Canceled trip spurs controversy

By Andrew Yurkovsky Herald Reporter Last week, parents at Washington School learned that Principal Ray E. Gardiner had canceled the second-grade trip to the Children's Museum in West Hartford because of behavior problems with students.

Hard climb Gerry Matschayk of 320 Hillard St. is a student of acrobatics and he does his homework wherever he can find the chance. Here at Waddell School, Gerry, 5, begins a determined effort to climb a pole to the crossbar.

Cooney says directors can't stop laser game

By George Lavina Herald Reporter The fight to stop a controversial laser game center from opening on East Middle Turnpike will have to be played out before the town's zoning officials and possibly state court. Town Attorney John W. Cooney said the directors have no direct say in the matter.

Court's property ruling will flood courts, both sides say

By Vivian Marino The Associated Press Developers praised as simple fairness a Supreme Court ruling requiring landowners to be compensated for certain changes that restrict their property use.

Theft of cake leaves Weiss with bad taste

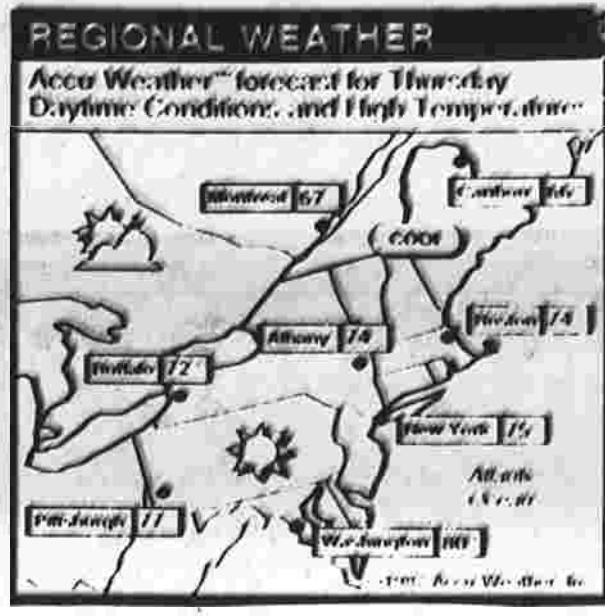

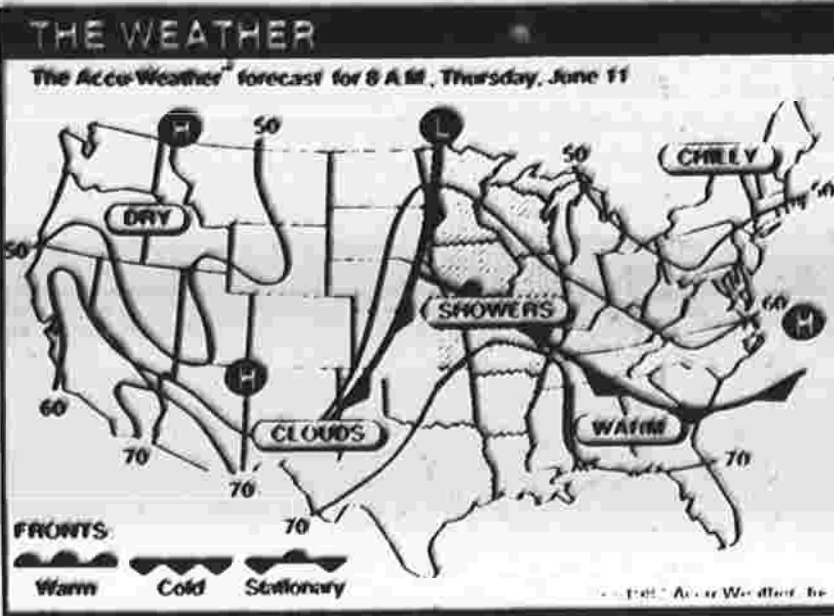

It was a disappointing 68th birthday for Manchester Town Manager Robert B. Weiss. Somebody stole his birthday cake.

Mobile memorial will finally come to rest

Manchester's Revolutionary Memorial Fountain has a home. The town Board of Directors decided Tuesday to put the much-moved monument next to some of the town's other war memorials on town land near the intersection of Center and Linden streets.

TODAY'S HERALD

Table listing various sections of the newspaper: Union may appeal, Allies issue warning, Getting sunny, Index, etc.

### Storm batters Plains; tornadoes hit West

Wet, stormy weather battered the western Plains on Tuesday, as at least two tornadoes touched down in Colorado, while thunderstorms rumbled from the Ohio Valley to the middle Atlantic Coast region.

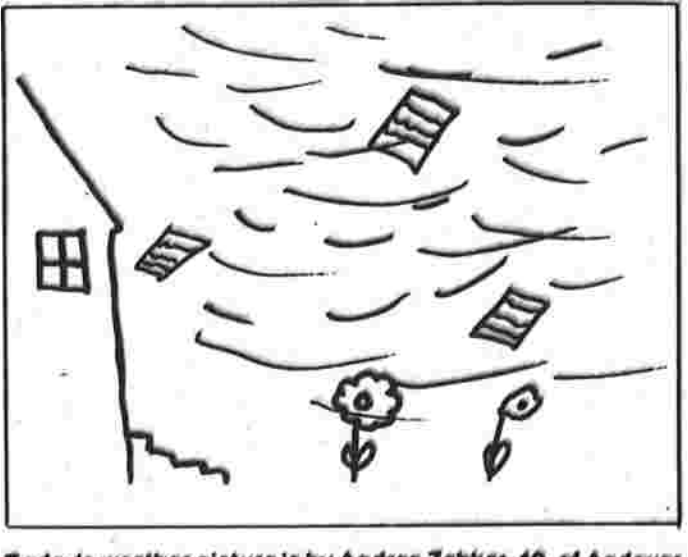

Another tornado touched down near Denver, Colo., and twisters were sighted in other parts of eastern Colorado. No other injuries were reported.

Funnel clouds and powerful thunderstorms swept through the Denver area late Tuesday afternoon.

By noon, 2 inches of rain had fallen at Jackson Lake, in eastern Colorado.

A storm Monday night at Denver dumped 1.52 inches of rain at Stapleton International Airport and delayed flights 30 minutes, and forced about 30 people in Golden from their mobile homes and from a campground for a short time. Lightning added to the flooding problems when it struck a power plant supplying Denver's storm drain pumps.

Showers and thunderstorms extended from much of Texas and eastern New Mexico across Colorado and western Kansas to Wyoming and southwestern South Dakota.

Today's weather picture is by Andres Zabkar, 10, of Andover, a fourth-grader at St. James School.

### CONNECTICUT WEATHER

Central, Eastern Interior, Southwest Interior: Tonight, clear and cool. Low in the 40s. Thursday, sunny. High around 80.

West Coastal, East Coastal: Tonight, clear. Low 50 to 55. Thursday, sunny. High around 75.

Northwest Hills: Tonight, clear and cool. Low 40 to 45. Thursday, sunny. High 75 to 80.

## FOCUS

**Lonely At The Top**  
A good share of Manhattan's skyscrapers have been built by Mohawk Indians. In general, Mohawks have great agility and balance, and seem to be indifferent to extreme heights. These qualities have made many of them ideal workers on construction jobs. During New York's building boom in the 1920s, Mohawks commuted to construction jobs from a neighborhood in Brooklyn. They played an important role in building the Empire State Building and Rockefeller Center.

**DO YOU KNOW** — The Sears Tower is how many stories tall?  
**TUESDAY'S ANSWER** — Isaac Walton wrote "The Compleat Angler."

### This is going to be brutal!

## Manchester is competing in a fierce war over water

The great land, or rather water, rush is on. Water companies and municipalities that operate water systems in the region will soon prepare claims for areas that they want to serve exclusively. The claims are required to be filed into a regional planning agency by September, and Manchester Water Administrator Robert Young said the day there could be some competition. "Everybody is going to be vying for space, so to speak, claiming land," he told the town board of directors during a meeting Tuesday.

## History professor at MCC enters the directors' race

Mary Ann Handley, a professor of History at Manchester Community College, will seek the Democratic nomination for election in November to the Manchester Board of Directors.

Handley said this morning that she is running on the assumption that there will be a vacancy on the six-member Democratic slate.

Stephen T. Penny, majority leader of the board, has said he probably will not run, but has not ruled it out. Penny has served 10 years on the board and has been mayor and deputy mayor.

Another Democrat, Joan Lingard, has said she will definitely seek the nomination, and two other Democrats have indicated an interest. The two are Joseph Campese and John Howroyd. Campese is retiring from the Board of Education after 10 years. Howroyd is an alternate member of the Planning and Zoning Commission.

In announcing her candidacy, Handley said, "As a native of Manchester and a 30-year member of the Democratic Party, I feel I can be a strong addition to the Democratic slate."

Each party nominates six candidates.

MARY ANN HANDLEY announces candidacy

## Owners complain \$12 rebate on the tipping fee isn't fair

Manchester apartment and condominium complex owners are now eligible to receive \$12 from the town for each unit that has been charged to use the town's landfill.

However, that rebate will likely be reduced to \$10 because of the amount the residents should have paid for that charge over the last year. This will work out to \$12 for each unit because the town estimates each unit produces one ton of trash per year.

That money was paid by the residents to the haulers, who in turn paid the town the tipping fee. However, residents of Northwood Townhouse condominiums on Hilliard Street said the \$12 rebate plan will not cover their expense.

According to figures provided by the complex's treasurer, Kathy M. Thayer, the amount charged by their private hauler jumped from \$196.66 in May 1986 to \$322.66 in June 1986 when the tipping fee began.

Of that, \$158 was listed by the hauler for disposal fees. But complex Vice President Alan W. Leme said that in conjunction with other townhouse residents at Northwood Townhouse should only have been charged \$32 for the tipping fee.

## Manchester/Area Towns In Brief

**Firefighters get pay raise**  
About 70 Town of Manchester firefighters will receive a 7 percent raise starting July 1 under a new three-year contract. The town Board of Directors Tuesday approved the settlement with Local 1579 of the International Order of Firefighters. In both the second and third years of the contract, firefighters will receive a 6.5 percent raise. The contract, already ratified by union members, was approved without comment by the board. It replaces a contract that expires June 26. Firefighters currently make \$23,590 to \$28,502.

**Kelly named chief dietitian**  
Anne Metzger-Kelly has been named chief clinical dietitian at Manchester Memorial Hospital, Wayne Wiganowski, director of food services, has announced. She has a bachelor's degree from Seton Hill College in Greensburg, Pa., and earned her master's in nutritional science from the University of Kentucky in Lexington, Ky. She has been a clinical dietitian at MEMH for the past year.

## Derekseth subdivision to be topic

The Planning and Zoning Commission has scheduled a special meeting at 7 tonight in the Lincoln Center hearing room to discuss a 98-lot subdivision being planned by Derekseth Corp. of Windsor.

The developer plans to build the luxury houses on 180 acres in the Case Mountain area off Birch Mountain Road. More than a mile of new roads would be built through the site, which is zoned Rural Residential.

Along with subdivision approval, Derekseth is requesting a wetlands permit because about two acres of wetlands on the site would be disturbed by development. The developer also wants the commission to drop zoning requirements that sidewalks be placed on Birch Mountain Road and two streets intersecting the development.

### Flag day scheduled Sunday

The Manchester Elks Lodge and its sister lodge across the street will conduct the annual Flag Day at 2 p.m. Sunday at the Elks Lodge on Bissell Street.

Exalted Ruler Gary Herbert and the officers of the Manchester Lodge will conduct the annual services. Past Exalted Ruler Dwight Dowdham III will give the history of the flag. The response will be given by Past Exalted Ruler William Stone.

### King committee to meet Monday

The Martin Luther King Day Committee, which organizes the town's Martin Luther King Day celebration, will meet at 7:30 p.m. Monday in the Lincoln Center gold room.

# OPINION

## Let's not legislate morality

Even if learned legal opinion supports the power of the Manchester Board of Directors to define and prohibit things detrimental to the morals of townspeople, the board should not decide to legislate morality to appease the opponents of a laser game.

There is no evidence to support the claims that Laserquest, described as high-tech entertainment, would foster and promote violence and aggression.

There are other, better arguments aimed at keeping the game out of the old Mot's supermarket on East Middle Turnpike, and there are just as many arguments in favor of allowing the business enterprise. But the matter must be decided on the basis of law, zoning regulations and facts.

At this point, as the majority leader of the Board of Directors has pointed out, there is no evidence to support any of the opinions being heard either for or against Laserquest. And if the board ever seriously considers a proposed ordinance to ban such games, there must be careful attention to the facts.

The proposed ordinance may not survive the scrutiny of the town attorney, whose formal opinion is that land-use decisions are the responsibility of zoning authorities, not the town's legislative body. Indeed, the ordinance which has been drawn up might not have been meant to survive.

