Dramatists Spattered In Debut

By JUNE TOMPKINS. In the sense that a vehicle is commonly thought of as a car of some kind as well as an art form or device used to convey an effect, the first performance of the Tri-Town Players in "Any Wednesday" spattered along for four scenes and two acts and finally just about made it. Like a spouting vehicle that needs a good charge of energy to keep it going, the vital portrayal of Sharon Wilson's Dorothy Cleves was the high voltage that kept the vehicle rolling.

Fire and terror. The words become synonymous. That sudden uncontrollable blaze can threaten lives, consume forests and wild-life, destroy a business. Completely. Irrevocably. It could have been prevented—with care.

Revenue-Sharing Bill Sent To President

WASHINGTON (AP)—The Senate has refused to grant President Nixon's request for unfettered budget-cutting authority in a move that heightened uncertainty about the time of final congressional adjournment.

Both the House and Senate planned sessions today in an effort to wrap up final business, adjourn the 92nd Congress, and take off campaigning in home districts.

One provision in the bill, strongly protested by some senators, places a \$2.5-billion annual ceiling on federal grants to the states for social services for welfare recipients and potential recipients.

News for Senior Citizens

by WALLY FORTIN
Director

Hello everybody! Well another week week, and it was quite a busy one to say the least. Monday was a holiday for most of the town employees; however, it being one of our busiest days here at the Center I figured we'd stay opened.

Bill Conby stars in his own new show on CBS Mondays at 10 p.m.

writing, we had a few seats left, you may still be in time by calling our office at 643-3110. I have been informed that new buses will be traveling in brand new buses with the latest in equipment for your comfort, convenience, and pleasure. How about that? Even though it was a holiday we had some 83 playing our kitchen social bingo games, and when I arrived at 7:45 a.m. I was greeted by a few eager beavers waiting. Some had arrived at 6 a.m. It was quite cold standing outside, and all were happy when I opened the door. By routine we had filed one bus and by the end of the day we were halfway into the second and final bus. Right now at this

Pinocchio Players
In the afternoon we had 64 pinocchio players with the following winners: Jennie Fogarty, 719; Frances Pike, 715; May Derby, 701; Ellen Kieran, 699; Gus Gull, 698; Alida Johnson, 686; Bess Moonan, 678; Mary Natchewal, 670; Oliver Roberts, 660; Emma Russell, 655; Mabel Wilson, 655; Ann Young, 654; John Gally, 653; Cassie Sanford, 648; Bell Schors, 644; and Karl White, 644.

Pinocchio Slides
Next week we'll have the pleasure of seeing some very lovely slides of Disneyland in Florida. I'm sure you'll enjoy them, and may get a better idea of just what it's really all about before you plan your trip.

Part of the afternoon was used to have the members participate in a couple of paper games. I thought I'd sort of sharpen them up a little, but couldn't fool them as most of them knew a good part of the answers.

From there we got into a good old fashion sing-along with our good friend Mrs. "88 Keys" Noel at the piano. Then it was square dancing time for some of the ones. They enjoyed playing cards and visiting.

By the way, here's a deal for you to think about. Our good friend Norman Fendell, special education supervisor, has an offer to have his students under supervision which will be available to light workers, wash windows, clean up the yards, run errands, and many other odd jobs, and are available to Senior Citizens at a very nominal fee. So if you've got some chores to be done, and don't feel up to it, here's your chance. It will help you, and also help the students. If you're interested, call our office and we'll see to it that Norman contacts you.

### United States Pegged As IRA Gun Source

LONDON (AP) — The Daily Express said Thursday that a special investigation showed the Irish Republican Army shopped almost exclusively in the United States for its weapons.

It said two New York gun dealers, Leslie Edelman Inc. of Farmingdale and Ed Agronome of Yonkers, were the source of 40 Japanese ArmaLite rifles captured by British soldiers in Ulster were traced back to two New York dealers.

