

An attempt is being made to export flowers from Australia, refrigerating them, as beef and milk are treated.

It is interesting to know that 10 per cent of the buildings in the United States are struck by lightning last year were churches or chapels.

The statistician is sometimes interesting if not instructive. He has now discovered that only fifty-five per cent of blondes marry, while seventy-nine per cent of their brunette sisters engage in matrimony.

Although Queen Victoria rules over an empire that embraces possessions in every part of the world she has never traveled outside of Europe, and even there her trips have been short ones to France, Holland, Germany and Italy only.

According to a German railroad authority, the railroads for the world for the year 1893 were as follows: Europe, 144,380 miles; America, 218,910 miles; Asia, 23,239 miles; Africa, 7,212 miles; Australia, 12,856 miles, with a grand total of 406,416 miles for the whole world.

It is estimated that the tenement house population of New York city amounts to 1,335,773. There are 93,000 tenement houses, and according to the above estimate, there are thirty-three persons in each of them.

So many and intricate are the questions and legal phases growing out of electrical interests, observe the New York State Bar association, a distinct class of lawyers devoting their entire time and study to this branch of science, and a separate set of law reports and legal treatises have been found necessary upon questions of electrical law.

Wagner has secured a wonderful triumph in Paris, notes the Detroit Free Press. Only a short time since an attempt to present a Wagner opera in Paris resulted in a riot. Last year more Wagner operas were presented at the Paris opera than any other.

Nothing so strange as the indignation of a little child by a company of men, yet when Freeman Nelson kicked a two-year boy in Elkton, Md., a day or two ago, so hard that the mark of his foot remained on the child's forehead for hours, he was praised by all who saw it and warmly thanked by the little one's parents.

A most remarkable march was made the other day by a company of the Fourth Bersaglieri, an Italian regiment. The march was made under full weight of accoutrements, baggage and arms, and was over twenty miles of mountain paths and two hundred miles of high road at the rate of three-quarters miles an hour.

A note has been posted on the doors of one of the fashionable churches in the West End of London, intimating that in future the stewardess who round with the offertory plates have received premonitory instructions not to receive any coppers. It goes on to say that "Those who cannot afford a three-penny piece are welcome to worship here free."

For nearly a century the old blockhouse in Pittsburgh known as Blockhouse's, famous during the Revolution, was surrounded by tenements so as to be invisible from the streets in the neighborhood. It was rescued from this fate and was promoted from his obscurity when the military academy in 1851, became second lieutenant in 1856, a first lieutenant in 1866 and a captain in 1867.

His son enlisted as a private in a company in 1865 and was promoted to a second lieutenant in 1869. Captain Froelick Fisher entered the army in 1858, and was a first lieutenant in 1865 and a captain in 1867. His son entered the army as a second lieutenant in 1861. Captain F. S. Godfrey, one of the heroic survivors of Ouster's regiment, who graduated in 1863, was a son in the medical corps with the rank of first lieutenant. Captain Kilbourne's son is a second lieutenant in the first infantry.

Philadelphia has yet to win six straight games in the series that she has been playing with Baltimore. The Philadelphia team has yet to win one game in the series.

It is interesting to know that 10 per cent of the buildings in the United States are struck by lightning last year were churches or chapels.

STRIKE INVESTIGATION

CLEVELAND'S PROMISE TO THE LABOR LEADERS.

He Agrees to Appoint an Arbitration Commission on Condition That the Strikers Withdraw from the Strike. Violence and Mob Rule Cease.

President Cleveland informed a committee representing Cleveland laborers that he would in his next letter, appoint a commission composed of three members, of whom the United States Commissioner of Labor shall be the Chairman.

When Admiral Pore was abroad in any foreign port where there was any mischief afloat he was accustomed to make his first call upon them, in state, in order to show that the United States Government honored those laboring men.

Offences in connection with the adulteration of food are treated with great severity in Germany than in the United States. Under the German law, offenders of this kind are invariably sent to prison.

The total number of deaths in the United States in 1892 was about 900,000; number of persons cremated that year, 503. As crematories have not been in existence in the United States for more than a few years, these statistics indicate that the movement favoring the carrying of the dead is not making much progress.

So urgent and widespread has become the demand for expert and competent electricians, that the National School of Electricity has been established in Chicago, under the auspices of eminent electricians.

In a magazine article Dr. Hammond, formerly surgeon general of the United States, wonders why the physician should not be entitled to as much for saving a nose by a skillful operation as for saving a limb.

THE MONERS USED RIFLES

TWO BATTLES AT AN ALABAMA COAL SHAFT.

White Strikers Kill Half a Score of Colored Men Who Had Taken Their Places—Many Deplorably Wounded. A Hundred State Militia on Guard.

A large body of men, armed with rifles, were discovered about 5 o'clock p. m. near Slope No. 3, of the Pratt mine of the Tennessee Coal, Fire and Railroad Company, seven miles from Birmingham, Ala.