If not for the words "pay or profit," such an ordinance might make it illegal for youngsters to play cowboys and Indians. Midway-style games at church fairs, where money does change hands, would be banned.

If the abatement of violence and aggression is the goal, scholastic football and other highly competitive sports could be outlawed. The municipal rifle range, excluded from the proposed ordinance, should go, too.

There is little doubt that many of those who oppose Laserquest on moral grounds are sincere in their beliefs. But there are some who appear to be using the emotional issue of morality as a smoke screen for other reservations about Laserquest.

As the smoke begins to clear, some of those who talked about morality are now talking more about traffic, noise and the character of the neighborhood. These are some of the issues on which land-use decisions must be based, but the empirical evidence to support the claims is lacking in those areas as well.

"I think I've invented a deficit reducer here."

## '88 session sure to bring cuts in taxes

The safest prediction anyone can make about 1988, when the Democratic-controlled Legislature goes back to work in Hartford, is that it will make up for the one serious failure of the 1987 session — its failure to cut taxes.

Unless the economy dips, the General Assembly will enact a substantial cut next year. It should have happened in the session that adjourned last week, but politics got in the way.

Simply put, the Democrats are waiting for 1988 because there's an election that November. They were willing to ride out Republican pressure this year because they knew voters would have short memories about such things if a newly-ordained tax cut were fresher in their minds.

And while Gov. Bill O'Neill almost spilled the game plan by hinting in the final hours of this year's assembly that a tax break may be coming next year, his Democratic colleagues were sticking with the official line that the time wasn't quite right yet.

SO DESPITE the theory that the state isn't in business to make money, Connecticut will continue to overtax another year and its surplus will continue to spiral. The bright side is that the state is padding "rainy day" funds and contingency funds which could save its hide one dark day.

That is called being prudent. Some of our old cynics say it's also pretty cratty political job insurance.

Another forecast for 1988 is for open warfare between liberals and more moderate Democrats in the House. The seeds were sown in the last weeks of the recent session.

Last week, the moderates met for the third time and elected Rep. Jim McCavanagh of Manchester as chairman and Rep. Josephine Cocca of Bridgeport as secretary of a group which now numbers 42 members. Their agenda will be modest, McCavanagh says, but their chief reason

Jack Anderson

## Open Forum

### Don't leave kids, dogs in hot cars

**To the Editor:**

Please, don't leave your children and dogs in hot, parked cars. (Or they'll dog out in the sun on hot days.)

A slightly open window is worthless because cars get unbearably hot very fast (102 degrees in 10 minutes on an 85-degree day). Horrible things can and do happen — possible permanent brain damage or even death. Your thoughtful concern can prevent this from happening.

Ruth Evans  
18 Briarwood Lane  
Vernon

### Teacher pay hike a can of worms

**To the Editor:**

Our governor, our Board of Education, our town Board of Directors and our town manager have opened a can of worms which will be hard to contain.

They will be asked to justify a 50 percent wage increase for teachers in their three-year contract, without a doubt a new record for the Book of Guinness.

How can these administrators ask others to tighten their belts? How can these people who work 40 hours a week, 52 weeks a year be treated equally?

There are many other questions to be answered. What happens if, or when, state aid to towns ends? What happens if our country goes into a recession? How about inflation?

The answer is simple. The property owner will be stuck with the bill. The next question is, can we afford an administration which disregards the plight of the taxpayer, or take up arms and thus replace them?

My recommendation is that

### Capitol Comments

**Bob Conrad**

For existing will be to slow down what he calls "excessive liberalizing" in the recent session.

**MEANWHILE**, the liberals (they prefer to be called progressives) printed themselves on accomplishments this year which more than offset some of their disappointments. Reps. Miles Rapoport of West Hartford and Irene Favreau of New Britain said their small but teltaly alliance spearheaded gains in housing and environmental legislation.

The moderates see themselves as more in tune with O'Neill, even though the Democratic governor deplores the growth of caucus within the party caucus and denies any involvement with the McCavanagh organization.

The session this year was marked by a new high in leadership jobs. It was a case of here a leader, there a leader, everywhere a leader leader for the majority Democrats and almost as many for the Republicans. The Democrats had 20 in the House (more than one for every five members) and 14 in the Senate (58 percent of the membership).

AND IT WAS a year in which some of the newcomers in both parties got the attention of leadership. Among the freshmen standouts were

Sen. Steve Spellman of Stonington, Kevin Sullivan of West Hartford and James Maloney of Danbury. All chaired committees that handled tough workloads and tested their ability as quick studies as well as debating skills.

More seasoned legislators were impressed by Rep. Nancy Wyman of Tolland, who had years of state Capitol staff experience to help her new status as a House member. Others liked the style of Rep. Steve Hanchruck of Branford and a couple of young Republicans, Reps. Gary Berner of East Hartford and Andy Norton of Colchester.

And in this so-called cradle of political candidates, the 1987 session served up a few, even if belatedly.

**THE SESSION** was going nowhere in producing obvious personalities on the way to higher office. Then on May 7, GOP Congressman Stewart McKinney of Westport died and the race was on for his seat in the state's Fourth District. It was in early stages, it was marked by as many dropouts and more durable candidates.

But GOP Reps. Chris Shays of Stamford, John Metaspoulos of Fairfield and Bill Nicholson of Greenwich were headed for a primary over their party's nomination for the special election Aug. 18. In the Senate, Sen. Margaret Morton of Bridgeport will be taking on a former House member, Chris Niedermeier of Fairfield, for the Democratic nomination.

Former House Speaker R.E. Van Norstrand of Darien, after mending fences back home, decided against running for Congress, as did Rep. Emil "Benny" Bevenuto of Greenwich.

An old reporter he lacked the "fire in the belly" which a candidate should have. Capitol observers said, however, he's probably only banked that fire and will one day go for higher office — one with a longer term than the two years offered in the U.S. House.

Jack Anderson

## Iraq, Syria meet to mend differences

**WASHINGTON** — A dramatic secret meeting in late April between two bitter Arab enemies — Syrian President Hafes Assad and Iraqi President Saddam Hussein — had laid the groundwork for rapprochement between the two key Middle East neighbors.

The clandestine two-day meeting, according to intelligence sources, was held in the southern Jordanian town of Ajlun. The "honest brokers" who arranged the conference were Jordan's King Hussein and Saudi Arabia's Crown Prince Abdallah.

The two dictators arrived at a Royal Jordanian Air Force base near the desert rendezvous late on the afternoon of Sunday, April 26, and met briefly. It was the first meeting between Assad and Hussein since the Iran-Iraq war began in September 1980. Iraq understandably has considered Syria an enemy for its active military, diplomatic and intelligence support of Iran in the stalemated war.

Manchester

### 'If,' not 'when,' is the question

**To the Editor:**

I am responding to the question posed by your reporter — "Will you or your children visit the new Laserquest game arcade when it opens on East Middle Turnpike?" ("Our Neighbors' Views," June 4.)

As no decision has yet been reached to allow Laserquest of Hartford to open, the question should have been phrased, "If the arcade opens, rather than 'when' it opens.

However, it was very encouraging to read that nearly everyone interviewed indicated they would not patronize the game arcade. Anyone who is aware of the serious problems that have resulted since the opening of the Spectrum Family Amusement Center in Ellington will, no doubt, be very happy when Laserquest leaves Manchester forever.

**Jan Gemblak**

### Letters policy

Letters should be brief and to the point. They should be typed or neatly handwritten, and, for ease in editing, should be double-spaced. Letters must be signed with name, address and daytime telephone number (for verification).

The Herald reserves the right to edit letters in the interests of brevity, clarity and taste.

### Soviet space shuttle

The Soviets' belated space shuttle will probably fly by 1991, according to CIA sources. The Soviets have already built two orbiters, which have undergone flight tests piggybacking on a Bison bomber. And according to some sources, the shuttles have been subjected to independent glide tests as well.

The Soviet space shuttle probably won't have as much recoverable hardware as the U.S. space shuttle, but our sources say this difference may not be significant. It doesn't mean the Soviets' shuttle will be less economical than ours. That's because, despite fewer reusable systems, the Soviet launchers will have a greater degree of "parts commonality." This means that mass-production techniques can be used for many parts, and this will bring substantial savings in production costs.

## Feds try to take control of Teamsters

**LOS ANGELES (AP)** — The nation's largest union was run by court-appointed trustees under a reported Justice Department plan to take control of the Teamsters because of alleged influence from organized crime.

An unprecedented lawsuit being drafted by department lawyers is aimed at forcing Teamsters President Jackie Presser and the 20 other executive board members from office, unidentified sources told the Los Angeles Times.

The move to assert federal control over the 1.7 million-member union would be the most sweeping step taken by authorities to rid the Teamsters of alleged criminal influence.

The action would pit the Reagan administration against the only major union to endorse President Reagan's election bids in 1980 and 1984.

John R. Clines, general counsel of the Teamsters and Presser's personal attorney, declined to comment on the pending action. Joseph DiGenova, U.S. attorney for the District of Columbia, who according to sources quoted today by the newspaper would be filing the lawsuit in federal court in Washington, also refused to discuss the matter.

The civil racketeering action would be separate from a criminal trial for Presser scheduled to begin Aug. 16 in Cleveland.

If successful, it would be the first time an entire union was placed in court-supervised trusteeship.

So far, the government has used the federal racketeering law to place only one Teamster local, No. 569 in Union City, N.J., under trusteeship. That local has been controlled by convicted racketeer Anthony "Tony Pro" Provenzano.

Statistics compiled by the Labor Department and the President's Commission on Organized Crime show more than 100 local Teamsters officials and consultants in the last five years have been convicted or indicted for embezzlement, mail fraud, bribery, racketeering or defrauding health and welfare plans.

The proposed lawsuit would be a sign of further deterioration in the relationship between the Teamsters and the Reagan administration.

When the union endorsed Reagan in 1980, running mate George Bush said, "We respect you and we're grateful to you. Thank you very, very much."

When the president-elect was preparing to assume power, he named Presser, then a Teamsters vice president, to a transition team on labor issues.

Despite the connections, Presser was indicted in May 1984 by a federal grand jury on charges of embezzling money from the Cleveland local where he rose to power. He was the fourth of the past five Teamsters presidents to be indicted.

Attorney General Edwin Meese III has removed himself from matters involving Presser because of contacts he had with him during the 1980 campaign and subsequently when Meese was counselor to the president.

The proposed Justice Department action goes well beyond steps urged by the presidential organization since Meese's last report.

## Women are having fewer babies lately

**WASHINGTON (AP)** — American fertility has fallen to a new low, and that's unlikely to change in the next few years, according to population experts at the Census Bureau.

After peaking in 1987 during the post-World War II baby boom, fertility has been declining steadily, bureau reports show.

"Indeed, so pervasive has this relationship become that no single remedy is likely to restore even a measure of true union democracy and independent leadership to the IRT."

An ongoing criminal trial in New York, in which alleged Mafia boss Anthony "Fat Tony" Salerno and 10 associates are defendants, has featured testimony from former Teamster President Roy L. Williams and others that Williams' 1981 election and Presser's first election in 1983 were controlled by Salerno.

In addition, testimony from convicted Cleveland mobster Angelo A. Lonardo and Williams has disclosed that Mafia leaders in Chicago and New York ordered loans for Las Vegas, Nev., casinos from the giant Teamsters Central States pension fund in Chicago. That fund has since been put under court supervision.

The fertility decline comes during an era in which many young people are pursuing educations and careers in lieu of marriage and families, leading some to speculate that many births are only being postponed.

"To some extent it's a postponement, but I can't believe ... that the level from a couple decades ago will return. It isn't likely to happen; it's dropped off too much," Starnate said.

"People are concerned with the quality of life, and if they have to choose between having more children and maintaining the life they have experienced, I expect they will go towards quality of life," Starnate added.

"It's harder maintaining a family now, with both adults working. Having more women in the labor force discourages having as many children as people did 20 or 30 years ago."

## Police face riot in Seoul

**SEOUL, South Korea (AP)** — The government rounded up thousands of suspected dissidents and flooded the city with riot police today as the ruling party confirmed as its candidate President Chun Doo-hwan's hand-picked successor.

Up to 120,000 riot police were placed on red alert around the country to head off protests against the Democratic Justice Party's one-day presidential convention.

Thousands of college students shouting "Down with the military dictatorship" rallied on campuses surrounded by police. Police commanders have warned that protests are illegal and will not be tolerated.

Lines of riot police surrounded the Chamul Gymnasium, where the governing party rubber-stamped Chun's choice of party chief Roh Tae-woo to succeed the president when his seven-year term expires in February.

Chun announced in April that he was postponing talks on direct elections and maintaining the controversial electoral college, which is expected to give Roh an easy victory in elections later this year. The postponement sparked protests around the nation.

Roh praised Chun for his leadership and vowed to continue his policies of ensuring political stability and expanding the economy. He warned that opposition protests threaten national survival.

