, coached by Coach Gene Parise, has a record of 18-0 and is currently ranked 10th in the nation. They have defeated teams from Connecticut, Massachusetts, and New Hampshire.

The team's success is attributed to their strong defense and fast-paced offense. They have scored over 80 points per game and allowed only 60 points per game.

The team's next game is scheduled for Saturday against the University of Hartford.

Boston College and Harvard Risk Undeclared Records

BOSTON (AP)—Boston College and Harvard put Rhode Island Thursday and led after victories over Rhode Island and Vermont.

The two schools are competing for the Ivy League title. Boston College has a record of 10-1 and Harvard has a record of 9-2.

The games were held in Providence, Rhode Island. Boston College won 78-70 and Harvard won 78-70.

The games were highly competitive and featured several key plays. Boston College's defense was particularly strong, while Harvard's offense was more consistent.

Tighter Hold on Lead Boasted by Patriots

HOUSTON (AP)—The Boston Patriots headed home today with a tighter grip on their thin lead in the American Football League's Eastern Division after whipping the Houston Oilers 38-14 Sunday.

The Patriots' victory was a significant one, as it allowed them to extend their lead in the division. They now have a record of 10-1, while the Oilers have a record of 1-10.

The game was a defensive struggle, with the Patriots' defense playing a key role in the victory. They held the Oilers to only 14 points and forced several turnovers.

'This Is Not as Completely Disastrous as It Looks' 'Good Bye Allie' Banners Selling Well

NEW YORK (AP)—Only an Alie Sherman can look at a 1-11 record and cheer 484 points by the enemy and say "this is not as completely disastrous as it looks."

Sherman, the quarterback for the Pittsburgh Steelers, has led his team to a record of 1-11. Despite the poor record, he remains optimistic and has seen a surge in the popularity of "Good Bye Allie" banners.

The banners, which feature a picture of Sherman and the text "Good Bye Allie," are being sold in large quantities. Sherman himself has seen a significant increase in his popularity, with fans flocking to his press conferences.

Surprise! Rangers Rated No. 1

Just in case Notre Dame and Michigan State are interested, there's a question about New York Rangers fans today about the team's chances.

The Rangers are currently ranked as the number one team in the NHL. This is a surprise, as many fans had expected the Montreal Canadiens to be the top team.

The Rangers' success is attributed to their strong defense and fast-paced offense. They have scored over 30 goals per game and allowed only 20 goals per game.

Palmer Richiest After Latest Win

PALM BEACH GARDENS, Fla. (AP)—Arnold Palmer, favorite son of Lakewood, Pa., will be honored at a Chamber of Commerce banquet here today, and for opera he can state that he's won more money in one season than any golfer in history.

Palmer's latest victory at the PGA National Tournament has earned him a record \$275,000. This makes him the richest golfer in the world.

The banquet will be held at the Ritz-Carlton hotel in Palm Beach Gardens. It will feature a dinner, a performance, and a presentation of the trophy to Palmer.

Face Do-It-Yourself Task Celtics Impressive In Whipping 76ers

BOSTON (AP)—The Boston Celtics, bidding for a ninth straight National Basketball Association title, face a do-it-yourself task and they're confident they can overtake the Philadelphia 76ers in the Eastern Division race.

The Celtics' victory over the 76ers was a significant one, as it allowed them to extend their lead in the division. They now have a record of 10-1, while the 76ers have a record of 1-10.

The game was a defensive struggle, with the Celtics' defense playing a key role in the victory. They held the 76ers to only 14 points and forced several turnovers.

Bowl Football Roundup Ground-Conscious Foes in Bluebonnet

NEW YORK (AP)—The aerial circus that has been the Bluebonnet Bowl could well turn into the site of a pitched battle next Saturday when ground-conscious Texas Tech and Texas attempt to march against each other.

The game is scheduled for Saturday at the Bluebonnet Bowl stadium in Austin, Texas. It is one of the most anticipated games of the college football season.

Both teams are expected to play a hard-fought game. Texas Tech is favored to win, but Texas has a strong defense and could be a surprise contender.

Encouragement Sign No Help for Oilers

NEW YORK (AP)—A van from a Buffalo radio station in the cold outside Rice Stadium its electric sign hopefully flashing encouragement to the Houston Oilers who were inside doing battle with the Boston Patriots.

The Oilers' record is 1-10, and they are struggling to find a winning formula. Despite the encouragement from fans, they have been unable to score more than 14 points in any of their games.

The Patriots, on the other hand, have a record of 10-1 and are looking to solidify their position as the number one team in the division.

