Problems Summery Can't Cure

In none of the relationships which make up the pattern of world diplomacy are the simplistic answers potentially more treacherous than when they concern the future of the United States and Japan.

Not what the two of us pledge each other we will do, nor what each of us might really want to do, has very much importance alongside what both of us will, sooner or later, feel impelled to do.

But none of this token agreement, none of this civilized effort to keep the things we cannot talk about and agree upon from becoming our masters rather than just our problems - none of this promises very much in the way of real hope.

For a real hope for the future relationship between the United States and Japan, between Japan and the rest of the world, it seems almost necessary to change the whole context of world life.

Otherwise there cannot be any guarantee that the token diplomacy of today, with its palliative, postponing fringe agreements, will be any different in its relationship to the future than the naval limitation treaties of the 1920's had on what happened at Pearl Harbor on Dec. 7, 1941.

What are the basic, undercover issues inside the United States-Japanese relationship? They concern the production and trade war, with its need for markets and economic sway, which is developing between us. They concern the question of how soon Japan, probably with our encouragement, going to turn itself into a military power again, and then how, eventually, it is going to feel compelled to use its military power. They concern the smouldering question of whether it continues to make a subtly motivating difference to either of us just what shade of skin we wear.

These are the problems that are involved. Not to admit them and tackle them and resolve them is to concede their terrible power to take over again, some fateful day.

But to try to deal with them without changing the context and custom and practice and law of all world relationships is almost as tragic as not trying to deal with them at all. They will not yield to even the very best of summit diplomacy. They will never become subservient to even the finest, most harmonious temporary concert of great super powers.

There is on the horizon no hopeful rainbow pointing down to a chance that human history will cease repeating its own mistakes. The mistakes are everywhere now on the road toward being repeated. The low, guttering, never quite extinguishable hope is that all nations, big and small, great and puny, powerful and weak, will someday submit themselves to the same kind of law so that there may be kept, in the world as a whole, some of the same kind of order as each usually manages to keep inside its own borders.

All \$2.5-Billion Of Him Howard Hughes, reappearing after 15 years at least to the extent of staying on the other end of a telephone marathon conversation for three long

hours, convinced the newsmen who were talking with him that he was himself the genuine article. He didn't necessarily convince them when he was telling the whole truth, however, when he proceeded to deny every possible connection with what has been announced for publication as an "authentic" autobiography of himself.

For most of us, it will make precious little difference, anyway.

What we might have been interested in, on this reemergence of the mysterious recluse, would have been some insight into whatever wisdom or philosophy he had gained during what has really been nearly 30 years of ornate and expensive privacy.

He confessed that, for all his \$2.5-billion fortune, he had still not achieved happiness.

He volunteered the information that, whatever his inability to explain his original decision to become a recluse, he would now like to work his way forward out of that state.

But such testimony wins him no prizes.

A lot of us haven't had to accumulate quite that much money to discover that the accumulation of money, in itself, produces diminishing happiness. And most of us have already discovered that as little a time as 24 hours of being ourselves off from the world around us is more of a bore than a privilege.

Unintended

What is it like, you ask, to be among the apparently dwindling number of American newsmen who have not knowingly been investigated by agents of the federal government?

Actually, I comfort myself, a great many of us are in the same boat.

Where did we go wrong? Recently the Associated Press reported that correspondents in the Pentagon newroom found their desks had been rummaged through and the following note left:

"An inspection of this office area by the Pentagon Counterintelligence Force revealed no violations of security regulations."

But no one over the age of 14 has taken the initiative to rummage through the desk where these words are being written.

Earlier the press reported a federal investigation of network broadcaster Daniel Schorr, a former newspaperman whose copy I once edited, if memory serves.

But no one has leaked that any federal agents have shown an equivalent interest in me.

And, back in the Kennedy administration, when the government wanted to know between Japan and the rest of the world, it seems almost necessary to change the whole context of world life.

