

East Catholic Best in State Class L Hoop Tourney

By DEAN YOST
(Herald Sports Reporter)
At 4:37 Saturday afternoon at the University of Connecticut's Field House, East Catholic High School ended one of the most exciting CIAC Class L basketball tournaments when it handed high-scoring Warren Harding High of Bridgeport a 45-42 setback. In doing this, East captured the state title in the L Division before an estimated crowd of 2,800.

East Catholic has been in the winner's circle before. In 1964-65 the Eagles captured state Class M honors under head coach Don Burns and then in 1967-68 they won again under Burns the Class L championship. For the past three seasons East has been runner-up before giving present mentor Stan Ogrodnik his first state honor.

The contest Saturday wasn't a shooter's dream. East Catholic finished the afternoon netting 13 of 43 field goals for 30.2 per cent while Warren Harding tossed up 68 attempts and scored only on 19 field goals for 27.9 per cent. The outcome was decided at the foul line where the winners connected on 19 of 28 attempts and Harding 4 of 7 tries.

"Our defense really came through for us," Ogrodnik remarked after the traditional victory shower by the jubilant Eagles. Still soaking wet he said, "We took their fast break away from them and it hurt them."

After most of the reporters had cleared the Eagles dressing quarters, Ogrodnik pulled out a worn index card with notes of Harding on it, on the top it read "Don't let them break."

Harding entered the finals with some impressive statistics. They scored 133 points on one occasion, averaged 92 tallies a contest, and the starting five averaged in double digits.

East didn't bother reading Harding's facts and figures, but the Presidents must be reading East's now.

Always the underdogs, since the quarterfinals with South Catholic, East had been faced with the task of going against taller opponents, but Kevin Tierney, Tim Quish, Bill Gorra and John McKeon, displayed the importance of position under the hoop and continually out rebounded the giants and changed the game's tempo completely around.

Brezhnev Plans Realistic Talks

MOSCOW (AP) — Communist party chief Leonid I. Brezhnev said today Soviet leaders will talk with President Nixon in May from "businesslike, realistic positions" and with the belief improvement of Soviet-U.S. relations is possible.

Speaking to the opening of the 15th congress of trade unions in the Kremlin, Brezhnev said Nixon's visit could take an "important place" among meetings between world leaders.

China was a "natural phenomenon," Brezhnev observed, but "facts, the subsequent deeds of the United States and China, will speak the decisive word about the significance of the Peking talks" between President Nixon and the Chinese leaders.

Irish Bombing Leaves 6 Dead

BELFAST, Northern Ireland (AP) — A 100-pound bomb blew up into a rolling ball of flame on a crowded central Belfast street today, killing six persons and wounding 146 others.

Police said terrorists, who set the bomb outside a Protestant newspaper, tricked many persons into running to the scene before the bomb went off.

Two of the dead were policemen. "Among the people we got into ambulances was a child that I'm sure was dead," said a rescue worker.

Drug Crackdown Sought by Nixon

NEW YORK (AP) — President Nixon called today for "strong, tough prosecution" to crack down on the traffic in dangerous drugs.

Flying here for a three-hour visit with Gov. Nelson A. Rockefeller, law enforcement officials, undercover operatives and customs agents, Nixon called the drug traffic "the most reprehensible of all crimes." He said, "It strikes at the very heart of the society in which we live—it strikes at the fabric of American life."

He said he wanted an all-out offensive and "absolutely no permissiveness in this field whatsoever."

The President said he is not one of those who believes that marijuana should be legalized.

New York is also an area with "probably the largest concentration of heroin addicts in the nation," said Myles Ambrose, head of the justice department's new office of Drug Abuse Law Enforcement.

Confessions Study Going Before Court

WASHINGTON (AP) — The Supreme Court today agreed to reconsider the "hypertechnical requirements" of the 1966 Miranda decision limiting use of confessions at criminal trials.

The court acted at the request of Philadelphia prosecutors who asked for re-examination in light of the 1968 Federal Crime Control law, which eased rules against confessions for federal trials.

The case, to be heard next term, concerns a Philadelphia man, Paul D. Ware, who confessed in 1963 to the slaying of four elderly people. The Miranda ruling barred use of the statement by the time he was ready for trial.

There was no elaboration from the court as it announced it would hear the appeal. Therefore, the extent to which the Miranda decision will be re-evaluated will not be completely clear until the case is argued.

In other action, Chief Justice Warren E. Burger encouraged

states to make it a crime to show explicitly sexy movies at drive-in theaters whose screens are visible to teenagers and other passers-by.

Burger presented his view as the court upset the obscenity conviction of a Washington state drive-in owner on ground that the law under which he was convicted did not put drive-ins in a special category.

The court also ruled that college students seeking the right to register as voters in their college campus towns must fight their legal battles as individuals, not as a group.

Muskie Racing Toward Comeback

CHICAGO (AP) — Sen. Edmund S. Muskie is campaigning for a comeback in Illinois, while Eugene J. McCarthy and Sen. George McGovern seek votes in hopes of dealing a double blow to the Democratic presidential campaign of the demoted front-runner from Maine.