Violence only breeds violence, thereby perpetuating an ancient vicious cycle. In particular, radical leftist ideologies coupled with violent activities not only endanger liberal democracy, but also threaten the survival of our nation," Roh told about 12,000 cheering delegates and officials.

Roh played a key role in backing Chun when they were generals in 1980 and the military moved to take power.

Roh's nomination, which was not contested, was approved by all but 48 of the 7,309 voting delegates.

The government ordered the police mobilization in response to a call for nationwide demonstrations issued by the National Coalition for a Democratic Constitution, an alliance of opposition politicians and religious and human rights activists.

Police officials said 2,300 people were detained in street checks and raids overnight. The arrests followed the detention of at least 3,000 people Tuesday.

Formations of riot police in black helmets carrying shields and clubs were posted throughout central Seoul today. Authorities staged overnight raids on 123 colleges and several opposition group offices, where they seized firebombs, clubs and opposition literature, officials said.

"This regime is not only digging its own grave, but also is being completely rejected by the people," said opposition leader Kim Young-sam.

Opposition leaders hoped to discredit the Democratic Justice Party's convention and step up its campaign for direct elections and the ouster of Chun's government.

The opposition has said it will not accept the transfer of power to Roh and another seven years of the party's rule.

## THE #1 HOME MORTGAGE LENDER IN CONNECTICUT JUST GOT CLOSER TO 49,052 PEOPLE.

**ANNOUNCING PEOPLE'S BANK MORTGAGE AND LOAN CENTER IN MANCHESTER.**

There are over 49,052 good reasons why we decided to open up a People's Bank Mortgage and Loan Center in Manchester. We thought it was high time that you, the people in the Manchester area, had the opportunity to discover what you've been missing — the service you can only get from Connecticut's #1 home mortgage lender.

At the new People's Bank Mortgage and Loan Center, you can apply for a mortgage... refinance your current mortgage... open up a People's Home Equity Credit Line... apply for a credit card... and more.

Stop in and meet with one of our People's Bank Mortgage and Loan Specialists at 354 Broad Street. Or call us at 643-2169. You'll quickly discover why People's is Connecticut's #1 home mortgage lender — because we offer an unsurpassed level of knowledgeable, personal, one-on-one service.

The new People's Bank Mortgage and Loan Center in Manchester. It's our way of getting closer to some of the most important people in Connecticut.

### Board powerless

Continued from page 1

yet received a building permit to make changes to the building. Before that can be done, town Zoning Enforcement Officer Thomas O'Marra must decide if the business would be permitted for the zone it is in. Once that decision is made, either the business or the opponents can then appeal to the Zoning Board of Appeals and then to state Superior Court.

Opponents who spoke at Tuesday's director's meeting focused on what they said would be the problems created for residents living near the building. They said there would be more traffic, loud noise late at night, littering, and the drinking of alcohol and use of drugs.

### Trip spurs debate

Continued from page 1

The PTA this year sponsored field trips in grades 1, 4 and 5. Carrabino said that as a result of Tuesday's meeting she expects communications between parents and Gardner to improve. But she is still not satisfied with the way the principal handled the trip cancellation.

meetings this year have only been attended by four or five parents, she said. Elaine Jefferson, another parent, said she hopes the promises for better communication will be kept next year. Like other parents, she and Gardner to improve. But she is still not satisfied with the way the principal handled the trip cancellation.

### State gets more time in case against doctor

By Andrew Yurkovsky Herald Reporter

The state Department of Health Services won a temporary victory last week in the case against Dr. Donald Pet. The Manchester psychiatrist charged with improper sexual conduct.

Asked to comment on the delay, Pet said Tuesday, "We'd like to resolve it. We would certainly like to resolve the situation. That's what we asked for the speedy hearing."

### Memorial gets a home

Continued from page 1

The monument now has a cement ball and is stored near the town's highway garage on Olcott Street.

Meanwhile, a related problem has surfaced. Letters sent to the directors from fifth-grade students at Buckley School, who wrote about the fountain, are missing.

Rembrandt, move over. Herbert Bengtson, left, Edson Bailey and Chester Ferris show off plaques presented to them by the Manchester Historical Society for the work they have contributed to the Manchester Historical Museum, 126 Cedar St., and the society. They were honored at the museum's grand reopening in May, when galleries in the museum were dedicated in their honor.

### Board of Directors considers pricetag on a new town hall

A new Manchester town hall would cost at least \$15.5 million, not counting the cost of land that might be needed, Town Manager Robert B. Weiss said Tuesday in a report to the town Board of Directors.

Building a new town hall is one of three options that have been discussed to provide more space for town employees. While the directors took no action Tuesday, they agreed to hold a public workshop on the issue next month to discuss the alternatives.

Director Stephen T. Penny, though, said such wide-ranging explorations have been held in the past. "Are we really going back to square one on this?" he said.

### Juggling, town finds money for higher sewer plant cost

After some more juggling, Manchester town officials said Tuesday they have been able to obtain additional funding to cover the higher-than-expected cost of renovating the town's sewer treatment plant.

Town budget analyst Robert Heustis said this morning exactly how much of the federal grant money the town will get has not been determined, although it will be about 35 percent of the total project cost.

In 1985, townspeople voted to limit the town's share of the cost to \$14.3 million. Town officials had been confident that they could obtain enough state money to cover the anticipated \$26 million cost.

## SPORTS Magic's shot puts Celtics on the brink

By Howard Uimon The Associated Press

BOSTON — Larry Bird may have missed the game's final shot, but he was right on target afterward. "We have our backs completely against the wall," the Boston Celtics star said.

When Larry Bird's shot at the buzzer from the left corner hit the back of the rim and bounced away, the Lakers had a 107-106 victory and a 3-1 lead in the best-of-seven championship series.

"If any team is capable of beating us three straight, it's the Celtics," Los Angeles center Kareem Abdul-Jabbar said. "We have to continue to work hard."

"We had this game. We played great for 46 minutes. We threw it away," Alinge said. "The Lakers beat us in the first two games but we beat ourselves in this one."

Magic Johnson of the Lakers puts up the winning shot over the outstretched arms of Boston's Robert Parish (left) and Kevin McHale. Johnson's basket gave the Lakers a 107-106 win and a 3-1 lead in the best-of-seven NBA Championship series.

Boston's Kevin McHale (right) pushes the Lakers' Byron Scott as the latter is held from behind by Boston's Danny Alinge during a third-quarter skirmish Tuesday's Game 4 at Boston Garden.

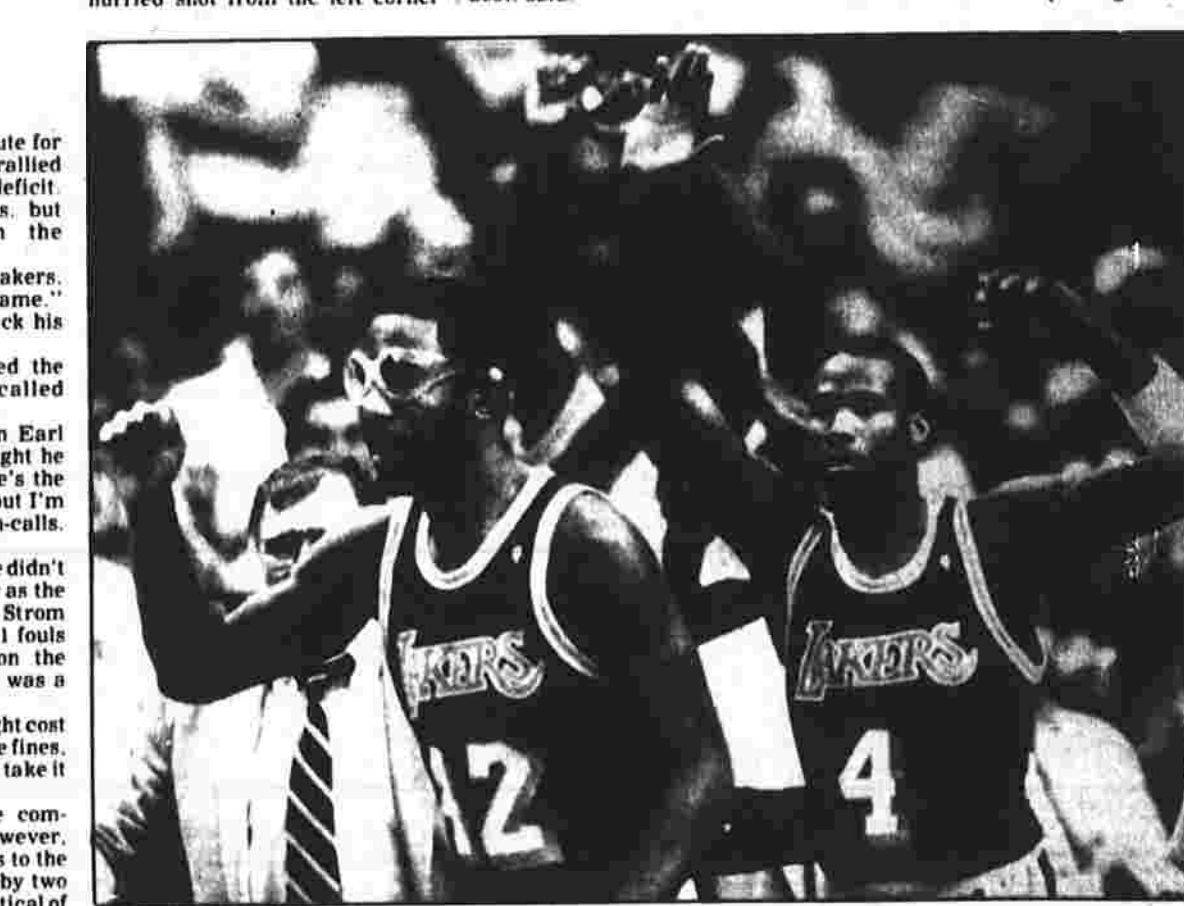

### Difference was one shot

By Dove O'Hara The Associated Press

BOSTON — The Los Angeles Lakers did what they wanted. They got Magic Johnson the ball and he had time to take his shot.

Then the Boston Celtics did what they wanted. They got Larry Bird the ball. Only he didn't have time to set and miss.

It was one of those shots you'd like to freeze. "I didn't see him play that much this year, but I guess he's been making that shot all year."

The Lakers' James Worthy (42) and Byron Scott celebrate their teams victory over the Celtics Tuesday night at Boston Garden.

### East nine shooting for third championship berth

When East Catholic takes the diamond tonight at 7:30 at Murry Field in Bristol, the Eagles will be looking for their third berth in a state championship game.

The Eagles were the No. 2 seeded team in the Class L. They are going into postseason play. That won't get you a cup of coffee, though. The rankings are meaningless.

East's opponent is Maloney High of Meriden, which began the tournament with an uninspiring 11-4 mark. But the Spartans have won two straight, including a second-round 6-5 victory over St. Bernard's of Uncasville.

St. Bernard's owns two of the five losses tacked on East 6-3 and 20-6. Maloney earned its berth in the semifinals with a 2-0 blanking of St. Joseph's of Trumbull. If you're looking for comparisons, East beat St. Joseph's twice, 11-5 and 10-6.

East 18-5 has been impressive in its two tournament victories. The Eagles beat a young St. Paul club 11-0 and followed that with an impressive 4-0 shutout of Stratford High, the alma mater of East Coach Jim Penders. That's a two-for-two in shutouts after only two shutouts in 21 games previously.

IN EACH TOURNAMENT OUTING, the Eagle interior defense of Rob Stanford at third base, Kevin Lawrence at shortstop, Kevin Riggs at second base and Doug Ruzato and Pat Merritt at first base has been superb. "You can't ask for any better defense on the high school level. That's what we pride ourselves on," Penders said after Saturday's quarterfinal victory.

Lawrence started the year behind the plate and Stanford at shortstop. But Penders, who has been known to do some juggling, reversed his scheme and, as the saying goes, the rest is history. Stanford began a

We're the only bank in town. The Savings Bank of Manchester office — on Main Street here in Manchester — is the only bank in town with Thursday office hours from 9 AM to 4 PM, and 6 PM to 8 PM.

Thoughts ApLENTy Len Auster Sports Editor. East had flame-throwing left-hander Craig Steuer-nagel and was the favorite against Windsor. East never made it past the Indians that year. Coach Barry Charness's pitcher couldn't break a pane of glass, but his assortment of junk baffled Eagle batters all day — two days in fact as a thunderstorm forced the game to be completed the next day — and East went home a 3-0 loser.

PENDERS SAW MALONEY BLANK St. Joseph's after his team quickly disposed of Stratford in an hour and three quarters. "It's not impressive," he said, "but those are the kinds of teams that beat you." He's talking from his 18 years of experience as East's coach. He's maybe recalling 1979, when the Eagles won the Hartford County Conference title, one of seven conference crowns collected by Penders' guided clubs.

