Save Us From Case Mountain

It would now appear from past and recent disclosures about the abuses taking place on Case Mountain that a bumper sticker reading "Save Us From Case Mountain" would be in order. It must be apparent to even the oponents of this now-tragic situation that the taxpayers have an expensive road ahead of them to cope with the problems maintaining this remote area, with litle return in direct benefits to them. It is

now quite clear as to whom the benefits

are to acrue. Practical and logical questions in the equisition of this property were called to

the attention of the town officials most instrumental in pushing this project through but to no avail. It would seem that they must now accept the blame for this costly

It seems quite unlikely that such a situation would have ever come about under a It will be to the best interests of all taxpayers in this period of retrenchment if all future projects and expenditures are Ellis E. Goslee

The American courts have set guidelines for achieving the kind of ethnic mixture in the schools which scholarly opinion seems to back up. Gaining Ease In Prayer

Just as you constantly perfect the art of conversing with your friends and loved ones, so your ability to dialogue with God

You gradually feel less awkward, more at east in His presence. You become more sensitive to His mind so that you come to know ever more clearly how He is responding to your words. (Daily reading of the Bible helps to develop this sensitivity.) More frequently you listen to Him in silence. You may get to know God so intimately that your spirit passes beyond the need for many words and relies on a few well-chosen words that sum up your attitude toward God. Lovers do not need to be talking all the time. Just being in one another's presence is often a rich experience. (Taken from Daniel Scully,

#### BETTY'S NOTEBOOK

The sound of music literally poured from the open windows of the Federation Room at Center Congregational Church Friday when Hazel Steck of Coventry, noted character actress and songstress, musically saluted the Cosmopolitan Club on the occasion of its 70th anniversary. Miss Steck who has performed in such hit shows as 'Sound of Music," "Molly," "Anything Goes," "Flower Drum Song," "South Pacific" to name a few, received a standing ovation as members applauded her renditions of

Splendored Thing" a tender, moving "You'll Never Walk Alone," and a toe-tapping "Bill Bailey Won't You Please Come Home?' The versatile songstress who sings in three octaves, will soon continue her tour in "Anything Goes" starring Ann Miller after successful Connecticut appearances at the Candlewood Theatre in Fairfield and the Seaport Theatre

Accompanying her at the piano was Eddie Reed, known to area music lovers for his outstanding repertoire. Members of the Cosmopolitan Club enjoyed a special an-

niversary cake made for the occasion in celebration of its founding Oct. 7, 1904 by Mrs. D.C.Y. Moore of Manchester. The club now has some 55 members. We wish to extend our best wishes to the club and hope they may enjoy many more years. Happy Anniversary

In The Eves Of The Beholder Have you ever seen people in what you considered an un-

usual situation, and running through your mind were such thoughts as, "Now what in the heck is she doing" or, "Now I've seen everything?' Well, when you are the one in the situation, it doesn't seem that unusual — but on later reflection, you suddenly

see the humor in it. It all came about when the starter cable on our car was malfunctioning. That's a polite way of saying the car wouldn't start. Friend son showed us how to get under the hood, and with a long stick tap the cable which is located on a hard-to-get-at left side of the engine, dash back to the

car, turn the key and z o o m you're on your way. It sounded like the ideal solution to an emergency situation until the time came to put his words into action. Ready to z o o m home from work one afternoon, we placed the key in the ignition and, lo and behold, all we got was a "click."

Our memory didn't fail us so with stick in hand (we had popped a 2-foot x 3-inch branch into the front seat just in case it was needed) we emerged from the car, lifted the hood and very confidently sought out the starter cable. What friend son forgot to tell us was that when a 5-foot 1inch mom, armed with stick in hand, reaches over the fender to gently tap the starter cable, one of two things can happen; either her feet leave the ground and she successfully taps the cable, or her feet remain on the grund and she doesn't. Now, in a busy parking lot this can be a perplexing problem, especially if you aren't dressed for mountain climbing

With a few furtive glances, we lunged over the fender, ped the cable, and touched down on the ground with all the grace of a ballerina. No luck — so we lunged again. As we were descending to earth after the third lunge we noticed a gentlemen seated in a parked car just a few rows away. He was viewing this ballerina with a very quizzical expression. Our eyes met — but he being a gentleman — no

The car started, we popped out once more to close the car hood, and drove off with all the satisfaction of a mis-

But, driving home with old "Nellie's" motor purring gently, we suddenly burst out laughing. In our mind we could picture this gentleman greeting his family that night and trying to explain about the odd woman he had seen in the parking lot that day.

Let's face it - what would you think if you saw a woman, armed with a stick (like Sheriff Bufford in "Walking Tall"), get out of her car, lift the hood, lunge headfirst into the engine area and proceed to beat a starter cable to

After relating the experience in no uncertain terms, friend son did the noble thing - he replaced the starter cable. "Nellie" continues to purr, and so does mom.

"To live in hearts we leave behind - is not to die." Thomas Campbell (1777-1844)

# Dodgers Anxious To Wrap Up Flag

LOS ANGELES (UPI) - The Los Angeles Dodgers, the winningest team in baseball in 1974, hope to wrap up their first National League pennant in eight seasons today when they take a 2-0 lead into the third game of the NL playoffs against the frustrated Pittsburgh Pirates.

