Glenwood Ranges.

I have sold Glenwood Ranges in this town for nearly 14 years past and sold many of them, but have yet to find the first one that did not do everything claimed for it.

I have no hesitancy whatever in guaranteeing them to be first class in every particular and can refer to hundreds of users of these ranges in this town for verification of these statements.

If you need a range, you will make no mistake whatever in buying a Glenwood. I will be pleased to explain its points to you at any time.

Quality And Price

Are two of the most important points to consider in buying anything. I make them a specialty in my paper. Quality is the best in color, design, finish. Price as low as good goods can be sold. See my stock and prices - they'll say my argument.

He was found guilty, fined \$100.00 and costs, and the whole amounting to \$11.88. He took an appeal, and went with an officer to see C. W. Cowles, in order to have the latter go on his bonds. He resides in Union village. He changed his mind later and paid the bill.

KNOCKED IN THE HEAD.

The plans that Harry E. Olcott had for making a rail road and bicycle track at the junction of Center and Adams streets, on the line of the tramway have received a knock down blow and Mr. Olcott is decided to drop the matter altogether.

It was understood that the tramway company would stand the cost of enclosing the grounds with a suitable board fence and it was with this understanding that Olcott secured the lease; but now the company refuse to build the fence, and Mr. Olcott is determined that he want, and so the matter ends, and the hope of the local sporting fraternity for having a nice ball and bicycle grounds on the line of the tramway are thus knocked in the head.
