crease this week in budget slicing. All of these developments occurred as the directors prepare for their second workshop today at 7:30 p.m. on the proposed \$25.5 million budget for the 1977-78 fiscal year.

This budget, proposed by Weiss, would require a General Fund tax increase of 9.43 mills and a Fire District tax increase of 1.23 mills.

'The Republican Party feels strongly that an increase of this magnitude is unreasonable in the face of economic realities," the party statement, released today by ublican Town Chairman Thomas

F. Ferguson, said. "The party also feels that a token reduction of the proposed increase by the party in power will not be a realistic recognition of the difficulties faced by the electorate," the statement said. "Only a real-effort to trim every ounce of fat from the

Members of the board, which has scheduled three budget workshops this week, expect cutting of the budget to increase this week

lican Vivian Ferguson that little was cut from the budget in the first workshop Thursday night. She said that it is "par for the course" for the directors not to eliminate very much in the early

stages of the work. 'But, this board has to take a pretty hard-nosed stand, she said.

'We've got a lot to do yet."

Democrat Jack Goldberg said, "My initial attitude is to look where we can save some money.

"It's important for the public to recognize that the directors are taxpavers too. We're not about to be foolish enough to cripple the town by cutting too much or to hurt ourselves eliminated this year. by overtaxing," Goldberg said.

Another Democratic member of the board, Robert Price, said, "The best is in store for us," referring to the two largest sections of the budget, Public Works and Education.

Price said he will be interested to hear Weiss' recommendations for the Public Works budget, which is scheduled to be the major topic of tonight's session.

In referring to the Education budget, Price said, "I think he of the most important parts of both of the most important parts of both (Weiss) may give us the ball on that

In the first budget workshop, discussion of town salaries was frequent. The 1977-78 fiscal year includes 27, rather than the normal 26, pay days. This results in an automatic rise of almost four percent over present-year salaries.

Regular rise

This increase, coupled with regular pay hikes and step-by-step salary increases, results in a substantial rise in the salaries that are included in the 1977-78 budget.

"The biggest problem is the salaries are high," Mrs. Ferguson said, referring to the proposed budget. "I think the raises are fantastic.

The format for the budget hearings has been altered for this year. In past years, department heads have met with the board to discuss the proposed department budget. This procedure, unless requested by the board for a specific area, will be

Also, Weiss and other representatives of the town administration attended the first workshop and will continue to attend unless the board objects. In the past, the board and manager have met for a number of sessions before the board met separately for the final session.

(It's Saturday and every day at CBT.)

CBT wants to give you your next loan. And with Jet Banking we've made it simpler and faster than any bank around.

Introducing the Saturday loan.

From now until May 28th, you can come in for a loan on Saturday mornings at most CBT offices.

Introducing the one day loan.

At CBT, if you apply any weekday before noon, in most cases we'll have your answer by 3 o'clock that same day.

Introducing the phone loan.

If you can't get to the bank get to a phone instead. Dial 1-800-842-2060 (toll free) and we'll take your application over the phone (even on Sunday). And you'll have an answer the next business day.

Introducing hard to beat rates.

Now that we've made it simpler to get a loan, we're making it easier to repay. You'll find our loan rates competitive with those at most other banks.

Introducing the take-home loan.

With CBT's Jet Banking, just come in and pick up a Loanday envelope. Take it home and fill in the application at your leisure. Then just drop it at your CBT branch.

Come in to CBT for your next loan.

Any way you look at it, applying for a loan was never easier. That's banking the way you want it. Jet Banking.

DEAR ABBY: For many years we West Virginians have been trying hard to let outsiders know that we are not all barefoot, illiterate, backward mountain folk. But no matter how we try to point up our economic strengths, our flourishing industries, our symphony orchestras and our cultural progress, someone always shoots us down.

The media also does its part by playing up every West Virginia coal mine disaster, prison riot, or national tragedy

or scendal.

Can you imagine our delight when in a recent basketball game, we West Virginia Mountaineers defeated Notre Dame, the perannial powerhouse Irish, before a television audience of millions!

We are not all dumb Hillbillies; Cyrus Vance, President Carter's choice for secretary of state, Robert C. Byrd, the majority leader of the U.S. Senste, Pearl Buck, the famous author, the late Pete Lisagor, a highly respected

author, the late Pete Lisagor, a highly respected newspaper correspondent, Peter Marshall, host of the Hollywood Squares, actors Don Knotts and Fuzzy Knight, and sports idol Jerry West were all from West Virginia. We were very disappointed when you, Dear Abby, our favorite columnist, ran a letter in your column that read in part: "Should we sillow our daughter, a fifth-generation." favorite columnist, ran a letter in your column that read in part: "Should we allow our daughter, a fifth-generation American, to be married without dignity like a West Virginia Hillbilly?"—and you made no effort to correct that

DEAR PROUD: You are right. I plead guilty to the ain of omission. I should NOT have allowed that bistantly bigoted remark to go unchallenged.

As you know, I try to keep my answers brief, but that is no excuse for failing to set that woman straight.

I didn't realize the seriousness of my mistake until I received an avalanche of letters from trate West Virginians.
I have learned a very valuable lesson. I apologize. Thank you for taking me to task. I had it coming!

