TOWN NEWS AND NOTES.

STICK TO COMMON SENSE. It is common sense that a school which shows the large growth and prosperity which has attended Huntziger's Business College during the past eight years, should owe its success to superior merit.

It is common sense that fifteen years experience as a teacher in the leading business colleges of the country, followed by eight years as the head of Huntziger's Business College in Hartford, which has thus come to the front under his leadership, should give Mr. Huntziger a commanding advantage over other schools, without equipments and experience.

It is common sense that when a man thus equipped to meet the hard work, devotion and enthusiasm on his own part, the services of the ablest and most experienced assistants which money can hire, there can be nothing better left for any one else to offer.

It is common sense to attend this school when to the other things is added the fact that Huntziger's graduates are preferred by the leading business houses throughout the state to those of any other business college for its practical and responsible positions.

It is common sense for every young man anticipating a business career, to act upon his knowledge of these facts. He has the opportunity at his command, avail himself of Huntziger's system and methods, and develop his latent capabilities to the utmost.

It is common sense when the right thing is made clear, to do it at once. Mary Campbell, daughter of Robert and Mrs. Campbell of 25 Birch street, is suffering with scarlet fever and is under Dr. Weldon's care.

W. C. Adams has purchased the West Side Store, corner of Pine and Pleasant streets and is carrying on the business as heretofore. He is making an effort to supply all the demands of the trade and give as good service as possible.

There will be a temperance rally in Cheney hall next Sunday evening, Sept. 27, beginning at 8 o'clock, when Hadlai A. Hull will deliver one of his stirring temperance addresses.

The Orford Golf club defeated the Fairfield County Club on the Center street grounds, last Saturday afternoon by a score of ten holes. A return game will be played in Fairfield tomorrow.

The Young Men's club of St. Mary's parish will give their first social of the season in Cheney hall, Wednesday evening, Oct. 7. Coates' orchestra will furnish music.

The opening rally for no-licence was held in Cheney hall last Monday evening. Selectman Watkins was the presiding officer. Revs. Wade, Worham, Bidde and Phoenix occupied seats on the stage, as did also a volunteer choir that kindly furnished music.

About forty young people, employees of Brown Thomson & Co. and of G. Fox & Co. Hartford, came out to Orford Inn last Tuesday evening and enjoyed one of Landford Maroney's very elegant banquets.

It is expected that Rev. J. L. Bartholomew of Stafford Springs will be secured to address an open air meeting, in behalf of temperance in this town next Thursday evening. The committee have not as yet fully decided whether it will be held on the plaza in front of Cheney's store or on Depot square, but the probabilities now seem to be that it will be given over north. Mr. Bartholomew is a talented speaker and will deliver an address that will be well worth listening to.

Next Sunday, Sept. 27, will be observed in the South M. E. church as Sunday School Rally Day. All the present members of the school are desired to be in their places. All members of the home department are requested to come if possible.

During the campaign you will find all the leading daily newspapers as well as the leading daily newspapers at Magwell's News Stand.

FAIR AND FALSE

"Cora," said old Miss Duchesne, abruptly, "did you ever have your fortune told?"
Cora Leslie was leaning over her needlework, in the soft light of the April noon. Blossoming eyelashes were in the deep creases; a white hosiery hung like odorless bells in the sunshine; a blue-ribbed work-bag was drawn close to the window, and a fire of love burned, with a comfortable, crackling sound, in the desecrated fireplace.

But Miss Duchesne did not return fair Ariadne's smile. She gathered up her knitting, made some curt reply about desiring to be alone and stalked out of the room.
"Cross old thing," pouted Ariadne. "One would almost imagine, Duke, that you were her lover, and that she was jealous."

MARINE MARVEL

Cruiser Brooklyn Is the Finest Fighter of Her Class Afloat.
Her Guns More Formidable Than Those on Any Other Cruiser.
Not so fast as the Columbia, Minneapolis and Olympia, the new cruiser Brooklyn nevertheless is the most formidable cruiser afloat. She is not built to encounter armored battleships, but to destroy the commerce of a hostile nation and meet in sea fights vessels of her own class.