It was the hour when the men at work at the mines came out. They were colored miners who had been the place of the strikers, and the attacking party were strikers and their sympathizers.

As the colored men came out the strikers, who were hiding behind bushes and trees, opened fire. Several hundred shots were fired before the strikers scattered.

The strikers attacked the militia with rifles and shotguns, and all the other strikers were wounded. Several men on both sides were wounded.

Two young girls, Rosa Berger and Anna Priest, were killed, and a young girl, FIVE THOUSAND Socialists assembled in the city of New York, N. Y., on the 19th of July.

TOWN NEWS.

On Thursday evening of last week Orford Lodge No 58, A. O. U. W. had the grandest time seen since it was instituted.

The guests of the evening were Past Grand Master W. C. Rowell B. Farren, Supervisor J. C. Gallagher, son of the famous James C. Gallagher of New Haven, Deputy G. W. French, Wm. S. Dwyer, teller of the first National Bank, Hartford, and other officers and members of Manchester Lodge A. O. U. W., to the number of thirty.

The lodge room was crowded. Daniel C. Beebe took the degrees and after the work of the evening was over, all retired to the banquet hall, where the entertainment committee, under the leadership of Wm. Raby, had the tables invitingly spread and loaded down with cold ham and tongue, lobster salad, biscuits, ice cream, cakes, iced coffee, etc.

Some seventy five covers were spread, a blessing was asked by Rev. Thomas Simms and a merry hour was spent discussing the tempting feast.

After the cigars had been served, Master Workman C. P. Montgomery rapped for order, and introduced Superior Gallagher, who spoke entertainingly and instructively on the Order, the good work it is accomplishing, the great need that people have of such organizations, the bright prospects for the perpetuity of the Order, the noble mission it has before it, and urged members of the subordinate lodges to push on in the good work of introducing it to the uninitiated, and in bringing into the fold all deserving persons within their reach.

Superior Gallagher is an easy, logical and entertaining speaker, and in his speech he is unusually well informed about the Ancient Order of United Workmen, and a most excellent man to send out to present its good features to the public. He suggested that the lodge get up a public installation at some future date, and that he would see to it that plenty of good speakers were on hand to enlighten the people on the merits of the A. O. U. W.

The next speaker of the evening was P. W. Rowell B. Farren, who gave an account of his recent trip to the Pacific Slope in the interest of the Order told how he found members at every stopping place along the route, of the cordiality with which he was received, and that the Order was becoming more and more widespread in the United States and the Old Follows, etc., that it was now almost impossible to go to any town of any considerable size in this nation and find it without members of the A. O. U. W.

He complimented Orford Lodge on its membership, the capable ritualistic work of its officers, but still we generally find the condition in which he found it, and also expressed the hope of being

again permitted, at no distant date, to unite with it in another effort of as pleasant and sociable a character as the present one.

Best of wishes Simms, in his usually bright, prompt and timely way, made an impromptu address that was right to the point, said something good, said it well, said it in short order and said amen. Bradford H. Grant, master of Manchester Lodge, said he hoped to be able soon, to invite Orford lodge over north, to enjoy a similar event. Wm. S. Dwyer was then called up, expressed his pleasure at being present, and said some words of good cheer and encouragement to the members. As the electric lights are shut off at eleven o'clock each night, it has become apparent that the hour had almost arrived and all were glad to exit as possible, bearing memories of an enjoyable evening spent under the vine and fig tree of Orford Lodge Ancient Order of United Workmen.

NOT MUCH OF A WALK OVER.

The Willamantic base ball club came here last Monday intending to have some fun with the local team, and entered in upon the work in high spirits. As a matter of fact, the way the game opened it looked as if they would have a walk over and the enthusiasm of the audience was at a low ebb during the first two innings, as the home players were retired in one, two, three, over.

In the third inning however the boys pulled themselves together and Behm led off with a two-bagger, bringing in W. B. Cheney with the first score. Sullivan then made a three-bagger, and Behm followed safe over the home plate and this was followed with a good thump by Rice this enabling Sullivan to score, and one more run was made in the inning, leaving the tally four to three in favor of the home team. During the first half of the game, the excitement was intense and cheer after cheer rent the air.

The Willamantics were not able to make a score after the first inning, until the seventh and the home team could not find the home plate again until the ninth inning when they tied the game, but in the last half the visitors managed to get in one more run and thus won. The game was a very interesting one, and was followed very closely by a large audience. There is no question whatever, but that with some more practice the home team will play good ball, as the boys have a proper kind of material in them to make excellent ball players.

It is not to be expected that they could successfully cope with professionals, but they certainly made a record in this game of which they may well feel proud. They outbatted the visitors by nearly two to one, and they won twelve eggs that and the dozen weighed two and a half pounds, or an average of three and one third ounces each.

