

Manchester Evening Herald

Manchester—A City of Village Charm

The Weather

Rain late tonight, possibly mixing with snow at times. Low in mid 30s. Tomorrow clearing. High in 40s.

About Town

The annual MHS Alumnae Dinner, sponsored by the Student Council, will be held at the Manchester High School Cafeteria tonight from 7:30 to 10:30. Music will be provided by Joey and the Primos. Tickets will be sold at the door. An about town notice saying the dance would be held last night was incorrect.

No Herald Tomorrow

There will be no edition of The Herald tomorrow, Thanksgiving Day. Have a happy and safe holiday.

Club Scout Pack 2 of Second Congregational Church will meet Friday at 7:30 p.m. in Fellowship Hall of the church. Boys of Den 1 and 4 are reminded to bring cakes for a cake walk.

Miss Priscilla Gibson, director of the Priscilla Gibson School of Dance Arts, was guest teacher at the meeting of the Rhode Island Chapter of the National Association of Dance and Allied Artists Sunday in Providence, R.I. She taught classes in classical ballet and modern jazz.

The Manchester Country Club will have its annual dinner meeting Thursday, Nov. 30 at 8 p.m. A roast beef dinner will be served. Members may make their reservations with Victor Benetti, club manager.

Sgt. Robert Lannan of the Manchester Police Department, spoke about "General Police Work and Safety" last night at a meeting of the Washington School PTA at the school. Mrs. Madeline Watkins was chairman of the refreshment committee.

The Greater Hartford Home Economics Club will meet Tuesday at 7:30 p.m. at the home of Mrs. Blanche Virgin of Farmington. Members are reminded to bring their arts and crafts which will be shown, and also cookies for the cooky bank at the Greater Hartford Regional Center, Newington.

Airmen Michael T. Young, son of Mr. and Mrs. John F. Young of 9 Oak Pl., recently completed basic training at Lackland AFB, Tex. He is scheduled for court appearance on Dec. 4.

Seafood night planned for Friday night by the American Airift Command at Tinker AFB, Legion will be canceled because of Thanksgiving.

The woman, Thelma J. Carpe, is scheduled for court appearance on Dec. 4. Beatrice E. Troutman of 28 Cooper St. told police that a car rolled backward into the car she was driving at W. 35th St. and Main St. yesterday, and put two small dogs on the headlights of the car. The woman came to headquarters to report the mishap and told police the other car did not stop.

Police Report Minor Mishaps

An East Hartford woman was charged with evading responsibility Monday night after the license plate to her car was found at a damaged parking sign and pole on E. Center St. Sunday.

The woman, Thelma J. Carpe, is scheduled for court appearance on Dec. 4.

Beatrice E. Troutman of 28 Cooper St. told police that a car rolled backward into the car she was driving at W. 35th St. and Main St. yesterday, and put two small dogs on the headlights of the car. The woman came to headquarters to report the mishap and told police the other car did not stop.

A car driven by Henry Botello, 78, of 24 Russell St., hit a car driven by Ronald P. Newman, 19, of Coventry in the parking lot at the Burra Corner Shopping Center yesterday at 2:20 p.m. Police say visibility of both drivers was blocked by parked cars and that minor damage was done to both vehicles.

John Leget reported from Ft. Kham, 100 miles inland to the north, that U.S. infantrymen reported killing 118 Communist soldiers in two battles with heavy casualties. The first battle was on Oct. 20, when the Viet Cong attacked near Saigon and with entrenched positions. The second battle was on Oct. 21, when the Viet Cong attacked near Quang Nhon on the central coast. The Viet Cong lost 100 men in the battle.

**200 Attend Service by 4 Churches**

In spite of the unpleasant weather Wednesday evening almost 200 persons turned out for the sixth annual Community Thanksgiving Service, held this year at St. George's Episcopal Church.

The Governor's Thanksgiving Proclamation was read by the Rev. J. Stanton Conover of Bolton. The service was given by the Rev. J. Stanton Conover of Bolton, Congregational Church. Members of the host choir and the Methodist choir sang.

Refreshments were served in the parish hall after the service. The Rev. J. Stanton Conover of Bolton presided.

Members of the Bolton fire department were probably about to sit down to Thanksgiving dinner yesterday afternoon when the alarm called them to about 1:15, to a house fire on Colonial Rd. The house, owned by Charles Chavelier, is owned by the Philip Hathaway family.

There was considerable smoke damage to the house. The family cat was lost, and the dog was overcome by smoke but survived, according to firemen, who returned to their quarters at about 3:30.

School Menu Monday, spaghetti on roll, carrot sticks, peas, chocolate pudding; Tuesday, macaroni and fricassée, corn, green beans, fruit salad; Wednesday, corn chowder, stuffed cheese sandwich, apple crisp; Thursday, meat loaf, mashed potatoes, pickled beets, applesauce, cookies; Friday, fish sticks, potato chips, cabbage salad, raisin in apple cake.

Ballistic Board The Board of Education and the Public Building Commission will meet together Monday at 8 p.m. at the high school to go over specifications for the new elementary school.

Nursing care to patients ill at home and health guidance continues to be the top priority of the Rockville Public Health Nurses, according to the report issued by supervisor Ruth Hoyt.

**Today In History**  
**Referendum Set Monday**

A special referendum to be held Monday from 8 a.m. to 8 p.m. will ask approval of appropriations totaling \$235,000. One amount to be approved is \$100,000 for purchase of land for an industrial park for the town. The area, located on Bolton Rd. just north of the Wilbur Cross Parkway, contains about 47 acres.

The purchase of the land, which will be the town's first of industrial land, has been authorized by the Board of Representatives, both town committees and the Vernon Young Democrats.

The other amount to be approved, \$135,000, is for correction of a drainage problem in the Burke Rd. area. It will also include the construction of a retention basin.

The Burke Rd. drainage project has been approved by the board and the two town committees.

Rolling places will be at the Memorial Building, Park Place and the Vernon Elementary School, Rt. 20.

West's lead is obviously from a short suit. If West has led from a doubleton you want him to lead his other suit immediately. You will get in with the first round of trumps and lead a third spade to give your partner a ruffing trick.

Partner opens with one spade, and the next player passes. You hold spades, Q-10-8. Hearty's bid.

**Shinwold on Bridge**

NEW BOOK ON PLAY TEACHES VERY WELL BY ALFRED SHEINWOLD A good point is made in today's hand, taken from Edwin Kantar's new "Complete Manual of Play." This will surprise bridge players in Southern California, who know Kantar as a fine player, writer and teacher.

Opening Lead — ace of spades. You hold the East cards and listen to the opponents bid their way to four hearts. Your partner opens the ace of spades, and you look at the dummy with great interest because it tells you how to defeat the contract.

Now you turn your attention back to the first trick; or perhaps you have already played the dummy of spades to tell your partner that you have no high card in the suit.

If you have done so, you have raised the defense. Your dummy of spades will ask your partner to switch to a different suit—and this will give declarer his contract.

Short Suit West's lead is obviously from a short suit. If West has led from a doubleton you want him to lead his other suit immediately.

Partner opens with one spade, and the next player passes. You hold spades, Q-10-8. Hearty's bid.

**Report Cites Expansion of Nursing Care**

Nursing care to patients ill at home and health guidance continues to be the top priority of the Rockville Public Health Nurses, according to the report issued by supervisor Ruth Hoyt.

The report for October, issued by Miss Hoyt, reflects the increased expansion of the nursing program in the area. Visits to the homes to treat the ill are about half a nurse's time with the remainder of the time spent in health guidance, Miss Hoyt said.

Besides their regular program the nurses worked with other community groups during the month of October. These included meetings on the elderly program, talking with the clergy and assisting with the pre-schooler visit.

Of the 1,314 visits made in October, 264 were for the purpose of giving bedside care and treatments and 942 for health and guidance.

Divided into areas, calls were made as follows: 748 in Vernon, 229 in Ellington, 131 in Somers and 10 in Tolland. There were 41 new babies admitted to the service.

The first immunization clinic, held in the fall for infants and pre-schoolers with Dr. Joseph Krizan in charge, had an attendance of 86.

All the clinic 58 diphtheria shots were given, 21 smallpox vaccinations and 35 measles vaccinations. Volunteer aides assisted the nurses.

In Ellington, where the association supplies school nursing, the Time Center for tuberculosis was completed last month and home visits in relation to the school health problem were made by both of the Ellington public health nurses.

**Stock Market Declines in Active Trade**

NEW YORK (AP) — Gold mining stocks were strong early in the afternoon while the overall stock market declined in active trading.

The Dow Jones industrial average at noon was off 1.68 at 872.34, paring its earlier decline.

Losses outnumbered gains by about 2 to 1 on the New York Stock Exchange.

A rush for gold in the world's bullion markets constituted a major factor in the value of the dollar in foreign exchange, it was reported, and led to enthusiastic buying of gold mining stocks which were already strengthened by Britain's devaluation of the pound sterling.

Glannon stocks were sharp losers on the Big Board. The roster of blue chips, however, gave ground grudgingly. Some of the notorious metal stocks aside from the gold-mining issues, showed strength.

The Associated Press average of 80 stocks at noon was off 8 at 813.1 with industrials off 1.6, rails unchanged and utilities up 2.

Benquet, the Philippine gold miner and a low-price speculative issue, paced the market on volume, adding a fraction.

The leading steel, motor and rubber held their losses to fractions.

**Bridgeport Set to Lead 7-City Housing Program**

BRIDGEPORT (AP)—Bridgeport is scheduled to lead off immediately in a seven-city "action program" designed to create low and moderate income housing.

Hartford, New Britain, New Haven, Waterbury, Stamford and Norwich are following Bridgeport's "pilot" lead early next year, Gov. John Dempsey announced Wednesday.

The state program, which will draw on \$40 million budgeted for a variety of projects, it allowed "to make our state Department of Community Affairs an agent to unite individuals, organizations and governments at all levels in the coordinated effort to provide needed housing."

The governor also noted that the insurance industry has offered to help finance urban housing.

The exact amount of money involved in the program cannot yet be estimated, according to Leroy Jones, community affairs commissioner.

"Seed money" to aid nonprofit organizations to pay land option and architects' fees for initial stages of the program will be provided by the new state department, Jones said, with the hope that the funding can be returned as the construction projects gain momentum.

State grants for tax abatement programs in housing will be offered to cities which agree to reduce taxes on low and moderate income housing.

Property owners would also be required under the program, Jones said.

**On Uninsured Drivers**  
**State Insurance Panel Kicks Off Legal Action**

HARTFORD (AP)—Legal machinery has been set in motion by the State Insurance Department aimed at requiring Compulsory Motorists to protect themselves against uninsured drivers.

An uninsured motorist provision would give a driver, who pays an extra premium, the opportunity to collect damages from his own insurance company if he is hurt in an accident with a motorist who has no insurance. The provision does not affect property damage, however.

Other estimates that 85 to 90 percent of the one million cars in Connecticut are insured, and that a substantial number already have uninsured motorist protection, the major change

will start the semi-formal dinner dance at 7 p.m. Dinner will be served at 8 and dancing will be from 9 to 1 to the music of Al Jarvis and his orchestra.

Christmas Dance The Ladies Guild of St. Margaret Mary's Church will hold its annual raffle and Christmas Dance Dec. 9 at the Church Hall, Danbury, from 9 p.m. to 11 a.m.

### A Woman in Business Must Get Along with Men

By VIVIAN BROWN  
AP Newsfeature Writer

A woman in business must be five times as good as a man to get credit for doing a job, says Brooklyn-born Tille Lewis, whose business success sprouted from four bags of tomato seed.

Tille, whose 30 year love affair with Pomodoro, the pear-shaped tomato, made her the world's largest independent processor of tomatoes.

But she couldn't have done it without men, she is hasty to point out. They're the pillars of a woman's strength, and women need to cultivate the art of getting along with men if they would make a success of business.

"If a woman is put in the position of supervising men, she must be sure she can communicate so that they understand what it is she wants done."

"She must point out that women shouldn't give orders to men. They should make suggestions and let the suggestions become the men's ideas. What have you got to lose if you are the boss?"

Anyway, that's the way Tille operated to become a big wheel in the food industry.

mate, water, sun were against her, she was told.

But Tille had faith in American ingenuity to do anything anyone else could do.

In 1934, she was on her way to Italy to look at the problem, and luckily on shipboard met an Italian tomato exporter. He was worried about new U.S. tariffs and became eager to help her with the American experiment. He supplied the four bags of San Marzano tomato seed that put her in business along with \$10,000 in cash. He also threw in some old equipment from his cannery.

There were plenty of obstacles with stubborn truck farmers and boiler failures in the San Joaquin Valley where she began growing the tomatoes. She wore shoes thin as paper while wholemeat grocers help in accepting her first year's efforts but, last year sales of the 77 products came to \$46 million.

In 1941, she hired Meyer Lewin, who had come to the plant originally to organize workers into a union. He became manager of the plant, and seven years later Tille Ehrlich married him.

That way she has her tomatoes and the money, too. Mulling over her success formula, she decided that it really boiled down to esprit de corps.

In 1941, she hired Meyer Lewin, who had come to the plant originally to organize workers into a union. He became manager of the plant, and seven years later Tille Ehrlich married him.

