

It is estimated that tourists on the Nile spend \$5,000,000 each season in Egypt.

Many people in the State of Washington who dislike the abbreviation "Wash." are trying to substitute "Wn." for it.

A great deal is being said in London at present in favor of selling eggs by weight. Shopkeepers do not look on the proposal with any great favor.

Paderewski, the pianist, says there are only two nations in the world that are naturally musicians, the Hebrews and the Gypsies. With all others it is a taste acquired by cultivation.

The use of the Erse language is spreading in the schools of Ireland. Over 1,000 candidates presented themselves for examination in their native tongue last year as compared with 800 in 1893.

A fellow of the British Royal Society has issued a pamphlet on "How to Draw a Straight Line," something most people think they can do without learning. But those who can draw a line straight without ruling it can draw anything.

Just at present the biggest canal lock in the world is the Canadian one at Saint Ste. Marie, 900 feet long and sixty feet wide; but, according to the New York Times, the Erie Canal will have a bigger one finished in a few months on his side of the line.

Ohio is about to follow the example of Pennsylvania in establishing a state colony for imbeciles. Pennsylvania has proved on its idiot farm, maintained by the Chicago Times-Herald, that properly attended, imbeciles will form an industrious and self-sustaining colony, to the advantage of all concerned.

A business-like woman suggests that railway book stall keepers and traveling newsmen allow possible purchasers to sample wares before buying. Every undecid customer looking vaguely at the noncommittal titles of the books should be allowed to read five minutes for free, and then to purchase the volume at its original price, minus the five cents, provided he liked it.

A European engineer, who has been exploring the fastness of Panama for many years, says he has discovered a route for a ship canal which could be constructed for \$48,000,000, along the Tolo, Javiera and Tyrva rivers. The principal item would be a tunnel two miles long through a mountain. This would cost \$11,000,000. Only two tidal locks, one on each side of the mountain, would be required.

Bull fighting is a good business in Spain, if the fellow who follows it manages to keep out of reach of the bull's horns. Mr. Guercetta, who is an artist in that line, has put the quietus on about 1,400 bulls in his time, and secured for himself of \$800,000 by his performances. If the gentleman worked in a Chicago slaughter-house, and was paid killing wages at so much per bull, the New Orleans Piqueur opines that he would earn less, but he would be ever so much more useful in the world.

"Fitting" is the term used by the Pennsylvania Germans for a family moving. This is also a Scotch usage, and it is nearer the original meaning of the word than is the more modern acceptance. Philologists conjecture that the word has reached its present common meaning through a fancied relation to the word "feet." A fitting in the colloquial usage of the Pennsylvania Germans does not mean a hasty removal, nor has it any humorous intent, such as sometimes marks the word.

Earthquakes on the same day and almost at the same hour in regions as widely separated as Colorado and Italy may be merely coincidences, but if so, the coincidence is very remarkable, declares the Atlantic Constitution. None of the theories proposed by scientists to account for the occurrence of earthquakes is received by all, a connection between earthquakes and volcanic eruptions is more than suspected, while the fact that both take place under certain meteorological conditions seems to indicate that not one of the theories really explain all the peculiar phenomena which have been observed in this connection. On March 24th, for instance, there were earthquakes in Colorado, Italy, Greece and Central America; Venetian was unusually severe, the volcanoes of Mexico were greatly disturbed, and there was a tidal wave on the coast of India. When all the conditions are fully understood, we shall perhaps understand that all these phenomena are due to one cause.

A considerable territory in East Texas is being opened up for rice culture.

Over \$30,000,000 are spent in maintaining the churches of the United States, and \$100,000,000 in running the jails.

Mr. Francis Deconole, writing to the Paris Matin, declares that Egyptians are opposed to the British rule along the Upper Nile.

The New York Mercury relates that an Osege Indian who tried his first feathered at Stillwater, Minn., the other day cut a hole in the ticking and crawled in among the feathers.

Italy had a lot of nickel coins minted recently, and they have nearly all disappeared. An investigation showed that they had been bought up and sold at a big profit in the Orient.

