

McLucas Convicted Of Conspiring to Kill

By DAN HALL
Associated Press Writer
NEW HAVEN, Conn. (AP)—Black Panther Lonnie McLucas was convicted in Superior Court today on a charge of conspiracy to murder in connection with the May 1969 slaying of a fellow Panther.
The jury of two blacks and 10 whites—which had deliberated more than 35 hours since getting the case Wednesday afternoon—acquitted McLucas of three other charges—kidnaping resulting in death, conspiracy to kidnap and binding with criminal intent.
Judge Harold M. Mulvey set bond for McLucas, who also is under a murder indictment in Middlesex County in the same case, at \$15,000 and set a presentencing hearing for Sept. 18. The maximum penalty for conspiracy to murder is 15 years.
"I believe you have made some history in this case," Judge Mulvey told the jury of six men and six women, a ref-

erence to the length of the deliberations. Court observers said the deliberations were the longest in modern Connecticut court history.
Mulvey said the jury's work "indicates to the whole wide world" that it had gone "almost beyond what was expected of you... to help bring justice in this case."
McLucas smiled as he was led out of the courtroom to return to the State Correctional Center at Litchfield.
Earlier in the day, defense attorney Theodore I. Koskoff asked for a mistrial, calling the lengthy deliberation "an exercise in endurance rather than deliberation." The judge denied the motion.
"The jury is apparently hopelessly deadlocked," said defense attorney Theodore I. Koskoff, "and further deliberation be-comes an endurance contest and any verdict achieved would appear to be as a result of the pressures of the jury room and becomes an exercise in endurance rather than deliberation."
The motion marked the third time since deliberations began

that Koskoff has asked for a mistrial.
When the jury adjourned Sunday, shortly before 6 p.m., it had spent a total of 32 hours deliberating the complex charges against McLucas—kidnaping resulting in death; conspiracy to murder; conspiracy to kidnap; binding with intent to commit a crime.
A few hours before the adjournment, the jury had reported itself "in disagreement."
Judge Harold M. Mulvey sent them back for more deliberations.
McLucas was charged in connection with what police say was a plot by the Panthers to kidnap and kill Alex Rackley, a New York City Panther who police maintain had been suspected of informing on the Panthers.
The prosecution says the order to kill Rackley came from National headquarters and from Black Panther National Chairman Bobby Seale. In addition to McLucas, seven Panthers including Seale face trial in connection with the alleged plot.

Golda Meir Says Israel, U.S. Dispute

TEL AVIV (AP) — Prime Minister Golda Meir said today Israel is engaged in a "strenuous dispute" with the United States over Israeli charges of Egyptian violations of the Middle East cease-fire along the Suez Canal.
"As initiator of the proposal, the United States promised that neither side would be allowed to improve its position through the cease-fire," she told a meeting of the Histadrut, Israel's labor federation.
"Only a few hours passed (after the shooting halt took effect Aug. 7) and already the Egyptians began violating the agreement, and these violations are still continuing," she said.
"Israel cannot concede on this point and agree to become weaker if fighting is renewed on the canal."
Israel claims Egypt is moving missiles into the so-called forbidden zone—a 30-mile-wide strip along both sides of the canal where, according to the cease-fire agreement, no military materiel may be moved up at least for the 90-day duration of the truce.
Mrs. Meir denied Israel accepted the cease-fire because its air force could not stand up to Soviet missiles in the canal zone.
This was a rebuttal to Foreign Minister Abba Eban, who said Saturday that had Israel rejected the cease-fire, it would have lost its air superiority against Egypt.

One Policeman Dies; 12 Shot As Violence Jolts U.S. Cities

By THE ASSOCIATED PRESS
A dozen policemen in three cities were shot over the weekend, seven of them in Philadelphia, where one died. Urban violence flared also in Washington, D.C., where two foreign missions were bombed and in Los Angeles, where Mexican-American rioting claimed one life.
The latest shootings in Philadelphia came this morning when three members of a police raiding party were wounded in an exchange of fire with barricaded occupants of what police said was a Black Panther community information center in the North Philadelphia area.
Inspector James Curran was hit in the right hand, Police Capt. Robert Martin in the stomach and hands and Patrolman Frank Eckman in the left leg. The injuries were not believed serious.
Fourteen arrests were made. Philadelphia police Sgt. Frank VonColln, 43, was shot to death Saturday night while talking on the telephone in the guard house at Cobbs Creek Park. Earlier, park guard James Harrington, 38, was shot in the mouth while patrolling in an emergency wagon.
Sunday night, two highway patrolmen were shot and one was critically wounded in an incident in the same area, but Police Commissioner Frank Rizzo said he did not think the two shooting incidents were connected.
Rizzo blamed what he called a band of organized revolutionaries for the Saturday shootings. Two men were arrested and others are being sought.
"These men set out to—say they say—kill pigs," he said.
Rizzo said that highway patrolmen Thomas J. Gibbons, 25, and Frank Nolan, 28, were shot Sunday night as they approached a car with two men after chasing and curbing the vehicle. They shot back and wounded one of the men who was apprehended.
Gibbons was reported in critical condition and Nolan as satisfactory.
Four policemen in Riverside, Calif., 65 miles southeast of Los Angeles, were shot from ambush Sunday night during a search of a Mexican-American neighborhood for persons suspected of throwing firebombs earlier. None was reported seriously injured.
Police said they did not know what precipitated the throwing of firebombs and rocks in a city park. Four persons were arrested but none was charged in the shootings, police said.
Trouble also erupted Sunday night in the Wilmington section of Los Angeles.
Police said about 600 Mexican-Americans touched off several fires in a 12-block area, threw rocks and hurled bottles. Some arrests were made.
Saturday night, one person died, more than 60 were injured and 185 jailed. Property damage

