

# Canoe race set April 10

By Alex Girilli  
Herald City Editor

The seventh annual Hockanum River Canoe Race, an event that attracts an average of 100 competitors, has been scheduled for April 10. As in recent past years it will be combined with a canoe race in Williamstown scheduled for April 9. The event is held partially to draw attention to the aesthetic and ecological assets.

The event was one of several announced Tuesday night at a meeting of the Hockanum River Linear Park Committee. Among the others scheduled are:

• March 5 and 12, trail cleanup days with work scheduled on the area from the footbridge downstream along the north bank of the river to the Oakland Mill. Work begins at 9 a.m.

• March 20, A walk around Union Pond with assembly at the North School Street end of the pond at 1 p.m. Rain date is March 27.

• April 17, walk from the bridge over the Hockanum upstream along the south bank to North Main Street and downstream along the north bank to the vicinity of Adams Mill Restaurant.

At Tuesday's meeting Dr. Douglas Smith, chairman of the committee, said he plans to meet with a representative of the developers of Oakland Heights, a moderate cost housing development on Oakland Street, to discuss the location of a planned play area for children of tenants. He hopes to be able to persuade the developer to move the area northward a bit from its planned location. It will be on a flat place close to the south bank.

Land adjacent to the Oakland Heights site, which is now being cleared, will be developed as a corporate office park.

Smith said that if the committee gets a strong feeling that the town may remove Union Pond Dam instead of repairing it, the committee will have to mount a save-the-pond campaign. The Conservation Commission publicly expressed concern about the dam when it learned of a letter from George A. Kandra, the town's director of public works, to the state Department of Environmental Protection.

In the letter Kandra mentioned destroying the dam as one of several options open to the town. Smith said that by its April 5 meeting, the Hockanum committee should have a more accurate idea how likely it is that the town will want to destroy the dam. The cost of repair has been put at \$500,000 in addition to the \$100,000 the town has already spent.

## Thoughts

So many of us experience feelings of love and hate, fear and trust, intimacy and distance, affection and anger which we have trouble expressing. We have been taught to view some as "good" and others as "bad." We may have learned to feel guilty or embarrassed for feeling one way or another. Some times we are deeply confused. Other times we are frightened—afraid of what others may think or do, afraid of what might happen to ourselves. "If I express what I'm feeling, I might fall apart."

Dr. William Miller, Director of the Department of Religion and Health at Fairview Hospital, Minneapolis, Minnesota has written a little book which offers us some very practical help with our "impersonal emotions." It is entitled *What's Going On Inside You Together*. Now some of us may have locked things in for so long that we are hardly aware of ourselves and we may need some professional assistance to begin to change our ways of handling our feelings. But most of us may need only the encouragement of a few friends. And what a good feeling it is to be affirmed in such basic ways—to trust more of ourselves, and to feel closer to others.

## Virginity still good buy in love marketplace

DEAR ABBY: Many letters in your column have touched me, but none moved me as much as the one from "Holding Out and Proud of It."

"Hurray for her! And hurray for you for printing it. More people need to know that there are still some women around who don't jump into bed with every John, Mick and Murray. I know I have lots of guys because I would give in, but it was better to lose them than lose my self-respect."

I, too, saved myself for marriage, and so did my husband. We've been married for 10 years, and neither one of us ever regretted our lack of premarital experience. I'll admit we didn't know much much, but we learned together, and our love grows stronger than year.

"Holding Out" to stick to her principles. I hope her letter will prompt more young people to do the same.

HELD OUT AND GLAD I DID

DEAR ABBY: "Holding Out" that she is not alone. I'm also holding out. It hasn't been easy for me because I'm a fairly nice-looking, healthy guy who enjoys an active social life.

I'm into sports and run five miles a day, rain or shine. I regard my body as my "temple," and as such I have never defiled it with tobacco or drugs of any kind. I consider sex habit-forming and

choose not to risk falling into that habit until I have found the person with whom I can establish an exclusive lifelong commitment.

Please don't think I'm an oddball. I'm not. I'm just saving myself for the person I marry. And in case you're wondering—I'm straight, and I'll be 30 my next birthday.

SAVING MYSELF IN SAN ANGELO, TEXAS

DEAR ABBY: The letter from the 27-year-old, "Holding Out and Proud of It," could have been written by me 25 years ago. Not only was I a virgin, I married one. Never in my years of marriage was I unfaithful, and I had my chances.

After 23 years of marriage my husband decided he wanted "out" so he left two years ago. To this day my attitude about sex outside marriage hasn't changed—but my body has!

Now, at age 46 I find that I am much more passionate than I was when I was a 23-year-old virgin. I was able to exercise control back then. (I didn't know what I was missing.)

As immature as this may sound, I'm not sure that I will be able to exercise that control that control now, so I just refuse to date until my divorce is final and I can marry again.

I feel very sorry writing this, but it's a real dilemma, because I am a Christian, and the Scriptures are very clear concerning sex outside marriage. However, my sex drive is at odds with those Scriptures! I am not sure how I am going to whip this one! Help me!

