S SPORT FOR THE LITTLE ONES.

R. M. Blyth has just introduced a novelty for children, that is both amusing and instructive and is going to have a large sale on that account. It consists of a series of rubber stampe and an inking pad, with which the children make the outlines, then they have a set of water colors, or colored crayons, as they may choose, and with these they color or clothe the figures of soldiers, drummer boys, cavalrymen, cowboys, and also decorate landscapes, farm scenes etc. thus furnishing a large wariety of subjects and giving the little.

The following is a summary of what the United States Government is doing: Battle-ships and cruisers preparing, 18. Pounds of smoker purchased, \$240,000. Navy yards now rushing work, 3. Mooring buoys and end of Florida coast. Every naval man anxious for promotion is of the opinion that all this stir means a possible clash with Spain.

The one thing that has impressed them most and convinced them that there is a possibility of trouble is the fact that the Lighthouse Board has ordered a number of mooring buoys sent to the Tortugas, off the coast of Florida. Enough of these bueys have been ordered to enable the whole fleet to lie in a harbor without casting anchor.

The Naval Ordnance Bureau has bought lately \$249,000 worth of projectiles and a great quantity of powder, and is having made in addition 150,000 pounds of smoke-less powder.
