HARDING TO SPEAK TO DIRT FARMERS Program Calls for an Address This Afternoon in Hutchinson, Kansas— Next Stop Will Be Denver, Colo.

Hutchinson, Kan., June 23.—His World Court and railroad speech behind him. President Harding came out among the "dirt farmers" of Kansas today to talk agriculture.

When the customs officers first went aboard the Baltic the work of receiving the liquor was done by a telephone message from the office of the collector of the port.

When the customs officers first went aboard the Baltic the work of receiving the liquor was done by a telephone message from the office of the collector of the port.

RAILROADS OF U. S. MAY NOW COMBINE

Legal Pathway Opened to Break Sherman Anti-Trust Law to Reduce Costs of Operation.

Washington, June 22.—A legal pathway has been opened for American railroads into a few great systems has been opened by the Commerce Commission in giving nominal approval to the proposed merger of five midwestern carriers, government officials declared today.

Other Roads to Follow. Predictions were made that numerous other roads would avail themselves of the commissioner's verdict to arrange mergers.

After Dog Killer. Bridgeport, Conn., June 23.—Local police and agents of the Connecticut Bureau of Investigation today started a joint investigation to bring about the arrest of a person who caused the death of a dog and a cat here during the past two weeks. Accusations were made in every case.

HIGH SCHOOL GRADUATES LARGEST CLASS IN HISTORY

Eighty-seven on List to Receive Diplomas—Girls Do All the Talking—Superintendent Verplanck Comments Devotion of Teachers.

The break in the hot wave which came yesterday was welcomed by the hundreds of High School pupils and their friends who flocked to the assembly hall last night to attend the graduation of the highest class from the South Manchester High School. It was the largest class to graduate in the history of the school. Eighty-seven pupils received diplomas. Nearly half of these were young men but for the most part the honors all went to the young ladies. The only honor assigned to the young men was that of moving the furniture.

Knight Cheney Homestead Scene Ceremony—Wedding Moon in France.

EQUALITY OF OPPORTUNITY

Equality of opportunity seen to be the first step toward equality for himself. "All men," says Dr. Gore, "should be treated as equals and have an equal opportunity of making the best of themselves."

Thompson 'Man-Woman' Is Up on Trial Today

Chicago, June 22.—(Press & Tribune.) Thompson, the man-woman who the police have fled a charge of murdering Richard C. Tesmer in a hold-up, was to battle for his liberty today when he was to appear before Judge Hennessey and plead to the charge. Meanwhile, the police still were trying to find an underworld character named "Slim" who, they said, may have been the accomplice of Thompson on the night of the murder.

Austrian Woman Who Cut Throat In Novelist's Home, is Recovering

London, June 22.—Mrs. Hedwig Verena Gatterer, an Austrian travel agent who attempted to kill herself with a razor in the home of G. G. Wells, the famous novelist, was recovering today in the Westminster infirmary.

NO MORE AIR BOMBARDMENTS OF TOWNS, NEW LAW DECLARES

Time of War Dropping of Bombs on Cities and Towns or Hospitals.

International Rule Forbids in

Washington, June 22.—Another of the major accomplishments of the Washington arm conference has been consummated with the acceptance by the allied powers of the new rules of international law governing the use of radio and aircraft in time of war.

RIGGER FALLS 250 FEET

Millford, Conn., June 22.—(Nov 22.) A 25-foot high dam at Derby, Conn., was transferred to Derby to receive more adequate treatment of the left leg. The contractor's company refused to issue a statement as to the accident.

MAIN STREET WORK NOW HALF DONE

Contractors Plan to Finish East Side by End of Next Week—Entire Job to Be Completed by Sept. 1.

According to one of the supervisors on the Main Street job the work of the entire east side will be completed by one week from today. He told a Herald man this morning that they planned to complete the concrete work of that side of the street as well as in the square at the Center before the men quit the job at the Center every day this week and be back in the square around the church. All traffic will be diverted from the Center to the street before the men quit the job at the Center every day this week and be back in the square around the church.

LEWIS PLEADS GUILTY

William Lewis pleaded guilty to the charge of causing an automobile to be driven into the influence of liquor in the police court this morning. He was represented in court by Attorney W. S. Hyde.

BOX HUNT BY AUTOMOBILE

Mikee Crook, eight years old, of 14 Broad Street, narrowly escaped serious injuries at noon today when he ran into a truck driven by Arthur Gaviner of School Street. Only prompt action on Gaviner's part averted killing the little boy who dashed across the street directly in front of the truck.

