Manchester Herald

Tuesday, Jan. 10, 1989 Manchester, Conn. — A City of Village Charm 30 Cents

Budget plan for schools will be cut

By Andrew J. Davis Manchester Herald School Superintendent James P. Kennedy is proposing a \$40 million budget for the next fiscal year — a nearly 13 percent increase that school board members say must be trimmed.

SWEPT AWAY — Howard Smith of Storrs sweeps the sidewalk at Turnpike Plaza West on West Middle Turnpike this morning. Smith is a maintenance employee for Jarvis Realty.

Directors may slash school plan

Four members of the town Board of Directors said today that cuts in School Superintendent James P. Kennedy's \$40 million budget proposal will be necessary because a state budget deficit may cut local aid.

Reagan would cut deposit insurance

WASHINGTON — The Reagan administration today recommended curtailing deposit insurance for bank and savings accounts and said the public will have to bear much of the estimated \$100 billion cost of restoring the S&L industry to health.

Local bankers criticize lower limits

Two Manchester bankers today criticized a proposal by the Reagan Administration to lower the \$100,000 federal insurance limit on bank deposits.

Testing, caution best protection against lead poisoning dangers

Editor's note: This is the second in a three-part series on lead levels in toys, which are already causing concern that children can protect themselves from this health threat.

New House leaders can now look ahead

HARTFORD — Now that they've finished appointing House leaders and committee chairmen, House Speaker Richard J. Balducci and Majority Leader Robert F. Frankel are looking ahead, trying to put behind them the bruising battle that ousted Irving J. Stober as speaker.

MANCHESTER'S USED CAR DEALER. A large advertisement listing various car models and prices, including Dodge, Honda, Ford, and Buick.

MORIARY BROTHERS. A business advertisement for Moriary Brothers, located at 301-313 Center Street, Manchester, CT, with phone number 643-5135.

RECORD

About Town

Pinocle scores announced

The following are the scores of the Manchester Senior Pinocle Club game played Thursday at the Army and Navy Club. The next game is scheduled for Thursday at 9:30 and is open to all senior members.

John Klein, 625; Hans Fredericksen, 617; Ann Fisher, 616; Herb Laquerre, 596; Andre Mohr, 589; Sam Schors, 582; Ed Scott, 581; Geri McKay, 578; Floyd Post, 576; and Arline Paquin, 565.

VBAC group to meet

The Vaginal Birth After Caesarean (VBAC) information group will meet Thursday at 7 p.m. on Slocum Road, Hebron.

The meetings are open to the public and provide support and information to couples who have had a Caesarean birth experience and wish to have a natural birth the next time.

The group also offers a list of VBAC participating physicians and midwives, pamphlets and a lending library of books and cassette tapes.

For more information call Bea Arzt, 228-0366 or Nancy Hinchee, 376-5864.

Blood drives planned

Connecticut Valley East Branch, Greater Hartford Chapter of the American Red Cross has scheduled several blood drives for the month of January.

On Tuesday, Jan. 17, the bloodmobile will be at Concordia Lutheran Church, Pitkin Street, from 2 to 7 p.m.; Friday, Jan. 20, Manchester Memorial Hospital, Haynes Street, 10 a.m. to 4 p.m.

Winter dance set

Manchester Friends of Soccer will sponsor the group's second annual winter dance Saturday, Jan. 21 from 8 p.m. to midnight at the Knights of Columbus Hall, 138 Main St.

Those attending should bring their own liquid refreshments. Music will be provided by Record Revolver. For more information call Greg Barbat, 647-9001 or any member of the Booster Club.

Ski trip scheduled

The Manchester Recreation Department is offering a ski trip at 854 Sundaev on Friday, Jan. 20, a no school day.

The trip is open to students in Grades 7 through 9. The bus will leave from Highland Park School at 8 a.m. and return to the school about 6 p.m.

Those interested must register by Friday, Jan. 13 at the recreation office in Highland Park School. The office is open Monday through Friday from 8:30 a.m. to 4:30 p.m. and 6 to 9 p.m.

Ski packages are available and they include transportation costs. It's \$22 for the lift ticket only, \$36 for lift ticket and rentals, and \$50 for lift ticket, rentals and 1 1/2 hour lesson. For first-time skiers it's \$55 for lessons, rentals and sunnyside lifts.

Children will be supervised on the slopes. Children should bring extra money for lunch and snacks. For more information call 647-3089.

Blood screening set

Manchester Memorial Hospital will sponsor a blood cholesterol check the second Thursday of each month from 3:30 to 6:30 p.m., starting Jan. 12.

The hospital will keep track of blood cholesterol levels with the ongoing HealthSource Cholesterol Challenge. The \$7 fee per screening includes the finger stick test, immediate results, low-cholesterol diet materials and counseling with a registered dietitian. Other health risk appraisals will also be available.

To register for Thursday's session call the Community Health Education department at the hospital, 647-6600 or 643-1223.

Attention, singers

Further auditions for the Manchester Gilbert & Sullivan Company's production of "Mikado" will be held Wednesday from 7 to 10 p.m. at the Burton Dance Studio, 63 Linden St. Singers of all vocal parts, actors and dancers are welcome. No audition is required. For further information, call 538-8595.

Braile calendars available

Free 1989 Braille calendars are available from the National Federation of the Blind of Connecticut, 135 Burnside Ave., A-2, East Hartford. For more information, call 289-1971.

Lottery

Winning numbers drawn Monday in lotteries around New England:

Connecticut daily: 513. Play Four: 5719. Massachusetts daily: 0522. Tri-state daily: 985, 7261. Rhode Island daily: 4431.

Weather

Mostly sunny. Chilly tonight with a low of 15 to 20. Wind light and westerly. Mostly sunny Wednesday with a high 50 to 55. Outlook for Thursday becoming cloudy with a chance of snow. High near 30 to 35.

West Coastal, East Coastal: Cloudy tonight with the low of 15 to 20. Winds becoming west. Mostly sunny on Wednesday with a high 35 to 40. Outlook for Thursday becoming cloudy with a chance of snow, high in the mid 30s.

Northwest Hills: Mostly cloudy tonight, lows in the teens. Winds becoming northwest. Mostly sunny Wednesday with a high near 30.

Today's weather picture was drawn by Peter Grady, 9, a fourth-grader at Washington School.

Obituaries

Mabel Painchaud

Mabel Painchaud, 69, of Enfield, sister of Anita Lajeunesse of Manchester, died Sunday (Jan. 8, 1989) at Manchester Memorial Hospital.

Besides her sister, she is survived by a son, Ronald Painchaud of Union, N.J.; a grandson; and a niece and nephew.

The funeral will be Wednesday at 9:15 a.m. from the Browne Funeral Home, 121 Pearl St., Enfield, followed by a Mass of Christian burial at 10 a.m. in St. Martha's Church, West Hartford.

Memorial donations may be made to the Pelican Sisters Infirmary, 1315 Enfield St., Enfield 06022.

Dr. Thomas Carey

Dr. Thomas B. Carey, 76, formerly of West Hartford, father of Thomas B. Carey Jr. of Bolton, died Saturday (Jan. 7, 1989) in Boynton Beach, Fla.

Besides his son, he is survived by his wife, Shirley B. Carey; two daughters, Elizabeth C. Sacco of Simsbury and Margaret B. Carey of Harwinton; a sister, Virginia Budda of West Hartford; a brother, Robert E. Carey of Naantic; and five grandchildren.

A funeral Mass will be held Friday at 10 a.m. in St. Thomas the Apostle Church, West Hartford. Burial will be in Mount St. Benedict Cemetery, Bloomfield.

Memorial donations may be made to the American Lung Association.

Deaths Elsewhere

Kenneth McMillan

SANTA MONICA, Calif. (AP) — Kenneth McMillan, a veteran character actor who played a variety of roles in television movies and plays on and off Broadway, died Sunday of liver failure at age 56.

McMillan appeared on Broadway in the original production of "Who's Afraid of Virginia Woolf?" in 1962. It won the Tony award for best play the following year. Among Barr's other successes were "The Boys in the Band" in 1968 and "Sweeney Todd," the Stephen Sondheim musical, in 1979. His last production role was James Duff's "Home Front" which had a short run on Broadway in 1987.

Police Roundup

Man charged in theft

Police arrested a Manchester man Monday on a Dec. 29 warrant in connection with the theft of a silver serving set valued at \$733 from his former roommate, police said.

Matthew Kloter, 20, of 259 Oakland St. was arrested and charged with fourth-degree larceny in the incident, police said. Kloter also is accused of taking two rolls of silver quarters worth \$40 in the same incident, police said.

According to police reports, Kloter was living at a Cambridge Street address from the spring of 1988 until November, when his female roommate began noticing some of her possessions were missing.

In November, police said they met with Kloter, and subsequently Kloter and the woman signed an agreement that Kloter would either return missing items or repay her for them, police reports indicate.

After Kloter moved out, the woman noticed the silver set and quarters missing, items that were not part of the original agreement, the reports state. The woman reported the items missing Nov. 26 to police, records show.

An arrest warrant was issued Dec. 29 for Kloter's arrest. After Monday's arrest, he was held on \$1,000 bond and is scheduled to appear in Manchester Superior Court Jan. 18.

Thoughts

Friends, we live in a day and age when we are blessed with good jobs and able to earn a good wage. We have become caught up with all the things that our money can buy. We live to save up to buy things. What is the price tag on peace and happiness? Where can the purchased? How much does it cost? Friends, it is free. Romans 5:1. "Therefore being justified by faith, we have peace with God through our Lord Jesus Christ. My friend, it may be free but it was not cheap. It cost the Lord Jesus his life on the cross. But death could not hold him. On the third day he arose and abode here on earth for over a month then returned back to heaven where he sits at the right hand of God. There is he now waiting for those who will believe in him. His death on the cross satisfied God's wrath upon sin. He loves you and wants to give you peace. No charge. Jesus paid that price nearly 2000 years ago. You cannot purchase it at any price. It's free but it was not cheap.

No PZC hearing needed

A request for a wetlands permit for the development of the first phase of a 1,000-apartment development near the \$70 million mall in Buckland won't require a public hearing, the Planning and Zoning Commission decided Monday.

The commission determined that building 504 of the 1,000 units would not have a significant impact on the 9 acres of wetlands at the site, Senior Planner Stuart B. Popper said today.

The developer the Trammell Crow Co. of Dallas is also seeking PZC approval of a final development plan for construction of the units and utilities for the first phase, located on about 23 acres.

Work to be done in the wetlands includes building a road crossing, installing drainage pipes, sanitary and water mains and discharging storm water into the wetlands.

About 1,500 square feet of the 9 acres of wetlands on the parcel would be disturbed, according to a Jan. 3 memo to the commission from Zoning Enforcement Officer Thomas O'Marra.

The high-rise development is located on 55 acres northeast of the mall site. The units will be located in 36 two- and three-story buildings.

Pollution lawsuit lodged

GREENWICH (AP) — Two environmental groups have filed a lawsuit against Greenwich, alleging that the town hasn't acted quickly enough to halt the dumping of inadequately treated sewage into Long Island Sound.

The town's Grass Island sewage-treatment plant has violated state and federal permits by spewing inadequately treated waste into the sound for five years, the groups charged in the lawsuit filed last Friday in U.S. District Court in Hartford.

