We believe it is time for the workers and the companies to negotiate on the basis of continued and expanding bus service; the state's political leaders to end the juggling and negotiate a compromise which will end buck passing; and the bus companies to review their management practices with an eye to the user and not just the stockholder.

Once and for all we should bury completely the idea that tax dollars are to be a subsidy to the companies involved Any tax dollars winding up in the company coffers are and should be user subsidies intended to keep fares down and service reasonably available to the user; not to guarantee a profit which should be the reward of good management, nor to pay workers who should be paid competitive wages for labor com-

It's a time of exaggerated claims, and just plain falsehood by many of our friends in the advertising media.

The next time some media tells you that "we have thousands upon thousands of readers or listeners," ask them to verify what they say by producing an audited or substantiated report of the same.

The Manchester Evening Herald is read by 60,000 plus persons daily. How do we know? Because our circulation records are audited and verified by the Audit Bureau of Circulation and a copy of the audited report is available to anyone who desires the same. The next time some of our friends in the advertising media make an exaggerated claim simply ask them to "put up or shut up" by producing an audited ABC report. Most of them can't produce a copy, because they don't belong to ABC. And Mr. Businessman, you ought to be able to figure out the reason.

#### Need a Doctor?

The Manchester Medical Association would like to offer the following suggestions as to how persons new to the community or without a physician can obtain the services of a physician.

A. Before an Acute Problem Arises: . Remember that only some of the physicians listed in the telephone directory are primary medical physicians (the first

 a. Many are surgeons, gynecologists, anesthetists, radiologists, etc., and thus usually only see new patients referred to them by primary medical physicians for special problems.

Speak to your friends and neighbors about their primary medical physicians or pediatricians—and obtain their names if they seem desirable.

3.If you cannot make contact with a physician in this manner, call the Hartford County Medical Association at 236-5423. Ask them for the names of primary medical doctors or pediatricians

4. If you are still unable to contact a physician, call the Manchester Memorial Hospital emergency room (646-1222, Ext. 231) and they will provide you with the names of primary medical physicians who are able to accept new patients.

5. When you have obtained the name of a physician, call his office during office hours and explain that you would like to

a. Many physicians will be happy to have you as a new patient, and may suggest a future office visit to become acquainted with your particular medical history. This allows much better care especially when an acute problem arises.

l) If the physician you call in this manner is unable to accept you as a patient, ask his secretary to suggest the names of doctors they believe could take you. If they cannot, remember that: (see

persons in the community could have a primary medical doctor

2. The person on duty will confer with the physician on duty and you will either be given the list of doctors who will answer your call; or, if it is deemed necessary, you will be told to come

The Manchester Medical Association will continue to make every effort to provide medical care to every person in the ommunity, and the above protocol is a good basis. If a patient ooperates by making arrangements for care with a physician efore an acute emergency arises, he can obtain a doctor much easier when one is needed in a hurry. The physicians of Manchester are certain that the vast majority of the community enjoys good medical coverage; but they will cooperate to extend hat coverage to those without it. Mutual understanding and cooperation in this manner should provide each person in Manchester with satisfactory medical care and coverage.

sult: a severe cut. mower be held legally liable for this injury? Fred thought so, and in due course he filed a damage mit against the company. "A power mower is a dangerous piece of machinery," he argued in a court hearing. "It is up o the manufacturer to make sure it can't cut anything but

'ossing out Fred's claim, the court said a manufacturer mus make its product reasonably safe but not "accident proof." This has been the law's usual attitude in accidents involving power lawnmowers. Some degree of risk is accepted by the user, merely by choosing this method of cutting his lawn. Nor will he necessarily win his aim just because the mower happened to lack some particular afety feature. In another case, the injured user complained that s mower did not have the spe cial guard with which more ex pensive models were equipped

But again the court denies

"It is common knowledge,"

said the court, "that the various models of power mowers differ in size, weight, design, (and) safety features, and that new models constantly come into the market. Purchasers select accord ing to their choice and the price of the respective models," Nonetheless, even though user must accept some risk, he should at least not be deceived as to what that risk is. One customer had been sured by a salesman that the mower would stop instantly if it struck any hard object. But when the mower did strike a rock in he man's back yard, it reared back, wheels spinning, and cut

