

### Police Report

A burglary occurred sometime Wednesday afternoon at 31 Carol Dr. Police say that approximately \$200 in coins was taken in the break, in which entry was gained by breaking a window in the rear door.

Terrence M. Stock, 21, of 40 Scott St., was charged Wednesday night with second-degree larceny by possession. Police said that Stock was found in possession of a 1971 Pontiac Grand Prix, to which he had no title. Police believe that the vehicle had been stolen recently in Florida.

Stock was also charged with improper use of registration plates as the plates on the car he was operating belonged to another car. He was released on a \$5,000 surety bond, posted by a professional bondsman, for court Aug. 20.

William Fox, 25, of Stafford, is listed in fair condition at Rockville General Hospital after an accident in which the motorcycle he was operating was in collision with a car Wednesday at Phoenix St. and Tankership Rd.

Dixon, 17, of Stafford, was charged with failure to grant right of way at a stop sign. Court date is Aug. 21.

### Democrat Lead Now 1,820

Manchester Democrats now enjoy a 1,820 lead over the Republicans in voter registration, figures released by the registrar of voters' office indicate.

The totals, which include 24 new voters signed up in a two-hour voter-making session Wednesday night and 51 others signed up in July during daily office hours, are: 11,290 Democrats, 9,470 Republicans, and 8,341 unaffiliated, for an all-time high of 20,101.

Since March 13, when a townwide referendum was conducted, Manchester's voter lists have been increased by 322.

Of the 75 new voters signed up in July and through last night, 34 are Democrats, 19 are Republicans, and 22 are unaffiliated.

### Bolton Summer Rec Program Will End on Friday

Donna Holland, Correspondent

The final day of Bolton's summer recreation program Friday will begin with many carnival-like events taking place.

Obstacle courses, sprints, relay races, sack races, softball, dart, sponge and water balloon throwing and bean bag tosses will be among the activities going on.

Ribbons will be awarded at about 12:30 p.m. to winners of different contests and tournaments that took place during the program.

Through the courtesy of program a cookout will be held on the Bolton Athletic Association grounds. The menu includes hot dogs, potato chips, toasted marshmallows, watermelon and soda.

Mrs. Jocelyn Soares will provide homemade whoopie pies for all the participants.

Recreation Commissioner Henry Ryba would like to thank the following volunteers for helping to make Bolton's first summer of such a program very successful:

### Coventry Boosters Head For England

MONICA SHEA, Correspondent, Tel. 742-9495

The Coventry High School Booster Club will leave Bradley International in Windsor Locks on Friday at 3 a.m. for Manchester, England. There will be 174 area residents on the plane which will arrive in England about 2 p.m. English time.

According to Owen Trask, coordinator of the Booster Club, the Connecticut group will be taken by buses to the Caldon Castle in Coventry, England, where they will be met by their host families.

Trask will present to the lord mayor of Coventry, England, a replica of the Coventry, Conn. coat of arms during a civic reception Monday in the Guild Hall of the Coventry Town House.

The visit will conclude with a dinner-dance hosted by the Coventry, England families on Aug. 20. Allen Freeman of Coventry, England, is the English coordinator for the visit.

The return trip will be made Aug. 21.

## Nixon Plans Major Changes For Banking

WASHINGTON (AP) - President Nixon today proposed major changes in the country's financial system, including phasing out interest rate ceilings on savings and other bank deposits over a 5 1/2-year period.

The recommendations include incentives to banks and financial institutions to lend more money for home mortgages by providing a tax credit on the amount of mortgage loans.

In addition, savings and loan associations would be able to offer checking account services and the so-called NOW account would be authorized for both commercial banks and savings and loan associations. NOW stands for Negotiable Order of Withdrawal and provides for negotiated rates of interest on checking accounts.

There were seven major changes in the financial package released at the White House. They followed a study of the country's financial institutions initiated by the President in 1971.

Deputy Secretary of the Treasury William E. Simon said in explaining the proposed changes that the timing is right because "we are in a period that could be classified this moment as an interest rate crunch."

Simon said he hopes the proposed changes can be ready for presentation to Congress in September and that hearings can be held beginning in October.

He described the proposed changes as "the first major restructuring of our financial system since 1865 without a crisis being present."

He emphasized that as a new briefing that a major goal of the changes is to maintain a flow of

### Watergate

WASHINGTON (AP) - The Senate Watergate committee was to probe further today into allegations that the White House attempted to draw the CIA into the Watergate cover-up, then planned to move on to an investigation of the FBI's role in the many-headed scandal.

Army Lt. Gen. Vernon A. Walters, deputy director of the Central Intelligence Agency, was today's first scheduled witness. Former FBI Director L. Patrick Gray is scheduled to follow Walters to the witness table late today or Monday.

### Minimum Wage

WASHINGTON (AP) - Republican opponents of a bill to raise the minimum wage to \$2.20 an hour predict President Nixon will veto the measure despite support for it from Labor Secretary Peter J. Brennan.

The veto threat has prompted House political strategists to reconsider whether to vote on the measure today or wait until September when the House returns after a month-long recess.

### Nixon Unwelcome

CHICAGO (AP) - AFL-CIO President George Meany says he will break a long-standing tradition and not invite President Nixon to the federation's October convention.

In past years, every president, regardless of party, has been asked to attend the biennial gathering of organized labor.

Asked if Watergate was the reason for not inviting the President, Meany said, "You bet your life it is. Mr. Colson and his gang... deliberately tried to arrange a confrontation at our (1971) convention for political reasons to win votes for the President."

He referred to former White House aide Charles Colson, who has been linked to Watergate by testimony from some of the witnesses. Meany said Colson "deliberately set up" an incident at the labor convention in which the President appeared to be insulted.

### Cambodia

PHNOM PENH (AP) - A major new thrust toward Phnom Penh gathered momentum today as insurgent forces battled government troops only three miles from the capital.

Field reports said an estimated 500 of the Communist-led rebels cut Highway 1 close to the village of Veal Snu, southeast of the city. It was the closest the insurgents have come to Phnom Penh in such length, and the thrust threatened the collapse of the entire southeastern defense lines.

In the United States, Supreme Court Justice William O. Douglas today holds a hearing in Yakima, Wash., on a request to overturn an order blocking a federal court ruling that the U.S. bombing of Cambodia is unconstitutional.

State Police Major Orlando Ragazzi is in charge of a new tollard post at Tollard's Administration Building, the former jail building on the Green for the criminal investigation into the disappearance of 7-year-old John Pickett.

### Curbs Sought On FBI Files

WASHINGTON (AP) - A coalition of congressmen and senators today called for curbs on the Justice Department and its computer files on criminal offenders until the department still improve restrictions on the files.