Ceylon's output of tea for the current year is expected to reach 94,000,000 pounds. The industry is rapidly growing, planters are making fortunes and the whole island is enjoying unexampled prosperity.

At a banquet recently given to the Earl of Hopetoun, the retiring governor of Victoria, in Austria, the opinion was expressed by the premier of the Victorian legislature that before the end of the century there will be a governor-general of United Austria.

One of the amazing manifestations in the Far West is the character of the clubs in some small cities, notes the Chicago Times Herald. Such clubs are luxuriously furnished, well managed, and prosperous. Strangers of all, several such clubs support flourishing restaurants, a thing that no club in small Eastern cities attempts.

The postal telegraph system of England, whereby the government does the telegraphing at one cent a word, paid for in postage stamps is in the estimation of the American Agriculturalist, a valuable branch of the postal service and immensely popular.

The French constitution seems to the Chicago Times Herald to be a great menace to the republic. During the last hundred years she has had no fewer than seventeen constitutions. Not content with this exhibition of political versatility, French history reveals that seven provisional governments at different times managed to carry along without the annoyance of a constitution.

It is in America that the rational management of animals has reached perfection, maintains the New York Tribune. Businesslike, scientific, kind, it would be hard to imagine a better treatment than race and trotting horses receive here, especially those friends of the family, the trotter, unless, indeed, a horse is of the nervous, craving temperament that demands kisses, even if it be at the expense of a blow now and then.

Says the Philadelphia Ledger: if any man with an income between \$3,500 and \$4,000 should fail to report to the Collector of Internal Revenue, he need not worry about the penalty to be imposed. He is required to make report, but the penalty for neglect provided in the act does not reach his case. Fifty per cent is to be added to the amount of tax ascertained to be due. But fifty per cent added to nothing makes nothing, and that is all that the individuals with incomes between \$3,500 and \$4,000 can be made to say if they should neglect to make returns.

Earthquakes on the same day and almost at the same hour in regions as widely separated as Colorado and Italy may be merely coincidences, but if so, the coincidence is very remarkable, declares the Atlantic Constitution. None of the theories proposed by scientists to account for the occurrence of earthquakes is received by all, a connection between earthquakes and volcanic eruptions is more than suspected, while the fact that both take place under certain meteorological conditions seems to indicate that not one of the theories really explain all the peculiar phenomena which have been observed in this connection. On March 24th, for instance, there were earthquakes in Colorado, Italy, Greece and Central America; Venetian was unusually severe, the volcanoes of Mexico were greatly disturbed, and there was a tidal wave on the coast of India. When all the conditions are fully understood, we shall perhaps understand that all these phenomena are due to one cause.

A Catchem.

What shall we love but thee, O my dear? When he comes courting? Heart true, Save of me, Reason for me brought in.

What shall my courtier be? What shall my sweetheart be? Heart glad, Only sad, Thinking of parting.

What shall my master be? Brave and true, Never Treacherous, Sweetheart dear, I'm with you ever.

What shall my husband be, My own dear? No lies, No real pain, Sweet love of love.

HER MISTAKE.

The Man: Age 35; soldier. Home on leave from India.

The Girl: He is engaged to: Age 22; pretty, dexter, enthusiastic, full of the New Ideas.

The Other Woman: Age 30; a widow seen in some of the papers. Has known the man in former days.

Act I. Scene: A country house drawing-room.

Five o'clock tea-time. The lovers, the man standing masterfully on the hearthrug—But what on earth are you driving at, my child? You've been beating about the bush for the last half hour and saying things I don't the least understand the drift of.

The Girl: Yes you are right. Let's have done with it, and what is that I call it a waste of time myself when I haven't seen you all day. (Makes a movement as if he was going to stoop down and kiss her.)

thing—that you are a little fool—no—I beg your pardon—extremely silly. Good-bye.

Act II. Scene: The same drawing-room six months later.

The Girl: (Who has slept less than usual and thought a good bit: contentedly.) How good of you to come out this morning.

The Other Woman: (Who has just arrived to call, looking very smart and cheerful in the lightest of mourning.) Well, it was rather an effort, but I wanted to see you to say good-bye. I am going away the day after tomorrow.

