## New Merit Research Released:

# Overwhelming majority of MERIT smokers report taste bonus at low tar.

The most rigorous MERIT research to date has just been completed

Result: MERIT smokers confirm taste a major factor in completing their successful switch from higher tar cigarettes.

#### MERIT Takes Taste Honors.

Nationwide survey reveals over 90% of MERIT smokers are glad they switched from higher tar cigarettes. In fact, 94% don't even miss their former brands

Further Evidence: 9 out of 10 former higher tar smokers report MERIT an easy switch, that they didn't give up taste in switching, and that MERIT is the best-tasting low tar they've ever tried.

Warning: The Surgeon General Has Determined That Cigarette Smoking Is Dangerous to Your Health.

#### **MERIT Beats** Toughest Competitors.

In the second part of this study, new tests confirm that MERIT delivers a winning combination of taste and low tar when compared with higher tar leaders.

Confirmed: The overwhelming majority reported MERIT taste equal to—or better than—leading higher tar brands.

Confirmed: When tar levels were revealed, 2 out of 3 chose the MERIT combination of low tar and good taste.

Year after year, in study after study, MERIT remains unbeaten. The proven taste alternative to higher tar smoking—is MERIT.

## Masses jeer U.S. in Syria

By United Press International

Thousands of Syrians demonstrated against the visit of U.S. Middle East envoy Philip Habib, and Damascus' Sovietbacked government said the United States had lisqualified itself as a Middle East negotiator because of its new defense accord with Israel.

'The demonstration is the Syrian people's answer to Habib and his mission," one Syrian official said of the mission of the U.S. troubleshooter who is in Syria as part of a Middle East swing to attempt to remove Syrian nissiles from Lebanon. Israel has threatened to destroy he rockets if Habib fails to get them removed by In Jerusalem, Israeli Prime Minister Menachen

Begin also faced troubles because of the strategic lefense agreement: votes on four no-confidence motions put forward by opposition parties unhappy with the accord. The vote could bring down his government, lough that appeared unlikely. As hospital sources in Damascus said the death toll

from a terrorist bombing Sunday jumped past 150 from the previous announced 100, the demonstrators marched o the blast site and blamed the Reagan administration for complicity in the bombing by the Moslem 'The United States may claim it had nothing to do

with the ugly crime, but there is enough proof to con-demn it through its support for the Brotherhood which it ised as a tool for the crime," The staterun newspaper, Al Baath, said today.

"Can Washington deny — and especially under the Reagan regime — that it has allowed the CIA to step up its activities in the Arab region, and especially against Syria," the newspaper said.
A Syrian statement said Habib was to meet with

night mean cancellation of the session. The U.S. envoy later was to go to Amman. Jordan, on his Middle East shuttle, a government source said. Israeli Defense Minister Ariel Sharon was summoned urgently back to Jerusalem from Washington for the rote on the noconfidence motions against Begin after signing the agreement Monday with Defense Secretary Caspar Weinberger.

Begin's government rests on a one-seat, with his coalition having 61 places in the 120member parliment, but Sharon said he was confident the government would not topple: "I am convinced the Knesset (parliament) will vote for it," Sharon said before leaving Washington. The "memorandum of understanding" calls for joint U.S.Israeli planning and exercises as well as mutual military assistance aimed at thwarting the Soviet 'threat to peace and security of the region.' A U.S. official in Washington called it little more than a bid to reassure Israel, a case of "How long has it been

Syrian Foreign Minister Abdel Halim Khaddam told labib in Damascus Tuesday that the agreement was the only thing that has changed since his last visit in July, Habib was told the United States was now "a party in the Middle East conflict" and could not play an objec-tive role in settling the Lebanese crisis

BLOOD CLOTS: A article appeared in the very prestigeous New England Journal of Medicine, July 18, 1981, whose title was "PREVENTION OF THROMBOEMBOLIC DISEASE BY VITAMIN-E". He quotes Dr. Alton Ochsner, who has given Vitamin-E to his post-operative patients for over 15 years and none of these patients have ever had a pulmonary embolism. He presented two other studies where Vitamin-E was used clinically in preventing pulmonary Blood clots. During the 1970's, Dr. Kanofsky says, "at least six groups of investigators have demonstrated a role for Vitamin-E as an inhibitor of platelet aggregation." Data summarized the fact that there was a greater risk of thrombosis when there was no Vitamin-E. It is very strange thinking that when DRUGS are found good in animals it is OK ... but when WITAMIRS are found good in animals he ignores the data.

the data.

REMEMBER ... 85 to 90% of heart attacks involve blood clots ... and Vitamin-E might give these people a fighting chance.

Dr. Wm Hermann, ir.MD pathologist at Memorial City General Hospital, Houston, found that Vitamin-E increased the good cholesterol (HDL) and decreased the bad cholesterol (VLDL) in 10 of his patients. This reduced the risk of a heart attack.

Dr.'s Thurlow, MD and Grant, MD, Duke University Medical Center found that as Vitamin-E levels dropped the platelet aggregation became abnormal. When Vitamin-E was given the platelet level returned to normal. And because platelet hyperaggregation has been implicated in the development of both Thrombosis and atherosclerosis, they recommend Vitamin-E during intravenous nutrition to maintain platelet function. This was published in "Surgical Forum, Vol 31, 1980.