The bills offer to protect individual rights, the group threatened Atty. Gen. Elliot L. Richardson if he rejects the demand.

Sen. Edward Brooke, R-Mass., Michael Harrington, D-Mass., and Barry Goldwater Jr., R-Calif., and Republican Gov. Francis W. Sargent of Massachusetts led the coalition.

"Fail to insure the accuracy or completeness of the data on individuals," by amassing arrest records without indicating later charges were dropped or the individuals were acquitted or convicted.

"Allow 'virtually uncontrolled access to the data' to employers and other agencies 'for the purposes of employment, promotions, the granting of credit and other basic rights.'" The FBI maintains that only law enforcement officials have access to the files.

"Include the unnecessary filing of 'a host of minor offenses, many of which are misdemeanors involving no harm to others.'"

"As a result, the group stated, 'Individuals whose names appear in the file have been denied employment.'"

### Skylab Goes On, Rescue Stands By

SPACE CENTER, Houston (AP) - It was business as usual for the Skylab 2 astronauts today while launch crews at Cape Kennedy worked around the clock to prepare a rocket for a possible emergency rescue.

Alan L. Bean, Dr. Owen K. Garriott and Jack R. Lousma, still hopeful of completing a full 59-day mission despite a problem with their Apollo ferry ship, planned a day of medical, science and earth resources experiments on what originally had been scheduled as a day off.

The first attempt to rescue a crew in space might have to be made if there is more deterioration in the Apollo craft which is to be their last back to earth on Sept. 25. Officials said they hoped the rescue try would not be necessary.

The astronauts decided to forego the free day, which would have included their first shower in space, so they could make up for time lost in the first six days of the mission because of motion sickness and problem trouble shooting.

Mission Control passed up a lengthy list of flight plan changes on the Skylab teleprinter, prompting Lousma to remark jokingly: "The teleprinter message this morning is longer than the fireman's pole."

The "fireman's pole" is a strap-like handhold that runs the length of the 48-foot 780-mile system.

The House Thursday voted 358 to 90 for the facility, despite the concern expressed on the floor in nearly 10 hours of debate over oil spills - both on land and in coastal waters.

But, principal backers of the pipeline say major disagreements between both houses still stand in the way of final passage.

"I don't look for a long drawn out conference, but there are important differences," Rep. John Melcher, D-Mont., said after the House vote.

"The broad range of the Senate bill, affecting all types of rights of way on public lands, files in the face of the House bill," Melcher said.

## New Probe Ordered In Kent State Case

WASHINGTON (AP) - Atty. Gen. Elliot L. Richardson today ordered a new Justice Department investigation of the death of four Kent State University students shot by National Guardsmen in 1970.

Richardson said his decision was based on "the need to exhaust every potential for acquiring facts related to this tragedy."

He gave no indication whether a federal grand jury would be convened to assist in the probe.

Richardson ordered J. Stanley Pottinger, assistant attorney general in charge of the department's Civil Rights Division, "to pursue the additional inquiry by such means as he feels are appropriate so that the department will be completely satisfied that the department knows as much as can possibly be learned concerning possible violations of federal law."

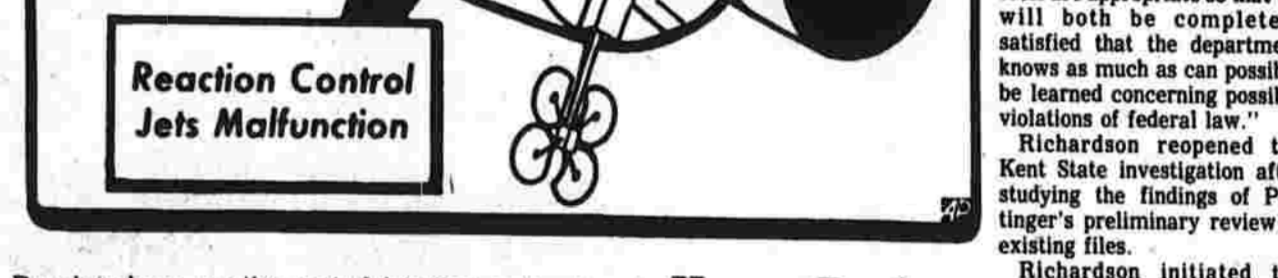

Richardson reopened the report State investigation after studying the findings of Pottinger's preliminary review of existing files.

Richardson initiated the preliminary review on the heels of a White House statement last May which reaffirmed the Aug. 1971 decision by former Atty. Gen. John N. Mitchell to drop the case without a federal grand jury probe.

In a statement, Richardson said the resurrection of the investigation "does not mean that the report State investigation after studying the findings of Pottinger's preliminary review of existing files."

## Oil Pipeline For Alaska

WASHINGTON (AP) - Environmentalists were defeated in another major effort to block the Alaska oil pipeline as the House followed the Senate's lead and approved building the 780-mile system.

Bolton Growers Say Tomato Supply Good

Despite poor spring weather conditions, Bolton tomato growers are reaping the rewards of their harvest.

Although most farmers admit the tomatoes are coming in a little later than usual, they either bring no indictments, or bring indictments which would only result in acquittals."

Four students were killed and nine others wounded when a National Guard contingent opened fire on students demonstrating against the U.S. invasion of Cambodia.

Garment said "It is our unanimous judgment if a grand jury were convened it would report no indictments, or bring indictments which would only result in acquittals."

Richard Morris noted that the cost of fertilizer and labor was higher last year. Last year, greenhouse expenses remained the same.

Another Bolton farmer, Casimir Kurys received \$1 a basket for tomatoes last week. Yesterday, with native tomatoes more plentiful, he received \$3.50 for the same size basket.

Morris said the market price is about the same as last year and feels that retail store prices should be coming down.

Edwin Alban said his crop is better than last year, just ripening later than usual.

Local fruit and vegetable stands available for comment said their prices are set according to market prices.

## CofC To Name Town Leaders To Head Program

Six top community leaders will be named to lead the Greater Manchester Chamber of Commerce program of work, according to Everett J. Livesey, vice president of the Urban Affairs Division.

Each one of the six will hold the responsibility for the five major operating goals for the Chamber in addition to one encompassing the needs beyond the goals, Livesey said.

By action of the Chamber's board, the task force approach for goal accomplishment was adopted, providing the organizational structure incorporating the use of top community leaders.

The task force approach provides an opportunity for a preference program survey of the broad Chamber base.

