'What a Nerve,' Says the Girl Looking On'

An annoyed and anonymous young lady watches in frustration as highway department workers install a sign post on Love Lane. The permanent post replaces Love Lane street signs, so popular among souvenir hunters, that the Town of Manchester couldn't keep up with the demand. Signs placed in the morning have been stolen that night, and it takes 8 to 10 weeks to get new ones. And so, from now on, any existing Love Lane street signs will become collector's items. Where are they? If Manchester's teen-agers know, they aren't talking. (Herald photo by Saternis.)

commission. He is working with the town on the "701" program. The board of education already has in the planning stages a proposal for another elementary school with the likely site to be that of the present junior high school on land bought by the town.

> Pine recommends as the site for the second proposed ele-mentary school the vicinity of South St. along the former city-fire district border, thus giving both elementary schools the advantage of lying in the center of their own service areas, allowing a minimum

A location for the proposed middle school is south of the Wilbur Cross Hwy. The inter-section of Phoenix, Lake and Washington Sts. is considered by the planner to be easily accessible from all future residen-tial areas south of the highway, plus areas north of the highway in case the school's service area would need to be extended. An area of 25 acres would be needed for this pur-

> Alternatives Noted Pine noted several alternatives exist for a new high school site, and since he projects that about three-fourths of the town's ultimate population will live north of the highway, the most logical location would be in the center of Rockville, namely in

Pine noted that the required 25 to 30 acres would be difficult to assemble in the Fox Hill location unless an urban renewal project were to be considered elsewhere in the center of Rock ville for this specific purpose. He further said if a consider able site could be established then it would warrant reconsideration by the the school board of its present plans to add to the present high school building and to consider construction of new high school with a capacity

It was the further suggestion of Pine that if a suitable site could not be established in the center than the present high school should be enlarged and a new high school site accomodating 1,400 pupils be sought sout of the parkway in the general vicinity of the proposed new middle school.

The plan presented by Pinalso recommended that all future school sites be purchased as soon as possible so that they will be available when needed and that school plans be co-or dinated with the town's recrea tion and library needs to avoid the duplication of facilities. 5-4-4 Plan Sought

The board of education working toward establishing separate school facilities housing kindergarten students, Grades 1 through 4 (elemen-tary), Grades 5 through 8, (middle) and 9 through 12, high school. Pin pointed out, however, long-range policy would eliminate the separate kinder garten facilities when the town catches up with its building needs and would result in Pine's report further pointed

out that total enrollment in the ocal schools has increased b

57.6 per cent in only six year pupils per year. He noted these figures are especially remark able when viewed in light of overall town population trend which increased by "only" 18.1 per cent during the same sixyear period, pointing up the fact that the structure of most fam ilies that have recently moved

Pine, using figures provided by Dr. Raymond Ramsdell, superintendent of schools, said in 1970 there would be 2,710 stu-dents in Grades 1 through 4, 2,189 in Grades 9 through 12. He said, "It is clear that the board of education decides to implement its proposed E 4-4-4 structure by 1970 there would be a definite shortage i kindergarten classrooms, mid-dle schools and the high school. Postponement Seen Pine further said it appears

that the board will be forced to postpone the attainment of the k-4-4-4 structure, thus also post poning its desired ultimate 5-4-4 structure. He based his state ment on two conclusions; The k-6 elementary schools to be built in the near future, a departure from the k-4-4-4 strucare built for Grades 1-4, there

Is Justice Really Necessary?

Who, now that the Supreme Court has made it almost certain that James Hoffs will go to prison for tampering with a federal jury, is Hoffa's friend? The answer is that, although he may not have many friends, in a sentimental definition, he has a lot of people who are apparently going to miss him. Both the members of his union, and

the members of the trucking industry who have had the privilege of dealing with him as the union are going to Both union members and truckers, it

appears have shared the same practical estimate of Hoffa and his leadership. He got things done.

more "calculated risks" to get peace talks on Vietnam, and he criticized that some people "view this war entirely from a military point of view and are opposed to taking any risk whatever

Making use of the abandoned New

Whether the right-of-way should be used for a bicycle path, or a trail or a small automobile scenic drive is one of those questions that will have to be worked out. But Richard C. Elliot of Durham, chairman of the Mattabassett Division of the Trails Committee, Connecticut Park and Forest Association, is to be commended for his alertness in spotting the potentiality of the former railroad right-of-way.