Both men sell guns over the counter or by mail order. It said the serial numbers of the guns showed they were made by Howa Machinery at Sakaguchi, Japan. It quoted a company spokesman as saying: "We are very angry that the gun — a hunting weapon — should be falling into the hands of terrorists. But we export to the United States only. It is there that we go astray."

Other weapons smuggled across the Atlantic included the M-16 assault rifle, Thompson submachine guns, several U.S. Army rocket launchers and some bazookas, the spokesman said. Ammunition also was reported.

### Vernon After School Jobs Offer Promise

Happiness may be a paying job after school, especially when the student is released from his last two periods each day to get on with it. The job may turn out to be the beginning of future work in an unexpected field, or even a career, and undoubtedly some change in attitude toward school itself.

At least these things were borne out in a survey taken by Louis O'Mara, the director of the work-experience program at Rockville High School.

The program, which is funded by the state to the extent of paying part of the director's salary, provides jobs for students who have some special need of them. Possibly the school program was inadequate for the individual and the job provides a very good introduction to the world of work for potential dropouts.

Since these students must maintain a good average with a "B" in school, the job provides a motivation to keep up with studies, but more than that, the students learn from the job itself and, hopefully, see an application of what school is all about.

### Bill Passed On Ocean Dumping

The bill, sent to the House, bans dumping by U.S. citizens of radiological, chemical and biological waste agents and high-level radioactive wastes in the oceans and coastal waters beyond the territorial jurisdiction of the United States.

Wives of other political VIPs have been invited to attend the reception including Mrs. Harry Hammer, wife of the deputy secretary of state, and Mrs. Robert Hoover, wife of the state senator. Area women, 18 or over, are invited.

NEW YORK (AP) — A bank guard has been arrested and charged with bilking a blind customer when he helped her make withdrawals.

"Charlie was always so kind and obliging," said Juliette Silvers of Charles Harper, 32, although he acted kind of slow and would sometimes say, "Oh, I forgot to have you sign the slip — sign it here, please."

She had discovered, on a day when Harper was not at the bank, that her account had only \$169.80 in it instead of the \$2,687 the guard had told her was on deposit.

### Tolland County Farmers Plan Pollution Controls

A continuing program to strengthen conservation and diminish air and water pollution for 1978 has been announced by Joseph P. Sredga, chairman of the county's Agricultural and Stabilization Committee.

Through the program, the Federal Government shares with farmers the cost (usually 50-50) of carrying out needed conservation and environmental protection measures on their farms.

These measures include installation of excess water management systems, where essential to combat water pollution from contaminated water runoff caused by a high water table, or incomplete recycling of animal or human waste, sedimentation, salinity or alkalinity, and also the use of conservation tillage on a demonstration basis to reduce soil loss from land degraded to inter-tillage (row) crops.

The initial funding for 1978 will be \$140 million, the same as last year, although a final decision regarding the program level will not be made until determinations on overall spending targets.

High priority will be given to such practices as establishing, improving or protecting permanent vegetative cover, developing facilities for livestock water, water impounding reservoirs, constructing terrace systems, diversion terraces, ditches or dikes, and permanent wildlife habitat.

Also, animal waste storage and diversion facilities, sediment retention and water control structures; sediment or chemical runoff measures; disposal of crop, orchard or woodland residues without burning, and disposal pits for solid waste.

Agricultural-related air pollution problems are considered in the program.

PACT REACHED GROTON (AP) — A tentative contract agreement was reached Thursday between the Electric Boat Division of General Dynamics Corp. and the Metal Trades Council, representing 8,000 employees of the submarine factory.

No details of the three-year contract were announced, but voting on it will take place during next week.

The employees have been without a contract since July 1.

Some 80 to 90 per cent of the estimated 1,800 persons in state custody fit the "never registered" category, he said — meaning that almost all of them can, indeed, apply for the franchise.