At 16, Tille Ehrlich had a close association with a Brooklyn grocery store where she was always intrigued by the shelves of Italian tomatoes. Why couldn't they be grown here, she thought nagged her. All the existing growers at Brooklyn's Botanical Gardens, truck farmers, food experts were to advise her if it couldn't be done. Sail, cil-

### Modern Fabrics Bring Back The Filmy Romantic Look

By JEAN SPRAIN WILSON  
AP Fashion Editor

NEW YORK (AP) — It's always fun, but it is practical to be romantic — in your fashion, that is.

It is an irony of sorts that styles from the days of yore were so much more romantic than some of the no-nonsense fashions created for the active women of today. And yet romance itself was merely a dalliance to be ignored when the practical matters of matching mates were concerned.

Now arranged marriages are out of style and romance is in. Women look for the true love that will give them happiness ever after, or at least until that love dims and another glow. Ideally, that lady with a gleam in her eye is softly feminine in ruffles, pleats and bows. The furrows are fun in an age when there is plenty of cheap demure to do the slaving over a steamy iron, pressing in pleats and ruffing up ruffles.

But are these things practical, however romantic, when it is necessary to be one's own wardrobe mistress? No wonder modern fashion was so slow at adapting some of the prettiest clothes of the past.

Ah, but this story has a happy ending. The textile industry, the

romantic tale, has come to rescue the contemporary dame in distress. It has come up with wily materials that are eye-catching (at least to the male), and sensuous to touch and luxurious to wear.

This impractical-looking romantic look for daytime has carried through to bedtime. Goodness knows a woman who has already fettered her man with her romantically fetching clothes does not wish to lapse disillusioningly into practical sleeping shoes or flannel socks.

Too, the girl without a husband enjoys the filmy, yet even that will give them happiness for the chamber. At least the solitary lady gains some solace in her knowledge that a lack of femininity is not why she is as yet unwed. So be it.

So it is that any girl can curl up in nighties or pajamas of the period of the thirties, soft and silky, ribbed with satin, pleated and repeated.

Who wishes it? She does. She doeses her lovely lingerie ever so gently in the lobby side. Who loves it? Nobody does. The magical brownies of chemistry have scrawged to keep it in drip-dry beautiful condition for ever after the way all magical stories go.

### Hairpieces Fashionable

## What Did You Do Before the Fall?

By VIVIAN BROWN  
AP Newsfeature Writer

The greatest beauty coup of our age may be that hair pieces have become fashionable.

Blonde doesn't seem to mind a bit. The fashion is a boon to bald and balding women who suffer untold embarrassment. It makes ladies out of hoidens, and older women can take years of their appearance wearing one of these crowning glories.

You can become unscathed or a femme fatale in an instant with hairpieces. New ideas observed in a catalog (Joseph Marshall's) include sleep-wigs, designed to be draped over a pillow and a Lady Godiva fall that is 42 inches long.

The only thing necessary is to develop the knack of putting the hairpieces on your head. But somehow no matter how you attach one, it can't look messier than the way your own hair of ten looks. Few people suspect for that reason. And there are 19 colors that will blend in with your own hair if you must absolutely be deceptive.

Fashion models who wear pulled it back over the fall and then wound the fall around the front of the head where hair is made into one large pin curl. The fall is then pinned to the large pin curl on top. The front of a huli unuly occurs when a ship is in harbor.

Heather Hewitt attaches a Joseph Marshall "filig" to pin curl at top of head (1). Then she pulls front hair back over fall and attaches with rubber band (2). She winds fall around ponytail and lets hair hang in place (3).

Each section is braided of hair and comb in opposite direction.) The hair is then gently combed over the fall, creating a natural looking front hair line. Side curls are removed and hair is tucked behind the ear.

Barnacles cannot attach themselves to objects moving more than two knots, so foaling the fall is then planned to the large pin curl on top. The front of a huli unuly occurs when a ship is in harbor.

separates fall into two sections and braids each, looping to sides of head (3).

### Meeting Listed By Great Books

The Great Books Discussion Group will meet Wednesday at 8 p.m. at the home of Dr. and Mrs. Walter Schardt, 31 Easthead Dr. New members may join at any meeting. The group is beginning its 17th year. Plans for the year will be formulated and the following Bible selections will be discussed: 2 Kings, chapters 18 and 19; 2 Chron., chapters 32, verses 1 to 23; Job, chapters 34 and 37. "The Destruction of Sennacherib," by Lord Byron will also be discussed.

Each meeting of the group is an evening in itself. Meetings are usually held on the fourth Wednesday of each month at Whitson Library.

More Return MADRID—In 1966, for the first time since 1900, the Spanish emigrants who returned to Spain from European countries —131,700—exceeded the number of those who emigrated.

AD ON INDIA RADIO BOMBAY, India (AP) — Commercial advertising came to All India Radio, the government network, on Nov. 1, 1967. The first commercial advertised and caloused that if his men town's 20 main problems, the undermined the walls the city population is 9,700.

By ED BLANCHIE  
AP Newsfeature Writer

TEL AVIV (AP) — Joshua cheated. The walls of Biblical Jericho came tumbling down after he blew his trumpet all right—but he'd undermined them first.

That's what Dr. Jacob Feld, a New York consultant engineer on the causes of structural failure, thinks.

Feld found signs the foundations had been dug away when he first studied the walls of Jericho in 1931 during an excavation of the site.

"The lower stones, which must have been the foundations of the walls, were slipped downward and outward; as though someone had undermined the wall from the outside," Feld said during a recent visit here.

"It was obvious someone had removed the earth under these stones from the outside of the wall."

What probably happened, he believes, is that Joshua—leading an army of Israelites against the Philistines—sneaked by guessed that storming the walls would be costly and Anger is contradicted in a poll of citizens. He must have had some knowledge of soil mechanics town congestion first among the and caloused that if his men town's 20 main problems, the undermined the walls the city population is 9,700.

Congestion a Worry WOODSTOCK, Ill. — The opinion that traffic and congestion annoy only the residents of New York and Los Angeles is contradicted in a poll of citizens. He must have had some knowledge of soil mechanics town congestion first among the and caloused that if his men town's 20 main problems, the undermined the walls the city population is 9,700.

On the seventh day when everything was ready, the Israelite got all his priests to blow their horns together extra loud seven times while his men "gave a great shout." And down came the precariously balanced walls.

But, Feld adds: "This theory doesn't rule out the religious view that the event was an act of God. The Almighty may have worked through Joshua whom he directed."

Well, however Joshua did it, it made a great song.

### Oil-Rich Long Beach Buys Posh Liner

**By RALPH EIGHTON**  
Associated Press Writer

**LONG BEACH, Calif. (AP)**—The liner Queen Mary, one of man's grandest creations, takes up residence Dec. 9 in a town whose main distinction once was its abundance of migrants from the Corn Belt.

But things have changed in this now-swinging city and the Queen's new home will be in a setting perhaps unrivaled in major world ports:

A curving strand studded with striking high-rise apartment and office buildings, a spanking new sports arena, a convention center, a \$20-million sports-plex pier to be anchored by a new oceanographic center; a \$110-million commercial harbor, a new \$25-million, 5,000-seat marina designed to make Long Beach the "Rivers of the MORE MORE."

Just offshore are stunningly landscaped artificial islands that cunningly conceal wells that tap the stuff that made it all possible: oil.

An ocean of oil-estimated at two billion barrels.

Long Beach already has reaped \$200 million from it, and expects at least that much more,

### At 80, He Thinks About College

**By DICK CHOQUETTE**  
Farrington Times Writer

**FARRINGTON, N.H. (AP)**—Now that Leroy James Chandley has his high school records straightened out, he's thinking about going on to college.

He's 80 years old.

Eight years ago, as an experiment, Long Beach started jumping sea water under ground to replace the extracted oil. It worked. This year, 1.4 billion barrels of sea water later, officials said the subsidence had stopped.

By contrast, Long Beach and the state receive 85 per cent of net profit from oil wells; oil companies get 4.4 per cent. The state so far has realized more than \$1 billion, the city about \$200 million, and each expects greater profits before the pool under the bay is depleted.

Despite this wealth, virtually all of the improvements Long Beach has built with oil money were designed to return a profit eventually.

Harry Fulton, oil expert in the city manager's office, says "we are trying to protect against the day when tide lands money is exhausted. Long Beach has over-looked two major disasters—an earthquake that killed more than 100 persons in 1883 and the subsidence later—and no one knows what might lie in the future."

### Poetry Records Give Both Old and New

**By MARY CAMPBELL**  
AP Newsfeatures Writer

**POOD** with two new poetry releases, one from Carl Sandburg, one from new poet, we felt the way we do when we set out to listen to Aaron Copland's "Appalachian Spring" and some 1967 electronic music—appreciative of the former and uncomfortable with the latter.

But we were pleasantly surprised—by thoroughly enjoying them both.

Chandler has released his eighth Sandburg album, "Carl Sandburg Reads his 'The People, You'." It is a word, fascinating, it's a two-LP set, recorded in 1963 and '62.

The Walt Whitman influence on this poem is obvious, but "The People, You" doesn't sly and Whitman sometimes does. "The People, You" obviously was written in another time, but it isn't dated. Its theme is people, not an era, and Sandburg's insights into people are still valid.

Not the least of this album is Sandburg's voice. After you have heard Sandburg a few times on record you can even read his poetry and sense his unusual phrasing and intonations.

"Today's Poets, Their Poems"

### Ed, the Ames Brother Is Back in '67 Style

**By MARY CAMPBELL**  
AP Newsfeatures Writer

If you're old enough, you remember Ed Ames as the lead singer with the Ames Brothers. If you're interested in 1967, then this is the year that Ed Ames is sure to make more money as a solo performer than the Ames Brothers did in all their eight years together.

The Ames Brothers broke up in 1960, the other three brothers going out of show business and Ed Ames going into acting, appearing in several off-Broadway and Broadway plays.

In 1964 he got the part of the greatest Indian, Mingo, on the Daniel Boone TV series, and he went on the Tonight Show to promote the series. Johnny Carson asked him to sing; he sang "Try To Remember" which he had sung in off-Broadway's "The Fantastick." Carson invited him back to sing four more nights; RCA Victor gave him a recording contract.

With his first album, songs from musical comedies called "Opening Night with Ed Ames," and the big single from it, "Try To Remember," Ames was back as a singer.

So now he both acts and sings. One area helps the other.

"This is the season of the tube" for me," Ames says, "the series, six variety shows and three specials."

But he's also keeping up with the music business. He and his wife and three children moved to Los Angeles from New Jersey (Ames was born in Boston) because of the TV series. An Ames drives around the city he listens to "top 40" stations.

He performs at concerts and this year, since his taping of the Daniel Boone Show has been compressed into 12 weeks, he has sung in night clubs—the Century Plaza in Los Angeles, Flamm's in Reno, the Persian Room in New York and the Fairmont in San Francisco.

Asked about his aim as a singer, Ames responds almost angrily, with what his aim is not:

"I won't be a salesman for narcotic drugs. That's the shame of the business. Its appeal is not an unconscious one. The record makers know that young minds are very susceptible. They go in and pitch, knowing what they're doing. If unusual choices of songs, Ames says: "Only one is pop. There's a spiritual with a Negro choir, a capella, and some very powerful arrangements. I feel it is one of the best albums I've ever done."

### Grease Fire Follows Vent To Roof of Restaurant

A grease fire at Dec's Drive In Restaurant at 462 Center St. Clantis, and an employee were jumped from the deep fry pans into the smoke ejector vent and caught the roof timbers on fire. The Town Fire Department put the fire out shortly after 10 this morning. "A few more minutes and it would have been much worse," a fire department official said. A worker at the place said that fire trucks were delayed because the call was routed to the 8th District Fire Department by mistake. The flame erupted in the deep fry grease pans behind the counter in the main section of the food service area. The flame was sucked into the vent by the smoke ejection system which sends the smoke through a wall, then the ceiling, and through the roof via a metal vent system. There was much fire at the grease pans themselves, a fire department official said, but no damage was done there since the immediate area is lined with metal. The official said that there was probably grease lodged in the vent near the roof, this caught fire and the fire ignited the roof timbers. Firemen chopped holes in the ceiling in a rear room to get at the flames, which left the inside part of the roof charred and black. Two holes were made in the roof to let the heat and smoke out. Deputy Fire Chief William Stratton said.

### State News Roundup

(Continued from Page One) ducted a 24-hour search Thursday night for a 101-year-old woman who wandered off from a convalescent hospital. The search for Mrs. Julia Stone ended when she was found in a parked car. Mrs. Stone was reported missing from the Clinton Convalescent Center at about 5:45 p.m. "I don't want to be carried," she told firemen, who wanted to remove her from the car about 600 feet from the hospital.

**Pneumonia Seen Cause** NEW HAVEN (AP) — The death of 62-year-old Charles Regan on the first day of his one-year jail term in the abandonment of his five children has been attributed to pneumonia. An autopsy Wednesday disclosed the cause of death of the Milford man who was sentenced two days previously on a charge of cruelty to persons. Regan was found unconscious Tuesday in his cell at the New Haven State Jail and was pronounced dead at Yale-New Haven Hospital.