To Attempt Flight Around World

Dr. Moore said at press time that the boy showed no signs of internal injury and that the flight will be in a few days.

MANCHESTER LODGE OF MAZONS

Manchester Lodge of Mazons will confer the R. A. Degree at a special communication at 8 o'clock this afternoon. Aglin at 8 o'clock the lodge will confer the same degree on a second class. At the intermission light refreshments will be served in the banquet hall.

# The Herald's Weekly Construction Review

**--FASHIONS-- FANCIES--  
--FACTS-- FOOD--**

The knitted Jaquette, in lovely soft tones in all agreeable variations of the always useful sweater. It adapts itself equally well to summer frocks or pleated skirts.

Miss Louisa Lee Schuyler was recently awarded the medal of the Roosevelt Association for the most distinguished work in the field of welfare of women and children. Miss Schuyler, with Mrs. William H. Rice, was the secretary of the New York State Charities Aid Association for public relief in New York City and state. Their accomplishments are written large in the history of the state.

June is the time to plant the seed of persimmons. The soil should be kept moist and unobstructed, but it has been my experience that it requires infinite patience. Very few of the seeds seem to germinate, and it is as possible to see it as better to obtain the young plants the second year from a reliable grower of experience.

The Storm Chasers Review brings some interesting results of the work of the Home demonstration agents in the small towns of the state, which covers almost every field of activity in and about the home or farm. There is a brief report of the first military class at the Green, which states that "twenty-six women, two husbands and eleven children attended the all-day meeting and music; hats were made and finished. We propose to find out what these two husbands did at that all-day meeting—perhaps the catering.

In the above publication is a recipe for graham bread from a Washington Depot contractor, and as I happen to know the lady in question and her reputation for good cooking—I mean to try it some day:

- 2 1/2 cups graham flour,
- 1 cup white flour,
- 1 teaspoon salt,
- 1-2 teaspoon soda,
- 2 cups sour milk,
- 1-2 cup molasses.

1-2 cup raisins if desired.

The new cream colored sport wool skirts are one of the prettiest of the summer styles. They are either perfectly plain, severely tailored with large buttons, pleated in clusters, or in the case of the basket weaves, very often have threads drawn, forming square effects.

## FASHION'S LATEST

## Smart Variety in Knitted Frocks

The knitted frock, that most popular member of the dress family, and one of the leaders in the knitted outer wear, is sweeping all before it. Wherever one goes, the knitted frock in its various interpretations, meets the eye. It is equally at home on the links, the shore in the picnic, or, in fact, at any place where smartly tinted women are to be seen. It is an easy matter to linguist the frock illustrated, worn upon almost any occasion, and one must only perfect comfort of the wearer. The habit of combining knitted with silk is an especially popular one, and good use of it is made here. In this instance the dress appears in a slender, self-grace may be worn with the frock illustrated, or one may substitute over any other material that it shall be attached casually at one side, where it is permitted to depend from the edge of the blouse in the most nonchalant manner.

The introduction of the two-piece knitted frock was singularly fortunate, inasmuch as women are expected to depart for a time from the straight line, chemise type of frock which has been so much in the picture. A slender, self-grace may be worn with the frock illustrated, or one may substitute over any other material that it shall be attached casually at one side, where it is permitted to depend from the edge of the blouse in the most nonchalant manner.

Miss Louisa Lee Schuyler was recently awarded the medal of the Roosevelt Association for the most distinguished work in the field of welfare of women and children. Miss Schuyler, with Mrs. William H. Rice, was the secretary of the New York State Charities Aid Association for public relief in New York City and state. Their accomplishments are written large in the history of the state.

## HATS OF WOOD

### THE LATEST

New York, June 22.—Now we have hats of wood. The latest in the shops on the Avenue are close-fitting, fish-bone-like hats, made entirely of wooden beads. They are strong and encircled on the head much like the pearl caps of Juliet's day, and they come in all colors imaginable. There is nothing fashion can't hit upon when she is really bent on a new achievement.

Down on Long Island a gentlemanly, courteous man, whose English is polished as well as correct, sells hot dogs and soda water to the youngsters of the neighborhood from a little hole-in-the-wall. Two years ago, that same man was at the head of one of the biggest, and presumably strongest, brokerage houses of the Consolidated Exchange, with a business running into millions annually. The crash came and young R. D. MacManis, head of the company, was forgotten when he faded from Wall Street after he had lost his few remaining dollars in the hot dog place and works away there ten or twelve hours a day.