While the '87 Eagles are in pursuit of their first championship, Penders is chasing his dad. Penders' late father, also named Jim, different middle initials, coached Stratford High for 23 years and brought home four state titles.

## A Central

Pagan's Caterers pulled Perr's, 12-11, Tuesday night at Pittzfield Field. Perr hit the winners with three singles while Perry Pagan and Steve Clifton each had two doubles and a home run. Perr's Tim O'Neill had four hits and Jack Costello added three.

## Charter Oak

Acadia Restaurant edged MCC Vets, 8-7, Tuesday night at Pittzfield Field. Rocco Anselmo had three hits, including a triple and a homer, while Brian Bosterville, Brad Miller, and Jim Guzzo each had two hits and a run each. For MCC, Chris Pisto had three hits while Kearney and Bill Stevens added two hits each.

## Women's Rec

Main Pub routed the Homestead, 19-3, of Charter Oak. Patty Menegola pitched the first nine innings for the Alchemie Quey and Cathy Grant added three hits each. Carol Page had three hits in defeat.

## Duaty

Stephanos's Paulina blistered Center Conco, 11-4, of Keeney Field. For the winners, Fred Gilno had three hits and four RBIs, including a homer, while Steve McGee had two hits and a run. For Center, Tom Willenbroer pitched the last four innings and hit three hits.

## West Side

B.A. Club defeated Pond for Though, 9-4, of Pagan Field. Jerry Salamoneau, Kevin Carpenter, and Bill Carter each had two hits. For Pond, Fred Though, Ed Rizzo, and Steve Hill were the winners.

## Pagan

Madville Nine won by forfeit over Manchester Fire and Police, 7-0, of Pagan Field.

## Nike

Evergreen Lows outplayed Washington Social Club, 4-0, of Nike Field. Frank Mous had three hits, including a triple and a homer, while Bill O'Brien and Peter Lierford had two hits each. For Washington, Gary Hurley, George DiArmando, and Scott Jones had three hits while Jack Lyon pitched in two.

## Rec

Manchester Pizzos allied up Jim's Arc, 8-4, of Nike Field. Arc's Steve Baso and Tony Power had two hits each for Pizzos. For Jim's, Paul Costello tripled and doubled.

## A East

Manchester Medical Supply knocked out Cummings Insurance, 13-8, of Robertson Park. Steve Blodgett led the winners with three hits while Brian Whelan, Andy Gagnier, and Rick Gustafson added two hits each. For Cummings, Steve Ratcher and Pat Cattel each had three hits while Troy Wharney, Joe Sirois, Bill Ebban, and Ken Whorran each had two.

## Little League

Army and Navy trounced MARC, 10-1, Tuesday night at Woodside Field. Chris Looma won the distance for the winners and pitched the last three innings. Dave Gilbert had two hits and Jason Morrison added two. For Army, Jeff Kelly and Ben Perry played well.

## National

Ansoled's was ousted, 10-4, but had what counted for a 1-0 victory over Marlet's Tuesday night at Labor Field. O.J. Cromwell had two RBIs with a double and single while Matt Sullivan doubled in two runs and Brian Sullivan and Robbie Rizzo each singled home a run for Ansoled's. Joe Mover and Jason Boranese each singled and doubled and Craig Labonte and Ben Grover each singled twice in three innings, which stranded 11 runners.

## American Farm

MARC defeated Army and Navy, 11-4, Tuesday night at Buckley Field. Julie Inwert won the winning pitch for the winners and pitched the last three innings. For Army, Mike Tormey, Wade Bedell, and Tom Sargent all played well.

## Rec

Woods demolished Strona Real Estate, 25-4, at Michael Johnson and Matt Dennis batted home runs for Woods while O'Casey and Dennis Goches played well defensively. Tom Sledge and John Sledge each had two hits and a run while Ed Corradi and Sean Pletcher each had one hit.

## Rec

Eastern Vets scored three runs in the first inning of his first 10 PCA tournaments of 1987. He earned a total of \$257,488. He is 5-foot-9 and weighs 185 pounds.

## Cerutti fulfills boyhood dream; Jays rip Yankees

**By Ben Woitker**  
**The Associated Press**  
 NEW YORK — John Cerutti spent his teen years rooting for Ron Guidry, trying to copy his pitching style and success.  
 Cerutti would've made his role model proud Tuesday night, soft. He shut out New York on three hits for 5.3 innings as the Toronto Blue Jays trounced Guidry and Yankees 7-2.  
 "I grew up following Ron. I always considered him my idol," Cerutti said after the Blue Jays won their seventh straight game. "He was the one pitcher I tried to emulate."  
 Guidry, making his first major league start of the season, was not around to see all of Cerutti's effort. Cerutti said following the Blue Jays win.  
 "I realized it's his first start and he wasn't sharp. Still, it was a boyhood dream to pitch against him," said Cerutti, 27. Among those who were present to cheer him his mother and father, who made the three-hour drive south from the family's home in Albany, N.Y.  
 Cerutti, 27, faced just one batter over the minimum for five innings. He was in no trouble until, with a 0-0 lead, Claudell Washington singled with two outs in the sixth and Willie Randolph walked. Toronto manager Jimmy Williams then relieved Steve Carlton, who had thrown 60 pitches in a relief outing Saturday.  
 "I'm sure that was Jimmy's concern, that I was tired," Cerutti said. "I would have liked to stay in there. I felt good."  
 Guidry, who had made three starts in the minors and five relief

## A's Young closing in on a no-hitter

**By Brian Trussell**  
**The Associated Press**  
 With his second near miss in as many years, Oakland's Curt Young keeps getting closer to a no-hitter.  
 Last year, Young pitched a no-hitter for the first time in his career, allowing an infield single in a one-hit, 6-0 victory over Kansas City. Tuesday night, he went one pitch further for the White Sox, broke up his bid with a two-run homer in the eighth.  
 "It's a lot of anxiety," Young said after the second one-hitter of his career, an 8-3 victory over the Chicago White Sox. "I like to be in the middle of it. I like to see the game. Some time they hit it and sometimes they don't."  
 Young's White Sox game was Tuesday, it was Toronto 7, New York 2; Boston 2, Baltimore 1; Detroit 8, Milwaukee 3; Minnesota 4, Cleveland 3; Texas 3, Seattle 0. Williams was 6-for-16 before he left the game over 500 and a think he was in the lead field four.

## Hurst is on a roll as Soxos trim O's

**By Gordon Beard**  
**The Associated Press**  
 Boston hurler Bruce Hurst looks down as Baltimore's Cal Ripken Jr. circles the bases after hitting a solo home in the first inning of Tuesday's game in Baltimore. Hurst and the Red Sox got the last laugh as they beat the O's, 2-1.

## Bad things happening to the Mets

**By Joe Mooshill**  
**The Associated Press**  
 CHICAGO — Bad things are happening to the world champion New York Mets these days and Manager Dave Johnson is doing his best to keep from losing his composure.  
 The Mets committed five errors that led to six runs in the eighth inning, which was the final inning of a 6-3 loss to the Cubs at Wrigley Field. The errors came in the eighth and ninth innings.

## NL Roundup

**NL Roundup**  
 The major league versions of "The Untouchables" are appearing just about nightly in Philadelphia and Houston.  
 Relievers Steve Bedrosian of the Phillies and Dave Smith of the Astros have had sensational recent, mowing down batters with astounding regularity. Bedrosian struck out a National League record Tuesday night with his eighth save in as many consecutive appearances, holding off the Cardinals for a 3-2 win.  
 "Sometimes when you're a fastball pitcher, you don't come out and get a strike for the first time," he explained. "I took me time to get acclimated. I got knocked around and I got me time to get acclimated. I kept me time on the ground. I kept me time on the ground."  
 The Phillies' offense came on Glenn Wilson's solo homer and a two-run shot by Juan Samuel. Vince Coleman of the Cardinals reached base for the 39th straight game with a single.

## Philles 3, Cardinals 2

Philadelphia's Steve Carlton pitched a complete game, allowing one run on five hits and striking out six to lead the Phillies to a 3-2 victory over the Cardinals Tuesday night at Veterans Stadium. The winning pitcher was Steve Carlton, who pitched six innings and struck out four.

# Palmer fails to make Open

By Fred Gooden  
The Associated Press

LAKE BUENA VISTA, Fla. — It has been "a long time" since the site of one of the biggest disappointments, Arnold Palmer said. But another disappointment got in the way.

Twenty-one years ago, when the charismatic Palmer was still a dominant figure on the pro golf tour, he carried a seven-shot lead into the final nine holes of the U.S. Open at San Francisco's Olympic Club. Incredibly, he squandered that advantage, allowing Billy Casper to pull into the lead and force a playoff. Casper then won the playoff by four strokes.

Palmer, who burst to stardom by winning the 1960 Open at Denver, never did win a second national championship and in recent years has even had trouble qualifying.

In 1966, after falling for a third straight year to make the field, a frustrated Palmer vowed he would never participate in another qualifier.

"You can chase it only so long," he said at the time. "I've missed qualifying three times. I think that's probably enough."

However, memories of the 1966 Open at Olympic influenced a change of heart.

"I got to thinking about the fact that 20 years ago, I didn't have such good luck here," Palmer said.

"I thought if I could get back there it would be neat to play. It's not a big deal, except for me. It would have been fun."

He didn't have much luck Tuesday in a 96-hole Open qualifier at Walt Disney World. Although he had rounds of 71 and 72 for a 142-under-par 148 total, Palmer failed for the fourth consecutive year to earn a spot in the Open. He needed a 150 score to make the 100-player field for the Open, scheduled June 18-21.

Despite the setback Tuesday, Palmer seemed pleased to be playing sub-par golf only six weeks after arthroscopic knee surgery.

"I actually enjoyed the day — except for putting," Palmer said.

"I drove the ball about as well as I could. I was in the four- and five-foot birdie putt that hurt me. I missed a lot of them."

Six players, led by Scott Hoch 154, earned spots at the Walt Disney World qualifier.

But Hoch, who shot rounds of 65 and 69, was the 71st-ranked player in the U.S. Open. He had to have a 11-under-par score of 130 to lead a field of 20 qualifiers over the par-70, 6,815-yard Old Oaks Country Club and the par-71, 4,800-yard Century Country Club.

A field of 107 players, including 10 amateurs, completed. None of the amateurs qualified.

The other qualifiers were: Barry Jeeckel, 153; Dr. Gil Morgan, Ed Dougherty and Charles Bolling, 157; Bob Lohr, 158; Dave Eichelberger, Jon Kudychyk, Mike Donald, Wayne Grady and Mark Lee, 159; and Bob Lunn, Loren Roberts, Eddie Kirby, Bill Britton and Norm Becker, 160.

Seven players finished at 141, with David Canipe, Darrell Kestner, James Booras and Pat Horgan surviving the playoff to earn Open spots.

At San Francisco, 1973 Open champion Johnny Miller was among 10 players to qualify at the San Francisco Golf Club.

Four professional Tom Purtzer and mini-tour pro John Grund led the qualifiers with 3-under-par 129. Alan Shipps, a teaching pro, was at 140, while Miller, Joe Hanesett and Kirk Triplett were at 141. At 143 were Michael Miles, Tom Lehman, Steve Felt and Yoni Silla.

Miller, 40, a San Francisco native who learned the game at San Francisco Golf Club, was the top amateur in the 1966 Open at Olympic. He finished Tuesday's qualifying round with two birdies, chipping in from 25 feet and making a six-foot putt.

At Purchase, N.Y., Mike Smith hit rounds of 45 for an 11-under-par score of 130 to lead a field of 20 qualifiers over the par-70, 6,815-yard Old Oaks Country Club and the par-71, 4,800-yard Century Country Club.

# Driesell alleges cocaine use can aid performance

By The Associated Press

NEW YORK — A comment by former Maryland basketball Coach Lefty Driesell that cocaine can be "performance enhancing" has stunned some members of the sports community, who lashed out against that viewpoint.

Ohio State basketball Coach Gary Williams had the strongest comments after Driesell, the coach at Maryland when All-American Len Bias died of cocaine intoxication last June 19, made the observation at a conference on drugs in sports at the University of Rhode Island.

Driesell, who elaborated on his views Monday, noted that four of the top players in Atlantic Coast Conference history — John Lucas of Maryland, David Thompson of North Carolina State, and Walter

Davis and Phil Ford of North Carolina — were admitted drug abusers.

"Those were four great players," Williams said, "but they didn't have to have any drugs to play like they did in their primes. Every one was torn down by using cocaine."

"You can die. Three great players — Bias, Don Rogers (of the NFL's Cleveland Browns) and now that kid at Texas-El Paso (basketball player Deep-Jackson) — have died in the last year. I can't believe Lefty could say to use cocaine and use it properly. It can make you play better. . . I really believe cocaine can be performance enhancing." He added that he made that discovery during research for his master's degree in 1957.

