TOWN NEWS.

R. O. Cheney authorizes the statement that he, and not M. S. Chapman, caused the cut to be made on Center street, as wide as it is, because he thought it necessary and in the best interest of the town to do so, and not for the benefit of the electric road, as has been stated.

Wm. Russell of Winter street employed a number of hands on Saturday and Monday last, clearing away a large tract of land in the rear of the premises owned by him on Center street. The improved appearance of the place is quite noticeable.

Hugh Calhoun of Spruce street, left town last Tuesday for Brooklyn, N. Y., where he has secured employment in a lumber yard. He has also moved his household effects and will make the City of Churches, where Mrs. Calhoun has many friends, his permanent abode.

Edithworth H. Kenney of Kenney street, died Tuesday evening in his 32 years. Death was caused primarily by a grippe, which led on to inflammation of the liver the latter causing death. His funeral took place yesterday afternoon. He was a single man and the son of Hubbard Kenney.

The auditorium of Cheney hall was lighted by electricity for the first time on a public occasion, last Monday evening. The new arrangement worked nicely and the lights were very satisfactory. The Glenwood Range.

Contains many new features combined with those proven by experience to be very valuable. Every detail has been considered at great length by men who have had long experience in the business, and nothing has been left undone to make this a perfect range. The castings are of the best quality of iron, and their smoothness and fineness of texture are remarkable. This range should be critically examined to fully comprehend all its many points of excellence.

The manufacturers of this range started in business in 1877. They were a half dozen of practical workmen, who had grown tired of strikes etc. and joined themselves into a company to manufacture these goods, which, solely on their merits, in open competition with others, have pushed themselves to the front, until to-day these people turn out more ranges than any concern in New England.

TOWN NEWS.

In the Washington dispatches of April 1, to the Hartford "Courier," it was noted that Rollin M. Wood would soon be appointed postmaster at the South Manchester office and everybody hereabouts has been on the alert all week waiting to hear the announcement of the appointment being made, but at this writing it has not been done, in as far as we are advised.

Vice-President Maurice Maloney presided at the meeting of the Central Sectional Union of Catholic Total Abstinence Societies, held in Rockville this week and installed the officers. Their next Convention will be held in Hartford, in the latter part of August.

Miss Mary Gilpin, who has been employed as a domestic by Dr. W. R. Tinker set sail for the County Armagh, Ireland, last Saturday.

William Lawrence of Montague, Mass., a brother of Mrs. George F. Day, died Saturday March 31, after a contest of some five days with pneumonia. He was 31 years of age, leaves a wife and four daughters. Mr. and Mrs. Day and two of Mrs. Day's sisters, Mrs. Jennie Lamont, Mrs. Mrs. Devereux and Mrs. Payne of this place and Mrs. D. B. Russell of Hartford, attended the funeral.

In his introductory remarks last Sunday, Rev. Richard C. Grogan, the new pastor of St. Bridget's church, gave notice that he would do all in his power to do both the social and religious work of the parish. In his parish, the cause of temperance is his particular study and he is anxious to promote the interest and welfare of all concerned.

The Swedish children's sewing society "Fifteen" met at the residence of Mrs. Nelson, on Pleasant street, Mar. 24, under the leadership of M. Vihberg, Ass. assistant teachers, Mrs. A. Johnson, Mrs. C. Axelson and Mrs. G. Stenman were elected. It was decided to give an entertainment in the next future for the benefit of the "Orphanus Adolphus Orphan's Home."

FOR THE ISLE OF GREEN.

Stuart Johnson, leader of the "Fifteen" Band and Thomas O'Neil, a prominent member of the same organization, accompanied by Mr. and Mrs. Edward Stevenson and Robert Adams, left here on Wednesday to set sail on the steamship Teutonic for their native home in Portland, County Armagh, Ireland.

BASKET BALL FOR CO. G.

Sergeant Major Hynes of Hartford will be at the Army next Monday evening, and bring out all the necessary equipments with him, so as to give the boys a lesson in the very popular game of basket ball. This will take place after the drill. An effort will then be made to organize a team by members of the Company and this carry on the sport in the same manner as being done by the military companies in the city.

SWANSON-BENSON.

Andrew Swanson and Miss Hanna Benson are to be married Friday April 13. The ceremony will be performed by Rev. A. G. Olson in the Swedish Lutheran church, for which occasion the interior will be suitably decorated. Charles Benson and Leta Benson and Emma Anderson as maids of honor. A bridal feast will follow at the residence of Claas Peterson on Linden street, where the young couple will reside.

J. A. ARMSTRONG IN TOWN.

J. A. Armstrong, now of Thompson, but formerly proprietor of the dry goods store in the Park building, here was in town this week removing what was in effect, which have been stored away in the house where Dr. Fluhb Brown now lives. The doctor did not move his household goods from Norfolk until this week, as there was not room enough in the building for the two sets of furniture. Mr. Armstrong's numerous friends here were pleased to see him.

APPOINTED AS GUARD.

P. J. Ahern of Gardner street has secured a position as guard, in the state prison at Waterbury. He left here last Saturday and began his new duties on Sunday morning April 1. He expects to get home over Monday about once in two weeks, and will not move his family for the present. He has had a long wait for this position and his friends will be pleased to learn that he was finally successful.

GOOD WORK.

E. T. Carrier has made a much needed improvement on the sidewalk in front of his residence by laying in a wooden curbing and raising up the walk. That has long been a bad place in wet weather and pedestrians will certainly appreciate the good work done. There is also ample room for some more of the same sort of labor on the property adjoining, which it is hoped will soon be performed.

Huntington's Business College placed 4 pupils in positions last week. The past 8 days it has entered 18 new ones. This school is a natural boon.

FINE SHOWING.

Tax payers will be interested and pleased to know the fact that, Tax Collector John Loomis has gathered for and paid in to the town treasury, the sum of \$41,200, on the roll call of 1903. Mr. Loomis made payment to Treasurer Wadsworth yesterday. This is close work, as it leaves probably less than \$1,000 to be collected, as the entire roll call was a little over \$42,000 and the discount of five per cent for advance payment had reduced the total amount some \$2,000.

SUNDAY SCHOOL BOARD.

POSTMASTER BALCH.

Word was received here last Tuesday from Washington, that Charles I. Balch had been appointed postmaster at Manchester to succeed Levi Drake, whose term of office expired in February. There was no formal objection to Mr. Balch's appointment. He has not yet received his commission and consequently no definite statement can be made as to what disposition will be made of the office or what has been carried out in connection with it. The matters of location, arrangement and assistant are all to be determined after the commission is received. Mr. Balch will, in all probability, continue in his present position in the store of A. L. Brown & Co. in connection with an assistant, attend to the duties of postmaster.

The Glenwood Range.

Contains many new features combined with those proven by experience to be very valuable. Every detail has been considered at great length by men who have had long experience in the business, and nothing has been left undone to make this a perfect range. The castings are of the best quality of iron, and their smoothness and firmness of texture are remarkable. This range should be critically examined to fully comprehend all its many points of excellence.

The manufacturer of this range started in business in 1877. They were a half dozen of practical workmen, who had grown tired of strikes and joined themselves into a company to manufacture these goods, which, solely on their merits, in open competition with others, have pushed themselves to the front, until today these people turn out more ranges than any concern in New England.
