dergarten in Tolland. The town does not have any extra available classrooms. The Meadowbrook school will be filled to capacity with first and second graders in September, and the Hicks School will utilize all classrooms to house the third and fourth grades Fifth through ninth grades will be located in the high Kindergarten Reimbursement The proposed education budget includes an appropriation of \$69,675 for the installation of a kindergarten program, including transportation. This amount would be partially reimbursed by state grants, based on average daily attendance, just like the other grades. The grants would be received at the end of the school year, for inclusion in the following years budget, according to school officials. Pho kindergarten costs, ex-

cluding transportation, amount to \$44,675, or about two mills. The town will receive approxi mately \$33,000 in state grants to offset this cost, leaving a net annual cost of \$9,675, to be raised from taxation in following years by taxation, less than one half a mill. The appropriation for the entire amount must be made in the budget, however, as state grants are paid into the general fund of the town, and ap plied to reduce the overal budget of the town. State grants would also be re ceived on a partial reimbur ment basis, amounting to 50 pe cent of the total transportati

cost. This grant would also b received from the state in June after the budget meeting and about the time of the start of the new fiscal year, according to school authorities. The state grant for kinder-gertens actually reimburses the town at a higher rate than reg-

Or the therapy of sending the young humanity involved out to the association, challenge, and more normal and natural help of a more average school

Obviously, there is no firm, proven answer to such a question. There are exeriments at moving children around. there are experiments at devoting more skill and quality to the teaching of them where they are. All such experiments are a long way from judgment.

But Manchester's particular situation, at this moment, is that it can see the nebula of a disadvantaged core casting preliminary shadow over the natural territory of Lincoln School, and that, at he same time, it finds the selection and cation of a new site for Lincoln School highly controversial issue. The comination of these two circumstances eates considerable thrust toward more rious study of the dispersal as opposed

We record the average temperature for each day; compute the number of degrees the average is below 65. Then we combine this temperature data with your known rate of fuel use to determine exactly how much fuel your burner uses each day to keep you as warm as you want to be. No matter what the weather, all you have to do is lean back and relax. You'll never have to rely on your memory or your tank gauge (which may be inaccurate) to tell you when it's time to fill the tank. We know when it starts getting low and we refill it without any bother to you. And we refill it with Mobilheat fuel oil, quality checked 21 times between the refinery and your furnace. HEMLOCK

PARIS (AP) — President
Charles de Gaulle, employing the characteristic element of surprise, is shaping up his first challenge to the new French Parliament and has touched off a wave of criticism.

De Gaulle's government announced Wednesday it will seek blank cheek powers for six months to speed up economic and social reforms. It will ask Parliament next week for authority to legislate by decree in the economic and social fields for six months without the delay of parliamentary debate and the possibility of defeat.

De Gaulle's working majority in the National Assembly was almost wiped out in the March elections, and he can no longer be certain that his bills will get the quick rubber stamp they