Will Rogers says it's a grand thing when you see a motion picture, to be able to say to yourself, "Well, that's a terrific picture, but I'll have to see the actors' morals look a lot better, anyhow."

Raspberries are beginning to ripen and a refreshing drink for hot weather is made by the use of one quart homemade made as usual, one pint of raspberry syrup, one cup shredded pineapple. Chill on ice for two hours, serve with sprigs of fresh mint.

A neat way of caring for rubbers when not in use, is to fasten a nicke towel rack in the closet where they are kept and hang the rubbers on the rack by the heels.

New apron designs in subdued tints are very artistic. The apron is usually cut on curved lines and is buttonholed around the edge. Sometimes a single large flower like a poppy forms the pocket. A poppy bud and leaves will represent on one side near the neck with others placed at each side of the apron at the foot.

If you have no candle holders for a child's birthday cake use marshmallows to hold the tiny candles. The cake will present an attractive appearance to.

## TO EXAMINE BROKERS.

New York, June 22.—The New York Stock Exchange today took steps to investigate the financial standing of its members, owing to numerous failures of brokerage firms recently.

## Authors

The Exchange committee on business affairs notified all members to furnish all private telegraphic dispatches of the past two weeks relating to the financial conditions of Exchange members.

Miss Louisa Lee Schuyler was recently awarded the medal of the Roosevelt Association for the most distinguished work in the field of welfare of women and children. Miss Schuyler, with Mrs. William H. Rice, was the secretary of the New York State Charities Aid Association for public relief in New York City and state. Their accomplishments are written large in the history of the state.

## BONDS OF SILK

### Gift to Lyons Strengthens Bond Between Nations.

"The recent presentation of silk to the City of Lyons by M. Liebert, French Consul General of New York City," said Honore C. Cheney, South Manchester authority "marks still further the cementing of the bond formed between France and America in the recent war."

"Millions of American men drawn from all classes, all professions and all industries have battled on French soil, and have shared as brothers with the men of France, war's horrors and its triumphs."

"And if history indeed repeats itself the hearts and minds of those Americans will bear forever the stamp of what they saw, and heard and felt in France. Their contract—in circumstances inducing more than usual reciprocities—with French thought, French art and architecture must bear proof."

"And touched by the Genius of France those men are now returning to their former spheres and we who remain cannot escape their influence—we must be, and are, ready to receive and to feel, the dictates of the Genius of France."

"The feeling of authority in matters of the best that France gives makes one confident of her judgment in the arts and fabrics of the present ability to interpret the newer trend, which the world is yet to witness."

## NO MORE PARCELS UNTIL JULY FIRST

New York, June 22.—No parcel post packages addressed to foreign countries will leave this port next week, and even first class mail will be held up from June 23 to July 1.

This announcement was made today by the superintendent of outgoing foreign mail. The reason for this order, emanating from Washington, is that the increase has been so great and unexpected in American mail for foreign countries that the Post and Telegraph department has \$5,000,000 appropriation for that purpose has been practically all used.

It is estimated that 50,000 parcel post packages and 90,000 first class letters will be held up from July 1, when the postal appropriation begins.

Tale pictures Sunday, Kodak film is dependable at Edward J. Murphy's Pharmacy, Dept. Square—adv.

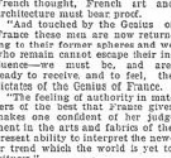

## Piches

### Reports of next season's theatrical offerings are already coming in and as usual there is a thrill in them.

Next season's theatrical offerings are already coming in and as usual there is a thrill in them. One of the new plays, entitled "Success" will play here in "Anthony and Cleopatra" and "Twelfth Night" after an engagement on the Pacific Coast in "Romeo and Juliet." Another Miss play, entitled "Success" will be brought over early in the season, as will "By the Grace of God" by the author of the present hit, "Aren't We All?" This is just the beginning of the announcements and others will come thick and fast from now on.