Just offhand it would seem a wise idea to devote the right-of-way to hiking or bleyeling, rather than automobile use, but this would require the kind of study that the river parkway is now in the process of receiving. No matter what the use, we would be hopeful that Senator Ribicoff will be able to persuade the New Haven not to part with any of its land until suit-

Strangely enough, it is usually generals and statesmen who are always in favor of taking the risks involved in hitting ever harder, and men of religion, philosophy, and idealism who are always suggesting that perhaps the risk of sparing a few lives ought to be tried, too.

The Honesty Of Generations

more kind of Christmas shopping season-the season of special crackdown on shop-lifting.

The police have launched special campaigns; the merchants associations are suggesting that the practice is getting worse and worse; the Yale Co-op is threatening Yalies with expulsion from college if they are caught stealing; the nation's psychologists are helping out with their efforts to discover what it is triggers what is so very often a sudden "compulsive act" which the otherwise normal individual involved never really intends to commit.

Comment from the head of the Yale Co-op indicated, we think, one key explanation of what goes on. His analysis detected a "casual attitude toward netty thievery."

His cure, which may or may not work, is to increase the severity of the It is, we think, part of the "casual at-

titude" that petty thievery is actually

considered, by some of the younger generation, a kind of indoor sport, played more for the test of skill and the element of suspense in it than for the in-As for our judgment concerning such

a trend, it rests upon the young people engaged in such twisted sport or such a "casual attitude" only briefly, and leaps, for its final concentration, to

If there is a difference between the younger generation and the older, more "responsible" generation on the question of ethics involved, it is a curious difference in which a certain inversion of values takes place.

The younger generation twists itself into thinking that small, petty shoplifting is unimportant, from the ethical

The older generation, on the other hand, has developed its casual attitude, its judgment that dishonesty can, in proper instances, be regarded merely as part of a game, with regard to very big matters. If you can, in the world of public or private business, "shop-lift" a contract, or make off with a whole company, or promote an economic empire by using other people's money, you are not exposed to too much ethical judging unless you make the mistake of getting caught in some open act of failure, Then, but only then, is it absolutely certain that you will be reminded that

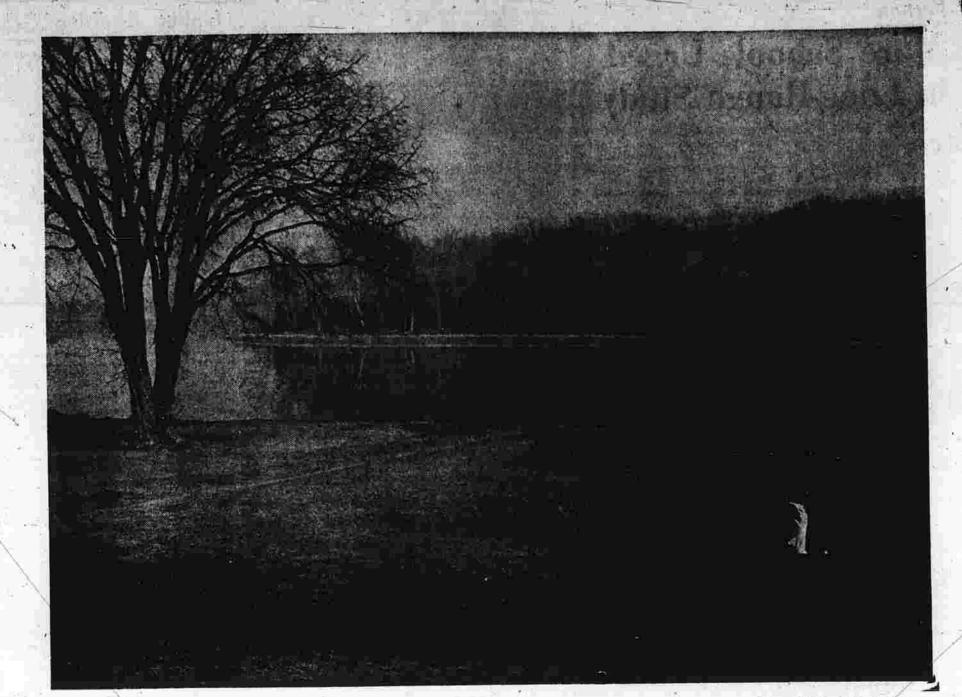

This is a wrong part of the adult world-a very wrong part to which, in reality, all the old moral laws still do apply, even when the failure and punishment and retributive suffering do not happen to appear on the surface.