New Group Formed to Fight School Integration in South

By TED SIMMONS
Associated Press Writer
ATLANTA (AP) — Thousands of schools across the South begin classes this week under orders decreeing the end of dual school systems. But attempts to combat federally forced racial integration continue.
The latest effort came Sunday with the formation of the National Coalition of Concerned Citizens, a group of state organizations claiming more than a million members in 27 states.
Representatives of the coalition from North Carolina, South Carolina, Virginia, Florida, Georgia, Arkansas and Texas gathered in Atlanta and discussed plans to mount a campaign against busing, zoning and pairing of schools.
A part of the campaign, spokesmen said, will be the establishment of a "Legal Defense Fund," to compete in the courts with the Legal Defense Fund of the National Association for the Advancement of Colored People.
"We are all through reacting to what other people do. We are going on the offensive," said Ellis Rubin, a Miami Beach, Fla., attorney.
Dr. Mitchell Young of Texas said that although persons from only seven states attended the meeting, those present represented states other than their own.
A second meeting of the coalition is scheduled Sept. 12 at Norfolk, Va.
The group announced it is seeking an immediate meeting with President Nixon, whose administration says this fall will bring the most meaningful school desegregation in the South since the 1954 U.S. Supreme Court decision which outlawed assignment of pupils by race.
Spokesmen said the coalition will attempt to impress its views upon the President and seek his assistance in having the Supreme Court:
—Hand down in specific terms the definition of a unitary school system.
—Rule on the question of whether either the Constitution or existing statutory law requires a mathematical balance of the races in schools. Rubin
said the organization is hopeful that the justice Department will raise those questions in a scheduled Oct. 12 hearing before the high court on an appeal of a court-ordered plan for Charlotte, N.C. The plan requires the busing of 13,000 to 17,000 pupils.
The Charlotte case has been considered a pivotal one on the issue of busing. School officials there postponed school opening until Sept. 9, but Chief Justice Warren E. Burger declined to issue a stay of implementation of the plan as they had hoped.
Burger rejected similar appeals from several other systems where substantial busing is required. His most recent action came Saturday, on a petition from Richmond, Va., officials.
Richmond schools open today under a plan calling for busing about 13,000 of their approximately 50,000 pupils.
The failure to obtain a stay prompted extensive last-minute preparations by officials of two Florida's largest systems, Dade County (Miami) and Broward County (Fort Lauderdale).
Substantial busing is required by the plans for both those systems, two of 41 which open today in Florida.
Winston-Salem, N.C., whose appeal of a plan requiring the busing of 2,700 pupils also was rejected, will not open its schools until Tuesday.
Although more than 100 southern systems—many of them integrated for the first time—have already opened with only minor

Rebels Hit The Hague; Kill Guard

THE HAGUE (AP) — Three busloads of young Indonesian rebels stormed the residence of the Indonesian ambassador today, killed a Dutch police guard and hoisted the flag of the 1960 Republic of the South Moluccas.
Ambassador T. A. Natadiningrat escaped and went into hiding, but his wife, two children and 10 other persons were held hostage in the suburban embassy mansion.
The raiders demanded that Indonesian President Suharto, due in the Netherlands Tuesday, call himself the president-in-exile of the South Moluccas. Suharto is making the first visit by an Indonesian president to his country's former colonial masters.
Indonesian Foreign Minister Adam Malik said in Jakarta that Suharto has informed the Dutch government he will not make the scheduled visit until the wife and children of the Indonesian ambassador are released by the Ambonese dissidents.
The raiders were Ambonese exiles from the East Indonesian island of Ambon. They or their

Gunmen Invade Navy Arsenal

JACKSONVILLE, Fla. (AP) — Gunmen invaded a Navy arsenal about two miles from a man wearing a wig.
"Numerous hand guns and small arms weapons were taken and escaped with firearms and ammunition while five sailors were held tied up watched helplessly, the FBI reports.
The robbery Sunday at the Cecil Field Naval Air Station was pulled off by raiders armed with pistols, the FBI said. The exact number of raiders has not been determined but at least three were involved an FBI spokesman reported.
An investigation revealed that the intruders remained for 90 minutes at the arsenal, located about two miles from the Cecil Field storage point for nuclear weapons.
Authorities said the arsenal is guarded by a civilian security force employed by the Defense Department.
An FBI agent said none of the sailors saw all of the early morning Negro intruders. Inves-

tigators said one of the group may have been a woman or a man wearing a wig.
"Numerous hand guns and small arms weapons were taken and escaped with firearms and ammunition while five sailors were held tied up watched helplessly, the FBI reports.
The commanding officer of Cecil Field, Capt. L. K. Simon, said an exact count of missing weapons was not available because the Navy was taking inventory.
The raiders did not take machine guns or grenades available in the arsenal, the FBI said.
The FBI said the robbers wore stocking masks. Other sources reported the band wore ski masks as well as gloves and long-sleeved shirts.
The sailors told the FBI the gunmen ransacked lockers, ripped the telephone from the wall and made their getaway in one of the seaman's cars. The car was later found abandoned outside an unguarded base gate.
(See Page Two)

