Shell concert survives cold

MANCHESTER — It was cold — and the wind blew from the northwest. Hooded parkas, blankets and sleeping bags were in vogue as hardly 50 persons braved the chill that ushered in the first concert Sunday night at

the Manchester Bicentennial Band Shell.

Moments before the Manchester Symphony Orchestra
began the program, a couple of sheets of music were
caught up in a capricious gust that carried them into the woods nearby where they remained hidden from a few persons who tried to recover them. But Dr. Jack Heller directed the orchestra from the

National Anthem through to the end of the scheduled program concluding with selections from "South sung by the Manchester Civic Chorale accompanied by the orchestra in spite of the autumn-like

nounced one selection," Fiddle-Faddle," would be played Despite the weather challenge, the orchestra and

chorale performed pleasingly.

Ted LaBonne, president of the Manchester Bicentennial Band Shell Corporation, told the group before the program began that about 20,000 persons attend the band this year, he hoped there would be 30,000 attending the summer programs. He also said that in order to match the \$10,000 grant given recently by the Hartford Foundation for Public Giving, a fund drive will be organized soon. First to donate toward the grant is Lydall Inc. with a \$500 contribution.

The next event at the band shell will be the Illing Junior High Concert Band and Bennet Junior High Stage Band performing Thursday, June 12, at 7 p.m. The band shell is located on the Manchester Community College off either Bidwell Street or Wetherell Street, Manchester. All programmed events at the band shell are

These steel steps are just one way we found to trim our operating expenses. By reclaiming, refurbishing and recycling our old steps, we've been able to save over \$77,000.

At Northeast Utilities, we're cutting costs everywhere we can. System-wide conservation efforts have enabled us to reduce energy use in our buildings and field operations by over 8 percent. We've saved gasoline by converting to smaller cars and trucks and instituting a company van pooling program. And we found ways to increase our productivity through programs that allow us to serve more people than ever-with fewer employees.

All in an effort to provide you with reliable service, while still keeping electricity the excellent value it is. (The

price of electricity has risen about 25 percent in the last five years while the cost of living has gone up some 47 percent.)

But, being consumers as well as producers means inflation is taking its toll on us, too. Material costs more, labor costs more, and the oil we need to produce electricity is costing more than ever.

At Northeast Utilities we are fighting inflation and trying hard to keep our costs down. Because we want everyone to have safe, reliable, affordable energy in the years

DEAR DICK: Some time ago, on "Dallas," J.R. (Larry Hagman) was shot. Now that show is only doing re-runs. What

is going on? Will they go back and continue on from when J.R. was shot? B.K., Hellywood, Fla. was shot? B.K., Hellywood, F.Ia.
B.K., J.R. is OK. Or maybe N.G. That hot show pulled a fast

one on the public to keep the interest high, by having an all-summer-long cliffhanger. "Soap" has done the same thing the

last few years. It keeps everybody guessing and wondering and, yes, they will pick up where they left off when the show

DEAR DICK: Please settle a bet between me and my Ping Pong partner. He says the little boy who played Garth on the old "Lucas Tanner" series, with David Hartman, is John Denver's son. I say he has rocks in his head. There's a Big Mac riding on this one; please tell me he's wrong. N.A. POLZIN, Saginaw, Mich.

Saginaw, Mich.
There was no Garth among that show's regular cast. Per-

haps there was a character with that name on one episode, but I cannot find it. The regular kid on the show was called Glen-

DEAR DICK: Can you tell me about the Mrs. Miller person who appears frequently in the audience of "The Merv Griffin Show"? Is she really a part of the show? CURIOUS, Mercerville, N.J.

She's not an official part of the show. She has been a fan and follower of the show for years and became a fixture in the

audience. Now she no longer needs a ticket, because they hold a seat for her. She began her career, such as it is, in New York and followed Mery to California. She lives within walking dis-

VERNON — Buoyed by the response of those who attended a June 1 concert in Talcott Park, the Northwest Rockville Neighborhood Association will sponsor another concert June 15 at 3 p.m.

The concert will feature the "Good News Theater" from the First Lutheran Church in a musical program entitled "Lightshine."

