He was charged with violating the federal fire arms act which carries a maximum penalty of five years and a \$20,000 fine. Brown was charged with carrying a .30-caliber automatic rifle from New York to New Orleans and back again in a return flight here Friday.

'Inefficient' Charges Swapped in Mideast

(Continued from Page One)

Many voices have been raised in Israel against the refugees' return, and heavy pressure from the Israeli press and public on Prime Minister Levi Eshkol makes it unlikely that Eshkol will extend the Aug. 31 deadline.

Burdened by economic losses from the war, however, Jordan simply cannot care for the thousands of refugees.

The semi-official Cairo newspaper Al-Ahram reported that the conference of Arab ministers of economy in Baghdad, Iraq, discussed on Friday the issue of the "gradual nationalization of the petroleum industry in the Arab world." That seemed a

far cry from earlier demands in Iraq and Algerian resolutions for prompt nationalization of American, British and West German oil interests in Arab lands.

Al-Ahram quoted the Iraqi minister of economy, who presides over the conference, as saying it would wind up Sunday by issuing an "important statement." But he indicated the recommendations of the conference would be kept secret.

Soviet warships deployed at Alexandria, Egypt, since July 10 have departed. Al-Ahram also reported. But the paper said eight Soviet ships, including a missile carrier, remain at Port Said.

China Army In Rebellion Near Canton

(Continued from Page One)

sources reported Friday that severe fighting between Maoist and anti-Maoists was going on in Canton.

Enemies of Mao were winning a battle of tanks and artillery in Chungking, China's wartime capital in Szechwan Province, the Nationalist Chinese said in Taipei.

Radio Moscow spoke of armed clashes in Yunnan, a southwest province, but gave no details.

Peking, meanwhile, broadcast a story Friday saying "Red Guards are wresting back all political power usurped by China's 'Khurshchev' (President Liu Shao-chi) in order to keep their socialist country secure in the hands of the proletariat for generations to come." The broadcast told of Red Guard rallies in Peking and other large Chinese cities.

FLATTENED BY A FANG COLUMBIA, S.C. (AP)—A South Carolina Air National Guardsman pulled a white needle-shaped object from a tire that went flat on his car near an Air National Guard base, and a biologist at the University of South Carolina identified it as the fang of either a rattlesnake or a moccasin.

FRIST DAY BOUNTY CHESTER, Pa. (AP)—On the first day of its offering 10 cents per rat tail in a move to curb the city's rat population, Chester paid out only 80 cents, all to Johnny Froggatt, 12, who said he had caught the eight rats in a trap baited with bacon grease and stale bread.

PRIDE IN HER WORK HOLLYWOOD (AP)—Betty Rowland, a veteran stripper, says she is proud of a permit given to her by the sheriff's office that allows her to appear as a topless dancer. She said, "I think it's terrible the way some girls who don't know a bump from a grind have been billing themselves as dancers."

May Seek Injunction

The Manchester Police Association may seek an injunction to stop the police promotion test over which it is having a row with town officials.

Patrolman Richard Thurston, secretary-treasurer of the MPA, said the feeling on promotion specifications disagreement "is very strong and not just a minor difference in opinion."

Thurston said that his of this morning, Town Manager Robert Weiss "made no offer on charges in the specifications."

Referring to a meeting held Thursday with Weiss and his assistant, John Harkins, Thurston said the town manager never indicated he would go along with a 45-45-10 division of points on qualification.

Thurston said, "there was no mention of any changes to be made except that Weiss said a clarification of the 10 per cent regarding experience and training may be made."

The specifications, as drawn, give a 50 per cent score for an oral examination, 40 per cent for a written examination, and 10 per cent for experience and training.

Weiss said yesterday that he would go along with a change to a 45-45-10 per cent scoring plan.

Several promotions are due to come up soon in the Police Department, and the MPA, which includes over 30 policemen, is objecting to the promotion specifications, particularly where promotion to sergeant is concerned.

Applications are now open for tests for lieutenant, sergeant and detective. The acceptance of applications will close on Sept. 1. Thurston said that Harkins indicated the tests are scheduled to be given in September.

If a temporary injunction is sought the tests could be held up indefinitely, an MPA member said.

Thurston said that official legal counsel has not been obtained in the matter, though Atty. John O'Connor did attend the Thursday meeting and did represent the Association "in an unofficial capacity."