Otherwise there cannot be any guarantee that the token diplomacy of today, with its palliative, postponing fringe agreements, will be any different in its relationship to the future than the naval limitation treaties of the 1920's had on what happened at Pearl Harbor on Dec. 7, 1941.

Inside Report

Having chafed for months under the criticism of being "wishy-washy" and avoiding politically-tough positions on controversial issues, Sen. Edmund Muskie of Maine cast aside restraint in his first authentic campaign swing in a way mightily pleasing to Democratic liberals but which may hurt him on the long road ahead.

In the process, Muskie made one thing perfectly clear: The war in Vietnam, far from being a fading issue, promises to be the stepchild of the campaign. Moreover, in dealing with the war issue, the front-running Democratic Presidential candidate wrote the stark scenario of an American pullout from South Vietnam "every soldier, sailor and airman - which could result in the total loss of any recognition from the vast American investment in the endless war."

Referring to the \$2,000 American dead on the battlefield and the \$25 billion poured into the war, Muskie told a packed, sweaty "campaign-kickoff" rally Thursday night in a Manchester, N.H., hotel ballroom: "All this will have been wasted ... (and) the sooner we understand that the better off we and the people of Vietnam will be."

After this complete American withdrawal, Saigon and Hanoi will settle the war issue between themselves "and we may not like" the settlement. The only point Muskie dodged in this sharpened speech was President Nixon's end-of-war policy (leaving a residual force in Vietnam and continuing the use of American air power) was whether he would extend military aid to Saigon after the total U.S. withdrawal. Muskie has refused to box himself in on that vital question. If elected President, he might find continuing U.S. military assistance essential, despite his words of Tuesday night.

Even though he kept open the question of a space-shuttle program in the future, Muskie's frontal attack on it as of today is bound to hurt him in the primary election campaign. Yet he showed not the slightest politi-

cal concern about expressing himself unequivocally. This, Sen. Muskie has emerged with the formal start of his drive for the Presidency. Released and self-confident, he seemed more at ease with himself and his unfolding program than in the long period of introspection that followed his triumphant televised speech on the eve of the 1970 Congressional election.

Whether the new and unconventional mood of stark candor - calling the shots without trimming - will persist or prove his undoing, the future will tell. For the moment, there is nothing "wishy-washy" about Ed Muskie.

Muskie's sharpened stand on ending the war follows two events: The sudden increase in U.S. bombing, which is bringing the war back into the headlines; and polls taken by the Senator's staff in Florida indicating not only a huge rise in sentiment to get out of Vietnam but a large majority against any more aid after the pullout. Muskie staffers attribute much of that sentiment to the new legislation.

The war was not the only issue Muskie hit with uncharacteristic sharpness. On Friday in Orlando, speaking to a standing-room-only luncheon crowd in Florida, the heart of Florida's depressed space industry, he implored that the \$1-billion space-shuttle program President Nixon unveiled last week was a "wet blanket" project. It must wait for far more urgent spending programs, he said, such as mass transit, health and education.

But that big budget was being to be in favor of an income tax was already apparent, last year, when the state did it in and out of the income tax tango, and its effect, then, seemed to be to create votes against the tax as well as some votes for it.

"The 1972-73 standards would be a technical and engineering disaster," said Terry, Chrysler Corp. vice president for safety and environment, on auto emission standards established by the Clean Air Act of 1970.

"We must now recognize that education is not a railroad line with a terminal point at the end," Allan Ostar, executive director of the American Association of State College and Universities, on the need for continuing education throughout the lifetimes of a person.

"State and local officials have clung to the ways of the past in an effort to keep the reins apart in one of the most important functions of government - the education of our children," District Court Judge Robert R. Manning, in ordering a merger of schools which cut across local government boundaries in the Piedmont, Va., area.

"I realized the substitute was doing a much better job than the principal would have done," President Nixon, as the role of his wife Pat during a trip to Africa as a personal representative of the resident.

Connecticut Yankee

By A.H.O.

Only a few days ago we were noting how the political roof seemed to fall in on Republican State Chairman Brian Gaffney, because he had dared think out loud that an income tax might be inevitable for Connecticut.