The three Democratic rivals campaigned across the state today in the windup of the third heat of the presidential primary season, with Muskie in need of big victories in a pair of contests.

He faces McCarthy Tuesday in a presidential preference vote which is not binding, and McGovern in a complex delegate selection contest which is.

The voters will be choosing 150 of Illinois' 170 delegates to the Democratic National Convention, by far the biggest crop of nominating votes at stake in early season primary contests.

At least half the delegates are expected to remain beyond the reach of either Muskie or McGovern. They will be elected

from uncommitted states controlled by the Democratic organization of Chicago Mayor Richard J. Daley.

The presidential rivals are not bucking the mayor in his Chicago domain. Neither are entered delegates in five city congressional districts where 56 will be elected. One of the delegate candidates will be Daley himself.

Some two million Illinois voters are expected to cast ballots Tuesday—to have their say on the presidential campaign and to decide whether Lt. Gov. Paul Simon, the Daley-backed candidate, or rival Daniel Walker will be the Democratic nominee for governor.

Incumbent Republican Gov. Richard B. Ogilvie is expected to win the GOP nomination handily over only token opposition.

McGovern is running 104 delegate candidates in 19 of the state's 24 congressional districts. Muskie's organization has endorsed 108 delegate candidates in 17 districts, although

there are 161 Democrats on the ballot listed as committed to the Maine senator.

Anyone can file as a delegate in behalf of any candidate he chooses, and that is part of Muskie's problem. In one district 12 Muskie delegates are competing for six seats, which could divide the vote and elect McGovern delegates.

Another problem for the Maine Senator is that McGovern supporters are likely to boost McCarthy's vote in the preferential primary, with McCarthy backers returning the favor in the delegate contests.

There is no preference primary on the Republican side, but GOP voters will be asked to endorse 48 Republican National Convention delegates. All are committed to President Nixon except for seven who are running uncommitted.

McCarthy has paid scant attention to the delegate contest. He has concentrated his \$250,000 campaign, which features a big television advertising push,

on the preferential contest. It is his first campaign of 1972, and if he can't make a substantial showing, it could be his last.

At a fund raising dinner Sunday at suburban Wood Dale, Muskie decried the increasing split in Democratic ranks. He warned that Democratic voters "do not have the luxury of voting their prejudices in March if they want a responsible choice of nominees in November."

Muskie came to Illinois after a damaging, fourth-place finish in Florida last Tuesday, where he gained 9 per cent of the vote.

And the Gallup Poll reported Sunday that Sen. Hubert H. Humphrey now leads Muskie, 35 to 28 per cent, as the preference of Democrats for the 1972 nomination. The poll was taken between March 3 and March 5.

"To reach the presidency, I'm told I face an uphill fight, but let me tell you, I'm not going to stop until I win," Muskie said in Chicago Sunday, cam-

Dita Beard: Blunt, Loyal, Competitive

By MICHAEL KERNAN AND DOBOTHY MCCABBLE Mrs. Beard, an inveterate camper, moonbaker and skier, owns a red Volkswagen bus fitted out with pillows and blankets. She is a woman, a fully stocked bar, a woman who apparently does not believe in the competitive, drink-freeing it herself and told him to get in the bus and relax with the Martini's. The military money is to be used. Well, pretty soon some other kids came along and saw what was happening and next thing you know they were hawking. The International Telephone and Telegraph Corporation lobbyist is a central figure in the controversy surrounding Richard Kleinfelder's nomination as attorney general. A memo, reportedly written by her to her boss, linked settlement of a government artifact case against ITT with a subsidiary firm's promise of financial aid for the Republican National Convention. Now isolated in a Denver hotel and suffering a heart ailment, the 53-year-old Mrs. Beard has been an enigma to the public. But this week emerges from old news clips and interviews with her family and associates. A Washington debauche in 1959, daughter of Col. (Later Gen.) Robert Davis, the Kansas-born Miss Davis was called a "cosmopolitan" by gossip society writers. She rode horseback, swam, hunted and played tennis, loved opera and Bach and Chanel perfume, was a crack shot and a fine dancer. She Loved Bach Twenty years later, separated from her second husband, she determined not to seek financial help from anyone, she worked parttime or fulltime as a secretary and even ferried cars to help keep her Arlington home and to support the children. She was to pay for educating all of them from prep schools to law school, though she herself never completed high school, after a brilliant start and skipping grades almost yearly. The children are Edwin M. Lane (Lance), who works for the Republican National Committee; Benjamin W., 24, a law student at Florida State University; Robert Davis (Dave), 23, a University of Virginia graduate who works for a law firm in Denver; Emma Lundy, 18, in Tennessee, and Cameron (Bull), 16, at a private military school. Benjamin gave this picture of his mother: "People have said that she used bad language (some associates have called her Palestine) and she was very profane (and for her the only profane words were those of decent and dishonesty. Sure she used some four-letter words, but it was just for effect. She wants to like people; she is an optimist who tries to believe she's a cynic. The main things she wanted to see were her children and her family and family unit. She couldn't stand lies. One issue in testimony before the Senate Judiciary Committee was Mrs. Beard's drinking, described by her own physician as "excessive when under tension." A frequent visitor at the Capitol Hill Club, next door to Republican National Committee headquarters, she was usually quiet, according to the manager, who said he "never saw any evidence of too much drinking. Others say they have heard her say they have. "She is a hard drinker," said Ben Beard, "but she has great capacity. I never heard of her getting drunk in public. She would get so giddy she might take a family Christmas party. Mrs. Beard's attorney, David Fleming, said "she's never missed a morning meeting in her life. She was loyal to our country as a family Christmas party. Mrs. Beard's attorney, David Fleming, said "she's never missed a morning meeting in her life. DR. LAWRENCE E. LAMB Cholesterol Block Is Problem Artery Surgery May Be Risky

