The University of Cambridge, England, has decided to give the degree in agriculture for a science course.

Since the present Emperor of Germany ascended the throne, in 1884, 4,000 officers of the army have been forced to resign.

"Switzerland has gone back to capital punishment," observes the New York Telegram, "after twenty years' trial of the beauties of moral suasion as a check to homicidal tendencies."

Asent the war between Japan and China the San Francisco Chronicle observes:—It seems curious to see a nation of 35,000,000 people putting an empire with a population of over 400,000,000 on the defensive.

The Southern States are said to contain at least seventy million acres of waste land, which might be devoted to the production of rice. This would increase the present annual crop of two hundred and thirty-seven million pounds to seventy billion pounds.

It is estimated that the agricultural earnings of the United States are \$4,400,000,000; from manufactures, \$1,300,000,000; from mines, \$180,000,000; from transportation, \$1,155,000,000; from commerce, \$160,000,000; from shipping, \$160,000,000; from banking, \$200,000,000.

The quantity of food products raised in the Southern States exceeds each year, remarks the Chicago Herald.

It is conceded that more Southern planters will feed their stock and their families from home raised food next winter than at any time since the war. This statement applies in general to North Carolina, whence the report comes that there is more home raised bacon and beef in the local markets than ever before in the history of the State.

The Chicago Herald thinks that the unfortunate man who committed suicide to get rid of the torture of a carbuncle must have been employing the ancient method for curing that affliction—namely, poisoning and cauterizing it as long as possible.

It is interesting to note that a steel rail in constant use for regular traffic lasts five years.

A physician of standing in Milwaukee, Wis., declares that seventy per cent of the number of deaths occurring among youthful patients removed to the pest house in Milwaukee have resulted from small-pox and not from small-pox. Youth is particularly susceptible to homoeostasis.

It would be hard to estimate the number of deaths among the soldiery during the Civil War that were due directly to nostalgia; the percentage was frightful. In the Northwest many Scandinavian immigrants pine away and die from nostalgia.

PUBLIC ENTERPRISEMENT.

What do you think of a standing committee on public enterprise? The Board of Public Enterprise, a committee made up of the live, wide-awake members of our local public organizations, could bring thousands of dollars every year into our city.

When a county fair is proposed, let the committee members see that it is located here. They should be on the lookout for conventions of all kinds—religious, political, labor, secret order and the like. Boards of trade are supposed to look after such affairs, but it is not exactly within their scope.

A body of citizens organized for this particular purpose would achieve far better results. It would not be a side issue. The advantages that would result from the work of such an organization can readily be seen. We would have gathered here perhaps a dozen times a year representative men from different localities. They would be here to get a gain of a manufacturing enterprise or perhaps of a general. The mere fact of a convention of any sort holding its sessions here would add to our importance as a town in the eyes of our neighbors.

Our hotels would be well patronized and correspondingly improved. It would make a commendable convention hall or building a paying investment as well as a necessity. Our transportation facilities would be bettered and our streets improved. In short, the benefits would be even and generously distributed.

All that is required is a little concentrated effort. It would only be applying the principles which make private business a success to public affairs. We are citizens and should be so. Let us have a public enterprise which will be a gain to all.

The details of such a plan will readily be given to any intelligent man. The trouble to put such details into operation would be small. The payment for such trouble would be well repaid. Let us have a public enterprise which will be a gain to all.

WORKING FOR THE TOWN. The Working That Booms Its Locality Should be Rewarded. No other class of business men take a greater interest in or do more for the welfare of the locality in which they live than the editors of the daily and weekly papers of the town. They are directly benefited by the results of their public spirited efforts that the merchants and property owners who are not so directly benefited.

The editor of the daily paper is the editor of the town. He is the one who is most directly benefited by the results of their public spirited efforts that the merchants and property owners who are not so directly benefited.

CONSIDER WELL.

Those who feel a living interest in the welfare of our town and country ought not to forget the names which produced the victory for temperance and public morality in the town elections.

In our town we owe much to our ministers in all the churches. Next to them (under God) we owe a debt of gratitude to the noble women of the W. C. T. U.

Mrs. R. N. Stanley, though not in the best of health, has labored constantly, with others, to arouse and educate public opinion on the evils of license.