The FBI was investigating a possible link between Sunday's robbery and a burglary July 27 of the unguarded Jacksonville Army National Guard Armory.
More than 100 weapons, mostly carbines, were stolen during the July break-in, as were several machine guns and some .45-caliber pistols. However, all the guns lacked firing pins.
Two weeks ago, Jacksonville police recovered the stolen Army weapons when they stopped a car in the downtown area. One Negro was taken into custody, but a second man in the vehicle fled.

Senate Roll Call Tomorrow 'Amendment to End the War' Looks Doomed as Vote Nears

WASHINGTON (AP) — Legislation to pull all U.S. troops out of Vietnam by 1972 appears doomed in a long-awaited Senate vote Tuesday. But win or lose, backers proclaim strategic dividends.
The so-called "Amendment to End the War" looks to fall several votes short in a roll call.
But doves say they'll show enough strength to reflect the sharp divisions throughout the nation over the war, and view the precedent-making chance to make their formal stand a major moral victory.
Whatever the outcome, they add, the Nixon administration must regard a significant show for the amendment as a profound portent that Congress will insist upon a fuller role in shaping war and peace.
It is noted by most observers, however, that whatever the enthusiasm the amendment may stir in the Senate, it likely would be overwhelmed in the more hawkish House.
"The vote on this amendment forces each senator to face squarely his own responsibility for either continuing or ending the involvement of American forces in the Indochina conflict," said Sen. George McGovern, D-S.D., Sunday in an article written for The Associated Press.
Assistant Republican Leader

Robert P. Griffin said passage would disrupt the Vietnamization program, undercut President Nixon's efforts to end the war and could prolong rather than shorten the conflict.
"The adoption of such an amendment would trumpet loud and clear to the Asian Communists that they need not negotiate seriously, that they could attain by default what they could not win on the battlefield," Griffin said, also in an article written for The AP.
"If the Senate should approve this resolution, which it won't, it would be a signal to our friends and foes alike that we, as a nation, are unwilling to measure up to the responsibilities we have assumed," Griffin said.
McGovern, however, said adoption of the measure would restore a lost constitutional balance between the White House and Congress in the conduct of foreign affairs.
In South Vietnam, he agreed, adoption of the amendment would probably lead to a coalition government.
The amendment calls for reducing U.S. troop strength to 280,000 by the end of next April and for barring the use of funds after that date for any purpose other than winding down combat and withdrawing all U.S. military forces by the end of the year.
(See Page Two)

The President would be given one 60-day period in which he could suspend withdrawal and resume active combat to thwart a "clear and present danger" to U.S. troops. Other extensions could be granted after first obtaining congressional approval.
GREENWICH, Conn. (AP) — The Democratic and Republican nominees for the U.S. Senate from Connecticut say they are on opposite sides of the fence on an amendment now before the Senate which would limit continued involvement in Vietnam.
The Rev. Joseph Duffey, the Democrat, said in a telegram Saturday he would vote for the amendment and challenged Rep. Lowell P. Weicker, the Republican, to make his stand known.
"My only regret," Weicker said in a reply today, "is that for a few more months it will still be Congressman Weicker rather than Senator Weicker, so I will not be on the Senate floor to vote 'No.'"
"You term it the important amendment to end the war," Weicker said in his telegram to Duffey. "May I suggest to you that the war is being ended by an administration that has the common sense to substitute withdrawal for escalation as our policy in Southeast Asia, and by

Many Voting In Vietnam, Despite Cong

SAIGON (AP) — A moderately pro-government slate and one backed by the opposition An Quang Buddhist faction were leading today in first returns from South Vietnam's senatorial elections.
The three top 10-man tickets will win election, making up half of the 60-member senate. Sixteen slates made the race.
In first place was the pro-government ticket headed by Sen. Huynh Van Cao, a former general, with 708,807 votes. The An Quang ticket, headed by Vu Van was the slate of Sen. Nguyen Van Huyen, the senate president, with 549,682 votes.
Despite more than 60 Viet Cong and North Vietnamese rocket and mortar attacks which killed 55 Vietnamese civilians and wounded 140, the government said 4.3 million votes were cast. That was two-thirds of the registered voters.
The An Quang faction boycotted the 1967 elections which brought in the present government of President Nguyen Van Thieu and the current senate.
Traditionally, the An Quang Buddhists have been militantly anti-government. In the campaign, the slate demanded "instant peace," and the abolition of "illiteracy, corruption, hunger, disunity, and dictatorship."

