Firemen pump away flood waters

This scene at 36 Henry St., home of Peter Gallasso Sr., was typical of what happened today in low-lying backyards as water from the falling rain and melting snow created scattered local floods. Leland Watts, foreground, and Bill Matthews, 8th District firemen, pump water to clear the yard. Elsewhere sandbags were used to protect houses. Meanwhile, highway crews worked to clear the entrances to catch basins and to unclog storm drains to keep the water flowing away. (Herald photo by Pinto)

I don't know how much more these guys can take. Not paying them is a crime and in my estimation they are not getting paid enough." Other positions have gone un-

"The guys are going to continue coaching but if they step down I can't see anybody else stepping in. We ought like heck to get into the COC (Charter Oak Conference) and we mend he go although I'd hate to lose opinion," Blanchard stated. him like heck. How much can you ask

say he wouldn't continue coaching in the program (which is growing) right now," he stated.

DEAR ABBY: May I please respond to INDIGNANT MOTHER, who tried to justify placing her child in a harness to save him from being lost or run over, or falling down a flight of stairs? A child should be taught—not leashed! To defend using a harness by saying it's for the child's protection is a cop-out used by parents who are too lazy or busy to look after their own children. There is no substitute for a mother's personal

Of course, unkind remarks from strangers are out of place, but someone should open the eyes of mothers who put leashes on children. Maybe the mothers should put leashes on THEMSELVES and be walked through stores and airports for their "protection." Adults also get lost, run over and fall down stairs. I say, God giveth and God taketh away, harness or no

UNLEASHED IN OKLAHOMA DEAR UNLEASHED: Please read on for another point

DEAR ABBY: This is for INDIGNANT MOTHER, who was frequently subjected to insults from strangers because she used a harness on her 2-year-old child I, too, used a harness, and a plain, old-fashioned dog leash on my two children when they were toddlers. They were only 11 months apart in age and quite a handful. While I worked in the yard or hung my clothes outside, I'd clip their harnesses to the clothes line so they could run and play within safe limits.

While shopping with my harnessed youngsters, collected many cold stares from strangers. Some even reminded me that I was raising children—not dogs. Then, something happened that made it easier for me to bear those insults. A beautiful, 2-year-old neighbor girl was killed. Two minutes earlier, she was beside her mother in the kitchen. There was one broken-hearted mother, one dead child and one unsuspecting driver who didn't see the wee curly head dart from between two parked cars until he felt the thump of a wheel go over her little body. That was 25 years ago. Today I am the mother of two living children and six grandchildren, and I thank God that He gave me the intelligence to value the lives of my children above the criticism of a few "know-it-alls." Indignant mother, forget your indignation and rock your living baby to sleep. Keep him harnessed until he's old enough to understand simple danger. It's much better than

MRS. O.K. IN VA. DEAR ABBY: Bravo to the mother who uses a harness on her small child! Many mothers don't use one because they are afraid of appearing "cruel."

As a physical therapist, I have treated many small children for dislocated shoulders caused by impatient parents who have literally pulled their children's arms out of their sockets holding onto their hands in traffic.

A dislocated shoulder can go undetected for a long time while causing much damage and discomfort.