Texas Western Gets Chance For Hoop Spotlight Again

UNBEATEN Texas Western, 22 when the Bruins meet Colorado State University at home.

The team, coached by Coach Jerry West, has a record of 22-0. They are currently ranked 1st in the nation and are expected to win the national championship.

The team's success is attributed to their strong defense and fast-paced offense. They have scored over 80 points per game and allowed only 60 points per game.

Embry Sideline With Eye Injury

BOSTON (AP)—Wayne Embry, veteran National Basketball Association forward obtained by Boston from Cincinnati ahead of the start of the season, was admitted early today to the Massachusetts Eye and Ear Infirmary.

Embry sustained an eye injury during a game. The injury is serious, but he is expected to make a full recovery. He will be sidelined for several weeks.

9 Missing In Crash of Helicopter

SAN DIEGO, Calif. (AP) — One body was recovered and nine Navy men were missing today after the crash of a helicopter 34 miles offshore, the Navy said. Navy spokesman said the jet-powered, twin-rotor Sea Knight crashed without warning Monday four miles from its destination, the assault ship Tripoli.

An extensive air-sea search was launched and the body of Lt. J.G. Lawrence P. Beam, 26, Imperial Beach, Calif., was found during the night.

Among the missing were Capt. John R. McKee, Coronado, Calif., commanding officer of Amphibious Squadron 9 based at Coronado. The Navy said the missing men were all from California.

NEW YORK (AP) — Two Air Force F101s collided over the Atlantic 35 miles south of Montauk Point, Long Island, early today. Three crewmen were rescued by helicopter. Search operations were under way for a fourth man, the Coast Guard said.

The planes were flying out of Suffolk County Air Force Base in Westhampton, about 80 miles east of Manhattan. They had taken off on a routine training mission about 35 minutes before the crash.

Air Force spokesmen said the rescued crewmen were in good condition. Two Coast Guard planes and three cutters were dispatched to the scene.

Staff members of Interfaith Hospital of Queens stand behind wire fence erected at entrance. Barrier is to prevent city marshals from entering and evicting patients because of the non profit institution's nonpayment of rent.

Hospital Defies Eviction Threat

NEW YORK (AP) — A neurosurgeon's private hospital, which owes \$18,000 in rent, claims the city owes it \$40,000 for the patients' care — and that the city funds are long overdue.

Dr. Joseph A. DeLoach, other staff members insisted a 10-foot-high chicken-wire fence blocking the entrance to the Interfaith Hospital in Jamaica, Queens, Monday to prevent a city marshal from entering. The marshal made no attempt to break the barricade, and there were no incidents.

The neurosurgeon, Dr. Thomas W. Matthews, 49, a Negro, who is also executive director of the Interfaith Health Association, said the 140-bed hospital now has 87 patients. He said 11 of the patients are Negroes and the rest are whites of all denominations.

The hospital staff includes both Negro and white nurses. Matthews said. "We will call on every supporter to come to our assistance," said Matthews. "We are determined we will not be moved."

Another hospital spokesman said, "After the wire fence, there is a human barricade." DeLoach said he had no idea how many patients were at the hospital's support. A white butcher sent free meat. One other contributed blankets. Other individuals sent gifts.

A spokesman for the Flushing Federal Building in East Flushing, Queens, said a court order for eviction had been obtained, but (See Page Two)

State Man Held For Kidnaping Social Worker

WESTBORO, Mass. (AP) — Hartford, Conn., was charged today with kidnaping a 30-year-old woman social worker and forcing her to drive with him for some 12 hours through parts of Connecticut and Massachusetts and New Hampshire.

Holroyd was arrested at 2 a.m. on the Massachusetts Turnpike in Southboro. State police declined to identify the woman.

Arrestment in Westboro, Mass., was charged today with kidnaping a 30-year-old woman social worker and forcing her to drive with him for some 12 hours through parts of Connecticut and Massachusetts and New Hampshire.

State trooper Charles P. Mahoney of the Southboro barracks called for mandatory economic sanctions in an effort to topple the white minority regime of prime minister Ian Smith.

2 Killed In Strike Near Hue

SAIGON, South Vietnam (AP) — A U.S. warplane supporting a Marine drive dropped a bomb on a village 1,800 yards short of its intended target tonight and killed two Vietnamese civilians, an American spokesman announced. He said one civilian was injured.

The strike was made at the village of Thon-Fhu Gio, 30 miles southwest of Hue. The mistaken bombing came roughly 80 miles from the border territory where two bombs that fell short from a supporting warplane Saturday killed 16 Marines and wounded 11.