A permit is a permit, it said. Susanne Mattei, executive director of the Connecticut Fund for the Environment, which joined the Connecticut Coastal Fishermen in filing the suit, "It must be complied with."

Greenwich officials said the lawsuit will do nothing to fight pollution as the town proceeds with a \$28.5 million improvement plan for the treatment plant.

All it's going to do is defer resources of the town, resources that could be used to fight the problem," said First Selectman John Margate. "If we had not gotten funding for a study or upgrading of the plant, if we were callous, it would make sense."

Wilson takes sewage post

COVENTRY — Town Zoning Agent George Wilson will leave his position in two weeks to take over the job as plant operator at the town sewage treatment plant off Route 31 in South Coventry.

Wilson will fill the spot that Robert Grover left recently for health reasons.

The Planning and Zoning Commission approved the hiring Monday night of a temporary intern to handle the zoning agent position. That suggestion came from Town Manager John Eliesess. PZC Chairman Jonathan Kreisberg said Kreisberg said Eliesess asked for PZC approval of the proposal, until a new zoning agent can be found.

Officials cited in breakdown

HARTFORD (AP) — There was no evidence that criminal acts led to the breakdown of the state's computerized lottery system last May, but the resulting problems might not have been as severe if some state officials had cooperated better with the contractor, according to a state police report.

The new computerized lottery system, operated since May 8 by General Instrument Corp. of Hunt Valley, Md., had to be "built from the bottom or middle up" because of a lack of cooperation and communication between unit chiefs at the Division of Special Revenue and General Instrument, Detective E.F. Pickett Jr. wrote in his report.

Data processing experts interviewed by the police "felt that with hurdles being put in the way of General Instrument, the project was doomed from the beginning," Pickett wrote in his report.

Pickett singled out lottery chief J. Blaine Lewis Jr. as one state official who could have been more cooperative, but he said the contractor was partly to blame, too.

For example, General Instrument, partly out of fear that had publicity would cause embarrassment, assured gaming officials that it was ready to take over the computerized system for the Daily Numbers, Play 4 and Loto games on schedule, although it wanted to do further tests, Pickett said.

Man charged in harassment

ENFIELD (AP) — A New Britain man was charged with harassment and breach of peace after he allegedly called Bradley International Airport in Windsor Locks and threatened to kill an airline manager because his luggage was lost years ago, authorities said.

Allan Pontbriand, 33, also made unspecified threats against U.S. Sen. Joseph I. Lieberman, D-Conn., during the 20-minute telephone call on Jan. 3, according to court documents.

Pontbriand, who has an extensive criminal record, including a 1981 conviction for illegal possession of machine guns, was released Friday after posting a \$5,500 bond, authorities said.

A man who identified himself as Pontbriand gave Pontbriand's address said he was dissatisfied with the airline's efforts at recovering luggage he lost on a flight out of Bradley, according to the secretary in Bradley's administrative offices who fielded the call.

N. Main development is under attack

By Nancy Concelman
Manchester Herald

The Planning and Zoning Commission Monday tabled a vote on whether to approve a 41-unit development of North Main Street after about 20 residents from the Union Street area said the project would worsen traffic problems.

Manchester developers Barney Peterman Sr. and Barney Peterman Jr. requested a zone change from Rural Residence to Planned Residence development for the 11-acre piece at 545-546 N. Main St. and approval of a preliminary plan of development for 41 attached townhouses.

The commission decided to table action until its Jan. 23 meeting because of the length of Monday's meeting, which lasted until about 12:30 a.m., Senior Planner Stuart B. Popper said. The commission has 65

days to act on the application. The proposal is virtually the same as one that was denied by the commission on July 18, 1988, because the units were closer than 50 feet to the Hockanum River and a proposed access drive was too close to neighboring properties.

Arguments against the project from Union Street residents were also similar, despite the fact that the developers agreed to move the units to an area at least 50 feet from the river and move the access drive further north.

Residents concerned about increased traffic on Union Street groaned and sighed when Donald Holmes of Holmes and Henry Associates of Coventry said traffic from the proposed development would not aggravate existing traffic on the street, which he said is "infrequent."

She reiterated arguments that the developers had no regard for preservation of the neighboring Hockanum River Linear Park trail. The access drive, previously about 5 feet from the rear of her property, is now about 10 feet away, "not much of a difference," O'Neill said.

Brenda Nixon of 40 Union St. said her two children cannot play in her

front yard because of traffic on Union Street that will probably increase with the construction of the Pavilions at Buckland Hills and reconstruction of the Union Street bridge. Building the access road behind her home would present an additional hazard to her children, Nixon said.

Residents also argued that the units were too close together. Ruggins asked if the units were to be occupied by "munchkins."

Manchester attorney Laurence P. Rubinow, who represented the Petermans, argued that 41 units represented about 40 percent of the number that could be developed under a PRD zone.

Project architect Alan Lamson of Frazier Lamson Bulfinch Architects & Planners of East Hartford said 5 acres of open space is included in the development as well as a 2,000-square-foot play area.

Teen charged in shooting

STAMFORD (AP) — A Stamford teenager has been charged with attempted murder in last month's shooting of a man found bleeding from five bullet wounds, authorities said.

Henry Lee Andre Frederick, 18, was arrested early Sunday morning after police spotted him in West Main Street. Lt. Joseph Falzetti said Monday.

He declined to say how Frederick had been linked to the shooting.

Frederick also was charged with carrying a pistol without a permit after he was found carrying a .25-caliber automatic handgun, Falzetti said.

A rifle was used in the Dec. 26 shooting of Howard Capers, 27, according to Falzetti. The rifle has not been recovered, he said.

Capers was found wounded and staggering in the early-morning hours after the shooting. Capers told police he had been shot on West Main Street.

Frederick was being held in lieu of \$60,000 bond and is scheduled to appear in Superior Court in Stamford Jan. 31.

Students go to Washington

HEBRON — RHAM High School juniors Desmond Connelly and Scott Healy of Hebron are the high school's candidates to the Presidential Classroom for Young Leaders, scheduled for March in Washington, D.C.

They will attend committee hearings, meet with congressmen and visit the Capitol, Supreme Court and Library of Congress.

Participants must be juniors or seniors in high school with at least a B average and be active in school or community groups. Students were chosen based on essays written on certain topics.

Disabled, friends matched

DANBURY (AP) — Disabled people in western Connecticut who have been isolated in group homes and institutions are getting a chance to socialize and meet new people under a program known as Common Interest.

"In this world, people become friends because of their common interests," said Marilyn Doree of the Western Connecticut Association for the Handicapped and Retarded. "Disabled people have interests just like everyone else and we want them to have the same opportunity to share those interests."

Three months ago, Doree set up Common Interest with the help of DATESH, a social service agency for disabled people, and the Volunteer Bureau in Danbury.

The Volunteer Bureau is looking for people willing to participate in the program. So far, only a few disabled people have been matched with people in the community.

Pageant entrants sought

Entrants for the Miss Vernon Scholarship Pageant are being sought for the 1989 show, scheduled March 4 at Vernon Middle School.

The 13-year-old pageant is a preliminary to the Miss America Pageant. Entrants must be between 17 and 26 years old. There is no entry fee.

There are four phases of competition: interview, on-stage personality, swimsuit and talent. Contestants from Vernon, Ellington, Tolland, South Windsor, Stafford, Willington, Storrs and surrounding towns are eligible.

Those interested should attend an informal meeting Wednesday at 8 p.m. at the home of Reilly, 243 Main St., Manchester. For more information call Suzanne Wasilofsky at 871-2117 or Tony Wasilofsky at 643-1951.

Readathon set next month

The second annual Literacy Volunteers of America Inc. Readathon has been scheduled Feb. 4 to 11.

The kickoff for the readathon will be held Feb. 6 at the Old State House in Hartford. A readathon will be held during the week at Manchester Community College.

The first readathon, held last year, raised \$25,000. The event helps draw attention to the work of literacy volunteers who may set a record for continuous, round-the-clock reading.

Twenty-two volunteers have completed English as a Second Language and Basic Reading workshops since June. New instructors include: Christine Hulet, Robin Kearney, Janet Lucas, Alicia Merritt, Susan Reardon, Sharon Sullivan, Margaret Dragan, Eleanor Rook and Keny Kapke, all of Manchester.

New Basic Reading instructors include Sally Albert, Jeffrey L. Holmes, Cheri Pelletier, Betty Thibeau, Sharon Wagner and Dorothy Maxorek, all of Manchester.

LOCAL & STATE

Quincy replaces Boudo

Barbara Quincy, director of vocational education at Manchester High School, has been appointed assistant principal at the school.

The Board of Education Monday unanimously voted to appoint Quincy to the position. She replaces Peter G. Boudo, who resigned to become principal of Lewis S. Mills High School, Regional District 10, in Burlington.

Quincy's appointment became effective Jan. 3.

The school board also voted to have Peter Tognalli, a mathematics teacher at the high school and Bennett Junior High School and secondary school administrative intern, temporarily replace Quincy as vocational director.

State to seek eviction of park squatter

MILFORD (AP) — State officials are seeking to evict a 71-year-old woman from a ramshackle home she moved into nearly two decades ago after her nearby home was razed to make way for a still undeveloped park.

The state says Doris Gagnon must move so that long-stalled plans to develop the park can get under way.

But Gagnon ignored a Monday deadline for leaving the property, and said she will fight the state in court — just as she did 20 years ago.

"I'm not leaving, not until I get justice," said Gagnon.

Gagnon lives in a camper and shakes that sit among tall marsh grass about 100 feet from the shore of Long Island Sound. Her original home stood a few hundred yards away.

"I'd like to see it a park, but I don't want to have suffered in vain," she said, arguing that she deserves millions of dollars in compensation for her ordeal. "I want to show they can't do this to an American citizen."

The state will begin eviction proceedings once officials in Milford verify that Gagnon is not leaving. Assistant Attorney General Grace Dodier said Monday.

Authorities served notice Nov. 28 that they wanted her out of the summer but is doing well now. He until Monday to leave, even though the law required only eight days' notice, Dodier said.

"As much as we can empathize with her, the woman has no legal right to be there," said Wanda Rickerby, a spokeswoman for the Department of Environmental Protection, which is finally moving ahead with plans to develop a park in the area.

"It's our job to represent the people of Connecticut. That land belongs to all the people," Rickerby said.

The Milford health department filed a complaint with the DEP after an inspection of the property last summer. The complaint, which said bags of human sewage were found piled up behind Gagnon's living quarters, cited a violation of a nuisance by the public health, said Charles Motes, chief of environmental health.

"We all feel she would be better off elsewhere," Rickerby said.

Gagnon said she has propane gas to heat her dilapidated 18-foot camper, and that friends bring her water and her shower at their homes. She said she also has an electric generator.

"People are very good to me," she said, adding that she is able to survive on Social Security payments.

Gagnon said she underwent surgery for cancer in the summer but is doing well now. She said she also has an electric generator.

Chicken-wire fencing surrounds her property, which is also home to five cats, three dogs, and about 50 chickens, geese and ducks.

Gagnon's battle with the state began in the mid-1960s when officials bought and demolished about 100 run-down cottages to expand and develop the fledgling park. Gagnon refused to sell, but a judge in May 1969 ruled the state would be able to take her property through eminent domain.