Williams used recent history to

dispute that claim.

"(Cocaine) can give you an immediate rush, a false sense that you can perform better," he said.

"In a psychological sense, you become dependent in order to get yourself to play better. But it breaks you down physically."

"You can die. Three great players — Bias, Don Rogers (of the NFL's Cleveland Browns) and now that kid at Texas-El Paso (basketball player Deep-Jackson) — have died in the last year. I can't believe Lefty could say to use cocaine and use it properly. It can make you play better. . . I really believe cocaine can be performance enhancing." He added that he made that discovery during research for his master's degree in 1957.

Williams used recent history to

"He must have had a lot of experience with cocaine, because that's not what a medically knowledgeable person can perform better," he said.

"The only part (of what he said) that is correct is that people who become dependent in order to get themselves, but only for a while. There's a certain euphoria. But that rapidly wears off. It lasts about 20 minutes."

"At first, you feel better about yourself. But you have to take a lot of cocaine to keep that up. And then you do that, you can't feel good about yourself anymore."

"You get a rapid heart rate. It tends to reduce endurance and your concentration gets poorer."

"People who take it during games are not even sure where they're playing." Daly said. "It's the most addicting drug known to man. Of every three people who try

it, one will become addicted to it."

Maryland officials said Tuesday they would ask Driesell to clarify his comments.

"Our reasons are kind of fundamental: we're basically interested in the health of the individual who is taking drugs," university chancellor Dr. A. H. "Bud" Edwards said. "It's a detriment to health. I think that's clear."

Edwards said he was surprised by Driesell's comments and said the university did not share them. He said officials would not reprimand Driesell but would ask him to explain what he meant and his position on drug use by athletes.

Driesell has advocated drug testing to discourage drug abuse by athletes and also to prevent depen-

dency on gamblers who might use an athlete's drug use to fix games.

Driesell said the worst scenario develop on his own team a year ago when Bias died of cocaine intoxication two days after being taken in the first round of the NBA draft by the Boston Celtics.

Driesell said he would not be surprised if cocaine had affected the outcome of college basketball games.

"That's not the only reason I'm in favor of drug testing," Driesell said. "The FBI agents I've talked with have said that people who are into cocaine are sitting back, easy targets for gamblers and other criminals. And it's no doubt cocaine is detrimental to an athlete's health, mental and physical well-being."

## Sports In Brief

### Robinson to serve on sub base

ANNAPOLIS, Md. — Top NBA draft prospect David Robinson will report to the Kings Bay, Ga., submarine base June 19 to begin his two years of active duty in the U.S. Naval Reserve, a Naval Academy spokesman says.

Ken Pease announced Monday that Robinson, the 7-foot-1 center, will be assigned to operational duty with a civil engineering corps at the base, 80 miles north of Jacksonville, Fla.

The nearest National Basketball Association city is Atlanta, 240 miles away.

Robinson is expected to be selected by the San Antonio Spurs June 22 as the No. 1 choice in the NBA draft, but San Antonio is 1,000 miles from Kings Bay. Spurs General Manager Bob Bass has said previously that he planned to sign Robinson, who was named Player of the Year in March by The Associated Press.

### Gretzky wins Pearson Award

TORONTO — Wayne Gretzky, star center of the Edmonton Oilers and the most prolific scorer in NHL history, was named winner of the Lester B. Pearson award for an unprecedented fifth time.

The award is voted to the outstanding player in the league by members of the NHL Players' Association.

Gretzky, who previously won the award four years in a row — 1982-85 — led Boston defenseman Ray Bourque in voting by the players. Gretzky received 254 votes to 60 for Bourque.

### Sampson wants free agent status

HOUSTON — Houston Rockets forward Ralph Sampson says since the team has not offered him a contract similar to that of teammate Akeem Olatunju, he will see what he can get as a free agent.

Sampson, completing a 4-year, \$5.5 million contract, said Tuesday he expected a deal similar to the 12-year, \$2.5 million per year contract that Olatunju received last November.

"They agreed to give me the same thing as Akeem," Sampson told KRIV-TV. "We went in and tried to do what was best for Ralph Sampson and the Houston Rockets."

"But they didn't come up to what they said they would, so we'll hit the market with free agency and see what we can get from there."

### Rams deal Redden to Chargers

SAN DIEGO — Los Angeles Rams running back Barry Redden, a former No. 1 draft pick, was traded Tuesday to the San Diego Chargers for running back Buford McGee and two undisclosed future draft choices.

Redden, 26, who is entering his sixth NFL season, has played in the shadow of the Rams' All-Pro running back, Eric Dickerson. Nevertheless, he was the Rams' second-leading rusher and receiver last year.

### Reds send Browning to minors

CINCINNATI — Tom Browning, the Cincinnati Reds' struggling left-handed starter, was demoted to Class AAA Nashville Tuesday night following a 10-3 loss to the San Francisco Giants.

Browning, 27, a 20-game winner as a rookie two years ago, has struggled this season. He's 4-4 with a 7.75 earned run average in 13 starts and one relief appearance.

### Seaver to start against Tidewater

CHICAGO — The New York Mets announced Tuesday that Tom Seaver, who is attempting a major league comeback, will start Thursday night's exhibition game against their Tidewater farm club of the International League.

A Mets' spokesman said it would be up to Seaver to determine how long he pitches, with the possibility being about two or three innings.

"It depends on how comfortable he feels," the spokesman said. "The Mets announced last Saturday they would tender the 43-year-old Seaver a major league contract when he feels he is ready to pitch."

# Injuries plaguing major leagues

By The Associated Press

Don Mattingly, the New York Yankees' first baseman, was placed on the 15-day disabled list with back problems Tuesday, adding to a list that already contained other notable players who have lost time to injury.

The game's top three third basemen: Mike Schmidt of the Philadelphia Phillies, last year's NL MVP, and Boston's Tommie Herr, catcher Tony Pena and rightfielder Jim Lindeman earlier in the season.

Bob Ojeda, who was 18-5 as the New York Mets won the World Series last year plus two other Mets

starters, David Cone and Rick Aguilera, see "reliever" Roger McDowell, who missed the first six weeks after a hernia operation, second baseman Wally Backman, who pulled a hamstring against the Cubs on Monday and catcher Gary Carter, who is suffering from a variety of bruises. That's not counting Dwight Gooden who missed the first two months while undergoing rehabilitation for a

back in the starting lineup Tuesday night, and Brett has been on the list twice, most recently with a knee injury.

Pitcher John Tudor of the St. Louis Cardinals, who was 35-13 in the tabling two stars plus rookie Al Magrane, who was 4-0 after replacing him. The Cards also had to do without starting basemen Tommy Herr, catcher Tony Pena and rightfielder Jim Lindeman earlier in the season.

# Indian trackmen win season finale

Herald photo by Pinto

Completing its dual meet season Tuesday afternoon at Pete Wigren Track, the Manchester High boys' track team routed Rockville High, 97-37. The Indians win up 6-1.

Brian Brophy won three events, setting personal bests in the high jump at 6-foot, 4-inches and the javelin at 170-feet, 4-inches. Ron Smith won the 100, 200 and was on the winning 4 x 100-meter relay for Manchester. Dwayne Albert won

the long jump while Chuck Rose had a personal best of 122-feet, 8-inches in the discus. Dana Dietrie had a fine race in winning the 3200-meter run in 10:30.1.

Todd Lacombe will be Manchester's lone representative at the State Open Meet Saturday at Willow Brook Park in New Britain.

Results:  
400: 1. Smith (M) :25.5. 2. Corv (R) :3. Nugent (M).  
800: 1. Corv (R) :51.4. 2. Albert (M) :3. Chalmers (M).  
1600: 1. Kirtledge (R) :2:02. 2. Toland (M) :3. Rose (R).

## Manchester junior high track squad

Gaia, Heidi Howarth, Meghan Foley, Back row: Coach Stan Bebyn, Michelle Jolly, Meg Berte, Jean Faber, Meredith Phillips, Kristi Dolberger, Kate Stern, Erica DeJoannis, Meg Burns, Kim Luccello, Andi Dodson, Kristen Mahoney, Kristin Trombley, Marianne Loto, Kerri Lindland, Dee Dee Flynn.

## Legion losses

Three unearned runs in the fifth inning proved to be the difference as Wethersfield edged Manchester, 3-1, in American Legion exhibition baseball action Tuesday night at Moriarty Field.

Post 102, 1-1, will serve as host to the four-team Manchester Community College-Legion Invitational Tournament this weekend at MCC's McCormick Field. Rockville will face Westport in the 11:30 a.m. opener on Saturday with Manchester opposing Pawcatuck at 3:30 p.m. in the second half of a doubleheader. The winners and losers meet on Sunday.

Manchester collected six hits, Wethersfield five, but the visitors were beneficiaries of three runs in the fifth on only one hit. Three costly Manchester errors contributed to the Wethersfield runs. Jim Kitscock took the loss in relief of starter Joe Casey.

Arlo Leonard had an RBI triple in the third inning and Jon Lee lashed an RBI double in the sixth for Manchester.

Mike Schmidt  
Mike Schmidt of the Philadelphia Phillies connected for four home runs and a single in an 18-16 victory over the Cubs in 10 innings April 17, 1976, in Wrigley Field, Chicago.

Jess Willard  
Jess Willard won the heavyweight title by knocking out Jack Johnson in the 26th round in Havana in April of 1915. The bout had been scheduled for the unusual distance of 45 rounds.

# FOCUS/Food

It's June... time for eating outdoors, enjoying sunshine and honoring America's dairy farmers and dairy products. Since the first promotion in 1957, "June Dairy Month" has helped educate American consumers hungry for information about dairy foods.

The celebration of this special month has continued around the country with memorable activities and delicious dairy-filled fare. In Wisconsin, America's dairyland, the dairy industry continues as the heartbeat of the land. Wisconsin is the country's largest milk producing state with 75 percent of that milk used to create well-known Wisconsin cheeses.

The art of cheesemaking in Wisconsin began in the early 1800s. It's interesting to note that a woman began the first cheese factory in the state. An enterprising entrepreneur, Anne Pickett made the cheese to sell out of her home. Her production line certainly differed from today's technology because Mrs. Pickett relied solely on her own three cows plus the 10 she rented from her neighbors!

Today, the Wisconsin cheese tradition continues since cheese makers have kept their time-proven art alive. They produce one third of the nation's cheese and provide consumers with more than 200 cheese varieties.

From the familiar Cheddar to a Wisconsin original Brick or Colby, cheese offers a definite nutrition advantage. Everyone needs calcium for strong bones and muscles and dairy products are considered a primary source of dietary calcium. Cheese is one of the best sources of this mineral with most hard cheeses providing about 200 milligrams or one fourth of the U.S. Recommended Daily Allowance (RDA). Look for protein, riboflavin and vitamin A in Wisconsin cheeses as well — the same nutrients found in milk but only in a more concentrated form.

With the celebration of June Dairy Month now in its 51st year, enjoy these dairy-rich recipes from Wisconsin Dairy County Recipes, a cookbook from the Wisconsin Milk Marketing Board. The recipes are authentic favorites gathered from the state's own dairy farm families.

The menu here is designed for lunching in the countryside or a favorite park. Organize a picnic and begin the festivities with Wisconsin Cheese Pockets. Enhanced with the flavors of Wisconsin Mozzarella and Parmesan cheeses, these savory cheese-and-meat filled packets can be made with refrigerated biscuits for a short-crust version.

Two colorful salads dress up this dairy-delightful spread. The Tabouleh-Cheese Salad contains Wisconsin Feta and Swiss (or Brick) for a fiber-rich meal. The Hearty Vegetable Salad, with its fresh greens and vegetables, can easily become a main course with the addition of flavorful cheeses such as Wisconsin Provolone or Gouda.

Don't forget dessert with chewy Farm Cookies plus a favorite yogurt. Extra cookies can be packed in an airtight container and stored for up to six months in the freezer. Or, for a finale with an elegant flair, serve fresh fruits and Wisconsin Brie, Baby Swiss, Provolone and sharp Cheddar.

Interested in more information about Wisconsin cheeses? Contact The Wisconsin Milk Marketing Board, Inc., Consumer Services, 4337 West Beltline Highway, Madison, WI 53711; 608-271-1021.

Wisconsin Dairy County Recipes is a collection of recipes from America's dairyland. Each recipe has been tested in the Better Homes and Gardens® Test Kitchen to ensure a high standard of taste appeal. You'll also find helpful buying, serving and storing information, easy-to-use cooking and fascinating facts about Wisconsin's dairy industry.

Order this 128-page cookbook, with its colorful illustrations, from The Wisconsin Milk Marketing Board for \$4.95. (The cookbook is regularly priced at \$7.95.) Mail check or money order to: Wisconsin Dairy Recipes, Dept. F, P.O. Box 5588, Madison, WI, 53705. Allow four to six weeks for delivery. Offer expires September 30, 1987.