Stock Market

NEW YORK (AP) — Stock market prices, apparently under some pressure from profit-taking, were little changed at midday. Trading was moderately active.

At noon, the Dow Jones average of 30 industrial stocks was off 0.20 to 765.81.

The margin by which advanced led declines among the issues traded on the New York Stock Exchange narrowed to 1-1/2 lead for gains.

Brokers saw profit taking as the main force overcoming the night's upward step.

They noted that profit taking was selective and orderly and said it was normal, considering the extent of gains in the past two weeks.

Among the glamor issues, IBM was off 2 1/2 at 268 1/2; Control Data was ahead 1 at 87; Polaroid was up 1/2 to 69 1/2; Xerox was off 1/2 to 78 1/2; and Memorex was up 1/2 to 69 1/2.

Roan Selection was the volume leader on the Big Board, unchanged at 8 on turnover of 311,100 shares—chiefly a block transaction of 282,000 shares at 6 1/2.

The Associated Press 60-stock average was off 0.5 to 281.4 at midday, with industrials down 4, rails unchanged, and utilities up.

On the American Stock Exchange, the Dow Jones Industrial Average was off 1/2 to 281.4 at midday, with industrials down 4, rails unchanged, and utilities up.

Events Slated For Teachers, Administrators

Although Vernon schools will not be open until Sept. 9, administrative staff will have orientation events scheduled for this week.

On Thursday an orientation will be held for teachers new to the system at the Vernon Center Middle School. A general meeting will follow registration of the new teachers at 8:30 a.m. Teachers will meet with principals, department heads, directors and supervisors.

General meetings will be held for the school opening and at 2 p.m. will report back to the East School for the welcome prepared by the Rockville Area Chamber of Commerce.

This will include a bus tour of the area for all new teachers in Vernon, Ellington and Tolland and a reception at the Tolland High School.

Insurers Seen Continuing To Write Bay State Policies

BOSTON (AP) — The top legal aide to Gov. Francis W. Barker says he thinks insurance companies will continue to write automobile policies in Massachusetts despite their objections to provisions of the state's new fault insurance law.

"I do know that the new form of mandatory renewal, which was passed as part of the governor's emergency legislation, has removed substantially one of the major objections which the companies raised," Christopher Armstrong said Sunday night.

Insurance companies objected to two provisions of the recently enacted no-fault law—one that provides a 15 per cent across the board rate reduction and another that makes it mandatory for companies to renew a motorist's insurance each year, despite his driving record.

The latter provision was repealed by an emergency bill filed by Sargent, which was accepted in classrooms until they have been screened. Any kindergarten arriving on the first day of school without previous registration will be sent immediately to the East School for screening, Kerkin said.

'Wing' Copeland Dead, Well Known North Ender

James "Wing" Copeland, 79, of 205 W. Center St., for all his life as much a part of the North End as the station and fountain, both now gone, died this morning at a local convalescent home.

Mr. Copeland was known as "Wing" by everyone in and around Depot Square because of the loss of both arms in accidents seven years apart. He lost his left arm in 1906 at the age of 15 when his shirt was caught in the machinery while he was working as a coal steeper at Hilliard Wood Mill.

Mr. Copeland was born in Maine, he was employed by the New York and Hartford Railroad in the East Hartford freight yards. As a coal boy, he walked from house to house carrying the coal on his back.

Mr. Copeland was born Nov. 22, 1891, at the age of 22, he lost his right arm in an accident while working for the New York and Hartford Railroad.

New Group To Fight Integration

Incidents Reported, Real Test In Most Areas Will Come This Week

Among the foremost concerns of the United Citizens Stand for America, a Florida organization of which Rubin is chairman, says it has commitments from members in nine counties to withhold their children from classes.

Gov. Lester Maddox of Georgia, where most of the state's 100 systems open today, has alternately urged parents to withhold their children for 30 days or to integrate.

The favored Cao state includes representatives of numerous religious and ethnic fraternal organizations.