Gagnon said she refused to accept a \$15,000 payment for the property. The money was disbursed by the state to satisfy two liens in 1974, according to state records.

Gagnon has been in a number of disputes with the city over the years, and blames Milford officials for the new push to get her off the property. In 1981, she won a \$14,000 judgment against two city policemen in a false-arrest suit.

While about one third of the beach at the park is used during the summer under an agreement with the city, there are still no permanent facilities at the park.

"The state doesn't need that land now. They can wait," said John Williams, a New Haven attorney who said he would represent Gagnon.

"It's her life. It just seems we should just let people live their lives as they want as long as they are not hurting anybody — and she is not hurting anybody."

FACES EVICTION — Doris Gagnon, 71, a Milford woman whose beach-front cottage was demolished 18 years ago as yet undeveloped.

State park officials say funding and environmental problems held up development of Silver Sands. An old landfill is located in the middle of the park property, and the state plans to cap and seal it this summer as the first step in opening up the land for recreational use.

But complete development of the 300-acre park will take at least three years, said Dick Clifford, director of state parks.

"The state doesn't need that land now. They can wait," said John Williams, a New Haven attorney who said he would represent Gagnon.

"It's her life. It just seems we should just let people live their lives as they want as long as they are not hurting anybody — and she is not hurting anybody."

Convicted murderer loses another appeal

HARTFORD (AP) — Lawrence J. Pelletier, twice convicted of three counts of murder in the 1979 Purulavor armored car robbery of \$1.8 million, has lost another appeal.

At the time, the robbery was the largest in state history.

Pelletier had been convicted in 1982 on the murder charges and sentenced to three consecutive prison terms of 25 years to life. But that conviction was thrown out by the Supreme Court in 1986 on grounds of prosecutorial misconduct after the prosecutors used words like rats and fiends to describe Pelletier and co-defendant Donny Courte.

In 1987, Pelletier was tried separately from Courte and again convicted. Courte's second trial ended in a mistrial and he is awaiting a third trial.

Three Purulavor guards were gunned down in the April 16, 1979, pre-dawn robbery at the Worcester depot. The robbers got away with \$1.8 million in cash, jewelry, food stamps and checks, all but \$40,000 of which was recovered within 24 hours of the robbery.

On Monday, the state Supreme Court upheld his triple murder conviction, rejecting his claims that he couldn't get a fair trial because of pre-trial publicity and illegal search by the police. He also claimed he was denied the right to a speedy trial, and nine other errors in his trial.

In the unanimous ruling, Pelletier's public defenders were rebuffed for presenting "a torrent of claimed error" that effectively diluted Pelletier's case.

NATION & WORLD

His resume was too good to be true

JUNEAU, Alaska (AP) — When Carl Keyser Jr. applied for the city administrator's job in the small Alaska town of Kake, officials jumped at the chance to hire him after reviewing his impressive, four-page resume.

Months later, they learned Kake was just the latest and most remote stop in Keyser's cross-country government career, a career officials say was based on phony resumes and bogus references calls.

Keyser listed master's and bachelor's degrees in public administration from La Salle University in Philadelphia. He also listed experience as a consultant to the International City Managers Association and the International Association of Chiefs of Police.

Officials say there is no record that Keyser attended the university or worked for the associations. In October, the city managers' group issued a warning about Keyser, urging members to investigate applicants' resumes.

It was that warning that alerted Kake officials, and led to his firing in December. He was wanted on a fugitive warrant from Pikeville.

They also did not know Keyser had pleaded guilty last January to a misdemeanor perjury charge for lying in sworn statements made while applying for police chief in Oak Hill, Fla.

Keyser, a Huntington, W.Va., native, is being held under \$10,000 bail at the jail in Petersburg, south of Kake, where last week officials filed a first-degree theft charge.

Keyser, 34, declined a request for an interview made through a jailer last week. However, in a confidential interview two weeks ago with radio station KFVS, he maintained his innocence and suggested he was a victim of a conspiracy in Pikeville.

"It's a situation where the press and some of the officials there want to make some type of example of me," he said. "I don't make any sense."

Pikeville charged Keyser with theft by deception for failure to reimburse the city \$697 in travel expenses. He said he would have returned the money had officials asked.

Keyser's wife, Sheila, and their four young daughters are staying in an apartment provided by the Salvation Army. The Alaska charge alleges that Keyser falsified his resume and obtained about \$28,000 in salary and expenses from the city.

"Nearly every aspect of his resume was not true," District Attorney Mark Ellis said. Keyser listed master's and bachelor's degrees in public administration from La Salle University in Philadelphia. He also listed experience as a consultant to the International City Managers Association and the International Association of Chiefs of Police.

Officials say there is no record that Keyser attended the university or worked for the associations. In October, the city managers' group issued a warning about Keyser, urging members to investigate applicants' resumes.

One engine off, second on fire, say investigators

KEGWORTH, England (AP) — Investigators said today they found fire damage in one of the engines of a Boeing 737 that crashed in central England and that the other engine had been inexplicably shut off before the crash.

The Transport Department said all the theories were "speculation" at this stage. Channon said Monday there was no evidence of sabotage, but Prime Margaret Thatcher said "we rule out nothing — we simply don't know."

At the government's sophisticated laboratory on Farnborough, south of London, tests began on the plane's two flight recorders and the digital flight data recorder.

William Tench, retired head of Britain's Air Accidents Investigation Board, said the odds against double engine failure on a Boeing 737 were about 10 million to one.

He suggested a "technical mistake such as something incorrect being done to the engines during turnaround (servicing between flights), either inadvertently or deliberately."

Or, Tench said, "it could be inadvertent fuel contamination." The Evening Standard newspaper said today evidence was emerging that at least one of the plane's engines broke apart.

The next lowest number of fatalities came in 1986, when 1,034 people died in commercial and private airplane accidents. The NTSB figures do not include military crashes, but because investigators have determined it was not an accident but an act of sabotage.

Investigators are listening to the flight recorders and will be able to question the crew, who survived. They were preparing to remove the engines and other wreckage for closer examination.

The British Midland Airways jet crashed into an embankment beside England's main north-south highway Sunday night, killing 44 people. It was flying from London's Heathrow Airport to Belfast when the pilot reported engine trouble.

Transport Secretary Paul Channon was scheduled to make a statement to Parliament later this week, he said.

The Boeing 737-400 was 12 weeks old and had flown less than 50 hours, the airline said.

Investigators have expected to be aided by accounts from pilot Kevin Hume and the other seven crew members.

CHARGED — Carl Keyser Jr. leaves court in Petersburg, Alaska, last week after being arraigned on a first-degree theft charge.

In 1986-87 he was police chief in Petersburg, Alaska, where he was charged with a first-degree theft charge.

Keyser listed on his resumes that he was a city manager of Beaumont, Texas. Haines said he knew little about Keyser and his wife, but he recalled Keyser asking him to be a reference, not did Kake officials call him.

There's a larger lesson here, Haines said. "And that lesson is that some of these small communities should check these candidates out before taking the plunge."

"The left engine has fire damage," Trimble said. "The fire damage is consistent with witness reports of fire associated with the left engine in flight. We have no evidence at the moment of a mechanical failure in the right engine."

Investigators rummaged on debris and knew looking for debris that might yield clues to what caused the crash. Theorists advanced by experts included contaminated fuel, a rupture in a combustion chamber, improper servicing or a mechanical fault allegedly missed during tests of the engine.

Under the election reforms, two-thirds of the members of the Council of People's Deputies will be directly elected by voters in the 15 Soviet republics and their constituent electoral districts.

The other third is reserved for deputies from social organizations ranging from labor unions to national associations representing interest groups ranging from stamp-collectors to anti-alcohol campaigners.

It will also appoint the head of state, the post now held by Gorbachev. The election laws that offer the voter more than one candidate and a strengthened role for the customary decider Supreme Soviet are expected to be adopted by the end of the year.

One engine off, second on fire, say investigators

KEGWORTH, England (AP) — Investigators said today they found fire damage in one of the engines of a Boeing 737 that crashed in central England and that the other engine had been inexplicably shut off before the crash.

The Transport Department said all the theories were "speculation" at this stage. Channon said Monday there was no evidence of sabotage, but Prime Margaret Thatcher said "we rule out nothing — we simply don't know."

At the government's sophisticated laboratory on Farnborough, south of London, tests began on the plane's two flight recorders and the digital flight data recorder.

William Tench, retired head of Britain's Air Accidents Investigation Board, said the odds against double engine failure on a Boeing 737 were about 10 million to one.

He suggested a "technical mistake such as something incorrect being done to the engines during turnaround (servicing between flights), either inadvertently or deliberately."

Or, Tench said, "it could be inadvertent fuel contamination." The Evening Standard newspaper said today evidence was emerging that at least one of the plane's engines broke apart.

The next lowest number of fatalities came in 1986, when 1,034 people died in commercial and private airplane accidents. The NTSB figures do not include military crashes, but because investigators have determined it was not an accident but an act of sabotage.

Investigators are listening to the flight recorders and will be able to question the crew, who survived. They were preparing to remove the engines and other wreckage for closer examination.

The British Midland Airways jet crashed into an embankment beside England's main north-south highway Sunday night, killing 44 people. It was flying from London's Heathrow Airport to Belfast when the pilot reported engine trouble.

Transport Secretary Paul Channon was scheduled to make a statement to Parliament later this week, he said.

The Boeing 737-400 was 12 weeks old and had flown less than 50 hours, the airline said.

Investigators have expected to be aided by accounts from pilot Kevin Hume and the other seven crew members.

NATION & WORLD

Snowballs lead to death

SEATTLE (AP) — Police have arrested a suspect in the shooting death of a 22-year-old man who was killed after throwing snowballs at cars during the city's first snowfall of the winter.

Richard Todd Flynn was shot and killed Friday after an argument with occupants of a car that had been hit by snowballs, police said. Three shots were fired by one of the men from the car, police said.

Three men and a woman, accompanied by an attorney, surrendered Monday for questioning, police Lt. John Gray said. One of them, Richard B. Becker, 21, of Seattle, was arrested for investigation of homicide and was being held in King County Jail.

Police said Becker told investigators he felt threatened because one of the other people being thrown snowballs was wielding a chain.

Aircraft fatalities decline

WASHINGTON (AP) — U.S. commercial and private airplane accidents killed 973 people in 1988, the lowest number this decade, with small planes showing the most improvement, government figures indicate.

The decrease, shown in preliminary figures from the National Transportation Safety Board, came despite steady increases in the number of hours and miles flown and a 30 percent increase in the number of commercial flights over the last decade.

The most dramatic reduction was in the number of people killed in small, private plane accidents, down from 1,566 in 1978 to 792. Flying for small planes has decreased about 20 percent since then, according to the Federal Aviation Administration.

The next lowest number of fatalities came in 1986, when 1,034 people died in commercial and private airplane accidents. The NTSB figures do not include military crashes, but because investigators have determined it was not an accident but an act of sabotage.

Investigators are listening to the flight recorders and will be able to question the crew, who survived. They were preparing to remove the engines and other wreckage for closer examination.