By Lawrence Lamb, M.D. Dear Dr. Lamb — I am a man 80 years of age and have had a long history of high cholesterol. My doctor is giving me a statin medication, but he said this will not give me much relief and the only thing that may cure me is an operation, cutting the artery and cleaning it or placing a tube in the artery. He said at my age this operation had a 50-50 chance of being fatal. Without an operation, I could have a stroke. Is there any medicine that will remove this cholesterol block from my artery without an operation? Dear Reader — I wish it were possible to give people like you a magic pill that would dissolve the blockage in their arteries, but it isn't. This is a good example of why prevention is so much better than the cure. The problem is that sometimes the arteries are so clogged that they are causing dizziness and fainting spells. Is there any medicine that will remove this cholesterol block from my artery without an operation? Dear Reader — I wish it were possible to give people like you a magic pill that would dissolve the blockage in their arteries, but it isn't. This is a good example of why prevention is so much better than the cure. The problem is that sometimes the arteries are so clogged that they are causing dizziness and fainting spells. My doctor is giving me a statin medication, but he said this will not give me much relief and the only thing that may cure me is an operation, cutting the artery and cleaning it or placing a tube in the artery. He said at my age this operation had a 50-50 chance of being fatal. Without an operation, I could have a stroke. And the people happen to be, going back to that original paragraph again, the voters who are trapped in an "anxiety about where the country is heading, a sense of helplessness against the hazards of modern life, and a growing distrust of the nation's leaders" — politicians, businessmen, or labor leaders.

It is the evil beauty and strength of the Wallace position that he expresses everybody's particular discontent with the way things are now organized and run in this country, offers his own vague but very eloquent solutions, and then, somehow, himself escapes from having himself classified with any of the other would-be leaders of whom he warns the people to be suspicious.

Somewhat, then, Wallace manages to cut in closer to the people of our various groupings than their own acknowledged leaders can seem to get.

But, although the extreme leadership of all these various groupings does unite in condemning and warning against Wallace in its oratory, it cannot unite against him in the primary voting. It itself still has to split among a number of candidates the votes it can keep away from Wallace. This may make it possible for him, by wooing some votes away from each of them, to become the winner in more than one state.

What this all really means is that no nation can drift into so much hypocrisy, cynicism, and loss of respect for and faith in itself as our current "malaise" indicates without running the danger of making itself the victim of the biggest snake oil salesman who comes along.

Every bit of Wallace's strength lies in the failure of those who have been holding positions of leadership, and of us all.

Spring Planet Show

One way to turn a reader off to begin by saying that something was the greatest, or the most beautiful, the four letter word which spells down a superlative is risk.

But if we were ever willing to risk a superlative, it would be for the display presented in the western evening sky these nights in which winter has been yielding to spring.

In that sky, the new young moon has been climbing a great staircase of the planets, up past Venus one night, an imaginary foot on Mars last night, with Saturn offering the third step for tonight, if skies continue clear.

On the left side of the great staircase, fixed in the sky like an ornamental scene of superb artistry, there is the classic figure of Orion.

Orion in the western sky at evening has always been as romantic a sign of spring as it is, with his rising in the early evenings of autumn, the warning signal of the clear, cold beauty of winter. But the present congregation of planets in the same sky sector makes what we see in this spring of 1972 certainly, and without fear of being superlative, the most beautiful of all evening skies, ever.

Conquering Heroine?

There are vote returns from India which, if it weren't for what may be the underlying explanation, would be considered good news.

Prime Minister Indira Gandhi and her Congress Party have been scoring sensational successes at the polls all over the country, smacking both rightist and leftist regimes which had been in power in various Indian states, and restoring the Congress party to a position of undisputed national leadership stronger than any it has held since the days of Nehru himself.

Such election results offer a prospect of stability and national unity which could clear the way for more effective governmental leadership in many constructive aims for the people of India.

This sudden tide of popularity for Prime Minister Gandhi and her party could, however, also be alarming if it happens to be based on the fact that she has just led her country to victory in a war with Pakistan. Has it been war which has united her people behind her? Is her new popularity that of the Commander-in-Chief? Has she now discovered, and tasted, the dangerous kind of domestic success which relies on the slaying of foreign dragons? And in India about to behave more and more like a nation just beginning to discover its own military prowess?

Why Wallace Has Strength

Take, for a starting point in your thinking about this nation's political picture, the following paragraph from an analysis of the "nation's mood" in this election year in the Wall Street Journal.