## Newspaper Carrier Day

Today we wish to salute an important part of the Herald newspaper team. It is fitting that as we end National Newspaper Week, we give special recognition to our more than 400 carriers on International Newspaper Carrier Day.

It, paying the Herald, and keeping records. The carrier is accomplishing two important things for himself. He is learning about business and business practices; and more important, he is learning self-reliance.

## Political Desperation

With a fertile imagination there are no limits to man's flight into rhetoric. Unfortunately, imagination is too often divorced from reality. While we cannot imagine the North Vietnamese and Viet Cong responding to Sen. George S. McGovern's unilateral end-of-the-war plan, it is apparent the Democratic presidential hopeful and his advisors can imagine this happening.

It will be the self-interest of the enemy, either immediate or long-term, which will bring about substantial negotiations toward a cease-fire, a truce, or an out-and-out end to the war. The United States can try to convince us that it is unrealistic to end its involvement in South Vietnam in 90 days. How long has our involvement continued in North Korea? How long has our involvement continued in Germany? How long will our involvement continue in the Mideast?

### Belgian Priest Indexing Bible

By CARL HARTMAN  
Associated Press Writer  
**BRUSSELS (AP)** - With the help of three Benedictine monks and one American computer, a Belgian priest is completing what he hopes will be the most useful index to the Bible yet produced.

The Rev. Georges Passaleux is himself a monk from the big Benedictine Abbey at Maredsous, known for its mild cheese and strong beer as well as for its deep learning. A bustling, sandy little man of 63, he spends only about a quarter of his time within its walls.

More often he can be found carrying a battered briefcase anywhere between the Brussels bank that lends him his computer and the pulpit of a synagogue in Cleveland, Ohio.

Just now he is concerned to get some publisher in the United States to translate his "Analytical and Analogical Index" from French into English. His computer can't do that. Father Georges speaks English himself - as well as French, German, Dutch, Italian, Latin, Greek and Hebrew - but he says his job ought to be put into the hands of someone who can work in his own mother tongue.

"The Bible," he explains, "is the word of God and is used by religious Jews and Christians as a source of prayer and meditation. It is also a reference work used by every writer and reader who deals with history, philosophy, theology, ethics, ancient literature or even sociology."

He wants to provide these writers, students and readers with an easy-to-use reference tool that will help them find any passage they need.

This is not the first time a computer has been used for a scholarly religious work, but the authors think it has not been tried before on a religious book destined for general circulation.

Many indexes to the Bible, called "concordances," already exist. They list every passage in which a given word is used. Look up the word "crime," for example, and you will find that it does not appear often: no more than a dozen places in the Revised Stan-

### Liturgical Mission

The Rev. Bernard J. Clancy, OMI, of the Immaculate Heart of Mary Novitiate in Tewkesbury, Mass., will conduct a liturgical mission for the next two weeks at the Church of the Assumption on 5 Adams St. The mission is open to all those interested.

## Gillette Castle

### The Grounds

When William Gillette, portrayer of Sherlock Holmes on the American stage for more than three decades, decided to build a between-tour retirement home, he selected a rugged, tree-lined hill high over the Connecticut River at Hadlyme. Originally, he considered a site at the eastern tip of Long Island's North Fork.

On a high point of the 115 acres, he built "Seventh Sister," now known as Gillette Castle. During his lifetime, authorities estimate that the actor-playwright spent more than \$1 million.

The castle is patterned after a medieval Rhemish fortress, complete with crenelated battlements and apertures. Native stone was one of Gillette's loves. The entire castle is built on a natural rock formation. The cellar was blasted out of solid rock to a depth of 12 or more feet in places. Built wholly of native granite from nearby fields and ridges, the foundation walls are five feet thick at their base and taper to about two feet at the tower.

Over several years, 22 skilled masons were steadily engaged in completing the stone work for the castle and various ledge walls that were literally carved from the side of the cliff.

Stone walls frame the roadway leading to the main entrance.

