What is needed in China, evidently is a therough reorganization of the financial system of the Empire on modern, businesslike and honest bagia. It would be easily possible thus to double the revenues without in the least increasing the burdens of the texpayers. It is grotesque for such an Empire to be compelled to borrow from abroad a paltry \$200,000,000. and to be in desperate straits to meet the interest on such a loan. Sound financial administration in the opinion of the New York Tribune, is really the foremost need of the day China, and it will be well if, through his travels, Li Hung Chang shall have been persuaded of that fact, and moved to put it into effect.

Beerbohm Tree, the English actor, has evolved an ingenious theory to ex plain why it is that heavy tragedy has almost disappeared from the stage, and even light comedy is not too successful with the "variety show," says the New York Times. It is, he suggests, merely a matter of the dinner hour and digestion. When people ate their principal meal at midday, they could go to the theatre several hours later with their stomsche at rest and their brains demanding employment. Now passing directly from the dining table to the playhouse, they instinctively shun anything provocative of mental exertion. "What is tragedy?" asks

The shipment of American horses to England is steadily increasing. In 1898 Great Britain took 13,737 American houses, nearly 23,000 in 1894, and 34,000 in 1895, more American houses. ing the first nine months of 1896 more American horses were shipped into England than

cars in transit. The cost of carrying them through the maits was over \$70,000. Enough seed was sent out gratuitously to plant 115 square miles of garden. Each Congressman received enough to plant 163% acres. For the current year, at present prices, the amount required by Congress to be expended in the purchase of seed will make each injured.

Cougressman's quoto double what it was last year. The Secretary calls this an unneces-sary and wasteful expenditure of public money, and hopes Congress may in good time put a stop thereto.

Becretary Morton refutes the idea prevail-ing that the farms of the West and South are

more heavily burdened with mortgages than those of the East and Northwest. States along the North Atlantic, he says, are quite heavily incumbered with farm mortgages, and New Jersey carries a debt of this kind greater in proportion to its farm valuation than any other State in the Union. AYER'S ARGUMENT.

If there is any reason why you should use any sarsaparilla, there is every reason why you should use Ayer's. When you take sarsaparilla you take it to cure disease; you want to be cured is quickly as possible and as cheaply as possible. That is why you should use Ayer's: it cures quickly and cheaply-and it cures to stay. Many people write us: "I would sooner have one bottle f Ayer's Sarsaparilla than three of any other kind." A druggist writes that "one bottle of Ayer's will give more benefit than six of any other kind." If one bottle of Ayer's will do the work of three it must have the strength of three at the cost of one. There's the point in a nutshell. It pays every way to use
