WOODBIDGE FARM BARN RESTORATION PROJECT GIFT/PLEDGE FORM

The Manchester Historical Society is restoring its late 18th-century historic Woodbridge Farm Barn. One of the oldest remaining barns in our area, the barn was most recently the home of the Meadowbrook Dairy Farm, which operated from the early 20th century until 1949. Once restored, the barn will be interpreted as a dairy barn and it will become an integral part of our mission to educate adults and children alike on the workings of a historic Connecticut dairy farm. Will you please help?