HOPING THE DEVIL WON'T MAKE ME DO IT

DEAR HOPING: The devil won't make you do it, but the first man you find irresistible might. Pray for strength and avoid temptation.

## Advice conflicts on dissolving gallstones

DEAR DR. LAMB: I have received conflicting information about the medicine or medicines that will dissolve gallstones. I have consulted a medical encyclopedia and two surgeons.

I was told that the medicine is not available except on an experimental program. It was also told that such drugs can be gotten through any doctor. What is the availability of these drugs? What is the side effects of these drugs? What are the side effects of surgery? What are the side effects of cholecystectomy?

I was also told that if the drugs worked it took six months to two years, and the stones would come back. Is this true? I am presently on a 40 gram fat diet.

DEAR READER: When new medical information becomes available that conflicts with previously held concepts, there is often a period of confusion.

There were lots of enthusiastic reports about using an experimental

medicine called chenodeoxycholic acid but the final results of a long-term study were not so good. In a two year study, 56 percent of the patients still had gallstones. And in 60 percent the size of the stones had not decreased.

Also, in the few cases where it is successful it is necessary to continue medicine for life to prevent stones from forming again.

DEAR DR. LAMB: My daughter was advised to rinse her sore throat with salt water. My experience with this has been that the salt water did not help and I thought it actually made my throat worse.

What is your advice on using salt water on sore throats caused by strep or infected tonsils?

DEAR READER: If a person has a strep throat it is from an important bacterial infection and should be treated with antibiotics. Many sore throats, though, are not caused by bacteria at all but are caused by different virus infections. Antibiotics have no value in treating virus infections, only in the treatment of bacterial infections.

## Oil may settle at \$30 a barrel

By Solid Rizvi  
United Press International

LONDON — Oil ministers gathered today for a "mini-OPEC" conference aimed at agreement on a \$30 barrel of oil that could avert an all-out global price war, oil sources said.

In Tokyo, Kyoto news service reported today Saudi Arabia had slashed its oil production to below 4 million barrels in a bid to hold off price reduction pressure from its major oil buyers.

The Japanese news agency, quoting an unidentified oil industry source, said the largest OPEC producer is only pumping an average of 3.2 million to 3.3 million barrels of oil each day since the end of last month.

Diplomats said the informal oil ministers' talks would start today at the London residence of United Arab Emirates Oil Minister Mana Saied al Otaiba, who arrived in London Tuesday.

## Machinists claim P&WA violations

By Raymond T. DeMeo  
Herald Reporter

Spokesmen for the union representing hourly employees at Pratt & Whitney Aircraft charged today that the company is assigning the jobs of laid-off workers to trainees and employees from other occupational groups, in violation of the union's contract.

Machinists' union spokesmen also charged that the company is asking workers to work excessive overtime and in some cases, to fill two jobs, to perform the work of those laid off in February.

The situation has prompted the union to file grievances on behalf of "hundreds of employees" affected by the company's moves, said William R. Rudis, president of the union local at P&WA's East Hartford plant.

P&WA cut its workforce by 2,300 on Feb. 11, laying off about 1,000 hourly workers. According to Rudis, what's happening now shows that the layoff wasn't the result of lack of work, but an "arbitrary decision by corporate finance."

"In the mind of the union, that is improper," he said.

The union's contract gives management exclusive control over assigning work. Rudis said. But the contract also specifies that workforce reductions must result from a work shortage.

"We'll build a substantial case that there is work in areas where there have been layoffs," he said.

Rudis charged that the company is cutting corners, assigning apprentices and trainees to perform highly-skilled jobs formerly held by laid-off workers. "How can they justify that?" he said.

Workers in other departments are being asked to double-up on machines and work overtime on a regular basis, including weekends, Rudis said.

"More and more employees are becoming extremely hostile to this kind of practice," he said, adding that grievances have poured into the union from currently employed as well as laid-off workers.

P&WA management will have a chance to respond to the union's complaints. If the union isn't satisfied with the company's response, it can bring its grievances to outside arbitration.

## Armory rehab would cost \$132,000

By Paul Hendrie  
Herald Reporter

The cost to bring the Manchester Armory up to fire and safety code standards would be about \$132,000, Gen. John P. Carragher, National Guard assistant adjutant general, said today.

The armory was closed last year for virtually all non-National Guard activities, because the code violations presented a hazard, said Carragher. The armory has remained open for National Guard use and is available for emergencies.

State Rep. Eisie L. "Biz" Swenson, R-Manchester, has filed legislation that would require that the Manchester Armory be repaired to meet safety standards, so it could be re-opened for general use. He left the cost of repairs blank, pending a review by Carragher.

The work Carragher said is needed would include:

- Enclosing internal stairways, for \$55,000;
- Building weather protection over outside ramps and stairs, for \$50,000;
- Installing manual fire alarms, for \$5,000;
- Protecting the ceiling in the furnace room, for \$22,000.

Carragher expressed that these costs are only estimates.

The unenclosed stairways are dangerous because they could allow fire to spread through the building and the uncovered outside ramps and stairways are dangerous because someone could slip on icy walks.