The Bird of Ill Omen has appeared again at Pelham Bay, our happy residents are just about the habit of island. The bird is only a scrawny and apparently ancient sparrow, but in every croak is a sound of sinister portent to the usually unrepentant Pelhamites. They remember the several fatalities and near fatalities that occurred last summer in the wake of the Bird of Ill Omen. Fishermen were drowned, the worst storm in the section's history came upon them, a whale scare cut off all swimming contests, unkillable rats overran Chinnorowp Island, the pride of the bay. And now the bird is back, sitting on its rock as it did last season, with omens sticking out all over its back.

Lucy Jeanne Price.

Here's Ada, the pitcher of Philadelphia A. C.'s feminine baseball team, who is said to twist almost big League baseball.

## YALE SUPERMAN IS CALIFORNIA YOUTH

New Haven — California has given Yale another "superman," this time in the intellectual class, in Francis Otto Matthiessen, whose name was in Pasadena, Yale senior class valedictorian. Matthiessen was a student, most scholarly, most brilliant, and most likely to succeed. This honor is an admiration and love for the best traditions of that high scholarship to the service of which his university are dedicated.

To make the honor immediately substantial, Matthiessen was awarded \$500 in cash, as a result of a prize offered by Mrs. Alphonse Henry Snow, of Washington, D. C., in memory of her husband, who was a member of the Yale class of 1879. The Snow prize was awarded this year for the first time and becomes a permanent feature of the Yale prize list.

Besides getting the cash prize Matthiessen in the present year was awarded a Rhodes scholarship and the famous DeForest public speaking award. He was elected to Phi Beta Kappa, the high-student fraternity. Besides these activities he found time to be a class leader in the University Y. M. C. A., managing editor of the Yale Daily News, and an editor of Yale Literary Magazine.

Scientists believe that all salt wherever found, has come originally from the sea in some way or other.

BIG U.S. SHIP BREAKS ALL OCEAN RECORDS

Ex-Head of Shipping Board Tells President That Leviathan is Champion of the Seas

New York, June 23.—Albert D. Lasker, former chairman of the United States Shipping Board, today told President Harding that the great ship had broken all speed records on her trial trip...

The following copy of the message was given out at the office of the United States Shipping Board:

Copy of Message. "I have the honor to inform you that the S. S. Leviathan which was reconditioned and put into service through the constant encouragement you have always given the Merchant Marine, has within the last 25 hours, broken all established speed records for sustained speed."

Break Records. "She has made 23 1/2 knots in one hour. She has sustained 22 knots for six hours. She has, during the 25 hour period, an average speed of 67 1/2 knots, the average speed being 27 1/2 knots per hour. The distance run is 2,000 miles further than the fastest record made by a turbine ship in its first trial run. America has the largest, the finest and the fastest ship in the world. An inspiring premiere ship to our merchant marine, may this performance entice our people as it should and be so inspiring to you for your constant interest in and enthusiasm for America on the seas."

COUPLES ARRESTED. Bridgeport, Conn., June 23.—John Harvey, 31, alias Harry Beebe, wanted in New Haven as a witness in a federal case, was captured at the point today by Detective Sergeant John Curry today after a chase down the stairs past through hallways of an apartment house at 96 Courtland street. Mrs. Gertrude Harvey, 31, wife, also was arrested on the same charge. The pair were to have appeared as witnesses by United States Commissioner B. H. Lynch in the case of United States against Rocco Feinbo, on Thursday.

ATTACHED BY DOG. Youngstown, Ohio, July 23.—Former Justice John H. Clarke, of the United States supreme court, occupied a vacant room today when attacked by a mad dog at his home here. The bite tore Mr. Clarke's clothing but did not lacerate his body. First reports to police said the jurist had been badly bitten.

SEEDS MAINTAIN VITALITY IN VACUUM DISCUSS. Plant seeds will retain their powers of germination indefinitely if they are kept in vacuum containers Professor Lecomte announced to the French Academy of Sciences. Experiments conducted by the professor showed that radish and lettuce seeds and grains of wheat, conserved in vacuum containers for sixteen years, still germinated quickly when brought into the air. Practically the discovery will be utilized to transport certain kinds of seeds which ordinarily quickly lose their germinating power, long distances from the places where they are sown.

MANER LARGE OMELETTE. Columbus, Ind.—Twenty-three thousand four hundred eggs in one big scramble resulted when George Sommers drove a truck loaded with sixty-five cases of eggs into a ditch.

# THE VACATION SEASON IS NOW HERE

## Toilet Articles for Vacationers!

To really enjoy your vacation you should have a full supply of high grade toilet articles. It is best for your comfort and for your health. Here are some of the many things you will want to take with you.

