A GOOD START.

The prospects of better times, now that the election is over, are hailed with delight, and although winter has visited us much earlier this year than usual, and the outlook for a long seige of frost and snow seems very promising, still the return of more full employment, the attendant increase in money among the mill operatives and the promise of generally prosperous conditions all over the country are very cheering, and tend to stimulate operatives and merchants alike, and make all feel happier and more hopeful. We trust that the public expectations may be fully met and that all will have hearty and abundant reasons for thanksgiving.