The Girl: (With a thrill of apprehension.) Really? Isn't that rather sudden?

The Other Woman: (Setting herself complacently in an armchair and preparing to be expansive.) Yes, it is, certainly. I've a piece of news about myself to tell you. I'm so happy I must tell some one. And I hardly know any one down here.

The Girl: (A pause, during which the Girl grows a little pale, and braces herself with an immense effort.) I think I know your news already. You are going to be married.

The Other Woman: (Who imagines that it is written in the radiance of her face.) How did you know that? I've been perfectly quiet ever since I came down here. I'm sure no one has ever seen me speaking to a man. I hope you don't disapprove of widows marrying again? (Laughing.) Some people do. I need to have that idea myself once. But I've changed my mind since then. One does change one's mind and reconstruct one's ideas a good many times in the course of ten years. Lives and learns, don't you know. But, of course—with a little polite superior smile—you don't know—you're too young.

The Girl: (Faintly.) Am I? I don't think so. But (pulling herself resolutely together) pray let me congratulate you. I hope you will both be very happy.

The Other Woman: (Gayly.) Thanks awfully for him and myself. I am awfully glad. It doesn't happen to every one to chuck away a thing—and you wanted most—and then have it offered you again just at the right moment.

The Girl: (Speaking with conviction.) No, indeed, it doesn't.

The Other Woman: Oh, and by the way, I hear that we have a mutual friend—Captain Frazier. Some one was telling me that he belongs down in the States. Will you give him a message for me if he turns up here again? I shall see him now, and we used to be great chums out in India. He's a good fellow and he knew my Girl. Tell him I am going to be married, and remember me kindly.

To the "Funny Fellows."

This world has too much grief and pain, Too many tears to be shed, And so, my blessings on I give To those who make me laugh.

Then let the croakers pass along; Their talk is but as chaff; Their words are but as empty words That stir the lethargic laugh.

True, serious moods must have their place, For work is life's great staff; But they too best who now and then Send forth the merry laugh.

And so, since shadows form of life, Let us by the larger laugh, Our former blessings let us give To those who make us laugh.

CLARA J. BERTON, D. D. MONTGOMERY.

HEROIC.

Watching the tied—The people at wedding.

Pride is like the gilded signboard of a bad hotel.

The man who thinks he can make a success of several things is not a successful thinker.

The one time in a man's life when he wants the earth is when he falls overboard in mid-ocean.

The reason so many humbugs gain fame in these days is that the ladder has been superseded by the elevator.

Lady (visiting arsenal)—What rifle is used most? Soldier—The Minnie, mm. "And the most?" "The Maxim, mm."

Next to a railroad track, the small boy prefers the railroad second story of an unfinished house as a playground.

STYLES IN CANES.

African Walking Sticks Are Now Fashionable.

Many Novelties Manufactured From Imported Woods.

So many persons carry canes nowadays that the manufacture of this adjunct to dress has become quite an important American industry.

Fashions in canes change with other dress and for several years the only proper stick to carry has been of natural wood.

The reason so many humbugs gain fame in these days is that the ladder has been superseded by the elevator.

Lady (visiting arsenal)—What rifle is used most? Soldier—The Minnie, mm. "And the most?" "The Maxim, mm."

Next to a railroad track, the small boy prefers the railroad second story of an unfinished house as a playground.

LADIES' DEPARTMENT.

POWDER BOX OUT OF DATE.

If you aspire to be fashionable you must soon the powder box.

Unaddressed kid or suede gloves are still preferred by many, especially for summer, because they are cooler than those of the thicker dressed kid.

The fitting counterpart of her energetic and enlightened husband is this little Empress. Her life has been great changes. No press carriage with her husband in state processions. No names before her has ever been seen by the common people in unofficial life.

Women have positively gone crepon mad. No new stuff can hope for the slightest attention unless it has crepon characteristics to recommend it.

Women have positively gone crepon mad. No new stuff can hope for the slightest attention unless it has crepon characteristics to recommend it.

"Do you think animals communicate together?"