**Quinn's Pharmacy**

## TOILET POWDERS IMPORTANT FACTOR IN WOMAN'S VACATION

### Interesting Facts About Them.

Toilet powders used for the purpose of adding to the comfort of the user have long been sold. One of the first to be used extensively was starch, either pure or mixed with other powders, and it was very useful for drying the skin surface until better powders became known.

The chief constituent of our talcs is the finest, softest, most velvety powdered talc we have known to buy. And it might tell you that we have made many tests of many talcs from many lands. We are using the highest grade of Italian talc and we do not know where in the world any other better may be had. Colgate talc powder contains an appreciable percentage of boracic acid and some other ingredients that go towards making ideal comfort powder. It is used to dry excessive moisture from the surface of the objectionable property of extracting any of the moisture that belongs in the skin. It is used to prevent or relieve chafing. It promotes skin health and body comfort.

The time was when most ladies discarded face powders. These same ladies recognized at once the benign effect of high grade talc powders on their infants and gradually became users themselves. It became quite common with those who had bought talc powders solely for the comfort they produced to dab a little of the powder on their faces at first, remove the nation, and later, mirabile dictu, because they actually believed that it added to their beauty! Thus it became quite a general practice among ladies to use talc powder on the face at a time when they still adhered fast powder.

You will probably be interested in learning more definitely about the composition of most of the face powders now in vogue. The principal materials in their manufacture are talc, starch, oxide of zinc and some of the aluminum, zinc and magnesium soap, have heard that

some of the early manufacturers of face powders actually used white lead and cases of poisoning are said to have occurred. It is hard to believe that any reputable manufacturer nowadays would use this material, as such a practice would be most reprehensible. The government, at one time issued a pamphlet calling attention to the possibility of lead poisoning, due to the presence of lead as an impurity in some of the materials commonly used in the manufacture of face powders.

Everywhere in nature it is evident that beauty is to be admired. The flowers are made beautiful and given sweet perfume to attract the bees and other insects that scatter their pollen for them. Everywhere in the animal kingdom, beauty plays an important part in the lives and happenings of all beings endowed with the five senses. It is then perfectly natural that the beautiful hair of mankind should be aware of its beauty and is it not commendable that women should seek to preserve her beauty and pardonable if she should even try to enhance it? Here is where face powders come in and a modest woman with a delicate touch and an artistic taste will often add to her beauty with face powders. Face powders for the purpose must not be too shiny. They should not pos-

sess too much color, nor should too much pure white powder be used on a face that is full of color. It is for this reason that powders are made not only white, but also with flesh and brunette tints. In some cases a slight application of a highly tinted powder followed with a powder that is but slightly tinted, often gives the desired result.

## SEE CONNECTICUT FIRST THIS SUMMER

### Investigate the Attractions Offered at Resorts in This State.

Whether it be to the seashore, the lake, country, mountains or elsewhere, everyone has his own idea as to what constitutes a vacation, but, for many, the problem of making up one's mind—without changing it four or five times—can be a far from easy solution.

It is a fact that few sections present the vacation opportunities that are offered by New England. It has been aptly termed "The Vacation Land" and such it really is. Connecticut, for its size, is remarkably well equipped with seashores

mountain and lake resorts that hold, countless, attractions for thousands who come from points far distant for a few weeks during each year to participate in the long holiday that begins with the approach of the summer season.

### Variety of Amusements.

The majority of Connecticut people, it can safely be said, are prone to spend their vacation periods in this section, which offers an endless variety of recreation and amusement. It is camping or automobile touring that appeals to the vacationist. He will find no more desirable spot than Connecticut.

If his bent is towards the seashore and if healthbuilding features, the southern boundary of the state on Long Island Sound, presents several hundred miles of choice water places that draw patrons from many states.

If decision has been reached to fly away to one of the numerous inland lakes and streams for a pleasant camping or fishing party, Connecticut is the place to do it.

On top of all that, there is to be considered the vacation in the country, on the farm, or in the mountains, for those whose liking for the great, free waters and open spaces goes the better of them. In fact Connecticut residents should feel particularly proud of their immediate disposal in their home state for the fulfillment of their varied ideas regarding just what constitute a vacation.

These six states whose charms vary from deep-sea fishing, surf-bathing and boating to all the joys of inland waterways, hills and mountains. The New England states are fortunate in hotel accommodations where from the old-fashioned wagon side inn, to the luxurious modern hostelry, accommodations are always to be had in suit every purse and disposition.