The paragraph reads as follows: "Underlying all the other issues is a deepening malaise among voters. It shows up mainly as an anxiety about where the country is heading, a sense of helplessness against the hazards of modern life, and a growing distrust of the nation's leaders — whether politicians, businessmen, military officers or educators."

The writer could have extended that list to include commentators, editorialists, and labor leaders among those the voters are willing to distrust.

Now, from the vantage point of that paragraph, think back to the Florida primary, in which Governor Wallace triumphed, and then think ahead to all the other primaries where Wallace now has all the other contestants quaking in their campaign books.

Notice that every other Democratic candidate, not merely Muskie, but every other candidate, whatever his own position in the political spectrum, has resumed his post-Florida campaigning with an attack on the demagogue Wallace.

Notice that, in the country as a whole, the fear and condemnation of Wallace spread through almost all the organized segments of American life, and quite logically so, since he yields his own respect to none of them. He promises, in his campaigning, to break up great wealth. He succeeds, in his campaigning, in stealing organized labor's votes right from under its own favorites.

Every grouping which has a stake in the status quo in this country is against Wallace. It will be the labor union leadership, for instance, which will be leading the effort to oust Wallace down in the next primaries in which he is entered. The difficulty of its effort can be described by saying that Wallace already, in Florida, walked off with an identifiable portion of the labor vote there.

Although every grouping is against Wallace, each of these groupings depends, in its turn, on people.

What's For Breakfast?

If it sometimes seems that the United States is becoming a crummy country, the reason may be that there's nothing to eat for breakfast.

The thought springs to mind after consideration of the Federal Trade Commission's current attack on the manufacturers of cereal. The commission says the cereal people enjoy a "sheltered monopoly" that keeps prices higher than they would be if real competition existed. Without prejudging the case, one has only to observe the prices on boxes of cereal to begin thinking in terms of amicus curiae and class-action suits.

But the problem is not only the price of the stuff. It is the stuff itself. We are advised by medical experts to limit the intake of eggs because of cholesterol. Coffee and coffee sweeteners have been implicated in certain diseases. Waffles and hot cakes, while thus far free of morbid associations, are too banal to be worth the better splinter.

Sausage is suspect of the exotic nature of its ingredients, and bacon contains enough animal fat to give one pause. Citrus juices produce that burning sensation. Hot oatmeal and its kindred porridges do not excite. And man cannot live by toast alone.

So we are left with such materials as Puffa Puffa Rice, Froot Loops, Kahoomb, Quisp, and Quaggaroon. Oh, America, take care. Civilization has perished for smaller cause.

The time has come to face up to the crisis of the morning meal, and the President should appoint a special commission to find new alternatives to the nation's grain breakfast fare, perhaps the answer lies in a crash program to increase production of rainbow trout, kipper, and salmon. Or maybe we must settle for something in a tube, astronaut-style.

It is imperative that our resourcefulness be equal to this social need. For if a big war comes, it will probably come in the morning, when national leaders are most likely to have empty stomachs and empty hearts. Who, after all, feels like doing anything else? EDWIN A. ROBERTS, JR. OF THE NATIONAL OBSERVER.

Inside Report

Democrat Wallace

By Rowland Evans Jr. and Robert D. Novak

WASHINGTON — One reason Democratic party leaders now feel that Gov. George Wallace will not run as a third-party candidate is that he has been so scrupulously polite performance at a Feb. 21 closed-door session of Democratic governors in Annapolis, Md.

The purpose of that session, unreported until now, was a strong appeal for party unity by Lawrence F. O'Brien, Democratic national chairman. When O'Brien finished his one-hour talk on the perils of third-party presidential politics, Gov. Robert Scott of North Carolina looked at Wallace and asked:

"Well, Governor, I suppose you are now going to demand equal time." Wallace, who had listened intently to O'Brien's attack on the manufacturers of cereal, said he had no argument with O'Brien—that is, he would not defend his own American Independent Party. "It's quite satisfied," Wallace told O'Brien.

Moreover, Wallace soon afterwards pointedly let it be known the Mianial Beach convention to the Mianial Beach convention will take the same loyalty pledge as other delegates. A pledge not to support any presidential candidate other than the convention nominee.

That word was dropped quietly to national party headquarters via Southern governors friendly to Wallace. Wallace repeated it publicly on Jan. 28 on CBS' "Face the Nation."

Thus, if Wallace cannot tailor the Democratic platform to his own liking and walks out of the convention, top party officials think he will sit out the 1972 campaign.

In view of Wallace's love for the limelight, that may seem highly improbable, but perhaps no more improbable than the Wallace decision at Annapolis to reject business sessions at the Democratic governors' organization for the first time since his re-election.

Vulnerable Kissinger

The fact that the Democratic party is now mapping a political attack on Henry A. Kissinger as the sinister shaper of foreign policy, wholly immune by Congressional questioning, will not change President Nixon's legislation not to let him testify on Capitol Hill.

Kissinger has made it clear privately that he would in no way resist testifying before Congressional committees (as contrasted to informal hearings). Nixon insists that if he permitted Kissinger to testify,

"Hate Oil!"