The Association in the past has not been happy with promotion qualifications for policemen, but a stand such as this one has not been taken before and no concrete changes were made.

One of the major objections of the Association is that the exam specifications have been prepared by Harkins on recommendation of Police Chief James Reardon and approved by the town manager.

The association members said that this is not in keeping with the town's personnel rule which states that the specifications be prepared by the town controller.

The association members object to the "bypassing" of town Controller Joseph Clementino for preparation of the exam specifications.

Weiss, yesterday, called attention to the wording of the town's personnel rules, under the sub-title "Classification."

It states, "The general manager shall be responsible for developing standards of selection of qualified individuals... to ascertain the fitness of applicants."

The next paragraph, under the same sub-title, reads, "The controller shall establish and maintain a complete set of specifications for all classes of positions in the competitive classified service."

In Louisiana Negroes, KKK Poised For Rights Rallies

(Continued from Page One)

ish. Traffic was detoured around the march. The Negroes, marching to dramatize their claim of job discrimination in Bogalusa, walked two abreast along the highway, almost hidden by the protective wall around them.

Guardmen in battle dress, with bayonets affixed to their rifles, marched three abreast on each side of them. State troopers, armed with submachine guns, walked single file along the highway shoulders. Mounted police clattered in front and at the rear.

Helicopters, one of them bearing Gov. McKeithen, buzzed in the sunny skies overhead and military vehicles reconnoitered roads ahead and behind.

After ending the march for the day, the Negroes returned to Bogalusa in an old school bus and several cars.

In a statewide television broadcast two hours later, Gov. McKeithen called the march "silly, ridiculous and absurd,"

but emphasized that it was legal and therefore due protection. "The same force that protected them will be used to arrest them if and when they violate the law," he added.

The governor said the real test for the state will come Sunday, when both the Negroes and the KKK have scheduled additional rallies.

"I hope to make my position completely clear," said McKeithen. "When they start looting, pilfering and burning peoples' homes, there will be a few people killed real quick. Then the riot will be over."

"I think one of the greatest mistakes made in Detroit was putting those poor National Guardsmen out there at parade rest," he added.

Both Sunday rallies are scheduled at the 34-story capitol building, built 85 years ago by Huey P. Long. The Klan rally will follow the Negro rally, which features H. Rap Brown, the militant Black Power advocate, as its principal speaker.

Police Believe Litrico Drank Cleaning Solvent

State Police believe Carmelo Litrico drank a commercial solvent mixed with olive oil after he stabbed his wife Thursday and died on his front lawn.

South Windsor Resident Trooper Ronald Jacobsen said today two different kinds of cleaning solvents were discovered in the home, but neither state laboratory officials nor police have determined which one he drank, if either.

Autopsy results still are being studied, he said. The 55-year-old father of three collapsed and died after slashing his wife, Elizabeth, several times. She was discovered lying on a neighbor's lawn where she ran after fleeing her house. A Manchester Memorial Hospital official said today she remains in satisfactory condition.

A motive for the suicide and attempted murder has not been determined, but police said the couple had a history of arguments. Both state police and town constables had been called to the home at 153 Northview Dr. several times during the past months, they said.

It was the second marriage for both. They were married four years ago. Mrs. Litrico was a divorcee, and Litrico, a widower with three children. His first wife died of cancer.

Litrico, a heat treater at Pratt & Whitney division of United Aircraft Corp. in East Hartford, was born in Italy. He lived in Manchester most of his life, moving to South Windsor about a year ago.

He was a World War II Army veteran. Besides his wife, he leaves two sons, David Litrico, in the Navy and Ronald Litrico, at home; a daughter, Carole Litrico, also at home and two brothers, Dominic Litrico of Manchester and Peter Litrico of Italy.

Military funeral services will be at 10 a.m. Monday at the W. P. Quish Funeral Home, 225 Main St., Manchester. Burial will be in East Cemetery, Manchester. Friends may call at the funeral home Sunday from 2 to 4 and 7 to 9 p.m.

HARTFORD (AP)—The state's new crime commission has received \$24,746 from Washington to help finance its operations.

Gov. John Dempsey formed the State Planning Committee on Criminal Administration in February to coordinate planning with President Johnson's Commission on Law Enforcement and Administration of Justice.