Wm. S. H. Warner of Hudson street, has an ordinary hen that lays some extraordinarily large eggs. We were shown twelve eggs that he had laid in thirteen days, and the dozen weighed two and a half pounds, or an average of three and one third ounces each.

The eggs are all single yolks, of ordinary size, but the white part, is abnormal. We are informed on reliable authority that, in the general run of the market, eggs will not average more than twenty ounces to the dozen, or one and two thirds, total 5. On this fact is taken into consideration, one can readily realize what an extraordinary record this is.

Wm. C. House of Charter Oak street, has an ordinary black hen, but Lehigh, that has just made a record of laying 59 eggs at one run, or without "setting". She has not skipped over four days in the entire period without laying. This we believe is quite an unusual record, and if there are any better ones hereabouts, we will be glad to make them known through the columns of The News, if the facts can be properly substantiated.

Walter L. Main's Grandest and Best Show on Earth will give two performances on Hollister's lot Wednesday afternoon and evening August 1.

This organization is considered one of the best, if not, in fact, the best circus traveling. For this season every thing is new from the canvas to the seats. A very large company of equestrian artists has been engaged, each and every one of whom are said to start in their respective lines, and they include every branch of the circus performers. Many entirely new acts and a longer number of sensational novelties will be presented.

The performances will be given in three or two elevated stages. The seats have been so arranged that no one will be prevented from seeing all that is going on. Aside from the circus department the management will contain some very valuable additions, and a number of the animals have been trained to the state of perfection that they almost equal human beings. Among these may be mentioned the riding lion, who rides a gallop, and a number of the animals have been trained to the state of perfection that they almost equal human beings.

The telegraph, and telephone and electric light wires were repaired at once, and by Sunday night all those were working all over. The portions of the town seemed to fear the worst. The south part got its quota of rain, but not much wind. On Sunday night another fine shower visited us, but still we are generally in need of some lawn, meadow, garden and fields are suffering for want of rain.

NICE PHOTOGRAPHIC DISPLAY. J. L. Johnson, our popular photographer, has placed a handsome exhibit of his artistic ability, in the display window of W. C. Sims Brothers' furniture warehouses and considerable attention has already been attracted thereby.

The exhibit consists of an elegant gilded frame five feet six inches long and three feet six inches wide, containing fifty six cabinet photos of persons in this town, together with a nice view of St. James' church and also one of Robert Johnson's residence on Eldridge corner of Spruce streets.

The photos are taken in various styles, showing the range of work performed by Mr. Johnson, and inviting comparison with any other specimens of work that may be shown elsewhere in town. The work as a whole, is very creditable and is an excellent advertisement. It is a pleasure to us to be able to commend and compliment our fellow townsmen on this handsome exhibit of his photographic skill.

LOW OCEAN RATES. The combination among the great transatlantic steamship companies has been broken and prices are falling to phenomenally low rates.

The White Star and the American steamship companies are now carrying steamer passengers from New York to Southampton, Liverpool, London and Belfast, for \$10, with the privilege of buying a return ticket for \$13. more.

The Cunard company charges \$12 each way for steamer passengers. Prices have not been so low in many years, and a great many people have and elsewhere, are taking advantage of this opportunity to try their native land.

TO SPRINKLE MAIN STREET. T. F. Ferris is circulating a paper asking for contributions to a fund for watering Main street from Cheney's store to the Park building, at least.

Cheney Brothers are willing to furnish the water and watering cart free, provided money enough is subscribed to water the street with a hose and a sprayer. One hundred dollars at least are required, and surely this amount should be readily raised for so laudable a purpose.

The convenience and comfort to business men and to the general public, would seem to more than offset the cost of the accommodation, for with the water and sprinkler free, the movement has the advantage of a good start and should be speedily put into successful operation.

SCARLET FEVER IN TOWN. On Friday last week O. E. Mannell's daughter, five years old, was taken sick with scarlet fever and one day later, his boy, sixteen months old, was also taken. Dr. Weldon is in the charge. He pronounces the case to be of a mild form. Health officer Bradley promptly quarantined the premises.

Mr. Mannell is keeping entirely outside of the quarantine limits, and doing everything in his power to protect the public and prevent the spread of the disease. The children are said to be getting along as well as can be expected, and it is to be hoped that they will pull through all right.

RAIDED THE HOTEL. The Coville Hotel was raided last Saturday by officers Thomas J. Smith and George H. Hall.

A barrel containing 132 bottles of Milwaukee lager beer was found in the refrigerator.

The warrant for the search was issued at the instance of Prosecuting Agent John E. Dunn.

C. W. Allen the proprietor of the hotel was summoned before Justice Win. C. House of Charter Oak street, and George H. Hall.

A barrel containing 132 bottles of Milwaukee lager beer was found in the refrigerator.
