Bear In Mind.

We may not have had 16 years experience in Photographic and Crayon work, but it is a well known fact that all persons have not equal ability in learning. Some acquire more skill in one year than others can in ten, and the proper way to test the matter is not by newspaper talk, but by actual comparison of the work turned out. We invite this comparison as to the merits of our work, with that of any other studio in this vicinity, and guarantee to satisfy all in workanship and price.

The mud hen's nest is a weedy, reedy, fibrous structure, composed mostly of dead grass, gray ends of tules and misfar out from shore, without anchorage where it drifts to and fro, cradling its eggs easily. It presents to the eye simply the semblance of a mass of wasting getation. One who knows birds well. and who has made them a study from these same trees on the laguna's bank, tells me that he has many times waded out to search for a nest, and espied it only when sweeping away with his hand rubbish of leaves, but that proved the radle's counternane with which the careful mother had shielded her trea-

F. J Cheney & Co., Toledo, O., Gentlemen:-I have suffered from catarrh for about five years and have tried several remedies without relief until I commenced to use Hall's Catarrh Cure last February. I must say that it is a A SUCCESS, the dropping in my throat disappeared entirely after the first bottle. It increased my appetite, so that I now weigh eight pounds more than my customary weight. I have recommended it to others and all who used it have been greatly relieved and speak highly of it. One of them was in my store vesterday and expressed his wish to peddle it this winter. Will you please let me know the lowest terms you could furnish it for, as I would like to keep it in stock. Hoping to hear from you soon, I remain, Yours respectfully,