In addition, Carragher said some work already has been done. For example, he said he has had signs, a fire door on the furnace room and fire extinguishers have been installed.

The Manchester Armory is one of just several in the state that have been closed partially because of code problems. Carragher said the Manchester Armory met all safety standards at the time of its construction, but that it fails to hold up to today's codes on an off the state, region and the city, he said.

He was not ready to estimate publicly the cost of repairing all the armories around the state.

The Manchester Community College basketball team is the only exception to the rule closing the armory to outside use. The team still practices there. Carragher said the basketball team is well enough supervised to permit safe use.

In the past, the armory has been rented for public functions.

## Whalers win cancer face-off

By Robert L. Corrie  
United Press International

FARMINGTON — The Hartford Whalers may not be scoring big on the ice this year, but they are winners in the face-off against cancer children.

The players have been supporting the cancer program at the University of Connecticut Health Center for the past year, following the lead of their wives who have been raising money for the children for the past two years.

On Wednesday they formalized that commitment during a news conference at the health center.

"The points will come. The players will come," said Dr. James Mulvihill, executive director of the center. "But this year you people have done something very important. You have joined us in the face-off against cancer."

Mulvihill pointed to a number of young cancer patients attending the news conference and told the players many of the youngsters would not be alive if it were not for the efforts of the players and their wives.

Following the news conference the players, wearing their game jerseys, visited the pediatrics ward of the health center's John N. Dempsey Hospital.

The player's wives have raised \$45,000 since 1981 for the UConn Cancer Fund, nearly half the amount raised by the fund in the five years it has been in existence, Mulvihill said. The wives will be sponsoring their third annual "Walk for Children" March 18 at the Parkview Hillton in Hartford.

Having the players and their wives involved with the health center is something the team has been striving toward, said Howard Baldwin, the Whalers' managing general partner.

"Since coming to Hartford, the Whalers have made a concerted effort to be part of the state, region and the city, be on an off the ice," Baldwin said. "My biggest thrill is to see a team make an impact on the greater Hartford area the way this team has."

Baldwin joked it was no secret his team was not leading the league in scoring, "but this team is leading the National Hockey League in what we are doing in our community for the people of this community."

Money raised through the cancer fund goes to continuing research of cancer, therapy, diagnosis, equipment and clinical studies, Mulvihill said.

The news conference marked the unveiling of a new poster that will symbolize the joint effort made by the hospital and players. The poster shows the gloved hand of a Whaler player reaching down, his fingers touching the frail fingers of an extended hand of a child cancer patient.

## Bipartisan favor for benefit rescue surprisingly strong

WASHINGTON (UPI) — A \$165 billion bill to heal Social Security's ills by tax increases and benefit cuts is headed for the House floor, its prospects boosted by a surprisingly strong bipartisan endorsement from the Ways and Means Committee.

The committee voted, 32-3, Wednesday for the financing bill that includes payroll tax hikes, a six-month benefits freeze, a first-ever benefits tax and a requirement that new federal workers join.

It was a stronger showing than supporters expected, and contrasted sharply with last week's subcommittee action on the bill, when all four Republicans voted against it.

Chairman Dan Rostenkowski, D-Ill., called the committee action a "peace pact" to end bitter partisan fights. Ranking Republican Barber Conable of New York termed it a "historic vote."

Still to be decided is the touchy issue of raising the 65-year retirement age. The committee bill comes payroll tax hikes and reduction in the basic benefit for new retirees next century to erase Social Security's long-term debt.

But House leaders will allow separate floor vote on whether to substitute a retirement age increase, which conservatives favor, or a straight payroll tax increase proposed by liberals including Rules Chairman Claude Pepper, D-Fla.

The retirement age change is expected to win senate approval, and Rostenkowski said he thinks the House's "preference is to change the age."

Only three conservative Republicans — Reps. Bill Archer of Texas, Philip Crane of Illinois and Richard Schulze of Pennsylvania — voted against the bill in committee.

The House will vote next week, after a debate Rostenkowski predicted will be short because "members know more about what is in this package than anything else." Congressional leaders hope to pass a bill by Easter.

The committee also passed amendments reforming Medicare payments to hospitals, extending jobless aid for those whose eligibility has run out, and increasing benefits for 4 million aged, blind and disabled Americans collecting Supplemental Security Income.

The panel approved a \$2.3 billion six-month extension of jobless benefits, giving an additional 10 weeks of checks, after cutting \$200 million off an earlier proposal to satisfy Republicans.

The Medicare proposal, approved by a Ways and Means subcommittee last week, would set fees based on a patient's diagnosis. It would be phased in over three years — instead of one, as the administration wanted — and would provide more money for complicated cases and hospitals serving poor patients.

A ferocious storm that battered California with winds and waves moved into the Southwest today, threatening to dump a foot of snow on the Arizona, Colorado and California mountains and whip up severe thunderstorms en route to the Plains.