To the Editor:

Yes, Mr. Consumer, there is a Santa Claus! I have had excellent cooperation and understanding from the Department of Consumer Protection with respect to a very misleading advertisement of a sale item which was "sold out" by the time my newspaper was delivered, at which time I made a special trip to the store for one particular item.

The name of the item or the store are not relevant since my purpose in writing this letter is to inform the average consumer that when you evaluate both sides of a situation and honestly state your opinion, you are well served. For many years local administrators and board members have wanted to set their own budgets and tax rates. This would amount to these school officials writing their own ticket. Such an arrangement would virtually assure them of a complete dictatorship and mastery over the school which has to pay the bills.

This was the first time I had ever approached such a state agency and I was amazed to learn how quickly my complaint was investigated — only to see that I was indeed correct in this particular situation. Next time you feel that you have been taken in by "misleading" advertising, don't go home and just stew about it. Write a letter to the Department of Consumer Protection. I am extremely impressed with the interest of this department in helping the consumer. Hats off to Commissioner Barbara Dunn and her staff. I feel they deserve it.

"Redwing, Hurry!"

To the Editor:

Last Saturday morning we noticed our redwinged, black-feathered curlew harbinger of spring, bravely clinging to one of the last cattails remaining on the debris-strewn banks of Hilliard Pond.

Somewhat we got our usual lift at the sight of him—gay soul that he is. Indeed he represents a persistence, a sort of promise, for lovely spring days to come. What matter that he swayed in the wind above a shoreline of man made neglect — old tires, supermarket carts abandoned, recent hard fill from who knows where?

He represents springtime! Redwing, Hurry!

"Faith, Hope And Charity"

To the Editor:

This article was written by my husband Oscar G. Anderson who passed away Mar. 22, 1970.

Would you please print it in your paper in memory of him. Thanking you very much, and God bless you.

"In First Corinthians 13 verse 13 are recorded these words: 'And now abideth faith, hope, and charity, these three, but the greatest of these is charity.'"

"Faith, Hope, and Charity, what happy thoughts these brought symbolize in comparison to selfishness, hatred, and greed which are so common in our world today."

"What is faith? Faith is a firm conviction of a truth which is declared by another, a belief, a trust, especially such belief and trust exercised toward God and Christ."

"We, as good Christians, should demonstrate our faith by attending services regularly, listening to God's word attentively and carrying out its commands earnestly."

"If we do this sincerely, we surely will have the hope of a blessed resurrection, and a happy reunion in heaven."

"But the greatest love of all is Charity, writes St. Paul. Charity is synonymous with love. God so loved the world that He gave His only begotten Son. This is the greatest example of

Jetliner Crash Leaves 30 Dead

ADEN (AP) — A Yugoslav-Egyptian jetliner slammed into a mountain and exploded in a ball of fire in South Yemen Sunday, killing all 30 persons aboard.

Rescue workers returning from the site reported most of the bodies were mutilated beyond recognition.

The Yugoslav jet was chartered by Egypt's national airline. It hit the side of Mt. Sannan, less than six minutes before it was to land at Aden on a flight from Cairo.

Of the 21 passengers aboard were South Yemenis. Five of the crew members were Yugoslavs and four Egyptians.

Stoetzer Accused Of Contradiction

Stanley Johnson, a member of the Democratic Town Committee, has accused former selectman Erwin Stoetzer, a Republican of being "hypocritical" regarding his statements advocating a full time professional administrator for the town.

Johnson represented the Democratic Town Committee at the closed door session of the Charter Revision Committee meeting during which Stoetzer members met with representatives of town boards and agencies.

Asked what the difference is between the terms "town manager" and "professional administrator," Johnson admitted the two terms were used interchangeably by the CRC.

Formerly Johnson supports the concept of a full-time first selectman or mayor form of government.

Johnson in his statement cited several instances during which he claims Stoetzer contradicts his comment made at the meeting.

Referring to a statement made by the first selectman at the Meet the Candidates Night, he quotes Stoetzer as being in "favor of a town manager."

On Oct. 28, the Democrat accuses Stoetzer of saying the government should be run by a professional full-time support staff by elected officials serving as a liaison to the taxpayers.

Continuing, Johnson quotes an Oct. 29 statement by Stoetzer, "strongly advocating a full-time professional form of government adding that a town manager would be paid with the salary that would normally go to elected officials."

Johnson, finally quotes a

Baseball's Reserve Clause

Court Hears Briefs In Curt Flood Case

WASHINGTON (AP) — Call... subject to state anti-trust laws. The most obvious restraint... known to man, former Justice Arthur J. Goldberg today urged the Supreme Court to reverse a 1922 decision exempting baseball from antitrust laws.

Irish Bombing Leaves 6 Dead

(Continued from Page One)

Representing former outfielder Curt Flood, who is challenging baseball's reserve clause, Goldberg told the court the "reach of the reserve system extends beyond the continental United States. It extends to the minor leagues. And it even extends to Japan."

Without it, they said, the wealthiest teams in the largest cities would attract the best players, destroying baseball's competitive balance. Backed by the players' union, Flood brought his damage suit against baseball after the Cardinals traded him to the Philadelphia Phillies in 1969. He wanted to be made a "free agent," at liberty to play for a team of his choosing.