Each pool would contain a steering committee which one of the top six community leaders would chair. This steering committee would be responsible for the formation of task forces to study specific problems relating to each of the concentrated areas within the Chamber's program of work.

In addition to the six top leaders' responsibility as serving as steering committees chairmen, they would also be the advisory group to the vice president of the division in the formation of a steering council.

The five operating goals of the Commitment to the

## Town Streets, No X-Y-Z

Manchester, "A City of Village Charm," appears to be taking on a big-city image - but, not quite.

It has its Lincoln Center and its Herald Square - with its Harvard Rd., Dartmouth Rd., Princeton St. and Penn Dr. Yet, it has nothing even remotely resembling Yale, unless the long-shot Whitney Rd. falls into that designation.

The English aren't overlooked, even though Yale is, for there is an Oxford St. and a Cambridge St. Nor are the girls overlooked. There is a Wellesley Rd.

Appropriately, Manchester appears to be playing favorites with automobile manufacturers. It has its Plymouth Lane, Ford St. and Lincoln St., but nothing for Chevrolet, Cadillac, and the others. There is a Hudson St. - for those who remember the old Hudson car. But it might also remind people of the Hudson River.

Manchester is a patriotic town, with its Flag Dr., American Legion Dr. Congress St. and, of course, Liberty St.

It is, of course, a town with all seasons, with its Spring, Summer, Autumn and Winter Sts.

Certainly it's a nostalgic town, with its roads in the past. There's Indian Dr. and Farm Dr., and Pilgrim Lane. There's also Nutmeg Dr. and, to prove it's tradition goes far, far back, there's Angel St.

Manchester has never been featured in the centerfold of a national magazine, but it does have its Centerfield St. and it does have its Esquire Dr.

To prove it's all there, Manchester has its Marble St., and, to prove it's right up with the times, it has its Transit Lane. What it doesn't have, and nobody has ever explained why, are streets starting with the letters X-Y-Z.

Because it is a compact town, it has its Short St. and, to explain exactly what kind of town it is, it has its Wallace Pl., its Level Rd., its Pleasant St. and, especially, its Love Lane.

To those who ask, "How did Manchester get that way?" we can only reply, "The Butler (Rd.) did it."

## Pocketbook Legislation

Even in the midst of Watergate, Congress has gotten around to two pieces of legislation relating to the pocketbook.

On the President's desk is a bill raising the minimum wage from \$1.60 per hour to \$2.20 per hour July 1, 1974. It also extends coverage to seven million more workers.

There is some speculation the President may veto the measure but no President, according to history, has ever vetoed a minimum wage bill. Even if the veto should be exercised, it appears Congress has the necessary votes to override.

Social Security taxes which were already scheduled to increase in 1974 will be increased even more. While the rate for Social Security taxes will remain the same, the portion of an employee's wages subject to the tax

will increase above the present \$10,800. Under previous law, the wage base would have increased to \$12,000. However, it will now increase from \$681.90 to \$737.10.

Since the employer matches the tax paid by the employee, this means a potential of \$1,474.20 will be paid to the Social Security Administration for each employee. For self-employed persons the rate of 8 per cent will continue. However their wage base will also increase to \$2,600, meaning a potential tax payment of \$1,008.

The reason for the increase in Social Security taxes is due to the 5.6 per cent increase in benefits beginning July, 1974.

Social Security taxes and benefits will go up again in 1975 since existing law provides for cost of living adjustments in benefits paid for by automatic adjustments in taxes.

#### Cycle Deaths Cause For Alarm

Motorcycle deaths are climbing at an alarming rate in the state. At this writing, a 20-year-old East Haddam youth has been listed as the year's 46th fatality, a number that is already higher by 10 than all of last year's motorcycle deaths—and this with the second half of the year barely under way.

Authorities are quite concerned. Six of the state's agencies have formed a special committee to re-examine the motor vehicle laws dealing with motorcycles. Presumably, they will be looking for ways to improve the safety factor, either by tightening the laws or enacting new ones.

Perhaps the state has not been altogether fully aware of the motorcycle phenomenon. The popularity of the two-wheelers has increased tremendously throughout the 60s, and lately the appeal has gained as a result of the high cost of auto upkeep and the gasoline shortage. In 10 years, motorcycle registrations in Connecticut rose by 700 per cent. As of June, there were more than 40,000 cycles listed, this itself a 15 per cent jump over 1972.

Connecticut made no serious effort to regulate motorcycle use until the 1967 legislative session, when a package of bills was passed. The laws dealt with such matters as vehicle equipment, protective gear for riders and passengers, method of carrying passengers, and the prohibited practice of riding two or more abreast in a single lane of traffic.

Laws requiring goggles—or face shields—and protective headgear were especially problematic for the lawmakers. Despite the safety factors involved, a large number of cycle enthusiasts oppose the requirements, and for such less important considerations as their comfort or their

insistence that the wearing of a helmet be left a matter of free choice. (Motorcyclists, at least those with early associations with the vehicles, tend to be individualists. Hence their resistance to helmets as a matter of individual rights.)

As it eventually turned out, the 1967 helmet law was held by the courts to be sufficiently vague as to the enforceable; police were generally discouraged from applying it to violators. There has been talk, now and then, about improving the helmet law but nothing has ensued yet.

Perhaps, in a way, the attitude displayed in the helmet issue may be taken as symptomatic of the outlook that generally still exists so far as motorcycles and their operators are concerned. One suspects that those who regard the machine and its use as a serious business are few indeed. That this view may be lacking even in our Legislature is suggested by the fact our lawmakers have not been disposed to place tighter control over the cycles and their riders.

The disdain shown the helmet by many cyclists can be deemed symbolic of the free-spirited philosophy the motorcycle somehow engenders. Think motorcycle and the image emerges of an unbound soul, roaring down the road in care-free style, unhampered by the constraints that impede the motorist. The popular view that defines the motorcycle as a "get-away-from-it-all" pleasure vehicle for the devil-may-care soul is typically bolstered by some television commercials.

New laws are necessary, but so is a drastic change in attitude, on the part of all concerned. The motorcycle can be a useful and enjoyable machine. But it also can be a dangerous one, if not handled properly and with prudence. — New Haven Register

### Coming Clean Worth A Try

WASHINGTON — The frustrating aspect of President Nixon's refusal to open up the Watergate committee and Special Prosecutor Archibald Cox is that Nixon has a good case in his own defense. Yet he continues to stall, suggesting he has something to hide, but we don't have all week.

(Parenthetically, of course, ALL Presidents always have something to hide, but we don't have all week.)