Candidate Asks State

Hurry Broad-Center Job
The Democratic candidate for state senator from the 4th Senatorial District has urged the State Highway Department to reconsider its decision for a year's delay in reconstructing the Broad-Center-Pine St. intersection and to press for completion of the project this year.
Atty. Dominic Squatrito, in a letter to Transportation Commissioner George Conklin, calls attention to "the tremendous traffic problem that exists at the intersection of Broad, Center, West Center and Pine and Arch Sts., a condition that has existed for a great number of years, and a condition indirectly affecting many of the other intersections along this very heavily-traveled road."
He asked Conklin to contact him, to discuss the situation.
Widely scattered thunderstorms pounded the Southern Plains and the mountains of the West.
Cooler air prevailed from the upper Great Lakes region to the northern and Central Plains, and light frost was expected in northern Minnesota.
Early morning temperatures ranged from 30 to 40 degrees, Minn., to 96 at Phoenix, Ariz.
Chief delegate Henry Brodie told a board meeting of the U.N. Conference on Trade and Development today it will probably be unable to step up overseas aid in the immediate future.
Pointing out that "seven absolute amount" of U.S. aid was cut in 1969, Brodie said: "The demands for financing from the U.S. government budget have been severe during this difficult period and the intense competition for our resources, particularly for domestic problems, have been intense."
But Brodie pledged that special consideration will be given to countries showing that development is their highest priority and to use their own resources effectively.
WASHINGTON (AP) — The Democratic National Chairman Lawrence F. O'Brien says the Nixon administration is playing a numbers game in an attempt to fool the public over "what has been and still is a deteriorating economy."
For one reason or another, the water and sewer installations were delayed beyond the 49 days. The contractor declined to wait any longer and rejected the contract award.
State highway officials said they will re-advertise for bids in the spring. The original schedule called for completion of the project in the fall of 1969.
The new delay would put the project two years behind schedule.
Squatrito, in his letter, urges Conklin "to re-advertise the bid sooner and use the extensive resources effectively."
RICHMOND, Ind. (AP) — Frank Sinatra and Jerry Lewis have headlined a benefit performance for the education of the blind children of Dan A. Mitrone, former Richmond police chief killed by kidnappers while on a U.S. official mission to Montevideo, Uruguay.
A capacity crowd of 4,200 filled the Richmond High School civic center Saturday for the benefit show, expected to raise \$20,000 to \$100,000 from the sale of tickets at \$15 to \$20.

No Hikes Seen In Foreign Aid

Swimming Pool Dedicated at Vernon

By JUNE LINTON
(Herald Reporter)
A pool full of delighted youngsters yesterday afternoon's new swimming pool off to a splashy start.
The new LeShaped pool, to be called the Vernon Community Swimming Pool, is the town's second such facility. It's situated behind the Vernon Elementary School on Rt. 20, but from the pool area swimmers are apt to forget it is in the midst of school grounds and near a shopping center.
The pool is fenced in but surrounded by trees and the pool building itself includes dressing rooms. A spray pool for the side of the pool but not yet completed.
In welcoming the crowd Abuzza also said there were contributions which helped with the pool. The Exchange Club of Rockville donated the shrubbery. Agway, Inc. gave the blacktop coating for the driveway; the turf surrounding the pool was a joint contribution of the Recreation Department and the architect, William McHugh of McHugh Associates.
McHugh said that working for Vernon was unique in that as many people got involved in the project, and he attributed the results to their involvement.
Adults expressed delight with the pool and one woman was heard to say to her husband as they looked it over, "How beautiful, and to think that you

Five Dead, One Missing In Accidents, Air Crash

By THE ASSOCIATED PRESS
Five persons died in Connecticut over the weekend in accidents—two in an airplane crash, two in an auto accident and one who drowned off Bridgeport when his motorboat overturned.
A sixth person was missing and presumed drowned after he fell off his 16-foot inboard boat Saturday on Beach Park at Voluntown. The missing man was identified as Ruben Miller, 46, of Voluntown. Robert Baker of Orange said he picked up two other men who fell overboard and was unable to locate Miller. Dragging operations continued today.
In the plane crash two miles west of Shelton Sunday, a Cessna Skymaster crashed in a heavily wooded area near Route 110. Police quoted witnesses as saying the plane was only about 100 feet above treetops when its engine began to sputter.
The plane nosedived into the trees and both victims were killed instantaneously. They were identified as Richard Law, 48, of Stratford and Neil Flynn Jr., 29, of Darien. Law was the pilot, police said.
Law was president and Flynn vice president of Knickerbocker Aviation Co. at Bridgeport Airport in Stratford.
The car crash, a head-on collision of two vehicles in Branford Saturday night, was fatal to two Branford teenagers. Robert W. Searles, 16, the operator, was pronounced dead at the scene and Mark Twyman, 17, died the following morning, police said.

Another passenger in the Searles car, Michael Hoyt, 15, died Sunday of an incisioning at Yale-New Haven Hospital and a couple in the second car was listed in fair condition at St. Raphael Hospital.

Northeast Oil Deficit Forecast

WASHINGTON (AP) — Sen. Thomas J. McIntyre, D-N.H., warned today of an impending critical shortage in the Northeast's low-cost fuel supply and announced his small subcommittee will conduct hearings on the matter.
"Fuel dealers are their customers on the East Coast and the Great Lakes region are approaching the end of the line," McIntyre said.
His panel's hearings will include representatives from major oil companies and small businesses in an effort to "determine what has brought on this crisis and what the federal government can do to help," he said.

President Dies
SOUTH BEND, Ind. (AP) — Byers Buntingman, 70, of South Bend, former president of Studebaker Corp., died Sunday of a heart ailment at his home in South Bend.
Buntingman retired in 1967 as chief executive officer of Studebaker after a career in the auto industry which began in 1928 with Packard Motor Car Co.
He was a director of the Studebaker firm at his death.
Burlington was named Studebaker president in 1963 and was credited with replacing a \$17 million operating profit in one year.
Survivors include his widow, Frances, two sons and a daughter.