**Leaser Plea Permitted** HARTFORD (AP)—George J. Morin of East Hartford, originally accused of murder, has been permitted to plead to the lesser charge of manslaughter in the death of a 64-year-old woman. Morin, 27, and Joel G. Lebeck, 29, of Hartford, were charged with murder last month after Mrs. Mary Morris died in a hospital. Mrs. Morris was assaulted last March during a house robbery in West Hartford, where she worked as a maid. She remained unconscious until she died Oct. 26.

### Duplicate Bridge

Results in a special "Turkey Pairs" duplicate bridge game Wednesday night at the Italian American Club are Robert Stratton and James Krumholz, first; William McDonough and James Polites, second; Richard Pasternak and Robert Whitwell, third; Dennis Robinson and Rocky Norris, fourth; John Dugan and Henry Hrusak, fifth, and for Mrs. Claire Berube and Russell Bready, sixth.

### Engineers Pooling Talents For Anti-Submarine Plane

DALLAS (AP) — Engineers from Lockheed Aircraft are pooling talents toward creating a new airplane to hunt and destroy hostile submarines. Their aim is to bid for a government contract in a program for which Secretary of Defense Robert S. McNamara reportedly wants to spend \$3 billion in the next five years. The plane, named the VEX, would operate from carriers of the 35-year-old Essex class converted for its use. Commenting on the joint reports, McNamara said: "We teamed with Lockheed to make the ideal combination. Skills of the two companies and the past experience of each complements the other in such a project."

Firemen clean up some debris in the back room at Dec's Drive-In after a fire in the roof timbers. The ceiling holes were made to get to the flames. On the left, above the fireman's head, is the smoke exhaust vent through which the flames passed from the main cooking area to the roof.

### Mother Buries 'Son,' Identity Is Mistaken

(Continued from Page One)

unt mistakenly identified the body of Pfc. Quinn W. Tichenor, 25, of Louisville, Ky., as that of the Tennessee soldier.

The identity was not verified through a standard check of fingerprints by the Federal Bureau of Investigation, until Tichenor's body had been buried by Guinn's mother in services near here.

"I went through some other woman's grief," Mrs. Guinn said Thursday. "He (Tichenor) resembled John so much. I brought him home and kept him overnight. Now, another mother will have to go through this."

The Army said it "immediately" regrets this error and the resultant heartbreak caused the family of both soldiers. Tichenor's body is being disinterred and will be shipped to Louisville for reburial.

Tichenor's widow, Thelma, was notified in Louisville by a chaplain from Ft. Knox of Tichenor's death and mistaken burial. His parents, Mr. and Mrs. Samuel H. Tichenor, also live in Louisville.

Guinn, one of 19 children, was drafted last April and went to Vietnam as a member of Company A, 1st Battalion, 35th Infantry, 4th Infantry Division. Tichenor was in the 31st Regiment of the 4th Infantry.

Guinn's parents are divorced.

### Tourists See Deadly Snake Bite Handler

(Continued from Page One)

snaked from the venom of cobras, the green mambas, the coral snake and the Indian blue krait. Doctors inject such serum into horses, then bleed them to use their blood for snakebite remedy—but the horses usually die within two years.

After many of his snakebites—almost all of them suffered while taking venom daily from the snakes among the 700 reptiles at his serpent farm—Haas has refused medical attention because of his belief in his immunity.

Sometimes he has been near death, paralyzed, when rubbed to a hospital. After one bite by a king cobra Haas pulled the fangs from his arm, cleaned the snake's mouth so it would not suffer ill effects, and continued his work until the venom began to work.

His eyelids drooped and his knees went rabby. Breathing was difficult and he said sounds were tremendously magnified and colors wildly brilliant.

Total paralysis wrapped his legs and he could not speak or open his eyes. He arrived at a hospital stiff as a plank.

"One moment, I was fighting a breath like a drowning person," Haas said. "Then a great wave of relief swept over me, like the relief a body bests

### Thresher Total Climbs

PARIS — Some 14,000 harvester-threshers were sold in France last year, bringing the country's total to 124,000. France now ranks second — after West Germany — in the number of these farm machines in Western Europe. Also purchased in France last year were 85,000 power-driven cultivators, 43 per cent more than in 1965.

### SA to Dedicate Hartford Citadel

Col. Charles T. Mackenzie, Salvation Army field secretary for the Eastern States and former divisional commander for Southern New England, will officiate Monday at 10:30 a.m. at the cornerstone laying of the new Hartford Citadel at Washington and Jefferson stis.

The cornerstone bears the inscription "Dedicated to the Glory of God and Service to Humanity." It will contain a metal box with Salvation Army highlights and relics. The building has been under construction for nine months and is scheduled to be completed in January.

In the afternoon, Col. and Mrs. Mackenzie will address the officers of the division at the Divisional Headquarters, Hartford.

### State Laws Hit by NAACP Ruled Not Unconstitutional

HARTFORD (AP) — A three-judge federal court has decided that two state statutes challenged by the National Association for the Advancement of Colored People "are not unconstitutional on their face."

The decision came from the panel Wednesday as it turned down an NAACP bid to free a Negro jailed since Sept. 19 after a protest march.

The three-judge court denied the NAACP's bid to release Ronald Weaver, last to remain in jail of the demonstrators in Hartford's predominantly Negro North End.

Weaver was charged with violating statutes on inciting to riot and breach of the peace. The NAACP claimed both statutes are unconstitutional. Its attempt to free Weaver were under construction for nine months and is scheduled to be completed in January.

In its 11-page decision, the three-judge court said it has not decided "at this stage" whether it has the jurisdiction to enjoin prosecution of Weaver that allegedly has started in the state courts.

A nine-year-old Korean girl has been officially adopted by St. Matthew's Women's Guild through the Foster Parents Plan, Inc. of New York City.

Radioed SOS Earlier Yacht Sorrento Safe, Sailing to Bermuda

NEW YORK (AP) — A two-masted charter yacht, which had radioed an SOS in the North Atlantic, was reported safe today and sailing toward Bermuda with her crew of six.

Area Parley Set By Baha'i Youth

Baha'i youth of the northeast area between the ages of 15 to 25, and their friends, will have a weekend conference today and tomorrow at Mott's Community Hall.

The local Women's Guild will provide a monthly meeting for the family for two meals a week. The Foster Parents organization is assisting with the adoption.

The yacht Sorrento, which was reported safe today, is sailing toward Bermuda with her crew of six. The Coast Guard plane returned to its Elizabeth City, N.C. base.

The Baha'is are located in every country and territory in the world. Their precepts according to a spokesman for the group include the unity of the prophets, the oneness of mankind, the independence of investigation of the truth and the abolition of prejudice.

# Weiss Reports on Two Years in Office

Town Manager Robert Weiss, looking back on two years in office, calls them very busy ones and expresses the hope that the Board of Directors have found them productive.

The board on Tuesday will conduct a review of Weiss' administrative performance. Weiss has been town manager since Jan. 1, 1966, coming from Manchester on a similar post in Windsor.

In his review, he states that the past two years were a period of orientation toward identifying town problems and that in the near future, he and the board "can develop a program of action that can lead to solutions to our major problems."

He lists 10 major problems to the future, exclusive of new school construction or school maintenance projects.

They concern, mostly, street, sidewalks, sewer and water improvements. Included also, is the completion of Downtown Renewal and the construction of an incinerator.

Weiss, throughout his report, stresses teamwork among all department heads as the most effective approach for guaranteeing service to the public.

He praises "the high caliber of our department heads and their sense of dedication to the public service" and recommends that commendation should be given to including the names of department heads and assistants.

"The fact that these people are not represented by an organization to bargain for them should not be cause for unequal treatment," he states.

"One of my major emphases has been in the area of industrial development," Weiss states. He then lists four major problems that, in his opinion, have adversely affected Manchester's industrial development efforts.

1. Lack of utilities on most sites.  
2. High prices of land, compared with competitive sites in other towns.

3. Desire of major landowners to build and lease facilities rather than to sell land.  
4. Lack of availability of small size sites.

He then predicts that the town's industrial guidelines adopted last spring, may provide a positive answer to the four problems listed.

During the past two years not only has Manchester been served by a new General Manager but also by a substantially new membership on the Board of Directors. This has meant, in a sense, that both the Manager and the Board of Directors have passed through a period of orientation toward town problems.

It is hoped that this period has proved fruitful to all concerned in identifying areas that need particular attention and that in the near future we can develop a program of action that can lead to solutions to our major problems.

My particular method of operation as your chief executive officer is one of attempting to develop a sense of teamwork among all department heads so that the best thinking of each individual can be reflected in the administration of town affairs.

It is hoped that this approach has filtered down to all levels of positions so that each employee feels that he is part of the team.

For the past six months, weekly meetings have been held with staff members particularly active in planning matters. In these meetings we are more deeply involved in technical details than in the full staff meetings.

More recently, regular meetings of department heads involved in fiscal operations have been instituted. These also get involved in technical details that would not be of interest to the full staff.

I am very much impressed with the high caliber of our department heads and their sense of dedication to the public service. In reviewing salaries it has become apparent that compensation of those department heads and their assistants, those in most instances are set with salaries paid in other jurisdictions for similar work.

Disparities of a serious nature are evident when a comparison is made of the income of some subordinates with that of department heads or assistant department heads. The fact that these people are not represented by an organization to bargain for them should not be cause for unequal treatment.

Personnel Administration  
Personnel Administration has been one of the most important functions of the Development Coordinator and one full-time clerk in the Manager's Office.

Procedures have been established to expedite proper work required in various personnel activities. Filling of vacancies has been speeded up in most instances. At the same time the department heads have been responsibly involved in handling their own personnel problems and procedures as much as possible.

The past two years have witnessed entirely new problems in the area of Union negotiations. New legislation adopted by the State has encouraged the formation of employee bargaining groups and strengthened existing ones. The firm has been formally organized and the Union recently representing the hourly rated workers has now been recognized by the Labor Relations Board as sole bargaining agent for all employees except Police, Fire and Supervisory. As yet, no considerable amount of time has been spent over the past two years in the area of contract negotiations.

It appears to me that the industrial negotiations have come to the table open-minded and cooperative. The resultant agreements reflect honest compromise and seem to be fair both to the employees affected and the town.

Industrial Development  
One of my major emphases has been in the area of industrial development. A few major problems have adversely affected Manchester's industrial development efforts. These are:

1. Lack of utilities on most sites.  
2. High price of land compared with competitive sites in other towns.  
3. Desire of major land owners to build and lease facilities rather than to sell land.  
4. Lack of availability of small size sites.

Working together with the industrial development Commission and with the cooperation of property owners and the Board of Directors, giant strides have been made in the past two years. The adoption of Industrial Guidelines program might well be looked upon in the future as the turning point in Manchester's development.

It is likely to develop a positive answer to each of the four points listed above.

We have had a successful two years in terms of industrial development. Activities include expansion on the part of existing industries, the selection of new sites in Manchester for several who outgrew existing facilities and the selection of sites in Manchester by others from out of town. Your major mission has been involved in the projects listed below. These firms were convinced by the Board of Directors or to remain in Manchester.

1. Empire Tool Company — new facility on property sold to them by the town.  
2. L. M. Gill Welding and Manufacturing Company — moved from East Hartford to a new facility on Tolland Turnpike.  
3. Klock Corporation — new site on Tolland Turnpike.  
4. Broughton and Company — moved to former Empire facility on Stock Place.  
5. Dean Machine Company — additional space in former Green Manor Industrial Park — led by Town Industrial Guidelines Program.  
6. Agway Incorporated — fertilizer plant on Electric Street, a new branch facility.  
7. Allen and Reed, Incorporated — wholesale plumbing supply distributor — branch plant located in Cheney Mills building.

It appears to me that we have a promising future for industrial development. Our ability to serve excellent sites with sewer and water facilities, if planned projects materialize, should assure future growth. However, it must be remembered that this is an extremely competitive field. Communities which are in the process of growth are also actively involved in the search for industry. We must remain competitive if we are to succeed. We still have problems in finding small sites for growing industries. However, the Board of Directors gave formal approval in this regard to contract services with the Land Records. The total cost of the project is \$43,000, to be financed over three budget years.

A contract was signed with Board of Education created a Data Processing Advisory Committee to work with the Superintendent of Schools and General Manager. The group has been of inestimable assistance in helping to work out a program whereby the Town, Board of Education and Community College all share a common purpose.

The Town has several major systems that are in the process of being automated:

1. Water and Sewer Billing.  
2. Accounts Receivable and Appropriations Accounting.  
3. Payroll, Personnel and Accounts Payable.  
4. Preparation of Grand List and Tax Bills.

The preparation of the Grand List and tax bills have been handled in the past under a contract with a bank. We will be handling this ourselves for the new Grand List in January. Water and sewer billing should be operating in March and the accounting functions should be operational in the beginning of the next fiscal year.

DEPARTMENTAL HIGHLIGHTS  
Police Department  
1. Addition of first full-time Policeman.  
2. Detective bureau created with a Lieutenant and 4 Detectives filled by promotion.  
3. Sign shop created in maintenance division, including the making of street name signs.  
4. Six patrolmen positions added bringing authorized personnel to sixty-two men.  
5. Dog Warden made full-time member of Police Department.

Fire Department  
1. McKee Street Firehouse completed.  
2. Lawrence Road Firehouse completed.  
3. 75 foot ladder truck purchased.  
4. Negotiation of first contract with Firemen's Union.