Reagan's Final Budget

Democrats give short shrift to budget

1990 BREAKDOWN

Fiscal year outlay estimate: \$1,151,800,000,000

Critics say health cuts will hurt needy, elderly

WASHINGTON (AP) — President Reagan's critics say his proposed cuts in Medicaid and Medicare would curtail health care for the 36 million elderly, disabled and poor Americans and could drive up state taxes.

Public policy analysts, members of Congress and state officials all rejected Reagan's claim that the cuts will simply force states, hospitals and physicians to pay more for the services they provide.

The giant federal health-care program has been the fastest growing segment of the budget of the Department of Health and Human Services, the largest federal agency, spending 37 percent of the government's entire budget.

Reagan's spending proposal for fiscal 1990 would trim Medicaid growth chiefly by cutting grants to states by 3 percent and reducing payments to hospitals and physicians serving Medicare patients.

Even with the proposed reductions totaling \$1.4 billion, the Medicaid budget would grow by 5 percent to \$86 billion. The Medicare cuts, \$5.3 billion, would reduce that program's growth rate to 10 percent with \$9.6 billion in projected spending.

The federal government shares the cost of the Medicaid program with the states, which administer the program and retain certain eligibility options.

Rep. Henry Waxman, D-Calif., chairman of the House health subcommittee, said the Medicaid cuts would "put the states in a financially untenable situation" and wipe out President George Bush's promise to expand Medicaid coverage to more low-income children.

States "will be unable to come up with the replacement dollars to continue coverage to the 12 million children now eligible for Medicaid, much less to expand coverage to the millions of low-income families that still have no coverage at all," Waxman said.

Robert Greenstein, director of the Center on Budget and Policy Priorities, a nonprofit group that researches policy issues affecting the low-income, said that even HIS Secretary Otis Bowen objected to the cuts in grants to the states when they were proposed by the Office of Management and Budget. In a letter to OMB last month obtained by Greenstein, Bowen said the cuts — 3 percent in fiscal 1990, 4 percent in 1991 and 4.5 percent in 1992 — were "unjustified and unworkable."

Greenstein said the cuts "in substantial part will be passed along in benefit reductions."

"Unless states are able to come up with more money, which many aren't, their only options are to restrict eligibility, reduce medical services or reduce fees paid to doctors," he said.

Further reductions in payments to physicians, he said, would make it harder for Medicaid recipients to find a doctor willing to treat them.

For New York state, the cuts would not affect the poor, "but it will affect everyone else in the state," said Brad Johnson, director of New York Gov. Mario Cuomo's Washington office.

"We will have to raise revenues or divert resources from other programs," he said.

Reagan's budget plan for fiscal 1990 would charge more or provide less to boat owners, veterans with slightly disabling war injuries, combat veterans, federal retirees, doctors, people who lose their jobs to foreign competition and middle-class youngsters who eat subsidized lunches at school.

Reagan noted that even students at "high tuition private schools can get meal subsidies." He proposed eliminating all 40-cent lunches for children from families well above the poverty line. The price of a lunch would rise about 26 cents, unless state or local school districts made up the difference.

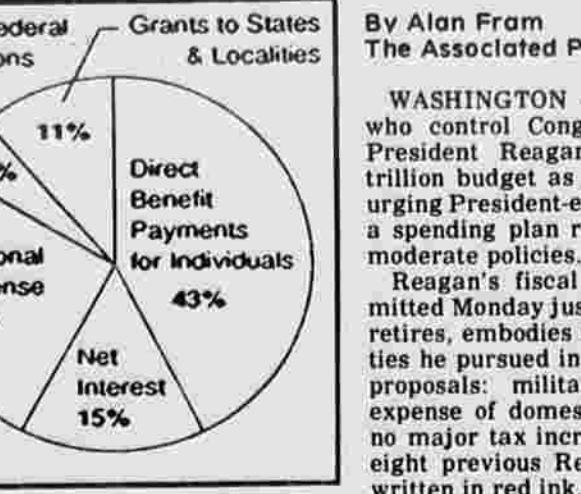

The president wants to save \$1.2 billion over the next five years by ending "trade adjustment assistance," which provides weekly cash benefits to training job search aid and relocation allowances to those who lose their jobs because of imports.

Soviets debating election reforms

MOSCOW (AP) — Led by President Mikhail S. Gorbachev, Communist leaders today nominated a slate of party candidates for a new legislative assembly to be chosen this year in the country's first nationwide multi-candidate elections.

Gorbachev had been expected to use the meeting of the party's policy-making Central Committee to seek approval for candidates who support his program for "perestroika," or wholesale revamping of the Soviet economy and society.

However, the official Tass news agency gave scant details of what occurred at the plenary session, which it indicated lasted about four hours.

Tass said the Central Committee meeting in Moscow, which nominated party candidates for the 2,250-seat Council of People's Deputies, which is to be elected in March. It also adopted an "Address to the Party and Soviet People" and issued a decree on how the elections should be held.

Tass did not immediately issue the texts of those documents. It said Gorbachev also addressed the plenum, but the nature of his remarks was not immediately known.

Under political reforms championed by Gorbachev and adopted by the Supreme Soviet, or parliament, on Dec. 1, the new national assembly, to be chosen in the country's first nationwide multi-candidate elections, will be empowered to elect a more powerful Supreme Soviet of 424 members.

It will also appoint the head of state, the post now held by Gorbachev. The election laws that offer the voter more than one candidate and a strengthened role for the customary decider Supreme Soviet are expected to be adopted by the end of the year.

"Whatever the differences of detail in the selection of candidates, one common theme is the main thing: wide support has been given to those party members who have committed themselves to the reform program," Gorbachev said at a meeting of Moscow Communist Party officials on Monday.</

OPINION

Legislators lose time in House coup

As the dust stirred up by last week's revolt in the Democratic caucus in the General Assembly begins to settle, it appears the leadership of House Speaker Richard Balducci is making a sincere attempt to minimize the fallout from the riot.

In all but five instances, Balducci has made the same committee appointments that his predecessor in the post, Irving Stolberg, had decided upon. On the surface, at least, the aftermath of the coup that put Balducci into power has not produced any bloodbath of political recriminations. The wounds that lie beneath, however, will take a long time to heal.

While the appointments to legislative committees were in limbo, the House of Representatives lost a week during which those committees would normally have organized.

In light of the fiscal problems the state faces, any loss of time is costly.

But if the Democratic members of the House can now put aside the animosities generated by the ouster of Stolberg, engineered in secret by a group of Democratic representatives in concert with the Republican minority, they can go forward with the unpleasant business of putting Connecticut in a better financial condition.

If the Democrats expend all their energies in coming weeks on maneuvering for advantage within the party and seeking to redress real or perceived grievances, they will have left the important work to the Republicans and given them ready-made campaign issues for the next election.

The voters are not likely to be very sympathetic about ideological or personal differences within the Democratic Party if they feel that the Democrats have failed to address the troublesome legislative issue that has to be faced — coming up with a manageable budget that gives the right priorities to services.

Budget tests Bush's promises

WASHINGTON — President Reagan's parting budget presents George Bush with an early test of political leadership as he seeks to fulfill campaign pledges of budget austerity and government "humanity" without raising taxes.

Leaders of the Democratic Congress say they will give Bush the benefit of the doubt on his "flexible freeze" approach to budgeting — where increases in spending above the rate of inflation must be offset by accompanying decreases in other areas.

But at the same time the Democrats are pointing out the distance between Reagan's \$1.15 trillion spending blueprint and Bush's campaign promises. Bush's aides are letting it be known that he will revise Reagan's work within weeks.

Reagan's farewell budget, calling for expanded military spending and contracted social programs, "provides a formula for a meaner, harsher America," said Sen. James Sasser, D-Tenn., chairman of the Senate Budget Committee.

House Speaker Jim Wright, D-Texas, said the Reagan budget "obviously does not respond to the promises made by President-elect Bush during the campaign." — Obviously, this is not a kinder, gentler budget.

Those "kinder, gentler" programs promised by Bush include large proposed increases for education, for the Head Start program, for expanded

Medicaid payments to low-income pregnant women and their babies, and for environmental cleanup.

Vice presidential chief of staff Craig Fuller was asked Monday at a news briefing whether Bush, as president, would continue to support such programs, and wouldn't they cost the government a lot of money it didn't have?

"Yes and maybe," Fuller responded.

The Bush camp was trying to keep above — or at least out of — the fray as Reagan's final spending plan went to the Hill, where it seemed guaranteed to be enacted.

The vice president is expected to outline his modifications within a few weeks after his inauguration Jan. 20, most likely in an address to a joint session of Congress. However, aides say the exact format of his budget submission has not yet been decided.

An overloaded brain is a forgetful brain

with your coat, and then maybe I stopped off to put the Irish Cream in the refrigerator... MAYBE I PUT YOUR KEYS IN THE REFRIGERATOR! We looked. He hadn't.

We peered through the locked, dark car with a flashlight, on one hand not wanting to see them because that would mean we'd have to call a locksmith, but hoping on the other hand that we WOULD see them, so we'd know we hadn't just walked into the "Twilight Zone" where keys disappear down black holes and it's 1988 again.

We looked all over the yard; we put on our coats and lay on our bellies and looked under the car. We finally found the Devil Keys in a soft chair, sort of nestled between the arm and the cushion, where Chevrolet and peanuts rest just before they disappear forever. It was the chair no one had sat in.

My friend felt bad and knew it had to be his fault because he's a neurotic and is losing his memory. I gave him spilt his 1982, but age doesn't give him his

corner on forgetfulness. There's no affliction in my life that's cost me more in time, money and wrinkles during the past year than my memory. If I could research and write a best-seller entitled "How To Improve Your Memory," and retire.

And my friend and I are in good company. Recently I watched a TV program about Yuppies who believe they're developing Alzheimer's disease because of their forgetfulness, and are going to their doctors by the hordes to have tests for it. Turns out they're just suffering from Alzheimer's; they're just not remembering.

Personally, I'm convinced it doesn't have anything to do with age, or early Alzheimer's, or even faulty memory. I think, first, we just have a lot to do, and second, we're not paying very close attention.

I think the mind, like a computer, will hold X number of bytes to play back to us.

For the first time since World War II, Congress will put spending cuts ahead of new taxes. One area where the federal government is likely to look for a savings is in medical expenses. Federal Medicare payments to hospitals are expected to hit \$50 billion in this fiscal year. Hospital costs are projected to grow at three times the inflation rate. Congress can put the squeeze on hospitals by cutting back Medicare payments.

Mini-editorial

Ever since a bully kicked sand in the face of Charles Atlas, boys have looked for the easy road to bulk. It isn't harmless anymore. The Journal of the American Medical Association reports that 6.6 percent of high-school boys surveyed have taken anabolic steroids to build muscle strength. For short-term results, they could pay a long-term price in stunted growth and sterility. Teen-agers don't think about the long term. But their adult role models should, and it doesn't help that those role models on steroids, too.

Inspection program is tainted

WASHINGTON — A pilot project to test a new federal meat inspection program supports what we have been saying all along — that the public may soon be buying tainted processed meat. Now we aren't the only ones saying it.

Meatpackers themselves are worried that dishonest competitors will abuse the new system by cutting corners and allowing unhealthy processed meat products from hams to hamburger get into supermarkets.

