

### Sheinwold on Bridge

BY ALFRED WREKHOWLD

When there's more than one way to try for your contract adopt the line of play that gives you the biggest chance. Don't ask more of Lady Luck than the cards require.

Now South is headed for a diamond in dummy. East will overruff. If South draws trump instead, West will eventually get a diamond trick.

Another look over South's bad luck, take another look for his best line of play. Declarer should lead dummy's jack of hearts at the second trick, discarding his singleton club.

West wins with the queen of hearts, but now dummy's nine of hearts is good. Nothing can stop declarer from getting to dummy with the queen of spades to discard a diamond on the nine of hearts.

As declarer, you had 10 spades, 4-5 hearts, 4-3-2-5 diamonds, 10-7 clubs, K-3-10-6. What do you say?

Answer: You say you have 11

### Stamps In the News

AP News Service

Much praise should be given to those underdeveloped countries who are attempting to do something about their situation. One of these is Papua and New Guinea which has just issued a new set of four postage stamps marking the completion of an important stage of the Lalaki Hydro Power Complex.

The stamp set also honors the territory's participation in the UNESCO International Hydrological Decade and two new industries benefiting from the development of water resources.

Two of the stamps have a common design. They show an artistic impression of water resources to generate electric power. In the lower left corner is the UNESCO emblem for this project.

Another stamp depicts pyrethrum flowers, a plant belonging to the chrysanthemum family. This daisy-like flower provides the main element for insecticides. Pyrethrum is proving to be an important new cash crop for the inhabitants.

The fourth stamp illustrates two tea leaves and a bud. Although tea has been grown experimentally in the highlands of Papua since 1964 that serious commercial planting has begun.

Hungary has issued three new stamps. One shows the poet Milton dictating "Paradise Lost" to his daughter. It is based on a painting by Soma Petricz. The stamp was issued to honor the International Stamp Show in Amsterdam.

The second stamp was issued to mark the International Tourist Year and depicted a map of Hungary with tourist symbols. The third set the annual change Tuesday by commemorating the 25th session of the Danube Commission, showed different Hungarian commercial vessels plying the Danube.

In answer to Miss Mary Vincent of New Bedford, Mass., the beginners stamp collecting book may be purchased directly from Minkus Publications, 114 W. 22nd St., New York, N.Y. 10001.

Mr. Walter B. Cox of Marion, Ohio, suggest you show your stamp album to a local dealer who will be able to examine the items and give you an appraisal. If there are no

dealers in your immediate area, you can take the album to Columbus where there are several dealers who can help you.

To Mrs. Alvin Henshaw of Canton, Iowa, you may purchase the catalog directly from Scott Publications, 461 8th Ave., New York, N.Y. 10001 or Minkus Publications, 114 W. 22nd St., New York, N.Y. 10001.

Canada's EXPO 1967 is certainly getting a philatelic "ride" from various countries as new stamps honoring the event are being issued by participating nations. Most depict the pavilions of the countries. A new EXPO stamp from Iceland, however, shows two maps. On the left is a map of 1890 illustrating Iceland's position in the then-known world. The map at the left shows a modern map version.

Italy has issued a special set of four stamps honoring its national parks. The 20 lire shows a mountain goat in Gran Paradiso Park which was created in 1922 to conserve wildlife. The 40 lire depicts a grizzly bear in Abruzzo Park located in southern Italy. Abruzzo Park was originally reserved exclusively for bear hunting. The 10 lire features an antelope stag against the mountain peaks of Silevo Park created in 1964. The 170

### Clark Claims U.S. Troops Set Before Romney Asked

WASHINGTON (AP) — Atty. Gen. Ramsey Clark says federal troops were ready to be dispatched to riot-torn Detroit last week hours before Michigan Gov. George Romney asked for them.

Clark told a Tuesday news conference Romney did not ask for federal troops to help quell the Detroit riot until nearly 11 a.m. on July 24, about eight hours after the governor had requested them.

Outlining events during what Clark called that "tragic morning in American history," the attorney general said the first direct contact he had with Romney was at 2:40 a.m. He said the governor telephoned then and termed the situation in Detroit "very bad."

He said Romney reported 800 rioters and widespread looting and said he thought he might need about 6,000 Army troops. But Clark said it was only after 10:30 a.m. that he telephoned between him and Romney that the governor finally sent a 10:46 a.m. telegram requesting the troops.

Romney has said he requested the troops in a telephone call before 3 a.m. He said also Clark told him at first that an oral request would be satisfactory, but later demanded a written request and directed that he specify there was an insurrection in Detroit which he was unable to control.

Romney charged President Johnson with playing politics at the expense of the people of Detroit, and that Clark's demand for a written request was more political than legal.

In announcing he was sending federal troops into Detroit, the President went to some lengths to emphasize he was doing so because of the inability of state and local officials to control the situation. He mentioned that point and Romney's name seven times in his brief statement to a nationwide television audience.

The White House has said it considers the matter closed. Clark opened his news conference being first in an attorney general last March by saying "It is with real reluctance that I am out on bail."

But he said he felt it was made necessary "in my judgment by statements attributed by his bank and had been signed over to Martins.

Gov. Romney said he was not sure if he had been signed over to Martins.

### Matros-Zemaitis

The marriage of Miss Mary Ann Zemaitis of Manchester to Robert Wilfred Matros of Hartford was solemnized Saturday July 1, at St. Bridget Church.

The bride is a daughter of Mr. and Mrs. Frank Zemaitis of 23 Starweather St. The bridegroom is the son of the late Mr. and Mrs. Wilfred Matros.

The Rev. Dennis R. Hussey of St. Bridget Church performed the double-ring ceremony and was celebrant at the nuptial Mass. Mrs. Raymond Murphy was organist and soloist. Bouquets of white gladioli were on the altar.

The bride was given in marriage by her father. She wore a floor-length gown of silk organza and French lace, designed with long sleeves and A-line skirt. Her fingertip-length veil of illusion was arranged from a fabric floral headdress, and she carried a colonial bouquet of white roses, carnations and baby's breath.

Miss Deborah Zemaitis of Manchester, sister of the bride, was maid of honor. She wore a full-length gown of yellow tulle, with matching floral headdress and veil. She carried a bouquet of blue carnations and daisies.

Miss Diana Hughes of East Hartford and Miss Sandra Stokarick of Haddam Neck were bridesmaids. They wore blue gowns with daisy trim, matching floral headdresses, and carried bouquets of yellow carnations and daisies.

Miss Margaret Wetherfield served as best man. Ushers were Edward Bushey of Wilburham and William Wessenberg of Ellimwood.

Mrs. Zemaitis wore a yellow dress with matching lace coat, matching accessories, and a crown of yellow roses.

A reception for 200 was held in Latham Hall. For a month trip south, Mrs. Matros wore a yellow linen dress with matching accessories.

The couple are living at 68 Ward St., Hartford.

Mrs. Matros is a 1966 graduate of Manchester High School. Mr. Matros is a graduate of Hartford Public High School. Both are employed at an hour after working Johnson's handling of federal troop assignments to Detroit.

The story also said in part: Rockefeller, one of Romney's principal supporters for the nomination, was quick to praise the Michigan governor's handling of the riots and his criticism of the President.

"George, you've done a fantastic job under the most trying circumstances," Rockefeller was quoted as saying.

A source close to Rockefeller said that before he received the telephone call he had read Romney's remarks, made at a Detroit news conference, in dispatches ripped off news agency tickers in his office.

### Jail Escapees Back in Custody

HADDAM (AP)—Two youths who fled from a recreation squad at the Haddam State Jail were captured today after about 12 hours of overnight freedom.

State police had set roadblocks while other searched Cooksonett State Park after George Capitan, 20, of South Windsor, and David Roy, 19, of Rocky Hill, walked off Tuesday night from the recreation squad of 30 prisoners at the rear of the jail.

All 30, classified as trustees, were allowed in recreation areas following the evening meal.

Rockefeller, one of Romney's principal supporters for the nomination, was quick to praise the Michigan governor's handling of the riots and his criticism of the President.

"George, you've done a fantastic job under the most trying circumstances," Rockefeller was quoted as saying.

A source close to Rockefeller said that before he received the telephone call he had read Romney's remarks, made at a Detroit news conference, in dispatches ripped off news agency tickers in his office.

### Public Hearing Set Aug. 22 On Holding Company Plans

HARTFORD (AP)—Two Connecticut insurance companies are planning to form a holding company with powers of investment beyond those allowed by their respective state laws, according to a public hearing set for Aug. 22 at 8 p.m. in the city hall.