Preceding the concert the association will sponsor a second architectural walking tour which will highlight the Village Street and West Main Street neighborhoods. The guide for the tour will be Robert Hurd, a local architect and member of the association. The tour will start at 1 p.m. from the Union Congregational Church. In case of rain on June 15 both events will be cancelled.

DEAR ABBY: As the director of Emergency Nursing Services at St. Joseph Hospital in Orange, Calif., I have seen it all, so if you aren't already sick to death of the controversy over whether children should be present in the delivery room when Mama gives birth, I submit the results f such an experiment:
"A team of doctors observed the behavior of 28 girls and

12 boys who witnessed delivery in an alternative birth center. The children ranged in age from 3 to 14; 18 children were aged 4 to 6 years, and 10 were aged 7 to 9. All youngsters were prepared in advance through books, films and childbirth education classes. Children were accompanied by a support person (other than the parents) who
answered questions and provided comfort if needed.

"Two children slept through the entire process, and two
others slept during their mother's labor but nwakened for the delivery. During the early labor, three children played with the support person, eight watched from a distance and

"In the late stages of labor, eight children wandered in and out of the delivery room and three were asked to leave because they were distracting the mother, who appeared to overly upset by their behavior.
"Of the 33 children who were in the room during delivery

25 interacted with the mother, asking questions and timing

of the infant, 29 watched, whereas the other four showed no interest whatsoever.
"Only five children watched the delivery of the placenta. The other youngsters were preoccupied with the infant, who usually was near the mother's breast.

"Children were more conscious of the sounds and sights of

labor and delivery, although most were not upset by the mother's cries. Despite curiosity about the birth process, youngsters appeared bored during labor. "Their excitement after birth was short, and they usually resumed their normal routine as soon as the baby was born. "The observers concluded that childbirth is an adult event and the presence of children meets the parents' rather than

KATE REEVES, R.N. DEAR ABBY: I see so many letters in your column from women who are in love with married men and are waiting for them to get a divorce. Take it from a woman who wasted line years on a married man. No matter how much he love you and how little feeling he has for his wife, one thing will wave hold them together; money

My married lover begged me to be patient until he could work it out so we could marry. Of course, he was never able Married men will stall because their children "need" them, or because their wives are "emotionally unstable" or "physically ill." But if they told the truth, they would admit

hat they stay married because divorce is too expensive.

Abby, why do these men lie through their teeth?

NINE YEARS WASTED DEAR WASTED: Not all men lie through their teeth. Some pay through the nose. DEAR ABBY: We may be moving into another home oon. It's a lovely home, but one thing bothers me - a lot. The former owner had lung cancer and spent the last six years of his life in that house before he died.

I know that cancer isn't supposed to be "catching," but I can't help wondering if there isn't a possibility of con-tracting the disease from whatever conditions caused the cancer — perhaps within the house itself? We must make a decision soon, so please hurry your MARYLAND READER

DEAR READER: Cancer is not contagious and your fears are groundless. However, unless you are absolutely convinced that there is no risk of pre-existing conditions, you'd be wise to find another

Be sure to specify birth date. CANCER (June 21-July 22) If there are some tough problems that need solving, take the responsibility of handling them. You're quite capable, whereas others may not be.

LEO (July 23-Aug. 22) Big rewards could be in store for you today if you keep your goals real-intic. You could be led right down the garden path if you don't.

VIRGO (Aug. 23-Sept. 22) Use-methods that have worked for you in the past. This is not the time to experiment with new twists or concepts. Haste makes waste.

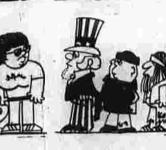

Short Ribs — Frank Hill try to pay more attention to old pais than to new acquaintances. AQUARUS (Jan. 20-Feb. 19) Materially, this should be a prolitable day provided your sights aren't set too high. You know your limitations, so operate within that framework. PISCES (Feb. 20-Berch 20) You will have greater respect for yourself and so will others it you don't dodge difficult decisions. Make judgments without lear or prejudice. ARIES (March 21-April 19) Your material prospects look pretty good today, as long as you're willing to work for them. Don't let others get involved. They'll only rock your boat.

TAURUS (April 20-May 20) it's important today to do your own thing in your own way. Letting erratic associates get involved may cause headaches you might not be able to forgive.