## Wisconsin Cheese Pockets

- 2 to 2 1/2 cups flour
- 1 package active dry yeast
- 1/2 teaspoon salt
- 3/4 cup warm milk (115 to 120 degrees)
- 2 tablespoons cooking oil
- 1 1/2 cups (6 ounces) shredded Wisconsin Mozzarella cheese
- 6 ounces salami, chopped
- 1 small tomato, peeled, seeded and chopped
- 1/3 cup grated Wisconsin Parmesan cheese
- 1 1/2 teaspoons dried sage, crushed
- 1 egg
- 1 teaspoon water

Meanwhile, make filling. In small bowl, combine Mozzarella cheese, salami, tomato and Parmesan cheese. Toss to combine; set aside.

Punch dough down; divide into 6 pieces. Roll each piece into a 7-inch circle; sprinkle each with 1/2 teaspoon crushed sage. Spoon about 1/2 cup filling onto half of each circle. Combine egg and water; brush on outer edges of dough to moisten. Fold circle in half; use tines of a fork to seal edges. Place on greased baking sheet. Prick tops; brush with egg mixture. Bake in 375-degree oven for 20 to 25 minutes or until golden. Remove from baking sheet; cool on wire rack. Makes 6 servings.

Alternate  
2 cans (10 ounces each) canned refrigerator biscuits may be substituted for homemade bread dough. Roll 3 biscuits together to form 7-inch circle. Proceed with recipe directions. Reduce baking time to 15 to 20 minutes.

## Hearty Vegetable Salad

- 4 cups torn fresh spinach
  - 1 can (15 ounces) garbanzo beans, drained
  - 1 cup cauliflower, halved
  - 1 cup cherry tomatoes, halved
  - 1 cup cauliflower florets
  - 1 cup sliced fresh mushrooms
  - 1 small cucumber, sliced
  - 1/2 small red onion, thinly sliced and separated into rings
  - 1/2 cup coarsely chopped walnuts
  - 1 small avocado, peeled and seeded
  - 1 carton (8 ounces) plain yogurt
  - 1/4 cup milk
  - 1 tablespoon honey
  - 1/4 teaspoon garlic salt
  - Milk
- In large bowl, combine spinach, garbanzo beans, tomatoes, cauliflower, mushrooms, cucumber, onion rings and walnuts; cover and chill.
- For dressing, in blender container or food processor bowl, combine avocado, yogurt, 1/4 cup milk, honey and garlic salt. Process until smooth. If necessary, stir in additional milk until of desired consistency; cover and chill.
- Just before serving, pour dressing over vegetable mixture; toss gently to coat. Makes 4 main-dish servings or 8 side-dish servings.

## Tabouleh-Cheese Salad

- 2 cups warm water
  - 1 cup bulgur wheat
  - 1 package (10 ounces) frozen peas, thawed
  - 4 ounces Wisconsin Feta cheese, crumbled
  - 3 ounces Wisconsin Swiss or Brick cheese, cut into julienne strips
  - 1/4 cup cucumber, sliced
  - 2 tablespoons lemon juice
  - 1/2 teaspoon dried dillweed
  - 1/4 teaspoon salt
  - 1 medium tomato, cut into thin wedges
- Pour warm water over bulgur in medium mixing bowl; let stand 1 hour. Drain bulgur well, pressing out excess water.
- Stir in peas, Feta cheese and Swiss or Brick cheese. For dressing, in screw-top jar, combine salad oil, lemon juice, dillweed and salt; cover and shake well. Pour dressing over bulgur mixture; toss gently. Cover and chill for at least 1 hour.
- To pack for picnic, spoon salad into a lettuce-lined airtight container; top with tomato wedges. Makes 4 main-dish servings or 8 side-dish servings.
- Alternate  
2 cups of cooked brown rice or wild rice or barley may be substituted for soaked and drained bulgur.

## Farm Cookies

- 2 cups flour
  - 1 teaspoon baking powder
  - 1 teaspoon baking soda
  - 1/2 teaspoon salt
  - 1 cup butter
  - 3/4 cup packed brown sugar
  - 3/4 cup granulated sugar
  - 2 eggs
  - 1 teaspoon vanilla
  - 2 cups quick-cooking rolled oats
  - 2 cups cornflakes
  - 1 cup flaked coconut
  - 1/2 cup chopped walnuts or pecans
- In small bowl, combine flour, baking powder, baking soda and salt; stir to mix well. Set aside.
- In large bowl, beat butter. Add brown sugar and granulated sugar; beat until fluffy. Beat in eggs and vanilla. Add flour mixture; beat until well combined.
- Stir in rolled oats, cornflakes, coconut and nuts. Roll dough into 1-inch balls. Place balls on an ungreased baking sheet; flatten slightly. Bake in a 375-degree oven for 8 to 10 minutes or until lightly browned. Makes about 60 cookies.

### Wine blend created for Americans

By Boyne Frelund  
The Phoenix Gazette

SCOTTSDALE, Ariz. — Working out of his home here, Harold Bearak did about \$3.3 million in business last year.

His help: wife, Lois, and a secretary, he said.

Plus a dozen employees who live in France.

Bearak is a wine importer and a wine creator. His Le Jardinier wines are a blend of several varieties calculated to appeal to the American taste.

The popularity of Le Jardinier ("The Little Garden") wines testifies that he has the nose that knows. Sales last year came to 283,000 cases in 1977, when the company was new. Bearak imported 4,200 cases.

Bearak and his wife are New Yorkers who moved to Scottsdale in 1978. His company, the French-Sounding Allmar et Cie, had been created a year earlier. Its name, like its wines, is a blend. It is derived from the names of the Bearaks' children, Alicia and Marc, both of them now grown.

Bearak's interest in wines began in 1955, when he started working in his father's liquor store in Forest Hills, N.Y. He bought the business in 1964 and began emphasizing wines rather than liquor.

"I found wines interesting," he said. "A bottle of wine, you could talk to somebody about it."

For two years before he founded Allmar et Cie, he traveled Europe and developed a blend of grapes for the American palate.

"Americans talk dry," he said, "but they want a slight sweetness. It's in France that dry wines really sell."

He produced a tasty, slightly sweet wine by blending several grapes — some very sweet, some very dry and one to bring the rich mixture down to normal table wine.

Unlike vintage wines, which never varies, "It's the same taste year after year," Bearak said.

Bearak runs a simplified operation — no warehouse, no office, no advertising agency, no investors, no annual reports.

His wine is fermented, blended and bottled by a farmers' cooperative in France. "It would have taken a couple of million dollars to build our own plant," he said.

Twice a year, Bearak visits France "to keep up friendships" and to thank those who've helped him.

### Hunting for more mushrooms

SOUTH BEND, Ind. (AP) — Morel mushrooms, the delicately flavored fungus that propels devotees to fits of ecstasy and even death, have been popping up in record numbers this spring.

The morel's "mound-shaped head, mounted on a pale stalk, appears during an only too brief period in spring. A reddish-brown variety can be found in northern Indiana, while gray morels and a yellow deep woods cousin are more common.

Its rarity makes the morel almost unavailable commercially and all morels are prized by stalkers.

"This is the biggest year in memory I'm the oldest Judge in Indiana," says Brown Circuit Court Judge Samuel Rosen.

The 76-year-old Rosen is author of "A Judge Judges Mushrooms," a guide to the variety of mushrooms that may be found in Indiana.

Rosen, county developer and organizer of the annual Mansfield Mushroom Hunt.

That's not to imply roams of morels spread toward the horizon like a Hoover corn crop. Morel stalks don't talk about harvesting the elusive mushrooms or even gathering them. The word is "hunt" and the watchword is "secracy."

"If you see someone with a nice mess of mushrooms and you ask them, where'd you find them, they're not going to tell you," says Frank Hutcheson, a Putnam County developer and organizer of the annual Mansfield Mushroom Hunt.

The two-day mushroom hunt marks the beginning of the morel season but only the beginning of the morel hunters' tall-tale season. "They lie a lot, like fishermen," Hutcheson explains. "After they take them home, clean them and eat them, they tend to grow."

When stung on the stalk, discoverable morels range from 2 inches in height to sizes approaching last year's Mansfield Mushroom Hunt winner of 10.5 inches. That grand champion was worth \$25 to its finder, Hutcheson said.

Those who gather quantities of shorter mushrooms can profit, too. Just ask the fellow who brought in 24 ounces and walked away with the 1986 Mansfield prize for most prolific picker. "He hadn't walked 10 feet when somebody said 'I'll give you \$20 for that bag of mushrooms,'" Hutcheson said.

Linda Bride of North Main Street shows her easy-but-spectacular fruit trifle.

### Your Neighbor's Kitchen

### Almost anything uses fresh fruit

By Nancy Pappas  
Herald Reporter

Some might call Linda Bride a bit of a fruit.

That's because this North Main Street resident will put fruit into just about anything she prepares. Into her tossed salads, go the standard greens, cucumbers and carrots. Then come pieces of green apples, grapes and strawberries, in season.

"My sister really hates it. She can't believe what I put into salads," said Bride, without a hint of an apology in her voice. On the other hand, her husband, Tom, and 4-year-old Derek, really enjoy mom's salads. "You never know when you'll find that salad bowl," Bride said.

Bride's cooking took a fruity turn after she let her parents' home. "We ate pretty much Italian food," Bride said. "I had to cook a lot at home, and I still make a really good lasagna."

With Derek and his baby brother to look out for simple recipes which give spectacular results. Two of her favorites are fresh fruit trifle and blueberry-biscuit pie.

**Fresh fruit trifle**  
1 box angel food cake mix  
2 4-ounce boxes instant vanilla pudding  
6 fresh peaches  
1 quart fresh strawberries  
1 1/2 cups custard, vanilla  
Whipped cream, non-dairy

Prepare the angel food cake batter according to the package directions, but bake it in a 13-by-9-inch pan. Reduce the baking time by at least one-third. Cool the cake.

Meanwhile, prepare the vanilla pudding, slice peaches and hull strawberries. Rip about half of the cake into the bottom of a large glass bowl. Top with half the pudding, half the peaches and half the strawberries. Spoon over half the whipped cream.

Repeat the procedure with the rest of the ingredients. On the last layer of the pudding, place a few strawberries and peach slices. In a decorative fashion.

Chill for several hours. Serves 12.

**Blueberry-biscuit pie**  
1 cup dry biscuit mix  
1/2 cup margarine  
1 1/2 cups boiling water  
8 cups blueberries (buy 2 pints)  
1/2 cup water  
1 cup sugar  
3/4 cup cornstarch  
Whipped cream (if desired)

Combine biscuit mix, margarine and boiling water. Stir until it forms a dough ball, then knead for a few minutes. Press out into a rough circle with your hands, then fit into a 9-inch pan. Don't worry if it looks awful.

Prick in several places with the tines of a fork and bake for 10 minutes in a preheated 450-degree oven. Cool in the pan.

In a medium saucepan, combine 2 cups of blueberries with the water, sugar and cornstarch. Stir to dissolve cornstarch completely. Bring to the boil and boil until blueberries are tender and cornstarch has thickened sauce.

Four remaining blueberries into biscuit shell. Pour cooled sauce on top. Chill for several hours. Top with whipped cream, if desired. Serves six to eight.

**Another health benefit in vegetables is fiber, which adds bulk to the diet, and provides good exercise and cleaning effect for gums and teeth, nutritionists note.**

For a good snack that offers fiber for the diet, try raw vegetables such as cabbage, broccoli and cauliflower.

Vegetables are naturally low in calories. Serve them with herbs and spices instead of high-calorie sauces. For an interesting touch in

### Supermarket Shopper

## Inexperience can mean mishandling of refunds

By Martin Sloane  
United Feature Syndicate

There are an increasing number of refund and rebate offers on items other than those found in supermarkets. Many hardware stores, home centers and garden-supply stores now have bulletin boards just for rebate forms. But a lot of the promotional rebates being offered come from companies that have little experience making these offers, and this inexperience can lead to problems, as the following letter shows.

**DEAR MARTIN:** This past June, I sent for a \$5 rebate on Lilly-Miller garden chemicals. I still had not received the rebate in October, so I wrote to the manufacturer, the Charles H. Miller Co., in care of its fulfillment agent, ACS Marketing Services, at the address I had used to send for the rebate. It is nearly a year later, and I have received no rebate offer you sent for, but said she could not send you your rebate because Lilly-Miller products were only sold in a limited number of states.

**DEAR MARJ:** We called the Charles Miller Co. in Portland, Ore., and spoke with Claudia Grath in customer relations. She confirmed that the company had made the rebate offer you sent for, but said she could not send you your rebate because Lilly-Miller products were only sold in a limited number of states.