Each Connecticut General Life Insurance Co. and its affiliate, Aetna Insurance Co., presented their plan Tuesday to insurance Commissioner William R. Costello.

According to company officials, the new company, to be known as the Connecticut General Insurance Corporation, would have a greater investment and operational flexibility than present insurance companies.

**Making Voters**  
A 5 to 8 p.m. voter-making session is being conducted in the town clerk's office in the Municipal Building.

Eighty applicants must be at least 21 years of age, Manchester residents for at least six months and must be U.S. citizens.

### Hike in Rates Isn't Enough To Save NHRR

NEW HAVEN (AP)—Increased freight rates approved by the Interstate Commerce Commission won't be enough to stem the cash drain forcing the New Haven Railroad to its knees.

### Area Weather

WINDSOR LOCKS (AP)—The weak frontal system which passed thru Connecticut Tuesday has pushed the humid air mass which had dominated our weather to the south and has paved the way for the arrival of a more humid continental air mass. This drier air is expected to arrive by Wednesday.

According to Richard Joyce Smith, chief trustee of the bankrupt line, the increase could mean an additional \$1.8 million yearly to the railroad.

But Smith and Kanell said the increase won't take effect until next month and the New Haven may be forced to close down by the end of September because of lack of cash.

The railroad, seeking to stay alive until it is included in the pending Penn-Central railroad merger, seeks more government subsidies to tide it over.

### Celebrated Party Giver Ends Long Career Tonight

CAMBRIDGE, Mass. (AP)—Distinguished party giving career Wednesday night with an intimate bash for 2,000 persons.

"I guess you could call it semi-retirement," says the 24-year-old veteran of the Cambridge scene.

Dulany (he prefers his middle name) graduates from Harvard in August with a degree in history and ends his favorite hobby by embarking on a new enterprise.

A dark haired, handsome, smooth talking Belle Meade, N.J. resident, Dulany has given to some notable parties since coming to Harvard. They have been so successful that he is called in by other party givers as a technical consultant.

Wednesday night's party at the Cambridge Boat Club will letting guys into my parties for nothing," if they brought some real attractive girls with them.

"People don't know how to give a party without losing money," he says.

It will cost \$10 a person to get into Wednesday night's soiree. "But of course that entitles you to free drinks, a rock 'n' roll band and all that," he says.

There's sometimes a little money left over—"enough to get through the next few weeks at least," he says.

But Wednesday night is a sentimental party and Dulany and his two co-hosts, David and William Koch, 27-year-old twins with degrees from Massachusetts Institute of Technology and a taste for "fun" parties, say a portion of the proceeds will be donated to the Jimmy Fund, a Boston organization devoted to cancer research for children.

### USS New Jersey Out of Mothballs Battlewagon Replacing U.S. Jets

WASHINGTON (AP)—The USS New Jersey, a battlewagon, is being reactivated to replace the USS Intrepid, a missile cruiser, in the Pacific fleet.

The Intrepid, which was decommissioned in 1962, is being replaced by the New Jersey, which was decommissioned in 1955.

The New Jersey is a battlewagon, a type of ship that is designed to fight other ships. It has a main battery of 16-inch guns and a secondary battery of 5-inch guns.

The Intrepid is a missile cruiser, a type of ship that is designed to carry and launch missiles. It has a main battery of 16-inch guns and a secondary battery of 5-inch guns.

### Cab Driving Jobs OK'd for NYC Policemen

NEW YORK (AP)—New York City police have for the first time been authorized to take jobs as taxi drivers during off-duty hours, and they may carry their service pistols while doing so.

Police Commissioner Howard R. Leary granted the permission in a special announcement, it was learned Tuesday night.

The effect of the move was expected to be twofold: first, the presence of armed officers in some cabs was expected to be a deterrent to would-be criminals and thereby reduce the number of assaults and robberies of drivers.

Second, the availability of a pool of potential drivers should ease the taxi shortage. Industry sources said thousands of cabs are idle some shifts each day for lack of drivers.

Although the announcement was optional during the off-duty work, a policeman must still have his pistol available—in the glove compartment, for example—so he can wear it upon leaving the job.

### Longevity

Man has the greatest potential longevity of any known mammal. Life expectancy in an American at birth is almost 70 years, but potential longevity is thought to be about 115 years.

SMILING SERVICE

### South Windsor Driver Training Cited In Evaluation Report

The recent evaluation of the high school notes that a better than average driver education program is open to all students. The program has been in effect for many years. Commenting the fact that the course is open to all students at no cost, the report notes that students are allowed extra time for the practice driving phase if needed and a summer school class is held which is open to all local students.

"The teachers and coordinators assigned to this activity understand and actively support each of the multiple components of a broad program needed to reduce traffic accidents," the evaluation report said.

Noting the cooperation which is received by the program coordinator from parents of students enrolled in the program, the report said that the course of study and lesson plans devised by the program coordinator are "excellent."

The committee evaluating the program recommends that the driver and traffic safety education course be an elective in all courses of study and that in future planning the possibility of scheduling the classroom phase during the school day be considered.

If this were done, the practice driving phase scheduled after regular school hours, on Saturdays and during vacation periods could be observed.

A psychological testing device is recommended for purchase so that teachers could more efficiently diagnose and study visual functions, reaction time and other personal characteristics of each student.

Noting that each program expands it appears that an additional automobile and a part-time teacher will be needed, the report cited the importance of the program in view of the current accident rate.

English Program Cited  
Commenting the English program at the high school, the evaluation report notes that most teachers are assigned a reasonable number of students for instruction. More than half of the teachers are assigned less than 20 students.

partment, the report commended the class size as "very favorable" for using modern teaching techniques. "Every effort should be made to maintain these levels of class size," the report said.

Commenting on the large, fully equipped language laboratory that is available along with some electronic classroom equipment, the report noted that the present movement is toward ideal electronic equipment set up as a tool for teaching the audio-lingual skills and for aiding in individual instruction in foreign language study.

Consideration should also be given to limiting the availability of a modern foreign language to an 11th grade student as his first foreign language, the report said.

"Although the goals of the foreign language program have not been crystallized, the committee is stimulated, evaluated and complete records are kept of reading completed," the evaluation report said.

Noting the cooperation which is received by the program coordinator from parents of students enrolled in the program, the report said that the course of study and lesson plans devised by the program coordinator are "excellent."

ing in listening, speaking, reading and writing in a modern foreign language are professed. There is little justification for a two-year sequence in terms of the possibility of accomplishing these goals," it said.

Noting that the student who follows only two years of a modern foreign language should certainly be the exception rather than the rule, the report stated that the majority of students have been taking just a two-year program.

More Tapes for Lab  
Citing the "critical need for curriculum planning and development by the foreign language staff," the report said that consideration should be given to including suggestions of foreign language study by other than the college preparatory students.

The committee also urged that continued and increased financial support be given to the program. It is recommended that all pupils scheduled for at least a

full semester or the equivalent of the health education course. Calling for more attention to the areas of nutrition, growth and development, family living, personal health, safety and community health, the report recommended a health education curriculum guide. This guide would be comprehensive in nature and developed with a sensitivity to the needs of the pupils.

"More extensive instructional aids such as textbooks, films, overlays and models would be provided and a health education specialist should be considered for employment as pupil enrollment expands."

A supervisor of health and physical education should be employed to coordinate the health education programs in Grades K-12," the report said.

In health education, it is noted that pupils appear interested and responsive. Instruction appears to be well done in such areas as first aid, alcohol, narcotics and tobacco education.

**Ripons Hit Housing in New Haven**

NEW HAVEN (AP)—The city of New Haven—once the pioneer in urban development—has been charged by a Ripon Society spokesman with lack of imagination in meeting the housing needs of its people.

The spokesman, Prof. Lawrence J. DeNardis of Albertus Magnus College, made that charge at a hearing of New Haven's Republican Advisory Committee Tuesday night.

According to DeNardis, such cities as Oakland, Calif., and St. Louis, Mo., are formulating new and imaginative proposals for low-cost housing.

Meanwhile, he said, New Haven is resting on its laurels of its widely-acclaimed downtown commercial development program.

DeNardis indicated in his talk that such a focus on commercial and industrial development has been encouraged, if not required, by the need for cities to seek industry and commerce to pay the taxes needed to support schools and community services.

"The pressures to increase the yield from real estate taxes compel cities to get out of the housing business and into the industrial-commercial one," he said.

"And if they must house," he said, "it is certainly not low-cost housing."

DeNardis said that New Haven is "resting on its laurels" of its widely-acclaimed downtown commercial development program.

