CHAPTER VII. HIS PA HAS GOT RELIGION.

"Well, that beats the devil," said the grocery man as he stood in front of his grocery and saw the bad boy coming...

"Don't swear, dear," says Ma as she threw down her hymnbook and took off her bonnet...

"I don't care," says Pa as he chased the ants out of his drawers. Job never had ants in his liver, but if he had, he would have loved the stings of a barn.

"Oh, Pa," says I, with tears in my eyes, "do you think your little Sunday school boy would catch and bring them home and put them in the hole of your liver pad just before you put it on to go to church?"

"No, Pa has not got religion," said the boy as he sat on the porch. He has joined the church on probation and is trying to be good so he can get in the church for good.

"You see, Ma said Pa had got to be on trial for six months before he could get in the church, and if he could get anything but swearing and doing anything without swearing and doing anything without swearing..."

"I saw poor Pa wearing a red, white and blue badge, and a round red badge, and several other badges like these, and he was looking for the grocery man to buy a piece of cotton cloth to set off with a badge."

"Yes, he wore all the badges he could get the first day, but after he bought a lot of badges, he wasn't very nervous about them."

"You see," commenced the exercises at home after breakfast by putting a piece of soap on the table and putting his feet on it, and we told him that he was not being very good."

A Strong Testimonial.

THOMAS P. AITKIN, ESQ.

DEAR SIR:—The No. 3 Furman Boiler that you put into my home in 1892 gave me excellent satisfaction last Winter. When the weather was 16 degrees below zero I had no trouble in keeping the Ten rooms Warm and Comfortable. I can heartily recommend it for its Quick Steaming Capacity and Economy in Fuel. With one and a half pounds of steam the lower rooms were kept at about 70 degrees, and the upper rooms from 60 to 65 degrees without any trouble. I heard no noise or cracking in the pipes all Winter. I shall be pleased to show anyone the Boiler and explain its workings, so as to get the best results from it. With my experience with it last Winter, I claim it to be one of the best Boilers on the market to-day and can heartily recommend it to anyone who is thinking of putting in a Boiler. I am pleased to give you this unqualified testimonial as to the merits of the Furman Boilers, and wish you success in the sale of them.

Yours Very Truly,

JOHN D. HENDERSON, Manchester, Conn.

EXPENSIVE BALL.

While practicing with a base ball on the sidewalk in front of the Patten & Brown building last Wednesday afternoon, Joseph Foreman, one of Chase's men, struck a tree with the ball, which on rebounding, went through one of the large plate glass windows of A. L. Brown & Co's store, breaking the lower half of the plate very thoroughly.

The glass was not injured, and the accident will cost Mr. Foreman some \$30.

KEEP OFF THE SHOW CASE.

While Mrs. Joseph Sackerson of Oak Grove street was doing some shopping in the dry goods department of Cheney's store last Saturday afternoon, she had her one year old boy in her arms, and wishing to arrange her bundles, so that she could carry them more conveniently, she rested the little fellow on the glass show case.

The glass broke, the child toppled over, and struck on the sharp edge of the broken glass, sustaining a cut some two inches long over the right eye and temple.

The little fellow cried pitifully while blood rushed from the gaping wound.

The frightened mother grabbed up the injured child and was directed over to Dr. Parker's office across the street where the cut was sewed up. The child is now getting along all right.