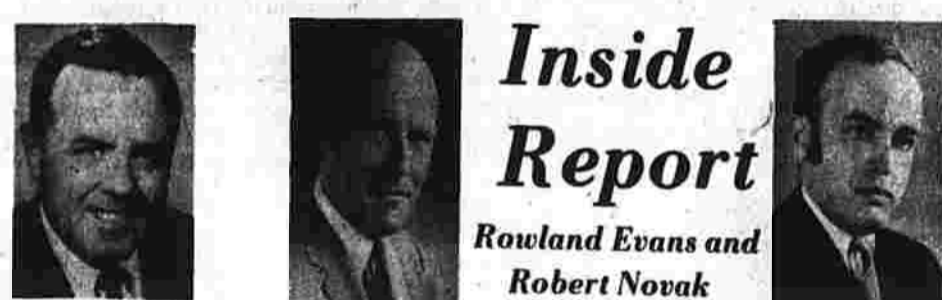

Nixon's case is a good one, at this writing, because the only personal testimony against him is that of fired Presidential Counsel John Dean, and Nixon probably could dispose of Dean's credibility with a contemptuous wave of his regal hand. The people have seldom taken the courtier's word against the monarch's.

First, Dean had everything to gain and nothing to lose by passing the buck up to the top. He wouldn't testify until he got almost total immunity from prosecution, which to a lot of people sounds like strike five on his credibility. Nixon could remind the Watergate committee of this, and chide Sen. Sam Ervin for his confidence in Dean as a witness who didn't have to refer constantly to his notes or his lawyer.

Second, the closest Dean came in implicating the President in the planning and/or cover-up of the scandal was based on hearsay and his own interpretation of some of the more laconic Presidential utterances. Sam Ervin, a Constitutional authority who poses as a country lawyer, knows that hearsay hasn't been admissible as evidence since Hammurabi cut off people's hands for stealing bread.

After Dean, nobody has said anything that links Nixon to any phase of Watergate. Yet there is the circumstantial link between him and his lieutenants. For instance, the question Ervin's committee—and the rest of the country—would like to ask most is: "Mr. President, how could your personal attorney, your professional attorney, your Attorney General, your two top personal aides and the highest levels of your reelection committee be up to their necks in unsavory campaign practices without your knowledge?"

Nixon could answer: "Look, John Mitchell testified that my reelection was an end that justified any means, as far as he and the rest of my staff were concerned. If that's the way they felt, why should these men jeopardize my career by involving me in the affair?"

### The Percy Phenomenon

WASHINGTON — The recent Harris poll showing astonishing strength for Sen. Charles H. Percy of Illinois against Sen. Edward M. Kennedy, universal derided by politicians and fellow posters, is convincingly confirmed by our own interviewing in a Nixon New Majority blue-collar neighborhood.

Liberal Republican Percy not only beat Kennedy but ran better than both Gov. Nelson Rockefeller of New York and former Gov. John Connally of Texas in presidential matchups we conducted during a Jersey City political tour.

Equally surprising was the awareness of Percy, a Midwesterner closely connected to big business and the liberal elite, Percy was well known in Jersey City as Rockefeller, Connally and Vice President Spiro T. Agnew. Only Agnew did better against Kennedy than Percy, but only marginally.

The results of our interviews (with national pollster Oliver Quayle) among 62 voters, mainly ethnic Democrats of North Carolina, though first dismissing charges out of hand that his chief investigator carried out "political dirty tricks," he not—contrary to rumors being spread by Republicans—sure 23, Kennedy 39, Rockefeller 29, not sure 2.

At issue are affidavits, obtained by private investigators hired by Republican National Chairman George Bush, alleging political espionage against the Republicans in the 1960 presidential campaign. They name as chief spy Carmine Bellino, chief investigator of Ervin's Watergate committee should be a long signal to the party: Chuck Percy must be taken very seriously as a 1976 presidential prospect.

The Democratic National Committee last week on orders of Chairman Robert Strauss secretly imposed a gag rule to bidding its staffers from talking to any reporters—outdoing even the restrictive Haldeman-Ehrlichman White House in trying to close doors.

### Grateful

Dear editor: All of us who are concerned with the rehabilitation of the mentally ill and the promotion of mental health are deeply grateful to Rep. William R. Cotto for his successful support of HR 5008 and to Sen. Abraham Ribicoff and Lowell Weicker for their support of S. 198. These bills will extend the funding of community mental health centers for one year, through June 1974.

The community mental health centers program brings community-based treatment facilities to the mentally ill—a signal advance in successful prevention and rehabilitation over the old isolated mental hospital warehouses. Both our Connecticut Association and the National Association for Mental Health, Inc., continue to press confidently for a longer term bill, so federal funding for new community mental health centers will be continued.

We consider the passage of the Community Mental Health Centers Act a stunning victory. We congratulate our entire Connecticut Congressional Delegation—all of whom supported the act—for their sensitive, creative, devoted legislative efforts on behalf of the thousands of mentally ill.

Sincerely,  
Mrs. Albert Kohn

### Caesar's I Restaurant

Caesar's I is a contemporary restaurant noted for elegant dining. It has gained an outstanding reputation for fine food because of much time and effort put into every meal that is served. Only the best of everything is good enough for their guests; that is why their chef insists on the best meats, and that all of the salad dressings, soups, and even the pastas are homemade. Caesar's I invites you to try their dining facilities whether for lunch or dinner, a small, intimate meeting, a full scale "show your wares" meeting, or the ultimate in a wedding reception, banquet or party.

Located in Willimantic on Main Street, their air-conditioned restaurant offers the best in dining pleasures 7 days a week. Monday thru Saturday lunch is served from noon until 2:30 and dinner is served from 5:00 until 10:00. On Sundays they are open to serve you and your family from 2:30 until 10:00 p.m. If you are looking for excellent food, service, and dining atmosphere we recommend you call 423-1111 and make reservations now!

### Physicians Learn "Feel" of "MBD"

In a demonstration designed to help physicians in private practice to actually get the "feel" of a condition known as "minimal brain dysfunction," two days of seminars in Jacksonville, Florida, were sponsored by the Child Guidance Clinic there; the Division of Child and Adolescent Psychiatry, University of Arkansas Medical Center; and CIBA Pharmaceutical Company, as part of its Medical Horizons Postgraduate Education Series.

Joanna S. Davis, M.S., Language and Education Specialist at the Arkansas Center, conducted the tests and reports that many of the physicians who had thought they "understood" MBD were really like before - the frustration and the confusion that the child experiences. MBD refers to children with certain learning or behavioral disabilities associated with deviations of functioning of the central nervous system. There are an estimated 2,000,000 MBD children in the U.S.