And it is, especially, the wrong part WASHINGTON-In a repeat play of party regularity by the of history, moderate Republi- bushy-haired maverick. aleck, moralistically condescending cans are on the verge of losing But in 1968, the labor-liberals younger generation to imitate as it sets another political plum to the plan an all-out Democratic priout on its own journey through life. raise the built-in footrest. You can also enjoy

the expenditure of an amount not to exceed \$3,000 from the Equipment Sinking Fund for the purchase of a sand spreader, road sander and a snowplow for truck attachment. First Selectman Carmelo

Zanghi stated he already has purchased the blow and spreader to take advantage of an opportunity to save \$190 on the purchase of the plow. His statement was in answer to a question raised by Democratic Town Chairman Robert Noonan. Zanghi said he had not bought the sander yet, but pointed out the need for it so

e would not have to borrow the equipment from Coventry or Ellington as has been the practice. This will enable the town to set its own schedule for work, independent of the other towns. The town now has five sanders. The motion passed by a vote

of 41 to 1. Few people questioned the need for an additional snowplow and sander last night, as they watched snow swirling outside the windows of Hicks Memorial School gym, where the meet-

Also approved was the transfer of \$6,000 to the general account of the budget, raising it from \$16,000 to \$22,000. Zanghi explained the town

was operating on a "small general account budget," of which about \$1,200 remains. He explained that all town bills must be paid out of the general account, but that reimbursements are put in the General Fund. He attributed the depletion of funds in part to work done on Cervens, Rhodes, Baid Moun-tain and Anthony Roads, that was demanded by residents of the area. He predicted more expenses in the future, as "everyone demands more service." Noonan asked how large a surplus the town has on hand before the \$6,000 is transferred. Zanghi replied, "We have \$59,000 plus, as listed in the annual report. I hope we have

\$100,000 surplus when the next budget comes up because we will need it." Ambulance Appropriation The appropriation of an additional \$500 for the Ambulance

association account was approved unanimously after an lanation by Association president William Bridges. Bridges pointed out that the service is being offered to residents at an operating cost which

breaks down to 50 cents a fam-My per year. He explained that members of the Association "op timistically underestimated the needs of the service when they set the budget at \$1,000." He attributed the need for extre funds to unexpected repair te the ambulance, which ran \$200 more than expected, and to doubling the amount of serv-

ice provided. The expenses for each call average \$20 to \$25, while the service is provided at no cost. Republican Selectman Frank Kalas questioned the need for such a service when there are commercial ambulance services available and asked whether the calls were limited to emergency

of the ambulance being used to transport accident victims of the Wilbur Cross Highway. Bridges said he also, would be concerned about the highway service if it was common be cause it would take the ambulance away from town. The association has only answered three calls on the highway in 18 nonths, however, Bridges ex-

He pointed out that members of the association volunteer their services with each member logging 75 hours of duty time each month. He explained what being on

call entails for the volunteer staying at home while on duty, remaining sober and clean and not using the telephone. If there is only one car in the family it cannot be used by other members of the family, he added. The 75 hours does not include time spent in maintaining the garage and the ambulance or additional emergency training which all members take. For this reason, Bridges pointed out, members do not feel they should have to handle the bookkeeping or make solicita-

The availability and quality of the service was defended by residents attending the meeting. It was pointed out the average time from placing a call to arrival of the ambulance at th scene is eight minutes.

