Enriched Flavor'cigarette sparks whole new taste era in low tar smoking.

Not too long ago, smokers believed that if a cigarette had less tar, it had less taste too. Low tar cigarettes simply didn't taste very good.

Then along came MERIT and a whole new taste idea called 'Enriched Flavor' tobacco. And in three short years, smoking

- 1. No other new cigarette in the last 20 years has attracted so many smokers as quickly as MERIT!
- MERIT has swept past over 50 other brands in record time.
 MERIT is continuing to attract high tar smokers—the most
- taste-conscious smokers of all! It's clear: MERIT taste is changing attitudes toward low tar smoking.

The 10year-old Los Angeles lad won the national 'Readathon" title again this year - over 18,000 participants. Youngsters in the contest have to persuade sponsors to pledge money to MS research for every book they read in a four-week period. Jack read only 10 - compared with as many as 50 for some - but he rounded up more sponsors and more money than any of them. His reward—ice cream in Hollywood with the national chairman of the event Lindsay "Bionic Woman" Wagner.

Very low tar Triumph. 3 mg. tar and taste. Together!

TRIUMPH

Read how new Flavor-Intensified Triumph gives you taste good enough to stay with at only 3 mg. tar...one of the lowest tar levels in cigarettes.

Triumph. The first and only cigarette that delivers good taste with only 3 mg. tar. If you've ever been disappointed by one of the very low tar cigarettes, you will understand why

Triumph is quite an achievement.

Even the draw is a surprise. The smoke comes through abundantly. The taste reaches you smoothly. Effortlessly. With none of the struggle you may have experienced in other very low tar brands. You don't have to *pull*—you just *puff* on Triumph.

No gimmicks, no miracles. No less remarkable than Triumph itself, is the technology

that enabled us to build it. The crux of it: Instead of searching for some yet unimagined answer, Lorillard scientists took a more sensible tack.

Why not, they said, take everything we've learned about cigarettes, and push that technology further than we've ever pushed it before.

Delivering taste, limiting tar.

We found, for example, that combining two types of filter fiber produces the best combination of taste and draw. That tiny "vents" in the filter-

rim smooth the taste. That lower-leaf tobaccos (shaded from the heat of the sun) tend to be milder and lower in tar than those at the top of the plant. In short, everything we could find that might intensify flavor at

3 mg. tar, was built into Triumph. Taste you won't get tired of. What it all comes down to is this: Triumph is not one of those ultra low tars that spoil your

pleasure by short-changing you

on taste. Triumph, at only 3 mg. tar, is a cigarette with a taste you can stay with. So good, we believe you'll never want to go back to your old cigarette.

SALMON AND **VEGETABLES,**

Our greatest gift from the sea, delectable canned salmon combines with nature's bountiful harvest of vegetables in a variety of taste-tempting and nutritious dishes

Like vegetables, canned salmon is valued for its high nutritional content. An excellent source of complete protein, this choice seafood provides beneficial amounts of calcium, phosphorus and iodine, as well as Vitamins A and D and those from the important B group. Because the fat content in canned salmon is the polyumsaturated type, it is recommended for those on low cholesterol diets.

Of the five varieties of salmon which are canned choose the choice Red or Sockeye salmon when color is important as in salads and appetizers. When mixed with other ingredients in casseroles, soups and sandwich fillings. the less expensive Pink or Chum salmon is ideal.

real devotee of Japanese food will try her hand at Crispy Duck or Curried To accompany the meal serve Japanese sake (rice wine). The amber-colored, slightly viscous liquid was once the most popular drink in Japan. Today, however, more than 70 percent of the Japanese people drink beer, 10 percent liquor

and 5 percent sake. Still, sake enhances local dishes and is served at important, at home, meals." Sake is brewed with rice and rice malt. In the ancient days, the wine was not refined. It was taken in the milky white unrefined state. It was only recently that the amber-colored refined wine became popular.

wine is about 32 proof. It has a slightly sweet, rich flavor. The wine is oured into small tokuri or tokkuri holding about 21/4 cups and heated by placing the small bottle in a pan of ot water. This is called kan. The flavor and taste is enhanced b heating it in this way. The aroma o warmed wine is tempting even to persons who do not care for it. Slightly salty foods go best with lapanese wine. This is why sashimi sliced raw fish), broiled fish and Rice is the staple food in Japan.