### OLD CODGER'S CODGICATIONS

O.C. never owned a ferret. Now, their use to take rabbits is illegal in Connecticut, and probably in Ohio, but O.C. accompanied hunters with ferrets in both states before the prohibiting laws were made. A friend "Little Cuke" had the ferret and a friend hound. O.C. could furnish the horse and buggy. We would drive out to Bolton in the evening and hitch the horse to some farmer's barn or shed.

One out in the field the hound was turned loose. As soon as we heard him start to "make music" we would start in his general direction and he would be near as possible when he "barked in." We didn't have electric lights and a kerosene oil lantern. The ferret was in the hole and the dog was in the hole. We put out the horse in Joe Curtis' barn and started for Cat Hollow way down past Buckingham. That's really rough up-and-down rocky country.

So each had our old barn covered with which we can almost see a large tree trunk before he bumps into it. There were always "coons" in that region and that was one of those nights when nothing was stirring. So after a few hours we returned to the farm. Coons in horse blankets to wrap in and burrowed into the hay to get a few hours sleep before Mr. Curtis was to take a breakfast for us. O.C. didn't hear any grumbling about the luck. All three had too much experience for that.

O.C. didn't hear any grumbling about the luck. All three had too much experience for that. Ferrets, weasels and their ilk are very fast. They drive their long fangs into their victims' jugular artery and hang on sucking their fill of blood. If the victim is small enough he is dead when they let go. If he is a rabbit, he has to be held after his attacker is surfeited. O.C. found where a weasel had caught a large gray rabbit in his tree burrow and bled it almost to death. When released it had only enough strength to crawl about ten feet before he slipped into the snow and froze. The fur was matted at the throat and two fang holes.

### Tolland Ambulance Unit Sends Out Plea For Volunteers

VIVIAN KENNESON Correspondent Tel. 875-4704 The Tolland Volunteer Ambulance Association is sending out a plea for volunteers who have an advanced Red Cross first aid card. There is a critical shortage of qualified personnel, and summer vacations have put an extra burden on the volunteers. Help is needed for both shifts. Any resident who holds the necessary card is urged to contact Mrs. David Manning of Hartland Rd.

Junior's Beautifying Members of the Tolland Junior Women's Club conservation committee have participated in two work sessions at the Town Hall and the Administration Building. Committee members weeded, trimmed, and picked up litter on the grounds. An additional work session is being planned to complete the job. The committee plans to tour the Horticultural Gardens at the University of Connecticut on the morning of Aug. 16. Club members interested in joining the tour should call Mrs. Ernest Cordes, conservation chairman.

Variances Granted The Zoning Board of Appeals has granted a variance to Paul and Mike's Service Station on Rt. 30 to have a non-conforming sign remain on the premises, providing it is the same size and in the same location. No additional signs will be permitted. Gilbert Schmeiske was granted permission to build a house on S. River Rd. with less than minimum frontage. Richard Schoonmaker of Vernon was granted conditional approval for two lots on Plains Rd. on the condition that a 50-foot right-of-way be retained between each lot and that each lot be expanded so that it has a minimum of 4,300 square feet. ### Rham District Board, Teachers Sign Contract

ANNE EMT Correspondent Tel. 228-3971 The 1973-74 professional agreement between the Regional District 8 Board of Education and the Rham Educational Association (REA) has been signed by both parties after mediation. Dr. David Cattanch, superintendent of schools, made the announcement Thursday. The new contract, which provides a salary increase of 5.2 per cent, was approved on July 21 by the REA and, according to Dr. Cattanch, will require "no additional funds" from the towns of Hebron, Andover and Marlborough for the operation of Rham High School.

Salary Schedule The new salary schedule covers 12 steps for a teacher with a bachelor degree (fourth year) and ranges from \$7,900 to \$11,400. This differs from last year's schedule in that the salary schedule ranged from \$7,800 to \$11,100. For teachers with a master's degree (fifth year), the increase is slightly more with the new schedule ranging in 13 steps from \$9,500 to \$12,870 as opposed to from \$9,300 to \$12,500 last year.

Insurance Insurance benefits are the same as the teachers received last year. This includes the extended Blue Cross plan with outpatient hospital benefit rider and full semi-private room rider, the CMS Century Contract, major medical insurance with Great West, and group life insurance coverage at one times the salary to the nearest thousand dollars with an option to increase coverage by the individual teacher at a minimal rate. Extra Duties and Pay Department coordinators will be remunerated at the same rate as last year which was \$250 per year, plus \$50 for each full-time teacher below him. However, the maximum has been raised from \$600 to \$650. Although there are increases required by the new contract, Dr. Cattanch stressed that "savings" realized by replacing experienced teachers with teachers lower on the salary schedule, in addition to not hiring one and a fraction teacher which had been budgeted," will offset these increases.

Copies of the contract are on file in the town halls of the three towns. If not contested after 30 days, the contract will automatically become effective. # Movies Move to Mt. Nebo

The administration of Summer Activities in Manchester (SAM) and town officials have examined the public outdoor film festivals in Center Park with growing concern. It appears to us that the conduct of the movie patrons has deteriorated to an unhealthy level. Specifically, the following has occurred at Center Park:

- Racing of cars and squealing of tires
- Bottle breaking
- Patronage of liquor establishments in the area by movie patrons
- Trespassing on private property
- Constant mobility of crowd
- Patronage by out-of-town residents.

As a result of this situation, we considered terminating the movies. We do realize however, that the majority of the persons present are well behaved and do enjoy the festivals. It would be unfortunate to penalize all for the actions of some. Therefore we have prepared an alternative which will allow us to continue the Film Festivals on a trial basis and hopefully afford us more control over the above listed occurrences.

The site of the movies will be changed from Center Park to Mt. Nebo football field. We believe Mt. Nebo has advantages which will allow us to rectify the problems encountered. The advantages of the new site are:

- Site removed from roadways

This area is the same site as SAM concerts and contains many of the provisions for the concerts which will lend themselves well to the smaller number of movie patrons.

Center Park, surrounded by roads, commercial zones, and residential areas without a buffer, is taxed beyond justification. Mt. Nebo still

within walking distance from the Main St. area via a lighted walkway under I-94/91. It has no commercial or business areas nearby, and affords a wooded buffer zone from residences.