### Schools Still Need 12 New Teachers

A growing shortage of teachers being experienced throughout Connecticut has also had its impact in Manchester, reported today.

Scott, who has charge of recruiting personnel for the Manchester schools, said that with the beginning of the fall term only five weeks away, he is still seeking to fill 12 teaching positions.

So far this year, a total of 40 persons have been hired to fill vacancies for 1967-68 created by resignations or retirements.

In contrast—showing how the availability of qualified people is worsening—a total of 40 teachers were needed last year. But by the first week in August, Scott had been able to hire 63 and had good prospects for the remaining seven.

"We seem to be in pretty good shape," he said last week.

Today, however, Scott's outlook was less optimistic. "It will probably be quite difficult to fill many positions, particularly where we are looking for specialists," he said.

On the other hand, he said he thought it should prove somewhat easier to find qualified elementary teachers.

There are presently openings for a half-time kindergarten teacher, and one each for teachers of Grades 1 and 4.

Three openings for specialists exist at Manchester High School—for teachers of physical education, electronics, and special education (the program for the mentally retarded).

One position in elementary music was recently filled, and it appears that candidates for jobs in secondary English and elementary physical education will accept contract offers, Scott indicated.

He said prospects for a school physician to replace Dr. Sylvia Helrick, who resigned in June, appear "dim", and that he has no leads for a candidate.

In an effort to make the position more commensurate with the duties, the Board of Education this year has upped the salary for the physician from \$4,700 to \$7,500.

If Manchester's Head Start program receives approval for its fourth year—as seems likely—Scott will also be looking for three teachers to staff the project centers at Bentley and

### Lynd Files Suit Over Job Loss

SPRINGFIELD, Ill. (AP)—History Prof. Staughton Lynd—on leave from Yale University—has filed suit to force his appointment to the Chicago State College faculty.

Lynd asked the Circuit Court Tuesday for a writ of mandamus against the Board of Governors of State College and Universities, which rejected his appointment.

Lynd had been notified that he had been accepted as a faculty member and moved to Illinois.

Then the board denied his appointment as a result of his unauthorized visit to North Vietnam late in 1965.

The board said his visit "went beyond mere dissent" and was a defiance of law.

Cook County College Teachers Union Local 1600, of which Lynd is a member, joined him in the court action.

Established Band Frederick the Great of Prussia ordered a military band to be established in 1763 and he named the instruments to be used. Military bands were sponsored by other European countries.

### Vernon Marino, ZBA Head, Resigning

John Marino, chairman of the Zoning Board of Appeals, has submitted his resignation to Mayor John E. Grant.

Marino, an engineer with Spencer Turbine of West Hartford, said he has accepted a position in Harrisburg, Pa., that was "too much of an opportunity" to pass up.

Mayor Grant praised Marino's work on the board during the several years he has been a member.

Marino, a Democrat, has advised Leo J. Flaherty Jr., Democratic Town Committee chairman, of his resignation. The Democrats are expected to recommend someone to complete his term of several more years.

Norman Couch, chairman of the zoning board in the rural district before consolidation, will be acting chairman until the board votes its own, the mayor said.

Marino leaves for Harrisburg next week. His wife, Jean, will stay here with their children until arrangements are made. He said his house on Maxwell Dr. is for sale.

### Rate Hike Approved For Water Company

The Rockville Water and Aqueduct Company has been authorized by the State Public Utilities Commission to raise its rates, almost as it proposed Feb. 15.

The ruling was made yesterday and announced today. It will mean rates for all company customers will go up by about 20 per cent. Also, high service customers will have an extra charge of \$1.50 per quarter instead of 60 cents.

Effective date of the rates is set July 1.

The PUC refused the company request to raise public fire protection rates by about 70 per cent. In fact, the commission was ordered to adjust the fire rates downward to reduce the annual revenues from it by \$2,500 per year. Effective date is next January.

Rates for the Connecticut Water Company were ordered up by 30 per cent. They are 6 cents per 1,000 gallons and will be 6 cents.

A public hearing in the Administration Building in Rockville March 20 by the PUC to the rate increase was brought out many complaints about poor water quality due to

### Split Approved By Stockholders

The shareholders of the Connecticut Bank and Trust Co. yesterday approved a five-for-four split of the bank's stock.

The action, taken at a special meeting of shareholders, will increase the number of shares outstanding by 25 per cent, from 1,171,407 to 1,464,259. Par value, now \$12.50, will become \$10.

Announcing the action, bank chairman Farnsey Day commented that it would benefit shareholders by broadening the market for the bank's stock. He also noted that the board of directors had previously announced its intention to declare a quarterly dividend of 52 1/2 cents payable Oct. 18 on the increased number of shares. This would be the equivalent of a 9.4 per cent increase over the rate currently being paid on the present number of shares.

The five-for-four split will be effective as of Aug. 11, and this will be the record date for determining shareholders entitled to receive additional shares. It is expected that certificates for the additional shares will be mailed on Aug. 25.

### supervised the production, weighing and testing operations. In cooperation with the official bread improvement program of the Holstein-Friesian Association of America.

This level of production may be compared to the average U.S. dairy cow's estimated annual output of 8,815 pounds of milk containing 15 pounds of butterfat.

Rockville Hospital Notes Visiting hours are 12:30 to 5 p.m. in all areas except maternity where they are 2 to 4 and 8:30 to 9 p.m.

Admitted Monday: Jocelyne Boothroyd of Main St., Ellington; Margaret Hamilton of Regan Court; Bruce Fortuna of Talcott Ave.; Richard Young of Upper Butcher Rd.; Richard Duato of Laurel St.; Susan Karen Zimmerman of Murray Rd.; Wagging; Hannah Canhike of King St.; Gary Bickmore of Cottage St.; Gertrude Drensek of West St.

Birth Monday: A son to Mr. and Mrs. Bryant Boothroyd of Main St., Ellington.

Deaths Monday: Mrs. Brenda Johnston and daughter of Grove St.; Renee Lingham of South Williams St.

The Herald's Vernon Bureau is at 28 Park St., tel. 878-2128 or 648-2711. News items may be mailed to P.O. Box 257, Rockville.

### small and particles in the water. Many appeared at the hearing to oppose the rate raise, including Mayor Thomas J. McCusker, members of the Board of Representatives, the first assessor of Ellington and the attorney for Ellington and Rockland. Many residents served by the company also voiced strong opposition to the rate raise.

The PUC figures the raises will give the company an income of \$9,000 next year. This is a 5.98 per cent return on a net basis of \$1,501,000.

The PUC stated that the company requires additional revenues in order that it may properly fulfill its statutory responsibility to provide an essential public service.

The PUC noted opposition to the rate increase wants the PUC to the rate increase to the reservoir. Semi-monthly reports on the water quality have been ordered.

### may be illegal and might make it impossible for the company to make a profit much less pay for improving the water. The PUC noted steps taken by the company to improve the water. The steps include copper sulfate treatments to stop odor-causing algae, a raised inlet pipe at the Sitapic Lake Reservoir dam, aeration of the water and caustic soda treatments.

Complaints about the water have been justified, the PUC noted adding. "This is a matter of deep concern to the commission and the company is reminded that it is not only its responsibility but its duty as a public service company to promptly stop the 'unpleasant taste, odor, color and turbidity.'"

A report within 60 days of yesterday was asked of the company on nutrients entering the reservoir. Semi-monthly reports on the water quality have been ordered.

Back To The Seventeenth

Why does the fact that President de Gaulle, back in France, defends and re-heralds his support of the cause of a French Identity for Quebec cause uneasiness in Switzerland? Because de Gaulle seems to be hardening himself into the traditional role and the traditional vice of the supranationalist, and setting himself up as the champion of the return of all of France's children to the aid of the mother country.

Here in de Gaulle, then, is focused one of the world's great anachronistic difficulties. It is indeed time for the disappearance of colonialism, which is one of the world's great anachronisms. But the necessities of world peace require that demand a lessening of the fires of nationalism.

The experiment in Canada, to try to make it fruitful and happy for two civilizations to live in the same political house, must have a chance for success if this world is to have a chance for life, just as we in this country must solve the problem of having different races live together, just as in the Near East, the ultimate survival of order depends not upon higher and more unassailable boundaries, but on lower boundaries which do not offer barriers to the free and friendly commingling of races and cultures.

Some Knew Why They Burned A New York Times correspondent who got inside a Detroit jail last week brought out the questions which this treated the mad, desperate kind of purpose which lay underneath the apparent senselessness of Negroes rioting and destroying the property and buildings in their own districts.