That is one of dozens of unsettling possibilities outlined in an internal memorandum from the USDA that sums up a North Carolina test of the proposed new inspection routine.

We have reported in the past on the Agriculture Department's dogged campaign to deregulate the meat business in the guise of streamlining meat inspection. The USDA wants to eliminate daily scrutiny by federal on-site inspectors at meat processing plants and replace them with company-paid inspectors overseen by random visits from the USDA.

The program is expected to be implemented nationwide in the summer. The USDA has been testing it in selected cities, and the results of those tests should have thrown cold water on the USDA's idea. Instead, the bureaucracy is steaming ahead.

The closely held report obtained by our associate Stewart Harris tries to eliminate daily scrutiny by federal on-site inspectors at meat processing plants and replace them with company-paid inspectors overseen by random visits from the USDA.

MAJOR EXPENSES — School Superintendent James P. Kennedy submitted a \$40 million budget plan for 1989-90 to the Board of Education Monday. This chart shows where the money would be spent.

Budget

From page 1

up 74.62 percent of the budget increase, Kennedy said. He attributed almost 84 percent of the budget increase to fringe benefits, and costs for special education out-of-town placements.

Most of the extra money needed would go toward maintaining current program levels and honoring contracts, said Kennedy. He said the school board would need \$3,526,799 just to account for inflationary increases in this year's school budget.

The reopening of Highland Park School in September would cost \$800,712, Kennedy said. The school was closed in 1984 because of declining enrollment, but will be reopened in September to help alleviate a projected increase of 400 to 600 new elementary school children within five years.

More than \$996,000 of the \$880,712 for the reopening would be used to hire staff, according to the budget proposal.

To make room for the reopening, the Day Treatment Program at Highland Park School is moving to the former Bentley School. Maffei said at the Monday meeting the program would move

Lead

From page 1

But Cannon said that in the past years there's been with the Health Department, there have been no cases of acute lead poisoning. In all cases that have come to her attention, she said, the health problems have declined once the source of the lead has been eliminated.

Most of the cases involving children are caused by children eating paint chips containing lead, Cannon said.

One man who was reported to have a high lead level had been doing renovation work involving the removal of lead paint, Cannon said. Another man worked in a shooting range.

In recognition of the dangers of lead, the Centers for Disease Control in a recent report, recommended that the level of blood-lead content for a person to be diagnosed as being afflicted with lead poisoning be toughened, lowered by one-fifth, Toal said.

Toal said the current level for toxicity is 25 micrograms of lead per deciliter of blood, while the proposed level would be micrograms of lead per deciliter.

In general, lead poses more of a danger to young children because

Insurance

als with a safe place for their money, but it "also dramatically reduces the incentives for depositors to monitor the financial health of their bank," the administration said.

It was particularly critical of regulators' de facto policy of guaranteeing deposits above the insurance limit in large institutions.

The recommendation contradicts a study released last week by the FDIC, which concluded that deposit insurance should be preserved at current levels.

FDIC Chairman L. William Seidman said regulators have been unwilling to tolerate the risk to the banking system of forcing losses on depositors at large institutions, even those whose funds exceed the insurance limit.

INCREASES — School Superintendent James P. Kennedy's proposed \$40 million budget for 1989-90 is up more than \$4 million from this year. This chart explains where the increases would be distributed.

Directors

From page 1

gap between state spending and revenue forecast for next fiscal year, Town Manager Robert E. Weiss has curtailed new town purchasing and hiring, Weiss, who could not be reached for comment this morning, has said the deficit and mounting state money problems will affect next year's budget as well as the town's current \$63.5 million budget.

Some directors, fearful of the state deficit and the uncertainty of the town budget, agreed with Kennedy's proposal would have to be trimmed to meet that goal.

"In my eyes it will not hold at its current level," said Republican Director Ronald Oesella. "Double-digit increases in light of the state deficit is just out of line."

Oesella said he planned to look "very closely" at Kennedy's proposal and hoped to reduce it to a single-digit increase, rather than the 13 percent increase the budget proposal amounts to. Oesella also said there should be joint budget planning sessions between the school board and directors.

Democratic Director Barbara B. Weinberg said the Board of Education budget will not be the only budget that will have to be reduced.

"We're going to ask every department to take 10 to 15 percent reductions without even evaluating any programs of any department. And this includes the school board," said Weinberg. "I would rather cut back and out of my department than have a surplus. Right now it's too preliminary to determine where cuts have to be made, but in general, we're going to have to take a very conservative look."

"We do have to hold the line," said Republican Director Thomas Verhoven. "We would have to review that completely and make some appropriate cuts. We

Leaders

From page 1

terms of moral conduct in everything I do right now, and I think some people would feel that I legitimize an action that was not moral by becoming part of it through accepting this title," Stolberg said.

He said "decent occurred" among House Democrats who first indicated they would support Stolberg and then turned around and voted for Balducci. He said he would decide on accepting the offer by the end of the week.

Balducci said he felt "let down" from last week's fight were beginning to heal.

"I would like to think that this caucus can and will come back together," the speaker said. "Hopefully people who are understanding, trying to work together to show there really is no animosity."

I would like to also think that there aren't 'camps' that there is only one and that's the Democratic caucus and we're all part of that same group," Balducci said. "Some in the day, House Majority Leader Robert F. Frankel, D-Stratford, announced he was naming as one of two deputy majority leaders Rep. Paul Gionfriddo, D-Middleton, who lost the chairmanship of the budget-writing Appropriations Committee as a result of Stolberg's ouster.

Frankel said he had told Balducci about his plans to make Gionfriddo a deputy and that the speaker was happy with the

Leaders

From page 1

move.

Frankel and Gionfriddo said the House Democrats must unify for what promises to be a bruising fight on the 1989-90 budget.

"There's a \$134 million deficit this year and a gap between spending for current services and income from existing taxes estimated at \$82 million for 1989-90. The governor and Democratic leaders at state tax rates will have to be raised, perhaps as early as April."

"The situation that we have now is a very difficult one for us," Frankel said.

"We want a budget that's our budget, that's the budget of our entire caucus and all 88 members would agree to," Frankel said. "The difficulty is bringing the people back together."

That will be "a long arduous task," he added. "We're taking the first steps at this point."

Frankel said he remained disappointed in the way Balducci used the speaker's chair, by going to the House Republicans but not as majority leader, he has to look forward, not back.

"It's a fact of life (and) we all have to put it behind us," Frankel said.

Gionfriddo will be one of two deputy majority leaders. The other is Rep. Teresalee Bertinotto, D-East Windsor, whom Frankel had appointed earlier.

Gionfriddo fills the slot that had been held by Balducci, before his election as speaker.

Residents opposed to condominiums near Bolton line

By Jacqueline Bennett Manchester Herald

COVENTRY — Several residents said at a public hearing Monday they were opposed to a 260-unit condominium development planned for a tract off of routes 6 and 44 near the Bolton town line.

The complex would be called Cotswold.

"I doubt that there's been a project in any community as scrutinized as this project," Jacobs said during the hearing at the Town Office Building. As with any project there are folks who prefer the project not get approved, but he said he would answer their questions.

"People of good faith would have to admit, we have answered their questions."

Jacobs was speaking on behalf of Stratford developer John F. Kennedy who was at the hearing. Bigley wants to build the luxury condominiums on 130 acres of land.

The project was issued a special permit from the PZC last week that indicates that building is feasible at the site.

The PZC is scheduled to vote on a site plan, zoning terms and wetlands permit at its Jan. 23 meeting. The commission closed the hearing on those applications Monday.

The hearing on the project had been continued before it was officially closed by PZC Chairman Jonathan Kreisberg. The last continued hearing was scheduled for Nov. 28, but was delayed because town planner Diane Blackman had said more information was needed from developers on their plan. The PZC now has 65 days to make a decision on the proposal.

Despite information provided by the developers at the various hearings to alleviate residents' concerns on the project, some still oppose it.

David Hartford, of South Street, said, "I am concerned about the amount of water that will be used."

"There go our taxes," said John L. Twedy of 605 Pucker St. "I am against it."

Twedy said the large complex would strain town services, such as police, and the volunteer fire department.

Another resident, Albert Harper of 4003 South St., said if the complex is built it will pose a traffic hazard along Route 6 to residents traveling eastbound and trying to enter Cotswold.

"The residents of Cotswold's lives are in danger due to that turn," said Harper.

The entrance, he said, is also close to the turn from Route 6 on South Street. He said that turn also is hazardous.

Jacobs said those concerns had been addressed. He said the state Department of Transportation approved the amount of traffic that would be generated by the complex along Route 6 as safe and a deceleration lane will be built by the developer near that entrance.

Jacobs also said the North Coventry Volunteer Fire Department recently volunteered to help the developers agree to provide additional fire safety measures.

Jacobs said the project has been designed to meet state Department of Public Utility Control water flow standards of 8,000 gallons daily, beyond the 30,000 gallons daily that would be used. The project also meets state Department of Environmental Protection standards for the sewage system to handle 78,000 gallons of sewage daily.

Bench got 56.4 percent and Yastrzemski 43.05 Only Ty Cobb, 98.2 percent (222 of 226), and Hank Aaron, 97.8 (406 of 415), received higher percentages than Bench. Yastrzemski's percentage was the seventh-highest ever after Honus Wagner (95.13), Babe Ruth (95.13) and Willie Mays (94.67).

Bench and Yastrzemski also set a record for number of voters elected in their first year of eligibility.

Induction ceremonies at the Hall of Fame in Cooperstown, N.Y., are scheduled for July 23. Coincidentally, Cincinnati and Boston will play in the annual game on July 24.

Yaz, Bench hit Hall of Fame in first swing

By Jim Donaghy The Associated Press

NEW YORK — Move over Ty, Willie, Babe and Hank. Johnny and Yaz have reached your lofty level, too.

The election of Johnny Bench and Carl Yastrzemski to the Hall of Fame Monday night was no surprise. The number of voters they got was...

Bench received 431 votes from 447 ballots cast by members of the Baseball Writers Association of America. Yastrzemski got 423 votes.

The size of their mandate put Bench and Yastrzemski in the upper echelon of baseball's superstars.

In order to be elected to the Hall of Fame, a player must be named on 75 percent of the ballots cast. Of the record 447 ballots this year, a player needed 336 votes to be elected.

Bench got 56.4 percent and Yastrzemski 43.05 percent (222 of 226), and Hank Aaron, 97.8 (406 of 415), received higher percentages than Bench. Yastrzemski's percentage was the seventh-highest ever after Honus Wagner (95.13), Babe Ruth (95.13) and Willie Mays (94.67).

Bench and Yastrzemski also set a record for number of voters elected in their first year of eligibility.

Induction ceremonies at the Hall of Fame in Cooperstown, N.Y., are scheduled for July 23. Coincidentally, Cincinnati and Boston will play in the annual game on July 24.

Yaz and a few of his family and friends will be there. He already

Yastrzemski took over and it was no time until he tamed the Green Monster.

Yaz finished with 3,419 hits and 452 home runs. He was named to 18 All-Star teams, won six Gold Gloves as Boston's left fielder and led Boston to the pennant.

Yaz reached base via a hit or a walk 5,264 times in his career, ranking third behind Pete Rose, 5,822, and Ty Cobb, 5,440.