Dempsey used \$10,000 from his contingency fund to establish the 21-member commission. The federal grant announced Friday is expected to be matched by the state.

Purposes of the commission, as outlined in February, were to understand and define the crime problem, to increase assistance to law enforcement officers, to develop a more efficient and equitable system of criminal justice, to improve prisoner rehabilitation and to propose social reform programs to combat crime.

The nucleus of the crime commission is the Special Committee on Gambling.

Co-chairmen of the new commission are retired Supreme Court Justice Samuel Mellis, formerly chairman of the gambling committee, and Supreme Court Justice John P. Cotter, chief administrative officer of the state courts.

# Busy, Busy, Busy

By CYNTHIA LOWRY  
**HOLLYWOOD (AP)** — This entertainment capital in mid-summer is like the rest of the nation between Thanksgiving and Christmas: furiously busy. Studios and staffs are working overtime to gift wrap their television productions to be viewed by audiences from Labor Day on.

Seventy-nine shows are in production, including 25 new series on the three major networks' evening schedules.

Stars and stars-to-be arise at 5:30 a.m. to work long weekdays at the studio, then fly off for exhausting weekends in spots as distant as Washington, D.C., submitting to interviews and posing for pictures—all to publicize their shows.

The networks already are selling new shows and survivors from other seasons during breaks in summer reruns.

As usual at this time of year, network game and conversation shows, from NBC's morning "Today" to ABC's late "Joey Bishop Show" are being visited on network orders-by performers plugging their upcoming shows.

Studio and network press agents are concentrating on angles for stories, distributing pictures of their stars and attempting to convince skeptical newspaper and magazine writers that September will produce the most exciting collection of hits since Milton Berle ruled the airwaves.

Last year, the trade magazine "Broadcasting" estimated that all this promotional activity cost the networks more than \$3 million-exclusive of more millions in air time. This year it could be even more expensive.

Stuart Whitman stars as U.S. marshal of a territory in the Old West, in "Cimarron Strip," a new

90 minute adventure series on Thursdays that CBS will televise starting Sept. 7.

At base, however, the drum beating seems perfunctory and forced. A look at the schedules indicates there will be the usual assortment of new shows—several Westerns, a few variety shows, a lot of action-adventure shows and a handful of half-hour comedy programs.

No big star names have come into television this season—neither Carol Burnett nor Jerry Lewis, who will star in variety shows on CBS and NBC respectively, is a television novice.

The season's excitement is expected to emerge through its "specials." ABC is publicizing its year as a "very special season," and NBC is doing a lot of talking about "event television."

Specials this season will number 125 to 300, depending on the definition of a special. They range from a Hall of Fame production of "Elizabeth the Queen" to assorted documentaries on San Francisco's hippies.

And two-hour feature motion pictures will be rerun in prime evening time six nights a week.

They will include some vintage blockbusters like "The King and I" and some recent successes like "A Hard Day's Night" and "Ship of Fools."

For the next month this reporter will be looking over the product of the dream factories, talking to producers, writers and performers, trying to spot trends, promising plots and personalities.

## Fred MacMurray: Changes in the Family

By FRED MACMURRAY  
**EDITOR'S Note:**—Fred MacMurray, after a film career that goes back to 1935, took the leap into television in 1960 with a situation comedy, "My Three Sons," which turned immediately into a long-running CBS hit. Working with a blue-print that requires his presence in the television studios at only portions of the working year, MacMurray is able to continue his very successful motion picture work.

**HOLLYWOOD (AP)** — As long as I can recall, I've found it difficult to say anything that I considered important or new-

sworthy. I am not profound. I am no philosopher. Knowing this I have shied away from interviews whenever possible because whatever I might say I have said many times before.

But when I was asked to write this column, I realized that at last I do have something to say that might be considered news to fans of our CBS television network show, "My Three Sons." So here I am at the typewriter.

For seven years our television family has been comfortably ensconced in its home "some-where in the Midwest" at 519 Maple Ave. Only three changes

were made in all that time: 1. When the late William Frawley—who played Bub—became ill, we substituted William Demarest as Bub's brother, Uncle Charley. It became obvious that Bill was going to have an exceedingly long convalescence, so Uncle Charley continued on,

handling Bub's chores around the house as chief cook and grumbler.

