New York, November 4.—The elections show that McKinley and Hobart are to be the next President and Vice-President by a majority of the Electoral College votes. The voting has been very decisive in almost all of the States. The returns received in this city from the various States up to 2 a. m., are given below:

The piurality of 20,000 which was rolled up for McKinley is a change of 100,000 votes as compared with 1892, when Grover Cleveland carried the city by a plurality of 76,000 over Benjamin Harrison.

In Brooklyn McKinley also was victorious. Almost complete returns show his piurality in a total vote of 170,000. Lorin A. Cooke, of Winsted (Bep.), is elected Governor by a plurality of two, and they claim eighteen out of twenty-one Assemblymen.

Careful estimates received from every county in this State make McKinleys aplurality not far from 250,000, or about 100,000 more than Morton's in 1894. Never before has such keen interest been displayed in this city over the result of an American election. The Daily Chronicle and the many provincial papers displayed in their office windows the bulletins which are received at Effingham House by cable and immediately forwarded to them by telegraph. Elaborate preparations were made at the various telegraph offices in the city, the West End, and Piccadilly to announce the result of the election.

Great interest was taken in the election in London, and the Stars and Stripes and pictures of McKinley and Hobart abound in American resorts. There has been a good deal of betting on the result of the election.

In Berlin, Paris and throughout Europe, in fact, the result of the election was awaited with breathless interest.

The suggestion met with unanimous response from the crowd of perhaps 200 men who stood outside the roped inclosure.

The casting of the ballot was received with applaure and after shaking hands with the election official hearest him Mr. Bryan wedged his way out through the crowd and was driven to his home, accompanied by a large escort of the Bryan Home Guards, consisting largely of farmers.
