A LA TRILBY.

It was a grandly glorious, balmy day in July of a past summer. There was not a cloud in the expanse of clear, deep blue sky, and the earth was bathed in a flood of golden sunshine, dispensing a genial warmth resultant from the gentle breeze prevailing from the southeast, the chill imparted by the great ocean on the south thereto, dispelled by the sweep over Long Island's sea girt lowland and monotonous forest on the Sound

The saucy little Olga swung on her chain in the flood tide, tugging at it as if she would be free, and dancing on the wavelets swinging her boom and rattling the rigging.

The absent flag indicated that the owner was ashore, and there was no visible indication that any one remained aboard. In the seclusion of the cabin, reposing on soft cushions of the couch, lay a guest, reading "Trilby," which kept him awake, or he might have yielded to the soothing influences and fallen asleep, fanned by the breeze down the companion way; as all the others were ashore at the pretentions hotel, in view of the open cabin door.

He was disturbed in the perusal of Du Maurier's fascinating novel by the merry voices of a party of girls on some rocks on the shore near by. There was a party of young ladies from the hotel rambling on the rocks, long the terror of yachts coming into the cove.

Satisfying themselves that there was no one aboard, these merry girls had decided to remove their shoes and stockings and paddle in the cool, clear water, with a frequent eye for the rethe copse and scrub oak and resume their footgear, gleeful to escape un-

The girls enjoyed themselves greatly, until the yacht's boat was discovered putting out from the long dock of the hotel, and then they hastily gathered up their shoes and stockings and retreated like culprits into the bushes, where they remained in hiding for a reason that will appear, in stead of hurrying back to the hotel,

A flat-bottomed kettle is to be preferred, as it has a broad surface to expose to the heat, and the boiling is soon accomplished. Water is boiling when it bubbles and jumps merrily about, and the steam comes in white puffs from the spout of the kettle. It does not boil when it begins to simmer and to sing. That is only the sign that it is near to boiling. You must make your tea when the water has just boiled, not when it has been boiling a long time. A kettle which has been standing on the back of the stove all day, filled now and then by a dipper two more of water added when some has been taken out, will

A Forty-eight-Mile Tunnel, "Co'orado is going to have the longest tunnel in the world," said Richard Jones, in conversation with a St. Louis Globe-Democrat reporter a few days ago. "Within a few years the Mont Cenis, St. Gothard and Simplon tunnels under the Alps will not compare with the one to be constructed.

"A company has undertaken to do forty-eight miles of tunneling under Pike's Peak and the territory near by. It will begin at Sunderland Creek, near Colorado City, and run in a southwesterly direction to a creek some distance beyond Independence and Victor. It is to be built for a double track of railway and have the regulation dimensions of railway tunnels, fourteen feet wide and eighteen high. A branch line will leave the main tunnel at a point under Independence and run to Cripple Creek, placing that mining center within sixteen miles of Colorado City. The distance between the two is by rail at

present fifty-four miles. "The two mouths of the main tun nel are to have the same altitude, 6800 feat, and the grade of the tunnel will be one foot to the 100, enough to drain it well. This will give the divide an The Republican Adopted at the National Convention.

If there is any reason why you should use any sarsaparilla, there is every reason why you should use Ayer's. When you take sarsaparilla you take it to cure disease; you want to be cured as quickly as possible and as cheaply as possible. That is why you should use Ayer's: it cures quickly and cheaply-and it cures to stay. Many people write us "I would sooner have one bottle of Ayer's Sarsaparilla than three of any other kind." A druggist writes that "one bottle of Ayer's will give more benefit than six of any other kind." If one bottle of Ayer's will do the work of three it must have the strength of three at the cost of one. There's the point in a nutshell. It