Toy Dance Benefits Marine Project

The Marine Corps' "Toys for Tots" drive became substantially richer yesterday with a do-

nation from the students of Illing Junior High School, part of which is shown here. The 7th, 8th and 9th graders staged a student council-sponsored "Toy Dance" Friday, and a donation

to the drive was the price of admission. More than 230 pupils attended. Accepting the gifts from council representatives is Staff Sgt. Jerry Mell of 34 Nike Circle. He is attached to

the inspection and instructor staff of the 25th Marine Div. in Hartford. The students are George Finnegan, Grade 8, student council treasurer; and Karen Ware, Grade 9, president. (Herald photo by Saternis.)

Blood Donation from the heart"

The marriage of Miss Patricia Ann Provost to Richard Eldon Neville, both of Manchester, was solemnised Saturday, Nov. 26, at St. James' Church.

The bride is a daughter of Mrs. Robert Delaney of 139 Ben-ton St. and Louis Provost of Windsor. The bridegroom is a son of Mr. and Mrs. Eldon Neville of 132 Deepwood Dr.
The Rev. Vincent J. Flynn of
St. James' Church performed the ceremony and was celebrant at the nuptiel high Mass. Mrs. Ralph Maccarone of Manchester

The bride was given in mar-riage by her father. She wore a full-length chantilly lace gown, designed with a scalloped bateau neckline, long tapered sleeves, sheath skirt and watteau train. Her bouffant veil of silk lilusion was arranged from a pearl and erystal crown, and she carried a white Missal with an orchid. Miss Mary J. Vintan of Manchester was maid of honor, and Miss Susan E. Provost of Manchester, sister of the bride, was ridesmaid. They were full-

length empire gowns, designed with moss green brocade bodices and mortar colored crepe skirts and matching brocade coats. They were moss green leaf and bud cluster headpieces with bouffant veils. The honor attendant carried a bouquet of pompons and yellow roses, and the bridesmaid car-

'Cold Blood Film Script Tough Job

By BOB THOMAS

HOLLYWOOD (AP) — His secretary brought Richard Brooks a pre-lunch Bloody Mary, and the writer-director sipped it as he agonized over his chore of translating "In Cold Blood" to the screen. The book was the work of Truman Capote, the noted par-ty-giver, who invited Brooks and wife Jean Simmons to his recent masked ball. Brooks de-clined the invitation — "I'm not much for parties." Besides, he had his work cut out for him:

"I'm supposed to start shooting in the Midwest in late February-early March, and I'm only half-finished with the script," Brooks sighed. "Frankly, I don't know how the hell it's

"Oh, the ending is there: The two guys get executed. But what is the picture going to say when it's all over? It's one thing to write a book about an atrocious crime and view it in a reportorial manner. But a film is differ-

"These two men are guilty of a terrible deed. But how do you center the film on their lives and remain dispassionate about them? A film requires involvement on the part of the audience; no great movie is with-