Thousands of Californians Wednesday fled the deadly combination of rain, high winds, floods, mud slides and pounding surf that turned historic piers into kindling, luxury homes into driftwood and caused an estimated \$300 million damage.

At least 19 deaths have been blamed on the six-day West Coast storm.

By Shelagh Donoghue United Press International

Storm pushes into Southwest

25-FOOT WAVE SMASHES SEA WALL... expensive Malibu homes destroyed

RAILROAD SERVICE PUT ON HOLD... workers try to stop erosion

## Storm pushes into Southwest

By Shelagh Donoghue United Press International

Avalanche warnings were posted in central Idaho, where 22 inches of snow has fallen since Monday night. Up to a foot of snow was expected to blanket the mountains of Southern California, Arizona and Colorado today as skies began to clear over the coast and the bad weather moved inland.

New England was doused with heavy rains that turned to sleet and snow in the mountains. More than an inch of rain fell at Providence, R.I., and Concord, N.H.

Record-high temperatures held in the Midwest for a second day as warm weather rolled in from the Gulf Coast. The temperature climbed into the 70s in Nebraska and Iowa.

Sandbag crews worked feverishly across northern California to halt more flooding as the raging Sacramento River climbed to its highest flood levels in more than 40 years. Highways in the Sacramento Valley were closed by high water and mudslides closed a highway near Redding.

Hard hit by flooding was Tehama County. "The entire county is drenched," said Sheriff Roy Koehn. "We've had it. I wish to hell we could turn it off."

Los Angeles rainfall for the season increased to 22 inches and San Francisco's to 28 inches. Mount Wilson, northeast of Los Angeles, received 9 inches Wednesday, bringing its five-day total to 23 inches.

Queen Elizabeth II got her first-viewer view of San Francisco through a sheet of rain that forced cancellation of plans for her royal visit and Nancy Reagan to sail into San Francisco Bay under the Golden Gate Bridge aboard the yacht Britannica. Instead they flew to the city.

The 20- to 25-foot waves along the California coast damaged or destroyed 1,600 homes, many of them in exclusive enclaves at Malibu, Santa Barbara and Stinson Beach.

In Stinson Beach at least 20 homes along an entire stretch of oceanfront property were damaged or destroyed. Mildred Sadler, a retired school teacher, said there had not been such a disaster in the town since she moved there in 1928.

"I've never seen the ocean like this before," she said.

## Queen is early in San Francisco

SAN FRANCISCO (UPI) — Queen Elizabeth II, arriving a day early to a welcome so hastily improvised it caught protesters with their placards down, sympathized with victims of the destructive storm that has scrambled the rigid royal schedule.

A rainbow shimmered through a brief break in the storm clouds over San Francisco International Airport Wednesday as the queen, Prince Philip and Nancy Reagan landed to a low-key greeting thrown together when they canceled their yacht voyage because of the storm that is ravaging the California coast.

The queen dispatched a letter to California Gov. George Deukmejian saying she and her husband "have been very saddened by the loss of life and damage caused by the storms in California, and send our sincere sympathies to you and everyone in the state who has been affected."

The arrival, 17 hours ahead of schedule, set off a scramble by city officials, hotel executives, the White House and the anti-British and anti-Reagan groups planning demonstrations when the president hosts a state dinner for the queen and Prince Philip tonight.

The president remained behind Wednesday at his ranch outside of Santa Barbara, Calif.

The weather through a 10-day California tour, to abandon plans to cruise up the coast in their yacht Britannica, and instead flew in a U.S. Air Force DC-9.

A spokesman for Irish Northern Aid, one of many protest groups preparing for the queen's visit,

said the early arrival caught his organization off guard. "We just learned she was arriving today," Dan McCormick said. "Most of our people are working people so we don't know what we can do together to greet the queen at the airport."

Irish nationalist protesters, allied with anti-Reagan forces, continued to plan a massive demonstration tonight when the president hosts the queen at a state dinner at the DeYoung Museum in Golden Gate Park.

With the royal couple and the first lady safely on land, the Britannica set sail into the storm from Long Beach, Calif., Wednesday afternoon on the 400-mile voyage to San Francisco.

Royal spokesman Michael Shea said it was expected to arrive Friday morning, in time for the dinner the royal couple planned to throw that night celebrating the Regans' 31st wedding anniversary.

The queen was wearing a raincoat and boots when she was greeted by Mayor Dianne Feinstein.

The mayor, who Tuesday accepted a copy of Amnesty International's report on Northern Ireland, told reporters after the arrival Wednesday she would "do nothing inappropriate" during the queen's visit.

She told the Irish group she would do her best to present the report to the queen. But under questioning by British reporters, she said the doubt "there would be the opportunity to do so."

The royal party checked into the St. Francis Hotel.

## Pope crusades for peace

SAN JOSE, Costa Rica (UPI) — Pope John Paul II began an eight-day crusade for peace in violence-torn Central America Wednesday with a vow to help shoulder "the pain of the people" and a rebuke of "foreign interference" in the region.

"The grief-stricken cry that rises from these lands and cries out for peace has resounded with accentuated urgency in my spirit," the pontiff said Wednesday in Costa Rica, where he kissed the ground upon arrival.