All these hundreds of summer resorts are easily and pleasantly reached, either by motor, rail or steamer.

### On the Shore.

The north shore of Long Island Sound, which constitutes the southeast of Connecticut and Rhode Island, is composed of bathing beaches of the finest description, ideal for all. Constantly growing cottage communities, where hundreds of handsome summer residences have long been established, are making their presence felt in this section. The shore near New York to Narragansett Bay presents a picturesque territory, with splendid amusement facilities.

These places are yearly the destination of thousands of vacationists. For years, they have offered powerful attractions as summer resorts, and unless all signs fail, they will continue to do so until God sees fit to change the world order of events and things.

### OPERATION SUCCESSFUL.

Stockholm, June 23.—A successful operation for tonsillitis was performed today upon Queen Victoria of Sweden.

Asbestos withstands temperature up to 1,500 degrees Fahrenheit.

## The Ukelele

The popular string instrument with young people at summer camps, at the shore or in the mountains. You would be surprised at the variety of music that can be obtained from one of these instruments.

South Manchester.

## TAKE A PORTABLE RADIO WITH YOU THIS SUMMER

They Will Bring Entertainment to You at the Shore or in the Mountains.

There are two kinds of radio apparatus which is the worst offender will doubtless play its part in the methods to come but not with the same intensity, already it is being whispered in radio circles that a device for the stimulation of static may soon be on the market; then the worst enemy of the radio vacationist may be conquered.

Quality is Wanted. Some months ago—for one may still refer to the development of broadcasting in such terms—crystal and single circuit tuners were most popular among listeners. Everyone from the small boy next door to the business farther up the street was tinkering with these little sets and got a huge amount of enjoyment out of it. At that time radio was looked upon with considerable suspicion.

It is therefore reasonable to assume that this is not only going to be a radio summer as the dealers have been predicting, but it is also going to be the first summer when the radio vacationist is bound to do infection. Heretofore atmospheric conditions have been blamed for a complete radioactivity during hot weather and static which is the worst offender will doubtless play its part in the methods to come but not with the same intensity, already it is being whispered in radio circles that a device for the stimulation of static may soon be on the market; then the worst enemy of the radio vacationist may be conquered.

Radio for Summer. It is therefore reasonable to assume that this is not only going to be a radio summer as the dealers have been predicting, but it is also going to be the first summer when the radio vacationist is bound to do infection. Heretofore atmospheric conditions have been blamed for a complete radioactivity during hot weather and static which is the worst offender will doubtless play its part in the methods to come but not with the same intensity, already it is being whispered in radio circles that a device for the stimulation of static may soon be on the market; then the worst enemy of the radio vacationist may be conquered.

though he was passing towns early in the morning, and cooking steaks enough for a party of four, though they were taxing his strength and wearing out his stamped bearings and underlined tires.

## TOUR ON A BICYCLE THIS SUMMER

Touring on a bicycle requires special care in selecting an outfit. The spectacle of a young man starting out on a long trip with a great pack on his back, bundles on his handlebars and an enormous burden over his rear wheel on a luggage carrier is pathetic. One inexperienced tripper, so burdened, said his outfit weighed 140 pounds. He had a tent, waterproof, blanket, spare clothes, food for many days,

## Vacation Footwear

When you are away on your vacation remember that your feet need a rest as much if not more, than the rest of you. There is nothing better for vacation footwear than

## White Canvas Shoes and Keds

We have them in all sizes for the whole family. Boys' and Girls' Khaki Knicker Suits. Also Knickers for Women.

We have drinking cups, pie plates and many aluminum utensils suitable for camping trips.

## Screens and Screen Doors

## North End Department Store

Depot Square,

Manchester.

the rule holds true that the lighter the outfit the greater the comfort and ease of travel.

Bicycling coats perhaps a dollar a day if the tourist camps out, but two-thirds of the ordinary expense, and if he carries how to cook in camp he can live much better and have less indignities than if he were to eat the messes served at most restaurants and hotels.