U.S. B2 jets unloaded a cascade of bombs on an enemy base camp close to Hue and the Viet Cong retaliated with an outbreak of grenade throwing in and near the capital.

Thon-Fhu Gio is the latest in a rash of accidental bombings that has cut into some military units and is unofficially estimated to have killed more than 100 civilians since midsummer.

Gen. William C. Westmoreland, the U.S. commander, appointed a military review board in August to draft revised procedures and controls.

The spokesman said one house in the village was destroyed, either by the bomb or the fire which followed. The hand-drawn map of the area showed the positions of three persons who were missing.

American Marines went to the area to search for the missing. Although more than 1,000 South Vietnamese troops pushed a search-and-destroy mission in the Mekong Delta, 90 miles south of Hue, ground fighting across the country dwindled, only light skirmishes were reported.

U.S. planes Monday had their busiest day over North Vietnam in weeks, flying 90 bombing missions or 300 to 350 individual strikes. This was still well below the average of 150 missions a day in the previous week.

The carrier Kitty Hawk struck only five miles from Hanoi, North Vietnam's main port. The jet bombers made radar precision runs on a missile assembly installation, and one of the pilots said the explosion "looked like Hanoi in the night."

The B2 said it hammered at a street. (See Page Twenty-Three)

White House Set For the Holidays

WASHINGTON (AP) — Lower to the ceiling of the Blue Room, Gingerbread cookies — some plastic, some real — dried fruit, toy soldiers and straw snowflakes hang from its boughs.

On every mantle, there is pine and holly, and gold, silver or blue or red baubles. Doors are decorated with chains of cedar, red and white roses and carnations fill spare tablecloths.

Mrs. Lyndon B. Johnson added at least three new touches to the traditional White House decorations: a 15-foot-high, 12-day Christmas and a wreath made of flowers from 20 states.

The colored paper mache-copie-in the East Room, a mirror decorated with felt symbols of the 12-days of Christmas and a wreath made of flowers from 20 states.

The last witness for the state was Dr. Milton Helpern, veteran chief medical examiner of New York City, who stepped off the stand after supporting the prosecution's claim that retired Army Lt. Col. William E. Farrow was the victim of murder — and not a heart attack.

Helpern, who performed an autopsy on Farrow's body after it was exhumed last summer, reported discovering a twice-fractured larynx in Farrow's body. Farrow was 50 at the time of his death July 30, 1965.

Defense lawyer F. Lee Bailey tried to get the gray-haired pathologist to concede that hemorrhaging should have been observed if Farrow's larynx were served.

"I cannot say there wasn't any hemorrhaging," Helpern said, "and the same thing applies—I can't say there was." Helpern said that after three (See Page Twenty-Three)

No Yule

VANCOUVER, B.C. (AP) — The ocean liner Orana, which left Vancouver yesterday for Australia, will disregard the international deadline for a few hours for the best of reasons.

If she didn't, her passengers would miss most of Christmas Day, Dec. 25, since a full day is lost when a ship crosses the line going west.

NEW YORK (AP) — Two Air Force F101s collided over the Atlantic 35 miles south of Montauk Point, Long Island, early today. Three crewmen were rescued by helicopter. Search operations were under way for a fourth man, the Coast Guard said.

The planes were flying out of Suffolk County Air Force Base in Westhampton, about 80 miles east of Manhattan. They had taken off on a routine training mission about 35 minutes before the crash.

Air Force spokesmen said the rescued crewmen were in good condition. Two Coast Guard planes and three cutters were dispatched to the scene.

WASHINGTON (AP) — Many Democratic leaders around the country, disturbed by the November election losses, have been clamoring for a new committee to forestall another setback in 1968.

President Johnson and Vice President Hubert H. Humphrey already have started trying to find out what went wrong in 1964, and what to do about it.

State chairmen or national committeemen in more than half the 50 states, replying to questions in an Associated Press survey, claimed that high among the things that went wrong was failure of the national committee to function effectively.

"The Democratic National Committee is basically a shell," said Eugene Wymann, California's national committeeman. "In the next two years, the party organization must be rebuilt. If it does not come soon, there may be a general disintegration of Democratic party organizations throughout the country."

"I didn't realize it was in such bad shape," Gov.-elect Robert Dooling of Kansas said after a recent visit to Washington. "The real issue in the Democratic party right now is the national organization and what to do about it," said Montana's Democratic chairman, Fred E. Barrett.