The Pirates dominated the Dodgers during the regular season, taking 8 of 12 from the Western Division champs, but they collected just a dozen hits, all singles. in the first two games of the series. At Pittsburgh Saturday and Sunday first the Dodgers' Don Sutton and then Andy Messersmith, with the help o

ubiquitous Mike Marshall, stopped the Pirates 3-0 and 5-2. 'Nothing is going to be easy from now on," said Pirate slugger Willie Stargell, who has three of his club's 12 hits against "I don't think the Dodgers have ever

played any better than we did in the first

two games of this series." said Sutton, a Dodger since 1966. "Not as long as I've been with them, at least." If the Dodgers can't win the pennant today, they have two more opportunities-Wednesday and Thursday here. ## SPORTS Orioles Pin Hopes On Palmer's Arm

BALTIMORE (UPI) - The Baltimore Orioles' World Series hopes may rest today on a nod of Jim Palmer's head.

That nod will come about 15 minutes before the Orioles and the world champion Oakland A's resume their American League championship series at 2 p.m. EDT and will tell Baltimore Manager Earl Weaver whether Palmer or Ross Grimsley will be the starting pitcher against the A's Vida Blue in the third game of the best-of-five series.

Should Palmer remove himself from the starting role Weaver and the other Orioles want him to play, the A's would become the clear favorites to win the AL pennant. Although Palmer had only a 7-12 record this season, following his AL Cy Young Manchester at Wethersfield Award winning 22-9 season in 1973, he is Prince Tech at Cheney Tech generally regarded as the best pitcher on either team. Weaver says that Palmer pitched as well during the last month of

this season as he did during his brilliant 1973 campaign and points out that he shut out the A's in the first game of last year's playoff series.

Palmer has a pinched nerve in his right elbow which at times acts up and cuts down on his effectiveness. "I don't have pain," Palmer said Monday. "But if the nerve is inflamed, it affects my forearm and I can't throw with the same velocity." The Orioles worked out at Memorial

Stadium for about two hours Monday while the A's passed up a workout in favo of flying into Baltimore later in the day. The teams are scheduled to play the final two games of the series, if necessary, Wednesday and Thursday with each game

to start at 2 p.m. EDT. "It's as even as it can be." said Weaver. 'This series will be decided by inches. We're both very good clubs and the breaks will decide it for us."

Griese admitted the Dolphins are throwing the ball more this year, displaying what amounts to a "new look" as opposed to a run-oriented offense in the past. "You just can't do the same thing year after year and continue to win," he said. "We're smart enough to know we can't win the same way this year that we did last year.'

He also credited his wide receivers and offensive line for much of his success in the nationally televised game. "You've got to give them credit," he said. "The receivers were getting open, I was getting good protection and we were just playing pitch and catch out there for a while." Jets Coach charlie winner agreed.

"They couldn't have completed more passes if we hadn't had anybody out there on defense at all," he said. "The game was lost in the first half. We just didn't have any pass defense at all." Although Namath hit 17-of-39 passes for 290 yards and two touchdowns, he said he was disappointed in his performance. "We just couldn't make the big play," he said, ignoring his team record 89-yard scoring strike to tight end Rich Caster with 8:59 to go that brought the final margin to 21-17.

"They had four wide receivers if you count Caster and five if you count (running back) John Riggins," he said. "Namath had five guys who could catch the football and he threw to every one Shula said he "feels better" after the win, which gave the

#### COACHES CORNER

By Larry Olsen

MANCHESTER HIGH

When the final whistle had blown, completing Saturday's 28-15 victory over Wethersfield, we were all able to breathe again. And what a relief! When you face a passer the calibre of Wethersfield's John Papa, you have to hold your breath. I compliment him. He is one of the finest high school passers I've ever seen in 14 years of coaching. A team with a quarterback like that can turn a game around in an instant. But I was more pleased with

### People, Congress Asked to Economize

Ford's long-awaited solution to inflation turns out to be heavier taxes on the middle class and the wealthy, tax incentives to revive business, and exhortations to Americans to pinch pennies and drive less. Ford told Congress he wants higher tax revenues so he can cut federal deficits. Both would fight inflation by reducing the amount of money spent in the economy. The President avoided predicting what his program would achieve, but he said failure to slow down the rate of inflation would "destroy our country." Treasury Secretary William E. Simon vaguely predicted only that Ford's program, if enacted intact, would bring the current double-digit inflation - now ranging about 14 per cent - down to single-digit rate a year from now.

That could be as high as 9 per cent. Congress Cool on Tax Not unexpectedly congressmen, facing a bewildered and often frightened electorate in less than a month were less than wildly enthusiastic about voting to increase voters' taxes.

But many in positions of power promised to give Ford's program consideration when Congress returns after the elections for a lame-duck session. Congress recesses Friday for a month's The House Ways and Means Committee.

As Ford proposed the tax increase, individuals would pay \$2.6 billion more in taxes on 1975 earnings and corporations would pay \$2.1 billion. But Ford also proposed \$2.8 billion in tax incentives to businesses which expand, giving the corporate world a net tax saving of \$700 million.