"He put their heads close together and seem to have a sort of sign language. They express such simple thoughts as 'I'm tired,' 'get out of the way,' 'stand back,' 'are you well,' 'quit,' 'thank you,' or my observation, among each other."

"The language of animals seems quite plain to me," continued the famous lion tamer, earnestly. "Men have a considerable ability to communicate facial expression and gesture, but school themselves to repress these natural expressions of rage, fear or friendship, and say by oral language what their wisdom indicates they often quite the opposite of what they feel."

"Animals on the other hand are too simple to make believe, and this gift, which men possess, is their regular mode of communication. Notice how quickly a dog scent paper can't see his master's."

"I have also thought that animals have the gift of thought reading instead of power to speak. Did you ever see one animal fail to understand what his master said? The cat is limited. The range of their intelligence is limited, but they can read man's thoughts except very imperfectly, because they are so extensive and complex beyond their comprehension. I am inclined to think that what we call mind reading is mere survival here, and that the lion tamer's primitive sense, which animals possess to this day."—Kansas City Star.

TOWN NEWS.

ALL NAIL "LAUREL PARK".

Social affairs in town will find a new and pleasant field opened to them by the coming of the electric cars...

The park is so near and the cars can be run at such intervals, on special occasions as will accommodate the public...

When the employees of the mills have a half holiday on Saturdays, or other days they can then enjoy their leisure...

RECEPTION OF "YS". The Women's Christian Temperance Union gave a reception to the "Ys"...

COAL YARD PROPERTY SOLD. George H. Allen has bought of I. N. Blinn & Son the entire property on Blinn street...

ANNUAL GOLF MEETING. The annual golf meeting of the W. O. C. T. U. will be held in the North-Conn. Club on Friday, May 10.

SALE OF "SUNDAY GLOBE". Allen Willey, editor, publisher and proprietor of the Sunday Globe has sold the paper to Emil F. and William L. Litch and Howard J. Andrews.

ALL FREE. Those who have used Dr. King's New Discovery know its value...

REMEMBERED BY THE TEACHERS. The teachers of the ninth district school gave a genuine surprise to Janitor George H. Southwick last Tuesday...

As the strength of a building depends upon the solidity of its foundation, so health depends upon the condition of the blood.

BUCKLEN'S ARNICA SALVE. The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fungus, Itching, Chapped Hands, and all other eruptions of the skin.

At the regular meeting of Drake Post No. 4, G. A. R. held Tuesday evening May 7, 1895 an invitation was extended to all the societies in town to join in the parade on Memorial Day...

At the regular meeting of Drake Post No. 4, G. A. R. held Tuesday evening May 7, 1895 an invitation was extended to all the societies in town to join in the parade on Memorial Day...

TO WELCOME THE NEW MINISTER.

On Sunday May 19, Rev. W. P. Anderson will occupy the pulpit in the Swedish Lutheran church here as pastor. It is expected that he will move his family here on the 17th, and the parsonage and grounds will be placed in order for their occupancy.

Arrangements are on foot to extend them a cordial welcome and the parishioners are planning to present him with a suitable token of their friendship on that occasion. He is well thought of by the Swedish people here already and they choose to give him a substantial manifestation of their esteem in this manner.

Invitations will be sent out to the different ministers in town to attend and join in the reception to Pastor Anderson on Monday evening, May 14, at 8 o'clock.

A meeting of the ex-members of Company G will be held in Cheney hall Monday evening, May 14, to take action on the invitation of Drake Post No. 4, G. A. R. to join them in the parade on Memorial Day.

SWEDISH LUTHERAN CHURCH NOTES. Emil Johnson made a trip to New York last Friday to see his wife off to Sweden. Mr. Linnar will not keep bachelors' hall in the house made desolate by the departure of their respective wives. Somehow it doesn't strike them as being the ideal state, as in Sweden they are not separated.

Next Sunday Mr. Kron will conduct the services for the last time; after which Rev. Anderson takes charge. Rev. Anderson will be expected to arrive here by Friday next week. We extend to them a hearty welcome.

