PROTECTION ACAINST DOGS OR MEN, WITHOUT KILLING OR MAIMING. LOTS OF FUN TO BE HAD WITH IT.

It is a weapon which protects bicyclists against victous dogs and foot-pads: travelers against robbers and toughe; homes against thieves and trainpe, and is adapted to many other attrations.

It does not kill or injure; it is perfectly safe to handle; makes no noise or smeke; breaks no law and creates no lasting regrets, as does the bullet pistol. It simply and amply protects, by compalling the foe to give undivided attention to himself for a white instead of to the intended victim.

It is the only real weapon which protects and size makes fun laughter and tion to himself for awhite instead of to the intended victim.

It is the only real weapon which protects and also makes fun, laughter and lots of it; it shoots, not once, but many times wishout relocating; and will protect by its appearance in time of danger, although loaded only with liquid. It does not get out of order; is durable, handsome, and nickel plated. Sent housed and post-paid by mail with full directions how to use for 50C in its.