Albania-Bound Skyjackers Foiled

DUBROVNIK, Yugoslavia (AP) — Three North Africans hijacked an Algerian airliner Sunday and tried to get to Communist Albania but were stopped by Yugoslav police after the weather kept the plane out of Tirana, the Albanian capital.
With 31 North Africans on board, the hijackers let 31 get off during a three-hour stop in Zagreb, after a refueling stop in Sardinia and a detour through Brindisi, Italy.
After two hours on the ground, the hijackers were a landing at Tirana. The stop in Brindisi lasted 2 1/2 hours, while the air base there tried unsuccessfully to contact Tirana for a landing clearance.

Tollard Contest for Probate Judge Becomes Three-Way Race

The Tollard-Willington Probate District race has become a three-way contest, as Mrs. Gloria Mourant announced this week that she will seek the office as a candidate of the District Independent party.

Mrs. Mourant filed petition papers "containing more than the required number of signatures" in order to qualify for a place on the ballot.

She will be running against Democrat Mrs. Edith Knight and Republican candidate Howard Wolfanger.

Mrs. Mourant is a party member three weeks ago by 51 votes out of 719 votes cast.

The Tollard Junior Women's Club's executive board meeting and first initiation of new members will be held tomorrow night at 8 at the home of Mrs. David Eastman, Grabber Rd. The Tollard Grange will meet tomorrow night at 8 in the Grange Hall.

Lettuce Grower Signs with Union

Resident State Trooper Harry Tomasek made several arrests during the weekend.

On Saturday, Tomasek arrested Richard Simon, 16 of Stafford Springs charging him with breaking and entering and larceny under \$50 from a car, as well as trespassing.

Wiltbur W. Lauer, president of United Fruit Co., parent organization of Interharvest, and chief company negotiator, said after the signing, "Both the union and the company made compromises, but we feel this is a fair settlement."

New Haven's Number 9 Offers Hope to Troubled Teen-Agers

NEW HAVEN, Conn. (AP)—The drug dependent adolescent—a lonely youngster who is often avoided by his parents—stunned out of public clinics or private practitioners by his parents—now has a new avenue for rehabilitation.

Across the country, organizations staffed and operated exclusively by young people are springing up to offer guidance and therapy to youths skeptical of the ability of adults to help with their drug problems.

One such organization is Number 9, a ten-month-old "youth crisis intervention center" whose main office is located on State Street here.

Surrounded by walls sporting signs and posters which carry peace messages, the Black Panther, the Chicago 8 and other political and social issues, young people relax and "rap" about what disturbs, humors and inspires them.

Her approach to helping young people reduce drug dependence emphasizes creation of what she calls "an informal atmosphere of trust, warmth, friendliness, but never the desire for party responsible for establishment of Number 9."

Number 9's directors and six full-time staff members are in their mid or early 20s and receive only a modest salary. In addition, the center employs Durkhardt and Dennis Jaffe, who recently were married, and Ted Clark—all have previous experience working for local agencies dealing with the problems of young people.

After the youngsters each told what they hoped to accomplish with the center, the gathering decided to break up into teams that would address adult groups in communities surrounding New Haven and tell them about the problems of young people.

Despite Number 9's easy-going, tolerant atmosphere, regulations forbidding narcotics on the premises are strictly enforced by the staff. Staff apparently respected and adhered to by the center's young patrons.

She was refused treatment because she was high on drugs. "What are you treating over?" he asked. "You're a drug dependent unit and you treat kids who don't take drugs any more? It's the kids who are on drugs who don't know if they want to come off or not who need to be treated."

He says the girl was referred to the Connecticut Valley Hospital in Middletown for "detoxification"—to eliminate the drug from her system.

A spokesman for the DDU confirmed that treatment is not administered to people who come in high, but he said therapy—which at the DDU is protracted and intense—would only be effective for drug users already "partially" convinced they want to give up drugs.

The spokesman, Assistant Director Robert Tucker, also pointed to differences between the kind of individuals treated by Number 9 and those who come for treatment to clinics like the DDU.

"Number 9 is principally for middle class white kids and adolescents," he says. "For a kid who's using a drug like heroin, shooting 'speed' or dropping out of school, the center time he took a girl in New Haven to the Drug Dependence Unit (DDU) of the Connecticut Mental Health Center here and "more stringent, more formal

Success, however, is difficult to measure, Clark acknowledges that working at the center has a disappointing moment, especially when he and his colleagues are misunderstood by parents or find themselves unable to help a young person. And progress occasionally seems to reverse to it in a moment of stress.

But Clark is optimistic about the usefulness of groups like Number 9 that serve the needs of troubled young people. "Basically," he says, "we've found that kids have an intuitive sense of how to help other kids."

Clark concedes that Number 9 attracts primarily white, middle class youths, many of them from the suburbs. The directors and staff members are white, he says, "and we relate to kids with white experience." Nevertheless, a small number of blacks do frequent the center.

Hospital To Participate In CHA Group-Buying Plan

Manchester Memorial Hospital will participate in a group purchasing agreement between the Connecticut Hospital Association (CHA) and several major hospital suppliers, which is estimated to save Connecticut hospitals over \$200,000 the first year.

Edward Kenney, hospital administrator, estimated that the plan will save the Manchester hospital between \$7,000 and \$10,000 the first year.