John Paul stressed he will defend the right of the church to protect the common man from oppression and indiscriminate violence in Central America, whose population of some 20 million is overwhelmingly Roman Catholic.

"The voice has been stifled by the familiar images of tears, the deaths of children, the despair of the elderly, the mother that loses her children, the long line of orphans, the many thousands of refugees exiled or displaced."

"This is the pain of the people that I have come to share, to try to understand more closely, to leave a word of incentive and hope based on a necessary change of attitude," the pope said.

The pontiff, dressed in his traditional white robe and speaking in Spanish, spoke to a jubilant flag-waving crowd at the airport. "We want to see the pope!" residents yelled, breaking through police barriers at the airport and later outside the city's main Catholic seminary. They were pushed back by a squad of blue-suited bodyguards in white neckties.

The pope said peace was possible through unity, social justice, more government respect for human rights and an atmosphere in which "people can confront their problems in a climate of sincere dialogue without foreign interference."

The comment was interpreted as a rebuke of the Reagan administration's support for the conservative regime in El Salvador — accused of massive human rights violations — and for rightist Nicaraguan exiles.

The pontiff's statement also was seen as criticism of Soviet and Cuban support for leftist insurgents in El Salvador and Guatemala.

Costa Rica is the first stop of an eight-day, 15,000-mile tour that will take John Paul to the Central American nations of Nicaragua, Panama, El Salvador, Guatemala, Honduras and Belize.

On March 9, the pontiff leaves Central America for a brief stop in the Caribbean nation of Haiti.

Vatican observers see the trip — the pontiff's 17th outside of Italy — as the pope's most significant since his 1979 return to his native Poland.

WINDBLOWN AND LOOKING TIRED... pope arrives in Costa Rica

Dr. Barney Clark is now happy to be alive

By Janice Perry United Press International

SALT LAKE CITY — Dr. Barney Clark wanted to give up and die at times during his ordeal as the first artificial heart recipient, but in his first public interview via videotape he said "it's worth it" if humankind will benefit.

Clark, 62, speaking haltingly and stopping often to regain his breath, told the chief surgeon in his implant operation his main worry is his shortness of breath. He also said he has gotten used to having the pump that keeps him alive at his side at all times.

Dr. William DeVries asked Clark whether he would recommend the implant operation to other heart patients.

"Well, I would tell them that it's worth it, if the alternative is they either die or they have to die," Clark said.

University of Utah officials Wednesday released a videotaped interview between Clark and DeVries, head of the 20-man team that replaced Clark's dying human heart on Dec. 2 with the artificial organ. It was the public's first view since the operation, of the man whose progress it has followed for 91 days.

DeVries, his assistant Dr. Lyle Joyce, Dr. Chase Peterson, university vice president for health, and hospital psychiatrist Claudia Berenson all agreed it was only "during the last 10 to 12 days" that Clark has finally started making dramatic progress.

"Exciting things have happened in the last several weeks," said Peterson, noting the retired Des Moines,

A thought for the day: French writer Victor Hugo said, "Greater than the tread of mighty armies — is an idea whose time has come."

## Democratic majority at standstill on governor's tax plan

HARTFORD — The Senate's Democratic majority was at a standstill today on Gov. William O'Neill's proposed \$27.5 million tax plan and whether to move ahead immediately to cut into the growing deficit for this fiscal year.

Democratic senators met behind closed doors Wednesday and were evenly divided over whether to push for immediate tax hikes or to wait and look at the same time at the overall picture for this fiscal year and upcoming fiscal year.

Senate Majority Leader Richard Schellner, D-Exeter, said after the meeting the senators wanted more information on some of the governor's proposals as well as possible alternatives.

"We agreed to come back next week and see if we can come together on a consensus," Schellner said. O'Neill's tax package calls for raising \$55 million to cover the projected deficit for this fiscal year and another \$22.5 million to balance the governor's proposed \$3.57 billion budget for the next fiscal year.

The lack of a Democratic Senate consensus on the package raised the likelihood that lawmakers may be unable to adopt a tax package by April 1, which O'Neill wants done to resolve the state's fiscal problems.

Results of a survey of the House's majority Democrats also showed O'Neill's tax package may face an uphill battle in winning approval.

Democratic legislative leaders have worked out a plan to give the governor some of what he wants by April 1, which would then allow additional time to work out a revenue package for the next fiscal year.

The leadership plan calls for extending the sales tax to seeds and fertilizers for non-farm use and meals under \$1 and add about 3 cents to the per-gallon tax on motor fuels.

Schellner said the three-point tax plan raised by the leadership would raise about \$15 million this fiscal year and \$40 million in the next fiscal year.

Another \$19.8 million would be raised this year by retaining the 7.5 percent sales tax rate, which O'Neill has proposed be cut to 7 percent effective April 1.

O'Neill said Wednesday he believed his package was fair and it was now up to lawmakers to decide whether they wanted to approve it or come up with a counter proposal.

