J. L. JONSSON,

## a Strong Testimonial.

THOMAS P. AITKIN, ESQ.

DEAR SIR:-The No. 2 Furman Boiler that you put into my house in 1892 gave me excellent satisfaction last Winter. When the weather was 16 degrees below zero I had no trouble in keeping the Ten rooms Warm and Comfortable. I can heartly recommend it for its Quick-Steaming Capacity and Economy in Fuel. With one and a half pounds of steam the lower rooms were kept at about 70 degrees, and the upper rooms from 60 to 65 degrees without any trouble. I heard no noise or cracking in the pipes all Winter. I shall be pleased to show anyone the Boiler and explain its workings, so as to get the best results from it. With my experience with it last Winter, I claim it to be one of the best Boilers on the market to-day and can heartily recommend it to anyone who is thinking of putting in a Boiler. I am pleased to give you this unsolicited testimonial as to the merits of the Forman Boilers, and wish you success in the sale of them.

> Yours Very Truly, JOHN D. HENDERSON. Manchester, Conn.

THREE REBEL-SHIPS BLAZE

AWAY AT THE FORTS. Fired Into the City-Consternation in Brazil - American Interests

Unprotected. Admiral Mello, commanding the rebel Brasilian fleet, carried out his threat to bombard the forts guarding the bay of Rio de Janeiro. The rebel war ships, including the cruisers Aquidaban, Republica, and Trajano, took up positions before the forts shortly before 9 o'clock a. m., and a little after that f hour the signal to fire was set and was primptly obeyed.
The first gun was fired from the flagship of the first, and its detonation had scarcely died away before the shot was answered from the lort at which it was directed. The

firing then became general and the noise of the bombardment was deafening. From all the advises at hand, however, it