Today, perhaps in proof of that inevitability of which he spoke, he could make the same remark with considerably less political risk.

There is that thing about the income tax - that the moment in which it is pronounced does not in the long period of intro-spection that followed his triumphant televised speech on the eve of the 1970 Congressional election.

Whether the new and unconventional mood of stark candor - calling the shots without trimming - will persist or prove his undoing, the future will tell. For the moment, there is nothing "wishy-washy" about Ed Muskie.

Muskie's sharpened stand on ending the war follows two events: The sudden increase in U.S. bombing, which is bringing the war back into the headlines; and polls taken by the Senator's staff in Florida indicating not only a huge rise in sentiment to get out of Vietnam but a large majority against any more aid after the pullout. Wishy-Washie' Muskie?

By Rowland Evans Jr. and Robert D. Novak

This hardened peace position Muskie will undoubtedly help him in the primary battles against Sen. George McGovern of South Dakota, in New Hampshire on March 7, and against McGovern and New York Mayor John F. Lindsay in Florida a week later. Both are all-out doves.

But its potential danger became clear when, in the midst of his words on Vietnam at the Manchester rally, a dissenting voice from the cheering crowd yelled: "What about our prisoners of war?" Muskie's reply: "The POWs would never be freed by the enemy until the end of the war is negotiated under the terms Muskie outlined."

Muskie's sharpened stand on ending the war follows two events: The sudden increase in U.S. bombing, which is bringing the war back into the headlines; and polls taken by the Senator's staff in Florida indicating not only a huge rise in sentiment to get out of Vietnam but a large majority against any more aid after the pullout. Muskie staffers attribute much of that sentiment to the new legislation.

The war was not the only issue Muskie hit with uncharacteristic sharpness. Tribe Risks Skein With Conard

By DEAN YOST
Before the Manchester High basketball team took the floor, this season, Coach Jim Moriarty commented: "We are going to be gold-an." This early prediction isn't one reason why Manchester is on a three-game winning streak. Herdic's counterpart, Danny Carlin, missing all last season, Conard High in West Hartford due to ineptly, has performed for a key CCHL meeting. Tip-off was scheduled for 8:15.

In other school sport action tonight, slumping East Catholic (1-1) meets St. Paul's in Bristol in a non-conference tilt. Unbeaten Ellington High, 4-0 in the NCCO and 7-0 overall, hosts Suffield High, 1-3 and 3-4. Collar dwelling Southwind High, 1-5 in the Central Valley Conference, meets South Windsor High, 5-1, in another CVC contest, Rockville High, 2-4, visits Windsor High, also sporting a 2-4 conference mark. Charter Oak Conference mark, Charter Oak Conference's first time in the Big Red Machine has tallied 15, 22, 12 and 19 points in its first two games for Manchester. The left handed shooter has tallied 15, 22, 12 and 19 points in its first two games for Manchester. The left handed shooter has tallied 15, 22, 12 and 19 points in its first two games for Manchester.

Win Streak of Hartford Ends at Nine

By THE ASSOCIATED PRESS
Two of Connecticut's top college basketball teams established 91 records Monday night as Sacred Heart crushed St. Joseph's and the University of Hartford lost to Boston.

Sacred Heart boosted 47 point junior Ray Vyas and 40 points from veteran Ed Carroia in its 133-90 win over the tough St. Joseph's team. Vyas and Carroia combined for 67 points compared to the visitors' 37.

Vyas' 47 points surpassed the Sacred Heart record of 46 set earlier this year by Carmelo. Sacred Heart has lost only one of its 10 games so far.

The University of Hartford lost a heartbreaker, 106-96, in overtime against Stony Brook over the weekend. Hartford was ahead with just under 1:30 to go in regulation play, three fouls counted. The coaches were expelled, free-throw line to tie the game and with 27 seconds remaining. In overtime, Hartford was ahead 67-61 in the first half. Hartford is now 9-1. Pete Beard, a second-year pro, scored 21 points for Hartford, while captain Ed Whitehead got 25.