"I'm up to them to raise now what they consider the dollars needed to run the state of Connecticut," O'Neill said. "I have made my proposition, I have made my proposal, the ball is in their court."

He conceded a \$7-million increase reported this week in the projected deficit for this fiscal year could require additional tax hikes since his plan was based on the \$55 million deficit projected at the end of January.

O'Neill said he didn't want to criticize the Legislature's timetable for acting on a tax plan, but

## Lawmakers told to look elsewhere for tax revenues

By Susan E. Kinsman United Press International

HARTFORD — Comprehensive tax reform has emerged as the most popular alternative to the package of sales tax extensions Gov. William O'Neill has proposed to finance state spending.

More than 100 people signed up to testify Wednesday before the Legislature's Finance, Revenue and Bonding Committee on O'Neill's proposed tax package and few had anything kind to say.

"We are urging you to reject the governor's proposal and seize this opportunity for comprehensive tax reform," said George C. Springer, president of the Connecticut State Federation of Teachers.

"We have the resources in Connecticut. We need the will, strength and intestinal fortitude" to make the changes, Springer said.

The AFL-CIO, the New England Health Care Employees Union, the Archdiocese of Hartford, the Caucus of Connecticut Democrats, the Connecticut Citizens Action Group and the Connecticut Coalition on Aging all endorsed tax reform, including a progressive, personal income tax based on a citizen's ability to pay.

They said it would redistribute income, help to finance property tax relief and stabilize the tax system, which now has poor and middle income residents the hardest.

Specifics in the governor's tax package also came under fire, including extensions of the sales tax to advertising, professional and personal services, the wholesale price of gasoline and meals under \$1.

William J. Pape, publisher of the Waterbury Republican and Waterbury American newspaper, opposed the tax on advertising. He said it would be impossible to apply fairly and equitably.

"Lacking such enforcement, the effect of the tax would be the destruction of Connecticut newspapers and broadcasting stations," Pape said.

He endorsed an income tax, coupled with a sharp reduction in the sales tax.

The 8,000-member Connecticut Bar Association took aim at the extension to professional and personal services.

Jack H. Evans, association president, said it would impair access to legal services and could infringe on the court-protected right to confidential communications between a lawyer and client.

Arthur Goldstein, representing the Independent Connecticut Petroleum Association, opposed the 7 percent tax on motor fuels.

"Our basic concern is this tax has the potential for wiping out many small family-run gasoline stations near state borders," Goldstein said.

Goldstein said if passed, the tax on gasoline would total 29 cents a gallon. We might as well call the product "taxoline" because that's precisely what it would be," Goldstein said.

Forest Baker, president of Transportation Research Marketing, said "you are offering to pay (to truck driver) 10 cents a gallon to buy gasoline out of state."

The 200-member Connecticut Automatic Merchandising Council was worried the proposed tax on meals under a dollar would discriminate against vending machine companies.

Vending "machines are designed to permit price increases only in 5 cent increments," said John Spenger, council vice president. He said the increase would force the companies to hike prices 5 cents or absorb the taxes themselves.

Also, he said food products taxed in vending machines would not be taxed if purchased in convenience stores.

To get a photo back once it has appeared in print in the Manchester Herald, simply come to the Manchester Herald, Brainard Place, and ask at the reception desk. Sorry, we cannot return photos by mail unless a self-addressed stamped envelope is submitted.

Ruling won't answer questions on budget

By Richard Cody COVENTRY While a judge's decision ends the budget suit brought by the taxpayers association, the ruling will not answer questions on both the losing and winning sides.

Pay scale change keeps library open

BOLTON - Faced with the possibility of the library closing one extra day each week, the selectmen solved the problem Tuesday by amending the wage scale for workers at the library - but without adding money to the budget.

Board opposes bill on cost of trooper

BOLTON - The selectmen decided Tuesday to send a letter to the state capital opposing a proposed bill that would force municipalities into picking up 100 percent of the cost for a resident state trooper.

Trucker due back

BRIDGEPORT (UPI) - A North Carolina truck driver charged in the fiery January crash that killed seven people at the Stratford toll station is expected to return to Connecticut March 15 to be arrested and charged.

Cutbacks threat to Metro-North

NEW YORK (UPI) - New work rules that eliminate 70 jobs at Metro-North have been passed, despite a union threat that such cutbacks could force a strike at the commuter railroad.

Advice

Woman who stepped out decides she'll stay home

DEAR ABBY: I am a widow, 50 years old. I look no more than 50 — at least that's what everyone tells me.

Dear Abby

Abigail Van Buren

I have been a widow for two years, after being married for 35 years to a wonderful man. A friend asked me if I would go out to dinner with a friend of hers. She said he was an attractive widower, age 63, whose wife had died two years ago.

When he took me home he spoiled it all by asking if he could "stay over." I imagined to me that was an insult. What makes a man think that because he takes a woman to dinner he will let him stay over?

DEAR ABBY: Having recently reached the "single" status, I am in a quandary over how to answer the question, "Are you divorced or widowed?" Either way, it is a very painful and unpleasant subject, and I don't care to discuss it.

and embarrassed. I've tried to come up with a suitable solution, but I have been unsuccessful. Any help you can give me will be appreciated.