An arch of Japanese prayer gate design provides an area entrance.

Benches of different periods on the outdoor balcony.

A stairway descends to a road and gardens beyond.

The Connecticut River sweeps below a balcony viewing spot.

Construction Worker Strike Postponed

HARTFORD (AP) — A threatened strike by the state's 12,000 construction laborers over an administrative dues check-off system has been averted for at least a week, union officials said Friday. The union and the contractors' representatives agreed to discuss the issue again next Friday in Washington, D.C. with the Laborers' Craft Board. The Connecticut District Council of the Laborers International Union had threatened to strike building projects in the state on Monday unless an agreement over the dues issue was reached with the contractors. The craft board in July trimmed the last year's salary increment of the laborer's three-year contract from \$1.75 an hour to 75 cents an hour and had recommended the establishment of the dues check-off.

Democrats Comment On Bus Subsidy Plan

HARTFORD (AP) — "Buffing, but perhaps hopeful" is how Democratic legislative leaders characterized the Meskill administration's decision to help subsidize unprofitable commuter bus service. After refusing for some time to pay any part of operating deficits, the administration offered Thursday through Transportation Commissioner A. Earl Wood to pay 25 per cent of the deficits which might be incurred by the Greater Hartford Transit District. The municipalities in the district would have to pay the other 75 per cent. In a joint statement issued Friday, Senate President Pro Tem Charles T. Alfano and House Speaker William Ratchford called the administration's offer "a complete about-face."

Controversial I-291 Discussed In Private

BOSTON (AP) — Hartford's controversial beltway proposal, Interstate 291, brought together Connecticut Gov. Thomas J. Meskill and several top federal officials Friday for a private discussion. Meetings of this nature are normally conducted by agency staffs, not top officials. Besides Meskill and the federal regional directors, J. Marsh Thompson, a representative of Vice President Spiro Agnew's office was present. Meskill said the issues discussed were primarily about delays in communicating with the federal agencies on questions of the environmental impact of the beltway.

Regional officials of both the federal agencies have expressed serious doubt about the necessity of the 24-mile highway. The most disputed part of the issue is the proposed route through West Hartford, Bloomfield and Windsor. EPA has questioned the claim that the road would produce no air, water or noise pollution. HUD says lower-middle income neighborhoods would be destroyed.

Although the meeting was closed to the press, Meskill said afterward that it had been called to iron out "communications problems" between state and federal agencies on questions of the environmental impact of the beltway.

One of tomorrow's leaders may have delivered your newspaper today

Trio Of Herald Super Salesmen

Representative of the more than 400 Manchester Evening Herald carriers who are honored today, International Newspaper Carrier Day, are Barry, Randy and Scott Gray, who make carrying the Herald a family affair as they are brothers. This kinship also stimulates competition as they are the three top new subscriber signers among the carriers. They and the other young businessmen and businesswomen travel more than 300 miles daily to bring the Herald to your door. (Herald color photo by Ofaria)

A teacher. Or a lawyer. Or a nurse. Or a doctor. Or an accountant. Or President of the whole United States. Of course, we're talking about the future—but a carrier is laying the groundwork for his future NOW. Because he is a carrier, he has the stuff that makes for success. He's managing a business of his own. That's what a newspaper route is all about. He is learning the lessons of responsibility and promptness and courtesy. And how to make a profit. That profit, chances are, he is banking away. To use when he will need it. For something important, like college and a professional career, perhaps. To become the lawyer who once delivered your newspaper, and learned a great deal while doing it. So congratulate a future lawyer. Or future doctor. Or spaceman. Congratulate him the next time he comes around to deliver or collect for your newspaper.