REMEMBRANCE

Oh, I gaze today On the dark blue bay, And I think of a day long past, When I was with you, Oh, that I could see you, On that peaceful sea, Joy so sweet to me.

THE HAPPIEST AGE

A correspondent asks: "What do you regard as the happiest age?" Happiness is what we understand it, in both quantitative and qualitative. It is always comparative. The youthful life largely in the future, imagining they will find happiness there, while the aged live in the past, recalling happy days gone by. The happiness of the dear old grandfathers is in his youngest grandchild, provided always that the child is within reach. If the old man is not a grandfather, his happiness is in his grandchildren.

HUMOROUS

Riches have wings, but they flap no wings to poor relations.
Of a bank check it may truly be said: "Its face is its fortune."
"An stitch in time saves nine," as the surgeon said when he sewed up the baseball captain.

FOR A WOMAN'S BENEFIT

Slit was never in greater demand than it will be this coming winter. The heaviest weaves, the thickest dyes, will be most in favor. Light-weight silks will be used only for linings. Heavy moires and richly brocaded satins with raised flowers in contrasting hues, and in shades to match the ground tint, will be the fabrics for dinner and evening wear.

SCIENTIFIC SCRAP

A wheel weighing over eighteen tons has just been turned out in one casting in Sheffield. It is twelve feet and a half in diameter.
An ignitions device "made in France" is a microphone so hung over baby's cradle that when it cries an electric bell is rung, waking nurse or mamma.

FOR THE HOUSEWIFE

Maids never allowed to boil will be more tender than those that cook hard. Tough meats become tender by proper cooking, while the reverse of this is equally true. Hard boiling in salted water will toughen the best piece of meat ever sold.

CYCLING NOTES

American cyclists are in general use throughout Europe.
There will probably be twenty-five per cent more next year than last.
In Holland bicycles, which were caught as annually sentenced to three years of hard labor, are coming now to recognize the safety and danger of overloading.

THE MARKS

Table with multiple columns listing various market prices, including wheat, flour, and other commodities. Includes sub-sections like 'MARKETS' and 'NEWLY CLEANED'.

KEEPING CRANBERRIES

This fruit will keep very well in water, which is the only way practiced in Europe. The fruit is put into barrels or kegs, which are filled with water and the berries are packed as they are picked in this way or kept in storage. Freezing, however, is to be avoided, and that method is not so much used on this side of the ocean as probably due to the difficulty of keeping the fruit from freezing when packed in water. But dry freezing is equally as injurious to this fruit as wet freezing.

CARE OF LAMPS

The care and cleaning of lamps is a point that deserves great attention from every housewife, as so few seem to be thoroughly relied upon to bestow the necessary time and trouble upon them, and it is, of course, not always possible for the mistress of the house to take this duty upon herself, though that is by far the most satisfactory plan. All lamps should be thoroughly cleaned at least once in three months the reservoirs and burners must be boiled in soda water, dried before the fire, and then gently brushed to free them from dirt. The cloths used for the daily dusting and trimming of the lamps should be frequently renewed, and to insure a good and steady flame the wicks should never be cut, but rubbed with soft paper until all the charred part is removed. When the lamps are not in use the wick should be kept turned down, as if this is done the oil is liable to come up between the glass and the burner, making the lamps greasy and causing an offensive smell. If lamps are allowed to burn, the oil should be emptied out and the wick removed. A pinch of salt or camphor dropped into the container of a lamp will cause it to burn very brightly.

THE NATIONAL GAME

Boston has decided to release General.
Baltimore has eight battles in the first forty in the League, all above .300.
Chicago will have the longest season in the history of the National League.
There are more old-timers on the Cincinnati team than on any other of the National League clubs.

RECIPE

Turks Cap—Mix one pint of rich milk with seven well-beaten eggs, half a pound of flour and a teaspoonful of salt. Bake in a cake tin and serve quickly.