"There was no anger or hostility now. Just satisfaction. They burn it down, huh?" a teen-ager repeated. He could not hide the grin on his face. "They burn it down, oh man." The young Negro was saying something that eluded some of us slow-witted non-ghetto residents when this summer's violence broke open. They were saying that it was not burning and looting which led Negroes to set fire to Negro blocks containing Negro businesses and Negro homes. They were saying that they intended, that they hoped to render their familiar "12th St." incapable of rising again. They were saying that they wanted to wipe the place they had grown up in off the face of the earth. They were saying they wanted to make it uninhabitable.

If one can use a gift phrase without seeming to condone the desperation of the acts, they were trying out a formula for "instant renewal." They intended to eliminate the possibility of Negroes doing business and living and growing up in this area. They wanted to make sure it was never the same place again. So—where some of us at first asked what in the world they had to gain by burning down their own homes—the answer some of the burners had in their own desperate heads was that they had everything to gain—especially the satisfaction of not having to live in them another single day.

Month Of The Vacant Couch Everybody, including the nation's psychiatrists themselves, wonders how in the world people get through the month of August, which is traditionally the month when all the psychiatrists and psychotherapists close up their offices and take off to refresh their nerves, castors their own capacity to listen, and renew their faith in their diplomats.

It is true, the report that Soviet Premier Alexei Kosygin has offered himself as a mediator in the Vietnam war is distinctly interesting. Even more so is the word that he has set only one condition: The United States unconditionally halt the bombing of North Vietnam and for a long enough period so that Hanoi can respond to such a step.

It was talking, the correspondent, to young rioters who had been arrested rather early in the Detroit proceedings. Now they want to know something about what had been going on in the outside world. "What about 12th St.?" they asked. "It is hot! Did they burn it down? Is everything going?"

THE TURTLE Herald Yesterdays 25 Years Ago. Nature Study By Evelyn O'Leary

Inside Report

Rowland Evans Jr. and Robert D. Novak

WASHINGTON—Vastly more important than the noise from the convention of Latin American subversives in Havana is the little known fact that Fidel Castro now carries a hunting license from Moscow to spread guerrilla warfare throughout the hemisphere.

They even talked Castro into following this route through 1968 and into early 1969. But Fidel Castro cannot exit without revolutionary adventure. By mid-1969, he was plotting trouble again for four neighbor countries: Venezuela, Colombia, Bolivia, and Guatemala.

The Soviet position, as reported by Yonuri Shimshun, is a restrained one. It makes no mention of an American withdrawal nor does it call for any cessation of American military activity south of the 17th Parallel. In fact, it conforms almost exactly to the position taken by many Americans. If this is indeed another high-level hint that a settlement in Vietnam is possible, it would be tragic and inconceivable if it were not put to the test.—CHRISTIAN SCIENCE MONITOR

Open Forum

25 Years Ago

This date 25 years ago was a Sunday; The Herald did not publish. An estimated loss of approximately \$4,000 is suffered by John Faxon of 483 Keweenaw St. as a result of a fierce thunderstorm in which lightning sets fire one of three barns on his farm property.

A Thought for Today

Have you ever wished you lived other than where you do? Have you ever envied the surroundings of others, while downing your own? Remember the story of the man who grew tired of his home, so hired an advertising agent to draw up an ad which he might use to sell it.

Annual Report

The Traffic Safety Committee held no meetings and conducted no projects or programs during the fiscal year ending June 30, 1967, according to a report issued by Robert L. Brock, its chairman.

Fischetti

Bolton

Selectmen's Meeting Covers Drainage, Baseball, Bids

The selectmen's meeting last night was lively and crowded. It began with a report on a complaint about a drainage problem of Riga Lane and wound up with a meeting of most of the baseball managers and coaches. In between were representatives from companies submitting bids, and the conservation commission secretary.

Miss Kathryn Morris complained that the selectmen have done nothing to clear up a drainage situation at the head of Riga Lane, and the consequent flooding of her house. The problem belongs to the builder, Ladd Upenies, and will meet with him as soon as it can be arranged.

It was announced that Leslie Harlow has resigned as baseball commissioner. The selectmen asked for volunteers from among the managers and coaches to make arrangements for a picnic and the awarding of trophies.

The M&M Oil Co. was tentatively awarded the bid for installing boiler and a baseboard radiation heating system in the Community Hall and town offices.

Today in History By The Associated Press Today is Wednesday, Aug. 2, the 24th day of 1967. There are 181 days left in the year.

On This Date In 1858, Boston and New York installed the first street letter boxes for the collection of mail. In 1923, President Warren G. Harding died in a San Francisco hotel.

In 1927, President Calvin Coolidge said at Black Hills, S.D., "I do not choose to run for president in 1928."

In 1949, Dr. Albert Einstein wrote to President Franklin D. Roosevelt and urged that the United States start an atomic research project.

In 1964, the U.S. Senate voted to form a select committee to weigh a motion of censure against Sen. Joseph R. McCarthy, R-Wis.

Ten Years Ago The Western powers proposed a new plan for disarmament inspection and were rebuffed by the Soviet Union.

Five Years Ago Former President Dwight D. Eisenhower arrived in Cologne, Germany, as a tourist and was greeted by thousands of cheering Germans.

### Tolland Voters Ratify Kingfisher Move

MALCOLM BAZLOW  
He noted an audience of Tolland voters...  
The announcement of Kingfisher Corp.'s move from Mountain St., Rockville, to a new plant in Tolland came as a surprise to many officials.  
Mayor John E. Grant said last night in Tolland he was there to find out what the voters thought of the move. He said the voters were "disappointed" and called the move "unfortunate for Vernon."  
The Rockville Area Chamber of Commerce serving Vernon, Ellington and Tolland, was doing their duty, he said, in helping arrange the sale of Tolland to the Kingfisher owners.  
Charles Chubb, president of the Chamber, made several inquiries in behalf of them.  
Sewage lines will be needed by Kingfisher and approval is needed for a tie-in to the Vernon system.  
Mayor Grant said Vernon wants an industry like Kingfisher to at least stay in the area. He pledged support for getting the sewage service to the new Tolland plant.  
But the final decision is up to the Board of Representatives.

### Vernon Kingfisher Decision Surprises Officials

A town meeting last night voted to sell 7.5 acres of land behind the Burroughs Corp. to Kingfisher Corp. of Mountain St., Rockville.  
Kingfisher plans to erect a plant nearly the size of Burroughs, according to Paul DeSimone, executive vice president of Garcia Corp., the firm's parent company.  
Kingfisher will continue to make fishing line and tennis strings. DeSimone told an audience of about 80 Tolland voters. It may even expand and produce other sports products, he said.  
After a short introduction to Kingfisher's plans, arranged with the Rockville Area Chamber of Commerce, the Tolland Industrial Commission and the Board of Selectmen, a vote found 75 in favor and five against.  
The name of the industry was not disclosed until the town meeting. The meeting notice merely said the sale would be to Aljen Realty Co. of New Jersey. Aljen is owned by Garcia.  
Charles Chubb, Chamber president, told the audience, "It was kept very secret; very secret."  
The vote actually authorized selectmen to sell the land at \$2,000 an acre, or \$19,000. The meeting also voted \$38,000 to put in water and sewer lines and build a access road about 600 feet long. The road will be town-maintained and will have storm sewers.  
Edward Wolfanger, Burroughs plant manager and a Chamber director, told voters before their decision that the new Kingfisher plant will contain 60,000 square feet of floor space, compared to Burroughs' 56,000. He noted the new \$100,000 spent by Tolland to make it possible for Burroughs to enter Tolland in 1962.  
Burroughs already has paid more than \$100,000 in town taxes. Wolfanger said, with \$33,000-plus paid this year.  
The firm now has 134 employees with a yearly payroll of \$780,000. All but 12 were hired locally, he said.  
Kingfisher now has 85 employees in its 17,000-square-foot Rockville plant. DeSimone said to peak winter months it employs 75.  
The fish line firm is "quite landed" in the three-story building in Rockville, he said. But he praised the work of Frank Gregory, plant manager, when he noted the 100 per cent growth in production over the last three years.  
Gregory said the firm is so cramped in Rockville "our efficiency has dropped."  
The building will be soon as an architect makes plans and the ground is ready, DeSimone said. Operational use of the plant is anticipated by January or February, the peak production months for fishing line.  
The building will be masonry. The main equipment will be used at first, but more machinery for increased production will be needed, he noted. Also, new processes may be started and new equipment bought.  
Kingfisher began in Rockville with its first plant in 1933. Gregory said it was during the "heyday" of Rockville industry and no one objected to the plant in a residential area.  
The plant burned in 1952 and was quickly rebuilt. It is the

### Hartford 33rd In Pollution

BOSTON (AP)—Boston ranks seventh among urban areas in severity of air pollution, according to a survey published Tuesday by the U.S. Public Health Service, depending on what factors it uses to measure air quality.  
Both Hoxby and Marino could not say why Kingfisher did not acquire of Vernon officials for space here. DeSimone said Francis J. Gregory, local plant manager and a Tolland resident, was the "key" man in the area and recommended the land.  
DeSimone also noted aggressive offers from South Carolina and Kentucky to move it there.  
John Marino, chairman of the Zoning Board of Appeals, also expressed surprise over the move but said he could understand the reasons.  
Kingfisher requested a variance from Marino's board about one and a half years ago to allow for truck loading from its Mountain St. plant. Despite the residential zone the firm is in, the variance was granted.  
Marino said the board members gave careful consideration and the possibility they might move. But money and other factors came into Kingfisher's plans from the most unlikely place, its own personnel.  
An employee, who lived next to the truck loading platform, brought court action to keep area. He pledged support for getting the sewage service to the new Tolland plant.  
Marino said, but Kingfisher still had problems.