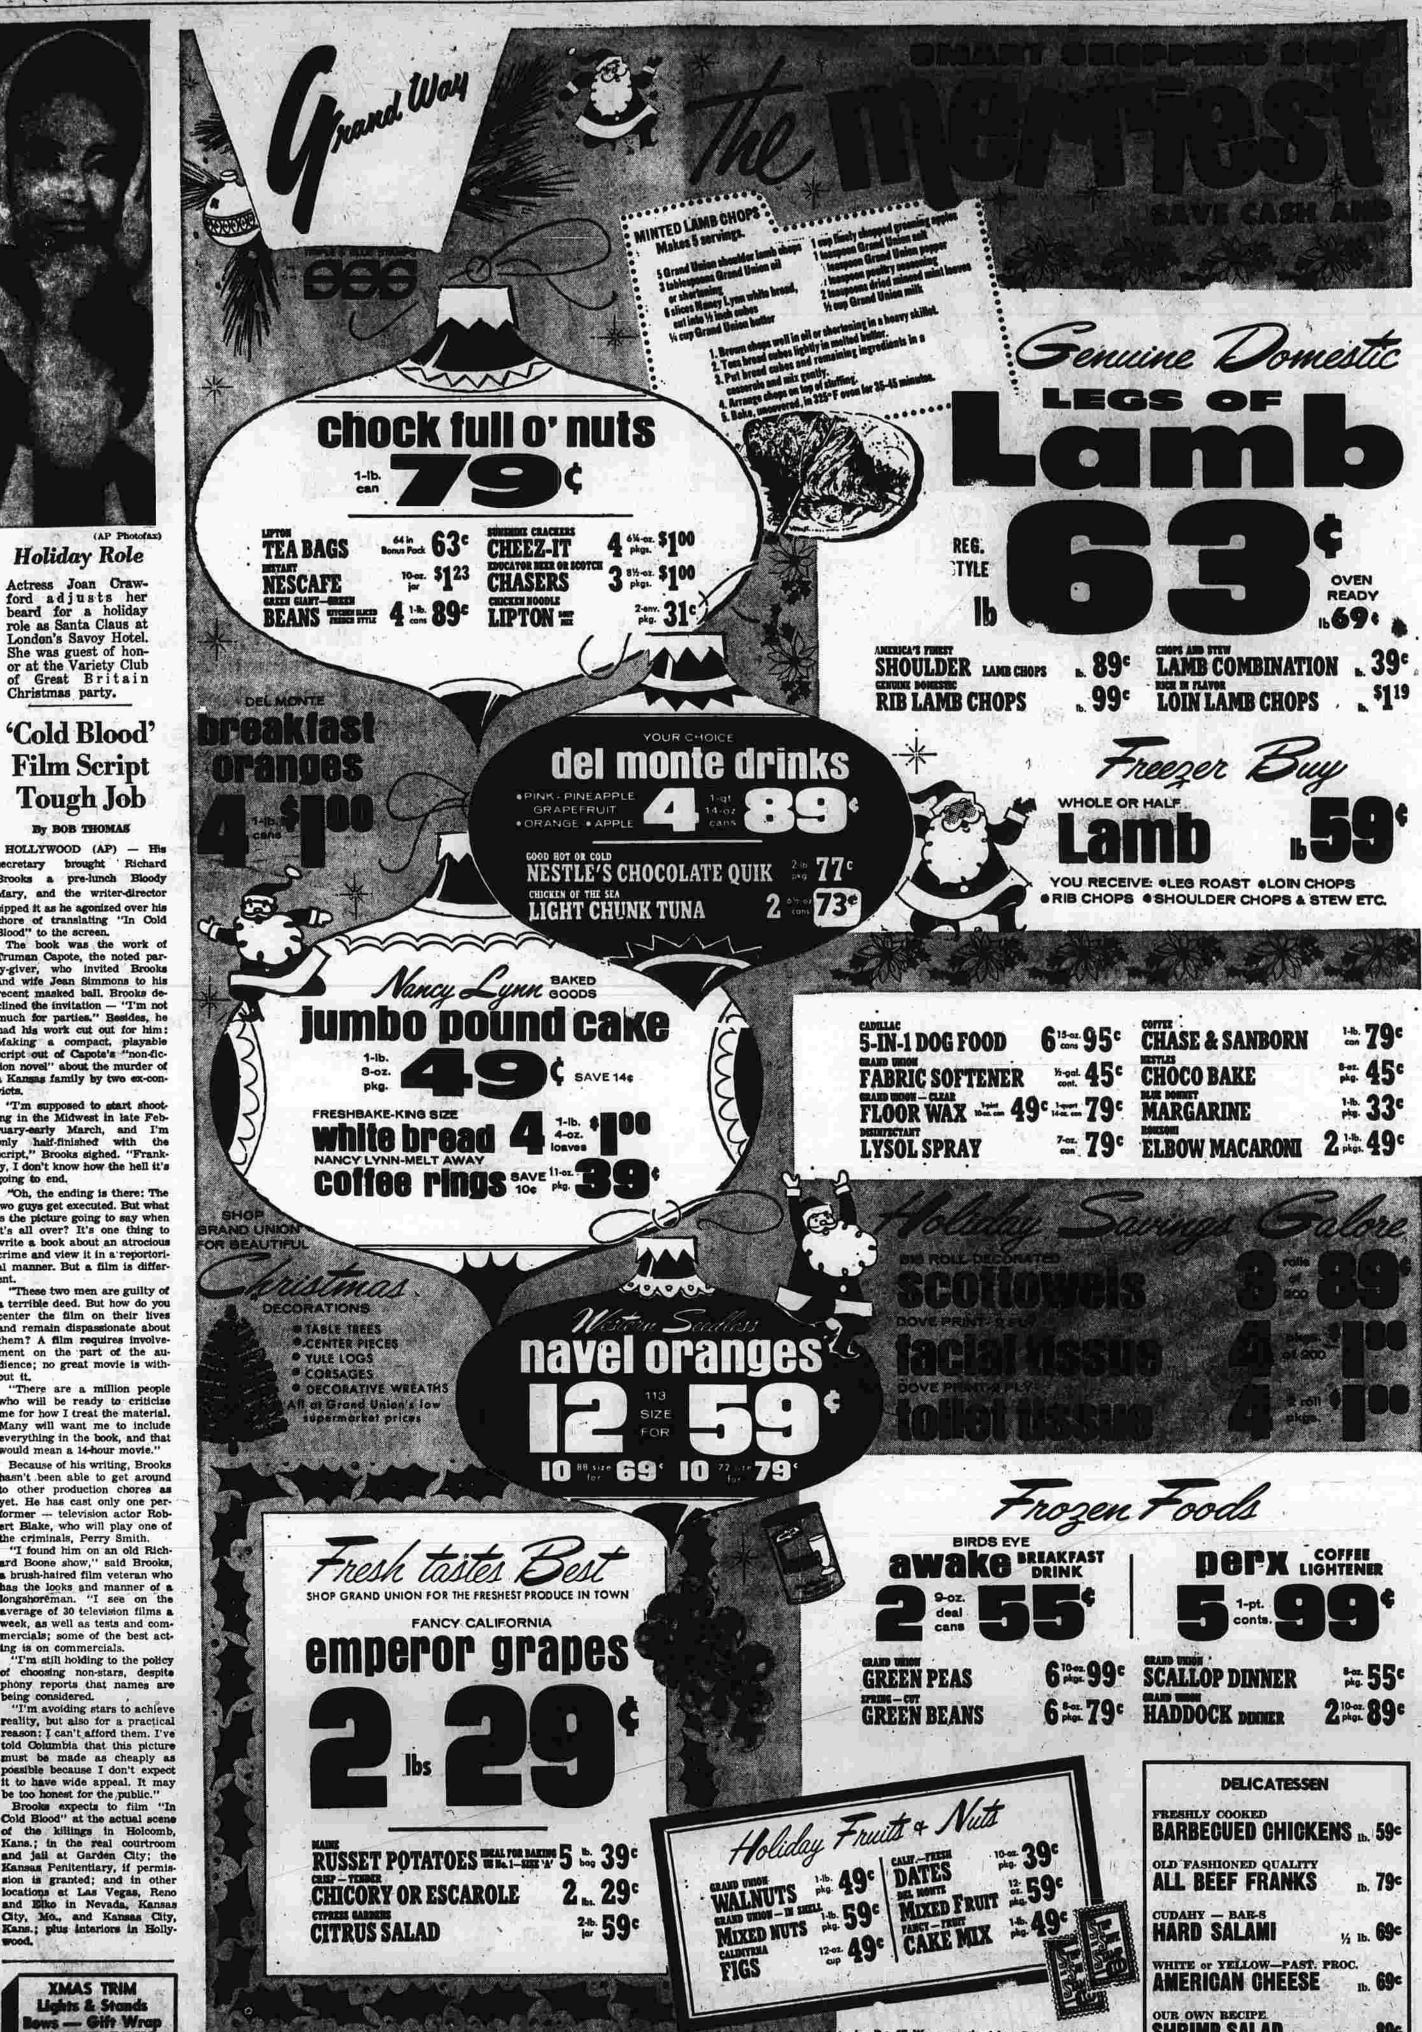

"There are a million people who will be ready to criticize me for how I treat the material. Many will want me to include everything in the book, and that would mean a 14-hour movie." Because of his writing, Brooks hasn't been able to get around to other production chores as yet. He has cast only one per-former — television actor Rob-