#### Notes from the Little Black Book

Looking back, the batting average of this column in the major league baseball playoffs was just .500, the same as the pennant selections last April of Pittsburgh and Los Angeles in the National and Oakland in the American. Pittsburgh and Oakland were the playoff choices and with the World Series starting today the pick here is Oakland on superior pitching. The guess is a six-game set. Jack Hedlund, Bob Parizeau and Bob Neil will serve as program building directors at the East Side Rec. West Side Rec and Community Y during the Recreation Department's fall and winter program. Charlie Craft will handle the schedule one night a week at the East Side. Carl Silver, Rec program director, reports the Men's Volleyball League will start Nov. 6 with the same eight entries as a year ago. The Latvians won regular season honors with the East Sides taking the playoffs. Women's Volleyball League plays starts Nov. 8 at the West Side Rec. The men will play volleyball Monday and Tuesday nights and the women on Thursday and Friday. If you have visited the North End in recent days you can see that work has already started on the construction of tennis courts at Robertson Park. Rec Director Mel Seibold has returned from the National Recreation & Parks Conference held in Anaheim, Calif. Excellent and perfectly clear postcard size photos of the 1972 Summer Olympic Games in Munich are the prized possession of the Jack Hunters of Manchester, who were on-the-spot at the Germany site. Ian 'n' it getting a little silly to see athletes rant and rave at officials after calls go against them or their teams. There were far too many shows of displeasure by players who umpires' decisions. Buddy Ackerman, ex-LIU hoopster who played with Manchester in the American League here, is now a policeman on Long Island.

### 27-Game Winner Carlton Grounded

CASPER, Wyo. (AP) - Steve Carlton, who won 27 games for the Philadelphia Phillies this past baseball season, was ordered off a Frontier Airlines flight Friday along with three other ball players after they allegedly violated Federal Aviation Administration regulations.

A Frontier spokesman said Carlton, along with Joel Horner and Pat Jarvis, both pitchers for the Atlanta Braves, and Montreal Expo catcher Tim McCarver, was enroute from Denver to Great Falls, Mont., on a hunting trip. The spokesman in Denver said the group was playing a tape recorder and drinking liquor from the players' own supply. There are no violations of FAA regulations. They refused to stop when a stewardess asked them to do so, the spokesman said. Ron Hewitt, a supervisor for Frontier in Casper, said the group was offered a flight on a later plane but refused. "They chartered a private plane to Billings, (Mont.)," he said, adding that they planned to rent a car and drive to Haver (Mont.), which is just west of Great Falls. "Efforts to reach Carlton and other members of his party in both Haver and Billings were unsuccessful. Atlanta Braves' star Hank Aaron was also with the group but departed with his companions even though a Frontier spokesman said he could have stayed aboard since he did not create any problems.

### Killer Instinct Helps Trevino

VIRGINIA WATER, England (AP) - "All good golfers have a killer instinct and I'm one of them," said Lee Trevino, basking in the afterglow of a supreme achievement in the Piccadilly World Matchplay Championship.

The 31-year-old golfer from El Paso, Tex., was preparing to meet fellow American Tom Weiskopf today in the 36-hole final over a once proud but now humbled course in the English countryside near London. Trevino, who reached a climax of the three-day knockout tournament with a one-hole victory over Britain's Tony Jacklin, was an odds-on favorite to take the Piccadilly title for the first time. The last all-American final was in 1970, when Trevino lost 2-and-1 to the man he calls "the best of us," Jack Nicklaus. Weiskopf, the rangy long hitter from Columbus, Ohio, reached the final with a 4-and-3 victory over Britain's Peter Oosterhuis, the youngster who eliminated defending champion Gary Player of South Africa in the opening round. Organizers of the tournament stood by for a rush of fans to the 997-yard, par-74 Wentworth course. No British golfer ever has won the nine-year-old event. Player has done it four times, Arnold Palmer twice, Nicklaus and New Zealand's Bob Charles once each.