NEEDS HELP DEAR NEEDS: You need more help than I can give you in a letter if you are unable to respond to the "natural" (by your own admission) question, "Are you widowed or divorced?"

Herald photo by Pinto

Say it with flowers

George Washington casts an approving eye on young Matthew Lavery, a Buckley School first grader, who presented his teacher, Mrs. Barbara Gold, with a bouquet of flowers this week.

The occasion: Teacher Appreciation Day. Matthew's parents, Mr. and Mrs. Bruce Lavery of 11 Dorothy Road, are presidents of the Buckley School PTA.

Video games better than TV

SYRACUSE, N.Y. (UPI) — Parents concerned about their youngsters spending hour upon hour playing "Pac Man," "Defender," "Iron," or some other popular video game should relax.

There are several different factors. A needle will pierce the muscles and when it is electrically stimulated the electrical impulses are sent to the brain.

DEAR DR. LAMB: What is the purpose of doing an electromyogram (EMG)? I read in a magazine about it being done to a patient with Guillain-Barre syndrome. It was done to use her right hand to feed herself or to comb her hair at times.

Your Health

Lawrence Lamb, M.D.

DEAR DR. LAMB: For years, I have seen ads on TV for special creams and lotions to make your skin look younger. I'm especially concerned about developing wrinkles. I would like my face to look young as long as possible.

DEAR DR. LAMB: I am sending you The Health Letter 7-10, Your Skin: Sun, Aging, Spots and Cancer. Others who want this issue can send 75 cents with a long stamped, self-addressed envelope for it to me.

Should I avoid smiling to keep wrinkles away?

DEAR DR. LAMB: For years, I have seen ads on TV for special creams and lotions to make your skin look younger. I'm especially concerned about developing wrinkles. I would like my face to look young as long as possible.

Your Health

Lawrence Lamb, M.D.

DEAR DR. LAMB: I've heard that if you have a Health Letter on wrinkles, can you send it to me? What can a person do to prevent wrinkles? Should I avoid smiling?

Reader sick of pressure to retire, remain active

DEAR DR. BLAKER: I am sick of hearing about how one is supposed to retire. Evidently an older person should not slow down and rest, but keep up the same frenetic (or faster) pace in order to stay young.

Ask Dr. Blaker

Karen Blaker, Ph.D.

DEAR DR. BLAKER: I am publishing your letter in hopes that my readers will respond to your very interesting question. As many letters as possible will be printed.

DEAR DR. BLAKER: I am getting younger with every year that passes. That might sound strange but I was the oldest of 15 children and I was working as a mother from the time I was 8 years old.

Boston College continues roll against Big East opponents

By Dave Ruffo UPI Sports Writer

They're taking college basketball seriously in Boston these days, and with good reason. Boston College, ranked 13th in the nation, continued its roll Wednesday night with an 87-48 overtime Big East victory over No. 16 Georgetown. The Eagles' win, their 10th in the last 12 games, came before a crowd of 14,141 — the first sellout crowd for college basketball at Boston Garden in over 30 years.

John Garriss led BC with 25 points and Michael Adams added 19, including the game-winning basket in overtime. The Eagles, 21-5 overall and 11-4 in the Big East, averaged a 66-67 loss to the Hoyas Jan. 29 and moved into a second-place tie in the league with St. John's. Villanova is on top at 12-2.

"The last time, they got the shot down there and made it," said Garriss, who shot 5-for-5 from the field, 15-for-17 from the line and grabbed a team-high 11 rebounds.

"It looked like they might take it again, but we just held on when we had to. You have to remember what got you the lead in the first place," Adams said.

Georgetown led by 19-8 and 9-5 in the league. Michael Jackson led the Hoyas with 20 points and center Pat Ewing finished with 16 points, 14 rebounds and six blocked shots before fouling out with seven minutes remaining.

At Dallas, Kevin Ramsey hit two free throws with three seconds remaining to help the Mavericks to their fourth straight triumph. It was the 28th victory this year for Dallas, the first time the franchise has reached that mark, and it moved the Mavericks to a league record of 33 wins and two losses.

In other games, New Jersey bombed Houston 124-85. Dallas stopped Seattle 100-105. Phoenix defeated San Antonio 110-106. Denver beat Golden State 128-108, and Portland edged San Diego 104-102.

At East Rutherford, N.J., Albert King scored 17 points to lead seven New Jersey scorers in double figures. The Rockets, losers of nine of 19 games, have now lost 12 straight on the road.

Mavericks led SuperSonics 105-87 at Dallas, Kevin Ramsey hit two free throws with three seconds remaining to help the Mavericks to their fourth straight triumph. It was the 28th victory this year for Dallas, the first time the franchise has reached that mark, and it moved the Mavericks to a league record of 33 wins and two losses.

In Brief

Craig Arnold

Officers elected

Heritage Savings & Loan Association's board of directors has elected Craig W. Arnold, Patricia B. Cleveland and Janet L. Hale to bank officers positions.