NEWLY CLEANED

The Baltimore Club will probably play next year without a new pitcher.
There is a report that the late deposit of petroleum has been discovered in Alaska.
During the past summer hundreds of dollars worth of pearls have been taken from a rock in Bali, Malaya.

THE LABOR WORLD

Ohio has 1187 coal mines.
Bakers have 100 local unions.
Pittsburg has 20,000 miners.
Delaware has 242,000 members.
There are 9000 union bicycle riders.

ARTIFICIAL GARDENS ON THE SEAS

A writer in one of the London fashion papers hopes that the present fashion of wearing a quantity of artificial flowers on the headgear will long flourish as it gives employment to a very large class of poor women.
Taking one thing with another, the fashion of wearing a quantity of artificial flowers on the headgear will long flourish as it gives employment to a very large class of poor women.

THE CENTER OF POPULATION

In calculating the location of the center of population of our country the census officers consider the whole face of the United States as being a plain surface, itself without weight, but capable of sustaining weight. In making this calculation they consider the country as being levelled with its inhabitants in number and position as they are found, each individual being assumed to be of equal weight, and consequently, to exert pressure on the pivotal point directly proportionate to his distance therefrom.

A WATCH CHAIN

There is a symbolic significance in the watch chain ornament formed of two bear tracks bound together in crescent shape with a piece of gold or silver. This or any other figure of two prongs—a horseshoe, for example or a pair of open shears—is believed to keep off witches.—Philadelphia Times.

TOWN NEWS AND NOTES.

Miss Lillie Franklin went to Providence last Tuesday to attend the Epworth League convention, as a delegate from Taber Chapter. The convention held a two days session. Miss Franklin visited with friends also while in Providence. Miss Green of Wapping, assisted by the Hartford Mandolin Club, will give an entertainment in the Armory Wednesday evening, Oct. 14. She is said to be an eclectician of exceptional merit and will give this entertainment here at the nearest request of many of her friends.

After a lingering illness from consumption, Patrick Foley of Pearl street, passed away last Monday and was interred in the Catholic cemetery on Wednesday morning, services being held in St. James church. The bearers were John Quish, Wm J. Carr, John Tynan, John O'Brien, James Shiel and Stephen Horan. He was 85 years and six months old. He leaves a wife and four small children.

Timothy Sullivan, insurance solicitor and Miss Emily Close, daughter of Mrs. Daniel Litter, were united in marriage by Rev. D. A. Haggerty July 8, 1896. Bartholomew Reardon and Miss Quinn witnessed the ceremony, which took place at the rectory. For reasons of their own they did not make their marriage known to their relatives until last Saturday, when they gave them a great surprise by telling their story in full. They have not taken up house keeping as yet.

J. F. Ragan, supervisor of penmanship and drawing in the public schools of Rockville, is about to have the Frang system of drawing introduced in the schools of that city. David Husband wishes to inform the public that Professor J. C. Smith has opened his dancing school in Oxford hall in a couple of weeks and requests intending patrons to give their names to him, as he is acting as local agent for the professor.

The person who took a lady's winter jacket from the dressing room in the armory at St. James rectory last Wednesday evening will avoid serious trouble by returning same to the office of THE NEWS. The jacket that was left in its stead will be asked.

Mrs. Eleanor McLean of no question was elected president of the state organization of the Ladies Auxiliary of the A. O. U. in Hartford yesterday and Miss Maggie Murphy, also of this town, was chosen as treasurer of the county organization of the order. Miss Eva Broadell refused the use of her name for the office of state president and it was decided at the meeting of the local auxiliary last Sunday, to present the name of Mrs. McLean instead.

It is about as difficult to predict the action of a caucus, as it is to forecast the weather. A paper in one of the Hartford papers a few mornings ago, seemed to know all whom the citizens intended placing in the different offices. If Wednesday night's caucus means anything, we believe, and are convinced that all our prophets who wear a prophet's garb.

On page 4 of this paper we quote from the Connecticut School Journal a number of good features possessed by the Hartford Business College, that are of deep interest to such of our readers as are seeking a business training, either for themselves, their children, or their friends.