## Holtzman, Nolan Opening Pitchers A's Have Point to Prove

CINCINNATI (AP) - The Oakland A's got a chance today to prove that Sparky Anderson's theory was wrong when they opened the World Series against the Cincinnati Reds. Cincinnati manager Ben Hunter has long insisted that his team faced tougher competition to win the National League pennant than the A's did in winning the American flag. "I'm not saying that Oakland can't beat us," said Anderson. "But I'm saying that you can't compare our league to theirs. Our league is tougher from top to bottom."

### Ex-Slow Pitch Softballer Cincinnati Awed At Geronimo Arm

CINCINNATI (AP) - Young Cesar Geronimo was playing slow-pitch softball in his native Dominican Republic when he first noticed the cannon hanging from his left shoulder. "I was young, just about 17," says Geronimo, "when I started to play softball. I threw the ball pretty good from the outfield."

### Additional Scoring

The National Football League lost something from 1969 through 1971-102 touchdowns. So, last March at its annual meeting in Hawaii, the NFL's Competition Committee made a recommendation directed toward opening up the offense. It requested that the owners approve a move of the hashmarks (spot where the ball is put in play) 75 per cent of the time 10 feet, nine inches closer to midfield. It was done. Thus, the offense now has 70 feet, nine inches to maneuver on the short side of the field. Has the change produced the effect desired? Four weeks don't make a season but...

### League Sponsors Panel Tuesday on School Referenda

A public information meeting on the Nov. 7 referendum of \$6.8 million dollars for additions and renovations to Bennett and Iling Junior High Schools will be held Tuesday at 8 p. m. at Iling.

The meeting, the only public one planned at this time by the Board of Education, is sponsored by the League of Women Voters. Mrs. Robert Stone, chairman of the league's education committee, will moderate a panel of three speakers: Paul Greenberg, Board of Education building and sites committee chairman; Dr. James P. Kennedy, superintendent of schools; and Dr. Richard Lindgren, Iling principal.

Available at the meeting will be blueprints of proposed renovations and additions and brochures outlining the reasoning behind the referendum, needs of both schools, and improvements to the facilities that will be accomplished if voters pass the referendum.

The \$6.8 million would be divided equally between the two schools. Estimating a total state reimbursement of \$2,920,000, the administration says that the net cost to the town would be \$3,880,000. Last year, voters turned down two referendums, totaling more than \$11 million, for a third junior high and an elementary school.

This year's referendum proposes construction of a 30,600-square foot media center and gymnasium in the Bennet quadrangle, which would bring the total area in the complex to 202,600 square feet; and renovations to the existing five buildings.

Passage of the referendum would add 19 classrooms of 61,000 square feet to the existing 34 teaching stations at Iling, bringing the total building area to 141,000 square feet; 63 parking spaces to the existing 33; and 2

outdoor teaching stations (athletic fields) to the existing 6. The media center would also be enlarged. Renovations to both schools would include bringing them into conformity with the new fire safety code.

### Politics Makes For Strange Bedfellows

FULTON, Mo. (AP) — Togetherness is not talking politics.

At least for Cathy Jones of DeSoto, Mo., and Debbie Svoboda of Hebron, Neb.

Miss Jones is president of the College Republicans on the William Woods College campus here and Miss Svoboda is president of the Young Democrats. They are roommates. They don't talk politics.

### Referendum Questions Most Commonly Asked

Atty. Allan Thomas, Board of Education chairman, said that board and school administration members have received many questions about the junior high referendum on the Nov. 7 ballot. The board has prepared the answers to the following most commonly asked questions:

**QUESTION 1:** Why is the Board of Education proposing junior high school additions and renovations?

Space needs at the secondary level are critical. The present capacity of the Bennet and Iling buildings is 1,800 and present enrollment is 2,346. We now have over 500 pupils more than the junior high schools were designed to hold with average class size well over 30 pupils per class. In addition, new state required programs such as learning disabilities and programs for exceptional students, as well as our own work-study program, require additional classroom space. Although our population projections show a stabilizing and slightly declining secondary school enrollment, this will in no way compensate for our lack of school facilities.