The objective that the Public Works Department has pursued over the past two years has been to increase the scope of the services while reducing costs. Specific examples of increased services are:

Leaf Collection Program  
Barn Installation Program  
Sign Installation Program  
Roadside Weed Control Program  
Concrete Curb Spalling Treatment Using Linseed Oil and Mineral Spirits  
Increased Pavement Overlay Program

More effective rubbish collection program  
Supplying winter sand directly to home owners  
Specific examples of Capital Improvement Projects are:  
Riglow Brook Conduit—Barn Street to East of Lenox Street  
East Cemetery Development  
North Manchester Interceptor Sewer Design  
Secondary Treatment Plant Design  
Center Relief Trunk Sewer Design

Waddell Pool Construction  
Robertson Park Pool Design  
Globe Hollow Pool Paving  
Parker - Oakland Connector Design  
Union Pond Land Acquisition  
Initiation of Topographical Mapping Program  
Extended Life of Sanitary Landfill Operation  
Globe Hollow School Construction  
Construction of Fire Stations at McKee Street and Lawton Road

Preliminary Plan on Center Springs Park School  
Coordination of Improvements in Conjunction with Pioneer Parachute  
Addition to the Dog Pound  
Installation of World War II Honor Roll at High School

Work is being continued on the installation of equipment for adding calcium and lime chemicals to help improve the quality of our water. It will take some time for this to really take effect, however, and the ultimate is the addition of another filtration plant.  
Garaghy & Miller of New York made a study and took into account additional ground water supplies. This study provided us with a 500 g.p.m. well at the Charter Oak Playground area. Further tests, if we deem it advisable, will have to be carried out on the other area that showed promising results.

The new billing method is now in effect. It is hoped that Data Processing will be started February or March of 1968.

The last session of the State Legislature increased the state reimbursement for welfare payments from one half to two quarters. It is entirely possible that a future State Legislature will take over the entire welfare load both financially and

physically. In this event I feel we will still require a continuous program of improved services. Some of the new programs with which the department is involved are:

1. Counseling for the Elderly — Representatives of the department meet regularly at the Citizens Center and are available to meet clients of the Senior Citizens Housing or in homes on an appointment basis.  
2. Food Stamp Plan — Considerable effort has been expended to familiarize regular clients and others, such as Senior Citizens, who might qualify under this new Federal Program.  
3. Work Relief Program — A program has been instituted whereby any able-bodied person applying for welfare assistance is required to work to repay assistance rendered. This has proven to be a deterrent to the lazy type of individual who would make welfare a "way of life". The results have been excellent and we find in most instances able-bodied individuals now find work on their own.  
4. Hospital Referrals — Changes have been made in our procedures here that have made it possible to shift some costs to the state and to deny patients who are not eligible for hospital care. This has made it possible to keep hospital costs at a minimum. Close working relationships have been developed with other agencies such as the Manchester Office of the State Welfare Department, the Visiting Nurses Association, the

School Social Workers and the Hospital Social Workers. This results in improved services to clients and frequently to lower welfare costs.

10. Renovate Parker-Howard Miller Plant  
11. Miscellaneous Water Main Installation  
12. Replace Wooden Main to Lawton Street  
13. Road Reconstruction Program  
14. Inducement  
15. Major arteries such as Vernon Street and Bush Hill Road would receive priority  
16. Downtown Renewal  
17. Broad Street Traffic Problem  
18. Hospital Connector to Middle Turnpike  
19. West Side Recreation Building  
20. Sidewalk Construction and Repairs

CONCLUSION  
I have, in general, avoided getting into details of operations over the past two years or duplicating information that you have received in the form of other reports. Further information is available at your request.

The past two years have been extremely busy ones for me and for all of us in town government. I hope that you feel that these have been productive. The town is now at a crossroads. Decisions made in the near future will influence the town for the long term future. Many of the decisions will be difficult to make. I am sure that working together for the welfare of Manchester will provide each of us, both on the legislative and management team, with great challenge and substantial satisfaction gained from serving the public.

The Hartford National Bank was contracted to data process the records required to complete the grand list each year. This task is to be done on the Town of Manchester computers for the first time this year.

The Assessor's office has found it difficult in the past couple of years to employ and retain qualified assessment assessors. It is hoped that with the Town's new and better salaries, and fringe benefits that this problem may be alleviated.

A problem yet to be solved is the need for more working space in the Assessor's office and vault. It is hoped that the need for the vault to be used as a working office with desks, chairs and large equipment in it, will become unnecessary as the water billing goes on to data processing. The employees of the Assessor's office use this vault every day, and it is very inconvenient for all involved.

The recent authorization by the Board of Directors to acquire modern equipment for counting for collections will be of substantial benefit in the daily operation of this department.

Purchasing  
An Assistant Purchasing Agent formerly worked out of the Controller's office. This position has been reallocated to that of Purchasing Agent and the office has been relocated in the Town Hall. This has improved the ability of this department to serve the operating departments.

The Park and Recreation Department have been separated. The appointment of a successor to Homer Murphy will be made in the near future.

Participation in the Recreation program has shown considerable expansion. This is evident in all areas of the program affecting all age groups and during all seasons. We are particularly pleased with the success of programs that have appealed to teenagers and young adults.

We must retain a certain amount of flexibility in this area of activity so that we can continue to meet the needs of the public as tastes change.

Planning  
The Town is now in the midst of a substantial program for "population explosion". The large number of applications for group dwellings is the clearest indication of this pressure. Consideration should be given to expanding the planning staff so that the Town can give proper emphasis to future needs in the expansion of the planning staff to handle individual applications as they come in.

Over a period of time a change in function of the Welfare operation is becoming evident. More and more this department is becoming involved in social service counseling rather than merely being an agency for the dispensation of welfare funds. With this shift of emphasis in mind I will be recommending in the near future that the name of this department be changed to Department of Welfare and Social Services. Many people feel that there is a stigma attached to entering the "welfare" office that would not apply under a changed title.

The last session of the State Legislature increased the state reimbursement for welfare payments from one half to two quarters. It is entirely possible that a future State Legislature will take over the entire welfare load both financially and

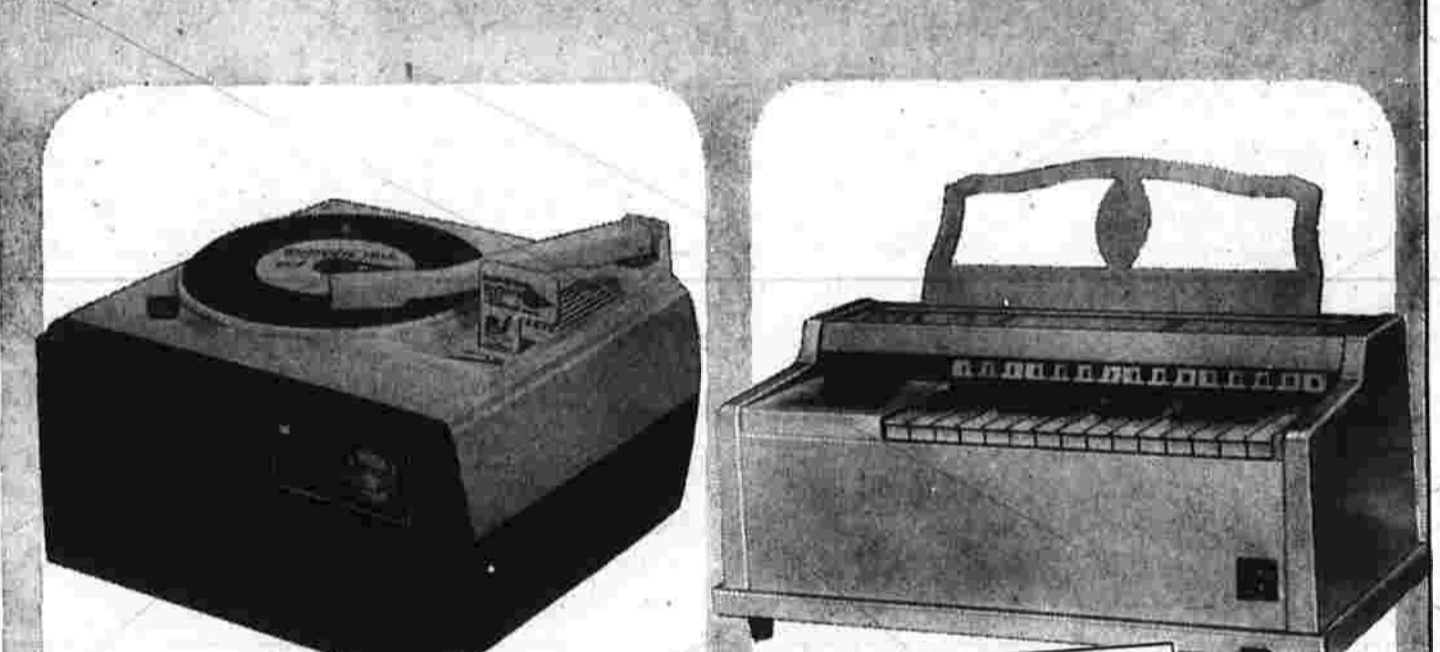

Gifts Sought For Patients  
Mrs. John Buck of 185 Spruce St. is serving as chairman for the annual Holiday Gifts Program for mental patients at Norwich Hospital.

The program is sponsored by the Capital Region Mental Health Association, Inc., of Hartford. It is intended to assure that patients without families or friends are not forgotten during the holiday season. Since many patients have little money and few personal possessions, Mrs. Buck says, gifts need not be elaborate or expensive, but should be practical. Among suggested items are slippers, wooden gloves, stockings, undergarments, scarves and shirts. Clothing for men is especially in short supply. All articles should be labeled as to size and content.

Gifts will be collected during the first three weeks in December at Mrs. Buck's home; Center Congregational Church, 11 Center St., or the Connecticut Bank and Trust Co., 89 Main St. Those wishing to send checks may make them out to the Patient's Welfare Fund and send them to Mrs. Buck, who may also be contacted for additional information on the program.

The anecdote, a snake which reaches a length of between 20 and 30 feet, is the largest South American snake.

OEO Council Chided By Resigned Member

Jay R. Stager, one of the three Democratic minority members of the Council on Economic Opportunity who resigned on mass two months ago, has chided the council for what he calls its inactivity.

Stager, former chairman of the council, urged Atty. Higgins to call an immediate meeting. He said that our resignation would provide the council with the same semblance of action.

Stager recommended that the council be disbanded and that it be reformed in accordance with the state's newly enacted Community Development Act.

Stager said he felt compelled to speak out again as a result of the council's inactivity.

Banquet Slated For Volunteers

The teen-age, volunteer counselors of Manchester's Kennedy Day Camp for Retarded Children are being honored with a banquet tonight by the Army & Navy Club.

Stager said he felt compelled to speak out again as a result of the council's inactivity.

# Senate Group Resolves To Curb President Power

By JAMES MARLOW  
 AP News Service  
 WASHINGTON (AP) — It's an oblique rebuke to President Johnson but it is of dubious value.

The Senate Foreign Relations Committee has approved and sent to the full Senate for its approval a resolution intended to curb the power of Johnson or any president after him in using the armed forces abroad.

The full Senate is unlikely to act on it this year. It may never do so. The committee may not press for action. And even if the full Senate eventually approves the resolution, Johnson and all other future presidents can ignore it.

For this reason, he would have to attempt to get it passed by a joint resolution passed by both House and Senate. That would have the effect of law. But a resolution passed by House or Senate alone does not, so it can be ignored.

Then why did the committee bother with the resolution at

all? It's the product of discontent among some members with the war in Vietnam. Its roots go back three years, leaving some Senators self-conscious about what they did then.

After North Vietnamese torpedoes attacked U.S. destroyers in the Gulf of Tonkin in the summer of 1964, Johnson asked Congress to approve a resolution authorizing him to use the armed forces if necessary to stop Communist aggression in Vietnam.

He didn't ask for just a resolution by House or Senate. He asked for a joint one. He asked for prompt action. Both House and Senate have not acted on it.

As the war dragged on, Johnson's critics in the Senate multiplied, as they did elsewhere. Both House and Senate have a more direct way open if they want to disapprove the war. They can rescind the Gulf of Tonkin resolution.

But no one is suggesting that that would be the total rebuke that would probably mean American withdrawal from Vietnam. So far the Foreign Relations Committee's present resolution is the only rebuke being tried.

What is the stated purpose of the committee resolution? The committee has issued a report explaining what it has in mind. This report is sloppily put together but it goes like this:

"It is the only means by which Congress can control the use of the armed forces. It is the only means by which Congress can control the use of the armed forces. It is the only means by which Congress can control the use of the armed forces."

The 28-year-old sailor from Norwich was tried on a first degree murder indictment in the strangling of Mrs. Phyllis Manwaring in her Montville home last Dec. 1966.

The body of the 28-year-old victim was found in a bedroom.

Kearney and Douglas Manwaring, the victim's 24-year-old husband, were shipmates aboard the submarine tender Fulton which was moored at its home port of New London at the time of the slaying.

During the lengthy trial, Kearney proclaimed his innocence. He said he did not kill Mrs. Manwaring, nor was he at the Manwaring home on the day of the slaying.

Kearney's wife, Sandra, and parents, Mr. and Mrs. Sylvester Kearney of Franklin Square, Long Island, were present for most of the trial. So was Manwaring and his wife's father, J. Keith Metty of Ann Arbor, Mich.