We asked whether the rebate form had contained any printed restriction limiting the rebate to residents of those states. She admitted that it had not. She added that it was not necessary to include that restriction since the rebate offer was only made in areas where their garden-chemical products were sold.

We asked Grath a hypothetical question: What if a resident of another state, Idaho for instance, purchased the products in California then sent for the rebate from his or her Idaho address?

Grath responded that it was illegal for her company to send a rebate to a consumer who did not reside in the area in which the products were sold. We asked Grath what law she was talking about, but she couldn't say.

She did know that out-of-area residents had sent for garden-chemical rebates and they had not received them. Those out-of-area rebate requests have been largely ignored.

Are consumers helpless in situations like that? Not necessarily. Inaction is the first step-up should be a letter addressed directly to the company. They should not be sent, as Marj's letter was, to the fulfillment agent. ACS Marketing Services is just a fulfillment agent. Chances are the letter was not forwarded to the Miller Co.

The next place to turn is to the post office. The offer had specified

required, at the very least, to promptly respond to all consumer correspondence relating to promotional offers. We would also like to know that manufacturers who reject consumer requests for refunds or rebates return the proofs of purchase.

Send questions and comments to Martin Sloane in care of the Manchester Herald. The use of mail precludes individual replies to every letter, but Sloane will respond to letters of general interest in the column.

### Clip 'n' file refunds

**Health Products (File 11A)**  
Clip out this file and keep it with similar cash-off coupons — beverage refund offers with beverage coupons, for example. Start collecting the needed proofs of purchase while looking for the required forms at the supermarket, in newspapers and magazines, and when trading with friends. Offers may not be available in all areas of the country. Allow 10 weeks to receive each refund.

**This offer doesn't require a refund form:**  
Cough-Cold & Sore Throat \$1 Refund Offer, P.O. Box 78926, New Augusta, IN 46365. Send the Universal Product Code symbol from any size Revitalize product or Cepastat Lozenges or Cepacol Lozenges carton, and print your name, address and date of purchase on a piece of paper. Expires June 30, 1987.

**These offers require refund forms:**  
B&N Solid-Roll-On \$1.50 Refund Offer. Send the required refund form and the bottom label of the carton showing the

**Universal Product Code number from one 3-ounce Bon Solid or 2.5-ounce Bon Roll-On (any scent), along with the cash-register receipt with the purchase price circled. Expires July 31, 1987.**

**BUFFERIN \$2.50 Refund Offer.** Send the required refund form and the Universal Product Code panel from one package of Bufferin or Extra Strength Bufferin Tablets or Capsofen (any size except trial size), along with the cash-register receipt with the purchase price circled. Expires July 31, 1987.

**TYLENOL Free Health Book Offer.** Receive a Women's Health Book. Send the required refund form, along with the cash-register receipt with the purchase price circled. Expires June 30, 1987.

**NUPRIN \$2 Refund Offer.** Send the required refund form and the entire Universal Product Code symbol from a Nuprin 1500 carton, along with the cash-register receipt with the purchase price circled. Expires July 31, 1987.

that consumers use the U.S. mail to send for the rebate. A manufacturer who makes an offer to consumers using the U.S. mail and then does not fulfill the offer may be guilty of mail fraud. A mail fraud complaint may get action from the manufacturer, but it really does not get to the heart of this type of problem, because companies like Miller don't make the offer with the intent to defraud consumers.

Marj's problem shows there is a need for some new legislation directed at this problem specifically. Manufacturers should be

required, at the very least, to promptly respond to all consumer correspondence relating to promotional offers. We would also like to know that manufacturers who reject consumer requests for refunds or rebates return the proofs of purchase.

Send questions and comments to Martin Sloane in care of the Manchester Herald. The use of mail precludes individual replies to every letter, but Sloane will respond to letters of general interest in the column.

### Delicious strawberries wait in springtime abundance

Berry good microwave is in store for you with this season's supply of lovely fresh strawberries. Now on the market, from local growers, are juicy, delicious strawberries waiting for you in springtime abundance.

Strawberries are not only a treat to eat, they are good for you. Fresh strawberries contain a generous amount of both vitamin A and vitamin C. One cup of fresh strawberries is only 55 calories; no calories plain. They are a dieter's delight.

Storage of fresh strawberries in the refrigerator is essential to preserve their freshness and texture. Strawberries should be washed soon after picking; the excess water removed by patting dry with paper towels. Leave the green hull in place until ready to prepare for use. This helps avoid bruising and the loss of juice. Strawberries are best refrigerated in large flat containers that allow for a single layer.

Frozen strawberries are available year round and can be purchased sliced and sweetened in 10 or 16 ounce packages. To defrost strawberries packaged in cardboard cartons with metal ends, remove one of the lids. Microwave opened package on 30 percent (medium-low) power for 1 to 1 1/2 minutes. The block of strawberries can then be easily removed to a 1-quart utensil for completion of the defrosting.

Cover and continue to microwave on 30 percent power for 4 or 5 minutes for a 10-ounce package and 6 to 7 minutes for a 16-ounce package. Stir strawberries midway through defrosting to break up fruit and rearrange.

Frozen strawberries that will be cooked can be defrosted on high power, allowing 2 to 3 minutes for a 10-ounce package. A 16-ounce package of strawberries yields 1 1/2 cups of berries in syrup.

This week's column features a variety of strawberries that are sure to please your family or guests. Strawberries in Grand Mariner is a treat you'll want to try. Fresh strawberry pie is a classic

and favorite of the whole family. Strawberry trifle is a microwave adaptation of the English dessert which will bring a touch of elegance to any occasion. For a cool summer salad, strawberries in snow will delight the most jaded appetite. Just to make the strawberry season last a little bit longer, strawberry freezer jam is the answer. The fresher taste of the season's best strawberries can be enjoyed for breakfast or for a dessert topping.

**Strawberries Grand Mariner**  
1 quart fresh strawberries  
3 tablespoons butter  
1 teaspoon orange extract  
30 Ritz crackers, crushed (1 1/4 cups)  
1/4 cup packed light brown sugar  
2 cups whipped topping  
2 tablespoons Grand Mariner liqueur  
Wash and hull berries. Place berries stem end down in a single layer on the bottom of a 9-inch square microwave layer cake pan. Place butter in a 4-cup glass measure and microwave on high for 45 seconds, or until melted. Cover berries with crumbs mixture and microwave on high for 4 to 5 minutes, rotating the dish midway through cooking. Serve warm with whipped topping to which 2 tablespoons of Grand Mariner has been added. Yields 4 to 6 servings.

**Strawberry trifle**  
1 package (4 1/2 ounces) golden egg custard mix  
3 cups milk  
1/2 cup orange flavor extract  
1/4 teaspoon dried orange peel  
8 sponge cake dessert cups (1 ounce each)  
1 cup orange flavor liqueur  
1/4 cup orange marmalade  
4 cups fresh strawberries  
2 cups whipped topping

To garnish: Additional whipped topping  
5 or 10 whole fresh strawberries  
Empty egg custard into a 2-quart mixing bowl, gradually add milk, mixing well. Microwave, uncovered all power for 5 minutes, or until mixture comes to a boil, stirring once; mixture will be thin. Stir in orange extract and orange peel. Refrigerate only 15 minutes. Arrange half of the sponge dessert cakes in a large glass bowl. Drizzle each all over with a fork. Drizzle with half of the orange flavor liqueur. Spread with half of the orange marmalade. Pour half of the custard sauce over strawberries, being sure that part of the custard flows through cake layer. Repeat layers of cake, liqueur, marmalade, strawberries and custard sauce. Spread top with first amount of whipped topping. Refrigerate for several hours. Garnish with additional whipped topping and whole fresh strawberries. Just before serving, Yields 8 to 10 servings.

**Fresh strawberry pie**  
Microwave 9-inch pastry shell, cooled  
1 1/2 cups strawberries  
5 to 6 cups fresh strawberries  
2 tablespoons Grand Mariner liqueur  
1/2 cup orange marmalade  
Whipped cream or whipped top.

To garnish: Additional whipped topping  
5 or 10 whole fresh strawberries  
Empty egg custard into a 2-quart mixing bowl, gradually add milk, mixing well. Microwave, uncovered all power for 5 minutes, or until mixture comes to a boil, stirring once; mixture will be thin. Stir in orange extract and orange peel. Refrigerate only 15 minutes. Arrange half of the sponge dessert cakes in a large glass bowl. Drizzle each all over with a fork. Drizzle with half of the orange flavor liqueur. Spread with half of the orange marmalade. Pour half of the custard sauce over strawberries, being sure that part of the custard flows through cake layer. Repeat layers of cake, liqueur, marmalade, strawberries and custard sauce. Spread top with first amount of whipped topping. Refrigerate for several hours. Garnish with additional whipped topping and whole fresh strawberries. Just before serving, Yields 8 to 10 servings.

**Strawberry freezer jam**  
1 jar (16 1/2 ounces) strawberry jelly  
One 4 1/2 cup strawberry liqueur  
1 tablespoon fresh squeezed lemon juice  
1 tablespoon cornstarch  
2 tablespoons water  
Place jelly, liqueur and lemon juice in a 1 quart glass measuring cup. Microwave at high for 2 to 3 minutes, or until jelly melts, stirring once. In a small bowl, combine cornstarch and water; stir until smooth. Stir into jelly mixture. Microwave at high for 2 to 3 minutes, or until thickened and bubbly, stirring 2 times. Mixture should be thick and clear. Cool to room temperature before using on berries for jelly.

**Strawberries in snow**  
1 1/2 cups water  
2 envelopes unflavored gelatin  
1/4 cup sugar  
3 cups sugar  
1 package (1 1/2 ounce) powdered pectin

Crush strawberries to yield 3 cups pulp, adding water if necessary. Stir in sugar. In a 4-cup measure, combine water and pectin. Microwave on high for 2 to 3 minutes, or until mixture boils. Stir and microwave on high for 1 minute. (Watch mixture and decrease power if it approaches a boil over.) Stir in hot pectin into fruit mixture and continue stirring for 3 minutes and continue stirring for 3 minutes. Pour into sterilized jars, cover and let stand for 24 hours at room temperature to set. Freeze or refrigerate. Keeps in the refrigerator for 3 weeks. Yields 7 jars of 8 ounces each.

Hint: don't make a double batch of freezer jam since a duplication of the amount could result in a massive boil-over in your microwave.

## Variables make it difficult to figure car-operating cost

**QUESTION:** How much does it cost you, on average, to own and operate your car?

**ANSWER:** How high is up? What does it cost to build a bridge? There are so many variables, it's next to impossible to set an accurate average unless you keep close records.

Understanding the variables, though, can help you save money on what you do spend to run your auto. Assume you are a typical new-car-buying family purchasing an average new compact-sized model, driving it an average 10,000 miles a year, and planning to keep it a normal five years. If so, you can come a little closer to answering the average-cost question. The *Forbes* Corp., which issues yearly reports on such matters, says the national figure is 46 cents a mile — or \$4.60 a year.

That doesn't include parking and tolls, which in some places might add to costs to 40 cents a mile to the total. What's more, 46.48 cents is a nationwide norm; the figure jumps to 65 cents a mile for those who drive 10,000 miles and keep five years in Los Angeles. And if you're driving a full-size model there, rather than a compact, raise the estimate to 82.17 cents a mile.

In Los Angeles is the costliest of 20 major cities Hertz keeps tab on. That's roughly the average for a new car in its first five years. But that average includes traveling salesman, police cars and taxicabs. Your own mileage could be less or more.

Also, we've been brainwashed by the Internal Revenue Service and our employers to think "cents-per-mile." But, our real savings come in dollars per year. And car costs come in two types: the so-called "fixed" expenses that stay about the same each year no matter how far we drive, and the variable costs which we pay only if we go.

This means that the less you drive, the smaller the number you use to divide those annual fixed expenses to get your cents-per-mile cost. So, the more your cents-per-mile cost, the more you pay for your car. For example, with the typical five-year compact car-use period, a driver running just 5,000 miles a year will average 92.96 cents a mile, not 46.48 cents a 10,000-mile-a-year driver pays. But a 5,000-mile-a-year driver spends only \$4,648, not \$4,648. While a 20,000-mile-a-year driver lays out just 20.29 cents a mile, his yearly average shoot-up, to an estimated \$6,078.

How long do you plan to keep your car? With that typical compact figure of 10,000 miles a year, if you trade every year, rather than every five, Hertz estimates your average at 58.99 cents a mile. And if you keep that buggy 10 years, your outlays drop to 37.71 cents. The longer you keep a car, the lower its yearly depreciation. A full-size car traded annually is estimated to cost 77.81 cents a mile while a subcompact kept 10 years should average 33.1 cents. That's a saving of \$4,371 annually, \$48,716 in a decade.

We've been estimating 10,000 miles a year of driving because that's roughly the average for a new car in its first five years. But that average includes traveling salesman, police cars and taxicabs. Your own mileage could be less or more.