He is the only American League player to have 3,000 hits and 400-plus homers.

"I accomplished something no one else has ever done," Yastrzemski said of reaching the 3,000 hit-400 home run plateau. "I'm very pleased and very proud of my accomplishments but I'm most proud of that."

Not Williams, not Gehrig, not DiMaggio did that. They were Cadillacs and I'm a Chevrolet."

"I didn't even know that Ted Williams had ever seen me play," said Bench, who was NL Rookie of the Year in 1968. "I remember thinking, 'Are you sure you mean me?' For Ted Williams to even know who I was, that was a

MHS swimming team opens with a victory

It was a long wait, but it was worth it for the Manchester High boys' swimming team as it finally got its campaign under way Monday with a 28-7 victory over Platt High of Meriden at the Indians' pool.

Manchester won't have much time to rest for its next meet, scheduled today at 3:45 p.m. at Wethersfield High.

Egils Ramans won the 200 individual medley and 100-yard butterfly while Brian Park Kang swept the 50- and 100-yard freestyles. The pair was also on the winning 200-yard medley relay. Ryan Pataluk won the diving with his highest point total (171.15) ever while Victor Torres had personal bests in the 100 and 200 freestyles and in the 400 freestyle relay.

Overall, Manchester turned in nine personal best efforts.

Results:
200 medley relay: 1. Manchester (Egils Ramans, Brian Park Kang, Ryan Pataluk, Victor Torres) 1:54.2, 2. Platt (1:58.2).
100 free: 1. Ramans (M) 1:06.27, 2. Kline (M) 1:07.15.
50 free: 1. Park Kang (M) 54.54, 2. Torres (M) 54.54.
100 yard medley relay: 1. Manchester (Egils Ramans, Brian Park Kang, Ryan Pataluk, Victor Torres) 2:08.52, 2. Platt (2:12.15).
400 free relay: 1. Platt 4:25.01.

Girls Basketball

Coventry triumphs

EAST HAMPTON — Getting off to a good start, Coventry High never looked back in downing host East Hampton High, 51-40, Monday night in Charter Oak Conference girls' basketball action.

The Patriots move to 5-2 in the COC and 8-2 overall, with the win. The Ballingers fall to 3-4, 4-6 with the loss. Coventry's next outing is Thursday at 7:30 p.m. when it visits Rocky Hill.

Senior center Maura Danahy scored 10 of her 12 points in the first quarter as the Patriots moved to a 19-5 advantage.

"(East Hampton) wasn't boxing off the boards and she was grabbing them and putting them back in (She (Danahy) also made

ON GUARD — Rangers goalie John Varlas looks for an open teammate in his game Monday night at Madison Square Garden. The Devils won, 5-4.

Korn bad news for Rangers

By Ken Rossoport
The Associated Press

NEW YORK — After getting some bad news from the NHL, Jim Korn made it a bad night for the New York Rangers.

"I wanted to go out with a strong game," Korn said after scoring two goals to lead the New Jersey Devils to a 4-1 victory over the Rangers on Monday night.

Earlier in the day, Korn learned that he will be suspended for a post-game fight with Boston Coach Terry O'Reilly in New Jersey on Dec. 29. The suspension is scheduled to start next week, but Korn wasn't sure exactly which games he would miss.

"I imagine I'll play Wednesday (in Montreal)," Korn said, "but I don't think they've made up their minds yet."

The loss halted a seven-game unbeaten streak for the Rangers, who had five victories and two ties. The loss also denied the Rangers an opportunity to take

H.S. Roundup

Boys Basketball Pats top Tech

COVENTRY — Leading from start to finish, Coventry High overpowered Cheney Tech, 70-50, Monday night in Charter Oak Conference boys' basketball action.

Both teams are in action tonight with the Patriots, 4-0 in the COC and 5-1 overall, hosting RHAM High at 7:30 and the Techmen, 1-3 in the conference and 1-5 overall, entertaining witless Bolton High, also at 7:30.

Coventry had a 15-6 lead after one quarter and 33-18 halftime bulge. "We never could get it within manageable numbers," said Cheney Coach Aaron Silvia. "We never really could make a run at them. It was consistently a double figure lead."

Coventry's Jack Ayer netted 22 points, giving him the school career boys' scoring mark with 1,170 points. The previous mark was 1,150 set by Alan Schmidt. Still in front of Ayer is the school scoring mark held by 1988 graduate Leslie Danahy, who tallied 1,380 points in his career.

Mike Oswald was 7-for-14 from the floor for Coventry and netted 17 points while Scott Lucas chipped in 11. "I thought we did a good job defensively on Ayer and Oswald. Lucas killed us," Silvia said.

Tony Evans and Sean Walsted led Cheney with 13 and 11 points, respectively, while 6-7 Terrance Phillip added 10. "He (Phillip) had to help bringing the ball back against the press. I think that took something out of him. And whenever he got the ball, we doubled up on him," Badstueber said.

Bolton toppled
CROWMELL — Host Cromwell High had matters its own way in a 51-8 verdict over Bolton High Monday night in Charter Oak Conference girls' basketball action.

Bolton is now 1-5 in the COC, 2-6 overall, with the loss. The Panthers move to 6-0, 9-1 with the victory. Bolton is at Bacon Academy in Colchester Thursday at 7 p.m.

CROWMELL (9) — Les Marchese 20, 2-0, Beth Bartolotta 17, 3-10, Debbie Riccio 12, 2-12, Kelly Dwyer 12, 6-12, Maura Danahy 10, 2-12, Allison Griffin 8, 2-10, Kelly Taylor 5, 2-10, Jennifer Bowen 1, 0-2, Michelle Mellore 1, 0-2, Kelly Taylor 3, 2-10, Jennifer Bowen 1, 0-2, Michelle Mellore 1, 0-2, Kelly Taylor 3, 2-10, Jennifer Bowen 1, 0-2, Michelle Mellore 1, 0-2.

BOLTON (5) — Wendy Neil 0, 0-0, 0-0, Maura Danahy 1, 0-1, Kelly Taylor 2, 1-1, Sophie 0, 0-0, Dawn Bedard 0, 0-0, Kelly Taylor 2, 1-1, Sophie 0, 0-0, Dawn Bedard 0, 0-0, Kelly Taylor 2, 1-1, Sophie 0, 0-0, Dawn Bedard 0, 0-0.

Bengals can use offense

UP FOR THE SHOT — Boston's Robert Parish (00) shoots over the Clippers' Benoit Benjamin in their game Monday night at Boston Garden. The Celtics won, 119-84.

Celts gladly accept win over Clippers

By Howard Ulmon
The Associated Press

BOSTON — So what if the Los Angeles Clippers are one of the NBA's worst teams? So what if they were missing their best player and were finishing a firing, wireless six-game road trip? So what if they're playing bad both offensively and defensively according to their coach?

The Boston Celtics, themselves perpetrators of occasional horrid offense and defense this NBA season, gladly accepted Monday night's 119-84 blowout that brought them to within one game of the Clippers.

"Any win makes you feel better," Celtics forward Reggie Lewis said. "It's a confidence builder," rookie guard Brian Shaw said. "It shows what we can do when we pick up the defense."

"We need wins," Los Angeles Coach Gene Shue said, "and we don't have any."

The Clippers, 10-23 after their losing streak reached a season high six games, led just once, 3-2, but stayed close through the first 4½ minutes of the second quarter. They cut a 28-22 lead after the first period to 35-29 on Benoit Benjamin's dunk.

Then they got dribbled.

Ron Carter's layup with 7:29 left in the second quarter gave the Celtics a 34-28 lead that put Boston on top for good with a 39-18 second period.

"That's a real explosive finish to this game," Celtics coach Doc Rivers said. "Tonight, we got anxious and made some mistakes down the stretch. I don't know if we're an elite team yet, but we are a very good team."

Despite his team's victory, Celtics coach Bernie Bickerstaff was impressed by the Clippers, who have the best record in the NBA at 24-6.

"Cleveland's coming," Bickerstaff said. "I didn't see any weaknesses. Cleveland is truly a great team."

The truth Monday night, though, was that Derrick McKey, who scored a career-high 32 points during a 26-10 second-quarter rout that broke open a tight game.

SPORTS IN BRIEF

Huskies visit St. John's
JAMICA, N.Y. — The University of Connecticut, coming off an upsetting loss (80-78) to Providence Saturday afternoon, returns to Big East Conference warfare tonight at 8 (Channel 4, WJPH) when the Huskies (1-1, 9-3) visit St. John's (1-2, 8-4) at Alumni Hall.

UConn had a seven-point lead against Providence only to lose its cushion and the game coming down the stretch. The Redmen, on the other hand, are coming off a 19-point victory over Villanova. That was on the heels of a 29-point loss to Providence.

Jason Williams leads the Redmen in scoring (18.9) and in rebounding. Freshman Jason Buchanan got his first start against Villanova and excelled.

UConn has not beaten St. John's since Jan. 17, 1981, in Hartford.

Whalers at Winnipeg
WINNIPEG, Manitoba — The Hartford Whalers (16-21-3), coming off their exhibition loss to Central Red Army, resume National Hockey League action tonight at 8:30 (SportsChannel, WTIC) when they visit the Winnipeg Jets (15-14-9).

Winnipeg currently occupies last place in the Smythe Division.

This is the first of four consecutive road games for the Whalers. Peter Siderikiewicz will be in goal for Hartford. Torrie Robertson, who played against the Russians, said Saturday night, is expected to see some action for the Whalers against the Jets.

Harvard topples Central
CAMBRIDGE, Mass. (AP) — Mike Gielen hit a 3-point field goal with 35 seconds remaining in regulation to break a 70-70 tie and propel Harvard to a 75-72 victory over Central Connecticut in a non-conference game Monday night.

Gielen made both ends of a one-and-one with seven seconds remaining to give Harvard a five-point lead. Tony Penny hit a short jumper to put Central Connecticut within three with one second remaining.

Harvard's rebound pass ended the game as the Crimson improved its record to 4-8 overall while Central Connecticut went to 6-7.

Central Connecticut's Bryan Horn scored a team high 29 points and helped Harvard to a 21-point victory at Harvard at the half, 39-38.

LaRosa most improved
WILLMANTIC — Freshman fullback Joe LaRosa, a 1988 graduate of Manchester High, was voted the most improved player with the Connecticut State University men's soccer team last fall.

LaRosa started the Warriors final three games on the front line and scored one goal.

Sophomore forward Nick Cacace, also a Manchester High graduate, was second leading scorer for Eastern (7-11) with 20 points on eight goals and four assists.

Whaler dance Feb. 13
HARTFORD — The annual Hartford Whalers Wives Waltz for the Children, for the benefit of the UConn Children's Cancer Fund, will be held Monday night, Feb. 13, at the Parkview Hilton Hotel. For ticket information, call 728-2366.

Steenbrenner counteruses
NEW YORK (AP) — Dave Winfield sued George Steenbrenner, charging non-payment.

On Monday, three days later, Steenbrenner sued Winfield, charging misusing money from his charitable foundation.

Just another week in the relationship between the outfielder and the Yankees' general manager.

Steenbrenner, in a lawsuit filed in U.S. District Court in Manhattan, accused Winfield of using the David M. Winfield Foundation mainly to promote himself and benefit his friends.