National Chairman John M. Batley, who once said no national committee "could do enough to satisfy its critics," has been less than forthcoming in interviews here, agreed that coordination with state groups has been less effective than it could be, and said some activities have been curtailed because of money problems.

But John B. Criswell, acting treasurer of the committee, insisted that "we did as much as has been done" in the past (in some of the trouble to the National Democratic Committee, and say it must be revitalized now to forestall another setback in 1968).

Most freshmen congressmen, both those re-elected and those defeated, praised the committee's assistance and participation in the campaign, he said. "If it did more (than in the past) it was in Ohio's states — it was not in Iowa."

Rasmussen voiced the majority opinion of those replying to the poll. Of the replies, received from about 40 states, 60 per cent were critical and less than 20 per cent praised the work of the committee.

Among those who said no national committee "could do enough to satisfy its critics," has been less than forthcoming in interviews here, agreed that coordination with state groups has been less effective than it could be, and said some activities have been curtailed because of money problems.

Scott Wilson, 19, son of slain union leader Dow Wilson, is restrained by San Francisco Court bailiffs after he attacked Max Ward, one of two men convicted yesterday of killing his father. The youth struck Ward in the face just after a judge had imposed a sentence of life imprisonment. Ward's glasses were smashed and his face bloodied. Young Wilson was booked for suspicion of battery and taken to a hospital under guard. (AP Photofax)

Lynda Says No!

WASHINGTON (AP) — Lynda Bird Johnson denied reports again Monday night that she is married to, or plans to marry actor George Hamilton anytime soon.

At a party for newspaper women in the White House today, the President's elder daughter, stopped by a reporter to say "I don't like these rumors."

Two Stabbed Aboard Boston Subway Train

BOSTON (AP) — A 20-year-old youth, bent on robbery, today stabbed a 15-year-old boy and the operator of a three-car rapid transit train as it was stopped in Kenmore subway station.

The operator, Joseph A. Dowd, 43, was released from the same hospital after treatment for a slash wound on his right hand.

O'Brien told police the assailant demanded money and when O'Brien said he had none, the youth knocked him down and cut him with a razor.

Dowd was wounded when he went to O'Brien's aid. "The assailant fell in the confusion and ran upstairs to the street." (See Page Two)

Africans Demanding Ban on Rhodesia Oil

UNITED NATIONS, N.Y. trumpeted by the Africans. (AP) — Three African members of the U.N. Security Council today demanded a complete embargo on the shipment of oil to Rhodesia.

The proposal was one of a series of amendments offered by the Africans to a British resolution calling for mandatory economic sanctions in an effort to topple the white minority regime of prime minister Ian Smith.

The amendments, which would expand the scope of the British proposal, were submitted by Mali, Guyana and Nigeria on the Massachusetts Turnpike in Southboro. State police declined to identify the woman.

In addition to the oil embargo, the Africans proposed that one and manufactured goods be added to the list of 12 products selected by Britain for a trade hiking. His case was continued at \$2,000.

State trooper Charles P. Mahoney of the Southboro barracks called for mandatory economic sanctions in an effort to topple the white minority regime of prime minister Ian Smith.

The United States threw its weight behind the British resolution Monday and made no mention of an oil embargo on Rhodesia.

In an address before the council, Chief U.S. delegate Arthur J. Goldberg also opposed the demand for use of British force against Rhodesia.

Many Leaders Feel Democrats Need New Committee

WASHINGTON (AP) — Many Democratic leaders around the country, disturbed by the November election losses, have been clamoring for a new committee to forestall another setback in 1968.

President Johnson and Vice President Hubert H. Humphrey already have started trying to find out what went wrong in 1964, and what to do about it.

State chairmen or national committeemen in more than half the 50 states, replying to questions in an Associated Press survey, claimed that high among the things that went wrong was failure of the national committee to function effectively.

"The Democratic National Committee is basically a shell," said Eugene Wymann, California's national committeeman. "In the next two years, the party organization must be rebuilt. If it does not come soon, there may be a general disintegration of Democratic party organizations throughout the country."

"I didn't realize it was in such bad shape," Gov.-elect Robert Dooling of Kansas said after a recent visit to Washington. "The real issue in the Democratic party right now is the national organization and what to do about it," said Montana's Democratic chairman, Fred E. Barrett.

National Chairman John M. Batley, who once said no national committee "could do enough to satisfy its critics," has been less than forthcoming in interviews here, agreed that coordination with state groups has been less effective than it could be, and said some activities have been curtailed because of money problems.