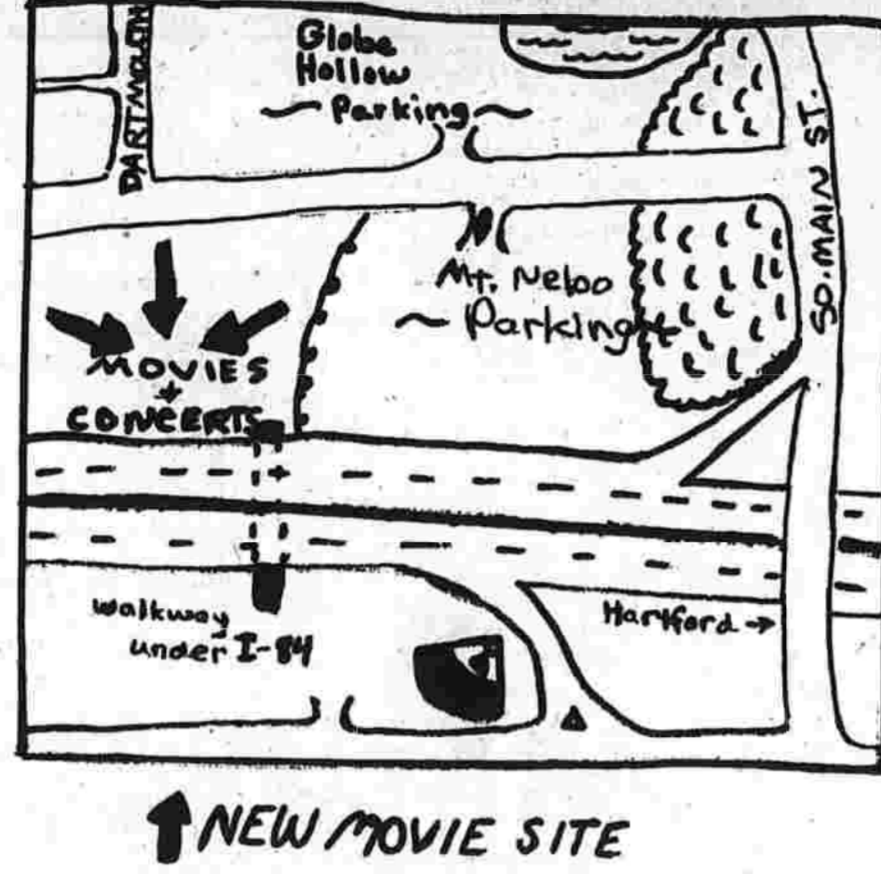

The factor which will decide the future of SAM outdoor movies is, of course, the youth which partake of the films. The improved site can lead itself to success, but the viewers must decide to eliminate annoyances or face cancellation of the attraction. This will therefore be a trial run with judgment to follow. The actions of a few can decide the future with responsibility for success placed upon the youth.

We believe we have improved our selection of movies and have experienced larger numbers of spectators this summer. We are sure Manchester youth need and desire this service. If abused, the end of the films will surely follow. One factor which can assist us in control of the patrons is the presence of adults. We believe young children should be supervised by parents who, too, can enjoy our films. Adults add a stabilizing influence to any gathering and we wish to encourage their presence.

Mt. Nebo will allow us to employ more effective police foot patrol which will be increased. This should also afford greater control.

The decisions to transfer the Film Festivals from Center Park to Mt. Nebo is effective immediately. Last Tuesday July 31st was the start of Mt. Nebo movies. These showings are for Manchester residents only. We hope youth and adults in Manchester will care enough to continue to enjoy the opportunity to see "films on the green." If so Tuesday's movies should prove to be some change from our last in Center Park.

## SAM Concert Crowd Most Enthusiastic

Saturday, July 28, SAM held its first full concert at Mt. Nebo. The music started at 7:05 p.m. and featured Phineas Grogan and Rainbow.

Phineas Grogan started out with "Keep Playing" that Rock and Roll, "pulled through their first set and ended it at about 7:50. After about 25 minutes, Rainbow started and cranked out 35 minutes of some "right off the record" music. They also did an original that was not

## SAM Fair

Craftsmen in many fields are preparing handmade items for the Aug. 25 Craft show held at Center Park from 11 a.m. to 7 p.m.

In the SAM classes taught by Bea Sheftel, teen-agers are preparing items to exhibit, such as macrame, belts, wall hangings, crochet, crenel and other crafts. Bruce Sheftel's evening leather class is working on key chains, purses and other tooled items to display.

Anyone in the SAM classes may exhibit or sell at the crafts show and have an opportunity to win a ribbon for excellent workmanship. Classes are still open: Tuesday, multi crafts; Wednesday, quilting; Thursday, Macrame; and Tuesday and Thursday evenings, leather crafts.

The classes are free with participants supplying their own materials. The fee of \$3 for the leather class covers practice leather, dyes, creams, wax thread and other necessary items.

Craftsmen interested in being in the show should contact Bea Sheftel any Friday from one to four at 643-6785 or come down to the West Side Rec. at 110 Cedar St. during that time. Each craftsman may also enter items of his choice in the contest. All well-made handicrafted items are eligible for the fair with the exception of handmade ceramics.

There is no booth fee: 10 per cent of all sales will go to the SAM fund for those exhibits over 18. Under 18, only 5 per cent contribution will be necessary. Craftsmen may have up to 2 1/2-foot tables. For more information call Bea Sheftel at 643-6785.

The SAM program anticipates a crafts show with 50 to 60 craftsmen.

## TV Appearance

On Tuesday, Aug. 7, the cast of "The Land of ABC" will be heading for WVIC Broadcast House on Constitution Plaza in Hartford.

Purpose: To tape two short segments of the fantasy for inclusion on "The Ranger Station," a children's show.

A TV appearance is a first for Summer Theatre, and the group is noticeably nervous, but excited! The sets for ABC are of course portable, and will be set up right in the studio. The taped segments will be telecast the following afternoon, Aug. 8.

Summer Theatre will also be presenting a special performance of "The Land of ABC" for the children at the Singer

## Fears For Rights Of Young People

NEW YORK (AP) - Columbia University President William McGill spoke up recently from the witness stand in a criminal trial about the rights of young people to join movements that might offend outsiders.

There is a large group of young people who are wandering in search of a purpose," McGill said. "Some of them come together in groups. I can see that they are very repelling when viewed from the outside, but we have to accord them that right."

McGill was testifying as a prosecution witness at the trial of Ted Patrick, who is accused of trying to force a young man to leave a conservative religious sect near the Columbia campus.

## SAM Movie

Tuesday evening at Mt. Nebo SAM will present "Bonnie and Clyde" the celebrated film about the folk-hero bank robbing spree of Clyde Barrow, Bonnie Parker and their gang in the 1930's. A fascinating and vivid movie that horrifies and thrills you as their crazy, blood-bath trail ultimately explodes into a "Greek-tragic" climax.

