TOWN NEWS AND NOTES.

A drenching rain descended upon this portion of the earth last Monday night and Tuesday doing a world of good, making the hearts of the farmers rejoice and giving a new lease of life to the berries, potatoes and other crops. It was most heartily welcome. In his new advertisement which appears in another column, C. H. Keeney is offering some bargains in watches that are well worthy of notice. We presume the prices he now quotes were never offered here before on those movements, as they are well known, have been sold for many years at prices far ahead of those he now quotes on them. Harry Hills of this place, who was recently graduated from Morse's Business College, Hartford, where he took the Commercial course, has secured a position as bookkeeper with John Pinney & Sons, lumber dealers and general contractors in New Britain. His many friends here will be pleased to learn of his good fortune and hope he may be equal to the opportunities offered in this very desirable position. The new bicycle law went into effect yesterday, July 15, and it is now unlawful for any one to ride on the sidewalks. Ample notice of the new law, with full explanations have been given in the local papers and there is no good reason why anyone who wishes to be informed on the subject should be ignorant on its provisions, or be surprised if punished for violating the new statute. Albert C. Beecher has again taken a position on the team with A. H. Skinner and is renewing his acquaintance with the patrons, many of whom he served for four years when with Mr. Skinner before. He is well known here and very popular and we bespeak for him a very cordial reception among his old customers, as well as with many new ones. The Salvation Army will hold their open air meetings in front of Cheney's store, hereafter, on Saturday evenings. The Sunday afternoon meeting will be held in the grove near Monument Park, as usual, if weather is favorable. If not, meeting will be held in the hall. Meeting in the hall at 8 p. m. Subject: "The Falling Man or the Falling Stone." All welcome.

We regret to chronicle the fact that M. S. Chapman by applying himself too assiduously to his manifold business interests, has so far overreached that he is compelled to retire from active work entirely for the present, and seek treatment by a specialist in nervous diseases. He will be absent for several weeks and his many friends earnestly hope that his recovery may be speedy and permanent. The Rebekehs had a royal time at their home warming in Odd Fellows hall last Monday evening. An elaborate supper was served in sumptuous style after which an entertainment was given in the lodge room. The equipment of the new hall for furnishing such a banquet and entertainment were fairly tested, came fully up to the requirements of the case and were satisfactory in every particular. At the open air meeting of the Salvation Army in front of Cheney's store last Saturday evening, seats were provided for the Salvationists, who appreciated the courtesy very much. A large body of interested spectators were attracted, who remained until after nine o'clock listening to the music by the brass band and the remarks by the various speakers. Eostin McLean delivered a stirring address. He is a forceful and ready speaker. A gang of men have been at work this week grading and making a new sidewalk on the north side of West Center street as far as the bridge of the South Manchester railroad. This will open some more building lots in that direction and in all probability that entire street will be built up before long out as far as the bridge. Center street has enjoyed a great building boom in the last few years, and the end is not yet by any means. The children of St. Mary's Sunday school, and there are many of them, will go on a picnic to Laurel Park Thursday, July 23, leaving here by special cars at 8:45 a. m. They will spend the day enjoying a basket picnic, the swings, merry-go-round etc. and, as usual, their ice cream, an annual feature of this picnic that endears it to the hearts of the small boys and girls very much. They always have had plenty of spots on these picnics and no doubt they will have this time. About 75 of the friends of Chas. H. Keeney, our well known jeweler, gave him a surprise party at his residence on Charter Oak street last Friday evening. They came loaded with an abundance of good things to eat, enjoyed a collation, had music, dancing, singing, games and general merry making, and as a token of their esteem and friendship presented him with a handsome parlor lamp. Charlie was not let into the secret until the party called, but he enjoyed the sport as well as any of them. Fertilizers and land plaster. Wood of all kinds, George F. Day. Lawn mowers \$2.50 and upward. Clapp & Treat's Hartford. 611. Great underwear bargains at Cheney's Mark Down Sale.

The Fitton Field Day exercises will take place in Hyde Park, Rockville, Saturday, August 7, including bicycle races, and general athletic sports. The prizes, medals etc. are now on exhibition in the display window of Cheney's store. It is expected that a number of wheelmen and other athletes from this place will take part in the sports. Advertiser Letters, South Manchester, Conn., July 13, 1897.