When the verdict was read by the jury's foreman, Mrs. Elizabeth Dunning of Stonington, Kearney bowed his head. Tears filled his eyes as he was led from the courtroom.

Kearney bowed his head. Tears filled his eyes as he was led from the courtroom.

PARIS — France's orchard-ists have rapidly expanded production to meet higher domestic and foreign demands for fruits and juices. They have almost doubled their output since 1965. Today France is the leading European producer of apples, the second-largest exporter of peaches and the third-ranking exporter of pears and apples.

## Sailor Set For Sentence On Dec. 6

NEW LONDON (AP)—A Dec. 6 sentencing to mandatory life imprisonment is set for sailor Eugene Kearney, convicted of second-degree murder in the death of a shipmate's wife.

It took a Superior Court jury of eight men and four women more than 18 hours — spread over three days—to reach its verdict Wednesday and send Kearney's nine-week trial.

Kearney's lawyers promptly announced their intention to appeal.

## Wives Take Congress Trip To Belgian NATO Session

By JIM ADAMS  
 Associated Press Writer  
 WASHINGTON (AP) — Congressional wives have been singing "Take Me Along" and their husbands have been listening to the making of a U.S. contingent attending a NATO assembly in Brussels, Belgium.

The congressional delegation includes: Sen. Birch Bayh, D-Ind., and wife; John Sherman Cooper, R-Ky., and wife; Clifford P. Hansen, R-Wyo., and wife; Jacob K. Javits, R-N.Y.; Karl E. Mundt, R-D., and wife; Harrison A. Williams Jr., D-N.J., and Sparkman, R-Ala., and wife; William H. Allen, R-Miss., and wife; E. Y. Berry, R-S.D., and wife; Jack B. Brooks, D-Ill., and wife; Charles E. Chamberlain, R-Mich., and wife; Frank M. Clark, D-Pa., and wife; Findlay and his wife; Charles A. Halleck, R-Ind., and wife; Wayne Hays, D-Ohio; L. Mendel Rivers, D-S.C.; Peter W. Rodino Jr., D-N.J., and wife; and Vernon W. Thomson, R-Wis., and wife.

## What Is Oil Shale?

DENVER—Oil shale is organic-rich shale that generally yields amounts ranging from 10 to more than 100 gallons of oil per ton of rock by conventional destructive distillation methods.

### University Trains Men As Smithies

By JAMES MARLOW  
 Associated Press Writer  
 BOSTON (AP)—New England colleges are training men to be smiths.

The University of Maine is closing the blacksmith shop. The number of privately owned forges has doubled in 10 years, but the blacksmith corps hasn't—so the university gave a four-week course in the science of shoing a horse.

Applications came from as far away as Mexico.

Students had 200 hours of class room work and spent the remainder of the time working at portable forges.

The going rate for a set of shoes in most New England communities is \$10, but some suburban smiths charge \$18.

One smith shoes horses by appointment only, the rest work on about 30 horses a week. The job takes about an hour if the horse is brought to the smith—longer if the smith makes a house call.

### Avoid Making Invalids Of Asthmatic Children

By JOY MILLER  
**AP Women's Edition**  
 Some mothers are making their asthmatic children into lives of chronic invalidism. Dr. Itkin says that mothers who make that charge, says Dr. Itkin, are making their children into lives of chronic invalidism. Dr. Itkin says that mothers who make that charge, says Dr. Itkin, are making their children into lives of chronic invalidism.

Dr. Itkin is chief of asthma-allergy service at National Jewish Hospital in Denver, a free, non-sectarian chronic chest disease hospital that accepts only hard-to-treat cases. At this hospital children in a chronic condition which fluctuates in its severity, explains Dr. Itkin, a mother should start early having a child live a normal life between episodes. If she doesn't encourage the child to exercise, the efficiency of the utilization of oxygen will be at a disadvantage, he says.

Asthma, which afflicts about five million people in the United States, is a disease that attacks without warning and feels like a giant hand squeezing the throat and chest, causing gasps and wheezes and fear of choking. It may occur occasionally or it may become continuous. The suffering is severe.

The National Jewish Hospital undertook a study comparing the progress of patients who exercise with those who did not. Exercise, the study showed, was beneficial.

Anyone can get asthma—at any age. A week-old baby or an 80-year-old man who has never been allergic has his whole life. "A patient does not get well by himself fairly frequently," says Dr. Itkin. "More get over it by themselves than are fully cured by doctors' treatment. You go to an old folks' home and half the people here will say they had it and got over it."

Then comes a mother who is taking her asthmatic child to a doctor.

Yes, says Dr. Itkin—to find out what the cause are. "It's easier to control the first few causes than to wait until there are so many different ones. The bottle up, so to speak."

No age is too young for allergic investigations, although under 1½ years the skin may not be as sensitive to allergens.

"A mother should keep a diary to show the relation between possible causes and the onset of the symptoms—what foods eaten, toys handled, places visited. It's necessary to

 Abdominal Support FOR LONGER LIFE

Why do widows outnumber widowers? To the traditional team of work and worry, long braided the guilty pair, weight has been so strongly linked by science that dieting, once a woman's pastime, has become a male preoccupation.

And now comes evidence that it isn't just the pounds, but the sag that brings on the palpebrers—that the girdles that give the ladies their girlish figure may also be extending their lives.

The idea that control under shorts, tightening the abdominal muscles and expanding the chest, improve not merely appearance but health isn't exactly a new one. Long before modern drugs came on the market, doctors prescribed abdominal belts for men with heart ailments.

But new research, reported in the Journal of the American Medical Association, tends to show that the new drugs may be no more effective than the old-fashioned belt—or the modern control shorts. Scripps Institute scientists found that "application of the belt previous to exercise reduced or prevented the abnormal postexercise increase in the amplitude of the A-wave of the apex cardiogram," just as popularly-prescribed girdles did.

How do control shorts help the heart? Dr. F. J. Besterman, writer that it helps the circulation of the blood, and "thereby takes an unnecessary load off the heart. And when one multiplies this by the heartbeats which add up to a few billion in the normal lifetime, one can understand how a simple abdominal support could add years to a man's life."

Many doctors are suggesting the increasingly popular types of control shorts to their patients, and finding back and breathing as well as circulation benefits.

The most popular type, Mandate, "underwear that allows the Mandate Journal's presentation of a belt 'highly applied to the abdomen in such a manner that it does not produce discomfort'."

### Robert Haggerty Appointed Town Council by Selectmen

Atty. Robert Haggerty of Wilburton Center has been named town council for Colchester by Selectmen. Haggerty is a Democrat.

Selectmen at this week's meeting made the appointment and Haggerty is presently serving as town council for Ashford, a post he has held for several years.

Haggerty, who has a law degree from the University of Connecticut, has had an insurance and real estate agency in Wilburton.

He served in the U.S. Navy in World War II and is a member of the James Otis Post 18 American Legion in Wilburton, and the Wilburton Country Club Association and the Connecticut Bar Association. He is married and has two children.

The Selectman Robert Tuttle has been named to serve on the Wilburton Regional Planning Agency and local representative to the Water and Sewer Advisory Committee.

The selectmen plan to attend a soil survey report at Toland County Agricultural Center in Rockville, Mo., Dec. 1. The program includes "Backgrounds on Soil in Planning" and those interested are welcome to attend.

James Carvey of Hemenway Rd. appeared at selectmen to consider action on the traffic situation on Hemenway Rd.

He said about 60 children are on the road constantly which is near the recreation area, and added that cars using the road have no speed restriction at all.

He asked selectmen to post the area with signs restricting the speed limit to 30 miles per hour and place caution signs designating the road as a recreation area. The selectmen agreed the situation was dangerous and added that there would also be more protection at the Rt. 6A and Hemenway Rd. intersection.

Russell Ingalls, Collier Rd., asked to have the town office committee "reauthorized." Ingalls, a member of the committee, said it had been authorized to present preliminary plans and estimated costs to the town after the town voted to build new offices. He said no further action had been taken and stressed the fact that building costs are constantly rising.

The selectmen decided to have the building committee meet shortly and bring the matter before the town at the first opportunity.

The board authorized the town clerk to check costs of micro-

### Police Arrests

John R. Foley, 45, of 978 Bolton Rd., Vernon, was charged with disregarding no parking marking Wednesday morning, after police say he was observed parking a dump truck on Parker St. near Hart Rd. and going over the double yellow line.

He is scheduled to appear in court on Dec. 11.

Henry Lister, 47, of no certain address, was charged with intoxication Wednesday morning. Police say they found him in an apartment at a Pearl St. where he wandered in through an open door and went to sleep on a chair.

Lister is scheduled for court appearance on Dec. 4.

**Marseille Top Post**  
 MARSEILLE — In total traffic handled, Marseille was easily the leading French port last year, loading and unloading 62.2 million tons. Second was La Havre with 30.5 million, followed by Dunkerque with 18.2 million and Rouen with 12.4 million.

**CHARGED IN WIFE DEATHS**  
 HARTFORD (AP)—A murder charge has been lodged against 45-year-old Albert H. Schueta, whose wife was found dead of multiple stab wounds in their blood-spattered apartment. Schueta was arrested Wednesday after the body of his wife, Janet, 30, was found by her neighbor, a bakery shop proprietor. The proprietor had gone to look for Mrs. Schueta when she failed to show up for work. Schueta was found later in a room, seated at the kitchen table in his apartment. He was taken to McCook Hospital for treatment of a stab wound in the abdomen, which police said was apparently self-inflicted. The weapon was believed to be a small pair of scissors.

### Rham District Will Start Duties on Jan. 1

Rham High School will start the new year with a new principal. The Regional Board has named J. Colin Pugh as principal of Rham High School effective Jan. 1 at a salary of \$14,000.

Pugh is presently the principal of Cromwell High School where he has served since 1967. He received his B.A. in English and M. Ed. in administration and supervision from the University of New Hampshire in 1964 and 1964, respectively. He also has had additional courses at the University of New Hampshire and Connecticut.

He began his teaching career in 1948 and taught for one-and-a-half years at Whitefield High School in New Hampshire. Until 1967, he held several positions in New Hampshire, including teacher at Spaulding High School in Rochester; principal-teacher at Twin Mountain School in Carroll; Grades 1-12; principal-teacher at Amherst High School, Grades 7-12; principal at Alden High School in Hudson, Conn.; and principal at Cromwell, Conn.

Pugh is married and lives in Middlefield with his wife and four children.

**Scholarship Drive**  
 Students from Rham High School are beginning the "Dollars for Scholars" collections in Andover, Haver, and Hartford this week. The project, sponsored by the P.T.A. of Rham, will be carried on throughout the month of December.

Last year, seven students were recipients of \$100 scholarships as a result of this drive. They were awarded to the students on the basis of citizenship and

### Events in World

**Last Hotel Banquet**  
 TOKYO (AP) — The 44-year-old Imperial Hotel, a master of the late architect Frank Lloyd Wright, held its farewell banquet Thursday night and its owners announced today that demolition will begin next Friday.

The owners' newspaper advertisement said thank you to the hotel's guests but made no mention of the international fund-raising drive to save Wright's three-story section of the hotel.

The owners' newspaper advertisement said thank you to the hotel's guests but made no mention of the international fund-raising drive to save Wright's three-story section of the hotel.

Like such New York hotels as the Ritz and the Astor, the land over the 22-room Wright wing is now so valuable that the structure is considered unworkable to save the building.

The owners plan to demolish the hotel by Nov. 15 to Dec. 1 to give the hotel's admirers time to raise the millions needed to save the building.

**Bombers Sentenced**  
 HONG KONG (AP) — Two terrorist bombers were sentenced to life imprisonment by a Hong Kong court Thursday. The Chinese men were found guilty of manufacturing and planting bombs with the intention of killing or seriously injuring.

Terrorist killed this summer and fall have killed nine persons including three children and wounded more than 100. There have been demands for the death penalty for bomber in the local press. It is unlikely that officials will go that far. Authorities said there were 30 reports of bombs found in the past 24 hours.

**Capital Punishment**  
 OTTAWA (AP) — Canada's House of Commons has approved a bill abolishing capital punishment during a five-year test period for all convicted killers except slayers of policemen and prison guards.

Before the bill becomes law, it must pass the Commons again and receive Senate approval. Passage seemed virtually assured.

The lower house approved the bill 114-77 Thursday on its key second reading. Seventeen men are currently under death sentence—some convicted of killing police or prison workers—but the Liberal government has deferred all hangings since it took over in 1962 with a pledge to abolish the death penalty.

About 150 of the 18th Century dwellings at Colonial Williamsburg house 20th Century families.

# THE HIGH SCHOOL WORLD

VOL. XXX, No. 11

FRIDAY, NOVEMBER 24

Compiled by Students of Manchester High School

Legion Editor: Susan Goldberg  
Sports Editor: Gary Jodoin  
Faculty Advisor: Mrs. Joyce Don

## Advantage Is Gained By Tutoring

The first quarter of school has ended, and the second quarter has just as quickly begun. For all students the first quarter also means the first marking period, signifying the importance of that one report card that tells about the student's work for the first three months of the year. For some students report cards will be the proof of high achievement. For others it may be a proud display but a guide for further work in more difficult areas. For still others it may be a disappointment. The MHS tutorial program gives help with subjects.

