BY THE EXPOSITION.

A Visitor Must Walk a Great Many Miles to See All the Wonders of the White City — Route of the Average Sight-Seer — Some Exhibits of Foreign Countries.

The World's Fair is not only a wonderful exposition of the globe's industrial, mechanical and artistic progress, but it is a "city of magnificent distances." Speaking of the Immense space covered by the Fair, the Chicago Record says:

The Exposition of the globe's industrial, mechanical and artistic progress, but it is a "city of magnificent distances." Speaking of the Immense space covered by the Fair, the Chicago Record says:

The Exposition of which are described the strange ways of humanity say it is because he is buoyed up and exhiliarated by novel sights and kept on the prance by rousing music. His mind is so busy that he forgets about his legs.

How far must a man walk to see all the Moorish room, which is a reproduction of an apartment in the palace of the Governor at Algiers. Inclosed by Moorish arches, in imitation of marble, is a central court. The office of Mr. Montells, the commissioner from the colony, is situated at one of the covers, the rest of the space being devoted to a display of the products and art works of the country. Pletures by native artists hang on the walls, showing the four seasons in number, are each 1750 feet long, making Immense space covered by the Fair, the Chicago Record says:

Some poor weak woman who could not
fravel four blocks downtown without boarding a horsecar will walk five miles at Jacks
son Park. She does not realize it at the
some park. She does not realize it at the
some park. She does not realize it at the
some park. She does not realize it at the
some park. The north and south aisles, eleven
in homeopathic doese, 100 yards at a time. It
has often been remarked, and there is no
harm in repeating it now, that the general
bigness of things around the Exposition
give delusive ideas of distance. The visitor
has an experience like that of a "fenderfoot"

SWAMP-ROOT

CURED ME.

Gentlemen:-"I desire to tell you just how I was, so that the public may know of your conderful Swamp-Root. Two years ago last October I had spells of vomiting: I could not keep anything in my stomach; the Doctor said I had consumption of the stomach and bowels; continued to run-down in weight: I was reduced to 60 lbs. I would vomit blood, and at one time as much as three pints; we had two of the best Physicians and they said my case was hopeless. "Oh, my sufferings were terrible." A neighbor told us of your Swamp-Root, and my husband got a bottle : I took it to please him. I used six bottles of Swamp-Root and I am now nearly as well as ever. I weigh 108 lbs., do my own work and take care of my baby. Every one says, I sees raised from the dead, and many will not believe that I am still living until they come and see me, and then they can't believe their own eyes, I am looking so well," Very gratefully. MRS. JOHN CHAMPINE. Antwerp, N. Y.

How often you see a cher, the commander. They called him "Gid Forwards." We have had enough retreats in Forwards." We have had enough retreats in the church of Christ; let us have a glorious advance. And I say to you now as the general said when his troops were affrighted. Pising up in his stirrups, his hair flying in the wind, he lifted his voice until 20,000 troops heard him, crying out, "Forward, the whole line."

Again, I learn from this subject that we sometimes do well to take advantage of the world's sharpening instruments. These lites were reduced to a file, and so they went over to the garrison of the Philistines

Bravery, more metal. How often you see a man start out in some good enterprise, and the first blast of newspaperdom he has collapsed, and all his courage gone, forgetful of the fact that if a man be right all the newspapers of the earth, with all their columns pounding away at him, cannot do him any permanent damage! It is only when a man is wrong that he can be damaged. Why, God is going to vindicate His truth, and He is going to stand by, you, my triends, in every effort you make for Christ's cause and the salvation of men.

I sometimes say to my wife: "There is

throughout all the land of Israel," ctc.—I Samuel xiii. 19-21.

My loving and glad salutation to this uncounted host, Chautanquans. Christian Endeavors, gospel workers and their friends from all parts of Wisconsin and America, saints and sinners! My text is gloriously appropriate. What a galling subjugation the Israelites were suffering! The Philistines fo use their grindstones, and the Israelites were suffering! The Philistines for use their grindstones, and the Israelites were suffering! The Philistines for use their grindstones, and the Israelites were suffering! The Philistines for use their grindstones, and the Israelites were suffering! The Philistines for use their grindstones, and the service of the blacksmiths shops and abolished the blacksmiths shops and abolished against blacksmiths, although I have always admired them and have sometimes thought I ought to have been one myself. The Philistines for use of the determination of the strain of the properties of the plants of

istines would not even allow these parties to business men and among sharp literary men and find out what their taste is, and then bor might they make any swords or apears. There were only two swords left in all the land. Yes these Philistines went on until land. Yea, these Philistines went on until they had taken all the grindstones from the land of Israel, so that if an Israelitish farmer to their music, and we will watch their secure to their music, and we will watch their secure. land of Israel, so that if an Israelitish farmer to their music, and we will watch their scu-wanted to sharpen his plow or his ax he had men, and we will use their grindstones, and to be more and he looked down at to over to the garrison of the Philistines | we will borrow their philosophical apparatus | to his moral courage, and he looked to get it done. There was only one sharpen- to make our experiments, and we will bor- his knees and said, "Ab, if you knew where to get it done. There was only one sharpers to make our experiments, and we will our instrument left in the lind, and that was a file. The farmers and the mechanics have a file of the line of the li ing nothing to whet up the coulter, and the good, and the pickax save a sample fig. industry was hindered and work needlessly will borrow their ships to transport our

goad, and the pickax save a manager sign, in will borrow their simps to transport our to do? Where is the field? Where is the distracted, where is the anvil? Where is the anvil? Where is the disgraced. That was what made Paul such a master in prayer meeting? Where is the pulpit? And his day. He not only got all the learning he prayer meeting? Where is the pulpit? And keep the Israelites disarmed. They might could get of Dr. Gamaliel, but afterward that an average of our body. get iron out of the hills to make swords of, standing on Mars hill and in crowded thor- ahead and do it -all the energies of our body, but they would not have any blacksmiths to oughfares quoted their poetry and grasped mind and soul enlisted in the undertaking, weld this iron. If they got the iron welderd, their logic and wielded their eloquence and Oh, my brethren, we have but little time in

swords, how to pieces the Philistines, the Lord throwing a great terror upon them. So it was then; so it is now. The two men of God on their knees mightier than a Philistine host on their freet.

Learn first from this subject bow danger—

There for the wind gaye to Jonathan Edwards and such a wards his influence in his day. He contained the winding side!

I think just now the King's horses are beside to the service of God, until not only the old meeting house in Northampton, Mass. but all Christendom, felt thrilled by his contained to the service of the winding side!

I there first from this subject bow danger—

Christendom, felt thrilled by his ing among His enemies as will make the earth ost on their feet.

I learn first from this subject how danger—
Is it is for the church of God to allow its

Well, now, my friends, we all have tools of tremble and the heavens sing. I see now the

You can Economize

By using Royal Baking Powder to the exclusion of all other leavening agents. The official analysts report it to be 27% greater in leavening strength than the other powders. It has three times the leavening strength of many of the cheap alum powders.

It never fails to make good bread, biscuit and cake, so that there is no flour, eggs or butter spoiled and wasted in heavy, sour and uneatable food.

Do dealers attempt, because times are dull, to work off old stock, or low grade brands of baking powder? Decline to buy them. During these times all desire to be economical, and

Royal is the most Economical Baking Powder.