2. The oldest of the three sons, Mike—Tim Considine—grew to an age that called for his marriage, like any normal, red-blooded American boy, so Mike married and left the

homestead. He was replaced by our adopting Ernie, the kid down the street, who actually is Stanley (Chip) Livingston's brother, Barry Livingston. Ernie moved in, and our kids were once again in the same age bracket as when we started the series in 1960.

3. When we started filming in color last year, the family splurged, and we replaced our old, worn-out furniture with

## To the Fun Wars

**HOLLYWOOD (AP)** — Those bone-tired, dirty, unshaven infantrymen of ABC's long running "Combat" who have been crawling through mud and wiping out nests of Germans so realistically will march off the network screen at the end of the month. They'll be succeeded by a jolly band of superfighters of the television fun wars.

The new series is called "Garrison's Gorillas," and centers on the exploits of four convicted criminals—a con man, a thief, a killer and a card shark—serving as a sort of special Allied commando group of World War II.

The format resembles the plot of a new film, "The Dirty Dozen," and has some kinship with "Mission: Impossible," and last season's ill-starred "Jericho."

Generally speaking, war stories built around more or less contemporary conflict have not been overwhelmingly successful in television. Even some good shows like "Convoy" and

"Wackiest Ship in the Army"—rarely lasted more

## Sebastian Cabot Likes Little Cars

NEW YORK — When he squeezes his 250-odd pounds into his new cranberry-red two-seater, there's no doubt about who is Hollywood's biggest sportscar fan.

It has to be Sebastian Cabot, whose urbane exterior conceals an ancient passion for the insolence of the unsilenced internal combustion engine.

No one is likely to catch the impeccable Cabot in grease-stained overalls. But the co-star of "Family Affair," which launches its second season in color Sept. 11 on CBS, admits he more than knows his way around amongst the esoteric in-

nards of the racing car.

Within a week of getting delivery of his newest car, Cabot had put 2,000 miles on it and announced that it was performing "acceptably." That 2,000 miles included some high-speed test runs on desert roads.

His backyard and garage are currently crowded with a 1937 SS-100 Jaguar, a 1961 two-cylinder Lea-Francies (no longer made), a 1954 two-cylinder Citroen and a 1956 Bentley. He also has two late-model American cars, a sedan and a station wagon. At his Canadian summer home Cabot is restoring a 1937 Lagonda, a British car with a V-12 engine.

His latest acquisition is a red 1967 Jaguar XKE two-seater coupe with a special sliding sun roof.

"That two-seater is something of a misnomer," says Cabot cheerfully. "When I'm in the car, there's hardly room for anyone else."

Nevertheless his wife, Kay, went along on Cabot's first long break-in trip. She reports: "Sabby could hardly wait to get the first thousand miles on the car so he could open it up."

Cabot's love of cars goes back to his first job; at the age of 14, he worked in a big London garage as a mechanic's helper, but was fired six months later when he drove a customer's car through a wall. He was a cook for a time, then returned to motor mechanics as chauffeur to British actor Frank Pettin-

gill. This latter job opened a new career in the theater for him and Cabot turned actor. But he has never lost his interest in cars.

He finds automatic transmissions repellent, and his car is carefully attuned to strange small sounds that might be symptoms of engine trouble.

"I don't do any repairs myself," he says. "But I well know if the fellows at the garage know what they're about."

In fact, if it weren't for his 250 or more pounds, there's no doubt that Cabot would be happy to crawl under his cars himself for diagnosis and treatment of his beloved cars' ailments.

some that's new and somewhat more colorful.

And that was about it. But next year there'll be some changes made—plenty of them.

Most important, perhaps, the family will move from its fictional Midwestern location to California.

Henceforth, Steve Douglas—that's me—will have his headquarters in Los Angeles, logical enough, since that's the home of the aerospace and electronics industries in which he works.

Another change is a pretty drastic one for us. A woman is going to invade our home in the person of a pretty young wife of Robbie—Don Grady.

The imposition of a female on the peace and serenity of our all-male household is going to pose a lot of problems for us menfolk, and for her, too. From what I've come to know of Uncle Charley, he's going to be upset. His main claims to fame have been his kitchen, his mop and his vacuum cleaner, and he's not going to like a young girl trying to assume even a small part of his duties.