Also, we've been brainwashed by the Internal Revenue Service and our employers to think "cents-per-mile." But, our real savings come in dollars per year. And car costs come in two types: the so-called "fixed" expenses that stay about the same each year no matter how far we drive, and the variable costs which we pay only if we go.

Sylvia Porter

There are other variable besides car size and location such as parking and tolls. In my area in Westchester County, there is a long stretch of magnificent highway underutilized by my toll gates. On other roads which I travel to and from my house in the country, tolls are a frequent nuisance as well as an expense which keeps piling up to more than nuisance levels. Surely you have had, or now have, the same experience. The *Forbes* Corp., which issues yearly reports on such matters, says the national figure is 46 cents a mile — or \$4.60 a year.

That doesn't include parking and tolls, which in some places might add to costs to 40 cents a mile to the total. ### Advice

## Some like Mother's Days, but this mom is just mad

DEAR ABBY:

Another Mother's Day has passed, and I think the good Lord is over How I detest that day! All the singles, celibates and childless women have to go along with all the fanfare of Mother's Day.

Of course, for some mothers it's wonderful. But on the other hand you skip work and do the best you can for these wee dolls, and as soon as they are able to pay board and room, they move out and into their own apartment, house or shack.

The years pass, and if you're lucky you get a plant or a fancy greeting card to remind you that you are a mother. And in between Mother's Days, you are lucky to get a phone call — forget an invitation for a meal.

"Throw a few crumbs my way." I think to myself. Well, this year I checked Mother's Day. My husband and I went to the park and watched the monkeys, the seals and porpoises.

Thank you for listening. PHOEOY ON MOTHER'S DAY

DEAR PHOEOY: Don't let those sentimental holidays get you down. I think Mother's Day was dreamed up by the merchants at Fortis and Bell Telephone. In our house, every day is Mother's Day. Father's Day, Christmas and Thanksgiving because we have our health and each other.

### Dear Abby

Abigail Van Buren

DEAR ABBY: I have one for you: I would like to know when and how a "house" becomes a "home." — I.e. "She bought a home," or "Home building is increasing," etc.

A house used to be a house. I have at least a dozen friends who live in elegant apartment buildings, and they all say, "Oh, no I don't live in a house. — I live in a building!" Abs, isn't that the person's home?

The word "house" has almost disappeared from us. Why? ANONYMOUS IN CLEVELAND

DEAR ANONYMOUS: By definition, a "house" is a structure designed for a residential purpose. A builder erects a house, but the occupants make a house a "home" by living in it — adding furniture, children, pets, etc.

Also, a "home" could be a nursing home, a home for unwed mothers, a funeral home, an orphanage, a rest home, a place where you have nowhere to go. A house can be a "house of ill repute," a boardinghouse, a honkey-tonk, a gambling house, a publishing house, or it could refer to the audience in a theater or concert hall there was a good "house" (an opening night).

Problems? Write to Abby. For a personal, unpublished reply, send a self-addressed, stamped envelope to Abby, P.O. Box 69448, Los Angeles, CA 90068. All correspondence is confidential.

DEAR DR. GOTT: I am receiving from a cerebral aneurysm. What are the symptoms, causes, prognosis and chances of a recurrence?

DEAR READER: An aneurysm is a weakened portion of an artery. When an aneurysm forms, the pressure of the blood within the artery forces the wall to balloon out and become thin. Blood can then leak out through the arterial wall and cause bruising of and damage to surrounding structures.

Sometimes an aneurysm will burst, releasing large quantities of blood. Depending on the size of the artery and the extent of the rupture, serious consequences can result. For example, rupture of an aortic aneurysm can be fatal.

Berry aneurysms — so called because they resemble berry-like protruberances on a bush — often form in the walls of the blood vessels to the brain. When a berry aneurysm bursts, a type of stroke takes place in which the patient loses speech, coordination or muscle movement in a part of the body. Sometimes the aneurysm must be surgically repaired to prevent increasing harm to nerve tissues. However, in many cases, the perforated artery seals and, with

time, the body heals whatever damage may have occurred. Unfortunately, berry aneurysms tend to occur in clusters, rather than singly; therefore, once a patient has had a cerebral (brain) aneurysm, he or she is at greater risk of surrounding structures.

Doctors do not understand the cause of most aneurysms. Hence, treatment is largely supportive, rather than preventive. There is a major exception to this rule: hypertension. High blood pressure increases the frequency and seriousness of aneurysms. This is one reason that physicians are so eager to treat this common condition, the silent killer. Hypertension often produces no symptoms while the high pressure is damaging both the heart and arteries. Cerebral aneurysm and stroke may be the first sign — and a disastrous one at that. Sometimes the aneurysm must be surgically repaired to prevent increasing harm to nerve tissues. However, in many cases, the perforated artery seals and, with

# BUSINESS

## Business In Brief

### Spindell starts medical practice

GLASTONBURY — David K. Spindell, M.D., has opened an office for the practice of internal medicine at 124 Hebron Ave. Spindell received a bachelor's degree from Princeton University in 1980 and an M.D. degree from State University of New York, Downstate Medical School, in 1984. He was inducted into the Alpha Omega Alpha Medical Honor Society in 1983 and has completed a year of internship and two years of medical residency at Hartford Hospital.

### Yankee Branch rated excellent

The Yankee Branch #163 of Manchester has earned Lutheran Brotherhood's "excellence" rating for its 1986 fraternal activity. The "excellence" rating honors Lutheran Brotherhood branches (volunteer groups organized for service and fellowship) for their outstanding service and management.

David Spindell

The Lutheran Brotherhood district representatives serving the Yankee Branch #163 as fraternal branch consultants are Randall R. Hall and Scott Schneider. They are associated with Lutheran Brotherhood's Bernard Johnson Agency, based in Manchester.

### Mortgage firm appoints infant

First Union Mortgage Corp., the nation's ninth largest mortgage banking firm, has appointed Frank Infante to the position of loan originator in its new Glastonbury residential production office.

### Airline competition spurs review

WASHINGTON — Members of the House are beginning to consider legislation that would protect air travelers from poor airline service, but first they are learning how cutthroat competition can be among the carriers.

### Bank fraud called an epidemic

WASHINGTON — Fraud and embezzlement in the banking industry has reached epidemic proportions in some areas, key congressmen say, with losses last year estimated at \$1.1 billion by the FBI.

### Sprint leases Kansas City building

KANSAS CITY, Mo. — US Sprint Communications Co. has signed a five-year contract on a new headquarters building in south Kansas City.

### Allegis' chairman steps down in shake-up

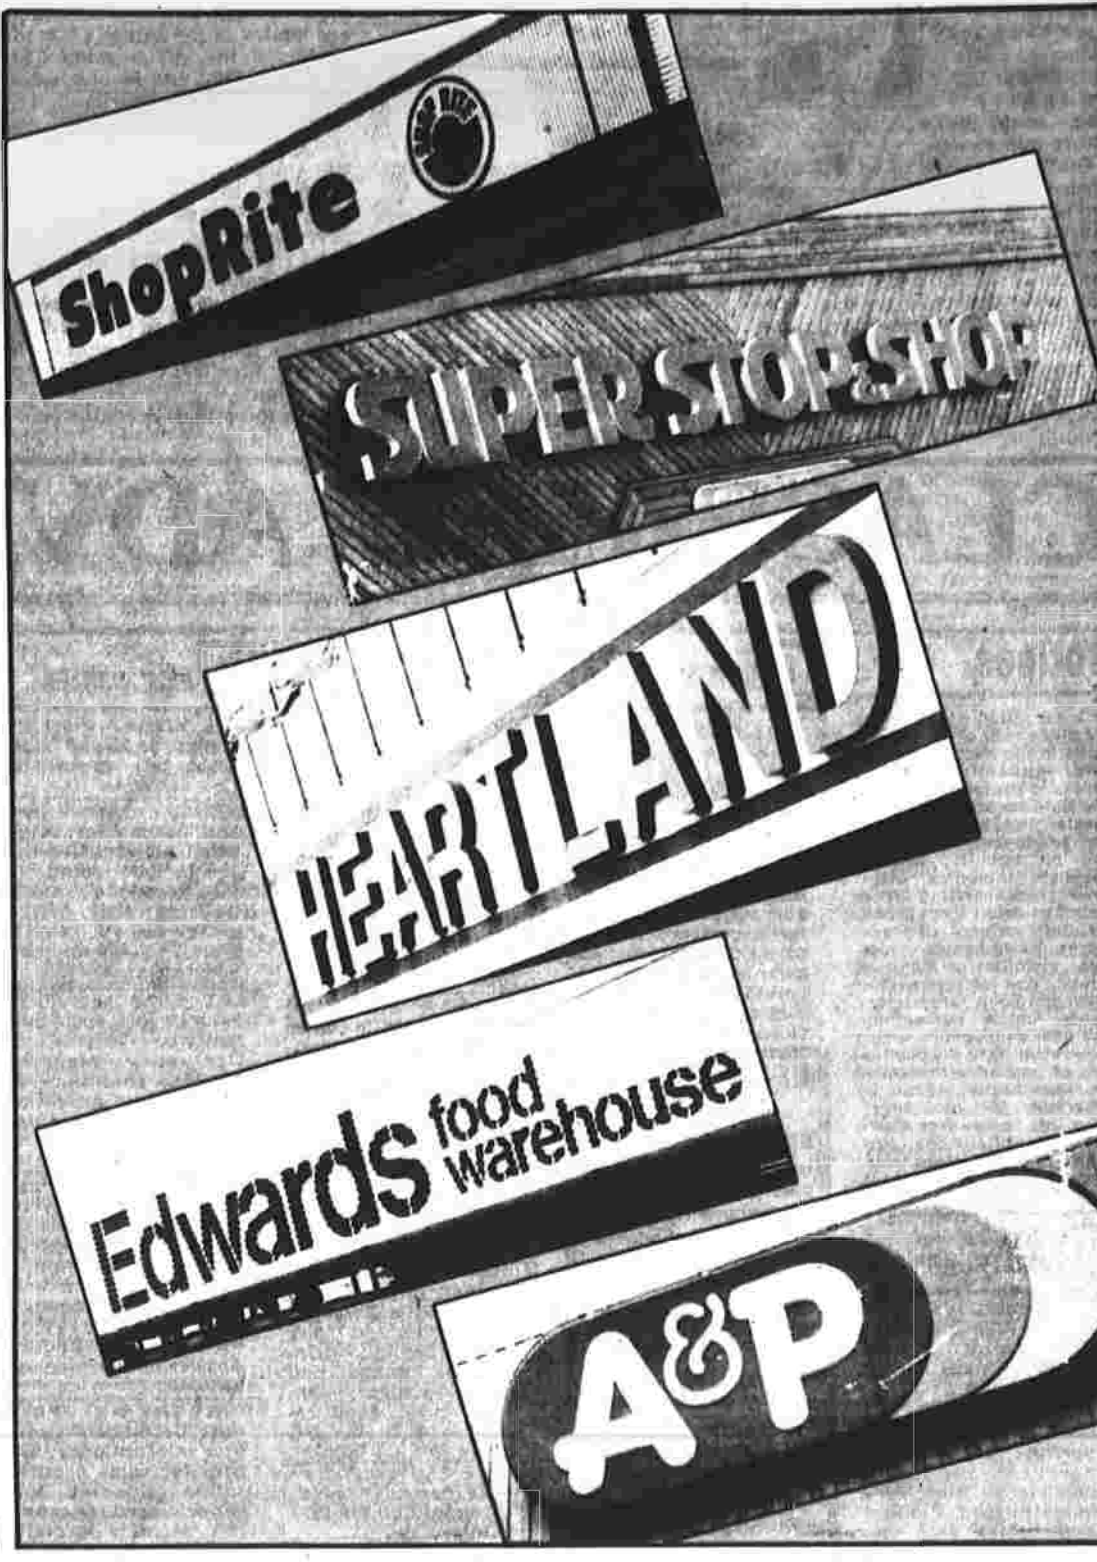

By F. N. D'Alesio  
The Associated Press  
CHICAGO — Allegis Corp., the parent of United Airlines, announced the resignation of its chairman and may shed its Hertz, Westin and Hilton divisions in a move that could return it to the business of running an airline.

# Heartland ready to do battle

## Grocers face new competition

By John F. Kirch  
Herald Reporter

Priscilla Sandford parked in the Super Heartland parking lot recently with her friend, Audrey Dinse, loading groceries into the trunk of her car.

"This is a wonderful store," Sandford said. "It is going to be convenient for me."

IT'S TOO EARLY to tell how the store is doing, industry analysts say. But one thing is for sure. Heartland will steal business from Manchester's other major markets.

Shop. A&P and Edwards warehouse — appear healthy enough to compete.

ANALYSTS SAID other stores will push their strong points and may begin offering special offers — like extended check cashing policies, more double coupons, sales and more services.

Just a little.
