a Strong Testimonial.

THOMAS P. AITKIN, ESQ.

DRAR SIR:-The No. 2 Furman Boiler that you put into my house in 1892 gave me excellent satisfaction last Winter. When the weather was 16 degrees below zero I had no trouble in keeping the Ten rooms Warm and Comfortable. I can heartily recommend it for its Quick-Steaming Capacity and Economy in Fuel. With one and a half pounds of steam the lower rooms were kept at about 70 degrees, and the upper rooms from 60 to 65 degrees without any trouble. I heard no noise or cracking in the pipes all Winters I shall be pleased to show anyone the Botler and explain its workings, so as to get the best results from it. With my experience with it last Winter, I claim it to be one of the best Boilers on the market to-day and can heartily recommend it to anyone who is thinking of putting in a Boiler. I am pleased to give you this unsolicited testimental as to the merits of the Furman Boilers, and wish you success in the sale of them.

Yours Very Truly.

CHICAGO'S BIG DAY.

Paid Attendance at the World's Fair Breaks all Records. Seven hundred and eighteen thousand twohundred and twenty-three people-the greatest crowd that ever congregated in America. -visited the World's Fair on Chicago Day This breaks the greatest one-day record at Paris with many thousands to spare; completely smothers the "big day" figures of any other exposition ever held, and establishes a

educate the neonle up to the knowledge of extending this aid is the preliminary step in the groundwork of

The Vienna Samaritan Society's establishment, like that of Berlin, is governed by the same strict discipline prevailing in the fire department of every great city, and is not unlike it in its various stations located in the different sections of the town. All those stations are connected by wire with each other and with the residences of competent physicians, some of whom are constantly within reach of an alarm sounded upon their call wire. So, too, are these stations open TAKING UP A PERSON WITH REGERN LIMES. found in Eastern California and Westat all times to those who may want re-

inattention in handling electric wires, to relax the skin over the abcomen. etc. In smaller towns and mining districts the principal causes of injury to his hands on both sides of the patient's UNIQUE INTERNATIONAL CON- life and limb are explosions, fails from abdomen, and, with a firm, hard pres-

ceive no new shock or wrench, for on the tender treatment by these assistants much depends, as they have it in their power to do greater damage than the most delicate care on the part of the other two will offset. The first act of the Samaritans when called to attend an injured person is to see that the patient is laid perfectly flat upon his back and that the bleeding is stopped. Then, one man stationing himself on the right and the other on the left of the prostrate ligura, the one on the right side passes his right arm | HOW TO PRODUCE ARTIFICIAL RESPIRATION. beneath the back of the patient, the