"Told with rare perception sensitivity, the look of the era and movie know-how, NOT a cheap gangster thriller!" Cue Magazine.

"With 'Bonnie and Clyde,' Warren Beatty and Arthur Penn firmly establish themselves as one of the most exciting creative teams in American movie making," Judith Crist.

That is this Tuesday night, Aug. 7 at Mt. Nebo; it starts at dark so don't miss it.

## SAM Notes

SAM Meeting Monday night SAM will hold a meeting at the West Side Rec, 110 Cedar St. The meeting will start at 7. Everyone is welcome.

Special Thanks Special thanks go to Frank Woods of the Marvelous Marbles for his aid in the production of the recent SAM concert.

## Vernon Town Council Called Into Special Session

A special meeting of the Town Council has been called for Tuesday at 7:30 p.m. During the summer the council does not hold its regular bi-weekly meetings.

At Tuesday's meeting council members will be asked to take action on Board of Education teacher contracts. For the past few years it has been necessary for the council to accept or reject the contracts, or if no action is taken within 30 days then it automatically means acceptance.

The Board of Education is also asking the council to take action on resolutions concerning expansion of the Vo-Ag building at the high school and repairs to Building A ordered by the office of the fire marshal.

Expansion of the Vo-Ag building will be paid for in full by state funds. The expansion of this building was to be accomplished along with expansion of the high school.

It is also expected the council will discuss several other pending matters such as repairs to the Memorial Building and several tax matters.

Mayor Frank McCoy has received complaints from several of the men working on

the town's trash collection trucks who claim they are being overworked because the town is only using two of its three trucks.

The mayor said he is reviewing the situation in an effort to iron out the difficulty. He said the original plan was to use only two of the trucks and keep the third for backup. This was the case until the town discontinued its trash collection contract with an out-of-town firm and had to add school collections to the route.

When schools closed in June the public works department went back to using the two trucks and the men now claim they are working more hours to keep up with heavy summer collection than they did when the three trucks were used.

Mayor McCoy explained that the men work on an incentive basis and get paid for eight hours even if they finish their work in less. He said some claim they are working eight hours or more. If they do work over the eight hours they are paid time-and-a-half.

The mayor added he has had no complaints about the job the men are doing.

## Vernon School Board Reviews RHS Revisions Monday

The Board of Education will meet Monday at 7 p.m. at the office of the superintendent of schools on Park St. to review revised plans for an addition to the high school.

Architects William McHugh and David Eveleth, were asked last month to come in with revised plans which would cost in the area of \$5.1 million for expansion of the high school.

The proposed plan will not include any of the extras such as a pool and an enlarged gymnasium which were included in the first expansion plans and deleted by a referendum vote.

The revised plans will call for expansion of the classroom area, the library, science facilities, cafeteria and music department and make some changes in the existing auditorium.

The original school was constructed as a second story could be added when necessary. The latest proposal would put eight new science labs on the second floor of the west wing of the building.

The original plans carried a price tag of \$8.6 million. A second proposal would have cost \$6.1 million for the core facilities, and the pool and gym were offered as options. This, too, was defeated by referendum vote.

The board now has to review the revised plans and make a decision as to when and if it will go to another referendum. Board members have been divided in their opinion as to putting the question on the voting machines in the November elections.

At Monday's meeting the board will also review plans and hear a progress report on renovations to the East School.

The board was ordered by the fire marshal to make several changes involving safety rules.

Dr. Raymond Ramsdell, superintendent of schools, will explain a grant for a health education program due to be instituted in the schools in the fall.

The board will also take action on the resignations of three teachers. Barbara Bessel, who has taught five years in the Vernon system and who has been on leave for the past year, has resigned. Paul Lambert, social worker with six years experience in Vernon, and William C. Gregonis, who has worked in the school system for 14 years and who has been on leave of absence submitted by Cheryl Resch, art teacher at the Northeast and Lake Street Schools, both have been in the system for four years.

## Columbia Notes

Persons who wish to transfer from one party to another may make application to do so. At the end of a required six-month waiting period, he will be automatically transferred. A voter can have his name removed from a caucus list, if he so desires, at this session. The registrars will prepare the new caucus lists of all those who will be eligible to vote in the caucuses and primaries before the November election. This will be the last opportunity except for newly made voters for anyone to enroll before the August caucuses. The Republican caucus is Aug. 22 and the Democratic caucus is Aug. 29, both at 8 p.m. in the town hall. Tickets are now on sale for the Lions Club annual chicken barbecue. The barbecue is scheduled for Aug. 12 from noon to 4 p.m., rain or shine. Funds raised from the project will be used for community betterment, according to a Lions spokesman. The Canoe Club is sponsoring a tag sale in St. Columba's Church hall Saturday from 1 to 4 p.m. Tickets are now on sale for

Time Out for Adjustment

At first glance, the sequence of pictures appears to be that of a pitcher going through his pre-pitch motions, actually it's Dal Maxville, veteran shortstop of the Pittsburgh Pirates. He was obtained by the Pirates from the Oakland A's.

# Wraps Taken Off Moret, Joins Starting Rotation

BOSTON (AP) — The Boston Red Sox have waited and waited for lanky southpaw Rogelio Moret to develop as a major league pitcher and the patience appears to be ready to pay off, finally. With his options expired, Moret has been handed with kid gloves by Red Sox manager Eddie Kasko this year. Now the wraps are being taken off in the final weeks of the American League Eastern Division.

### A's like Avis, No. 2, Royals in West Lead

NEW YORK (AP) Have the Oakland A's become the Oakland Avises? "I guess we're like Avis; we'll have to try harder," Manager Dick Williams said after the world champion A's lost to Minnesota 6-3 Thursday night and became No. 2 in the American League's West Division, one game behind the Kansas City Royals, who beat Chicago 9-1.

BOSTON (AP) — Carl Yastrzemski, the Boston Red Sox veteran slugger, is unhappy with a batting average hovering around the .250 mark and is determined to do something about it. Yastrzemski took an hour's batting practice after a game with the New York Yankees Wednesday afternoon. A handful of observers, including owner Tom Yawkey, noticed Yaz trying to hit to left field, hanging a few balls off the chummy wall.

## Officials' Options At Westchester

HARRISON, N.Y. (AP) — Tom Weiskopf tried again today to extend a record record of success that has been called golf's greatest since Byron Nelson's exploits of 1946. Weiskopf, and the other 146 members of the field, were delayed by a day in their start in the \$250,000 Westchester Golf Classic, one of pro golf's richest events.