**QUESTION 2:** What will this proposal accomplish?

Answer: Iling was too small to house the ninth grade on the day it opened 12 years ago, and 300 or more of its students have been at the high school ever since. The addition to Iling will make this school a complete junior high school building. Bennet was built in 1903-1915 and is in great need of renovation and modernization. It requires \$300,000 worth of renovation just to meet state fire and safety codes. The addition and renovations at Bennet will provide this school with a proper size library and media center, a full-size gymnasium, as well as industrial arts and fine arts facilities.

The high school would benefit by removal of the Iling ninth grade. Specifically, space would now be available for additional science laboratories, independent study centers, expanded career education programs, graphic arts, ceramics, metal and wood crafts, home economics; also, facilities for a physical education program for handicapped students, and for a greater number and variety of basic courses for high school students.

improve our secondary school educational program.

**QUESTION 3:** Why not convert Lincoln School into the needed junior high school facilities?

Answer: Besides giving the junior high schools much needed space, one of the primary goals is to unify Iling's 9th grade with the 7th and 8th grades so that programs and staff can be better coordinated. Lincoln School is large enough to house one-grade, probably the 7th grade; but since it is removed from the Iling building the communication problem would be greater. Lincoln was not designed to house a junior high school program and would need extensive renovations. Lincoln could be renovated so that it would have necessary classroom, library and cafeteria space. This would take every inch of floor space in the building and utilization of the large areas. The students would have to be transported to Iling, the high school or Bennet for physical education, industrial arts and home economics. The building has mechanical difficulties and is in need of extensive work on its heating system.

**QUESTION 4:** What is the estimated cost of this building proposal? How much state aid is anticipated? How much will have to be bonded?

Answer: The estimated total cost of the project is \$6,800,000; \$2,900,000 would be covered by state reimbursement and \$3,900,000 would be funded through a bond issue. The town would not bond the entire amount but just the portion not covered by state aid.

**QUESTION 5:** Why spend the money to renovate and add to Bennet, which is over 50 years old, when the board just closed a school of the same age (Lincoln)?

### Town Will Buy Sand Screener

Bids will be opened Nov. 2 in the Municipal Building for furnishing the Manchester Highway Department with a portable sand screener. Offered in trade is a Kolman Portable Screening Plant, purchased in 1956 and, according to Town Manager Robert Weiss, worn out and beyond repair.

He has asked the Board of Directors to approve a \$16,000 additional appropriation to the Highway Department for a new sand screener. The board may consider the request Oct. 24, when it resumes last Tuesday's recessed meeting.

Weiss describes the sand screener as an essential piece of equipment, used for screening sand for snow and ice control and for spring and fall road work as well. Failure to purchase the piece of equipment, he explained, would require purchasing sand from outside sources, instead of utilizing the town's sand pit.

Bids will be opened Nov. 2 also for a variety of athletic supplies for the Recreation Department. A total of 50 items are listed on the spec sheets - ranging from an umpire's body protector to a girl's softball body protector.

### About Town

### His Cheesecake A Prize Winner

BY BETTY RYDER

(Herald Reporter)

In photographers' jargon, "a little more cheesecake, please" might well be instructions for a pretty model to display a little more of her shapely legs — but to Donald Griffin of South Windsor, it means his homemade cheesecake has scored another hit.

The would-be chef, 17-years-old and the son of Mr. and Mrs. Harry Griffin of 2680 Ellington Rd., has been interested in cooking since he was seven-years-old.

According to Donnie, he used to help his grandmother, Mrs. Vera Griffin of White Plains, N.Y., make cookies and cakes, and his interest in cooking just grew.

His cheesecake, which he considers his specialty, has won him several awards, and he has also sold it to a few area restaurants and a bakery.

He first entered it in the junior class cooking contest at the Wapping Fair, which is held annually in South Windsor, then later in the adult class, where he won first premium prize for three years.