Among other allegations, the suit said Winfield falsely publicized checks made to excuse his play in the 1981 World Series, and listed large sums at high rates to a gambler.

Winfield's lawyer Jeffrey Klein said he could not respond because he had not yet seen the suit. Klein maintained that the foundation has operated properly.

Bill Terry dies at 90
NEW YORK (AP) — When Bill Terry turned 90 last October, his thoughts turned to making the trip to Cooperstown for the summer's Hall of Fame ceremonies. But this year's induction will have to go on without one of baseball's greatest players.

Terry, the last National League player to hit 400 career home runs, died Monday in Jacksonville, Fla., of natural causes. He was a first baseman with the New York Giants from 1923-1936, batting .341 lifetime, and also managed the Giants from 1932-1941, winning three pennants and one World Series.

Teams shift positions
NEW YORK (AP) — There was only one new team in the Top Twenty this week but the positions of the other teams sure did change.

Top-ranked Duke stayed where it has been since the preseason poll and Tennessee and Georgia Tech held the 17th and 19th spots, respectively. Otherwise, a week that saw five of the Top Ten teams lose caused some poll vaulting.

The only newcomer was undefeated Providence which was last ranked for a four-week period near the end of the 1988-89 season when the Friars reached the NCAA Tournament Final Four.

Duke, 11-0, received 63 first-place votes and 1,328 points from the nationwide panel of sportswriters and broadcasters. The Blue Devils were followed by Illinois, 13-0, and Oklahoma, 12-1, each moving up one place from last week.

Illinois received three first-place votes and 1,251 points, while Oklahoma received the only other No. 1 vote and 1,173 points.

But Golden State, which was ranked fourth with 1,087 points after losing for the first time this season, to Pittsburgh, the Orangemen rallied to hand then-No. 10 Seton Hall a 90-66 thrashing.

Lewis, Joyner honored
COLORADO SPRINGS, Colo. (AP) — Track and field stars Carl Lewis and Florence Griffith Joyner are among 97 athletes honored as top 1988 performers by the national governing bodies of the U.S. Olympic Committee.

Lewis, who won four world titles, was honored with the U.S. Olympic Medal. Joyner, who won three world titles, was honored with the U.S. Olympic Medal.

Other honorees include Jim Hines, who won the 100-meter dash at the 1988 World Championships, and Greg Louganis, who won the 1988 Olympic gold medal in diving.

Coe on British team
LONDON (AP) — Sebastian Coe, a four-time Olympic medalist, who was left off the British team for the Seoul Olympics, will return to his national squad for the European Indoor Track and Field Championships in February.

Coe has been selected to run the 800 meters for Britain at the Feb. 18-19 meet at the Hague though he has not competed indoors at that distance since 1983, when he set a world-best time of 1 minute, 44.91 seconds.

Providence riding high after climbing the ladder

By Jim O'Connell
The Associated Press

You can't measure it on a map but it's a long way from 11-17 to a Top Twenty ranking. Providence has made the trip.

Listening to first-year coach Rick Barnes, the Friars won't be stopping along the way to slap themselves on the back.

The Friars won their first 12 games this season and entered the Top Twenty Monday as the No. 20 team. Not bad for a team that was picked ninth in a preseason Big East coaches' poll. That's ninth at in last, and the vote wasn't even close.

Yet when Barnes was told his team had cracked the rankings, there was little apparent emotion.

"I do not know what's in my set out to do," he said Monday. "We have to be the best we can be in March and not look back and say we could have done anything more. I just hope we can do that."

Providence was in the Top Twenty for four weeks last in the 1986-87 season, on the way to an appearance in the NCAA Tournament in 1977 and 1978. Coach Gavitt was the coach then, before leaving to take over as commis-

sioner of a new league called the Big East.

Barnes knows how difficult it will be to get into the field this year. To make matters worse, Providence is the sixth Big East team to be ranked as second this season.

"That's what makes it so tough for coaches in the Big East and that's why I really respect those guys who have been in the league for a long time and have gone through it," he said. "These players have more experience in the Big East than I do. This can be a nightmare every single night. You have to find a way and be ready every night and that's still not enough sometimes. You've got to be able to focus on one game at a time. This is a long haul. Providence fans are crazy right over a team which has yet to lose and has posted a 3-0 record in the conference after a 5-11 mark last season.

"Always keep in your mind there hasn't been an undefeated team in college basketball in 13 years, and with the parity of today there won't be any for a long time to come. Barnes said. "Our players have kept every-thing in perspective. They understand we have a long way to go."

NCAA to delay action
RALEIGH, N.C. (AP) — The NCAA will wait until it has a book on the North Carolina State basketball program is published before deciding whether it contains allegations that should be investigated by the organization's director of enforcement says.

N.C. State officials mailed a letter to the NCAA on Monday asking for an investigation into allegations of illegal activity in the school's basketball program.

"I don't know what's in the book. As I understand so far that all anyone has is a jacket to a book. And it's being promoted as something detrimental to North Carolina State," David Berst, the NCAA director of enforcement, said while attending the NCAA convention in San Francisco. "I would prefer to wait until we actually have a book and someone reads the book and determines if there's anything in there to be interested in. I'm not inclined to get excited about it until we actually have something in hand."

Doty leaves draft for now
MINNEAPOLIS (AP) — The NFL players' union claims the college draft is illegal and wants it abolished. The NFL's 28 team owners say the draft is legal because the right to hold it was won through collective bargaining and, as the cornerstone upon which the league has been built, must be preserved.

U.S. District Judge David Doty, who may ultimately decide the draft's fate, is saying little about the issue for now.

In a ruling seen as a victory by both sides, the federal judge on Monday denied a request by NFL owners for permission to hold the college draft until 1992, but, at the same time, declined to rule on its legality.

Doty said that until the NFL Management Council, which represents the league's owners, and the NFL Players Association reach a bargaining impasse on the issue, the owners "are exempt from antitrust claims on the college draft provision up until the expiration of the agreement."

Steenbrenner counteruses
NEW YORK (AP) — Dave Winfield sued George Steenbrenner, charging non-payment.

On Monday, three days later, Steenbrenner sued Winfield, charging misusing money from his charitable foundation.

Just another week in the relationship between the outfielder and the Yankees' general manager.

Steenbrenner, in a lawsuit filed in U.S. District Court in Manhattan, accused Winfield of using the David M. Winfield Foundation mainly to promote himself and benefit his friends.

Among other allegations, the suit said Winfield falsely publicized checks made to excuse his play in the 1981 World Series, and listed large sums at high rates to a gambler.

Winfield's lawyer Jeffrey Klein said he could not respond because he had not yet seen the suit. Klein maintained that the foundation has operated properly.

Bill Terry dies at 90
NEW YORK (AP) — When Bill Terry turned 90 last October, his thoughts turned to making the trip to Cooperstown for the summer's Hall of Fame ceremonies. But this year's induction will have to go on without one of baseball's greatest players.

Terry, the last National League player to hit 400 career home runs, died Monday in Jacksonville, Fla., of natural causes. He was a first baseman with the New York Giants from 1923-1936, batting .341 lifetime, and also managed the Giants from 1932-1941, winning three pennants and one World Series.

Teams shift positions
NEW YORK (AP) — There was only one new team in the Top Twenty this week but the positions of the other teams sure did change.

Top-ranked Duke stayed where it has been since the preseason poll and Tennessee and Georgia Tech held the 17th and 19th spots, respectively. Otherwise, a week that saw five of the Top Ten teams lose caused some poll vaulting.

The only newcomer was undefeated Providence which was last ranked for a four-week period near the end of the 1988-89 season when the Friars reached the NCAA Tournament Final Four.

Duke, 11-0, received 63 first-place votes and 1,328 points from the nationwide panel of sportswriters and broadcasters. The Blue Devils were followed by Illinois, 13-0, and Oklahoma, 12-1, each moving up one place from last week.

Illinois received three first-place votes and 1,251 points, while Oklahoma received the only other No. 1 vote and 1,173 points.

But Golden State, which was ranked fourth with 1,087 points after losing for the first time this season, to Pittsburgh, the Orangemen rallied to hand then-No. 10 Seton Hall a 90-66 thrashing.

Lewis, Joyner honored
COLORADO SPRINGS, Colo. (AP) — Track and field stars Carl Lewis and Florence Griffith Joyner are among 97 athletes honored as top 1988 performers by the national governing bodies of the U.S. Olympic Committee.

Lewis, who won four world titles, was honored with the U.S. Olympic Medal. Joyner, who won three world titles, was honored with the U.S. Olympic Medal.

Other honorees include Jim Hines, who won the 100-meter dash at the 1988 World Championships, and Greg Louganis, who won the 1988 Olympic gold medal in diving.

Coe on British team
LONDON (AP) — Sebastian Coe, a four-time Olympic medalist, who was left off the British team for the Seoul Olympics, will return to his national squad for the European Indoor Track and Field Championships in February.

Coe has been selected to run the 800 meters for Britain at the Feb. 18-19 meet at the Hague though he has not competed indoors at that distance since 1983, when he set a world-best time of 1 minute, 44.91 seconds.

SCIENCE & HEALTH

CELESTIAL DISCOVERY — Andrew Fruchter, right, one of the discoverers of a "black widow" binary, is joined Monday by researcher Jeff Hester for a presentation on

Scientists watch as 'Black widow' star kills mate

By Daniel Q. Honey
The Associated Press

BOSTON — Astronomers have spotted a star as it devoured its companion orb, and perhaps solved a celestial mystery.

Scientists have long argued about how some supernova stars called pulsars could get themselves spinning hundreds of times a second. The question may now be answered by the discovery of a black widow binary — a star that like the spider uses its companion and then destroys it.

If current theories are correct, the star represents a celestial missing link, a bridge between fast-spinning stars that have millions of pulses per second and the dimmer pulsars that spin only once every second.

The combination of the star and its companion, labeled PSR 1507-20 in astronomers' shorthand, was discovered last spring by Andrew Fruchter of the Carnegie Institution in Washington.

At a meeting Monday of the American Astronomical Society, scientists described the significance of the find in understanding the life and death of the stars.

The duo is made up of a pulsar, an incredibly dense ball of neutrons that transmits rhythmic beats of radar. It is orbited by a much larger ordinary star known as a brown dwarf.

Astronomers have evidence that the pulsar is transmitting a powerful blast of energy that is literally blowing its companion away. They believe this is the late phase of long, one-sided relationship between the two in which the pulsar steals matter from its mate to boost its speed, then turns on a bed of straw.

Astronomers theorize that such fast-moving pulsars speed up by stealing a stream of matter from a companion star. The companion "spins up the pulsar like a top," said Fruchter.

However, astronomers have noticed while some of these fast-spinning pulsars have companions, others do not.

"People wonder why if you spin up the pulsar with a companion, where is the companion?" said Fruchter. "This may explain that. The pulsar has evaporated the companion."

Astronomers theorize that such fast-moving pulsars speed up by stealing a stream of matter from a companion star. The companion "spins up the pulsar like a top," said Fruchter.

Estimate of smoking-related deaths up

BOSTON (AP) — A new surgeon general's report on smoking scheduled for release this week increases the estimate of smoking-related deaths by 30 percent to 390,000 a year, The Christian Science Monitor reported Monday.