Q. I operated a liquor store for over 32 years. I sold my business last month and I want to retire. I understand I need my Social Security number and my birth ertificate. Is there anything els I will need to bring with me when apply for my Social Security

A. Bring a copy of the Bill of Sale with you and a copy of last years tax return. These proofs will be returned to you after photostatic copies of them have Q. My husband died Sept. 20 and I would like to file a claim for survivors benefits. I have three

children age 15, 11 and 7. What documents should I bring with me when I come to the Social Security office? A. In addition to the birth certificates for yourself and your children, we will need your marriage certificate and proof of our husband's death. Usually the funeral director will send in the notice of death but it is a good idea to bring a copy of the death certificate with you. We also need your Social Security account number for each of your children

Q. I'm planning to retire later this year, but I'm worried about proving my age for Social Securiy retirement benefits. The only proof I have is a notation of my birth in a large Family Bible, but my sister who has the Bible lives over 300 miles away. Should I have her send the Bible to me? A. No. It would be easier and less expensive for both of you if your sister took the Bible to a Social Security office near her home. They would copy it, certify its authenticity, and then mail the information to our office.

Q. I plan to retire next year at age 65. The only proof of age 1 have is a baptismal certificate written in Italian. Can I use it as proof of age when I apply for Social Security retirement A. Yes. We will translate the

# TRANS EUROP EXPRESS

Crack European expresses urbanely combine old-style comfort and new-style speed—with a dashingly cosmopolitan air.

Above, a steady hand on the controls, nearing 100 m.p.h. through the heart of Europe.

Left, the Trans Europ Express streaks toward the Italian border.
Above, cut flowers and shaded lamp grace the dining table.

Even in the age of jumbo jets, Europe's famous crack trains are competing successfully with the airlines in their hold on passengers' loyalty—and imagination. For example, there's the elegant Trans Europ Express whose trains race through eight European countries connecting over 100 cities. TEE's 24 lines of all high-speed, first-class trains total nearly 10,000 miles and form a hexagon with Amsterdam, Hamburg, Munich, Genoa, Marseilles and Paris as the corner points. During summer the TEE trains are booked to 100 per cent occupancy, and even in winter to 40 to 45 per cent. Like the old Orient Express, the TEE symbol has come to stand for speed, luxury, prestige—even international mystery and intrigue at least enough for one of the trains to figure prominently in a James Bond movic. The Iron Horse may be as dead as the dodo in American passenger travel, but it's still hanging in there in other parts of the world.

different players tallied.

Saturday's game against Platt proved to me that we definitely have a shot at the league clampionship. We did not have a particularly good week of practice. Don Corcoran nd Steve Samiotis were in bed with the flu and didn't get any work at all. Dave McCann was also out all week and didn't even suit up for the game. Jack Maloney had a bad groin pull and Dave Fleishman's hand was so swollen, he could hardly carry the ball. Needless to say, I was very apprehensive. With everyone in good shape I felt we had a ance, but with key players out, I knew it would be a long afternoon. So with that in mind, my kids simply went out and literally blew Platt right off the field.

Our offense moved better than it has all year and our blocking was crisp and sharp. The backs hit their holes well and for once we got some excellent downfield blocking. Bob Walsh, filling in for McCann, just did an outstanding job at center. Three times we broke Dave Fleishman loose up the middle, and each of those times, Bob had to blook out a man Roland Giatz for the all-time who outweighted him by 65 pounds. Not once did I see Bob's man in on a tackle. The trapping of Corcoran and Steve
Giorgetti was excellent and they also were responsible to our booting the goal, Tribe Coach middle plays going so well. Coughlin and Odell were downfield all day and helped spring our backs on so many breakaways. Steady Jim Colla, who gives us 100 per cent every day of every week, threw some terriffic blocks on the corner and really made our outside game go.

