To do things well is to do God's work in God's way. Nothing is trivial that God you have come with low motives, thank is worth doing at all worth doing at all.

It is true that not all can be great in the lim glad to have a chance at you, whatsight of men, but every man may belong to heaven's nobility. There are men in the humblest walks of life who will wear covted crowns in the hereafter because they did their simple duty in a simple fashion.

When we get into the other world we shall be profoundly surprised to find that the Lord's standard of value is very different from that to which we have been accustomed. We regard social position, wealth, intellectual culture as of prime importance and rather imagine that the Lord's lithink if this were really done you would be seen and rather imagine that the Lord's lithink if this were really done you would be seen as the lord of the seek the Kingdom of God. In think if this were really done you would be seen as the seek the Kingdom of God. portance and rather imagine that the Lord will besitate to condemn any one with these three enviable possessions. But it is clear that we and He do not agree, for with Him a pure heart and a sweet, placid and gentles long as you start right and follow that text life are worth more than all else besides.

Not even God can make either your heart pure or your life sweet without your assistance. Nor can you make a pure assistance. Nor can you make a pure assistance.

assistance. Nor can you make a pure heart or a sweet life without His assistance. These desirable results must come from a close association of God with man and of man with God. When your weakness, moved by a divine ambition, is commingled with His omnipotence, then and then only can the ideal soul be produced. He can make wealth, He can give you the genius which will make you famous, but it is absolutely necessary for you and Him to work in holy partnership before the thing which.

"If Moses should suddenly appears here them."

Tou can't tell what may happen before the morning. Christ would not even allow a man who followed Him to hary his dead father before he had obtained the Kingdom of God. I believe there are thousands and tens of thousands of young people who have written on the flyleaves of their Bibles by some loving father or mother the text I have quoted, from Matthew vi., 33.

"If Moses should suddenly appears here them." in holy partnership before the thing which what do you suppose would be the first heaven prizes most can be attained.

When we step across the border we shall words he would say to you? If you usked words he would say to you? If you usked words he would say to you? If you usked words he would say to you?

When we step across the border we shall find that many of our earthly ideas of value are either mistakes or prejudices, and that lives are acceptable and profitable only in proportion to their spiritual symmetry and beauty. The more a man does for others, therefore, the more he does for himself, and if he cares only for himself, to the neglect of others, he will himself, to the neglect of others, he will have to go into the primary class in heaven maker, Paul of Tarsus, were here. At frame 18 the vertical keel is broken in two, and the flat keel bent into an angle similar to the angle formed by the outside bottom plating. This break is now about six feet below the surface of the water and about thirty feet above its normal position. In the opinion of the court this effect could have been produced only by the ext plosion of a mine situated under the bottom of the ship at about frame 18 and somewhat on the port side of the ship.

Destroyed by a Mine.

6. The court finds that the loss of the Maine, on the occasion named, was not in any respect due to fault or negligence on the part of any of the officers or members of the crew of said vessel.

7. In the opinion of the court the Maine was destroyed by the explosion of a submarine mine, which caused the partial explosion of two or more of her forward magazines.

PERFECT DIGESTION will be accomplished by taking Radway's Pills. By their ANTI-BILIOUS properties they stimulate the liver in the secretion of the bile and its discharge through the biliary ducts. These Pills in doses from two to four will quickly regulate the action of the liver and free the patient from these disorders. One or two of Radway's Pills, taken daily by those subject to bilious pains and torpidity of the liver, will keep the system regular and secure healthy digestion.