Margie Adams, Mrs. Minnie Bidwell, J. J. Black, G. W. Dape, F. J. Moore (2), Harry McFallen, Mrs. Ira Rathburn, Mrs. S. G. Seymour, Conrad Schuler, Edmund S. Wiley. ROLLIN M. ROOD, F. M. Orders were issued from the adjutant general's office on Wednesday announcing the names of officers of the Connecticut National Guard reported by the examining board as having passed satisfactory examinations in the duties pertaining to their rank and among them we find Captain Harry W. Keeney, Company G, whose commission will bear date July 29, 1896. First Lieutenant Joel M. Nichols, and Second Lieutenant Lewis J. Douville, both same date as above. Edward J. Cadman has given up his position as finisher with Cheney Brothers. He has been in their employ since 1868, with the exception of two years, when he went West. His health is not good and he finds that he must give up the business and get out of town. During the first 10 years of his stewardship he served as silk finisher. Of late years he has been in the velvet department. He took a trip to England not long since hoping to build up his health, but did not succeed. A delegation of Foresters went from here last Monday evening by special railway car and attended the installation ceremonies of Court Raymond, Foresters of America in East Hartford. After the business of the meeting was concluded, refreshments were served and a merry social hour enjoyed, the East Hartford Foresters extending every possible courtesy to their visiting brethren. The event was very much enjoyed and members of the order here express much pleasure at the hospitality extended. The Glastenbury Knitting Company have found it necessary to reduce their working time from five to three days a week. They have been doing a fair business however through most of the period of depression and it is to be hoped that they may be soon able to resume on full time. They make an excellent line of underwear, the "Glastenbury," that is known by the trade in all parts of the United States and has a good sale. They are honest goods in every particular and people who use them are sure to do so again. We do not know of better garments for the money. Leonard W. Ross, of Boston, who is a landscape architect and forester, has been fixing the lawn adjoining the driveway at the residence of H. G. & R. Cheney for the past couple of weeks and making some other improvements about the grounds. The work is very pretty, particularly the sloping banks of the roadway, which are laid out in a gracefully flowing style with smooth and even curves, and a finished and artistic effect that is very pleasing. The work shows a master hand in design and execution. R. M. Alexander of Hartford is credited with having broken the world's record in a twenty-mile road race at Stamford last week, provided the measurement of the course is correct. His time was 41 minutes and 33 seconds, which was 10 minutes and 18 seconds faster than his previous record. It is thought however that there must be a mistake in the measurement of the course, as the difference between the two records seems too large to be real. Alexander's previous record was 31 minutes and 41 seconds faster than the time made in the road race here July 3, 1897. WILL ENLARGE SCHOOL BUILDING. At a special meeting of the Sixth School District, held last Saturday evening, it was voted to expend a sum not to exceed \$1,000 for building a new room and for ceiling and flooring the old one. The special committee appointed a week previous, to secure plans and estimates made its report in part, and the result was the vote as noted above. At an adjourned meeting to be held Saturday evening, July 31, this committee will report further. These enlargements will necessitate the employment of two teachers, and will give the children of the district better educational advantages by far than they have ever had. It is expected that these alterations and improvements will be ready by the first of September. The teachers have not been hired yet.

Millinery at cost at Cheney's Mark Down Sale.

Does Your Watch keep good time? No reason why any watch should not do it. A watch is a most delicate piece of machinery. Ordinary attention and care will naturally prolong the life of any watch. If your watch loses or gains time, it must be correctly regulated. If your watch needs cleaning or repairing it should be done by a competent workman. Experience and skill make a workman competent. I warrant competent treatment for the most costly or the most valuable time piece. Bring it here. Service prompt, charge moderate. Only a dollar for cleaning or main spring. BUILDING - LOTS - FREE. It is a trifle early yet for this very popular dish and the quality is not fully up to the standard, but soon will be. Herbert R. Fitch of this town has opened a photographic studio in San Diego, California, where he is sojourning for the benefit of his health and is getting on nicely. Weekly drills were resumed by Company G, C. N. G. last Monday evening, the familiar call of the bugle and string roll of the drum summoning the military to duty preparatory to going into camp. Huckleberries are beginning to come in, but the reports are that the yield will not be very large. It seems as if we should have a very large crop as the weather is certainly most favorable to their growth. A heavy downpour of rain yesterday morning prevented the pupils of St. Mary's Sunday school from going on their excursion to Laurel Park, as proposed. They will go next Tuesday morning instead. Howard Bidwell was mixed up in a bicycle collision on the track at Woodland Park last Monday night and came out of the entanglement with his front wheel demolished. Neither rider was injured.