At the very least, Goldberg said, baseball should give players the limited freedom of action provided in football, basketball, hockey and other sports. "It is beyond dispute," he said, "that organized warning in the American baseball today is a business, big business. Its owners are taking a break from their Saturday shopping in the downtown areas, giant corporations selling everything from beer to television time."

"The Sherman Act has long prohibited businessmen from entering into concerted agreements to eliminate competition among themselves in the procurement of commodities essential to their business. And businessmen are plainly prohibited by the act from... concerted refusals to deal, or group boycotts.

"There is little question but that organized baseball's reserve system falls squarely within these per se proscriptions. But even if baseball retains its exemption from federal regulation, Goldberg said, it

Confessions Study Going Before Court

NEW YORK (AP) — Blue-chip stocks were the best gainers today in an otherwise unexciting market. Trading was moderate. The noon Dow Jones average of 30 industrials was up 4.22 at 977.10. Advances on the New York Stock Exchange led declines by a narrow margin.

Analysis gave much of the day's gain to a 45-point gain in Eastman Kodak to 115 1/2. The company last week introduced a new line of still cameras. The gainers included steel, motors, chemicals, tobacco, and drugs. All other groups were mixed. The Associated Press 50-stock average was up 1.5 at 339.5. Industrials were up 2.9, rail prices up .6, and utilities were up .1.

Non prices on the Big Board included Bunker Ramo, up 1/4 at 44 1/2; Merrill Lynch, up 1/4 at 44 1/4; Hek Corp., up 1/4 at 44 1/4; General Electric, up 1/4 at 44 1/4; Comsat, off 1/4 at 44 1/4; Street as possible," a police spokesman said.

The bomb exploded in front of Northern Ireland's main Protestant newspaper, the Belfast Telegraph, on Monday. The explosion killed two young boys and girls employed at a nearby furniture factory. The factory was believed to be among the casualties.

Tears streaming down his face, a policeman shouted: "The stove who did this will have a panel discussion of criminal confessions unless the Church person making the confession makes the confession in front of a lawyer and a notary public."

The five-man majority comprised Justices Earl Warren, William O. Douglas, Hugo L. Black, William J. Brennan Jr., and Abe Fortas. All except Douglas and Brennan have left the court. During his 1968 campaign, President Nixon was highly critical of the Miranda ruling, saying it went against the "peace forces" in the nation.

Since becoming president he has placed four men on the court, all considered to have conservative views of defendant's rights. They are Chief Justice Warren, Justice Black, Justice White, Justice Brennan, Justice Stewart, Justice Burger, Justice Douglas, Justice Harlan, Justice Marshall, Justice Powell, Justice Rehnquist, Justice Souter, Justice Stevens, Justice Thomas, Justice O'Connor, Justice Scalia, Justice Kennedy, Justice Gorsuch, Justice Alito, Justice Kagan, Justice Sotomayor, Justice Breyer, Justice Kavanaugh, Justice Roberts, Justice Kavanaugh, Justice Alito, Justice Kagan, Justice Sotomayor, Justice Breyer, Justice Kavanaugh, Justice Roberts.

Brezhnev Plans Realistic Talks

WASHINGTON (AP) — Soviet Premier Leonid Brezhnev said the Soviet Union regards the U.S.-Soviet Strategic Arms Limitation Talks — SALT — as being of primary importance. Their success, he said, depends on both sides accepting the principle of equal security.

In his speech he also attacked "imperialist intrigues" in the Mediterranean area. He said these included "imperialist pressure" on Malta, the borders, "rude attempts" to interfere in Cyprus affairs and the stationing of U.S. Naval units at Greek ports.

Undercover agents will give him a private report on heroin traffic in New York, the nation's largest city. The White House said reports will be included from that season "to preserve the agent's cover."

MANCHESTER (AP) — Rep. Albert R. Webber, D-New Haven, has asked the Senate to ignore the blamings of lobbyists for the retail industry and approve a bill limiting credit rates on store charge accounts.

The General Law Committee's bill limiting credit rates on charge accounts to 12 per cent per year was approved by the House 185-9. The current rate at many stores is 18 per cent.

Webber, committee chairman, asked the senators to "reject the false and deceitful arguments being pressed on you by the billion-dollar chains."

It is not known when the Senate will vote on the bill.

Vernon Water Company For Sale Again

The Vernon Water Company, owned by Barney Moses, is up for sale again and once more the Town Council is being asked if it is interested in purchasing it.

The matter will be discussed at the meeting of the council tonight at 7:30 p.m. at the Administration Building.

Two years ago Moses indicated he was interested in selling the small company which services about 450 customers in the Vernon center area. It also provides hydrant service for the Vernon Center fire department.

At that time Moses was asking \$112,000 for the company which, it was noted, could be expanded to serve 1,400 customers. If the town is interested in the purchase this time, and if the customers do not purchase it, it will probably be sold to another utility company or some outside group.

The council will be asked to act on a proposal for an addition to the Talcottville School. The estimated cost of the addition which would add one more classroom and a physical education building to the existing school, is \$235,000.