For water heating...and for any energy-saving reason in any season. Take it truly from CNG's Georgia DiPietro, a gas appliance is a Conservationist any time. And now that we've had a traditional New England winter, that's especially true about the A.O. Smith Conservationist gas water heater. When you

shower, wash dishes, do the laundry in hot water that's heated by gas, you're using the most efficient of all major energies. The new generation Conservationist costs up to 23% less to operate because it uses less natural gas than the older, conventional models it's designed to replace. The Conservationist has a glass-lined tank that holds in heat, higher efficiency insulation, and a flue design that conserves even more energy. And the tank is covered by a 10-year manufacturer's replacement

warranty. The Conservationist truly saves a lot of gas - and you can help it save even more. For further information, call Georgia DiPietro or a CNG Conservationist

for water heating ... and for any energy-saving reason in any season. Take it truly from CNG's Georgia DiPietro, a gas appliance is a Conservationist any time. And now that we've had a traditional New England winter, that's especially true about the A.O. Smith Conservationist gas water heater. When you shower, wash dishes, do the laundry in hot water that's

heated by gas, you're using the most efficient of all major energies. The new generation Conservationist costs up to 23% less to operate because it uses less natural gas than the older, conventional models it's designed to replace. The Conservationist has a glass-lined tank that holds in heat, higher efficiency insulation, and a flue design that conserves even more energy. And the tank is covered by a 10-year manufacturer's replacement

warranty. The Conservationist truly saves a lot of gas — and you can help it save even more. For further information, call Georgia DiPietro or a CNG Conservationist

at 525-0111. They love A.O. Smith — the Conservationist, that is.

In a statement to the town committee, Rivers said, "I have been very concerned about my future with the Democrat party and its position on many issues.

Sewer plan on agenda

The Sewer Authority recommends

a shared sewer system with Mansfield, UConn, and Mansfield Training School at a cost to Coventry of \$695,000 or 1.86 mills. The system which would sewer a section of Rt. 31 and part of Coventry Lake will provide sewers for 700 existing iomes and businesses.

The sewer plan would be operational by 1980 and Coventry would own and operate the sewer reatment plant which would be ocated near the Willimantic River. Federal and state funding will pay 90 per cent of the cost of the plant. Other agenda items include: The town's cemetery ordinance, a meeting with representatives of the Coventry Baseball Association, and ratifying appointments to the Central Special meeting

The Planning and Zoning Commission has scheduled a special meeting onight at Town Hall at 8.

Mrs. Barrie Tuttle

Andrea Hewitt of Manchester and Barrie Tuttle of Barkhamsted were married April 2 in an evening ceremony at the Hartford Hilton.

The bride is the daughter of Mr. and Mrs. Charles G. Hewitt of 104 Chestnut St. The bridegroom is the son of

Mr. and Mrs. Carl A. Tuttle of Barkhamsted. The bride wore a gown of white chiffon with a bodice of knitted lace and a scoop neckline outlined with scalloped lace. She wore lilies of the valley in her hair and carried a prayer book with white silk roses and lily of the valley. Miss Tina Smith of East Hartford was maid of honor.

John Saucelito of Manchester served as best man. Mr. Tuttle served 26 months in Vietnam as a sergeant in the U. S. Army Signal Corps. He is employed as a communications supervisor with the Connecticut State Police. He also appears weekly at the Ramada Inn in East Hartford as a disc jockey and vocalist.

Hough-Belding

Miss Everis L. Belding and John O'Connell Hough Jr., both of Hermosa Beach, Calif, were married March 4 in Las Vegas, Nev.

The bride, formerly of Manchester, is the daughter of Mrs. Rudolph V. Gorsch of Talcottville and Everett Belding of Southbury. The bridegroom is the son of Mrs. John Hough Jr., of St. Louis, Mo., and the late Atty. John

Mrs. Hough Jr. is employed by Western Air Lines in Los Angeles, Calif. Mr. Hough served in the U. S. Army from 1967-69 and is currently a psychology major at California State College. He plans to enter law school upon graduation.

The couple is residing in Hermosa Beach. They plan to visit Connecticut from June 14-20.

Bran is low in sodium

DEAR DR. LAMB - My husband has very high blood pressure and kidney trouble. He has been eating pure bran obtained in one of the health food stores, two teaspoons three times a day, which has helped his bowels.

He would like to know if there is any salt in the bran and if so, how much. He also drinks from three to four glasses of skim milk a day. Is there any salt in the milk that could prove harmful?

DEAR READER - The only reason for concern about salt is its sodium content. Salt is sodium chloride. When the body retains sodium it retains fluid and in people with high blood pressure this may cause an increase in

pressure. How severe the sodium restriction must be in a patient's case depends entirely on how severe his disease is. Many people with modest high blood pressure can tolerate a reasonable amount of naturally occurring sodium in their common foods without any problem at all. In more severe cases it is wise not only to eliminate adding salt to foods but to select foods that contain little or no sodium

Natural wheat bran is very low in sodium. It con tains only 9 milligrams of sodium in 100 grams (3.5 ounces), according to the U.S. Department of Agriculture. A normal healthy active adult nor-mally needs about 2.5 grams of salt a day (969 milligrams of sodium) but the average American may consume 10 to 12 grams of salt a day (3875 to 4650

milligrams of sodium). The healthy kidney simply flushes out the excess along with water to maintain the normal salt balance in the body.

A cup or glass of milk (half-pint) contains 122 milligrams of sodium, far more than the bran. Milk contains the same amount of salt as the cow's body fluids - about the same as for humans. That amount of salt is equivalent to the concentration of salt in sea

If a person needs to severely restrict the salt in the diet it will be necessary to limit or eliminate the use of milk. In that case calcium supplements may be needed. There are some brands of low salt milk prepared as special foods that are available in some parts of the country and if your husband needs to go this route perhaps the

makes a difference what type of calisthenics you do. general typical exercises strengthen the muscles that you use for that exercise and often the exercises include stretching and use of body parts through the full range of their motion

Just keep in mind that you can develop terrific arm muscles while your leg muscles wither away if your leg is in a cast and unused. The principle is, if you don't use it you lose it. So, sensible calisthenics help to improve muscle mass, muscle tone, muscle strength, mobility and endurance only of the parts