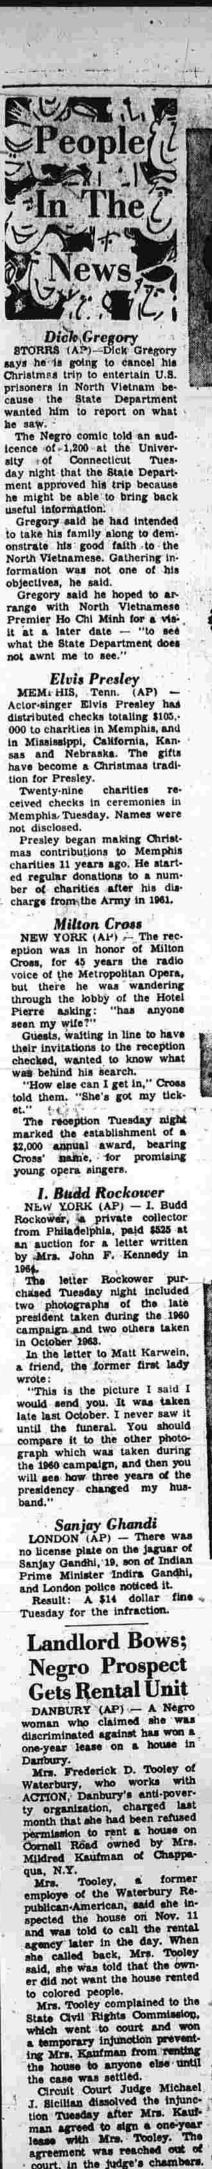

ert Blake, who will play one of the criminals, Perry Smith. "I found him on an old Richard Boone show," said Brooks, a brush-haired film veteran who has the looks and manner of a longshoreman. "I see on the average of 30 television films a week, as well as tests and commercials; some of the best acting is on commercials.

"I'm still holding to the policy of choosing non-stars, despite phony reports that names are being considered.
"I'm avoiding stars to achieve reality, but also for a practical reason: I can't afford them. I've told Columbia that this picture must be made as cheaply as possible because I don't expect possible because I don't expect it to have wide appeal. It may be too honest for the public."

Brooks expects to film "In Cold Blood" at the actual scene of the killings in Holcomb, Kans.; in the real courtroom and jail at Garden City; the Kansas Penitentiary, if permission is granted; and in other locations at Las Vegas, Reno and Elko in Nevada, Kansas City, Mo., and Kansas City, Kans.; plus interiors in Holly-

something for

Lots of us are known as, "Harry the Hacker," because of what we do to a Christmas Turkey.

The secrets of classic carving are:

- A. A very sharp, thin-bladed knife.
- B. Allow bird to sit in roasting pan 15 to 30 minutes. It will slice cleaner and the juices will be absorbed, too.
- C. Pollow these simple directions:

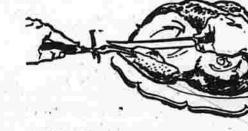

from body. Cut skin back. Remove leg.

1. Cut off teg by drawing limite deepty between leg and body through hip horizontal cut to bone in breast, just above wing. Enlarge opening in side

8. Beginning about halfway up breast, slice downward with straight even stices will extend into front stuffing.

(Breast will be toward cutting hand.)

If your Harry's a Hacker, cut this out. Take the fanciest box and the biggest bow you can find and wrap it up as a present. One final thing you can do for "Harry"... buy your turkey at A&P.

Our Super-Right Turkeys are all plump, juicy, Grade "A" birds. Harry will carve such beautiful slices you'll want to rechristen him, "Sam the Surgeon."

Hal Boyle Office Best, **Worst Shows** At Yuletide

NEW YORK (AP) — Christmas brings out the best and the worst in the occupants of the In almost every American business office between now and the first of the year, some or all

of these things are bound to oc-Some wag will try to figure a way to put a fifth of gin in the The secretaries in each department will compete to see which can put up the prettiest small Christmas tree by her

Some cheapskate will steal the string of lights off at least one tree to decorate his own If someone takes up a collection for the janitor, half the staff will say, "Why him-why not one for the office boy?" If someone takes up a collection for the office boy, half the staff will say, "Why him-why

not one for the 'janitor?" If someone takes up a collection for both the office boy and the janitor, three out of four members of the staff will whine, "When are you going to take up a collection for me?" The junior executives will pass give their secretaries gift certifcates averaging \$25, and get their annual reward—a dutiful peck on the cheek.