The student Council has been running the tutoring program under the direction of the tutor headed by Scott MacLean, '68. The committee acts as a coordinator between the tutor and students. Those who want help can sign up in the office, and will be informed as soon as there is a tutor available with a study hall the same period as requested.

Perhaps the most important word here is "student-tutor." The program operates with the tutor actually a student, doing a follow student. It is a simple, more informal level than the classroom situation, but it does help one to two students only. This tutoring also takes some of the extra-help load of teachers who simply don't have time to sit down and really work with a student.

A student-tutor actually has many advantages. Very often only a rewording of a theory or principle is needed for a student to understand it. Another student will be able to explain the approach to the problem or material easily, having already had the course, or being somewhat proficient in that field.

There has been a good response to the program, but more so on the receiving end. Many students are finding that the tutor is a valuable resource. Some are really a tutor, but they help someone to learn, and perhaps he will learn something himself. A lot of good, valuable reviewing is also accomplished while tutoring (see "Night of Round Table").

Any student willing to give up simply one study hall a week in the office, or with Scott MacLean, or with Mrs. Joyce Don, room 220.

**State Debaters Attend UConn's Mock Congress**  
Four members of the MHS debate team recently attended a mock congress assembly at the University of Connecticut. Representatives from many state high school debate clubs met to recreate a Congressional session.

**Teepee Tales**  
The first place team, was defeated last Saturday, thus putting Manchester in a close second place.

**Social Work Class Topic**  
Four speakers enriched the regular meeting of Modern Problems classes last Thursday. The speakers involved were all in social work and counseling for individuals and families.

Mr. Zimmerman, advisor for class of '68, is flanked by new class leaders as they survey the record of past senior activities. To his left are President Dick Cobb and co-treasurers Dave Moyer and Wendy Smith. Vice President John Leggett and Secretary Sue Grant complete the slate. (Herald photo by Finto)

## New Officers Plan for '68

"A fine group of students," was the opinion voiced by Vice-Principal Mr. George Zimmerman. He was speaking at the election of the 1968 class officers held in the gymnasium last Friday. The choice was of special interest to Mr. Zimmerman because he is in charge of all senior class activities and will be working closely with those selected. Those elected were: Dick Cobb, president; John Leggett, vice-president; Sue Grant, secretary; and Wendy Smith, treasurer.

## Legion of Honor

You walk through the Choir door and round the corner into the Legion of Honor. Enter: Susan Ann Goldberg—a sweet, innocent, loving young woman with a face whose mouth is nearly always drawn up at the corners, and quietness when he sings! Then watch out. Gary has been a member of Round Table for the past two years and active in the group's projects. Last year, he straddled across the stage with the choir of "My Fair Lady," and this year, this week, you'll find him busy preparing for the "Tenth Muse." Not only will he sing, but he'll also play the guitar, and he'll also play folk music. Gary is a true talent, and he'll be a great asset to the Legion of Honor.

**World Briefs**  
Students are reminded that if they are absent from school because of illness or other reasons, they should call the school at 9:00 a.m. to inform the office of illness.

**Latin Club Set To Hold Banquet**  
Attention! Latin Club members! The Latin Club is planning a banquet for the year. The banquet will be held on Friday, November 24, at the Hilton Hotel in Hartford. The banquet will feature a variety of Latin dishes and a presentation of the club's activities.

**JOINT MEETING**  
A joint meeting of the Pre-Med Club and Current Affairs Club will be held Monday at 7:00 p.m. in the Pre-Med Club room. The meeting will discuss current events and the role of the Pre-Med Club.

**MANCHESTER MOTOR SALES**  
Save An Extra 20% Off on Regular Low Prices on All Occasional Tables. Price starts at \$15. In Our Stock.

## Speaking for Birchers Dial Number: Voice Accuses Senator Kennedy of Treason

WASHINGTON (AP)—If you dial a certain number on the Washington telephone exchange, you can hear an anonymous, voice speaking for the John Birch Society, accuse Sen. Edward P. Kennedy, D-N.Y., of treason.

The recorded voice accuses Kennedy as the backer of "liberal and revolutionary" Chinese-orientated Negro groups, the employer of the Rev. Martin Luther King and the financial angel of the Congress of Racial Equality.

Without any reference to time or place the voice says Kennedy is a traitor to the United States. It says Kennedy is a "sell-out" who has sold his soul to the Communists.

The recording identified its sponsor as "Let Freedom Ring" and said it was a recording of a telephone call to the office of the John Birch Society.

## Health Capsules. Will Not Be Recommended Against Smallpox, Does the Date of Your Previous Vaccination Affect the Reaction You Get?

HEALTH CAPSULES. Will not be recommended against smallpox, does the date of your previous vaccination affect the reaction you get?

Smallpox is a highly contagious disease that has been almost completely eradicated in the United States. However, it remains a potential threat, and the Centers for Disease Control (CDC) have issued guidelines for vaccination.

The CDC has advised that individuals who have not been vaccinated against smallpox should consider doing so, especially if they are in contact with someone who has been vaccinated.

It is important to note that the date of your previous vaccination can affect the reaction you get. Therefore, it is recommended that you consult with a healthcare professional before getting vaccinated.

## Tells Tribunal Former Soldier Charges U.S. Atrocities in Vietnam

ROSKILDE, Denmark (AP)—A young Negro who says he was a former U.S. infantryman in Vietnam, told a tribunal today about atrocities he claimed he and other Americans committed in Vietnam.

The tribunal was held in Roskilde, Denmark, and was part of a series of hearings on the Vietnam War. The young man, who is now a resident in Denmark, provided a detailed account of his experiences.

He described the conditions of military life in Vietnam, including the use of chemical warfare and the treatment of prisoners of war. He also mentioned the impact of the war on the local population.

The tribunal is part of a larger effort to investigate and document the actions of U.S. military personnel during the Vietnam War. It is hoped that these hearings will lead to a more comprehensive understanding of the conflict.

## Atlantic Graveyard

The Cape Hatteras region of North Carolina has claimed more than 2,500 shipwrecks and is called the "graveyard of the Atlantic."

The area is known for its treacherous waters and numerous shipwrecks. The wrecks are scattered along the coast, and many of them are still visible today.

The wrecks provide a fascinating glimpse into the maritime history of the region. They are also a reminder of the dangers of the sea and the impact of natural disasters.

Efforts are being made to preserve the wrecks and to study their historical significance. This includes the use of modern technology to locate and document the wrecks.

### Minivacations Seen As Newest in Fads

NEW YORK (AP) — Hotels in Aruba are booked solid through the weekend, so are the 80-room Hilton on the beach at West Little-Penny Point in Long Island's Hamptons, which last year had 60 people.

Impetus for the crowds at "in" resorts during the four-day Thanksgiving Day weekend is the newest rage: Minivacations.

United Air Lines has added 70 extra sections to its holiday schedule, and expects to carry 90,000 persons Wednesday—a one-day record.

"Thanksgiving is second only to Christmas as a travel time," said a spokesman for United. "It makes a four-day holiday."

The long-weekend business has boomed since jet service started. A spokesman for Aruba, in the Netherlands Antilles, said that last year's "Labor Day, Memorial Day, the Fourth, Jewish holidays—they are all heavily booked now. And the proposal to observe holidays on Mondays would be a tremendous boon."

The National Industrial Conference Board, which practices studies in business practices there has been a shift in the last 10 years to giving employees eight paid holidays, including Good Friday and George Washington's Birthday.

Even the little pieces are being offered for Christmas Eve, Thanksgiving Friday and floating holidays. To be taken when the employee wants to take a long weekend.

"Traditional holidays are now taken for granted. It is only when management grants other days off, such as floating holidays—particularly those that fall on Friday or Monday—that a company obtains any significant employee relaxation benefit."

Penny Point motel at Hampton Bay on Long Island, N.Y., began offering weekend house parties for musicians two years ago, and now has special week-ends booked through June 23. It limits reservations to 60 persons, and expects violinists, cellists and other amateur musicians from Manhattan, Ithaca, N.Y., and New Jersey this week-end.

Easy! Creative!

**Tudor's Snap Action Hockey 1.17**

King's Low Price

Action-packed, realistic hockey game with 2 teams of 5 snap-action players, movable goal tenders, built-in scoring device.

**A. G. Gilbert Erector Construction Set 2.67**

King's Low Price

Everything you need to build and rebuild any of five different cars and trucks... bulldozer, excavator, road roller, mobile crane or dump truck. Over 100 pieces, including many moving parts.

### Nasser Warning Backs Up Israel's Settlement Plan

JERUSALEM (AP) — A low the situation too closely touch upon by President Gamal Abdel Nasser warning that Egypt will fight if necessary to get its territories back, today strengthened Israel's determination that a settlement can be reached only through direct negotiations with the Arabs.

One Israeli diplomat said Nasser's speech Thursday "terrible" hope raised by Egypt's acceptance of the U.N. Security Council resolution on the Middle East and "puts us back at square one."

"That's why we want direct talks with the Arabs—not a U.N. arranged settlement," the source said.

Nasser ruled out such negotiations or any armistice with Israel in an address to his National Assembly and said the Israelis must evacuate all areas of Egypt, Jordan and Syria seized in the June war.

"What has been taken by force cannot be recovered without force," he warned.

Optimists at U.N. headquarters in New York suggested that Nasser might be talking tough to keep his people quiet, a standard tactic of his. But Israeli Foreign Minister Abba Eban said in New York: "We take it as an authentic expression of Egyptian policy."

Nasser, in his first public statement in four months, said he was not satisfied with the U.N. peace formula adopted on Wednesday. Israel had said it was willing to cooperate with the proposal.

The plan, sponsored by Britain, calls for appointment of a neutral peacemaker to promote a permanent settlement, Israeli withdrawal from territories occupied in the recent conflict, an end to the Arab state of belligerency with Israel and the recognition of all nations in the Middle East "to live in peace within secure and recognized boundaries."

Rather than endorse this, Nasser said "that is on our side" and that Egyptian forces should wait until they are ordered to do so.

"When the time comes, we will not be on the defensive," he declared. "If we resort to military action, our friends would understand and even support us."

Gunnar Jarring, the Swedish ambassador to the Soviet Union, has been named special U.N. mediator for the Middle East. He said he would be working from Moscow to New York.

"Labor Union Struggle" in the game raised the stakes. The game will be extended.

### Andover Town LWV Will Hear China Talk

Professor Edmund Wehrle of the University of Connecticut will be the guest speaker at Monday's meeting of the Andover League of Women Voters. He will talk on "The Great Proletarian Cultural Revolution and Its International Ramifications."

Wehrle is the author of the book "Britain, China, and the Anti-Communist Struggle." His newest book, to be published in the near future, is titled "Far East International Relations—1900 to the Present." Mr. Wehrle is one of the major studies now being conducted by the League of Women Voters.

The meeting is scheduled for 8 p.m. at the elementary school and like all League meetings is open to the public.

The Hours

The Collector Andrew Caubrey has announced a change in his Saturday office hours. In the past, his office hours were 10 a.m. to 1 p.m. on that day. The new hours will be 10 a.m. to 12 p.m. on Monday through Thursday.

### Charity Football Marathon Stretched to 24 Hours

BALTIMORE (AP) — With the addition of machines and handbags at the ready, students from Loyola College and Towson State College are about to begin the annual Charity Football Marathon. The game, which is held annually in Baltimore, Md., is a 24-hour marathon. Last year, after a 72-hour marathon, the game was held for 24 hours.

The game will be held on the campus of Loyola College. The game will be held on the campus of Loyola College. The game will be held on the campus of Loyola College.

### Manfield Gifts

Every year at this time the church collects Christmas gifts for the residents of Manfield Training School. The Women's Fellowship handles the gifts, and they have arranged for a collection box in the narthex of the church where contributions may be placed next Sunday. As the gifts are sorted according to the needs at the school they should be left unwrapped but with wrapping material accompanying the gifts.

NEWSLETTERS STOP

NEW YORK (AP) — Annual New Year's Eve and New Year's Day, the last two theatrical newsreels, will cease production before the year's end.

Henry H. Martin, vice president of United Artists, said the demise was due mainly to "the speedy, free news coverage by television and the declining revenues and the rise in production costs."

United Artists, founded in 1929, will close out its 38-year run on Dec. 28. At the peak about a decade ago, the firm issued twice-a-week newsreels to more than 3,300 exhibitors.

Newsreels, Metro News, and other newsreels will be available at all times of the day since 1966, will distribute its final footage next Thursday.

