The pitchers figured out in mid-season that the best way to pitch to the switch-hitting infielder was to change up on him, giving him a lot of slow stuff and breaking pitches. From July 1 to the end of the season, he batted .187. But he still wound up with a respectable .271 that included his career highs of 24 homers and 95 runs batted in.

Tracy, 17, has had a fair share of success in the last year against the 23-year-old Czech blaster. Advice 20 Years Ago Enriches Two Lives Today

DEAR ABBY: About 20 years ago, in a very distraught emotional state, I wrote to you concerning my involvement with a young woman. I was on the verge of suicide and your lvice and support saved my life. So genuinely concerned were you that you kept me vised as to where to reach you during a Southern tour you

were taking at the time.

Much has happened since then, and I want to bring you up-to-date: Recently I wrote a book (my first), titled "Night Stalks the Mansion." It became a best-seller. It's now in its 9th printing — approaching the million mark in sales!

Except for your concern and support during a very traumatic time, I would not be alive today, my book would never have been written, and my reasonably rewarding life would not have lasted as long as it has (I am 74).

As a result of the book, the above-mentioned lady (no longer young) found me again. She saw me on television and wrote to tell me she had often tried to locate me. She had never married; she has burned a candle for me every year on

So. Dear Abby, two lives in which you played a greater part than you know have been greatly enriched by your ndness and counsel. Thank you and God bless you.
HAROLD W. CAMERON, PARADISE, CALIF.

DEAR HAROLD: I remember you well. Thank you for writing. Your letter made my day, my month, my

DEAR ABBY: I was told that you once had a letter from a grown man who wanted to sue his parents for having had him circumcised when he was an infant. He claimed that he was maimed and permanently disfigured for no reason at all, as he wasn't even Jewish. What was your advice and how did it turn out? I am considering the same action.

NEW YORKER

DEAR NEW YORKER: I told him he could sue if he wanted to, and if he won he could call it "severance pay." (P.S. He sued and lost.)

DEAR ABBY: I live with my daughter and her husband. The other night they had another married couple in for bridge, and just as I walked into the room where they were aying, I happened to see the other woman wrapping her sare legs around my son in law's legs! I saw him move his egs away, and then she stretched her legs like they were bber and very determinedly trapped his legs with hers I refuse to be in that woman's company again. I never told my daughter why I dislike this woman so much, so she thinks I'm wrong to have such hate for her friend. Should I tell my daughter? Her husband knows I saw the whole thing, but he says nothing.

SEES TOO MUCH

DEAR SEES: Don't carry tales to your daughter. I the woman with the rubber legs stretches things too far, your daughter will eventually become aware of it

CONFIDENTIAL to those who have sent for Abby's booklets: Please, please be patient. I am literally deluged with orders and am getting them out as quickly as possible.