### Coventry Petition for Primary Is Filed By School Board Chairman

Papers were filed at the town clerk's office yesterday that likely will require a Democratic primary Aug. 21. Mrs. Ruth Benoit is requesting the primary for the board of education.  
A petition for a primary must contain the names of 5 per cent of registered Democrats in town. These have been obtained and have only to be certified by the town clerk, who will then officially call the primary.  
Mrs. Benoit, an incumbent on the board of education and its chairman, was the choice of the Democratic nominating committee and the Democratic Town Committee. She was defeated at the caucus by four votes, however, when the name of Harold Crane was introduced from the floor.  
The other Democratic candidates for the school board is Donald Averill, also an incumbent, who received the recommendation of both the nominating committee and the town committee.  
A primary would create a

three-way race for the two available Democratic seats. The two top vote-getters would then be assured of election at the October election, since this is a "no-contest" year on the board of education.  
Crane has served on the school board in the past, while Averill is completing a four-year term. Mrs. Benoit was appointed to fill a vacancy early last year and was elected chairman this spring. She also serves as registrar of voters in the first voting district.  
All three candidates are members of the town committee.  
Before Eli Whitney invented the cotton gin in 1793, it took one person a whole day to pick the seed from the flint of one pound of cotton.

### Events in Capital

**Must Ask Court**  
WASHINGTON (AP)—A federal official says a decision by the Supreme Court, Ala., court last week would force Washington to seek court permission before cutting off aid to Southern schools which refuse to integrate.  
Derrick Bell, acting director of the Health, Education and Welfare Department's office of civil rights, added, however, that he doubts federal officials will appeal the decision. The decision applies directly to Alabama but Bell said the principle would apply in 18 other Southern and border states.  
"In Alabama, the decision certainly means that our basic not scientific and won't produce accurate or clear-cut results. It added there is no valid scientific evidence demonstrating that tar and nicotine are responsible for lung cancer."  
**Pence Plank Asked**  
WASHINGTON (AP)—Democrats opposed to the Vietnam war are urging that a major effort be made to include a peace plank in the party's platform next year.  
Among those involved is Joseph I. Rauh Jr., a Washington attorney who is vice chairman of Americans for Democratic Action. He prepared a 2,400 word memorandum and has circulated it among ADA leaders.  
However, even before the FPC formally ordered the test, the Tobacco Institute said the testing methods to be used are peace plank would be to provide anti-war Democrats the chance to associate themselves with the plank rather than break completely with their party leader, President Johnson.  
**CAPITAL QUOTE**  
"I hope that the backlash from these riots does not lead the country to make the mistake of turning against the poverty program, the demonstration cities program, rent supplements and other things."  
—Gov. Richard J. Hughes of New Jersey.  
**DEFENSE FOOTNOTES**  
WASHINGTON (AP)—The Defense Department officials have told Congress military pilot shortages have been filled, indicating trained aviators are available for all planes in Southeast Asia.  
The State Department has lifted its travel ban for Algeria, Libya and the Sudan. The ban was imposed during the recent Middle East war but has been

### Woman's Death Ruled Suicide, Not an Attack

NEW YORK (AP)—Pioneer aviator Evelyn de Sevrek, 60, wife of aeronautical designer Alexander P. de Sevrek, shot herself to death with her husband's .38-caliber Colt automatic, Suffolk County detectives have reported.  
Previous reports said Mrs. de Sevrek had died of a heart attack and tested his FBI fingerprints on the pistol. Monday she shot herself in the chest Friday in a fit of despondency over her health. Her husband found her body in a bed at their summer home in Asharoken, N.Y.  
The family said in a press release that De Sevrek "discovered" she had heart disease. The death notices read "after a long illness." But police reported that at the beginning of the death was carried on the blotter as a shooting.  
Monday she called it a suicide. Brought back to Scotland, it turned out on expert examination to be an opah, a fish that lives in the Red Sea and sometimes appears off the Azores.  
How did the scientist-famed opah get so far north? No one knows. If it came from the Red Sea, it could be the first block-buster of the disputed Buss Canal.  
It wound up in the frying pan. The vanilla bean comes from a species of orchid.

### Rare in Water, Fish Becomes Ordinary Meal

LONDON (AP)—A trawler off Iceland netted a fish four feet long and highly colored. Brought back to Scotland, it turned out on expert examination to be an opah, a fish that lives in the Red Sea and sometimes appears off the Azores.  
How did the scientist-famed opah get so far north? No one knows. If it came from the Red Sea, it could be the first block-buster of the disputed Buss Canal.  
It wound up in the frying pan. The vanilla bean comes from a species of orchid.

# Thunder in the East Unchains Red Giant

(Continued from Page One)

China, under Mao Tse-tung or more cooperative successors, must be reckoned as a first-class power. The H-bomb gives a soaring boost to Chinese morale, says one top adviser on China to the U.S. government.

"After 100 years of agony and having to accept battleships, boats and Bibles forced on them by foreigners after suffering heartaches and burning in their bellies from all that, the bomb is a tremendous symbol of emancipation from second-class status," he remarks.

It took China only 28 months to leap from her first atomic explosion to detonation of a pretty complete H-bomb. How swiftly may she acquire significant nuclear muscles?

Pentagon Atomic Energy Commission officials declined requests for interviews, referring queries mainly to a "policy statement" by Defense Secretary Robert S. McNamara last Jan. 25.

"It appears unlikely that the Chinese could deploy a significant number of operational ICBMs before the mid-1970's, or that these ICBMs would have great reliability, speed of response, or substantial protection against attack."

A "significant number" of ICBM—intercontinental ballistic missiles—was defined by Pentagon sources at the time as 75 to 100 or more.

McNamara and others have predicted China may test-launch an ICBM before the year's end, or send a Chinese satellite bespokening in orbit, signaling progress in control and guidance skills required for pinpointed missile strikes.

The estimate that China could have 100 H-bombs by 1970 is made on the basis of published information and other sources by Dr. Lapp, of Washington, D.C., a physicist now in private consulting business who played a role in A-bomb development.

He credits China with current ability to produce 1,000 pounds per year of uranium 235, the atoms that fission or split in A-weapons.

But Dr. Lapp and others think it would be foolish for China to use costly U-235 for atomic weapons. Instead, they think China will opt to use all or most of it as triggers for H-bombs, with the explosive equivalent of many millions of tons of TNT.

Dr. Lapp estimates China can turn the 1,000 pounds of U-235 into 20 H-bomb triggers each year. That, plus existing stocks and a rising production could mean 100 H-bombs within about 30 more months.

U-235 is the most expensive ingredient in the big bombs. Others such as lithium 6 and heavy water are relatively cheap.

With a large H-bomb, "you can buy the equivalent of a ton of TNT for 40 cents a ton. With smaller A-bombs, the cost is more than \$1,000 per ton," says Rep. Hoerner.

Sen. Henry M. Jackson, D-Wash., predicts China by the end of 1967 will have a capability for intermediate range ballistic missiles and will begin deploying them.

These can zoom 1,000 to 1,500 miles or more, and so could menace Soviet Asia and South-east Asian countries, says Jackson, a member of several military and nuclear affairs committees.

By 1971, China may have ICBMs that could reach the U.S. America, the senator adds. By the mid-1970's, China "will have enough bombs and missiles to be a real threat to life in the United States. That's perhaps eight years away, but time flies by."