## Palmer Joins GHO Tourney

HARTFORD (AP) — Arnold Palmer's first major victory in a major golf tournament was the Insurance City Open in 1956 and four years later he took the title again in 1960. Palmer will be back in Connecticut over the Labor Day weekend shooting for his third title in the tourney, now called the Great Hartford Open.

# Skins Will Display Thomas, Staubach Gets Cowboys' Nod

NEW YORK (AP) George Allen says he's out to win tonight when the Washington Redskins host the Detroit Lions. But the Redskins coach is not about to do anything reckless like risking last year's most valuable player, Larry Brown.

As was done last year, Brown will be on the sidelines, but Duane Thomas, whose running abilities most Redskins fans have only heard about, will be on display.

With a couple of exceptions, the Redskins starting lineup will be the same as the team that lost last year's Super Bowl to Miami 14-7.

Houston hopes the same combination will click twice when they clash with the New York Jets tonight. Dan Pastorini will oppose the Jets' star Joe Namath, in the same duel which produced the Oilers only victory last season.

Oakland is at New England Sunday while San Francisco plays at Cleveland Monday. The Oilers made two trades Thursday - sending rookie wide receiver Edgell Garrison to the Los Angeles Rams for an undisclosed draft choice and acquiring running back Eddie Richardson from New York for an eighth round 1974 draft choice.

# Pay TV Alternative To Blackout Ban

WASHINGTON (AP) - Bill Guthrie, sports editor of the New Haven Conn. Register and Journal Courier, said Thursday that if Congress banned television blackouts of home pro football games, it would open the gates for the National Football League to move to pay-TV.

Guthrie said he opposed pay-television. He also said he feared that fans who now see the NFL's road games would lose what they already have if the blackout ban went into effect for the one-year experiment which is proposed in some legislation.

Rep. Torbert Macdonald, D-Mass., chairman of the House subcommittee on communications, has introduced a blackout ban but has said it will not be only a year of the measure by Sen. John O. Pastore, D-R.I., which has already passed the Senate Commerce Committee.

Rep. Starnford E. Parriss, R-Vt., has introduced in the House an identical bill to the one of Pastore. He has picked up nearly 100 co-sponsors.

In his formal statement, Guthrie said: "I think that these bills, as written, would be playing into the pay-TV game plan of the NFL, a game plan which NFL officials deny even exists."

# King-Riggs Settle Tennis Battle Date

NEW YORK (AP) - "I'm going to let my racket speak for itself" is how Wimbledon champion Billie Jean King summarizes her chances in "the tennis battle of all time" but one of the conditions of the match may also work in her favor.

The \$100,000, winner-take-all duel between Mrs. King, who calls herself the old lady of tennis, and Bobby Riggs, tennis hustler supreme, was agreed to in July, but at a circuit television news conference Thursday, Roone Arledge, president of ABC Sports, and Jerry Perenchik, head of Tandem Productions, promoter of the event, announced it will be staged Sept. 20 in Houston's Astrodome - and aired on prime time television.

The former two-time track champion is one of the hottest drivers at the quarter-mile Bay State oval.

It's Bill Gresco against the field Saturday night in the last 100-lap race of the 1973 season at Riverside Park.

The appearance of Secretariat in the Whitney will be nationally televised over the CBS network.

# Six Women Clubs Left In ASA Softball Play

The final round of the Connecticut Women's ASA Slow-Pitch Softball Tournament double elimination will continue Saturday at Flitgers Field with six clubs remaining. The first of six scheduled games will begin at 2:30 in the afternoon with Fairfieldettes going against the Socialites.

1. Italian Club (2-1) and Fairfieldettes (2-1). The Connecticut State Champion will advance to the Regional Tourney at Plainville, Aug. 10, which will involve teams from Connecticut and Rhode Island. The winner will move to Memphis, Tenn., site of the National Tournament.

Saturday's schedule is as follows: 2:30 Fairfieldettes vs. Socialites 3:45 Italian Club vs. New Haven Tigers 5:00 Winner of 2:30 vs. Winner of 3:45 6:15 WINF vs. Winner of 5:00 6:30 Groman's vs. Winner of 6:15 9:15 Repeat of 8:00 game if necessary

# Columbia Canoe Club Enters National Finals

Six members of the Columbia Canoe Club will be flying from Bradley Field Tuesday to compete at the National Canoe and Kayak Championships at Green Lake in Seattle, Washington. The dates of the event are Aug. 10, 11 and 12th.

Making the trip to the West Coast are Denise Ruzicka, Patricia Sanborn, Al Randall, Rob Johnson, Rusty Herbert, Bill Byrd and Mrs. F. Murphy, the coach of the squad.

Although other clubs have been qualified Sunday in the Eastern Divisional races held at the Mansfield Hollow Dam, the cost and living expenses limited the selections.

# Secretariat On Display At Saratoga

Secretariat, the King of the turf world, puts his regal presence on display in the \$30,000-added Whitney Stakes at historic Saratoga race track Saturday.

Already a legend in his own time, the 3-year-old Meadow Stable colt will be competing against older horses for the first time. No matter, he is expected to win and join the equine millionaire's club.

The popularity of Secretariat seems certain to attract a record crowd of 30,000 to the century-old Saratoga track.

The appearance of Secretariat in the Whitney will be nationally televised over the CBS network.

ABC has sold all of the commercial time available for the match. No monetary figure was announced.

The match will be a best-of-5 sets affair. And while Riggs has loudly forecast victory over Mrs. King, Billie Jean, 29, will have youth on her side.

When Riggs overwhelmed Margaret Court of Australia in their "Battle of the Sexes" on Mother's Day, it was best-of-3.

In this case, however, unless Riggs can take three straight sets, he runs the risk of coming away from the match with nothing to show for it but a good workout... and all that publicity.

Williammatic came back with a quick goal at the start of the second out of its season on a good note by downing Williammatic, 4-1, Wednesday. Werner Caceca scored early for the winners for two first half goals.

**REAL ESTATE CORNER**  
By Ralph A. Pasek

When you sign an offer to purchase, the real estate broker will ask you for earnest money. Earnest money is money paid by the buyer to either the broker or the seller when he signs the offer to purchase, which money is a guarantee that the buyer will perform as outlined in his offer to purchase and which is to be applied toward the purchase price of the property. When you sign an offer to purchase, you in effect say to the seller that you are willing to purchase the property he listed for sale but only on the terms you outlined in your offer to purchase. Your earnest money represents your guarantee that you will go ahead with the offer if he accepts it.

When you're ready to purchase property make that first step. Pasek and Rutherford Realtors, Inc. We are specialists in residential, industrial and commercial real estate, and are members of Multiple Listing Service in Hartford, Manchester and Vernon.