Westside Midgets
Northwest 2-0
Xavier 1-0
East 1-2
St. Bernard 0-2

East Side Midgets
Bill "The Bull" Talbot's rebounding and Glenn Dobbin's shot shooting gave the Danvers team a 74-60 victory over the Kennerly team last night at the East Side gym. Another key to the Danvers win was the rebounding from Steve Kalos (5), Don Dobbin (3), and Talbot (6). For the Kennerly team, Greg Smyday (4) teamed up to set the pace. Steve Morand scored 12 points, while Greg Smyday scored 10 points.

Businessmen's League
Roberts Electric placed five players in the top 10 in the all-star game. The team was led by Bill Sherman, who scored 26-12 last night. Bruce Hince and Gus Anzelle paced the winners' attack with 10 points apiece. Paul Hince, Clay Hince and Mike Anzelle netted 18, 17 and 13 markers respectively.

Senior II
Front-running Bill Moon Restaurant rolled over Allied Printing, 114-69, in the nightcap. The Moon team played with a double digit lead over Allied to a 21-10 halftime lead. Mike Kennedy (19), Rich Reynolds and Rudy Wittke (13) rounded out the scoring.

Miracle Par on Fifth Hole Clinched Win for Archer
LOS ANGELES (AP) — "You know," Tommy Aaron muses in characteristically first hole and birdied, but thought, soft-spoken fashion, "it's almost impossible for George Archer to make a second hole, and Archer led the way."

UCLA Cleans Up In Basketball Poll

NEW YORK (AP) — After wiping out the state of Oregon, UCLA cleaned up in the college basketball polls. The Bruins, who trimmed both Oregon State and Oregon over the weekend, continue to ride high, wide and handsome as the nation's No. 1 team today.

A nationwide panel of sports writers and broadcasters voted on 28 of 41 first-place ballots to name UCLA as the nation's No. 1 team today. The rest of the blue ribbon group includes: No. 11 Villanova; No. 12 Florida State; No. 13 Southwestern Louisiana; No. 14 Brigham Young; No. 15 Kentucky; No. 16 Hawaii and No. 20 Marshall.

Ski Notes

By BILL SCHERER
Bronley Mountain — The sun and mild weather is aptly named. I was here to ski, check out the first race of the Can-Am series and testify for the EWBA meeting, which each team successfully converted. One fight on the hard-wood was a first fight between two technical fops, which each team successfully converted. One fight on the hard-wood was a first fight between two technical fops, which each team successfully converted.

End of the Line
NEW YORK (AP) — Connecticut will take place on Saturday, Jan. 29 in New Haven. A half dozen men from the Connecticut State team (down) to sign autographs and meet the fans from 10 a.m. to noon and a press conference at 1:30 p.m. in the afternoon.

Here in There
Up and around following the surgery is Dick Cobb Jr., a member of the physical education staff at Manchester High School. Cobb is a member of the physical education staff at Manchester High School.

The Herald Angle

Off the Cuff
Basketball buffs, after watching the Milwaukee Bucks snap the Los Angeles Lakers' winning streak in the NBA, have an opportunity to watch two of the country's top-ranked college fives play on the same court last Sunday. One is the game's highlights, if you want to call it that, between Marquette and Marquette and 6-10 Tom Riker of St. Both were banished and each penalty called for two fouls, which each team successfully converted. One fight on the hard-wood was a first fight between two technical fops, which each team successfully converted.

Shula Assures President He'll Use White House Play

NEW ORLEANS (AP) — Don Shula guarantees it will use Tom Landry figured it will be Paul Warfield is playing coy about it. Mel Renfro knows he will have to stop it. Everybody on the Super Bowl team is talking about it—except Duane Thomas, who isn't talking to or about anything.

Two Points of View—President Nixon: Paul, go down the left sideline, cut toward the middle of the field. Bob Griese will throw a pass to you. I'm sure it'll be good for a long gain; Paul Warfield, Miami Dolphin receiver: But that's not necessarily my best pattern, Mr. President. (AP photo)