The press too has spoken on behalf of the state upon the question of the hour, and I assert my sincere belief that, if the ministry, the women and the press of the state of Connecticut had been as earnest and true on this great and vital question as were ours, not a town in the state would have gone for license.

I wish too that all the great manufacturers of New England would exercise their mighty influence in as pure and healthful a manner on this and other questions of local and general interest as do the Cheney Brothers.

But what impelled me to this writing is this, mainly: I hear from those whom I think are in a position to know that the good women of the W. C. T. U. in our town are in need of help in their finances, and that the need is pressing and sore, and their good work is to go on, and their hall rent and other expenses to be met.

No one has said aught to me about this, but I think, any embarrassment of these disinterested and self-sacrificing workers is a calamity to the public and to the town.

TO AID THE DESERVING POOR. An effort is being made to establish a systematic method of dispensing charity to deserving persons here, and the clergyman and selectmen expect to meet in the town hall next Monday and try to arrive at some satisfactory agreement.

Rev. J. A. Biddle is taking an active part in this matter and has prepared a paper on the subject, stating the case as it is, explaining the reasons for the proposed plan, and suggesting a method of distributing public charity, trying to devise a means whereby the best results may be obtained from the money.

These plans are to be presented at the meeting proposed, thoroughly discussed, and if approved, it is deemed advisable to make a systematic plan adopted for dealing with the problem.

PROF. BUECHLER TO-NIGHT.

Lovers of music will be interested in the announcement that Herr Professor Buechler will give a specially prepared musical program in the South M. E. church this Friday evening.

In speaking of this "Week of Song," it may not be amiss to direct attention to the importance of this opportunity which has been at the disposal of people here in the village, to receive special musical instruction from such a man as Professor Buechler, who comes from the great musical schools of the old world with all the latest and best ideas regarding the practice of vocal music.

The very fact of Professor Buechler coming here to give a Week of Song marks a new era in musical circles and shows how times and methods are changing.

Heretofore, in order to have the advantage of such teaching, people had to go to Boston, New York or the largest cities, but now it is by this method brought to the homes of the people.

Not many years ago, every merchant doing any business in the city had to go to the leading markets of the country, New York or Boston, to make his purchases, today, through the instrumentality of the commercial traveler, he can buy all he wants, of the choicest goods at the lowest prices.

The great point is the fact that, in this way, it can be bought at wholesale prices and people of humble circumstances can thus afford to have it.

Professor Buechler has not been overburdened with pupils at this time, we believe it is because the importance of the

EPWORTH LEAGUE CONVENTION.

The preparations for the Epworth League convention that will assemble in the South M. E. church Tuesday Oct. 23, are being pushed along as rapidly as possible.

The convention will open with a sunrise prayer meeting at 6 o'clock, after which the delegations will be received, an address of welcome will be delivered and Rev. W. L. Hood will deliver an address on Junior League Work.

Organ voluntary, Miss M. De Norman, dicit, Misses Ora Capen and Fannie Carrier; solo, Fred Carrier; singing by a quartet consisting of Mrs. M. R. Ingalls, Miss Fannie Carrier, Robert N. Stanley and John M. Aitkin.

At the evening service there will be an anthem by the choir of the local league; solo, John M. Aitkin, duet, Mrs. F. B. Barber and Miss Belle Smith.

The local chapter of a live and active organization, is doing a good work, and will give those who attend the convention a royal welcome and a pleasant and profitable time is assured to all.

PLEASANTLY SURPRISED. Fitch B. and Mrs. Barber were pleasantly surprised last Monday evening when the "Ys" called upon them and instead of holding their regular meeting converted the occasion into a surprise party.

On the front of the handle is the picture of Miss Frances E. Willard, one of the best representatives of the Crusade Church and the letters W. C. T. U. and on the reverse of the spoon are the letters W. S. T. P. A.

Backingham Camp No. 8 was duly instituted in Cheney Hall, last Tuesday evening, with some 20 members, and there are more to enter at the earliest opportunity.

After the installation ceremonies were concluded, all went to the lower hall where a beautiful collation had been prepared by Drake Post, No. 4, G. A. R.

There they were joined by members of Drake Post, clergymen, representatives of the press and others, and all partook of the hospitalities offered.

While the speeches were in progress, someone handed a cigar to Toastmaster Murphy, which he promptly lighted and began to smoke, leaning back comfortably in his chair.