Miss Ruth Vihberg entered upon her duties as organist in Harlem Thursday evening last week. That was the first anniversary of the congregation. At the close of the service a reception was tendered her at the home of Mr. Carson, by members of the church council and their families, together with members of the congregation. We learn that her impressions of the work and people have been very favorable.—OMEGA.

JAMES TWIMM'S DEATH. James Twimm of School street died last Monday after a lingering illness of six months. His funeral took place on Wednesday afternoon, short services being held at his residence at 3 o'clock. Burial was in the cemetery. His wife, Mrs. J. A. Middle, after which Mrs. Middle's services were conducted at St. Mary's church.

The bearers were: Robert Rolston, Joseph Davidson, Wm. Wright, Achille Merson, E. E. Hunt and Albert Chapin. A wife and two children survive him. Workmen have had charge of the funeral.

He was a resident of this town for the past nine years, was an excellent workman and a very kind and generous man. He was a member of the Baptist church and a very active member of the same. He was a very kind and generous man. He was a member of the Baptist church and a very active member of the same.

RECEPTION OF "YS". The Women's Christian Temperance Union gave a reception to the "Ys" on Friday evening last. The program was very interesting and the ladies were very well pleased with the result.

COAL YARD PROPERTY SOLD. George H. Allen has bought of I. N. Blinn & Son the entire property on Blinn street, near North Main, consisting of three acres of land, with a coal shed, wood yard and office. The property was sold to Mr. Allen for \$10,000.

ANNUAL GOLF MEETING. The annual golf meeting of the W. O. C. T. U. will be held in the North-Conn. Club on Friday, May 10, at 2 p. m. The golfing will be very enjoyable and the ladies are expected to be in large numbers.

SALE OF "SUNDAY GLOBE". Allen Willey, editor, publisher and proprietor of the Sunday Globe has sold the paper to Emil F. and William L. Litch and Howard J. Andrews. The price is given by William A. Litch in the neighborhood of \$10,000.

REMEMBERED BY THE TEACHERS. The teachers of the ninth district school gave a genuine surprise to Janitor George H. Southwick last Tuesday. They presented him with a watch chain, which was a very thoughtful and generous gift.

As the strength of a building depends upon the solidity of its foundation, so health depends upon the condition of the blood. To keep the blood pure and healthy is the most important thing we can do for our health.

BUCKLEN'S ARNICA SALVE. The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fungus, Itching, Chapped Hands, and all other eruptions of the skin. It is a very effective and reliable remedy for all these ailments.

At the regular meeting of Drake Post No. 4, G. A. R. held Tuesday evening May 7, 1895 an invitation was extended to all the societies in town to join in the parade on Memorial Day. The invitation was accepted and the parade will be held on May 30.

At the regular meeting of Drake Post No. 4, G. A. R. held Tuesday evening May 7, 1895 an invitation was extended to all the societies in town to join in the parade on Memorial Day. The invitation was accepted and the parade will be held on May 30.

A BAD START IN LIFE.

The boys known to have been implicated in the recent burglarizing of the Highland Park store, as proved before Justice Benton last Friday afternoon were as follows: George Bartriss, 18 years old, from the floor was well filled and cost \$21.22 and was paid. Godfred White, 21 years old, and Fred J. and Costa, amounting to \$10 and was paid. Joseph Healey, 14 years old, sent to the State Reformatory at Meriden. Michael Tammany, a boy about 15 years of age, was brought before the court, but the officers could not prove that he had taken part in the burglary and he was discharged. He is now had to see boys so young make such a bad start in life.

WORKMAN DANCE. Manchester Lodge No. 10, O. U. W. gave their reception in Apple's opera house last Tuesday evening. Coates' orchestra furnished music and John A. Campbell did the prompting.

At the opening number of the program it was difficult to induce the two sets to take the floor. The grand march was omitted because so few were present at 8:30, but within an hour afterwards, the floor was well filled and as many dancers were on hand as could get around comfortably. It was a pleasant and successful event.

DANCING IN THE ARMOY. Professor Doolittle's reception in the Armoiy last Tuesday evening attracted a fair sized audience. Keating's orchestra shows marked improvement and furnished very nice dancing music.