Arnold, of Broad Brook, is assistant vice president for operations. He will oversee the bank's data processing center.

Cleveland is assistant vice president and coordinator of stockholder relations. She has been with Heritage since March, 1980, in charge of stockholder communications, annual and quarterly reports, and dealing with brokers and securities analysts who follow Heritage's stock.

\$40.5 million loss

NASHUA, N.H. — Nashua Corp. has reported a net loss for fiscal 1982 of \$40.5 million. The company also announced that William Conway has resigned as CEO of the firm's president and chief executive officer.

Company officials said Conway, who said in January he would take an early retirement for personal reasons, has been succeeded in both posts by Executive Vice President Charles Clough. Conway remains chairman of the board.

30 percent jobless in Ontario

Sudbury past point of desperation

By Tom Tiede, Newspaper Enterprise Association

SUDBURY, Ontario — The other day a woman called a social welfare official in this Canadian town to report that her husband had beaten her up. She said he had been laid off from his work, and when he came home he punched her so hard that he had loosened one of her teeth.

"Shall I have him arrested?" the official asked. "No," the woman replied, "just get him another job."

The call sounded something like a bad routine from early burlesque. But unfortunately it was no joke. And neither was it unusual. The economic recession has idled at least three out of every 10 workers in Sudbury, and the situation is reaching a point of desperation.

SPECIFICALLY, the Canadian government says 30 percent of Sudbury's workforce is unemployed. That means 24,000 here are in the streets. It also means that Sudbury has the highest jobless rate of any city in North America, in the Northern Hemisphere, and maybe in the world.

These unemployed men are beating their wives. The woman on the phone said that her husband was a good sort, but he was scared. "He didn't mean to hit me. Afterward he kept saying he was sorry. He is 50 years old, he's never been out of work and he just doesn't know what's happening."

"Nobody here knows what's happening, actually. But they all have a fair idea when it started. Sudbury is a mining town. It sits atop vast reaches of nickel and copper, and the community nightmare began in 1977 when there was a dramatic decline in the industrial demand for ore.

THE DECLINE in demand forced a decline in production, and that in turn led to the first of many firings and layoffs. The largest company in town, Inco Ltd., tried to weather the crisis by shuffling staffs and cutting expenses, but the ore continued to stockpile rather than sell.

Then, to make matters worse, some Inco investments turned sour. The firm lost untold millions in Central American ventures. But they all have a fair idea when it started. Sudbury is a mining town. It sits atop vast reaches of nickel and copper, and the community nightmare began in 1977 when there was a dramatic decline in the industrial demand for ore.

Lid, also shut down its local mining activities. Suddenly more than 13,000 people were thrown out of work.

Lid, also shut down its local mining activities. Suddenly more than 13,000 people were thrown out of work. Unemployment rose to 32 percent here. And growing. The loss of salaries cut retail sales by 15 to 20 percent, and the drop in general business resulted in a 60 percent increase in the number of area bankruptcies. During the autumn the jobless rate climbed four, five and six more points.

Then, just before Christmas, the town made dismal history. Unemployment reached an official 33 percent. It has stayed in that vicinity ever since. The rate is triple that of Canada as a whole. It is likewise at least double that of any other city of the size (160,000

guarantee the authority's \$1.5-million loan to the purchasers. Because there was some question about whether the city could legally set up such a fund, he said, the authority agreed to allow the city to get funding from other sources.

Carson said the authority also compromised an another provision made in February that called on the prospective buyers, the Eastern Rot

taxpayers of the state," Carson said. Carson said he was uncertain when the sale would be closed. Brass officials had been working to close the sale Friday, although the deadline has been pushed back several times.

"I don't know if they will meet the deadline or accept our new set of revision. If this last settlement fails through, it will be difficult to carry the deal through," Carson said.

people) on the American continent. Naturally, the effects have been harsh. Sudbury is in some respects shattered. Twenty to 30 home mortgages are foreclosed each month, the market price for real estate holdings has plunged 10 percent since 1981, and the loss in retail sales this year could be more than \$100 million.

Human suffering has been somewhat less statistical because Canadians have a relatively generous social welfare system. Unemployment compensation is \$200 a week for 52 weeks, everyone is entitled to free medical care, and families with children receive automatic child welfare checks.

THAT DOESN'T mean things are bleak for the unemployed. Ernie St. Jean, a family counselor, says wife beating is only one indication of the frustration in Sudbury. Marital problems of every kind are on the rise here, and so is alcohol consumption, drug use and criminal activity.

What's more, things could get worse. Much worse. The unemployment compensation for most miners will run out by summer, hence more thousands of people may have to rely solely on welfare. Twenty-five hundred families are already on the dole, and the guess is that the figure may double.

The unemployment rate may also rise further. For at least 4,500 more jobs here are considered vulnerable. Mel Soucie, a government analyst, says that while all have a fair idea when it started. Sudbury is a mining town. It sits atop vast reaches of nickel and copper, and the community nightmare began in 1977 when there was a dramatic decline in the industrial demand for ore.