In eight years, a child progresses from first grade to high school.

When China exploded her H-bomb, she was at least 2 1/2 years ahead of the schedule estimated for her by Westerners.

It took the United States seven years from A-bomb to H-bomb, but there had been no pressure to move quickly when this country had a monopoly on A-weapons. It took the Soviet Union four years, British seven, and France 10 years to get there. China required only two years and eight months. The reasons are intriguing; the record impressive.

Oct. 16, 1964: The first A-device is detonated from a tower in the desolate salt flats near Lop Nor—Lake Lop—in the remote northwestern province of Sinkiang, on a site 450 miles from the Soviet frontier. Its force: 20,000 tons of TNT, equal to the Hiroshima bomb 19 years earlier.

Through spy planes and other intelligence, the United States was able to predict the event 17 days in advance, distilling its propaganda value. It was made of U-235, not easier-to-get plutonium. China was more sophisticated in nuclear progress than had been supposed.

U.S. experts figured China might have H-bombs by 1975. Little official concern was expressed—China still had to produce numerous A-bombs, and means of delivering them.

May 21, 1965: An air drop of a 15,000 pound hydrogen bomb earlier force. U.S. officials expected it to be a "test" of the bomb by 1970.

May 9, 1966: Test tower de-

tonation of a device of over 200,000 tons of TNT. Ingredients needed for an H-reaction were selected, says Rep. Hoerner.

Oct. 27, 1966: A missile carried an A-warhead 400 to 500 miles to detonation. The explosion force was perhaps 20,000 tons.

Experts analyzing China's nuclear hurry point to numerous factors.

—Her leaders put top priority on this goal.

—The Soviet Union helped directly for a time; the United States indirectly.

—The Chinese are very smart people, as evidenced by their impressive share of outstanding scientists in many fields.

—They profited hugely from U.S. and Soviet pioneering which showed that A-bombs and H-bombs can be built—that war-

heads can be designed to fit with bombers to carry them, stop mistakes—that gaseous diffusion is an effective way of separating U-235 from ordinary uranium.

—China alone saved them half to 80 per cent of the time and effort Americans had to spend originally in various phases of weapons development.

—China worked simultaneously to develop bombs and missiles, then to marry the two.

—China authority who advises the U.S. government. "They had to

go through the formula of adjusting Mao, but they didn't have to interrupt their work, or have signs glued onto them."

—China spent heavily in skilled manpower, resources and foreign exchange at a cost of not pursuing, or else limiting, other needs.

—China's scientists and engineers in nuclear-missile work were "insulated from the bright and deleterious antics of the cultural revolution," says a U.S. government. "They had to

# Lunar Orbiter 5 Searches For Guiding Star, Gets Blur

PARADENA, Calif. (AP) — attempts were made to find the last of America's orbiting Lunar Orbiter shuttles—Lunar Orbiter 5—today, coaxed an eye toward its orbiting star and found a blur.

"We've got a star, but we haven't got a star," he said, "but we've got a star, but we haven't got a star."

"That's the same problem we had with earlier orbiters. Light from parts of the spacecraft seems to be reflecting into the main lens in a classic scientist's 'textbook perfect' manner."

The study craft was boosted about from Cape Kennedy, Fla., last Tuesday in a launch that was argued over what formed the moon's lumpy, pock-marked surface.

Orbiter's goal, after its features—meteor impacts or volcanic eruptions. The weight of most opinion favors the impact theory, although photos from other orbiters indicate some of the features may be volcanic origin.

The first three orbiters in the series concentrated on pictures of eight landing sites considered smooth enough for the landing of lunar expeditions, while Lunar Orbiter 4 confirmed the earlier findings and went on to complete a broad survey of 99 per cent of the moon's visible side.

# Events in World

**Burma Battle Reported**  
BANGKOK, Thailand (AP) — an estimated 500 persons were killed or wounded in a three-day battle between two Chinese hill tribes using machine guns and rockets, deputy Premier Pracha Charuathien said today.

Prachas told his weekly news conference an unknown number of Burmese, Laotians and Thais were among the casualties in the battle in Burma's Shan state along Thailand's northern border.

Prachas said the two tribes of between 500 and 1,000 men each fought for control of a mountain ridge to be a double-cross in their option traffic.

**Output Up 110%**  
MEXICO CITY—Mexico's industrial production, at \$8 billion in 1966, is up 110 per cent in the past 10 years. As a result Mexico now is self-sufficient in many consumer goods and a large number of capital goods.

**Thombe Nearer Death**  
KINSHASA, Congo (AP) — Ex-Premier Moise Tshombe appeared to be closer to a Congolese firing squad today as reliable diplomatic sources said Algerian President Houari Boumedienne has signed a decree for his extradition.

The leader of the 1961 Katangan secession was kidnapped and taken to Algiers June 30 and a court ruled it would be legal to deliver him to Congolese President Joseph Mobutu to be executed for high treason. A Congolese court found Tshombe guilty in absentia and Mobutu said he would get no further trial or appeal.

Boumedienne's presence in a plane from a Russian airport is with a Soviet crew, is expected to bring Tshombe to Kinshasa. The diplomatic sources said the Soviet government had agreed to its pilots making the trip.

**Isle of Man Threatening Revolution**

Associated Press Writer LONDON (AP) — Already harrassed by problems accompanying the dissolution of its far-flung empire, Britain now faces a revolt in its own back yard.

Charging "colonial oppression," the Isle of Man, in the Irish Sea 16 miles off Northern England, is threatening to take its case to the United Nations.

The 24 members of Parliament who represent the holiday island will vote Monday on an emergency resolution calling for a U.N. investigation into an attempt to enforce British domestic policy on the 50,000 islanders.

The Isle of Man—known chiefly by its annual motorcycle race and the Manx cat—has a government and constitution of its own. British handles foreign affairs for its Parliament, the ancient Tynwald.

Man's people, customs and way of life are as British as neighboring Cumberland on the mainland. But the islanders have always been fiercely jealous of their right to manage their domestic affairs.

The dispute was brought to a head by British legislation banning pirate radio stations which beam transistor pop music from ships just outside British waters in competition with the British Broadcasting Corporation. One of the biggest stations is anchored just off the lake, and Prime Minister Harold Wilson's government made clear the ban will apply to it despite the rejection of a similar bill by the Tynwald.

The islanders say they are defending constitutional principles, not just the radio station.

The resolution calling for U.N. help, which is backed by a majority in the Tynwald, reaffirms the loyalty of the Manxman to Queen Elizabeth II—"the Lord of Man"—but says any enforcement of British domestic policy is "incompatible with the freedom of self-governing democra-

### Columbia Chowanec and Rosebrooks Set for Primary on Aug. 21

Columbia is going to have its first primary Aug. 21 for the post of assessor on the Republican ballot in town elections Oct. 2.

Frederick Chowanec, Old Willimantic Rd., who seeks to wrest the office from incumbent Ward Rosebrooks, lost out in his recent bid at the caucus by about 10 votes.

Chowanec, presently on the ballot for constable, graduated from Porter School in 1960 and left Willimantic High School in 1963 to enlist in the U. S. Army. He served in Korea until 1964. He has lived in town in his life, is married and has two children. He is an active member of the Volunteer Fire Department and is employed by Pratt and Whitney.

Rosebrooks has been on the board of assessors for about 12 years, was a founder of the volunteer fire department, its deputy chief and has been its chief for four years.

He has been a member of the Windham-Tolland County Board of Assessors, Tax Review and Tax Collector since its inception about ten years ago and was its president for four years.

Rosebrooks has been chairman of the local Firemen's Fair about 12 years and is a director of the St. Columba's Fair and chairman of its Board of Scholarship Association.

Chowanec circulated a petition and received well over the required signatures of five percent of registered Republicans voters.

### Vacationing? Enjoy it more with mini-pricing!

You never have to drive too far to enjoy the fine quality we're famous for. And with mini-pricing you'll have extra cash for vacation fun. You'll find a Stop & Shop store in these and many other resort towns!

Great Project Starts

Mrs. John Groman has been appointed chairman of the local Red Cross chapter of a national project, Santa Claus gift bags. Each town in the chapter, which includes Andover and Hebron, is responsible for 50 gift bags to be sent to servicemen in Vietnam.

The Red Cross furnishes material for the bags which are filled with toilet articles, small gifts, such as paperback books, small games, tins of nuts or candies, windproof cigarette lighters, small plastic soapnet holders and other suitable items.

The local Lions Club had donated \$50 toward expenses.

