Bear In Mind.

We may not have had 16 years experience in Photographic and Crayon work, but it is a well known fact that all persons have not equal ability in learning. Some acquire more skill In one year than others can in ten, and the proper way to test the matter is not by newspaper talk, but by actual comparison of the work turned out. We invite this comparison as to the merits of our work, with that of any other studio in this vicinity, and guarantee to satisfy all in work-

Engineer Robert R. Peary, 'the United States Navy, has a collection of Esquimau things that illustrate life in the Arctic regions. During his solicars in the Whete

gions. During his sojourn in the Whale Sound region of North Greenland, although he failed at reaching a high latitude, he was able to get together skin tents, kayaks or canoes, and the weapons of the "Arctic high-landers," as the most Northern tribe of people in the world are called. An imitation snow house has been prepared and an ice-berg not made out of a very cooling substance. The chase of the white bear is shown and the method by which the Esquimau catches the walrus and sits on the ice and harpoons the seal. Trophies of the chase in the way of narwhal teeth and reindeer skins are on view which are particularly interesting jusnow because of the lever for northern advenessor F. W. Putnam, of Harvard Uniture which prevails at present. A family of Esquimaux is borrowed every day from the colony on view in another part of the park, and they sit and go through the indignity of measuring skulls and skeletons have been

HIGH TOWER-RUINS OF AN ANCIENT RACE IN UTAM.

America, is part of the ethnological dis- There are 30,000 square feet devoted to the country type of a hundred years ago, is assigned to the Latin-American hygiene, sanitation and charities and corrections of dressed in the costumn of the colored ressed resse division. Its red roof and white walls look down upon the works of the American savage.

Models of the ancient ruins found in Yucatan stand in the open air outside the sanathropological building. There are six of these models. They were made under the supervision of Edward H. Thompson, United States Coosul in that country, who had papter mache casts taken of the originals, which are reproduced in "staff" a sort of plaster with which almost all the fair buildings are faced. By a little ingenuity "staff" and the readily converted into the most substantial looking marble or granite. These

Treatan ruins, which have stood the weather in South America for no one knows how have read to a junitor and live in a flat. There is a complete model of the village of Skidegat, in British Columbia, showing the houses, totem poles and inhabitarits.

The home for the little folks at the Fair large of Skidegat, in British Columbia, showing the houses, totem poles and inhabitarits.

The programme was carried out principally by children. A number of choruses were sung hey resemble the architecture used at this very date in the construction of trust company buildings and banks in the more mod-arn city of Philadelphia. There is a portal from the rulned group of Labra, a straight tree from Uxmal and the "Facade of the Serpent," from the same city. Three por-ions of the ruin, which the early Spaniards alled the "House of the Nuns," are repro-

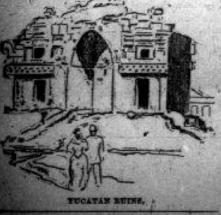

sons of the ruin, which the early Spaniards called the "House of the Nuns," are reprofaced. Mr. Thompson, after creeting the salls, returned to Yucatan for a collection of calls, returned to Yucatan for a collection of calls, returned to Yucatan for a collection of calls to place around them.

Near this group is a fac-simile of the homes of the cliff dwellers of Utah, Cotorado and lew Mexico, occupied long before those ands resounded with the monotonous repetition of the marriage deremony and arguments or free silver. The calf dwellers' homes are persented as a "concession," the builder putting them up at his own expense and reimpersion, himself by selling the tast of admission. This is the only money rearing section of the ethnological exhibit, except the resultance, who can only be seen after the prolection of twenty-live cents.

Of course there aren't any life cliff dwellme, as not even Chicago can resource them, but there are plenty of savages. The wild man of Dorneo has now come to town, but the wild man of America has—exclusive of

purely lay visitors to the Fair, some of whom poor less cultured than the Indian, whose ce, daubed over with colors and looking like per wiper, sees that none of the work that to be done escapes the notice of his wife.

Denmark's exhibit, a model of system and elegance, was thrown open at

ecause the girls are flocking to Chicago o Building was also formally opened. Every visitor expressed great admiration for the delicacy and beauty of the work. The invited guests went over to the Japaness tea house where tea and lunch were served. The Hooden, or Phoenix Palace on Wooded Island, the building which the Japanese Government is to give the city after the Fair, was also opened. Visitors were not allowed inside, but the stiding panelled doors were thrown back so that a view of all the

were thrown bases interior could be had from the balconies.

Queen Victoria's tapesteries taken from Windsor Castle and consigned to President Highbotham for exhibition at the Fair, were taken from the salety vaults where they have been kept since Royal Commissioner Harris brought them to Chicago, and removed to the Exposition. They were placed in the building. Their safety is guaranteed by a bond of \$100,000.

The individual exhibit of Margherita.

Queen of Italy, was placed on view. It is made up largely of laces, and is under heavy

bonds for safe return.

Visitors also had an opportunity of seeing diamonds removed from gem-bearing clay brought here from Africa. The exhibit of brought here from Africa. the Cape Town diamond mines was put in motion, demonstrating the manner in which diamonds in the rough are taken from the

noses toward the lake from the fort-like pa-vilion south of Agricultural Bullding, were put through a driff and the great exhibit was formally opened to the public. Herr Worwere the hosts, and explaine here the hosts, and control of the great guns. The paid admissions at the gates day numbered 55,881.

A Matter of Health

TT costs more to make Royal Baking Powder 1 than any other, because its ingredients are more highly refined and expensive. But the Royal is correspondingly purer and higher in leavening strength, and of greater money value to the consumer. The difference in cost of Royal over the best of the others does not equal the difference in leavening strength, nor make good the inferior work of the cheaper powders, nor remove the impurities which such powders leave in the food.

Where the finest food is required, the Royal Baking Powder only can be used.

Where the question of health is considered, no baking powder but Royal can be used with safety. All others are shown by official analyses to contain lime, ammonia or alum.