Contracts with nine major suppliers signed recently have been called a major breakthrough in the effort to keep patient care costs down, according to Dr. H. Clark, CHA president. He said that contracts now in force are expected to save hospitals more than \$2 million by 1975.

Statistics show that literally thousands of tons of supplies were consumed by Connecticut hospitals last year. Some of the major items in the new agreement include fuel oil, sanitation and maintenance supplies, disposable paper and plastic items, and silverware.

Hospitals have traditionally benefited from discounts allowed to institutional buyers, but with the cooperation of hospitals throughout the state, the total buying power is increased, and greater savings are realized.

Mrs. Lois Dunham, purchasing agent at Manchester Memorial Hospital, said that the new agreement has tremendous prospects. With the larger buying potential, the Manchester hospital will probably participate as much as possible.

Every hospital in the state is represented by the CHA, but does not necessarily take advantage of the group purchasing arrangement, said Mrs. Dunham, who is also a member of the nine-member CHA purchasing committee, which oversees the project.

The CHA puts out to public health officials a survey showing whether or not to participate in the group purchasing. If they can get a better price than the group plan, they'll take it. Buy-ers from the group also depends on the need for the item, and amount of storage space available at the hospital.

The bill for the supplies goes from the dealer to the individual hospital, however.

This group purchasing plan is actually not a new idea. It is an expansion of the former CHA purchasing council, which had negotiated group purchases for two separate items—fuel oil, and medical gases (such as oxygen).

The Manchester hospital has participated in both of these plans for two or three years now. They were also a member of the Hospital Bureau, Inc., of Plainville, N. Y., another non-profit hospital purchasing group.

The effort to buy more effectively is one of many attempts to keep down the rising costs of patient care. The purchase of goods, services, and facilities accounts for about 30 per cent of the patient's bill.

The other 70 per cent reflects hospital wages and salaries. There is less control in this area, as hospitals must get competitive salaries to get qualified employees. This expense is compounded in part by the fact that Connecticut ranks first in the nation in per-capita income.

Bankers Favorite Target For Felons of the '60s

WASHINGTON (AP)—There was "Dashing Dan," the soft-spoken New Yorker who dressed neatly and used a cane. Then there were the four men in Cincinnati who left four women dead in their wake.

Between them, and thousands of others who followed their line of work in the past decade, they have robbed more banks and stolen more money than John Dillinger could have aspired to in his heyday.

Since 1960, bank robberies have increased nearly threefold, the FBI says. Despite a drop of slightly more than one per cent in 1969, says FBI Director J. Edgar Hoover, bank robberies are becoming more than ever "a major problem facing law enforcement."

"Banking institutions are sustaining mounting monetary losses, of course, but the more alarming problem involves the numerous acts of violence inflicted upon the bank employees, bank customers and law enforcement officers during the commission of these crimes," Hoover told a congressional committee recently.

In one of the most brutal cases recorded by the FBI in recent years, three armed robbers forced one woman employe and three women customers into the vault of a savings and loan office in Cincinnati, Ohio, last year, shot them to death and fled with \$25.

The fires have claimed one life, 22 men were hurt when a bus carrying fire fighters slid off a mountain road, four men were injured when a light plane crashed while carrying fire fighters from Yalumba to Waukegan, and a number of summer homes have been destroyed.

Originally there were 64 small fires in the area. Some were extinguished and others burned together until, including the largest—Mitchell Creek—there are five big ones left.

Firemen Gaining On Costal Blazes

WENATCHEE, Wash. (AP)—Thousands of fire fighters battled flames in 80,000 acres of timberland today and a Forest Service spokesman said it was hoped the biggest blaze soon would be surrounded.

Slaying Charges Dropped Against Heart Surgeon

TOKYO (AP)—The Public Prosecutor's office today refused to indict the surgeon who performed Japan's first human heart transplant on a charge that he committed murder in the operation.

Complaints had been filed against Dr. Juro Wada by several groups, including doctors. The prosecutors' office said they were dropped "because of a lack of evidence."

Wada performed Japan's first human heart transplant on Aug. 6, 1968, when he replaced the defective heart of Nobuo Miyaki, 18, with one taken from a 21-year-old youth, Yoshizumi Yamaguchi, who died in an airplane crash.

Some of the complaints charged that Miyaki did not require the transplant and on the need for the item, and amount of storage space available at the hospital.

The bill for the supplies goes from the dealer to the individual hospital, however.

Gets Choice

WASHINGTON (AP)—Prosecution for draft evasion is ten times what it was five years ago, says the Selective Service.

Convictions are fewer, partly because of a policy allowing a case to be concluded without a guilty plea if a defendant agrees to be drafted.

In a statement, Selective Service said Friday the number of draft evasion cases prosecuted in 1969 was 2,485, compared with 269 in 1965. The figure for the first nine months of the 1970 fiscal year is 2,850.

The conviction rate in the first nine months of fiscal 1970 was 81 per cent compared with a rate of 70 per cent in 1965.

On-Job Training Bill Gets Public Service Rider

WASHINGTON (AP)—Senate Democrats are mounting a challenge to the Nixon administration's on-the-job training bill which they hope will spotlight the issue of unemployment and the economy shortly before Nov. 3 congressional elections.

