One of the heaviest rainfalls of the season, while it lated, fell here last Tuesday about noon, and lasted about 30 minutes. On page 3 of this paper an interesting account is given of the dangers that beset the thousands of persons who are going into the mad rush to the alleged gold fields of the Alaskan region in Alaska. That the danger is imminent is evidenced by the letter issued by the Secretary of the Interior of the United States, warning the unwary, the unformed and the ill-advised, to keep away from these as death by starvation and cold is certainly staring them in the face at every point of the way, and that when winter sets in and the food supply runs out, there is no escape save through the portals of death.

On Tuesday they were joined by George Ferris Jr., Willie Santil and Leroy Hale, who brought down a tent for themselves and pitched it alongside of the other. All arrived in good form and without any accident. They are having a glorious time—between the showers—if such we may call them.

In behalf of the friends assembled Miss Mabel Bove presented him with a silver shaving mug, gold lined and with a water proof coat. As soon as Mr. Lynch could recover from the effects of the surprise he responded, thanking all for these tokens of their affection and stating that he was surprised to find he had so many good friends.

W. Robbins, who was pastor of the Center church here for a period of over 25 years, before the absence of Rev. Thomas Simms, who is with his family at Block Island. BURGERS FOILED.

Last Monday night Lewis Sperry, the watchmaker, who is employed by Chas. H. Keeney, the jeweler in the Park building, closed his store as usual and carried the valuable watchmaker's key and other valuables in the trunk block on Charter Oak street, where he placed them in the safe and locked them up for the night.

He retired shortly after 10 o'clock and about one o'clock in the morning was awakened by a noise of some kind, the nature of which he did not know at that time. He went into the upper hallway, listening, and after a time heard some whistling and heard some one turning the combination of the safe.

He went back to his room, took his large 38 caliber Smith & Wesson six shooter, which he had placed conveniently on a small table at his bedside and walking softly to the head of the stairs saw a faint light gleaming through the crevice of the door at the foot of the stairs leading into the kitchen.

He hurried into the kitchen, found the door ajar, and looking in saw a shadowy figure in the darkness. He fired one round, but saw no one. A woman who lives in the wooden tenement adjoining heard the burglar run across her veranda.

The safe stands directly in front of the door leading up the stairs from the kitchen and had the burglar been at work on it, they would naturally have been there, as Mr. Sperry directed his aim very accurately and the three bullets passed through the door, struck the safe, were found on the floor in a group, and the burglar fled.

Mr. Keeney and his family were out of town enjoying their vacation at the time and Mr. Sperry was alone in the apartment. The door had never been locked since Mr. Keeney owned it, until just before he brought in an expert, who adjusted it so that it could be locked. The combination had been lost and consequently could not be operated.

The burglar came up by the rear stairs, tried the latch open on the win dow, as evidenced by the casing which is jammed where they forced their way in. They worked their way in through the door below, then having them from a charge of cold lead.

He calls upon the ladies to make and present fancy articles that will be placed on sale and asks the cooperation of all to make the event a success.