Another prize winner is his Jewish Coffeecake, which took first prize at the fair.

Donnie likes to cook roasts, turkeys, etc., as well as desserts. "My mom does the shopping and will let me know what she wants for dinner, then I do the rest," Donnie said.

Donnie's dad is president of the U-Haul Company, Eastern Division, and mother is employed at Veeder-Root in Hartford.

A senior at South Windsor High School, Donnie is no novice in the cooking field. He worked at the Podunk Mill in South Windsor, near the Steak Loft, where he helped prepare buffets, including such items as baked stuffed shrimp, salads, and hot and cold buffet dishes.

He also worked part time making donuts at the Mr. Donut Shop in Rockville. His ambition is to attend the Culinary Institute in New Haven.

He especially likes cooking pies, and includes blueberry, and lemon meringue among his favorites.

His secret for making a "stand high" meringue that won't shrink from the sides of the pie crust is one of the few secrets he will divulge.

"Make a little extra meringue, spread it over filling so it covers the crust edges. After baking, refrigerate; it shrinks a little but won't pull away from the crust," Donnie said.

His cheesecake recipe is a secret, and one he doesn't feel he can share.

Herald photo by Buceticus

"I only use snowshoe rabbits from Vermont," he said. "I braise them, then boil them with potatoes, carrots and beans."

Incidentally, Donnie and his dad hunt for the rabbits when on trips during the hunting season to Vermont.

"I also make bread, shortcake, and biscuits. I have a recipe for a cool rise bread which is very successful and popular with cooks. You can make it the night before, take it out of the refrigerator in the morning, let it set for 10 or 15 minutes, shape your bread or rolls, and bake them for 35 to 40 minutes."

Cooking on a large scale isn't new for the youthful chef. Besides his parents, he has two brothers, Tom, 21, and Dave, 14, and a sister, Rhonda, 1.

"A couple of years ago, I cooked dinner for a family of 15 over a two-week period when the mother of the family was hospitalized," Donnie said.

"A girl who was in my homeroom at school knew I liked to cook, so her family asked me to help out. I made such things as stuffed cabbage, meat loaf, pot roasts, and other hearty dishes, and would have dinner already when they came home from work or school," he added.

Cooking secrets? Well, he has a few. He likes to use garlic, and parsley flakes, rather than fresh chopped parsley. His spaghetti sauce may vary from time to time, depending on what ingredients are available at the time of preparation.

Though only a young man, Donnie has acquired one basic characteristic prevalent in "well-seasoned" cooks of many years experience he doesn't measure anything.

He also makes beef stew and a rabbit stew, both of which are popular with his family, as well as lucky guests at the Griffin home.

"I must respect Donnie's wishes as pertains to the cheesecake recipe, he did consent to share his recipes for Jewish Coffeecake, and a special Chocolate Chip Loaf Cake.

## Oakland Athletics vs. Cincinnati Reds

A former N.Y. Yankee and a veteran sportscaster head the team of commentators in NBC's television coverage of the 1972 World Series. Left, Tony Kubek, former Yankee shortstop; and Curt Gowdy.

The fall classic between the Oakland Athletics, American League champions, and the Cincinnati Reds, National League pennant winner, opens today in Cincinnati, where the second game will also be played tomorrow. Game time is 1 p.m., with a pre-game program at 12:30. NBC research estimates that 96 million viewers will watch the first two games.

The third and fourth games and the fifth, if necessary, will be Tuesday, Wednesday, and Thursday night games in Oakland. Air time is 8 p.m., and the prospect is for 60 million viewers for each prime-time colorcast. The lone night game in the 1971 Pittsburgh Pirates-Baltimore Orioles series, played at Pittsburgh's Three Rivers Stadium, attracted a viewing audience of more than 62 million.

This is the 26th World Series on television; and NBC has telecast all of them, starting with the N.Y. Yankees' victory over the Brooklyn Dodgers in 1947.