# Dulong Wins Five Mile Race in Rain

## Burfoot Close Second in Record Field of 173 Starters

### Holy Cross Star Just Misses Mark

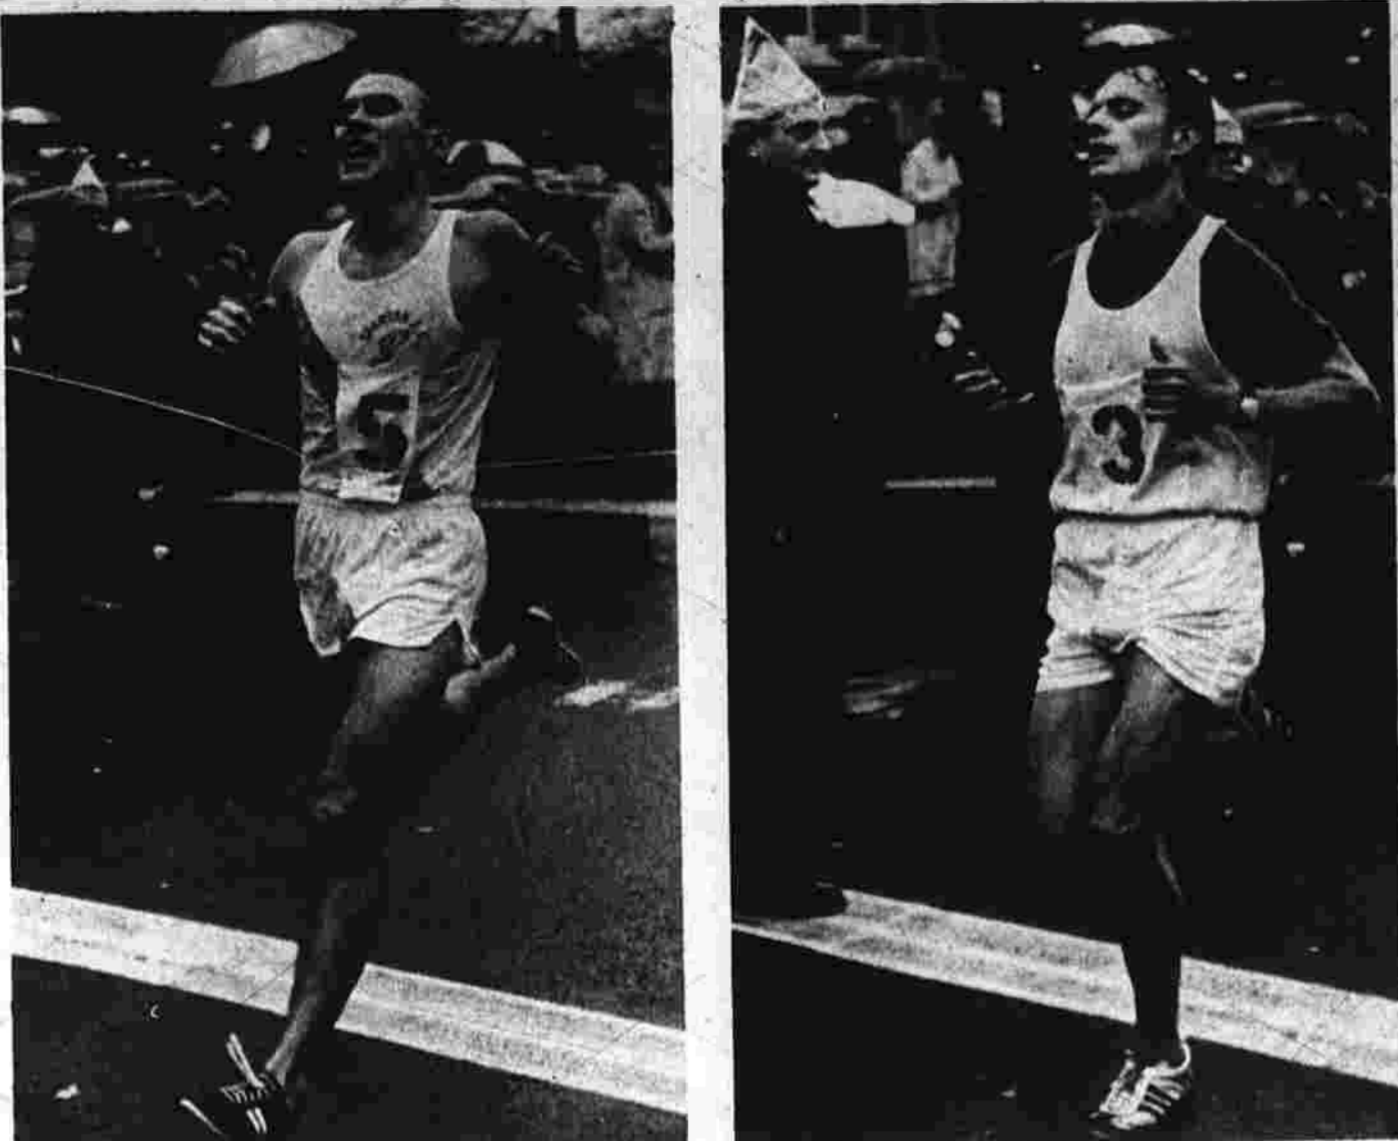

There will be a new name inscribed on the winner's trophy for the annual Five Mile Road Race in Manchester following yesterday's 31st edition in a driving rain and the most miserable conditions in the past two decades for the Thanksgiving morning spectacle.

Breaking into the winner's circle for the first time was Art Dulong of Randolph, Mass., a varsity and six-time winner of Worcester. Despite the rain and wet roads, Dulong won the race in a record field of 173 starters, plus the first three schoolboys—Hall, Dick and Scott Carter of Bristol Eastern (14th), and Scott Carter of Bristol Eastern (14th) and Bruce Doherty (14th) of the first two three-man teams.

The 19-year-old, 140-pounder was clocked in 23:15.4, the remarkable time of 23:15.4 before a crowd estimated by police at between 6,000 and 8,000.

Dulong was involved in a neck and neck duel with present favorite long-striding Art Burfoot for nearly one mile before jumping out front to win by a comfortable margin of about 100 yards. Burfoot, who won the race in 1966, placed 12th in his 17th successive appearance.

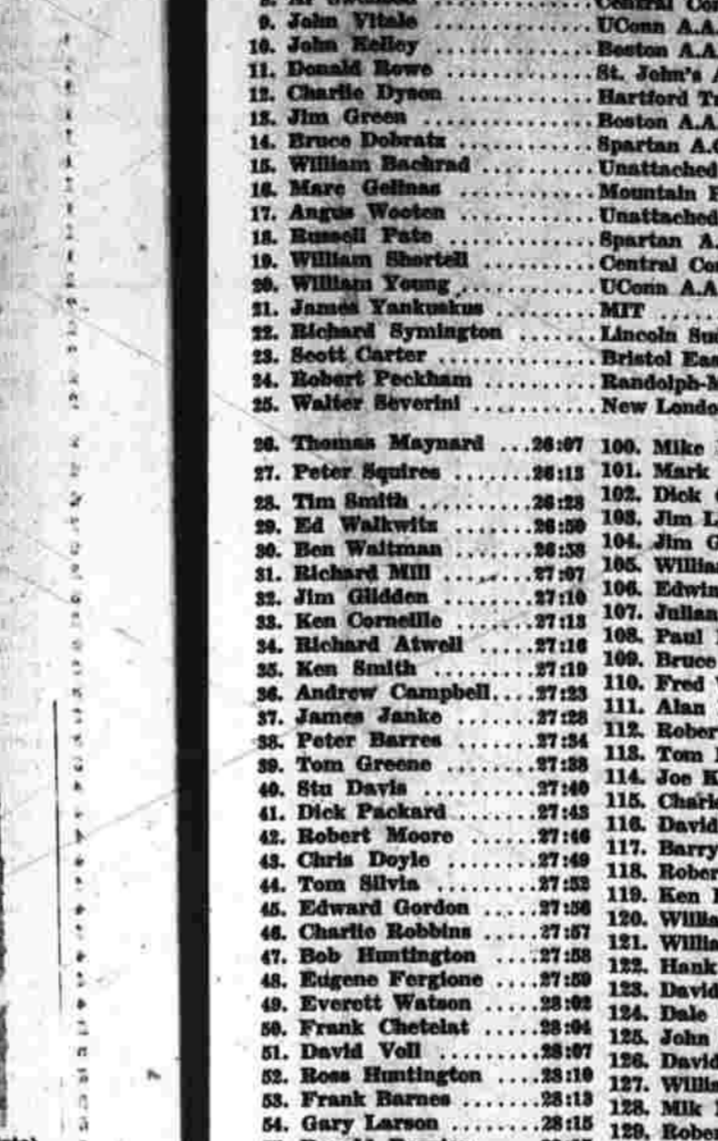

Burfoot of Groton Long Point, the sensational cross country runner who won the Connecticut A.A. title in 1966, placed second with a time of 23:44 and Jim Keefe placed fourth in 23:49. The 21-year-old, 6-1, 160-pounder started with second place for the second straight year. The 21-year-old, 6-1, 160-pounder started with second place for the second straight year.

Jimmy Keefe Finishes Strong Fourth

First Schoolboy Jim Hall Fifth Finisher

# 'Race Compares with Any Anywhere in Country'

## Kelley Had to Run His Heart Out To Break Tape in 10th Position

By EARL YOST  
"This race compares with any anywhere in the country," little Johnny Kelley said after he had taken part in his 15th Five Mile Road Race yesterday morning in a drenching rain.

The biggest winner in the history of the Five Mile—four six fifths to his credit, four seconds, two thirds, one fourth and one sixth—had to be content with 10th place yesterday.

All in all, it was quite a day, a tribute to all the participants many of whom traveled long distances to get here—plus the lion-hearted spectators who got drenched while watching some of the finest distance runners in the United States perform.

Little Johnny Kelley Gains 10th Spot

Tragedically every runner complained more about the cold than the rain. The temperatures were in the high 30s.

"The cold was a factor for slower times for many of the runners," Kelley said.

"I can even see the time when someone will win this race in 22 minutes," he remarked. "I don't think anyone would break 24 minutes a few years ago."

### Backstrom Newest Star For Red-Hot Canadiens

Speedy Ralph Backstrom has become the center of attraction for the Montreal Canadiens who've suddenly caught fire in the National Hockey League.

### Running Hospitalized

Resting comfortably in satisfactory condition at Manchester Memorial Hospital is Richard Tomlinson, 31-year-old Gloucester runner.

### Bowling

MIXED NUTS—Gerry Costa 133-346.

### KACEY

215-577, Al LaPint 202, Frank Buff 206, Clem Query 202-267, Fran Makney 568.

BEFORE THE RACE—Scott Carter pins the numbers on his son, Scott Carter, of Bristol Eastern, before the run at the East Side Rec where race headquarters were set up. Carter was the third schoolboy to finish.

### Order of Race Finish

| Pos. | Name               | Affiliation                     | Time    |

# Dulong and Burfoot Now All Even

By EARL YOST  
Counting into yesterday's 31st Five Mile Road Race, Art Dulong and Art Burfoot were tied for the lead in the 1967 season. Dulong won yesterday's race, but Burfoot was not far behind.

Dulong, who shared at least one minute off all his cross country performances this fall over a year ago, grabbed the lead just before the one mile mark and never looked back.

"I was surprised that so many people turned out today to watch the race. This is just after, winning by a comfortable 100 yards."

### Played Like They Ate Too Much

## Celts Left at Table in Holiday Hoop Play

NEW YORK (AP)—The biggest turkey on Thanksgiving Day proved quite a shock to the Boston Celtics, who played like they ate too much.

# Despite Four Early Season Losses Texas A&M Came Back to Win Title

NEW YORK (AP)—No one gave Texas A&M a ghost of a chance to win the Southwest Conference football championship when the Aggies lost their first four games of the season to Southern Methodist, Purdue, Louisiana State and Florida State.

But they didn't reckon with the heroics of quarterback Ed Hargett from the little Texas town of Linden.

He beat Texas Tech by running for a touchdown as time ran out, threw three touchdown passes to beat Arkansas, buried two TD passes to beat Baylor on Thursday and hurled an 80-yard pass in the last quarter that beat Texas 10-7.

Match sixth straight victory not only gave the Aggies the SWC title and an automatic spot in the Cotton Bowl against Alabama on New Year's Day, it also put the University of Miami in the Big East Conference Bowl against Colorado Dec. 23 at Houston.

Kansas, fifth-ranked in the Associated Press poll and already picked to oppose second-ranked Chicago in the Orange Bowl at Miami, also came from behind to down Nebraska 21-14.

Nebraska, which had a national television audience saw the Sooners beat

the Cornhuskers on a 23-yard drive by Eddie Hinton. The victory clinched the undisciplined Big Eight crown for the Sooners who end their regular season next week against Oklahoma State.

A seven-year pass from Russ Aggie to John Hince with 2 1/2 minutes left gave the VMI Tech their winning TD over VPI. John Schneider hurried touchdown passes of 51 and 63 yards and Roland Moss scored three TDs to lead Toledo over Villanova. It was the ninth straight vic-

tory for the Rockets, co-champion of the Mid-American Conference.

Southern Mississippi pulled out to lead the Southeastern Conference. A capacity crowd of 20,000 at College Station, Tex., cheered Hargett after his winning TD pass to Bob Long that pulled the Aggies from behind a 10-7 deficit to beat Texas in the 74th game of the storied series.

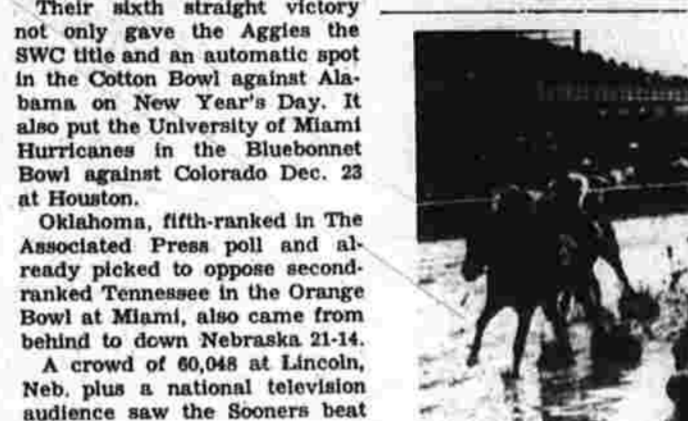

The Aggies had the ball on their own field when Hargett faded back and threw the Rose Bowl to Oklahoma. He eliminated Nebraska, but the Huskers' defeat did not definitely eliminate them of the chance to meet Georgia at Memphis Dec. 18.