Mrs. William Murphy, Canoe Club fleet captain, is in Wilmington, Canada, judging canoe events in the Pan-American Games.

The board of education will hold its August meeting Aug. 14, a week late, so that all members will be able to attend.

### Lull in Ground War 3 More U.S. Planes Lost in Fighting

(Continued from Page One)

The ship is owned by Seatrane Lines Inc. of New York.

Helicopter gunships followed by tactical air strikes also killed 40 Communist troops 27 miles west of Da Nang Tuesday, a U.S. spokesman said.

He said a Marine reconnaissance patrol spotted a number of Communist troops moving into the open from a hedgerow. Fighter-bomber pilots reported eight direct hits with 20-pound bombs.

U.S. pilots flew a total of 113 missions against North Vietnam Tuesday, swarming over the Hanoi region and blasting an army barracks, a rail siding and the Bac Giang electric power plant.

Pilots reported heavy damage to the generator building at the power plant 28 miles northeast of the Communist capital and said they knocked out an aircraft carrier site defending the complex.

Smoke and dust from the bombing prevented assessment of damage at the Son Tay barracks 20 miles west of Hanoi and to 26 boxcars on the rail siding 23 miles east of Hanoi. But other Air Force pilots said they destroyed or damaged 22 trucks and 10 barges in other raids.

Navy planes from the carriers Oriskany and Intrepid attacked cargo craft along the coast and other targets northeast of Hanoi, the chief Communist port. The carrier force on Yankee Station, in the Tonkin gulf, was temporarily reduced to two by the fire on the Forrestal last weekend and the departure of the Bon Homme Richard for normal leave. A replacement carrier, possibly the Constellation, was expected to join the Oriskany and the Intrepid soon.

Action in the delta Operation Colorado was described as "light to moderate and scattered." Tuesday as the 10,000-man U.S. and South Vietnamese search for guerrillas continued. The troops are hunting Viet Cong whose mining of the highway between My Tho and Saigon has reduced the supply of rice and vegetables to the capital, raising food prices.

With no major contact reported since Sunday, the official report of enemy casualties was unchanged at 200 killed although field commanders estimated as many as 300 dead.

Allied casualties also were unchanged since the initial report of the operation Tuesday: 16 Americans killed and 59 wounded; 28 South Vietnamese killed and 60 wounded.

In terrorist actions the Viet Cong attacked two civilian refugee villages, a funeral cortege and a small group of civilians in scattered areas, officials said today. Six civilians were reported killed, five wounded and a militia platoon suffered heavy casualties. A band broadcast contradicted speculation that Tran Nam Trung, the Viet Cong's top military leader, had been replaced. The speculation arose when an earlier North Viet Communist broadcast omitted the usual reference to Trung as head of the military committee of the Central Liberation Front of the Viet Cong's political arm.

The Viet Cong used Tuesday in a broadcast of a message sent by Trung to Red China's Defense Minister Lin Biao congratulating the Chinese Communist army on its 40th anniversary.

**FOOLS ROBBED**

HARTFORD (AP) — "Gimme the money," said one of two youths after ordering some beer Tuesday at the Canton Package store.

The owner, Louis Hyman, reaching down into the store's cooler for the beer turned to the youths. He hit one on the head with a can of cold beer. He pushed back the other who was trying to hit the counter. A customer entered and the two youths fled.

Hyman is 58.

**THE Herald Angle**  
By EARL YOST Sports Editor

**Tennis Toss on Private Location**  
Once again the finals in the annual Men's Town Singles Tennis Tournament, sponsored by the Rec and Park Department, will be played on a private court this season. The championship title this afternoon pitted challenger, John Manter, ex-University of Hartford performer, against defending champion Martin Duke.

Something appears to be in the air as the tournament progresses and promoted event winds up being played at a private area.

It seems that Manchester should be able to boast to lead in first class tennis court, and, if it can't, it shouldn't get into the tournament phase of play.

From this viewpoint, taking the town event and playing it at a private court is the million mark this season for the Rec and Park Department, and the Town of Manchester as well.

One wonders why there are not first rate courts in Manchester.

Didn't the Rec and Park Department turn back a sizeable amount of money a year ago, well into the thousands of dollars, to the general fund of the town, to be used for tennis courts, the same thing happened this year, although the amount was not as large. A portion of this money could have been spent to improve the tennis playing areas.

Wally Fortin, program director for the Rec Department, said a request was made last year to update the existing tennis courts, which would include resurfacing, but nothing was done.

The like request was repeated this spring and again nothing physical was done.

Anyone who plays tennis, and this writer is no exception, knows that your game is better under top playing conditions but one wonders if the players have to the last word in where the final courts will be played?

All it takes for anyone who is interested to see the poor condition of the existing courts at Robertson Park, West Side Oval and Memorial Field.

Perhaps something is being done before next spring in regard to improving the playing conditions.

It usually takes time, and patience is often rewarded.

**One-Run Defeats — 20 in 36 Games — Still Plague Red Sox**  
**Play Only .500 Bat on Home Stand**

**BOSTON (AP)**—The Boston Red Sox hoped to pile up victories on a 12-game home stand at Fenway Park, but they were managed to just break even with two meetings left with low-key Kansas City.

The Red Sox collected only five hits off young Chuck Dobson and dropped a 4-3 decision to the Athletics Tuesday in the opener of a twilight double-header before a crowd of 28,760.

Boston unloaded a 15-hit attack to take the nightcap 6-3, but fell 2½ games behind the first place Chicago White Sox, who bombed Cleveland 11-5.

The Sox to the A's was another tough one for the Red Sox, who would be far out in front in the American League pennant race if they had not lost their one-run defeat. Their record in one-run games is 16-20.

Dave Morehead, a right-hander who has been a no-hitter against Cleveland in 1966 before being sidelined with arm trouble, was ineffective in his return to the Red Sox.

Morehead, who had an 11-5 record at Toronto of the International League in winning another shut in Boston, survived the first two innings, but was tagged for four runs on a pair of walks, a bunt single, and a triple and a single before being shelved in the sixth.

Jose Santiago (four innings), Sparky Lyle (two innings) and John Nystrom (one inning) blanked the A's the rest of the way, but the Red Sox were unable to catch up.

In the sixth, a walk to Mike Andrews, a single by Joe Foy and Earl Yastrzemski's 7th homer, a shot into the bleachers in right center, provided the three Boston runs.

In the fifth, Andrews beat out a bunt, Foy walked and Tony Jimenez struck out a hit to deep center near Atlanta, Ga., obtained an overnight pass and flew home just in time to pitch the second game.

Santiago surrendered eight hits, five walks and three runs, two unearned, before being lifted with one out in the sixth. Lyle came in from the bullpen again and hurled hitless ball, striking out four in saving Lomborg's 15th victory in 19 decisions.

The Red Sox rallied for four runs in the fifth and then trailed down the triumph with four more in the seventh.

In the fifth, Andrews beat out a bunt, Foy walked and Tony Jimenez struck out a hit to deep center near Atlanta, Ga., obtained an overnight pass and flew home just in time to pitch the second game.

**SCOREBOARD**

**REO SOFTBALL**  
Gunver Stammers split last night, suffering a 7-6 defeat by the Army & Navy 9's. The team delivered a two-run pinch single. A double to short right center by Reggie Smith put the Red Sox in front 4-3. Conigliaro's third strike, a walk to Smith and Mike Ryan's second homer provided three runs in the eighth. Singles by Lyle, Andrews and Foy were good for the final tally.

The Red Sox will send right-hander Gary Bell against Kansas City tonight. Bell, who has a 9-9 record, will be opposed by Jim Starns, who owns a 10-10 mark the A's.

**BASEBALL**  
The Red Sox collected three times in defeat with four hits off young Chuck Dobson Tuesday after hauling down a record bag of 28 championships in 38 games.

The evening phenom bustled 11 of the 14 world records that were destroyed in a fantastic display of speed and stamina in the huge, indoor Pan-American pool.

Bob Hurley collected two hits and a homer, and Dick Lovett collected two hits and a homer.

Bob Hurley collected two hits and a homer, and Dick Lovett collected two hits and a homer.

**Legion Hosts Thompsonville Here**

**Need Win To Remain Atop Pack**

Revenge and momentum will be the goals for the Thompsonville Legion when Thompsonville visits to Mt. Nebo tonight at 6 o'clock. Marc Schardt will be on the hill for the current Zone Four leaders while tricky Barro is expected to hurl for Thompsonville.

Coach Charlie Graff would like nothing better than reversing the 5-1 defeat his club suffered to Thompsonville and Sarro the last time out. Thompsonville John Williams and East Hartford as the only Zone Four clubs to beat Thompsonville.