The unior executives will pass out stale boxes of cheap chocolates—and charming smiles. They'll get back from the girls grumpy looks of feigned grati-Everybody will come to work

later and later, and output will

fall about'50 per cent. The coffee breaks and luncheon periods will get longer and longer, as the employes try to do as much shopping as possible on company time. From Dec. 15 on, only one out of three calls going through the office switchboard will have anything to do with the firm's

The homeliest girl in the place will sneak in a big sprig of misthetoe and furtively drop it on the desk of some bold fellow she's sure wil hang it up. Someone will be fired; someone will be hired.

One of the stenographers will come reeling in from an all-hen luncheon so loaded with dalquiris she'll have to spend the rest of the afternoon recuperating in the ladies' washroom. The office toper will be plokled most of the week before Christmas, buttonholing passers-by in the locker room and

bon as he shows them pictures f his mother and exclaims, "She's the grandest girl that At least 12 grim-faced wives will show up to collect their husband's check on payday so he won't be tempted to cash it himself on the way home,

If you say: "Have a Merry Christmas" to the office grouch, he'll snari back, "Why should ! -do I have to?" Someone will arrive wearing

a sheepish look and a black eye. A guy with four kids will have them drop in so he can have them meet the boss-as a subtle int that he could use more

money.

In the general spirit of holiday cheer, half a dozen old office feuds will be healed—and half a dozen new feuds begun.

If the firm doesn't give a Christman begun a third of the Christmas bonus, a third of the employes assure each other that ome Jan. 1, they're going to ook around for an organization that recognizes honest merit. If the firm does give a Christ-Claus sure had arthritis of the The girl who gets the biggest ody-since it's nobody's busi-

On the last working day before Christmas, the wise boss leaves promptly at noon for Florida, hoping that when he returns all damage will have been repaired and the office can get back to business as usual.

Untagged Deer MARYVILLE, Mo. (AP) — Chief of Police David Archer was fined \$25 in magistrate's court here on a charge of game law violation. He entered plea of guilty to a charge of failing to place a state permit tag on a deer he had shot.

WASHINGTON (AP) - The armers that it is selling corn only to a farmers in drought emergency areas.

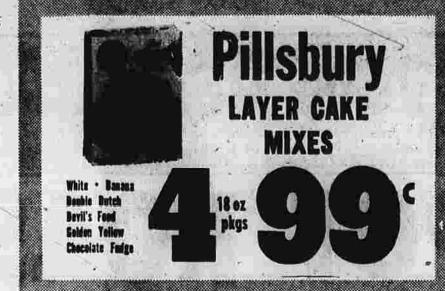

Heavy Agriculture Department sales of grain acquired under price support programs have drawn sharp criticism from some farm groups and congressmen. Criticis contended the sales were made primarily o keep prices from advancing. Sales during the last two years have been so heavy that the department is virtually out of stocks. To replenish its sup-plies, the department has called price support loans on \$3.4 mil-lion bushels of 1962 crop corn and \$9.9 million bushels of 1963 Signature Dec. 17 Stop (Stop) (1990)

Give yourself a gift of extra cash! Mini-pricing cuts your food budget without cutting corners!

You get more in your food basket for less! And you never have to sacrifice quality in order to save. You'll find the choicest of Choice meats, the freshest fruits and vegetables wholesome, farm-fresh dairy foods and a vast variety to choose from. You shop in spotlessly clean stores with every modern convenience. You get cheerful, courteous service.

And you still save money with mini-pricing!

NEW YORK (AP) — The housing industry really got burned in this year's overheated economy.

Hopes, plans and the number of housing starts were caught in an interno of interest rates.

The peak of the most recent housing boom or bust in housing — was in 1983, when 1.58 million private, nonfarm residential units were built.

In 1884 the total still was 1.58 million units.

Alter gruing ms release, by BOB THOMAS

In 1884 the total still was 1.58 million units.