The challenge was laid down by the Democratic majority on the Labor and Public Welfare Committee which added a multi-billion dollar public service employment program to the bill.

The administration strongly opposes such a program on fiscal and other grounds.

Senate Democratic leaders have scheduled the legislation for floor action around mid-September. Republican conservatives have pledged a fight to eliminate or cut back on the public service job features.

The trouble with the training program, he says, is that too often the graduate has been unable to find a job because none was available.

The bill as written in the Labor Committee not only would

World Trade Zooms

GENEVA — World exports rose from about \$81 billion in 1950 to about \$228 billion in 1968 — nearly a fourfold increase — according to a new United Nations report. The U. S. share declined from 18.5 per cent in 1950 to 14.3 in 1968.

That proposal would provide job training for thousands of welfare recipients. But Sen. Abraham A. Ribicoff, D-Conn., and Fred R. Harris, D-Okla., complained there is no assurance the trainees will get employment. They are sponsoring an amendment to add a public service job feature to this legislation.

Cubs Show Revived Interest In Division Nobody Wants

NEW YORK (AP) — Welcome to the National League East and the division championship nobody wants.

Well, almost nobody. The Chicago Cubs, who finished with the flag for most of last season before getting jilted in the final month, are showing a revived interest. It's a good thing, too, because the New York Mets for Pittsburgh Pirates seem to care particularly about it.

The Cubs used Joe Pepton's ninth inning home for a 2-0 victory on San Diego Sunday and took second place in the division, one game back of the staggering Pirates. Pittsburgh was plucky for hands, who scored the eighth by John Shephard, 7-3 and 2-1 to San Francisco.

The Mets dropped their third straight to Houston, 9-8. It was New York's sixth loss in the last seven games but over that stretch, the Mets have actually gained one-half game in the division race.

New York was 2½ games behind when they started their slide last Monday. Today the Mets find themselves two games behind. The difference is

Red Socks Outsock Chicago's Chisocks

NEW YORK (AP) — When the Boston Red Sox and Chicago White Sox got together it's more like the Boston Red Socks and Chicago White Chisocks, with the pitchers coming out black and blue.

The American League brawl wound up their bizarre season good that our club cart hit series Sunday with the Red Sox sweeping a doubleheader 2-11 Chicago, 4-0. The Sox pitched four games and only won one, 4-0.

They had a home and only one run, a home run by Mike Andrews each had four hits and four RBIs in the opening game and Chicago's Yastrzemski added three runs home. Andrews and Rico Petrocelli homered, touched off a 2-0 lead.

Cats Humiliated By Rugged Vikings

NEW YORK (AP) — It was quite an exhibition. Minnesota Vikings played as if they sought revenge not only for themselves but for the Baltimore Colts as well, humiliated the New York Jets 22-7 Sunday night in a nationally televised National Football League preseason contest.

It marked shaggy-haired Namath's 1970 debut, too. Broadway Joe was anything but suspicious as Reggie Jackson's two-run homer, one of two Oakland pinch hits, tying the league record for pinch hits in a single game.

Freeman, the AL's All-Star catcher, thrashed the San Diego Padres, 10-0, in a nationally televised game.

Clark Golf Champion

Repeat winner in the annual coveted Men's Club Championship Golf Tournament at the Manchester Country Club was Linwood "Woody" Clark. Shooting 68, Clark collected 15 pars yesterday, two birds and had a triple bogey on the sixth hole.

Clark was 27 years old. He was born in New York City. He is a member of the Manchester Country Club. He has won the tournament several times.

N.H. Legion Downs Host, Gains Birth

MIDDLETOWN, Conn. (AP) — Manchester, N.H., took the crown in the New England regional American Legion baseball championship Sunday by defeating host Middletown 3-1 in a game that went into the 10th inning.

The victory came on two runs in the last of the 10th and earned the team a berth in the World Series to begin in Kalamazoo Falls, Oregon this month.

It Has Almost Been Ridiculous' Kasko Crazy Season Series

CHICAGO (AP) — Zany. That's the word which best describes the crazy season series between the Boston Red Sox and Chicago White Sox culminated Sunday when Boston edged Philadelphia 4-3.

The double victory by the Red Sox is a closing chapter in their hand-to-hand battle which includes season highs for both teams in numerous categories.

Viking Back Steals Show Over Namath

MINNEAPOLIS, ST. PAUL (AP) — It was billed as Joe Namath's night at Metropolitan Stadium.

But it just didn't sink in to Namath's fans that the Vikings were playing in the shadows of their quarterback.

Long Time Between Victories For Bob Nichols and \$5 Putter

CLIFTON, N. J. (AP) — It's been a long time between victories for Bobby Nichols. It's been a long time between victories for the \$5 putter he used to win the 1967 PGA tournament.

Nichols, 36, won the 1967 PGA tournament by a margin of 10 strokes over runner-up Gene Sarazen.

Moriarty's Home Tonight

Although Moriarty's raced through the Hartford Twilight Baseball League like Man O'War on the turf, the Eastern Division champions were unable to hold their lead in the final game of the season.