"I wouldn't say the loss to Oklahoma eliminated Nebraska," said A. F. "Bud" Dudley, president of the Liberty Bowl.

It will be either Minnesota or Indiana against Southern California, No. 1 in the AP poll. Minnesota takes on wireless Wisconsin at Minneapolis while Indiana meets No. 3 Purdue at Bloomington.

If the Hoosiers can upset Purdue they will tie for the Big Ten title, assuming Minnesota wins Wisconsin. In that case Indiana will get the Rose Bowl trip since the Hoosiers have never been to Pasadena.

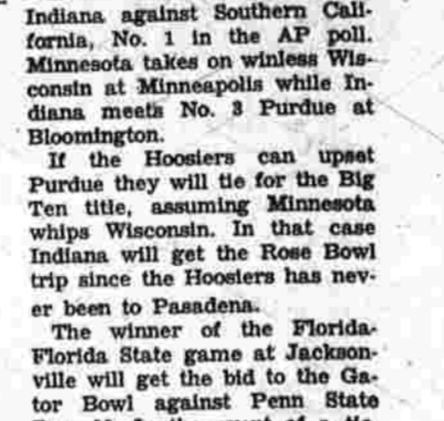

The winner of the Jacksonville-Florida State game at the Florida State Bowl will tie the Georgia West Coast in the latter game. It will be either Minnesota or Indiana against Southern California, No. 1 in the AP poll. Minnesota takes on wireless Wisconsin at Minneapolis while Indiana meets No. 3 Purdue at Bloomington.

## Cowboys and Raiders Enjoy Big Holiday

NEW YORK (AP)—Back to Dallas' Thanksgiving Day defense, the Cowboys and Raiders used Thanksgiving Day to move closer to a merry Christmas and a happy New Year.

Hayes sped to three long yardage to a 3-0 lead in the night over St. Louis Thursday night in the Cotton Bowl and sent them reeling in the National Football League's Capital Division title and a holiday season at the NFL championship and Super Bowl.

And at Kansas City, Oakland intercepted four passes and returned two to touchdowns as it clobbered Kansas City 44-22.

The Raiders' defense of replacing the Chiefs as champions of the American League's Western Division by Cleveland and an AFL champ by New Year's Day.

Instead, still has one major obstacle in the West, the San Diego Chargers, 8-1, who also have visitors of their own at Long Beach 24-30 in San Diego.

Los Angeles, another NFL champion, will be in the city of the angels at Baltimore by betting Detroit 31-7 in Detroit in the Thanksgiving Day game.

Dallas retained at least a two game lead over Philadelphia in the Washington with the Eagles playing at New York Sunday and the Redskins at Cleveland.

The Rams at a half game behind Baltimore, which invades San Francisco.

The other Sunday NFL games

## Ed Jucker Learned Quickly Different in Pro Basketball

NEW YORK (AP)—Ed Jucker found himself in familiar surroundings at the bench at Madison Square Garden in the midst of thousands of screaming fans during a basketball game.

After it was over he found himself not so familiar surroundings—the "lovers' locker room." It's something he has learned in the short time he has been back in the game. The professional grind is twice as hard as the college game, and even the very best lose more than occasionally.

Jucker earned two consecutive NCAA championships for the University of Cincinnati and returned after the 1966-67 season. He stayed on at the university as a teacher.

Then he was offered the head coaching job with the Cincinnati Royals this year. Though he has been with the pros for only a few games, Jucker has already noticed the difference from college ball.

"In the NBA you're dealing with men who have families and responsibilities," he says. "and the players are so good they seldom make mistakes. Of course the philosophy of the game is still the same but in the pros it's mainly offense, at least some of the guys are very good defensive players."

Top Executive

"There's not that much difference in the attitudes. Most O'Connell executive vice president and general manager of the Boston Red Sox, was named O'Connell, a 29-year man in the Red Sox organization, was selected in a poll of his fellow major league executives.

From Sunrise to Sunset

Yesterday Washington released this sequence, in the form shown with time markings, of five photos of the earth made last Saturday from a satellite hovering 22,000 miles above equatorial South America. The times shown when the pictures were made are local time below the satellite—a position near the mouth of the Amazon. According to NASA, the 7:30 a.m. photo shows storms off the coast of Africa; at 10:30 a.m. the Atlas Mountains were visible in Algeria and the outline of the South American continent emerged; at noon the whole earth disk was seen; the 3:30 p.m. photo showed storms over northeastern United States and the Pacific, and the final picture showed storms dissipating. (AP Photos)

Stocks Rise In Spite of Devaluation

NEW YORK (AP) — Despite the devaluation of the British pound and other important events in the world of finance, national and international, the stock market this week staged its best rise since stocks made their 1967 peak on Sept. 28. It was the third straight week of resistance to the long slide. It lasted six weeks from the September high. This week brought the first solid advance—the biggest for any week since mid-September. The Dow Jones industrial average this week advanced 15.49 points to 877.60. How much further will the recovery carry? Some analysts were quite optimistic about the prospects for a solid year-end rally. Zander commented, however: "Despite progress seems likely to become more difficult as the list approaches what appears to be an area of heavy resistance in the 887-890 zone of the Dow Jones industrial average." The market week began with a jolting decline and continued to "sell" on week-end news that Britain had devalued the pound sterling to 2:40 from 2:60 and at the same time raised its bank rate to 8 per cent from 6 per cent. In Washington, the Federal Reserve Board held the discount rate to 4 1/2 per cent from 4 per cent. The Monday decline was softened greatly by a very

Gold Run Reported 'Near Panic'

LONDON (AP) — London gold dealers report buying orders are arriving in "near panic" proportions from all over the world in the challenge to the U.S. dollar touched off by Britain's devaluation of the pound. But Washington says the dollar is not in an international currency. British financial writers call French President Charles de Gaulle as the villain wiggling on speculators in hopes of ruining the dollar and making gold the No. 1 international currency. Neither the U.S. Treasury nor financial experts elsewhere joined in the finger pointing. However, in Paris Alain Chabanon, an influential Gaullist deputy in the National Assembly, said the gold run was "not the fault of the French government" but could be traced simply to private hoarding. He said the present world financial setup. Chabanon said: "The French government in no way wishes the fall of the dollar and never wanted the fall of the pound. 'It simply notes that the international monetary system comprises grave risks because of the American balance of payments deficit. France wants as a consequence that diverse countries take measures in time to avoid an international monetary crisis in which all countries, including France, would be the victims," he added. France did help to spur the dollar run, however, by announcing it again would demand U.S. gold for its dollar savings. In Washington, officials generally agreed that the U.S. gold supply could outlast the speculative gold run. Gold opened on Hong Kong's free market today with dealers a bit more bullish than usual but only a mild flurry of activity. There was a lack of pressure for gold from Chinese buyers, indicating that in the Hong Kong dollar is still strong. In New York the news of the gold run weakened stocks but early trading was not too bad. There was a gain over Thursday. Fritz Berg, president of the Federation of German Industry, dismissed as "quite imprudent" any speculation that the dollar might be weakened in the near future. Berg, Tokyo, said the dollar will keep its present value despite efforts by some European quarters to devalue it. But he said he disagreed with the so-called French theory that the dollar must be overvalued. He said devaluation of the dollar would make international trade virtually impossible. The United States defended the dollar by continuing to meet the needs of the American and international financial markets. The dollar-dollar gold exchange in early trading but lagged for gold were forced to manage a gain over Thursday. Fritz Berg, president of the Federation of German Industry, dismissed as "quite imprudent" any speculation that the dollar might be weakened in the near future.

Mortars Shatter Quiet in Dak To

SAIGON (AP) — Communist troops fired 25 or 30 mortar shells today at American positions in the Dak To sector, which had been quiet for 24 hours after the bloodiest battle of the Vietnam war. A field dispatch said there were some casualties. American artillery responded with counterfire at suspected positions of the mortar crews, presumably detailed from five North Vietnamese regiments manning in the three-week fight. The show of red opposition in that region of the central highlands followed up nine separate mortar and flamethrower attacks on South Vietnamese military posts, provincial capitals and hamlets from an area north of Saigon to the Laotian-Vietnam border. The Communist prelude attacks on the night of Nov. 22 killed at least 110 of the South Vietnamese soldiers and 12 civilians, including 8 military. Fourteen mortar shells landed near the headquarters of the South Vietnamese 4th Logistical Command, less than a mile south of Can Tho. The headquarters of the 4th Logistical Command was quickly gutted but was quickly repaired. Some enemy soldiers managed to get through the perimeter but were quickly gunned down before they could get to the last line of defense. The enemy soldiers were killed and 40 wounded. The South Vietnamese said they captured 50 weapons including five anti-aircraft machine guns, two flame throwers, and 22 Chinese Communist AK47 assault rifles. In the dawn, one of the mortar attacks was directed near the headquarters of the 4th Logistical Command, less than a mile south of Can Tho. The headquarters of the 4th Logistical Command was quickly gutted but was quickly repaired. Some enemy soldiers managed to get through the perimeter but were quickly gunned down before they could get to the last line of defense. The enemy soldiers were killed and 40 wounded. The South Vietnamese said they captured 50 weapons including five anti-aircraft machine guns, two flame throwers, and 22 Chinese Communist AK47 assault rifles. In the dawn, one of the mortar attacks was directed near the headquarters of the 4th Logistical Command, less than a mile south of Can Tho. The headquarters of the 4th Logistical Command was quickly gutted but was quickly repaired. Some enemy soldiers managed to get through the perimeter but were quickly gunned down before they could get to the last line of defense. The enemy soldiers were killed and 40 wounded. The South Vietnamese said they captured 50 weapons including five anti-aircraft machine guns, two flame throwers, and 22 Chinese Communist AK47 assault rifles.

X-rays Show Toronto Doctor Says Cord Never Severed

TORONTO (AP) — The surgeon-in-chief at Toronto General Hospital said Friday night X-rays show that Bernard Proke's spinal cord never was severed, although the man was shown in an accident in October 1963 he had operated on. Dr. Gordon Murray, 73, senior surgeon at Toronto General, described his operation as "extreme concern about the disastrous effect" the news "had in raising false hopes among relatives of the world." The Toronto Globe and Mail interviewed Murray in Ottawa by telephone and reported he was calm but refused to discuss the details of the operation. Murray was in Ottawa to be the inviter or see a reporter. In Murray's demonstration, Proke was wheeled in on a bed. He pulled up along over the bed and lifted himself to a sitting position. Then, with nurses help, he moved off the bed and

Ex-Judge Auctioned 640 Oregon Acres

BOARDMAN, Ore. (AP) — A former county judge bought a 640-acre tract of land northeast of Oregan land Friday for \$40,200, outbidding a cattle rancher. The scene of the bidding was the federal Bureau of Land Management's auction of 11,860 acres of public land which excited interest throughout the Northwest because of the vast irrigation possibilities of the arid land. It lies two to 10 miles from the Columbia River and now is used primarily for grazing. Despite the spirited bidding, bidders passed over eight tracts as 7,188 acres in Morrow County were auctioned for \$37,000. Bid-

1967 Season For Storms Seen Light

MIAMI, Fla. (AP) — Although the second most severe storm in the United States hit Texas this year, the National Hurricane Center in Miami reports that the 1967 season was light as storm seasons go. Despite the havoc when killer hurricanes Beulah smacked Texas gulf coast and spawned 47 tornadoes, the 1967 damage figures were \$100 million below the average annual damage reports. The 1967 season was the lightest since 1947-48 season, which was far less severe than the 1966 season when 76 storms were killed or the disastrous 1965 season when 1,094 were killed. The damage toll for 1967, originally set at \$1 billion, was reduced to \$775,000 by the report released Friday. In 1966, destruction was up to \$1.5 billion and the year ended with 422,000,000. Only two hurricanes reached the mainland. The hurricane center said one, Hurricane Doris, was more powerful than destructive, although she was blamed for three deaths of Ocean City, N.J. "Damage for Doris can be considered minor," said Arnold Bugg, acting chief of the center. A substantial Greek vessel used to the storm but the amount should not be part of the damage report since the vessel was not carrying cargo and the vessel was not damaged. Doris, the fourth of eight tropical storms in the season, was the last to be named, crossing the southern Atlantic.

Navy Head Closes Log In Skipper Appeal Case

WASHINGTON (AP) — The secretary of the Navy closed the books on the case of Lt. Cmdr. Marcus A. Armbuster, who tried unsuccessfully to be relieved from command of a ship. The Navy said Friday that designated skipper of the Vietnam-bound USS Intrepid, "after very personal consideration" has concluded there is no valid reason for altering the decision that Lt. Cmdr. Armbuster's further assignment to duty would be inappropriate. Inquest refused Armbuster's request to authorize a court-martial. Armbuster was relieved after three months in command of the