Why a \$2,000 Volkswagen costs a lot less than any other \$2,000 car.

Listen to the logic: Give or take a few dollars, most new economy cars are priced just about the same these days. Around \$2,000. But come trade-in time, a weird thing happens. Some are worth more to you than others. And based on what's happened in the past, after 3 or 4 years, not one is worth more cash than the VW Beetle!

Committee To Present School Budget Requests

The Board of Education budget for 1972-73, minus a firm figure for salaries, will be presented to the board tonight at an open meeting to be held at East School at 7:30.

The board's budget committee has been working for several months on the budgets which were presented by the Mayor Frank McCoy, to determine the amount of interest in the purchase. Two years ago interest was minimal among council members.

ZBA To Hear Request For Auto Repair

The Andover Zoning Board of Appeals will hold a public hearing Wednesday at 8 p.m. at the town office building to hear an application for a certificate of approval for an automobile dealer and repairer's license. Applying for the approval is the Andover Auto Parts, Inc. firm, which seeks a license to conduct business at the Rt. 2 location now known as Ken's Garage. The license is granted by the State Motor Vehicle Department, but applicants must first receive approval from local zoning authorities.

In Andover, any such applications are automatically referred to the appeals board. The last such application approved by the ZBA was that of David Cordero, who operates out of the town garage, and sought such approval in order to work on heavy duty trucks. Junkyard Permit. Presently a permit exists for the operation of a junkyard, however, such permits are not transferable. If the business changes hands or ownership passes into another name, a permit must be requested again. Any interested persons may attend the public hearing and be heard; the ZBA will also receive and read written communications from persons unable to attend in person.

Taxation and Schools Topic of Panel Talk

A proposal set forth by Commissioner William Sanders to the State Board of Education for mandatory regionalization of schools for those towns with a student population of under 2,000, first was totally rejected by the state board, only to pass at the following meeting. The bill has been submitted to the legislature and should be enacted into law, education, at least in small towns, will undergo drastic changes.

It is unlikely that a fully state supported education system through the state would leave towns with any but control over its schools, and jurisdiction will fall to the state. The town of Andover which has virtually no industry and all of its school dollars through the property tax, and has a student population of under 2,000, will be affected by what ever decision is made. The PTA meeting of the panel will be held tomorrow evening at 8 p.m. at the Andover elementary school, and is open to all.

The subject of property taxes and school financing has been generating much discussion and action in recent months. The state of California recently had its Supreme Court hand down a decision stating that using the local property tax as a basis for education costs is unconstitutional and violates that portion of the Constitution which provides for equality to all. There is currently a class action being undertaken in Connecticut seeking also of court ruling that such financing of education is unconstitutional. State vs. Local. Whatever other alternatives to local property taxes exist as a means of financing education, it would mean a complete re-evaluation of school districts and control.

The towns of Andover, Hebron and Marlborough recently voted down a proposal which would construction, but it is not too late to stop further highway construction, but it is not too late to stop further highway construction, but it is not too late to stop further highway construction.

Japanese To Speak at School

A visitor from Japan will be at the Andover Elementary School tomorrow at 1 p.m. and will speak to children and guests on some aspects of his native country. Toshio Uwabé (pronounced Tohsho Oo-bay) will speak on an exhibit at the school library. The audience will consist of the school's three sixth grade classes and any interested parents or residents who wish to attend.

Education Conference School Principal Donald Libby said that there will be a conference entitled "A Closer Look at Early Childhood Education" on April 5, in Pomfret, Connecticut. There will be a registration fee of \$2.00 which will include a supper and all costs. The conference, which is on a Wednesday, will run from 8:30 a.m. to 5:30 p.m. and Libby is hopeful that there will be some attendance from Andover. Persons interested in attending the conference are asked to call the school immediately as reservations must be made in advance. Tomorrow the children from the elementary school who will be participating in the newly formed bowling program will be organized into leagues.

Children will be rearranged into teams for the weekly Tuesday afternoon games. Registration in the bowling program now stands at 75. Last week's initial venture into the bowling program was a success with 76 children participating. The owner of the bowling alley commended the children and the school for the excellent behavior of the youngsters on the buses and in the alley. Persons still interested in enrolling their children in the program should contact Recreation and Cultural Director Gordon MacDonald. Luncheon Menu at the elementary school for the remainder of this week are as follows: Tuesday: Italian spaghetti, corned beef, carrots, rolls, jelly. Wednesday: Pizza, vegetable sticks, french fries, golden potatoes, spinach, chocolate cake. Thursday: Pizza, vegetable sticks, french fries, golden potatoes, spinach, chocolate cake. Friday: Hamburger on a bun, vegetable soup, fruit, golden spice cake. Milk and bread and butter sandwiches are available at all meals. Manchester Evening Herald Andover correspondent, Anna Frisina, Tel. 742-8367.

Costs Rise 500 Pct. WASHINGTON — Government expenditures for goods and services amount to about \$100 billion a year, about 2.5 times higher than in 1960. Muskie Racing For Comeback

McGovern's campaign is in a lull, after a far-back finish in Florida, where the South Dakota managed only 4 per cent of the vote and trailed Mayor John V. Lindsay of New York.