Still, once again it was our defense who got us going. Three times in the first quarter they forced Platt to kick from deep in their own territory and each time we scored. Although John Hardrick carried the ball 44 times for Platt, not once did he break away and never did he gain over seven vards. Our defense held him to a 3.4 yard per carry and forced Platt to grind out yardage and use up valuable time on the clock. They had a challenge to meet and they met it

Special praise this week just has to go to Dave Fleishman. Bad hand and all, he still scored three touchdowns and had another called back. He kicked two extra points and had another taken away on a penalty. If that wasn't enough, he intercepted a pass and for his work, he was named the Hartford Times 'Player of the Week.' I know this will mean a lot to Dave, because I know how much it means to me. This week we jump from the frying pan into the fire. We face the second of last year's tri-champions in the CCII, Wethersfield. They are big, strong, and have a tremendous back in Bob Burton. He is probably the best all around back in the league. He runs and throws with the best and we must contain him. Again we face a tremendous challenge. I hope we can once again rise to the occasion.

By Cliff Demers East Catholic Saturday evening I was home listening to the weather forcast. The meterorologist stated that it was a day in which you should have stayed home and kept dry. Those were my exact feeling after absorbing a 27-0 defeat at the hands of Northwest Catholic. It was a day in which we did little right and Northwest did little wrong. There is no question that we Our offense is predicated on our ability to throw the, ball. Our one out of nine completion ration bears this out.

One of the early turning points in the game occurred late in the second period. At that point, we were down 7-0 and we Conyers, MacLean, R. Cacace, were on defense. Northwest had a third and long yardage situation. On this particular play, Brian Hickey, their fine quarterback, broke away on a 70-yard touchdown run after MacLean, Menschell, Conyers, being trapped behind the line of scrimmage. In the second Stafford, Bensen, Kanehl, Leone, half, when the rain came down in buckets, it washed away e of a quick comedack thru the air

On defense, we were the victims of our own sloppy tackling. However, Angelo Fazzino, moving to middle linebacker for the injured Joe Davin, played an outstanding game. Rich Krauskas, at defensive halfback, also turned in a

Before baseball expanded from eight to 12 teams in each league the World Series started the first Wednesday in October, which happens to be today...Just wondering how many times during the past season the Red Sox had runners on base and the bunt was the logical play that it wasn't even ordered by Manager Eddie Kasko? The latter has an aversion to moving runners along via the bunt. Numerous times in the past few weeks when a bunt would have been a logical call - if successful - Boston defeats could very easily have been turned into victories instead...Just wondering if the baseball strike which delayed the start of the regular season worked in favor or against either the Boston Red Sox or Detroit Tigers?...The fellow who drew up the American League baseball schedule is an old friend, Bob Holbrook, former Boston baseball writer and now an administrative assistant to Joe Cronin, A.L. president...Just wondering if Richie Allen's bat got too heavy during the stretch drive? DETROIT (AP) - "The older you get, the harder it is to get up for every game," said a mobbed Al Kaline. "But for he big ones like this, it's no problem at all."

Kaline was the hero Tuesday night, knocking in the winning run with a single in the seventh inning as the Detroit Tigers captured baseball's American League East championship with a 3-1 victory over the Boston Red Sox. Tiger Stadium was a scene of bedlam immediately after the game with swarms of fans from the crowd of 50,000 tearing up bases and mobbing players who battled their way back to the dugout and into the champagne-doused Tiger

The clubhouse was a hectic scene with virtually every player plus executives being drenched with champagne. Even Woody Fryman, the non-drinking pitcher who throttled the Sox on four hits for 7 2-3 innings, drank

"None, of my family smokes, chews or drinks," said Fryman. "I took a sip today and I'll probably take another. Mother probably won't appreciate that." Tiger Manager Billy Martin was ecstatic describing his feelings simply as, "Happy! Happy! Happy!" as he bounced from one broadcast microphone to another. Martin pointed to Kaline as the man who led the drive to the flag.

"There's not a word I can say. All the superlatives ... I would use them all. There aren't words to describe how he The 37-year-old Kaline raised his hands in jubilation moments before catching the final out in right field when he