The report, which comes 25 years after the first surgeon general's report on smoking, also cites cigarette smoking as the cause for nine out of 10 lung cancer deaths among women, the newspaper said.

Other conclusions in the report by Dr. C. Everett Koop are that lung cancer now surpasses breast cancer as the leading cancer killer among women, 43 chemicals in tobacco are now confirmed as cancer-causing, smoking is a major cause of cerebral vascular disease.

Koop's increase in his estimate of smoking-related deaths from 300,000 annually is due to more accurate accounting rather than more lethal cigarettes, the Monitor said in a release it distributed

two days before the report was to have been made public.

Koop estimates that 50 million Americans still smoke, the newspaper said.

Children, especially girls, are smoking at younger ages, the Monitor quoted the report as saying, with 40 percent of smokers born since 1935 starting before the age of 21, despite state age restrictions on the purchase of cigarettes.

However, Koop found that in 1987, nearly half of all adults who had smoked had quit, with the trend particularly true among men.

The Tobacco Institute began a campaign in newspapers around the country in mid-1987, then turned to the media, "Enough is enough," the institute said. The results of a nationwide poll it commissioned shows that the majority of Americans do not want an increase in cigarette taxes, more smoking bans or the elimination of cigarette advertising.

IN BRIEF

Orthopedic surgery ends

NEWINGTON (AP) — The Veterans Administration Medical Center, where a \$1.2 million budget cut has already forced cuts in other areas, plans to stop providing orthopedic surgery Jan. 31.

Sheldon Fine, associate director of the center, said patients would be referred to other VA medical centers that offer the services.

The center now performs orthopedic procedures such as hip replacements for inpatients needing bone or joint surgery.

The center closed its inpatient alcohol treatment unit Jan. 1, and is referring those needing such treatment to VA medical centers in Northampton, Mass., and West Haven, Conn.

The center will also stop offering inpatient ophthalmological surgical services Jan. 31.

The center will retain its optometry program for outpatients needing eye examinations and glasses, but will refer those who need surgery to the VA center in West Haven, Conn.

The reductions are because of inflation and a \$1.2 million cut in the center's \$32 million budget, which went into effect Oct. 1, he said.

Quake off of New Guinea

HONOLULU (AP) — An earthquake capable of severe damage shook the western tip of New Guinea, officials said.

The tremor measured 6.3 on the Richter scale and struck at 7:55 p.m. HST Monday (12:55 a.m. Tuesday EST), according to the Pacific Tsunami Warning Center here.

No Pacific-wide tsunami was generated, the center reported.

The quake was centered in the Ceram Sea, off western New Guinea. The area is about 500 miles southeast of the Philippines and 700 miles north of Darwin, Australia.

The Richter scale is a measure of ground motion as recorded on seismographs. Every increase of one number means a tenfold increase in magnitude.

An earthquake of magnitude 6 can cause severe damage. A magnitude 7 quake is a "major" earthquake, capable of widespread heavy damage; 8 is a "great" quake, capable of tremendous damage.

Exercise your memory

NEW YORK (AP) — Remember to exercise because exercise is good for your memory, says the Reebok Aerobic Information Bureau.

It says University of Kentucky researchers administered memory tests to 66 adults and then put 22 of them into an aerobic exercise program while the others remained sedentary.

After 12 weeks, the exercisers who improved over 15 percent in fitness also improved slightly in short-term and significantly in long-term memory. Dr. Kathleen Blomquist, professor of nursing, says regular exercise increases the oxygen and sugar available to the brain, helping it function better.

City's healthy hospitals rescue sick competitor

By Dean Golembek
The Associated Press

HARTFORD — If Robin Hood were around, he'd be pleased with the way Hartford's three general hospitals are conducting business.

The city's two financially healthy hospitals have added surcharges to their bills to raise \$2.2 million this fiscal year and are using the extra funds to keep the third operating.

Officials say the yearlong rescue effort for Mount Sinai Hospital is the first of its kind in Connecticut and may be unique in the nation.

"It's certainly going to help us through 1989," said Robert B. Bruner, president and chief executive of Mount Sinai.

The hospital lost \$2.2 million in the fiscal year that ended Sept. 30 and faced the prospect of losing money again this year, when Bruner sounded the alarm. If the city's smallest general hospital and the state's 12th largest didn't get help, it faced the prospect of shutting down.

"I believe in preventive medicine. I rang the bell early," Bruner said.

As expected, the Commission on Hospitals and Health Care, which sets rates for the state's general hospitals, responded. But in a cooperative spirit unusual for most competitors, so did Hartford Hospital and St. Francis Hospital and Medical Center.

"By assisting Mount Sinai, we are honoring our own commitment to the community," said Carole Stasiowski, a spokeswoman for St. Francis. She noted that her hospital also has had a long commitment to helping poor patients and those unable to pay for treatment.

All three parties recognized that the city couldn't cope if Mount Sinai went out of business and eliminated its 379 beds. Located in the city's impoverished north end, Mount Sinai admits about 12,500 patients and provides more than 85,000 outpatient treatments each year, Bruner said.

Together, state and hospital officials devised the bail-out program, Bruner said. It was based on a practice common to hospitals, which typically shift costs to wealthier patients to offset losses that result from treating those who can't pay, as well as poor and elderly insured under government programs.

"This type of Robin Hood has taken place within hospitals for years," Bruner said.

But it was taking from the rich that put Mount Sinai into its money-losing situation. About 60 percent of Mount Sinai's patients have their bills paid by Medicare and Medicaid, government programs that cover less than a hospital's full costs. It has been projected these programs will fall \$38 million short of the hospital's

'Nothing Sacred' is like a Russian novel, but it isn't

ACTIVISTS ON LEAVE — Student activist Yevgeny Bazarov, left, played by Christen Baskous, visits the home of his buddy, Arkady Kiranov, played by Robert Stanton, following their graduation. The two debate revolution as part of "Nothing Sacred," the current offering at Hartford Stage Company.

Center Stage

Robert Donnelly

Russia is a large country, with a long, colorful and complex history. Like a Russian novel, many of its characters are long, with complex plots, and many colorful characters.

The same could be said for the current offering at the Hartford Stage Company, called "Nothing Sacred," which is Canadian playwright George F. Walker's free adaptation of "Fathers and Sons" by 19th century Russian novelist Ivan Turgenev.

Like a Russian novel, Michael Yeargan's set design is open, long and intricately decorated. A narrow, runway-length platform far upstage is backed by a cinema-size white screen, behind which one can see a shadowy line of waving wheat.

Covering the floor of the theater was a weathered wood platform, surrounded by piles of eclectic attic and cellar "finds." Chairs, benches, baskets, champagne buckets, icons, Orthodox crosses and brass bedsteads are strewn about on a bed of straw.

From these components the actors select appropriate bits and pieces to establish scenes in a farmhouse, hotel room and barnyard, all the while singing a

contrapuntal tune, possibly in Russian.

Walker's play is very similar to Yeargan's set. It is big and open and long and full of piles of very interesting material.

The author advises that "Nothing Sacred" is a Canadian play, not a Russian tragedy. The revolutionary, Yevgeny Vassilych Bazarov, played with cutaway wit and world weariness by handsome Christen Baskous, is accompanying his friend Arkady Kiranov, played by Robert Stanton, to visit home.

A recent university graduate who is a medical student, still there is an apparently brotherly bond between the two.

Tall, gangly Stanton is a nicely balanced compliment to the much shorter Baskous.

Walker's play is very similar to Yeargan's set. It is big and open and long and full of piles of very interesting material.

The author advises that "Nothing Sacred" is a Canadian play, not a Russian tragedy. The revolutionary, Yevgeny Vassilych Bazarov, played with cutaway wit and world weariness by handsome Christen Baskous, is accompanying his friend Arkady Kiranov, played by Robert Stanton, to visit home.

A recent university graduate who is a medical student, still there is an apparently brotherly bond between the two.

Tall, gangly Stanton is a nicely balanced compliment to the much shorter Baskous.

Patrick Garner is a comic gem and Jodi Long is an exotic aristocrat.

The quartet of Kevin Davis as bailiff, Daryl Edwards as the butler, and a chief of turned-gentlemen-in-training, Thomas Anderson as a servant and the enormous Jeffrey V. Thompson as a bodyguard were impressively controlled pieces of acting, considering the arguable stereotypical casting.

Frances Aronson provided a cleanly lit arena and Claudia Brown dressed peasants, scholars, fops and ladies in appropriate and imaginative costumes.

There are great dollops of humor in "Nothing Sacred." There are also several universal questions about goodness and respect, responsibility and love and the reason for love.

There is a great deal of talk. Some of it is very amusing and highly interesting. Some of it is not.

Director James Simpson keeps things moving at a brisk pace with the exception of one long conversation between the brothers Kiranov and has added several witty stage inventions.

But one must ask as Bazarov asks his friend, Stnikov, "Viktor, what is the point of the story?"

"Nothing Sacred" by George F. Walker continues through Feb 4 at the Hartford Stage Company, 50 Church St., Hartford. Call 527-5151 for information.

Broadway's '42nd Street' closes after 8 years

NEW YORK (AP) — The dancing feet of the cast of "42nd Street" took to the stage one last time, as the second longest-running show on Broadway closed after eight years and 3,486 performances seen by 10 million people.

People wonder why if you spin up the pulsar with a companion, where is the companion?" said Fruchter. "This may explain that. The pulsar has evaporated the companion."

Astronomers theorize that such fast-moving pulsars speed up by stealing a stream of matter from a companion star. The companion "spins up the pulsar like a top," said Fruchter.

However, astronomers have noticed while some of these fast-spinning pulsars have companions, others do not.

"People wonder why if you spin up the pulsar with a companion, where is the companion?" said Fruchter. "This may explain that. The pulsar has evaporated the companion."

GOP pick a surprise in Bolton

By Andrew J. Davis Manchester Herald

BOLTON - The Republican Town Committee has rejected an incumbent selection as its choice for first selectman and has endorsed a prominent party member whose father held the job for 12 years.

PRE-GAME WARMUP

John Nitschke of 46 Cooper St. warms up for a game of basketball Tuesday at the Mahoney Recreation Center at Washington School.

Kids learn about lead danger

Editor's note: This is the last story in a three-part series on lead levels in town water and how residents can protect themselves against the health risks associated with ingesting too much lead.

The water authority that serves the New Haven area has come up with a novel way to make drinking water in schools safer, but Manchester officials have no immediate plans to implement such a program here.

20 years later, trek to Vietnam is no sweat

By Mousreem Leovitt Manchester Herald

Douglas A. Johnson Sr. wasn't sweating too badly when his son was preparing to leave today for Vietnam. But it was a different story 20 years ago.

Testing spotty for drug use

By John King The Associated Press

WASHINGTON - Twenty percent of all American workers are now employed by companies that test for drug use, but only one employee in 100 actually is tested in a 12-month period, the government reported today.

Reagan on TV for 'farewell'

By W. Dale Nelson The Associated Press

WASHINGTON - George Washington delivered his farewell address to a Philadelphia newspaper, Lyndon Johnson and Gerald Ford delivered theirs to Congress, and Ronald Reagan is turning to the medium of which he is most the master - television.