"Some clinicians have claimed that Vitamin-E is helpful in fibrocystic breast disease." (Medical Letter, Jan. 1981. Am. J. Obstet Gynecol, 1979, JAMA, Sept. 1980.) Also, doctors from Johns Hopkins University School of Medicine and Sinai Hospital in Baltimore say that taking therepeutic Hospital in Baltimore say that taking therapeutic desses of Vitamin-E may lesson lumps and symptoms disappear. # Today's gas dryers use energy wisely.

New, energy efficient gas dryers feature automatic pilotless ignition. Which means they use up to 36% less energy to operate than conventional gas dryers. And because modern gas dryers help clothes come out virtually wrinkle free, you'll do less ironing and use less electricity. These performance features make natural gas the most energy-efficient

way to dry clothes. But you can save even more energy by using your gas dryer wisely. For instance, here are some simple and effective energy conservation tips:

HARTFORD (UPI) — A legislative panel has approved the final portion of Gov. William O'Neill's tax proposal and cleared for public hearing a complex, optional plan offered by a Democrat likely to seek the governorship next year. The Finance, Revenue and Bonding Committee Tuesday also approved bill by Department of Revenue Services Commissioner Orest Dubno to increase the fee for a sales tax permit from a one-time \$1 to \$20 initially and \$10 for annual renewal. The committee approved the governor's proposal to raise \$5 million by being more aggressive in collecting escheats, which is unclaimed money owed the state, and by advancing the timetable for collecting the funds.

All over Manchester those of us addicted to chocolate have the next four weeks to celebrate. Family parties, office gatherings, church potlucks any occasion a chocaholic can dream up - can become

an excuse to bring your best chocolate dessert.
"Wonderful. Disgracefully delicious. Horribly caloric!" is the way Irma Meridy of 27 Teresa Road describes her "Chocolate Pie Supreme."

Mrs. Meridy's pie is made with a pecan meringue shell and a German sweet chocolate and vanilla ice cream filling. She says the recipe is one she got from

Manchester neighbor Grace Kalagian, and when she's brought it to parties, it's gotten rave reviews. Mrs. Meridy, by the way, isn't the only sweet tooth in the family. She's a nurse practitioner. Her husband is the owner of The Confectioner in West Hartford, a shop which specializes in creative candy gifts.

"THIS IS not the kind of recipe you make once a Neither are "Pecan Turtles," a favorite holiday time

recipe of Janet Smith of 131 Hartford Rd. Mrs. Smith

says she can't take the credit for this luscious candy confection; actually her daughter, Wendy Dintersmith, is the family member who makes them Both of these recipes call for melting chocolate, a process which must be done carefully or disaster will result. One good way to melt chocolate pieces is to heat a heavy saucepan until very hot; remove from heat, add the chocolate pieces and then stir until melted.

Probably the most standard way to melt chocolate is

pletely melted, and stir to complete the melting from the heat of the pan-Small amounts of chocolate can be melted in a custard cup set in a pan of hot water or in a cup set over the pilot light of the gas range.

WHATEVER you do, avoid getting any water or steam into melting chocolate or it will "tighten up" in a mass or it will get dull and rough looking. Be sure and cool chocolate thoroughly at room

temperature before adding to cake or cookie batter. A two-layered frozen chocolate mold has to be one of the most chocolately desserts ever - and it comes heartily recommended. Layers of whipped topping - one a pecans and maraschino cherries - rest on a pound cake bottom. All is frozen, then covered with a coating of

rich, semi-sweet chocolate. Another good bet to try this time of year is "Yule Log," a semi-sweet chocolate sponge roll spread with a semi-sweet chocolate filling that includes thawed frozen whipped topping and cream cheese. Rich? Yes, and even more so with a garnish of semi-sweet chocolate

IF YOU'RE thinking of giving a "trim a tree" party. the chocolate pinwheel cookies and chocolate dipped cutout cookies are two sure crowd pleasers for chocolate fans. Pinwheel cookies can be suspended from the tree by red licorice.

These fanciful holiday desserts are so sinfully temp ting, you're likely to find yourself dreaming up more excuses for holiday entertaining than you'd planned. But isn't that what Christmas is all about?

Now it was up to him to lead. A bad player might plunk down the ace of spades and hope to drop an unguarded king. West knew this to be an impossibility. East had played the nine so that South was marked with K-8.

A count of points indicated a distinct chance that East would hold an ace. Declarer still could have 17 HCP. Which ace would it be?

West came to the arbi-trary conclusion that East was more likely to hold the heart are so West shifted to

## Firms push for 'friendlier' computers

With the "computer age" rushing toward us, what can we expect the computer to do in two or three years? The computer is simply a larger, more versatile calculator, with a bigger brain or memory. But as the brain is one of the fundamental differences between humans and lower life forms, so it is with computers One definition of the difference: Calculators work with numbers; computers work with numbers - and words and music, voice, color, action.

Yet the most advanced of the hand-held calculators can do many of the jobs a computer can do. One (the Texas Instrument 59) can, with small cube-shaped modules of pre-written instructions inserted and running from a strip of specially programmed magnetic tape, when hooked to a special printer, do great-circle ocean navigation or calculate the cost of running your