## SMART STYLES FOR BATHES

The wrap-around suit dress is going strong for summer, even in the heavier cotton materials, for it looks well turned out for the street and is a pleasant change from the hair-raising skirts of the slip-over styles. The Fifth Avenue shops are showing these dresses in cotton, rayon, the rich, fine, in amber with a great low of color blue rayon embroidered in scarlet, in almond green with swirl color. Even bathing-suits are made in the wrap-around fashion and are very good looking in the printed, foxtails and flutings. For the sun-bathers the new suits are made with deep, horizontal, just short full skirts, and are very smart in tatters. One should always go to the seashore with a parasol, for they are genuine necessities.

## AMERICAN STUDENTS SAIL ON SEARCH FOR PREHISTORIC.

Washington, June 22.—American students will leave New York for Europe on the *Wessex*, June 25, to study the cave-man in his native haunts. Students of the American School for Prehistoric Studies in Europe will start on that date to visit all the important sites and view the principal remains of early man, after which they will engage in excavations at one of the most important cave man areas of Southern France, Dr. Arthur Hodge, the U. S. National Museum, who was recently placed in charge of the school, announced here today.

"It seems to be becoming more and more likely that man himself originated in Western Europe," Director Hodge explained. "Archaeological specimens representing man's history from the earliest part of the Ice Age and possibly before have been recovered in great numbers from the field. The museums of Paris, Brussels, London and France are filled with them. In addition, there are now in those museums over one hundred skeletons or parts of skeletons dating from about 50,000 years ago to well over 100,000 years ago. With all these vast deposits containing cultural remains of early man have been discovered in the U. S. National Museum, who was recently placed in charge of the school, announced here today. Six graduate students occupying positions in museums and colleges have already been selected on the recommendation of their institutions."

Quins, Department of Charities, in France, at the base of a cliff where very remarkable ancient human remains have been found. The work of the school in its two previous years of existence was largely confined to excavation at this site, but this year the program has been greatly enlarged in order to give first hand knowledge of the other leading prehistoric sites and remains of ancient man in Europe as well as to introduce them to the most careful methods of archaeological and anthropological study.

The School of Prehistoric Studies in Europe is supported by grants from various institutions which wish to benefit "archaeological specimens that are brought back each year."

## GET A NEW INDIAN BICYCLE

It's one of the best machines on the market. It's light and easy riding. You can take a great deal of pleasure in owning and riding one.

**INTERESTING FACTS ABOUT**

**A.B.A. American Bankers Association Cheques**

**-TRAVEL MONEY-**

- the official travelers' cheques of the American Bankers' Association.
- sold by more than 10,000 banks and trust companies in the United States and Canada in denominations of \$10, \$20, \$50 and \$100.
- handy; issued in bill-folds; compact, easy to carry, convenient to use.
- universally used by experienced travelers; in 1922, 5,000,000 travelers used 5,000,000 A.B.A. Cheques, worth nearly \$100,000,000.
- accepted by hotels, shops, banks, railway and steamship ticket offices, restaurants and places of amusement throughout the entire world.
- your counter-signature in the presence of the acceptor instantly identifies you, preventing embarrassment and delay; negotiable only when countersigned by the original holder.
- more convenient than letters of credit because the bearer is not dependent on banks or banking hours.
- safer than money; a refund may be obtained if uncountersigned cheques should be lost or stolen; A.B.A. Cheques have never been successfully counterfeited.
- accepted in all foreign countries at current rates of exchange.
- being certified, they are the only travelers' cheques accepted by the U. S. Government in payment of customs duties.

**MILITARY FUNERAL FOR ROY WATSON**

Man Who Was Killed by Kick of Horse Identified by Hartford Man—Has Sister in New York State.

It has been ascertained that Roy Watson, the man in the employ of the Miller Construction Company, who was killed yesterday at Hills town by the kick of a horse, was an ex-serviceman who was overseas with Company G of the Sixteenth Engineers in France. The company was under Captain James of Detroit, and Major Birmingham, of New York. Michael Carroll, of 115 Central avenue, Hartford, who identified Watson, and gave the above facts, says he has a sister living somewhere in New York state. It is probable, therefore, that the man will have a military funeral.

**SHOWER FOR MISS SHERIDAN.** A surprise miscellaneous shower was given by Mr. and Mrs. James Staples of 72 Oak street at their home last evening in honor of Miss Catherine Sheridan, daughter of Mr. Julia Sheridan, of 113 Park street. The young people present spent a most pleasant evening during which refreshments were served. Miss Sheridan received a number of beautiful gifts, including linen, cut glass, silver, brass and other articles. She is to be married next Tuesday evening at St. James' church to Thomas Staples.