Prof. Doolittle did the prompting. The ladies in the main, wore light colored dresses and looked very pretty. Lemonade and cake were served free. It was a lovely and pleasant moonlight spring evening as could be imagined or desired.

AGREABLY SURPRISED. "I had a very severe cold on my lung, that caused much soreness and gave me considerable uneasiness in regard to the result," says Mr. T. E. Smith, of Billerica, Mass. "A local druggist called my attention to Chamberlain's Cough Remedy, and on his recommendation I gave the remedy a careful trial. The result surprised me. I recovered entirely in three days." 25 and 50 cent bottles for sale by Cheney's Drug store, and C. H. Rose, Manchester.

FREE PILLS. Send your address to H. E. Buckles & Co., Chicago, and get a free sample of Dr. King's New Life Pills. A large trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malacia and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be entirely free from habit forming qualities. They are sold by all druggists and by mail.

WAIT FOR WASHINGTON. Leon W. Washburn's great allied shows, held three ring circus, museum, and other amusements, will be at Hollister's lot, Manchester, Thursday, May 23. Manager Washburn, while being one of the younger school of circus owners, is also one of the wealthiest. He has spent no money to secure the best for every department. His horses, many of them imported, are models of horse flesh, while his trained troupe of equestrians are the best in the country. They will appear at every performance with their original training. A royal troupe of Japanese, imported expressly for this year, will also be featured. The only double troupe ever brought to this country is another feature. The hippodrome department is certainly the largest ever seen with a traveling organization, and the many exercises, of strength and athletic games are some of the best worth going miles to see. The manager is large and the rapid denizens of the field, forest and jungle are to be found in this large collection.

RHEUMATISM. It is caused by Uric Acid in the blood. Dr. Huggins' Specific No. 13 opens the system and purges the blood of uric acid, restores health and vigor, and cures the Rheumatism.

A REMARKABLE CURE FOR RHEUMATISM. From the Boston Commonwealth Patriot. David Lewis, who has been afflicted all winter by rheumatism, is out again and all due to one of the medicines advertised in our columns. After trying every possible remedy, he used Chamberlain's Pain-Expeller, which has relieved him of all pain, from which he was a constant sufferer and promises to make him fit for duty soon. We know David had a very good reason for using this medicine, and we are glad to see him so well again. For sale by Cheney's drug store, and C. H. Rose, Manchester.

IT DID THE BUSINESS. Mr. J. H. Cobb, publisher of the Mirror, of Brooklyn, N. Y., says: "For nearly two years the Mirror has been publishing the advertisements of Chamberlain's Remedies. A few days ago the writer was suffering from a bowel trouble and resorted to an old remedy which did not prove efficacious; finally tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and two doses did the business, checking it completely. For sale by Cheney's drug store, and C. H. Rose, Manchester.

A COURT OF PRIVATE HELD BY A MAN. Under the provisions of the act of March 20, 1894, the court of private held by a man, on the 7th day of May, A. D. 1895, at the residence of the Hon. Judge Wood, in the town of Manchester, N. H.

State of New Hampshire, ss. Judge Wood, ss. Clerk of the Court. In the presence of the Hon. Judge Wood, ss. Clerk of the Court, and a jury of the Hon. Judge Wood, ss. Clerk of the Court, the following was read and the same was found to be true and correct: That the said defendant, David Lewis, who has been afflicted all winter by rheumatism, is out again and all due to one of the medicines advertised in our columns. After trying every possible remedy, he used Chamberlain's Pain-Expeller, which has relieved him of all pain, from which he was a constant sufferer and promises to make him fit for duty soon. We know David had a very good reason for using this medicine, and we are glad to see him so well again. For sale by Cheney's drug store, and C. H. Rose, Manchester.

FOR Lung Troubles

"Several years ago, my wife had a severe lung trouble, which physicians called consumption. The cough was distressing and attended with spitting of blood. As doctors did not help her she tried

AYER'S Cherry Pectoral and was surprised at the relief it gave. One bottle of this medicine cured her, and she has not the least doubt but Ayer's Cherry Pectoral saved her life."—K. MORSE, Memphis, Tenn.