Graff would also like a little momentum for the "rubber match" with East Hartford tomorrow night, also at Mt. Nebo. It appears to be a must if the locals are to represent the zone in the state tournament in Waterbury, Manchester and East Hartford split two previous games.

Friday night Manchester ends regular scheduling with Second Winders.

South Winders, Thompsonville hosts Winders Locks tonight and Rockville Friday night. The Thompsonville crew also should make up three rained-out games before a Sunday deadline.

Also tonight, Rockville will be at East Hartford.

**Tingley and Corlett Join Rockville Staff**

Filling two vacancies in the athletic staff at Rockville High are Dick Tingley and Bob Corlett. Dr. Ray Rammedell, superintendent of schools, said Tingley would replace John Canavari, who resigned, as director of athletics. Corlett will be in charge of physical education in the school.

Tingley, who spent the last four years at Ellington High, will also be supervisor of physical education in the school in addition to his basketball duties. The 38-year-old Corlett started his coaching career while a member of Uncle Sam's Army, serving as director of athletics and basketball coach in Tokyo, Japan from 1953 through 1956.

Taking over the basketball job at Lyman in 1959, he posted a 112-89 record. Over the past four years, his team won 83 of 100 starts. He also handled baseball and soccer.

The Lyman coaches were supervised by physical education teacher John Williams.

Speaking before the annual luncheon where the Stars make their annual public appearance, Sauer said, "I don't know of a single rookie with any real talent who belongs on this squad. We have the best players available."

"I don't make pretensions," said Sauer Tuesday "but I guarantee you this squad will hit with the Packers all night."

Speaking before the annual luncheon where the Stars make their annual public appearance, Sauer said, "I don't know of a single rookie with any real talent who belongs on this squad. We have the best players available."

**Cubs Match Win Total of 1966 'Don't Talk About Last Year'—Leo**

**CHICAGO (AP)**—Manager Leo Durocher of the Chicago Cubs doesn't have a short memory so the safest thing to do in his presence is not to mention last year.

The Cubs had knocked off the St. Louis Cardinals 3-2 Tuesday night in the opener of a half-hour television double-header before a crowd of 28,760.

"I didn't congratulate me," Leo said. "I don't congratulate the players." "I didn't mean today's game," Leo said. "This was your 59th win this season and I was proud to be a part of it."

"I asked him where he had been last year and he called me and said 'Well, you know you weren't doing so good.' That was all there was to it and I walked away."

Durocher finally let last year and got back to what he called a "fresh start" today. "If we had just won Tuesday," he said, "we'd be a doubleheader today and if we had just won today, we'd be a doubleheader today."

The two contenders meet in a doubleheader today and if the Cubs can keep their lead in the double victory, they'll cut St. Louis' margin to a game and a half.

**Los Angeles Offense Sputters and Stalls**

**LOS ANGELES (AP)**—The Los Angeles Dodgers entered the 1967 season believing that Jim Lefebvre, Don Fairly, Lou Johnson, Willie Davis, and newcomer Bob Bailey would give them a satisfactory offense.

Only seven runs in the last five games but have won only three of them. Not one in that span has the Los Angeles attack generated more than two runs.

These are typical games for us — we're not hitting when it counts, signed Manager Walter Alton Tuesday night. "Tommy Jackson, 8-10, restricted the Dodgers to five hits.

An example of the Dodger problem came in the seventh inning after singles by Davis and Len Gabrielson put runners at first and third with only one out. Jackson was able to protect his 2-1 lead when he struck out both Lefebvre and Fairly.

Elsewhere in the American League Tuesday night, Boston led 4-3 to Kansas City before beating the Athletics 6-3, Minnesota edged Washington 4-4, Detroit topped Baltimore 4-2 and New York trounced California 6-1.

**Boyer and Colavito Add Punch to W Sox**

**NEW YORK (AP)**—The Chicago White Sox gained the reputation as a road-pitch, no-hit team. But before they were in their BBO era, Boyer and Colavito.

Ken Boyer, whose pinch hit single tied the game in the seventh inning, and Colavito, who went 4-2 Tuesday night, scored the go-ahead run in the eighth inning.

Boyer's pinch hit single tied the game in the seventh inning, and Colavito, who went 4-2 Tuesday night, scored the go-ahead run in the eighth inning.

Boyer's pinch hit single tied the game in the seventh inning, and Colavito, who went 4-2 Tuesday night, scored the go-ahead run in the eighth inning.

**Saints Kick Off Campaign Tonight with Tough Rams**

**ANAHIM, CALIF. (AP)**—The New Orleans Saints kick off their National Football League competitive existence tonight against the Los Angeles Rams at Anaheim Stadium.

Stuffed by the expansion draft and some highly regarded rookies, the Saints have a veteran defensive crew which allowed only 212 points in 14 league games. The only game they were held in was against the Rams, when they lost 32-10.

The Saints have a veteran defensive crew which allowed only 212 points in 14 league games. The only game they were held in was against the Rams, when they lost 32-10.

**Display of Speed, Stamina Nets 11 World Swim Marks**

**WINNIPEG (AP)**—The United States' young band of swimmers and divers turned over the spotlight in the Pan-American Games to the other all-arounders Tuesday night.

The evening phenom bustled 11 of the 14 world records that were destroyed in a fantastic display of speed and stamina in the huge, indoor Pan-American pool.

Bob Hurley collected two hits and a homer, and Dick Lovett collected two hits and a homer.

**All-Star Talent Rated the Best**

**CHICAGO (AP)** Coach John Sauer of the College All-Stars is convinced of two things — he has the best talent available and his team will slug it out toe-to-toe with the Green Bay Packers.

Sauer leads the All-Stars against the Packers Friday night in Soldier Field with hopes of wiping out the 38-0 kicking record administered by the Packers against his 1966 All-Star contingent.

"I don't make pretensions," said Sauer Tuesday "but I guarantee you this squad will hit with the Packers all night."

**Moriarty's in Deadlock, Play 'Two' Again Tonight**

**CHICAGO (AP)** Coach John Sauer of the College All-Stars is convinced of two things — he has the best talent available and his team will slug it out toe-to-toe with the Green Bay Packers.

Sauer leads the All-Stars against the Packers Friday night in Soldier Field with hopes of wiping out the 38-0 kicking record administered by the Packers against his 1966 All-Star contingent.

**Pitcher's Paradise in N.L. Until Willie Mays Unloaded**

**NEW YORK (AP)**—Willie Mays' 14th home run of the season and No. 558 of his career helped Juan Marichal win his 14th game as the National League's pitcher of the week.

Mays' blast was the first and only homer of the night as the pitcher shut out the Braves. He scattered three singles and struck out eight.

Marichal hurled a six-inning shutout in the game's sixth inning, but he was tagged for four runs on a pair of walks, a bunt single, and a triple and a single before being shelved in the sixth.

Concert Slated By Roberta Peck

Roberta Peck (Mrs. Robert C. Peck of 209 Henry St.), a Columbia recording artist, will be presented Friday at 7:30 p.m. at an outdoor concert in front of the new Town Hall in Windsor.

The event is one of a series of free public "Concerts-on-the-Green," sponsored by the Windsor Recreation Department.

The program will include original songs, written by Miss Peck, and others from her first Columbia album "Extraordinary," as well as songs from her upcoming second album.

She Justs Wants to Be Alone

Lama doesn't hide under beds, or in closets, or bury her head between her paws during a thunderstorm. The five-year-old collie finds solace in the bathtub, with the shower curtain drawn. That's where the dog's owner, Mr. and Mrs. Louis Gerlach of 414 Hartford Rd., found her after she bounded away during a recent storm. And she wouldn't leave her place of refuge until the storm subsided, either; she really wasn't posing for this picture.

Bus Firm Plans Route to UConn

A hearing will be held at the office of the Public Utilities Commission in the State Office Building in Hartford Aug. 15 at 2 p.m., upon application of the Connecticut Co., Hartford, for authority to operate bus service to the University of Connecticut, Storrs.

One route will run from Hartford, commencing at the railroad station, to the University of Connecticut, Storrs, via Interstate 84, Rt. 6, Rt. 44A, and Conn. 195.

The other route will run from UConn, commencing at Gully Hall, Willimantic, to Hartford, via Interstate 84, Rt. 6, Rt. 44A, and Conn. 195.

Both bus routes will make trips along the same routes to and from UConn; however, the proposed service is restricted to prohibit the transportation of school passengers between Willimantic and Hartford.