Lindsay was already at work on the crucial Wisconsin primary, beginning a three-day campaign swing.

McGovern said he is "critically important," he said Sunday in Milwaukee as he set out to hunt over school heating, capturing 42 per cent of the vote in an 11-stuck-out rally another third-party campaign in 1972.

Democrats Would Cut Primaries
HARTFORD (AP) — Two leading Connecticut Democrats have called for changes in the presidential primary system.

State Democratic Chairman John M. Bailey said all states that want to have presidential primaries should have them on the same day.

U.S. Rep. John S. Conagion said he will introduce legislation to shorten primary process.

The 6th District lawmaker said his legislation would prohibit any state primary from being held more than 30 days before a party convention.

He also said he would like to see the entire presidential campaign reduced to 90 days, 30 for the primaries and 60 for the presidential campaign itself.

ZBA To Hear Bolte Appeal

Heading the agenda for tonight's meeting of the Zoning Board is an appeal by Bolte Advertising-Hartford, Inc. The ZBA has been ordered by the Common Pleas Court to hear Bolte's appeal of an order by the town to remove its billboard signs at nine locations.

The court ordered the hearing of Bolte's appeal last month after the company sought injunctions to prevent the town from taking legal action to have the signs removed.

Variances that formerly existed for the signs expired last year. Bolte applied to renew them, but the ZBA denied the application after an October hearing.

The board voted in its denial that it had adopted new sign regulations in 1970 which prohibit billboards.

Town Woman Dies In Vernon Crash

A two-car, head-on collision on Rt. 30 in Vernon, yesterday afternoon, claimed the life of Mrs. Emily Sularczyk of 22 Carroll Rd., Manchester, and left five other persons seriously injured.

Mrs. Sularczyk was pronounced dead at the scene by Rockville General Hospital and Dr. Francis Burke, Toland transferred to Rockville County Medical Hospital, Hartford.

Mrs. Sularczyk, along with three other women, was a passenger in a car driven by Mrs. Gena Shaw of 37 Edison Rd., Manchester. The driver of the other car was Charles Connell, 64, of Mt. Vernon Apartments.

Bolte Appeal Denied

An appeal by Bolte Advertising-Hartford, Inc., for a ruling from an order of the zoning enforcement officer to remove billboards at nine locations in the Zoning Board of Appeals (ZBA) after a lengthy hearing.

The consensus of most of the board members was that the ZBA should deny the appeal. The board's original decision to deny the appeal was made on Feb. 27.

Barry was not present and was criticized by member John Cagnanillo for not putting his name in writing or being at the hearing. He said the center had verbally advised the ZBA of the center's decision to deny the appeal.

Reds Pour Fire Over Laos Base

SAIGON (AP) — Hard fighting raged today for the fourth day at the Long Cheng base in northern Laos while Chinese and North Vietnamese troops poured fire over the base, killing 13 South Vietnamese soldiers and wounding 14.

The South Vietnamese command said damage to the base was light, and the defenders killed 10 of the attackers and captured three along with two rocket launchers, seven AK47 assault rifles, rockets, mortar launchers and 13 government troops.

At the same time enemy forces set off a mine on a ferry near the base, damaging it heavily. The North Vietnamese troops holding two other positions in the center of the ridge continued to pound the base in the valley below with heavy mortar barrages.

Illinois Voters Taking to Polls

CHICAGO (AP) — Sen. Edmund S. Muskie of Maine battles two Democratic rivals in dual Illinois presidential primary contests today, seeking a boost for his shaken White House campaign in the crowded elections ahead.

Two million Illinois voters were expected to cast ballots well over half of them in the Democratic primary.

The primary matched Muskie and former Sen. Eugene J. McCarthy of Minnesota in a presidential preference poll, and Muskie, Sen. George McGovern of South Dakota and an uncommitted slate of candidates in a contest for 100 of the 170 Illinois delegates to the Democratic National Convention.

At least half the delegates, and probably more, are expected to be chosen uncommitted, but set heavy losses and American officials say the base now is defended mostly by Laotian and Thai troops.

The question is one of margin, came before dawn. The sappers slipped in under cover ones to regain the campaign.

Muskie Battling

"That is the main challenge of this campaign," He promised to end the war in South Vietnam, "the wrong war to begin with."

He waded through midday crowds on a handshaking tour of Chicago's State Street.

McCarthy, who has spent an estimated \$200,000 on his first campaign venture of 1972, repeated his complaints that Muskie has clear position on issues.

He mentioned the economy, crime, drugs and amnesty for draft evaders. Muskie has discussed all those topics during his national campaign.

In Granite City, Muskie said he feels concentrated economic power is the greatest problem facing the nation at home, and said that as president he would deal with it.

"I propose tax cuts for people, rather than big business," he said. "I intend to win the nomination in July, and I intend to defeat Richard Nixon in November."

Muskie's Illinois campaign budget is reported at about \$200,000, too. His campaign treasury has suffered because of his slow start and his commitment to disclose the names of all donors. His staff has agreed to work without pay until after the April 4 contest in Wisconsin.
